THANKSGIVING, 1945

This is the time of year when man if offered the upward look, the lifting of eyes and prayers for his fulfillment, his benefits. His Thanksgiving thoughts are evidence of his appreciation to God. As a whole we do not take time as a religious people, to engage in manifestations of our faith. The annual observances of religious holidays we keep in the traditional manner but stray from our faith in a benign Providence, in the interim.

Many Burkburnett families will units to partake of the Thanksgiving dinner as before the recent war interrupted the usual festival of Pilgrim founding. A plentiful plate, after this victory, is not the only blessing for which each such family will give thanks this year. We have many protections and benefits to add to our already long list.

This November finds us thankful for a harvest and a peace, yet other countries of people no better than we, lack both. Many favors have been visited upon this nation since the Founding Fathers carved out the base for our good fortunes. A land rich in goods, acres yielding a harvest one of the greatest in our history, production is advanced to fill Burkburnett cupboards. During George Washington's time a farmer could supply his own family and one other. Today, our farmers take care of their own brood and nineteen additional families from each farm tract. So as time goes on we prepare again the ground, distribute the fruit of labor, build a granary to provide for the common welfare, with herds and heads yielding bountifully meats and butterfat, eggs and milk. Generations labor on the land to bring this about and a grateful people take Thanksgiving to bless such toil. Weather, fields, man and a kind God, supply us our daily bread. Creatures of comfort we have become, with such abundance heaped on our doorstep. Rich in world's goods we are not unmindful of them. But this Thanksgiving we must give deeper consideration to those other blessings beyond price. While we enjoy the harvest, other nations starve. It is not selfish of us to give thanks for being benefited, but it is selfish to not appreciate and relieve the people not so fortunate. We should be touched by world conditions, for the a variety of nations, a conglomoration of tongues, a difference in color, conflicting political views, divergence of religions, still a united front in a fight for food. Soil and toil makes all men brothers.

Yet we, in spite of being so fortunate in a unfortunate world, are not able to reap harmony, understanding, faith, in the harvest of peace. So let us as we sit down to our bounteous dinner, pray that we be blsesed with unselfishness and, through the grace of God and our own efforts, that our comforts be extended to those beyond this land of plenty.

GOVERNMENT JOBS

Service men return to civilian garb but government workers are still being employed in terrific numbers. August and the war was ended. September I and there were more on the federal payroll than just the month before. The civilians holding government jobs crowds the rosterand the taxpayer. It is vital to maintain enough workers to keep the wheels of government moving smoothly. But, eliminate the civilian government workers under 20 and over 80 years of age and it figures one out of every 24 people in this country employed by the U.S. One in 24 is living off of the 23. Tax cuts, reducing overhead, cutbacks, and still more money goes to run more of Washington. Overlapping of bureaus, overstaffing of offices and you have the unnecessary waste in government jobs. Let's do some reconversion in Washington.

Forgive them their uselessness. So try Faultless Starch, and To some of them this terrible experiment of war has come just at the wrong time. It's hard to go back into college, it's harder still to get into employment for which they're boy just out of uniform will come down late to breakfast-and little sister will look questioningly at you. Is she supposed to hang around until 10 o'clock to cook eggs for Billy? You will suggest to him that he might like to see Uncle Joe about going into the paper mill, or Cousin Roger about a job at the hotel. He will nod, his mouth full of your good waffles, but he won't go to see either. A spring has been broken in his young fine make-up, and it may be months before that spring is re-

READJUSTMENT TO PEACE

Wives, mothers and friends of returning veterans find that the young men they used to know and love have come back strangely different. They are bitter and cynical often. They are unsettled, difficult, touchy. They want to be shocking in ideas, attitudes and speech, in many cases.

They are difficult to live with. Many won't fit into any job. They just sit around the house, morose and dull, or else tiresomely garrulous. Going back to school under the G. I. Bill of Rights doesn't look attractive to many men. There just doesn't seem to be anything they really want to do.

Some have gnawing consciences about incidents while they were away. Maybe they got involved in some black market deal. A number have been unfaithful to their wives while enduring the loneliness and misery of war in distant lands.

All this, Miss Norris says, must be forgiven. These men have survived terrible experiences, particularly horrible to young, impressionable soldiers.

home life again.

Recovery is Slow.

Forgive him, you mothers of wounded boys, his hypochrondia. He's been hurt, patched, bandaged, he's been in splints or on crutches; his young blood and young courage and young strength has been drained away from him, and he can't regain what he has lost in a hurry. He'll be fretful, talk symptoms, bore you all with his phyical history. Not for long, but until he gets on his feet, in nerves and mind and soul and body again.

And finally, some of you wives forgive him that he put someone else in your place, for awhile. In loneliness and distance men need women for comfort, and when any friendly, attractive woman is near, home seems very far away. When he comes back to you, and perhaps blurts out his regret and his surprise at what he did, forgive him then. It is part of the total world ruin of war that so many wives find it impossible to forgive this one thing. But it isn't the worst offense not fitted. They will drift. The big a tired, lonely, hungry, despairing man ever committed. Cruelty and injustice and abuse of powerthese crimes leave deep scars. But reaching out wearily for companionship and affection, when the home affection and companionship for which he longs is not accessible, this is some thing to be forgiven-and forgotten. As we forgive those who trespass

against us, we all are to be forgiven some day. Lay up in the spiritual banks for yourself an emergency fund of divine forgiveness.

CHRISTIANS WORKING TOGETH-ER IN THE COMMUNITY LESSON TEXT: John 17:20-23; Acts

GOLDEN TEXT: We are laborers to-ether with God.—I Corinthians 3:9. Unity within the Church is God's plan and purpose, but that does not mean that some man-made plans for unity are either scriptural or desirable. There is much pressure being exerted now to unite the Church on the basis of a vast ecclesiastical

organization, quite apart from any

doctrinal or spiritual unity. Such unity was not in our Lord's mind. He wants spiritual unity, and in such fellowship the Church will find its only real bond of united life and action.

I. Unity in Spirit (John 17:20-23). Here we enter the veritable holy of holies of Scripture. Facing the time of His departure and death, the Lord prayed for those who believed, or would believe (v. 20) on Him.

What was His prayer? That they should be one with the Father, with Him, and with one another. This had to be accomplished while they remained in this wicked world (see John 17:13-16). How? By the cleansing and sanctifying work of the truth.

The Word of God-the Bible-is the instrument used by the Holy Spirit in this work of sanctification. Small wonder that there is little holiness and spiritual unity when the Word has so little opportunity to touch and to cleanse. Reader, do you study God's Word?

Such separation to God will result in real spiritual unity between those of all denominations and creeds. It is not some artificial thing to be put on from the outside. It comes from the heart of man and reaches out into his life and into the lives of oth-

II. Unity in Action (Acts 15:22-27). Satan tried to thwart the missionary efforts of the Church at the very outset by starting a doctrinal controversy.

Although the first council at Jerusalem (Acts 11) had decided that "to the Gentiles also hath God granted repentance unto life," the question did not stay settled, for there were persistent Judaizing teachers who now contended that even though the Gentiles could be saved, they had to come into the church by way of Judaism and first fulfill the Jewish rite of circumcision.

The story of how this vital and fundamental question came up is found in the early verses of Acts 15. The entire future of the gospel ministry was in a sense dependent on the solution of this problem. Christianity is the only religious faith in the world that presents justification by grace as the way of redemption; all others follow (more or less) the path of salvation by works.

The question now was: Shall built, and he is geared to normal works of the law be mingled with grace? Can Jesus Christ alone save men, or is salvation through Jesus Christ plus something else?

How was such a serious question to be settled? Should argument and strife be permitted to go on until the stronger party prevailed? Better judgment indicated the desirability of a Christian method of set-

The final decision of the council is sent not only by Paul and Barnabas, but also by a committee from Jerusalem, a gracious gesture of fellow-

As a matter of record (a wise procedure in such a case), a letter was sent which, after addressing the Gentiles as "brethren," reviewed the history of the matter and then, without mentioning circumcision at all, put upon the Gentiles "no greatburden than the necessary er things." And what were those? Those things which relate to purity of life as those who were enjoying Christian liberty. The law of Moses need not be kept as a ground of salvation. They were saved by grace But grace can never be the cloak of careless living, nor can liberty in Christ be interpreted as license to live in sin. We are set free in Christ, not that we may sin, but that we may "go and sin no more." III. Unity in Doctrine (Acts 15:

28, 29). In non-essentials we should exercise toward other believers the greatest love and consideration. Men have a right to differences of opinion, and must follow the dictates of their own consciences. Let us not be betrayed into controversy on such matters.

There are certain foundation doctrines which must be held if a church is to be Christian; concernneeded, despite the happy changes ing these we stand together. There in the war situation. Recent re- is a faith for which we are to earnestly "contend" (Jude 3). We are never, even on the grounds of supposed courtesy, to give aid and commore cases from the 1945 pack than fort to false teachers (II John 9-11). Kindly, tactfully, but definitely the requirements are so high that civil- Christian Church must stand true to ians will get about 10 per cent less its doctrinal convictions, standing canned vegetables than from the united against an unbelieving world, 1944 pack. There has also been a and if need be, an unbelieving re-

LABOR-INDUSTRY:

Discuss Bargaining

Backed by AFL Chieftain William Green and representatives of management, burly John L. Lewis of the United Mine Workers ripped the CIO proposal to tie wages into the present labor-industry conference in Washington, D. C., and demanded that talks be confined to establish-In spearheading the opposition to

the CIO proposal based upon President Truman's wage policy, Lewis asserted that the problem of pay should be left to collective bargaining and not strait-jacketed by any formula based on cost of living. In granting employees increases and adjusting their price structure, employers will be governed by competition to assure reasonable costs, Lewis said.

Even as the 36 labor and management representatives pitched into their task, trouble brewed in the tomobile and steel industries, with the CIO asking the government to intervene following collapse of negotiations with General Motors and U. S. Steel corporation over wage increases to maintain wartime takehome pay.

ARMY:

Step Up Discharges

Mostly European vets originally marked for redeployment to the Pacific, 50-point enlisted men presently home on furlough or on temporary duty in the U.S. have become eligible for discharge, the army reported.

At the same time, the army announced that no enlisted man with 21 or more months of service since September 16, 1940, will be sent overseas for permanent duty except for language specialists, regular army personnel and volunteers.

Also exempt from overseas assignment are officers who have 33 or more months of service, or medical officers with 30 months, except for those who have chosen to remain on active duty, are regular army men or are classed as scarce specialists. Nurses who are 30 years of age or have 12 points will not be sent

GRAIN SUPPLIES:

The bulk of the supplies of wheat available for export in 1945-46 is in North America, the department of agriculture reports. With exports from the United States currently estimated at 300 to 325 million bushels, shipments from Canada may be

Under favorable transportation, marketing and handling conditions, somewhat larger exports would be possible from the United States though shipments from Argentina may fall short.

FOREIGN AFFAIRS: Atomic Talk

The red-hot question of sharing the

equally tough Foreign Minister Er- fortable margin.

determining the bomb's disposition,

Ernest Bevin he asserted, statesmen and not scientists should make the final decision because of their closer acquaintance with political conditions.

In addressing commons, Bevin rapped Russia hard, stating that Britain had met every territorial demand of the Reds only to find them increasing their claims, particularly for control of North Africa and Eritrea on the British lifeline to the east.

Meanwhile, Secretary of State Pernes projected the U.S. into the

international picture with the revelation of this country's support of an Allied commission to guarantee free access to the Black Mediterranean seas through the vital Dardanelles and Bosporus straits, and the release of Italy's territorial

By calling for an Allied commission, Byrnes favored revision of the present Montreux agreement entrusting Turkey with control of the strategic straits, but countering the Russian demand for military bases free passage.

In submitting its territorial views, Italy agreed to readjustment of its French and Yugoslavian boundaries but asked for retention of certain Near Eastern possessions of economic value.

All these diplomatic problems. Jewish immigration in British controlled Palestine were reportedly part of British Prime Minister Att-President Truman.

AID POLIO VICTIMS

More than \$1,000,000 in epidemic aid has been disbursed by the National Foundation for Infantile Paralysis so far this year, with more than threefourths going to Illinois, No. Carolina, New York and Virginia.

Principal expenses of National Foundation chapters include hospitalization and transportation of patients, purchases of special equipment and salaries of doctors, nurses and other professional personnel.

CHINA: Battle On

Full-scale civil war loomed in China as negotiations between communists and nationalists bogged and the Reds took to the offense in an effort to prevent Chiang Kai-shek's forces from infiltrating into their northern strongholds.

As a result of the outbreak of hostilities, the U. S. decided to withdraw American troops from the scenes of combat, the Yanks having been used to aid nationalists in taking over former Jap-held territory. Removal of U. S. units did not signify any reversal of policy in supporting Chiang, however, with reports that the administration would continue to offer him material aid. Thus did the threat of civil war, following close upon V-J Day, dampen long-suffering China's hopes for a period of peace and tranquility in which to unify the nation politically

and lay the foundation for economic

development and modernization.

FINLAND: Try Leaders

Charged with refusal to mediate differences with Russia and prosecuting war on the side of the Axis instead, eight prominent Finnish leaders were arrested by the new government and scheduled for early trial in the people's court.

In the unprecedented movement of for their official acts, Vaino Tanner, dominant Finnish politico of 1941, was accused of failing to take advantage of a U. S.-British offer to mediate with Russia that year.

Tanner again was named for failatomic bomb featured the recent ure to accept a U. S. proposition to conciliate Finnish-Russian differences in 1943 along with former President Risto Ryti, Foreign Minister Henrik Ramsay, Prime Minister Edwin Linkomies, Gen. Rudoif Walden, and Finance Minister Tyo-

Sets Air Speed Record

Exciting possibilities for speedy postwar air travel were opened with the record-breaking performance of Britain's jet-powered Gloster Meteor piloted by Capt. H. J. Wilson.

Smashing the former official mark of 481.84 miles per hour set by Capt. Fritz Wendel of the German air force in 1939, Wilson averaged 606 miles per hour in four runs over a 1.86-mile course at Herne Bay, England. At Wilson's rate of speed, excited sta-

tisticians figured that a plane could travel nonstop around the world in 41 hours: from Los Angeles, Calif., to New York City in 3 hours and 59 minutes; from Chicago, Ill., to Panama in 3 hours and 49 minutes, and from Chicago to Mexico City in 2 hours and 46 min

Western hemisphere production of abaca, which was obtained largely from the Philippines before the war, may aggregate 25 million pounds this year and from 45 to 54 million pounds in 1946.

BARUCH PREDICTS INFLATION WASHINGTON. - Elder Statesman Bernie Baruch revealed some interesting figures on inflation recently in an off-the-record session with 14 younger congressmen at his Shoreham hotel apartment, Baruch's prediction was that the nation was hell-bent for inflation-and soon.

Piecemeal increases in wages, profits and the cost of living have been uneven, Baruch said, with wages lagging behind. For that reason he no longer favored his prewar idea of a freeze on both prices and wages. Our only hope, said the elder statesman, is that we can weather the next six to nine months without running into serious inflation. If we do that, our chances of a strong recovery from the war boom are

"The huge pent-up demand for products which we will see during the next nine months, is a very serious threat," said Baruch, stressing the importance of holding prices down.

He amazed his listeners by saying that he is completely opposed to a country to punish former leaders tax reduction of any nature at this time. "Not only does the government lose needed revenue, but it is an unhealthy thing for our general economy," argued Baruch.

Rep. Andy Biemiller of Milwaukee asked what Baruch thought of the statement by General Motors' president C. E. Wilson that if wages are raised 30 per cent, prices must go up 30 per cent. Baruch talked at some length on the general question of rising prices, but gave no direct answer. Finally, Biemiller repeated

"I'm afraid I can't agree with Mr Wilson," Baruch said.

WAGE NOT PRICE INCREASE

"Isn't it true that industry can give a 30 per cent wage increase without having to raise prices more than about 71/2 per cent?" Biemiller persisted.

"You are approximately right." Baruch agreed. "I believe the figure you may have heard is actually 81/2 per cent.' Baruch also told his guests

that he felt we were making a mistake in speeding manpower demobilization. "With the world in its present situation," he said, "it seems to me it would be wiser to proceed slowly with demobilization, in order that we not weaken ourselves at a time when power is apparently still an important thing."

He agreed also with an idea proposed by one of his guests, Estes Kefauver of Chattanooga, to have cabinet members and other high ofsharing the atomic Haven, Conn., after more than a doz- ficials appear on the floor of congress where they can be questioned by congressmen. Such a practice would make for much greater cooperation between the executive and legislative departments, Baruch

Present in addition to Biemiller and Kefauver were Representatives Albert Gore and Percy Priest of Tennessee, John Sparkman of Alabama, Mike Mansfield of Montana, Henry Jackson of Washington, Jerry Voorhis and Chet Holifield of California, Bob Sikes of Florida, Mike Monroney of Oklahoma, Bob Ramspeck of Georgia, and Jamie Whitten and Arthur Winstead of Missis-

business of your

MANAGE WORLD CHARLED BY BE TO ME SELVE YOUR PARTNERS!

WHETHER you are proprietor or employe, you want your children to have the best that you can give them. You want them to have a college education, some cash for special training, and an opportunity to enter any business or profession they may choose for a career. You want them to have areal start in life!

Mr. Y, a South Texas citizen, had some such thought in mind when he invested a part of his savings in Southwestern Life insurance for his two little children, shortly after their birth. Through a special contract, he made ecrtain that his children would have their opportunity in life, regardless of what happened to him.

Death suddenly called Mr. Y from life's picture a few months ago. Mr. Y didn't live long enough to complete all the plans he had in mind for his children; but through he assured each of his children a real start in life. You can make your children your partners, just as Mr. Y did. You can assure your daughter, come what may, that she will have funds to further her education, buy her trousseau, or help to start her home. You can give your son no greater opportunity in life than to provide him with cash for his technical training . . . cash to buy instruments if he enters the medical profession, or to buy books-if he becomes a minister or lawyer . . . cash for the capital with which to start a business, or the nucleus of a retirement income when he is ready to end his life's work.

Out of savings you will never miss, you can make their fondest dreams come true. Get the facts on your plan today.
