County Committee Requests Hospital Bonds Be Voted

NUMBER 48

Humanitarianism is at stake in Wichita County Saturday.

Although it may sound like an exorbitant figure to the average 3rd, Georgia Sullivan, 1 min., ed to saving human suffering Wichita County can be spared 4th, Ruth Preston, 1 min., 50.2 the ordeal of sickness without

And, Wichita Countians may rest assured, that if the present deplorably overcrowded conditions continue to exist, innumerable of their neighbors in addition to members of their own families are going to be denied Local talent furnished laughs admission to hospitals, perhaps need it most urgently. It is a life or death matter to Wichita County.

This was the direct challenge given by Kindel Paulk and Mrs. Sat. Afternoon, Walden Crane Joella Terrill Butler, co-chairman of the citizens committee Sat. Night, Charles Goins and for the Wichita County hospital expansion program, in answer to Wichita Countians about the hospital proposal, on the eve of Saturday's bond election.

Wichita County is first on the list in the state of Texas to re-Every third Friday beginning ceive federal funds for such pur-July 12, recruiters from the pose when they are made avail-Frederick, Okla. office, will be able. Under the law, it is necessary to have the county's money Those in charge of recruiting ready before federal funds can be allocated to match it. Hence, the reason for calling the bond issue now. Wichita County must have the funds "up" before it becomes eligible for the federal allocation, it was explained. Speaking for the citizens com-

mittee, and for a large number of the taxpayers of Wichita County as attested by more than 2,000 signatures of taxpayers affixed to petitions for calling a bond election to meet the desperate need, Paulk and Mrs. Butler climaxed their appeal by asking that all Wichita Countians give the matter careful consideration, if only for their own personal future physical secu-

DOING BETTER

Bread is being rationed voluntarily to housewives in some sections, since this stretches the pinched supply of dealers. Some markets are selling half loaves to care for small families. In order to compensate our baking industry for loss in profits due to this decrease in production, there is an increase of one cent in a loaf of bread. Deliveries of States for burial with military be received by a guard of honwheat here at home to bakeries are 25 per cent and more, below the normal. There has been a noticable curtailment in districts where bread lines form.

This country was slow to provide wheat to live up program, announced today, to our committments for abroad but now we are shipping in more satisfactory amounts. Famine-ridden countries are really feeling our grain export. And how often you hear someone here say, "why should we feed them and go without ourselves", and another, "Americans have always been

known as suckers abroad. If we study the situation we know the only way to get a nation self-supporting, is to give it strength to work. 14,640 posts will provide honor and will, if the family prefers, Starving people can't mine coal, to man the plants, to give guards when the bodies arrive provide a chaplain, pallbearers, a work to make machinery, to grow and harvest grain. It takes more than quick words, idle thought, to understand the aspects of the problem of feeding the starving world.

We Endorse The

Hospital Extension Bond Issue

We, the Ministers of Burkburnett, in visiting the hospitals of our

county see a great need for more hospital space. While our county is making plans for better housing and more living conveniences, we should

not neglect providing facilities for caring for the sick. Increasingly more

persons are securing hospital insurance and more employees are being

granted hospitalization, but none of these safeguards will suffice if

there are no hospital beds available. In no other way can we provide

greater comfort for people than in making it possible for the sick to

regain health. Ministry to the sick was a great part of Jesus' work, and

it is a great responsibility of a Christian land. From a humanitarian

standpoint we urge our people to give serious consideration to the issue

SEWING CIRCLE PATTERNS

Juniors Like a Fitted Midriff Slim, Easy-to-Wear Home Frock

JUST THE THING for romantic summer evenings — a cleverly styled junior date dress with the popular figure-paring midriff, full dirndl skirt, pert wing sleeves. Picture it in a colorful printed fabric accented with narrow white ruffling at neck and sleeves, and for a change, unusual shaped buttons.

Pattern No. 8973 comes in sizes 11, 12, 13, 14, 16 and 18. Size 12 requires 3 yards of 35 or 39-inch fabric; 2½ yards machine made ruffling.

Large Birds Deliberately
Attack Flying Airplanes

During recent years, a number of planes flying in the Near and Middle East have been deliberately attacked by large birds, usually eagles, says Collier's. In fact, instructions on how to escape this hazard were issued to British pilots as long ago as 1934

British pilots as long ago as 1934.

One noteworthy attack occurred near Allahabad, India, when two eagles attempted to "kill" a low-flying three - engined plane. One bird flew straight into the middle propeller while the other, diving from about 10,000 feet, crashed through the steel wing, making a

Slenderizing House Dress

L OOK CRISP and cool at the breakfast table in this jiffy-on button front house frock that's so easy to care for. Bold ric rac trims the pretty sweetheart neck and ample pockets, the set in belt slims you nicely. You'll want several in different fabrics.

Pattern No. 8989 is for sizes 34, 36, 38, 40, 42, 44, 46 and 48. Size 36, 33, yards of 35 or 39-inch; 31, yards trimming.

Due to an unusually large demand and current conditions, slightly more time is required in filling orders for a few of the most popular pattern numbers.

AN OPEN LETTER

TO OPEN MINDED CITIZENS OF BURKBURNETT and VICINITY:

An election is being held Saturday to deterine whether Wichita County shall issue \$800,o in Bonds as its share of a project to fursh a Desperately Needed Additional 200 Hostal Beds to the alarmingly overcrowded facilies we now have in the county.

Geographically situated as it is, Wichita ounty is called upon daily to furnish hospitization to its Northwest Texas neighbors livg over a 20-County Area, even though its presnt hospital facilities are deplorably beneath prescribed medical standards to serve the eeds of our county alone.

This is a project from which each community of Wichita County will erive mutual and equal benefit. We nust stick together in support of the nost humanitarian undertaking evrinitiated in this county. The sitaton is one demanding the studied attention of every resident of the

This matter is not one to be decidd by curbstone conversation. It merts a weighing of facts and figures. Those facts and figures favor the uilding of this hospital, as explained n an article elsewhere in this, your ome newspaper.

The only logical approaches to the proposof this Bond Issue are: "What will it mean me? Does Wichita County and the area it erves need expansion of Hospital Facilities? Vill I get 'value received' from the Resultant egligible increase in my Taxes?"

Ask yourself those questions. Then go to polls Saturday and record your choice. That thoice will decide whether this County is to take progressive step forward in its Post-war planing, or sit idly by, waiting to be prodded into action on a situation which is becoming increasingly more acute day by day.

This is no drummed-up story calculated to hit the heart. Too many people, some of whom ou know, have been denied admission to hospitls in this area recently. To be perfectly blunt bout it, death and permanent disability have oth resulted from lack of facilities. Your docor knows the situation. Ask him about it. Too nany people pooh-pooh the idea of needed hositalization- That is until they themselves acually need it. It shouldn't take a county-wide atastrophe to maks us aware of the fact that e have, up until this moment, left ourselves wide open" for lack of hospitalization.

This Hospital Project is sound as he ground underfoot. The outcome now in your hands. At the polls aturday, you will decide whether to alter or step firmly forward toward greater Post-war living in this place we call home.

Wichita County Hospital Expansion Committee

LET US TELL YOU MORE ABOUT IT

WEEKLY NEWS ANALYSIS-

Gay Bedroom Linen Allocate Steel to Brace Farm Machinery Output; Pare Power of OPA; Food Prices on Rise

Finding use for blocks of stone from wartime blitzes, English sculptors fashion figures in public dump with permission of London county council.

New Priorities

Production of vitally needed will be maintained throughout the summer months as a result of the Civilian Production board's estabtishment of special priorities for steel for the industry.

At the same time, the CPA set up priorities for steel for manufacturers of building products to assure adequate supplies for the vets' housing program. The government acted after the critical steel and coal strikes had reduced available stocks in the face of tremendous demand from industry generally.

Farm equipment receiving priority consideration included combines, grain binders, corn pickers, potato diggers and pickers, sugar beet and cane harvesting machinery, haying equipment, corn shellers, fruit and vegetable graders, wheel type tractors, washers, sackers and conveyors, ensilage cutters, row-type field ensilage harvesters and peanut dig-

Harry Bridges of the longshoremen. In taking over negotiations after the unions and private operators failed to record progress after lengthy dickering, the U.S. party met CIO demands for a shorter work week by proposing to pay seamen straight time for 48 hours and time and a half for 8 hours on the seventh day. The work week for longshoremen was trimmed from 44 to 40 hours.

All ship personnel were offered a \$17.50 per month increase while longshoremen would receive approximately a 22 per cent per hour

CONGRESS: Trim OPA

Encouraged by the inadequate flow of goods to market in the reconversion period, house and senate estine.

EMPLOYMENT:

Despite the fact that labor troubles have held up production in many industries, employment has shown a steady increase since December, with the number of persons employed in April totaling 54,550,000. according to the Alexander Hamilton institute.

With the exception of July, 1943, when 54,750,000 persons were employed, employment in April was the highest on record, being 6.6 per cent higher than April of 1945.

conferees found themselves in agreement on a number of provisions for removing OPA control over the economy as they met to whip up joint legislation on extending the life of the agency.

Though passing two different bills, both chambers found this common ground of agreement as they undertook to fashion a permanent

PALESTINE: British Hedge

Even as the Arab League met in Jewish immigration to Palestine, the annual Labor party conference lish their guilt without need for that immediate entry of 100,000 Jews | proving actual exclusion of competito the Holy Land would impose severe military and financial strain upon Britain.

ing between Arab and Jewish elements in Palestine, Britain would have to place an additional division of troops in the country to preserve order, Bevin said. scale financing also would be required for transport, housing and 1913 the "Big Three" established extensive reclamation to solve the vexing land problem.

additional troops followed closely upon Secretary of State Byrnes' disclosure that Britain had requested the dispatch of American soldiers to Palestine to help maintain order in the event of agreement on permitting the entrance of 100,000 Jews. With the immigration question year; refused to purchase tobacco brought to a head by bitter Arab opposition and strong Jewish pressure represented and placed limitations for accepting the plan, Pesident and restrictions on market prices. Truman appointed a special committee of cabinet members to assist him in formulating a policy on Pal-

Feed Output Lags

Feed production during the war years has not kept pace with increased livestock output, production of feed grains and hay from 1941 to 1943 rising 7 per cent, while output of livestock jumped 18 per

Price regulations until recently encouraged the marketing of feeds through livestock and livestock products rather than on the cash market.

POLITICS:

Rising Star

The political star of Gov. Earl Warren of California rose high and that of ex-Gov. Harold Stassen of Minnesota dipped low following Republican primary elections in California and Nebraska.

Warren's Republican presidential stock zoomed as the result of his sweeping victories in both the Republican and Democratic gubernatorial primaries while Stassen's possibilities dimmed with Republican voters repudiation of Gov. Dwight Griswold's bid for the Nebraska GOP senatorial nomination with Stassen's active backing.

By building up popular endorsement of his administrative record, Warren is cleverly following the traditional political practice of ostensibly having the office seek the man. By assuming the leadership in a campaign to liberalize GOP domestic and foreign policy, Stassen, on the other hand, has put himself in the ticklish position of the man seeking the office.

BUSINESS:

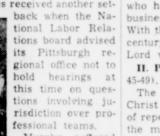

Well Heeled

Having increased working capital by 27.5 billion dollars since 1941, U. S. corporations, exclusive of banks and insurance companies, have been well able to withstand the rigors of reconversion and plant idleness growing out of industrial unrest.

At the end of 1945 working capital of American business stood at a record high of 52.1 billion dollars, the Securities and Exchange commission reported. During the year, reserves rose 6.3 billion dollars, with tax refunds under the tax adjustment act of 1945 contributing to the increase.

lion dollars to 22.5 and government 21.1. Meanwhile, federal income lion dollars in 1943.

TOBACCO: Affirm Monopoly

By unanimous vote, the Supreme court affirmed the existence of a Bludan, Syria, to formulate opposi- monopoly in the tobacco industry tion to Anglo-American plans for on the unprecedented grounds that the practices and operations of the British Foreign Minister Bevin told defendants were sufficient to estab-

tors. Affected by the verdict were American Tobacco company (Lucky Because of the high tension exist. Strike), Liggett & Myers (Chesterfield), and R. J. Reynolds (Camel),

the "Big Three" of the industry. Tracing the background of the industry since the American Tobacco trust was broken up in 1911. Justice Burton asserted that from a monopoly which grew until it controlled 70 per cent of cigarette pro-Bevin's reference to the need of duction, 63 per cent of smoking tobacco and 44 per cent of chewing

tobacco during the 1937-'41 period. In citing monopolistic tendencies, the court pointed out that the three companies maintained large reserves of tobacco to make them independent of the market in any one on markets unless all three were During 1932 and 1933 Camels and Lucky Strikes were actually sold at loss to throttle competition, the court found.

FARM HANDS:

Intensive state supervision of camps for migrant agricultural workers is being continued in New York this year following success of the program that in 1945 helped insure adequate housing, medical services and health instruction for thousands of transients.

The council of state governments reports that \$70,000 was spent by New York state last year to improve living conditions for nearly 15,000 workers in 243 camps throughout 'le state.

Lesson for June 30

JESUS' FRIENDS CARRY ON HIS WORK

LESSON TEXT-Mark 16:15, 16, 19,

spond to it with our own interest, and by our desire to bring others and power.

We find them engaged in

I. Blessed Preaching (Mark 16: 15, 16, 19, 20).

The call and commission of the Lord before he was caught up into heaven was clear and definite. How glad we are that the disciples obeyed, went and preached, and had such blessed results.

The response of these early Christians was immediate and enthusi-From 1939 to 1945 cash holdings of astic. Would that such a spirit had corporations rocketed from 10.9 bil. characterized the church through all the generations since then, and securities from 2.2 billion dollars to | if it had, the commission would long since have been carried out. It has taxes showed a sharp rise from 1.2 been estimated that if everyone in billion dollars in 1939 to 11.1. Tax a church of two thousand were to receipts reached a peak of 16.5 bil. | win one soul a year, and each convert win one soul each year, the world would be evangelized in less than thirty-five years. Why not?

But while on the whole the church has failed, there have been valiant Robert Murphy's drive to unionize | souls all down through its history the big leagues received another set- who have given themselves to the back when the Na-tional Labor Rela-With them, as with these of the first tions board advised century, the secret is ever, "The its Pittsburgh re- Lord working with them."

ter how brilliant and eloquent he The early believers were to tarry

We need a real revival of the Holy

be witnesses with power.

God is looking for men. He has always honored those who in faith have obeyed his command. The whole history of church and missionary endeavor bears eloquent testimony to that fact.

III. Glad Soul-Winning (Acts 2:46, 47; 5:42).

There are a number of things in this passage. There is the fine fellowship of the believers in the early church. We also note that they were regular in their attendance at the temple. They preached and taught both in the temple and at home. But the significant thing which we wish to note now is that it all resulted in the salvation of

The Lord added to the church "day by day those" that were saved," for such is the proper reading of verse 47. Day by day souls were won for Christ and added to the church. Why do we not have more churches of that kind today?

The church, which is so much the center of life for Christians, is not as well understood as it should be. We have come to regard it as just one organization among many competing for the attention and interest of men, when it is really a divine, living organism established by Christ as his body and representing him in this world.

The church is made up of those who are saved (v. 47), those who have received the word by faith and witnessed a good confession of their faith in Christ (v. 41). This is a fact to be remembered in a time when there is so much laxness in receiving members into the church. It is not a religious or social club. It is not a rallying place for those who wish to work for some economic, political, or social project. It is not a gathering of good people who wish to share common interests.

The church needs to cleanse its rolls of all unbelievers, all hangerson, and to get back to the purity which it had when only those were received who were manifestly "added" by the Lord (v. 47).

Newsmen Admit Apprehension of **A-Bomb Mission**

By WALTER A. SHEAD

ABOARD USS APPALACHIAN (Via Navy Radio)-Civil and military welcoming committees out of the way, with the beauty and color on subjects and Scripture texts se-and copyrighted by International of Religious Education; used by of the Paradise of the Pacific a pleasant memory interlude in the midst of this serious military experiment the "Big Apple" today has her nose pointed westward on the second leg of our hop toward Bikini atoll and the atomic bomb test, the 0; Luke 24:45-49; Acts 2:46, 47; 5:42 atoll and the atomic bomb test, the MEMORY SELECTION—Go ye into all results of which may revolutionize the world, and preach the gospel to even variable. TO DROP BOMB . . . Major Harold Wood, age 30, of Bordentown, N. J., responsible for bullseye.

picked newspaper men and representatives of the other media such as news reels, radio, technical magazines, television and others. Although most of them are on other ships of the group, such as the Panamint and the Blue Ridge, there is a sprinkling of scientists aboard and a sort of friendly ribbing going on constantly between the "lay" or when the Pittsburgh They were witnesses of these these scientific writers, many of whom are members of the "I Am a Frightened Man Club" and predict dire results and dangers to personnel of this task force when the bomb burst, scheduled July 1, takes place.

In spite of their fun-poking, the newspaper men generally privately admit they feel some apprehension and beneath the raillery there is a feeling of tenseness among many of us which increases daily.

The trip thus far from Navy Pier in Oakland to Honolulu. where our two-day stay was all too short, has been like a pleasure cruise but now we are getting down to the serious part of this most stupendous military experiment in history. The information officers aboard ship offer every facility and we are scheduled for a series of roundtable conferences to orientate us to the main objectives of operations crossroads.

One of the most interesting phases of this operation is the time element. Fourteen different time zones are involved in the operation by virtue of the location of Bikini west of the International Date Line. For instance if the first atomic bomb is dropped at 10 a. m. Monday, July 1, it will be 5 p. m. Sunday, June 30, in Chicago.

As this is written out of Pearl Harbor we still have some 2,200 miles of trackless blue water to traverse at a speed of approximately 11 knots or about 13 miles an hour. Before we reach Kwajalein where we will spend a day viewing the elaborate installations which have been set up in quarters, laboratories, air facilities as a base for the army air corps which will drop the bomb and the 37,000 men of the joint task force.

The logistics and the planning which have gone into this operation will rival those in the invasion of Normandy and scientists in and out of the navy have ready for installation the most elaborate measuring devices to meter actual effects of the explosion on the target array of combat and other ships, army and navy material, live animals tethered aboard some ships and ordnance for army, navy and air of all descriptions. In addition recording devices, spe-

cially constructed cameras for television, radar controlled drone planes, which will fly through the atomic cloud at varying heights will bring back samples of the radio active materials and vapor to be rushed to the laboratories for test. It is this radio activity for the exploded atoms which may be used for the benefit of mankind in peacetime pursuits. As a matter of fact, the Manhattan district is now releasing or has released small portions of radio activated substances to universities and laboratories.

are not highly resistant to trouble of any kind.

Chicks Need Help

And now, if you're still practicing wise management, your chicks are on a clean range and they are still receiving your careful attention. It is at this stage that too many poultrymen fall down on the job, believing that after seeing the chicks through the early danger-ridden weeks, they should be able to shift for themselves once they have been put onto the range. Don't make this error of judgment.

A clean, well-sodded and shady range is important, but it is not enough in itself. Your help is needed, too.

Here are a few points to remember in range management. Do not overstock. This increases

sod may die on a crowded range. Move Shelters Periodically

Keep the range shelters clear and sanitary throughout the summer. Move the shelters to new lo periodically, cleaning them thoroughly at each move. Keep the range mowed to assure palatable, easily digested

feeders and waterers, placing them so that birds on leaving the shelters can approach them

easily from either side. Move the mash hoppers and waterers to a new location each day, starting close to the shelters and moving outward. This helps keep down the disease and keeps sod in better condition. Range feeders and waterers should be disinfected often. If possible, divide your range land into three sections so that a fresh uninfected range awaits the new crop of pullets each year.

AT BILL OF THE OF RIGHTS

THESE TWO LAWS

MAKE ARMY ENLISTMENT MORE ATTRACTIVE THAN EVER BEFORE

Meet "Public Law 190," otherwise called the "Armed Forces Voluntary Recruitment Act of 1945." You know the GI Bill of Rights. But do you know that, between them, these two laws of Congress offer thousands of young men financial, educational and career opportunities they've never had before?

Because of these acts, men enlisting in the new peacetime Regular Army are signing up for the "Best Job in the World." They're going to do interesting work at good pay. They're going to learn skills and trades which will fit them for good civilian jobs in the future. They'll have the advantages of a long list of special enlistment privileges, including pay increases, family dependency allowances, extra pay for over-

seas service and for members of crews, and many others, including 1 18 ment plan which is second to none.

And for men who want to continues ing after discharge, the GI Bill of B provides up to 48 months in the col trade or business school of your own di with \$500 tuition paid per ordinary syear, plus \$65 a month living allowant single men, \$90 for married men.

This is too great an opportunity for man from 17 to 34 to overlook 64 whole story. Match it against any a openings you might have in mind 0 pare it with your present job. Stopis hear all the facts without any obli whatsoever.
