STILL STAYING WELL

National diet has been on a basis of one-fifth wheat. With bread and grains giving us about a quarter of our calories and proteins, the fact that we will have an 80 per cent flour as a substitute might make us think that our health will be impaired. Millers have already added the necessary vitamins, removed in processing white bread, by enrichment with vitamins and minerals. So with the dark bread, which isn't really dark at all. However, the new type flour means adding more sugar and shortening for successful baking and since both are hard to get, the prospect for light cakes and spreads is slim. Cooks of Burkburnett who have a failure in baking can now offer the excuse of inferior flour and get away with it.

SUCH ARE THE BRAVE

Plugging along each day, wondering what is happening in this selfish old world, up pops a human interest story that reminds us that always there is kindness and courage about, if we but look for it. These letters offering eyes for blind war veterans are sacrificing that pull on heartstrings hereabouts. Such is the noble gesture of appreciation of another's welfare, that we feel almost unable to comprehend it. How many among us here in Burk would be willing to have a blind soldier resume his normal life through our eyes. Most of us go blindly through life anyway, though we have the eyes to see.

Byron once remarked about an acquaintance that he had just

enough of learning to misquote.

The Bible does not say that "money" is the root of all evil. The Scriptures say that "the love of money is the root of all evil"—and that is quite a different thing.

As Lincoln said in one of his debates with Stephen A. Douglas, "Judge Douglas would have you believe that a horse-chestnut and a chestnut horse are the same thing."

The Psalmist is quoted as saying, "All men are liars." But what he actually wrote was, "I said in my haste, All men are liars."

And one of the most garbled of all utterances is Jefferson's "That government is best which governs least." If that is true, then a government with only one law would be the very best of governments. What Jefferson said, (I don't have the book at hand, so must give the substance from memory) was that after the lives, property and happiness of the people are made secure, that government is best which governs least.

A saying of Jefferson's which may have challenged is, "All men are created equal." Of course that is not literally true because one man is stronger or swifter of foot or handsomer or taller or more adept at making music or money or a speech than another. I think that what Jefferson meant was that all men are created equal insofar as having equal rights because, after the first statement, he adds that men are endowed by their Creator with certain inalienable rights—among them being the right to life, liberty and the pursuit of happiness.

So if a fellow is going to quote he ought to quote it right—and not rip lift a sentence out by its roots from its context. "A little learning is a dangerous thing."

Washington Merry-Go-Round

By Drew Pearson

RUSSIA WAR TALK WASHINGTON. — It's no secret that there's been considerable talk among the brass hats in the Pentagon building about war with Russia.

However, there can be no doubt about the views of the top military man in the war department—Gen. Dwight Eisenhower.

Two or three weeks ago, Eisenhower was attending a Washington dinner party when people began to talk about war with Russia.

"People who want war should only think a few minutes about the sacrifice Russia has made in the past five years — a loss of life and property so large we cannot conceive of it.

"We have nothing to gain to start with, and would have nothing left when it is over."

ANTI-HOUSING LOBBY Most powerful lobby since the war threw itself into the battle to defeat the Wyatt housing program for veterans.

Many telegrams were phony, as several congressmen discovered when they tried to answer them.

The prize telegram, however, was one sent to all congressmen from the St. Paul-Minneapolis area by the Northwestern Flooring and Lumber company.

After urging that the veterans' housing program be defeated, the lumber company had the gall to add:

"Please also exert your efforts to oppose a standing vote on these issues."

NO TRUMAN ROAD Folks back in Jackson county, Mo., usually are willing to go the limit for any honor to their native son, Harry Truman.

Van Horn road was named after Col. R. T. Van Horn, who settled in the county in 1855 when Kansas City's population was about 455.

WALLACE AND IKES Henry Wallace and Harold Ickes, although agreeing on basic political ideals, have never been warm friends.

IKES' exit from the Truman cabinet has left Wallace as the last of the original Roosevelt New Dealers, and the only cabinet member with a powerful hold on independent voters.

WEEKLY NEWS ANALYSIS

Farmers Set for Big Crop Year; Reds Plan Industrial Expansion; Peron Victory Poses Problem

Released by Western Newspaper Union

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysis and not necessarily of this newspaper.)

With money cheap and goods scarce, German women dicker with Russian soldiers for clothing in Berlin black market.

FARMERS: All-Out Again

In stepping up crop acreage this year in answer to government demands for increased food production, farmers are banking on the continued, good growing weather of the war years and no adverse turn of the present tight labor, machinery and equipment situation.

Though falling short of government acreage goals for 16 major crops by 3 per cent, farmers plans call for planting 357 1/2 million acres this year in comparison with 357 million in 1945 and 355 million for the 1934-'43 average.

Of critical crops needed for overseas relief, wheat is expected to exceed goals while prospects for vegetable oil seeds are less favorable.

With the indicated acreage of corn down from last year and only oats of all the feed grains expected to top goals, additional reductions in livestock feeding through 1947 were forecast.

U S Drinking Heavy

Americans spent an average of \$50 for every man, woman and child in the country on alcoholic drinks in 1945 as consumption reached 190 million gallons, 14 per cent more than the previous year.

UNO: Back Iran

Maintaining its firm position against encroachment on the sovereignty of small nations, the U. S. pressed for UNO's consideration of Iran's complaint against Russian occupation of the country in the face of Soviet opposition.

Evidencing no inclination to back down on its strong statement that it could not remain indifferent to Russian activities in Iran the U. S. bucked the Reds' request for a postponement of Iran's complaint because of their professed inability to assemble pertinent data in time for the hearing.

LABOR BILL: Senate Version

Minus the stringent restrictions of the house-approved Case bill but providing for free movement of perishable farm goods to market or processing centers without interference the senate's education and labor committee drew up its own labor measure for consideration of the upper chamber.

Will Air Grapes to Ease G.I. Lot

Critics of the army's so-called "caste system" will be given the opportunity to express their convictions on military life soon before a special civilian board of former enlisted men and officers headed by Lt. Gen. James Doolittle.

JAPAN: Production

Severely crippled by U. S. bombings through the war, Japanese industry is making a slow but steady recovery under American military direction despite difficulties created by reduction of imports of material, damaged plants and a riddled transport system.

Showing a willingness to rebuild their once thriving economic machine in accordance with democratic principles laid down by General MacArthur, the Japanese have made noteworthy progress in re-converting war production facilities to peacetime output of farm machinery, household utensils, marine engines and parts for motor trucks.

Food

While the Japanese production outlook improved, the immediate food situation caused grave concern, leading General MacArthur to recommend monthly imports of 200,000 tons of wheat, rice and other commodities to avert starvation.

FRENCH BLUEBEARD: Waves Flag

Charged with committing 26 murders for gain during the German occupation, Marcel Petiot went on trial in Paris, France, insisting that he had killed 63—not 26—persons because they were traitors to the cause of liberation.

Looking not only to the rebuilding of its war-shattered economy but also to the further development of the country Russia proclaimed a new five-year-plan affecting industry, housing, education and research.

DIPLOMACY: U. S. Embarrassed

Juan Domingo Peron's smashing victory in Argentine's presidential election has greatly complicated the U. S. diplomatic position in South America since this country not only openly opposed his candidacy but also repeatedly insisted that it could not sign any treaty with a government headed by him.

Second-guessers were quick to jump on the state department's back for underestimating Peron's strength among the working classes and farmers and going out whole-hog for the opposition.

NATIONAL INCOME:

Total income payments to individuals set an all-time high in 1945, with a total of \$160,749,000,000, according to the Alexander Hamilton Institute. This was an increase of 2.5 per cent over 1944.

Salaries and wages in 1945 totaled \$110,162,000,000; somewhat under the 1944 figure of \$111,734,000,000. However, a comparison of the 1945 figure with that of \$45,658,000,000 for salaries and wages in 1939 indicate that the war years brought about a 141 per cent increase.

Improved Uniform International LESSON

By HAROLD L. LUNDQUIST, D. D. Of The Moody Bible Institute of Chicago. Released by Western Newspaper Union.

Lesson for April 7

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

FRIENDS OF JESUS

LESSON TEXT—Mark 10:13, 14; Luke 6:13-16; 8:1-3; 15:1, 2; John 3:1, 2a. MEMORY SELECTION—Ye are my friends, if ye do whatsoever I command you—John 15:14.

Jesus is our friend. We may be His friends. Simple words thus present the most profound and satisfying experience of life.

We may become the friends of Jesus and make Him our friend simply by putting our faith in Him as Saviour and Lord and thus doing what He commands.

What kind of friends did Jesus choose? Did He limit His interest to a select circle of very religious people, or to the cultured and educated folk of His day?

Children were welcomed (Mark 10:13, 14). Observe that the disciples had fallen into that strange mode of thought which excluded the children.

Witnesses were chosen (Luke 6:13-16). When Jesus left this world to return to His Father's throne, He left witnesses behind.

Women were helped (Luke 8:1-3). Yes, and they became the Lord's willing helpers, just as a multitude of their sisters in the faith have been down through the ages.

Women were helped (Luke 8:1-3). Women responded readily to the Lord's message of redemption and to many of them He was able to look for loyal and sacrificial service.

Women were helped (Luke 8:1-3). Women were not highly thought of in His time on earth. They are little more than useful creatures in heathen lands today.

Outcasts were received (Luke 15:1, 2). Publicans and sinners—who would they be in our day? Drunkards, thieves, gamblers, prostitutes, criminals of all kinds.

A beautiful and touching word by G. Campbell Morgan is quoted in Peloubet's Notes. Listen sinner, Jesus "receiveth unto Himself sinners. He takes them into His comradeship, makes familiar friends of them, takes them to His heart.

Rulers were converted (John 3:1, 2a). "Not many mighty, not many noble, are called" (1 Cor. 1:26), but thank God, it does not say "not any." Some there were in high places who set aside their pride, their position and all, to come humbly to Jesus.

Nicodemus was one of these. It is true that he came by night, but he came; and that is wonder enough for a man in his position. Read his defense of Jesus amid the scorn of his fellow Sanhedrin members (John 7:45-53).

These, then, are the friends of Jesus. Do you find your place among them? There is room for you. He is waiting to receive you. Will you come to Him now?

HOUSEHOLD HINTS

Wax your curtain rods from rusting. The wax will help the curtains slide forth more easily.

To remove perspiration from white clothes, dampen garments with lemon juice and salt before putting them in the water.

Nail polish remover will all traces of the sticky stuff left on the skin when removed.

For a rich green color add a teaspoon of household ammonia to a quart of water and pour it over the fern.

Panholders have a way of getting lost. When using one on each end of a pipe and hang about your neck, it will be right there when you need it.

Half a potato well done is better than a whole potato half done. Large potatoes in half boiling and save fuel.

An inside paint job is best in the winter when there is no furnace, for then the possibility of dampness, from the first coat is dry before drying the second.

To prevent rice from sticking to the kettle while boiling, stir the bottom before adding water.

Keep a pair of white gloves somewhere near your range. These can take the place of potholders at times when you are cooking food they'll protect your hands.

ay or Dust — For 'Peace' In the Garden

—Photo Courtesy Ferry-Morse Seed Co.

ch for destructive insects as soon as the first little leaves poke the soil in your garden. They are unusually ravenous for tender foliage, shoots, and buds, and the smart gardener will be on hand to proper control even before the pests show up.

types of insect are well known nuisances—those that suck the sap of the plant, as aphids, and those that chew or nibble on the plant. The work of the first is seen in general drooping and unhealthy appearance of the plant; the work of the second is seen in actual riddling of the leaves and other plant parts.

sucking insects the spray or dust must hit and cover the insect, smothering it. Stomach poisons are required for destroying insects. The material is sprayed or sprayed thoroughly on all parts of the plant so as to make sure it reaches the insect's mouth. When the insect starts to eat the plant, it also takes in some of the poison and is killed.

er dusting or spraying can be done if properly done with a fine nozzle. Now that the war is over, many of the old brands and new ones will be plentiful. You may want to adventure with some of the new ones, but always use them in small gardens and directions. In small gardens dusting is perhaps even easier than spraying. Here's a simple apparatus for applying insecticide dust which you can easily prepare:

Take a square of cheesecloth, a string, and a slender stick. Lay the cheesecloth on a flat surface and pile the insecticide dust in the center. Gather the cloth by the four corners and tie the string securely around it, leaving the contents resting loosely inside.

Hold the bag with one hand directly over the plant and strike it gently on one side with the stick (see illustration). Part of an old broom handle will do nicely. The dust should cover all parts of the plant. It will stick better if put on when the plants are moist with dew, rain, or water from the hose. Do not put it on just before a shower or your work will be useless. By taking a little extra care, the dust will reach the underside of the leaves as well as the upper surfaces. It is important to choose a day when no wind is stirring.

If you spray instead of dust, see that the leaves and other parts of the plant are dry so that the solution will not be diluted as it strikes the surface. A hand spray with a glass jar attached is simple to use. The glass can be readily cleaned after using, and strong solutions cannot corrode it as they might a metal container. In using a spray, the same as with a dust, be sure to reach the underside of the foliage where insects are even more likely to be feeding than on top.

Local Veterans Buy Vehicles

Two Burkburnett veterans of World War II were among the successful veterans purchasers to attend the sale of surplus used motor vehicles conducted by War Assets Corporation at Camp Wolters, near Mineral Wells this week.

Wallace B. Landrum of 502 E. 6th street purchased a 1-2 ton command and reconnaissance car, 1941 model, for \$303.00 while D. L. Maney, Box 136-D, secured a Freuhauf trailer, 1941 model, for \$1,299.00.

The next sale will be held at Camp Livingston, La., starting March 25 with 1650 used motor vehicles to be offered at fixed prices. Federal agencies buy March 25, state the local governments March 26, veterans of World War II March 27 and 28, veteran-dealers, buying for resale, March 29.

A sale of 231 used jeeps will be held for veterans only at Camp Livingston, La., March 28 and 29. There will also be a sale of 165 used jeeps for veterans only at Camp Howze, near Gaineville, Texas, March 25 and 26.

Change Made For Handling GI Claims

Faced with a backlog of 140,000 unpaid servicemen's readjustment allowance claims, the Texas Unemployment Compensation Commission after Monday, March 25, will begin taking veterans claims once every two weeks instead of once a week.

Reason: the Texas Commission can not obtain additional machines and equipment to handle the increased number of claims filed weekly.

Overall amount of the entitlements under Title V of the GI Bill of Rights—a maximum of \$2 weekly payments of \$20 each—will not be affected. However, under the new procedure, unemployed veterans will report every 14 days instead of seven days and they will claim two weekly payments instead of one. Self-employed claim-taking procedures will remain unchanged.

Unemployed benefit claims, as well as Servicemen's Readjustment Allowance applications, will be accepted daily each week between the hours of 8 A. M. to 5 P. M.—8 A. M. to 12 Noon in the Wichita Falls Office by the duly authorized representative of the Texas Unemployment Compensation Commission.

Margaret Hughes left Sunday for Carlsbad to visit her sister.

Mrs. W. D. Graham of San Diego is visiting friends in Burkburnett this week. Mrs. Graham is a former resident of Burkburnett.

Why Not Grow Better Sweet Corn?

—Photo Courtesy Ferry-Morse Seed Co.

What's your favorite garden vegetable? "Roastin' ears!" you can hear whole families shouting in the Southern States. "Corn-on-the-cob!" exclaim the Northern folks. It's the same everywhere. Sweet corn is even more American than 'hot dogs'.

During the war many Victory Gardeners discovered the real flavor of sweet corn for the first time. They found that all the luscious sweetness is preserved by cooking the ears as soon as they are picked. When they are allowed to lie around half a day before boiling or roasting, much of the sugar turns to starch, and there's a flat unappetizing taste.

Because garden-fresh sweet corn is bound to be a "must" for many peace-time homes, here are a few tips on how to enjoy even better results than in the past.

If you have been growing white corn up to now, why not adventure with some of the yellow types? Many think the flavor richer, and most experts agree that yellow corn is superior in vitamins. Some of the new yellow hybrids have certain advantages over the older types. The ears are large, the yield unusually heavy for the space occupied, and most hybrids are resistant to certain plant diseases. Golden Cross Bantam does well almost everywhere; Ioana is a favorite in southern areas; Marcross is especially adapted to northern gardens.

Where corn diseases are not common, some of the regular varieties still take precedence. Many gardeners think nothing surpasses the flavor of true Golden Bantam. And

 Preaching Services, 8.

The Lord smiled upon us with a gracious revival. Really an outpouring of the Spirit was felt in many of the services, and especially the two Sunday mornings.

With 574 in Sunday School last Sunday morning and 169 in Training Union, means that we are really doing things for the Lord in the First Baptist Church. This of course has brought about the beautiful cooperation and Christ-like spirit in multitudes of the members of the church.

Next Sunday morning Rev. J. H. Wright, of Henrietta, Texas, pastor of the First Baptist Church will preach in the absence of the pastor. The pastor began a meeting at Henrietta, Wednesday, April 3rd.

Sunday night Rev. J. R. Naylor, of Thrift will preach. You are urged to be in your place for each service, and all visitors are invited to be with us and make our church their church home.

How we thank the Lord for such good Sunday School attendance and we are praying we will not have a big let down. We should not, but even work the harder and be more loyal.

Can the Lord count on you next Sunday—"All the Day?"

LOOKING AHEAD

 President—Harding College
 Searcy, Arkansas

Hear Ye, Hear Ye!

One of the 5,000 United States Marines who died on Iwo Jima was Ben Toland, 24, of Concord, N. H., a Yale junior and an honor student. When another officer was wounded in battle, Lt. Toland voluntarily took command of his platoon, stormed the ridge and gained the objective before he himself was killed. Toland's estate, less than \$4,000, was divided by his will as follows:

Benevolence	5%
His church	5%
His college	10%
His prep school	20%
The A. F. of L.	10%
The C. I. O.	10%
The N. A. M.	20%
The U. S. Congress	20%

A Goodwill Message

The will was not a document of profound legal verbiage; just a hand-written note from a military man going to battle quite aware that fighters don't always return from such missions. It was no hastily devised instrument. Every detail shows scholarly thought. The author knew he might be giving his life for America's future, and tossed in his possessions as part of the offering.

Not even a cynical critic of the liberty Ben Toland understood and appreciated could detect a tone of bitterness in his harmonious bequests. He met death on February 21 and it is reasonably certain that the will was written at Christmas, far beyond the horizon of merriment but in a spirit of "Good will toward men." In that holiday gift-list rings a clear note of victory and hope.

To Save Americanism

As if it were his life's last tithe, five per cent went to church and five to a Christmas charity. "The 100 Neediest Cases," sponsored by the New York Times. Toland knew the worth of learning and paid a tribute to two schools that were peculiarly his own, Yale University and St. Paul's of Concord. The will's other four beneficiaries sound a chord of pure patriotism.

Not every service man who paid his life for victory in World War II possessed this young man's grasp of public affairs, but they all wanted the same thing. They wanted to see America the land of opportunity once more. The lieutenant's will expresses all this hope and more, for Toland knew how to save America's freedom: through peace between labor and management.

Paying to Be Heard

This sober young man laid 60% of his earthly holdings on the altar of industrial peace. His mother yet lived. No doubt he had personal friends who needed funds. Just the same, his largest single hope beyond his own life-span was to retain the American system of free faith, free speech, free enterprise, popular ballot, unrestricted opportunity and equality under the law.

With 20% he asked Congress to heed the plea of many martyrs, a plea for laws in the interest of all, not just pressure groups. Another 20% calls aloud to the National Association of Manufacturers, a group of small employers such as fill more than two-thirds of America's pay envelopes. Another fifth begs a hearing by the two biggest labor groups, destined to play an important role in America's future.

Clara Stofor

Mrs. Chas. Woodley went to Oklahoma City Monday to meet her youngest son who is on his way home on leave.

The local Baptist church and parsonage repairing, altering and redecorating work has been progressing speedily, with all members and some other friends, pitching in to get the job done. The balcony and stairs rearranged to make more room, the inside and outside painted, and butane has been installed in both buildings. It is a good piece of work, and the whole community profits thereby.

The Smith home, on their farm being completed, they moved from the parsonage this week. Rev. John Quickle and family have taken up residence in the parsonage.

Mrs. Janie Mestugrats and daughters, Misses Stella and Charline of Haver Hill, Mass., arrived Sunday for an extended visit here with Mrs. Mestugrats parents, Mr. and Mrs. J. H. Gardner and other relatives.

Sharing honors at a birthday dinner Sunday in the Ross Wright home were Mr. Jess Cates, K. B. Uthe, Ross Wright, Mrs. Nora B. Powell, Oretta and Odessa Uthe. This occasion, one carried on over a number of years, is the commemoration of birthday anniversaries of a number of friends which occur in that week.

Members from Devol attending the School of Instruction of the Order of the Eastern Star at Lawton Tuesday were: Mesdames Carl B. Powell, Worthy Matron; J. W. Hale, Clifford King, Curley Davidson, K. B. Uthe, Oles Stofor, and Miss Lila Manley; each serving in some office during the afternoon and evening sessions. Mrs. Lila Traylor, Iowa Park, who has been visiting Devol friends, accompanied Miss Manley to the School of Instruction.

The Jeddy Harrison sale Monday at the home one mile west of town, was well attended and all articles sold brought a satisfactory price. Dinner was served by the Devol club and the ladies were well pleased with the results. Mr. and Mrs. Harrison and son will make their home at the Wright apartments at present.

Mr. O. W. Smith, son of Mr. and Mrs. Oles Stofor, Mrs. Smith and sons, Rex and O. W. Jr., of Birmingham, Ala., arrived Sunday evening for a two weeks vacation here with relatives and friends. Other callers at the Stofor home Sunday were Mrs. Clara Reynolds and daughter Sally, Lawton; Miss Aileen Stofor and Joe Bill Dodson, Burkburnett; Major Nichols, Ft. Sill, and Mr. Jack Jeter, Wichita Falls.

Mr. and Mrs. O. W. Smith and sons spent Tuesday and Wednesday with Mr. Smith's sister, Mrs. Clara Reynolds, Lawton. There they visited Craterville Park and other spots of interest about Lawton.

Mr. and Mrs. Harry Lavender, Duncan, Okla., spent the weekend in the home of Mr. Lavender's parents, Mr. and Mrs. R. R. Lavender.

Mrs. Ida Alford suffered a broken arm last Saturday in a fall at her home.

Daughters of Mr. and Mrs. Wm. Tarrant, Mrs. Faye Miller and her son, and Mrs. John Merabach arrived from California Sunday to spend the week with their parents and other relatives.

Mr. and Mrs. H. Hinkle left Wednesday morning to spend a few days in Oklahoma City transacting business and visiting relatives there.

Warnings against inflation are beginning to reach us country people with increasing force and frequency. Nearly all the experts who comment on it say we have inflation already but it can get much worse. Accurate definitions of inflation are rather complicated. In fact, some of the definitions are harder to understand than the condition itself, such as we all can see by looking around.

When just about everybody has spending money in their pockets because they can't find enough of the things they want to buy, that is where inflation begins. The results are quite natural. Automatically people start bidding against each other for what items they do find, and prices advance far beyond real values. Then, no matter what we buy, we are squandering money.

Regulation Prices.

What we need to cure inflation is plain to see: more things to buy. That's all it takes. If I need a hat and can find only one that fits my head and suits my taste, the dealer can (unless restrained by law) charge me whatever he wishes. I may rebel at the price but somebody else will pay it and the merchant will not need to worry about me. What will set the matter straight? More hats!

When hats are offered by every haberdasher in town, some competitor is certain to lower his prices to increase sales. Another will try to outdo him, and this competition continues until falling prices get too near cost to go cheaper. It is that simple. Goods are the scare-crows that frighten away inflation. Whatever interferes with the production of merchandise only makes inflation worse.

Artificial Feeding

Inflation is like hunger. It is a want that has the full force of a need. Hunger includes a craving that throws a person's sense of values completely out of plumb. Food is the only satisfactory answer to the hunger question and, just so, goods are the only sound solution to inflation. There are trick ways to hold prices down, when goods have to be scarce, but they are only temporary help.

Once in a while somebody has a strange ailment that makes eating impossible, or very dangerous. Physicians deny such a patient food while they try to adjust the malady. Sometimes they use drugs to make the patient sleep and forget his craving; sometimes they flow energizing liquids into the blood-stream, but it is no diet. Nobody can live on it; it only makes starvation slower.

War Is a Malady

During the war, people in America were rightly denied goods; there were not enough workmen; not enough factories, not enough materials to supply the nation's defenders, our men and their allies. Consumer goods were scarce and a lot of people had extra money. All prices would have skyrocketed but government restrained it by law. It was an emergency—drastic remedy; no complaint.

Price controls did not contribute anything permanent to this country's economic strength, however. They simply eased the shock for civilians who had to undergo economic surgery or perish of dictatorship. Now the ordeal is over and the patient is wholesomely hungry for merchandise. Every regulation that now retards production should be removed or relaxed in the public interest.
