Costly Coal Strike Crimps U.S.; Plan Further Feed Reductions To Conserve Grain for Food

Ill-fed and ill-clad, people in Italy clamber atop army truck as it arrives at dump and seek to salvage scraps of food, discarded clothing, cigarette butts and even cardboard boxes. Men, women' and children climb up even before G.I.s can unload refuse.

COAL STRIKE:

Costly Walkout

Though John L. Lewis ordered his United Mine Workers back to the pits under a two-week truce to relieve the critically low supply of fuel, the 1946 coal strike promises to be long remembered as one of the most costly in history, with the necessity for curbing fuel consumption resulting in serious restricitions on public utilities, industry and transport.

Lewis acted as the widespread effects of the walkout on the nation's economy led Senator Eastland (Dem., Miss.) to rise to his feet in the upper chamber to tell his colleagues that as a result of limiting freight movements to essential . . the shipment of embalming fluid has been embargoed and we can't bury the dead.'

Most spectacular figure in the strike, of course, was the burly, beetle - browed Lewis, United Mine Worker chieftain, who held out for the operators' consideration of his proposal for a health and welfare fund. Holding fast in face of mounting public opposition and senatorial fury, Lewis received the backing of the American Federation of Labor, to which his UMW is affiliated.

John L.'s acceptance of a truce discuss the No. 1 issue of a dwindling fuel supplies had led the government to urge coal-burning in Iowa, Minnesota and Missouri to Food Prospects follow Chicago's example in reducing power consumption.

With industrial enterprises limited to 24 hours per week use of coal-burning power and stores and movies opened only several hours per day, Chicago, Ill., remained one of the hardest hit of all the municipalities. Reduction in passenger service and limiting of freight shipments to essential commodities, however, served to bring home the strike to all sections of the country.

CONGRESS:

Busy Solons

With the coal strike crippling the economy, U. S. senators moved to tion from May to August. take up restrictive labor legislation in the face of public concern over the prolonged walkout even as they were engaged in heated debate over passage of the \$3,750,000,000 loan to Great Britain.

Though Democratic Majority Leader Barkley sought to sidetrack consideration of labor measures while feeling over the coal strike flared at white heat, administration forces were compelled to surrender to congressional pressure for action. Ordinarily pro-labor, Senator Lucas (Dem., Ill.) led the fight for legislation which would give the President power to assure continued operation of essential industries in event of union disputes.

Passage of the \$3,750,000,000 British loan was assured with the resounding defeat of amendments which would have limited the size of the advance, provided for expenditure of 90 per cent of the funds in the U. S., and extension of interestfree, unsecured loans to veterans. The solons also rejected the argument of Senator Johnson (Dem., Colo.) that since the bill contemplated the raising of money for the loan only the house, which directly

GRAIN: Seek Feed Cut

Following the increase in the price of corn, wheat, oats, barley and rye, government officials contemplated a reduction in the ceiling on heavy hogs and a cut in fall

breeding as further steps in the conservation program designed to make more grain available for food. While initiation of the new price program resulted in cancellation of the 30 cent per bushel bonus payment on corn, a similar premium, plus the higher price, was retained

on wheat, which is most vitally needed for foreign relief. As a result of the price changes, corn was boosted 25 cents a bushel, wheat 15 cents, rye 10 cents, barley 9 cents and oats 5 cents. With grain sales being made more profitable than livestock feeding. liquidation of hogs, cattle and poultry was expected to result in in-

MEMORY SELECTION — The kingdom of God is not meat and drink; but righteousness, and peace, and joy in the Holy Ghost.—Romans 14:17.

Money, riches, possessions-that's what men are living and striving for in our day. It is going to seem a bit strange, but it will be very salutary to stress once again the eternal truth, best summarized by our Lord Jesus when he said, "A man's life consisteth not in the abundance of the things which he possesseth" (Luke 12:15).

I. Don't Depend on Riches (12:19,

The rich man increased in selfishness as he increased in wealth. He began to feel secure because he had laid up much goods. Now he became proud and boastful. He thought he saw years of comfort and ease ahead. Evidently he had not read, or did not believe, the not what a day may bring forth" Pressed by the labor and loan (Prov. 27:1; see also James 4:13-

> Well, can a man depend on riches? The answer is no. They are here today and gone tomorrow. Man himself is here today and gone tomorrow. When he goes, he leaves all that he has unless he has invested it for God.

> Money is like a broken reed. The man who leans on it will not only fall, but will pierce himself through with many sorrows (I. Tim. 6:9, 10). Don't depend on riches-they will miserably fail you in your hour of

II. Beware of the Snare of Riches

The rich young ruler had come running to Jesus to seek eternal life, but had turned away sorrowful when he found that a man cannot love money and love God at the same time.

Jesus improved the opportunity to point out that it is impossible for a rich man to be saved, except as the grace of God gets hold of him and sets him free from dependence on

Apart from the grace of God, it is so easy for a rich man or woman

Look again at I Timothy 6:9, 10 sire to be rich leads a man into a temptation and a snare. The man of God is warned to "flee these things; and follow after righteousness, godliness, faith, love, patience, Though farm production remains meekness," and thus to be able to "fight the good fight of faith" (I Tim.

There is something infinitely better than riches, and that is what we find in our next point.

III. Seek True Riches in Christ (18.

Peter and the other disciples had forsaken all the things of the world to follow Christ, and now as he reminds the Lord of that fact, he receives the assurance that there is a higher level of riches and reward for the loyal disciple.

God will never be in debt to any one. There is no sacrifice made for his glory which does not find its glorious recompense, and no burden borne for his sake which does not bring its rich reward.

All this is not the result of some kind of a "deal" with God. We do not serve him because we expect a reward, but the assurance of the reward is there to encourage and spur us on in life and service for him.

The fact is, spiritual currency has far higher value than gold and silver of this world. IV. Ask Christ to Deliver You

From Riches (19:1-10).

Zacchaeus was a man well versed in the devious ways of the extortioner. He knew money, and how to make it. But he was not satisfied. He knew there was something more worth while than riches. His life was empty. He sought Jesus. One look from

the Master and he knew that he must lay his sinful heart open before him in confession. Salvation came to Zacchaeus that day.

Here, then, is the way to be delivered from the snare of richestake Jesus Christ as your Saviour and Lord. He may then entrust riches to your care to use for him. but he will deliver you from a love for gold and from the folly of putting your trust in it.

The person who lives for riches is lost (v. 10), caught in a snare (I Tim. 6:9, 10), trusting in something that will fail him when most needed (Luke 12:19, 20), and trusting something which will keep him from God (Luke 18:24-27), unless there is grace to flee from it and turn to God.
