Vocational Aid, Cashion District per capita \$2,119.90, Clara School District per capita \$1,651.55, Fairview District per capita \$986.00, County Apportionment \$65.00, Local Taxes \$19,140.00, Delinquent Taxes \$2,000.00, Typ-

in refrigerator is repaired. A pick- ing Fee \$300.00, Tuition \$80.00. From contract schools, 1930; had 4 letters in foot ball up and deliver service is main- Cashion \$2,280.10, Clara \$1,448.45, Fairview \$1,376.59, the proposed raise, the tax Evert \$1,100.00. Revenue from interest on O. L. Clark, Trustee \$1,288.88, Interest and Sinking Fund \$2,748.20. Balance in three funds, local maintenance, interest and sinking and state and county, \$344.79, making total re-

ceipts of \$59,893.25. The local fund in 1942-43 as of August 31, the local The local fund in 1942-43 as of August 31, the local maintenance fund showed an overdraft of \$2,070.37, with Audited by State about \$1,500.00 of unpaid bills on the books, making a total deficit of \$3,570.37.

pendent School District as of 1943 Com-

pared to Estimated Expenditures and

Receipts for 1946-1947

Condition of the athletic account as of 1942 showed an outstanding indebtedness of \$8,846.46.

The proposed budget for 1946-47 shows an approprischool board reveals the fact ation of \$97,752.22. Of that amount, \$59,500 will be ap-Paul Kaiser, who died and came out Dec., 1942 as a the proposed tax increase measalaries for 1946-47 will be \$1,827, with the minimum salaries set at \$1,678.50.

Estimated receipts for 1946-47: vocational aid \$520, per capita portioned Burkburnett School District \$35,-429.60, Cashion per capita \$2,201.60, Thornberry \$207.00, State Aid Transportion \$5,000.00, County Available Fund \$50.00, Local taxes, based on the present rate, \$33,120.00. 31, 1945, is approved and filed. people of this town and com-\$1,000 delinquent taxes to be collected, \$5,000.00 from the Cashion taxable sources, \$1,341.56 interest on bonds owned, interest and sinking fund \$2,960 and \$6.00 extra per cellent report which reflects I am to represent this county capita apportionment to the State Board of Education for this year to be used on next year's salaries \$6,588. Balance in interest and sinking fund \$175.00, making total receipts of \$92,592.79, against appropriations of \$97,752.22, making a deficit of \$5,159.46.

If the maintenance tax is voted, the local school Director of Auditing board can set the rate at \$1.15 on the \$100.00 valuation and balance the budget. This is due to the fact that the State Board of Education has increased the per capita apportionment up to \$35.00 and has given the supplement Hold Rally Sunday increase of \$6.00 for this year. The 15c rate increase would bring in \$5,400.00, which would be enough to balance the budget and meet the needs of the school.

In regard to the indebtedness of the Burkburnett Independent School District, the athletic indebtedness that day July 21 at 3:30 p'm: to raise branches of law enforcement, was mentioned at the first of this article, of \$8,846.46, has been reduced to \$3,000.00. This \$3,000.00 is owed to the O. L. Clark Trustee Fund. The Burkburnett Independent School District also owes the First National Bank \$10,-000.03 on bonds which were used to build the grade school This is the total indebtedness, outside of the O. L. Clark Trustee Fund in the amount of \$26,666.71. Interest is paid to the O. L. Clark Fund each year, and Mr. Clark Dies In Wichita Falls times. in turn pays the interest back to the School District. Delinquent Taxes About All In

The Burkburnett Independent School District has collected \$15,312.02 delinquent taxes in the past five years. At present there is only \$2,797.75 uncollected delinquent taxes over the past five year period.

The local school district has operated for the past few years by receiving Fairview, Cashion, Evert and Clara on contract basis. These contracts call for total revenues of those districts, which have been paid over to the Burkburnett district, outside their bonded indebtedness, at which time Evert school district was free of debt Burkburnett and two daughters. fluence in the coming election and Burkburnett received their total receipts.

Last year the Burkburnett district received all of the funds from the Clara school district and all the funds from the Cashion district, except \$1,000 plus interest on their bonded indebtedness. Received from the Fairview district all their funds except \$1,500 plus interest, after the consolidation.

Next year Burkburnett will receive all revenue from veteran, married, has 3 childthese districts. Fairview has paid up all their obligations ren and is a loyal Democrat; and Cashion has paid their obligations on bonds and in- active church worker and civic 8:00 o'clock there will be a free debtedness. The school will receive approximately \$2,500 worker. additional revenue, minus the drop in valuations in these districts, due to the decrease in the amount of oil being produced in these districts.

The Burkburnett Independent School District now has a total valuation of \$3,600,000 as compared with last Baylor University, Waco, where There will be plenty to eat L. J. Johnson and family are year's value of \$2,400,000 within the bounds of the old he received his B. A. degree in and ice cold pop to drink, folthe in LaJara, Colo. for a two weeks Burkburnett district. As a result of consolidation the dis- 1931 and his Law Degree in lowed by ice cold watermelons. trict has gained a valuation of \$1,200,000.

During 1945-46 term, the local district operated under State Aid. Under these regulations the State Board of Education set the maximum salary of teachers at \$1,458 and the minimum salary at \$1,296 under which condition the local district received \$10,559 in State Aid. If the Burk district could find teachers to operate under the same salary schedule, teachers would be employed on the same basis and the school could be operated during the 1946-47 term on the present tax rate with no State Aid available, due to the fact that valuations have increased as a result of the consolidation.

If the maintenance tax is voted by the tax payers, the salaries of teachers, bus drivers and janitors will be increased proportionately. The salaries of the superintendent and the principals will remain on the present

level. A budget hearing will be held in August. Three weeks prior to the hearing, notices will be published as to the exact date, and any taxpayer is invited and welcome to the hearing.

Financial Condition of Burkburnett Inde-\$1.15 School Tax Rate Sufficient

Members of the school board have made a temporary budget In Sheriff's Race Total budget for 1943 was \$59,822.59. Out of that which includes proposed raises pany announces the appoint- amount, \$37,500 was spent for teachers' salaries. Basic for lower paid teachers and the nual salary, or \$75.00 per month on twelve months' basis. and a tax rate of \$1.15 for the Receipts for 1942-43 showed \$22,209.65 per capita, \$750.00 1946-47 school term would be sufficient to provide the revenue needed.

The present school tax rate \$1.00 per \$100.00 valuation.

Taxes on a home rendered at would be only \$23.00.

VACATIONING TO DEATH

Summer and vacation time, with our recklessness and carelessness turning it into a season of deaths and accidents. Perhaps it is the heat that reduces our caution, but anyway, through our lack of common sense, vacation time is chance-taking time. There are highway accidents, suffering through sunburn, drinking untested water, plunging into unknown swimming holes, over exercising when we aren't physically up to it. This is but a few of the ways we behave during the summer months. It seems that we might figure that a vacation is meant to be good for us and delight in the opportunity to linger with it.

LONG AGO

Living in a fast moving age, we are often recalled to events of the past through the death of an individual. Such is true with the passing of William S. Hart, whose name may mean little to the youngster of today but to old time movie goers, it brings back memories of thrilling Westerns of yesterday. Then cattle rustling and Indians and Bil Hart stirred the blood to a rapid tempo more than today's gangsters and film crooks. Somehow those movies with their bad men didn't hold the unwholesome effect for children that modern love triangles, murderers with a charm to glorify crime, sex that makes mockery of family life, does

You Should Vote

In The School Maintenance Tax Election, SATURDAY, JULY 20, 1946,

> Provided You Are A Tax Payer and Otherwise Qualified

Investigate Carefully and Consider The Matter From A Purely Business Standpoint

Burkburnett Independent School District had more than \$60,000.00 cash receipts from all sources to operate the 1945-46 term.

Consolidation with Clara Common School District No. 9 has taken place since. Likewise consolidation with Fairview Independent School District has taken place. This will mean more in increased revenue than additional expense will entail.

News item in Wichita Daily Times of July 16. 1946, states that on Monday, July 15, 1946, the State Board of Education voted a \$35.00 per capita payment for the State's 1,500,000 scholastics, as against last year's \$30.00, and a \$6.00 supplemental apportionment to this year's \$30.00 apportionment, with the recommendation that these additional funds be used in the 1946-47 budget.

City Faces Major Teacher Shortage

Wichita Falls public schools will enter the 1946-47 school term with a major shortage of teachers if the present rate of filling vacancies continues, according to Supt. H. D.

Apparently the shortage will persist despite action by the state board of education Monday in Austin in voting a \$35 per capita payment for the state's 1,500,000 scholastics for next year out of the available fund, and a \$6 supplemental apportionment to this year's \$30 apportionment with the board's recommendation that the supplemental funds be used in the 1946-47 budget. The action, in part, was designed as a step in curing the migration of qualified teachers to higher paying professions.

Statuatory limit for scholastic apportionment is \$37 per capita, or the limit of the 'available fund, whichever is less.

The boost in per capita payment is expected to alleviate somewhat financial conditions for next year, but will in no way affect the present school tax rate. The school fund is expected to show a small balance at the close of the fiscal year Aug. 31, Fillers said, in spite of the fact that repairs are being made this summer at practically all of the city's schools. Material shortages have caused postponement of additional repairs needed at several of the school buildings. -From the Wichita Daily Times of July 16, 1946.

We believe it is unnecessary to vote additional taxes at this time in order to be able to raise teachers' salaries. That adequate funds for this purpose will be forthcoming from State aid and the additional revenues from sources as above indicated. That even more State aid will be forthcoming by 1947-48 for the reason all State candidates are advocating it.

Vote against the proposition. Hold on to the State aid to which we are entitled and to which we contribute anyway. Do not break faith with the taxpayers of the Clara and Fairview Districts by voting to raise their tax rate when such raise is obviously unnecessary and untimely.

ASK ME

A General Quiz

The Questions

1. When was the Gregorian calendar introduced? 2. Does the flying fish actually

3. The United States has awarded how many Congressional Medals of Honor for heroic action dur-

ing the war? 4. Will a bullet fired horizontally

reach the ground as quickly as one dropped from the same height? 5. William Wordsworth was poet-laureate of England 7 years. Did he write any poetry during

that period? 6. What is the crime record for the average day in the U. S.?

The Answers

 In 1582 by Pope Gregory XIII.
 No; the hatchet fish is the only fish that flies.

It has awarded 406 medals. 4. Yes, because of the equal pull

5. Not a line. 6. There are 12 accidental killings, 18 murders, 31 rapes, 163 aggravated assaults, 149 robberies, 662 cars stolen, 881 places burglarized and 2,371 other thefts.

Rocket Ascended Over 44 Miles, Above Stratosphere

In the United States, the first man-made object to pass beyond the stratosphere was a rocket fired secretly at White Sands, New Mexico, on October 25, 1945, says Collier's. Developed by the GALCIT organization of the California Institute of Technology, this rocket, the starting weight of which was 680 pounds, was propelled by liquid fuel to a height of 235,000 feet, or over 44 miles, according to the radar equipment Here's a colorful and bright threethat measured its flight.

Pineapple Doily for Crocheters Chair Set to Brighten Kitchen

A Joy to Crochet

You'LL find this handsome 'pineapple'' doily a joy to crochet. It measures 15 inches in diameter and is as pretty in ecru thread as it is in white. Very lovely indeed when finished - you'll want to add it to your "pineapple motif" collection.

To obtain complete crocheting instruc-tions for the Big Pineapple Dolly (Pattern No. 5144) send 20 cents in coin, your name, address and the pattern number.

Decorative Kitchen Set ANT to give your kitchen a

piece kitchen set of chair seat,

tifully simple to make. Use a red and white checked fabric, or other cheery color to match your decorating scheme, and trim with white cotton ruffling.

Send your order to:

SEWING CIRCLE NEEDLEWORK 530 South Wells St. Chicago 7, III. Enclose 20 cents for pattern.

Get New Tire Protection at One-half Price Firestone

SUMMER months can be dangerous months if your tires are not in first class condition.

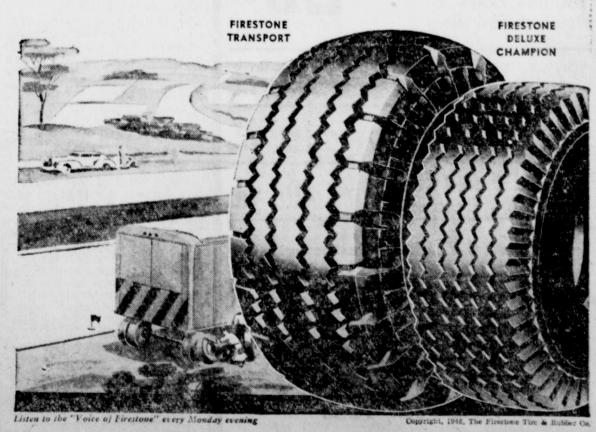

The heat from hot pavements puts a terrific strain on all tires. Those with thin treads or weak spots are almost certain to fail.

You can eliminate this hazard and get new tire protection at half price by having your tires repaired and recapped at your Firestone Dealer Store or Firestone Store.

Firestone Factory-Method recapping gives you exactly the same tread made of the same materials - that you get on a brand new Firestone De Luxe Champion tire, or a Firestone Transport Truck tire. Firestone, and Firestone only, recaps your old tires with a new tire tread.

Firestone Factory-Method recapping is done by highly trained craftsmen exclusively - their workmanship is guaranteed.

Your Tractor Tires, Regardless of Make, Will Give Up To 16% More Drawbar Pull When Retreaded With The Famous Firestone Ground Grip Tread.

REPAIR WORK

Outlook for Canning Jars and Supplies Bright This Year

-Photo Courtesy Ball Bros. Co. Styles change usually for no good reason except that we women get tired of things, often for no good reason. Our grandmothers were different. When they liked some thing, they used it until it wore out and they had some things which didn't wear out. That is why so many of you can boast of owning Mason Fruit Jars which your great-grandmother took with her in the covered wagon when Granddad accepted the advice, "Go West, young man." You, of course, treasure those old jars even though they

mouth.

have no special cash value, and you have found their streamlined descendants dependable, but you may have decided that you would like to see how a different style jar and cap becomes the food you plan to put up this season.

Supplies Plentiful

Supplies of jars and caps should be plentiful for the first time in four years. Nobody is offering revolutionary designs but Gladys Kimbrough, Home Service Director for Ball Brothers Company, which made Mason Jars for your grandmother, has been telling us about a two-piece metal Vacu-Seal cap with dome-shaped white enamel-lined lid. It seems that the domed lids "tell you" when they are sealed. (They when vacuum pulls them down.) However, before deciding to adopt this style cap, you should check your jars because all brands of two-piece metal caps seal on the top of the jar and won't work unless the finish of that top is perfect. The flexibility of the metal lid and the pliancy of the sealing compound permit two-piece metal caps to be self-venting. This is why the bands are tightened before the jars are put into a canner for processing and should not be tightened again. The bands are taken off the jars the next day after the canning is done and left off. Bands are not bought every time new lids are needed as lids are sold in packages of one dozen. The same is true of complete caps (lid and band).

The Glass Top Seal (glass lid, metal band, and rubber ring "war baby") is still with us but not in huge quantities. When using Glass Top Seals, care must be taken to leave the metal bands loose during processing, otherwise too much pressure may build up in the jars and cause breakage or even explosion.

Nothing seems so much in vogue at the moment as the time-tested one-piece zinc cap with white liner. This trend may be a style revival but we think it more likely due to the fact that zinc caps could not be made during the war and that "the water wasn't missed until the well

Wide-Mouth Jars Back

Wide-mouth Mason jars are back on the market. Here the choice of caps is between one-piece zinc and two-piece metal Vacu-Seal, mixture has boiled 30 minutes. Cook

World Awaits Second Test of Atomic Bomb

WNU Carrespondent.

OPERATIONS CROSSROADS. - shape. Second or Baker test of the atomic Also all ships damaged, with the bomb in Bikini lagoon, now tenta- single exception of the Independtively set for July 25, will be like ence, towed away and anchored far

the army air force and precision had they been manned with crews. bombing as the whole thing will be a navy show. The bomb will be submerged some 75 feet beneath the surface im about 30 fathorns of water, 180 feet, and detonated in the midst of the target fleet, which is being regrouped to meet new conions of the test.

This second test also will lack the drama of the bomb burst and the atomic cloud, which is characterisic of atomic bombs exploded in air. What is likely to happen is that the intense heat will generate steam in the water and the terrific force will expend a part of its energy in a waterspout with a cloud of steam and vapor shooting into the air. Intent of this test is to measure force of atomic energy upon the hull structure of naval ships spaced at various distances from the center

Subs to Submerge.

here will not be the visible da age which was inflicted wholly upon | preceded by a traind man carrythe topsides or superstructures as in ing a "Geiger counter," a small the first blast. Since there is to be no ship placed directly above the radioactivity by a ticking noise, point of blast, the prediction is being made freely that no capital ships will be sunk, although lighter craft may be capsized. Another feature of the second blast is the placing of submerged submarines in the target fleet, and it will be interesting to note the effect of the bomb force upon the steel hulls of these vessels beneath the water.

Naval scientists predict that force of the underwater blast will create waves of sufficient height, possibly 10 or more feet which will sweep over low-lying Bikini island, although this was also forecast in the first blast and did not materialize.

Meantime, endless arguments proceed as to the degree of damage to the ships, the location of the bomb burst, whether the drop from the plane was a "near miss," probable loss of life had the ships been manned with full complement, and comparative efficiency of this first Bikini bomb as compared to the bombs at Alamogordo, Hiroshima and Nagasaki.

Precision Bombing.

When it is considered that this bomb was dropped from a height of something like six miles and hit within a 1,000-yard circle, this reporter would consider that pretty good precision bombing.

Adm, T. A. Solberg of the bureau of ships, bowever, declared that insofar as he could judge, every ship damaged by the bomb, with the exception of the Independence, could be put into fighting shape within two or three months.

and aviation gasoline and burning for almost two days, it would take I first test did not materialize,

ABOARD USS APPALACHIAN about nine months to put her in

out in the lagoon, likely could have Lacking will be the glamour of pulled away under their own steam.

Sindy Effects.

In the meantime, Bikini lagoon has been turned into a vast laboratory of science, chief interest being the effect of the bomb and its subsequent ragiological rays upon the live animals placed aboard the ships at various locations likely to be occupied by the men aboard. Amazingly, only about 10 per cent of the animals were killed by the force of the blast. Some are burned and sick and others may become ill from effects of radioactivity. As a matter of fact, a few already have been destroyed by medical doctors, who are studying this phase of atomic energy in an effort to determine how this radioactivity can be used in medicine in treatment of

Persons or animals which receive these powerful rays into their systems are variously affected and the box-like apparatus which registers

Estimate Losses.

A fleet such as those which composed the target fleet would normally carry approximately 30,000 men. It is reasonable to assume then that approximately 10 per cent, or 3,000 men, would have been killed by the atomic bomb blast and that more would have been injured by radioactivity. Whether much of the damage to ships caused by subsequent fires aboard could have been averted had crews been aboard is a most question. Some ships captains declare that damage would have been much less had the ship fire-fighting equipment been brought into play, and this seems reasonable in that most of the loss on the Independence was due to fire and explosion and not the bomb blast.

There is no attempt however on the part of naval authorities to minimize the terrible power of this atomic bomb. No other single bomb ever did the damage to a fleet that this one did . five ships sunk, one completely out of commission and approximately 10 others out of action for two months or longer, and small to negligible damage done to 10 others.

However, another atomic bomb likely would not find 73 ships to make up a helpless ghost fleet grouped conveniently like sitting ducks and whether use of the atom ic bomb as an offensive weapon of naval warfare upon ships at sea is militarily sound still is a debated question and one which the naval evaluation board will study during the next few weeks or months.

It must be remembered that what-For the Independence, battered ever is said about this second bomb and ripped apart by explosions of test before the actual test is in the her own torpedoes, her ammunition | realm of conjecture, and much of the conjecture made prior to the

JESUS AND TRUE WORSHIP

LESSON TEXT—Deuteronomy 8:11-14, 18-20: Isalah 60:30, 31: Mark 12:28-34, NEMIORY SELECTION — God is a Spirit: and they that worship him must worship in spirit and truth.—John 4:24.

The one true God is worthy of the wholehearted worship of all men. The second commandment, which we studied last week, forbids all and every idolatry and thus requires exclusive worship of God. It really means something in the life of a man to worship God in sincerity and truth. It makes life worthwhile both here and hereaft-

L Wership Balances Life (Deut. \$:11-14)

Prosperity is usually thought to be a blessing. We fear depression and poverty. The Lord through Moses warned his people that prosperity was dangerous. It still is, because material things have the power to so satisfy the natural desires of man as to make him forget his spiritual needs.

Is it not true that material prosperity usually brings with it a corresponding decrease in spirituality. Life values are weighed in gold, silver, wheat and iron instead of being viewed in the light of God's

Worship of God will balance life for it will keep man from forgeting God and his laws. In the wilderness Israel had to call on God for daily bread. Now that they were are edged in handsome scallops, to come into the promised land they princess panels give you a slimwould be apt to think they produced their own food.

II. Worship Protects Life (Deut. appliques.

One of the most mischievous mistakes of life is the idea that man is the maker of his own money. Only God can give man the power of hand and heart, of muscle and mind, which brings forth wealth, and then he can only draw it out of God's resources in mine or field or This fallacy of man leads him

astray, and he begins to worship the very powers he uses and finds pleasure in the gods of this world. That way leads only to eternal destruction, to spiritual death.

How is man to be delivered from this awful destructive force? By a right relationship to God, by worship of and devotion to the Lord. Israel had a covenant with God, and in the keeping of it they would find deliverance from all which would pull down and destroy-yes, and from the judgment of God (v.

We who are believers in Christ are up to rim of mold. This must be under the new covenant of grace. If we have been born again we liquefy. have the promise of God that we have eternal life. But let us be clear that it is possible for a Christian to so forget God and his cov- screen and it won't hop in the way. enant with the Lord as to lose his fellowship and joy, and to be useless and fruitless.

IIL Worship Strengthens Life

(Isa. 40:30, 31). The Christian life is not an easy one to live. After all, who wants it easy? There is, however, full provision by God for the power needed to live a life as victorious and exultant as that of the soaring eagle. That power is for those who wait upon the Lord" (v. 31).

It is taken for granted that those who are old may become weary and faint, but the fact is that even the youth have this disappointing experience.

We, leaders in the church and parents, are apt to forget that youth is often a time of great struggle. The young man or woman must make the choices of purposes and ideals which will determine their fu ture. Too often youth, left unguided and without the balance of a real faith in God, makes the wrong choices and winds up in bitter dis-Only God is sufficient for the need

of our young people but he is sufficient. Let us teach our boys and girls to wait on the Lord.

IV. Worship Completes Life (Mark 12:28-34).

Here was a man, who, by the tesmony of Jesus was "not far from the kingdom of God." He was very near to a full devotion to God in Christ. He knew "all the answers," but he did not follow the teaching which he knew to its proper and blessed conclusion

It is terrifying to think how close a man can come to entering into eternal life, and yet miss it altogether. It prompts the writer of these notes to ask you, the reader, very earnestly. Have you entered into eternal life through Jesus Christ? "Almost" will not avail; you can be

almost saved-and eternally lost. The true nature of worship is revealed in this lesson as a loving dependence on God at all times and in all circumstances. We recognize him as the one who can supply our every need, spiritual and temporal. We accord to him quick and full obedience. We find in him such from our fellow men. We worship him!

folitical Ad paid for by Mrs. Alice Taliaferro, Mrs. Dorothy and John P. Marrs).

Undulant Socialism

A sick republic, like a human invalid, passes through a crisis in the course of almost any protracted illness. After the crisis, the patient rallies toward recovery or sinks tration regional office in Fort with alarming haste toward the end. Whatever is to be done after a crisis must be accomplished with at the Childress Army Air Field. dispatch, or it is too late. The Eng- Tuesday, July 23rd. lish government passed through a crisis approximately a year ago.

Since England's current adminis- certified April 26th to purchase tration proclaimed itself owner and operator of the coal mines, Britain consequently, is named as an alhas been viewed popularly as Socialistic-one of the collectivist nations. Not all the individuals in the Empire are socialists. Large elements are not. But this large minority is being forgotten. Curtains are being drawn. The crisis is over and England has gone left.

A Long Time Dead. There is something strangely final about it when a free people turns of Iowa Park last week. its course toward State Socialism. Liberty never comes back without a revolution and then it's not the same. Such is the testimony of recorded history. Industrially, England is a coal country and private enterprise lost its last stronghold on the enchanted island when King "Leto" Relieves

Coal surrendered. Now the ailment that prostrated John Bull has been communicated ers because of work stoppages through strikes-strikes by the best paid group of mine workers on

Here's the Pattern

I think perhaps the workers ought to have had an increase in pay, which they no doubt could have obtained without striking. Nevertheless, they struck and government took over the business long enough, at least, to close a new contract giving an increase of \$1.85 a day per man and a royalty of 5c a ton on coal to give their union a "welfare" fund. The new "welfare" fund has no relation to the union's sick and accident fund, already

The new contract will raise the the price of coal 25c to 30c a ton and build up the "welfare" fund at the rate of 25 million dollars a year. The Senate has approved the executive department's right to impose this contract on the mine owners when they take their property back. This is an attack of the undulant socialism

Works Like This:

Government can now control the cost of coal to the owner of a mine. By fixing labor's wage, a ruler can make coal production cost whatever suits his fancy. Government already controls the price of coal to the consumer through the workings industry is in a legal nut-cracker and government has the power to choke it to death at will-that, or take it over entirely.

With the sanction of Congress, which I hope never comes, federal officials can do to any industry what they are doing to coal. Each assault on freedom will be one more attack of the dread disease, undulant socialism. It works like the fever which, scientific men say, can be cured in rare instances if vigorous treatment is begun in the early

Strike-At Whom?

Financial reports make interesting reading to people who know even a little bit about what they To some, they look drab because they are printed mainly in figures; many students never have learned to enjoy studying figures. Just the same, dull old numerals tell the truth in a romantic way to those who love cold facts of struggle and adventure.

Late in May it was my good fortune to have with me an annual report of one of America's largest corporations when I had to spend three hours on a day train. In the back of my mind as I rode along, was a lurking fear that I might reach TO MY WICHITA COUNTY home a day (maybe a week) late because of labor troubles, just then coiling to strike. My dread threw a bright light on the figures in hand. Division of Wealth

The company about which I was reading plays an important part in the lives of more than a quarter of a million people: 100,000 employees and 150,000 stockholders. Two out of every five of these people drew The average share owner got less then (800 a year. The average employee took

Daily newspapers for days had reported threats of strikes in the plants of the firm I was studying. also on the lines of the railroad I dustries. Question: If all the employees of all the companies strike for what they want and get it, who will pay the difference? How will they pay it? These questions have answers and they're not secrets. Enter Apple Conductor

The train stopped for a few minutes under the sheds of a bigtown station and a railway newsboy came through with fresh afternoon papers. On page one, under Washington date-line, a wire story told how OPA would grant higher prices on automobiles. Nearby was another item about a 10% boost in shoe prices. Then I remembered that bread and milk and meat all had gone up recently. Whether you ride or walk or only

eat, the price gains catch you. Wages are inside the cost of every manufactured thing, and the consumer pays. It is too obvious to deserve proof. Not long ago officialdom was sounding off freely about how wages in Detroit could be boosted without charging higher prices for automobiles but it didn't work out that way. Why? Strikes Are Weapons

It is because strikes are not tools. The official theory was right: Wages can go up without boosting prices but production has to be increased if it happens, and strikes don't increase production. Sudden wage increases of 18% to 30% have to come from somewhere, but where? A stockholder drawing \$500 a year \$2,500 wage earner.

Strikes can't take something from the owners of a company that the owners don't get. That leaves nobody to pay the higher wages but Mr. Consumer whose family drives the car, wears the shoes and eats the food. A large majority of consumers are themselves workers. In the absence of increased production, a strike is a boomerang. It hits the consumer who is the worker

Dobson Funeral Held Here Monday

Funeral services for Mrs. Arninda Dobson, 65, Burkburnett resident for 18 months, who died Friday morning following a heart attack, were held at 3 p. m. Monday in the Owens & Brumley Funeral home. Interment was in

the Burkburnett cemetery. Rev. Harold P. Bruce, miniser of Jehovah Witness in Wichta Falls, and Rev. M. B. Babbitt, pastor of the Assembly of God in Burkburnett, were the offi-

riating ministers. Pallbearers were A. C. Reeves, Holly Bowman, R. J. Dunham, Eldon Morris, Jewell Elliott and J. F. Kelley.

Survivors include the husband, T. J. Dobson of Burkburnett: 3 sons, Emmet and Wilmer of California and Doyle of Odessa, Texas; 4 daughters Mrs. John Smally, Lockney, Texas; Mrs. Silas Herion, Iowa Park; Mrs. Gladys McDonald and Mrs. John Story of Burkburnett; 1 sister Mrs. Lou Garon of Missouri and grandchildren.

Mrs. Tom Boyd and daughters Carolyn and Dorothy have been attending the Dallas dry goods market this week. Mrs. Boyd secured quite a lot of new merchandise, but reports that the markets still have a limited quantity.

Mr. and Mrs. G. G. Upchurch of Randlett, spent Sunday with Mr. and Mrs. N. C. Fowler and

FRIENDS:

In offering my candidacy for re-election as your State Representative, District 111, Place 1, let me say that I have been representing you unselfishly, honestly, and conscientiously, to the best of my ability.

If these services so rendered have met your approval, I shall be glad to continue my work as your Representative.

I have not made an aggressive campaign, believing as I do that the intelligent people of Wichita County are familiar with my record, and are fully competent to decide on that record, whether or was riding, and in many other in- not they want me to continue as their Representative.

On that question, my friends, you will render your verdict on July 27th, and whatever your verdict may be, I shall be satis-

If it be for continued service, I can only reiterare the only po-litical promise I have ever made; day with the N. C. Fowlers.

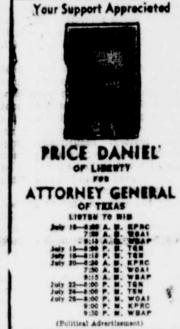

Miss June U lett is visiting.

Mrs. F. P. to give you the best I have. If it be against me, then I shall still love the people of my adopted county, among whom I have lived and labored for more than thirty years, for the many honors conferred on me, and the priceless friendships formed through

I will highly appreciate a vote of your continued confidence. C. M. (Judge) McFarland, State Representative, District 111

Mr. and Mrs. F. E. Cruce and Mr. and Mrs. Dick Chambers left Saturday on a fishing trip which will take them to Arkansas, Colorado and Iowa.

DOGS CONTRIBUTE TO FAMINE RELIEF

Pet Food Manufacture Cut Back to 80 Per Cent of 1945

America's dogs, like the American people, are doing their bit toward the alleviation of famine conditions abroad, reports the Gaines Dog Research Center, New York City.

As a step in meeting America's commitments of food supplies for overseas shipments, this country's pet food manufacturers have been cut back in their production to 80 Bedroom and kitchen privileges per cent of what they put out last reserved. Private. Permanent year. This means that Fido will get only four-fifths of his favorite prepared dog food he received during 1945. He had looked forward to larger portions of food with the return of peace, and is full time, we have just the job TRAIN NOW FOR BIG PAY, to fill your needs. Women past naturally disappointed in receiving even less than he did in the midst of war. But Fido is not growling-he is taking it like a

good sport. Reduction in the volume of prepared dog foods this year comes as a setback to the dog-owning housewife as well. For years, and particularly during th. war years, she has been depending on dry dog foods for meeting the nutritional requirements of her household pet. Keeping a dog on meal-type food involves no more effort nan giving him a drink of water. One merely measures out the required amount and adds warm water, milk, soup or gravy in the consistency preferred by the pet

For Meals of Distinction Serve Your Own Homemade Jelly

Homemade jelly adds distinction to any meal. Good jelly Devol vs. Bank is made by cooking the correct amount of sugar with the juice of any full flavored fruit. Many juices can be used as is, but Magnolia vs. Legion some require the addition of fruit acid or a solidifying agent Devol vs. Palace, B & G called pectin and others need both acid and pectin.

pectin for making jelly. Apricots, cherries, peaches, raspberries, pears, strawberries usually lack either or both acid and pectin, but make excellent jelly when combined with an equal amount of tart apple jelly juice or with commercial pec-If pectin is used, the instructions supplied with it must be fol-

It is a good plan to can unsweetened fruit juice and make it into jelly as needed, because freshly made jelly has a much better flavor than that which has stood several

We are indebted to Gladys Kimbrough, Home Service Director for Ball Brothers Company, manufactuwhich should be helpful to those who have not already mastered the art of making jelly of superior quality.

JELLY NOTES

For natural jelly "like mother used to make," use fruits which under normal conditions contain enough pectin and acid to yield . good jelly.

For unusual jellies, combine the juices of such fruit as red cherries, strawberries, or apricots with an equal amount of apple juice or with a good commercial pectin.

Fruit should be hard-ripe for jelly making. Under-ripe fruit lacks flavor, that which is "cream and sugar" ripe won't jell; however, some persons prefer to use half underripe and half fully-ripe fruit.

Cook fruits until soft but not mushy to extract the juice. Cooking is necessary in order to extract the pectin from the pulp. Cut apples in small pieces, skin, core and all. Crush small fruits before

Remove grapes from stems and caps from berries to prevent off-

The amount of water to add to fruits for cooking varies. Apples require enough to cover. Most juicy fruits need just enough to prevent ries, for example, require more.

If you have no jelly stand and bag, tie two thicknesses of cheese cloth over the top of a deep enamelware kettle or a clean dish pan. Pour the hot fruit on the cloth and let drip free of juice. (The fruit from which the juice has drained may be put through a colander and

used for making butter or jam.) Don't make the mistake of using too much sugar. The general rule is three cups to one quart of juice. but currants and green gooseberries usually work out better if three and a half to four cups of sugar are used to each quart of juice.

One-fourth of the granulated sugar called for in a recipe may be replaced with corn sirup.

Sugar crystals are likely to form (4) it is left standing unsealed.

any crystals which may form in it.

Gummy jelly is usually caused by overcooking or by long slow

Jelly may be cloudy if: (1) the juice is not carefully strained, (2) under-ripe fruit is used. (3) allowed to cool too much before pouring into glasses, (4) sauce pan is held high above the glass when the jelly is poured (this traps in air bubbles). Jellies may "weep" if: (1) not
