Wed. Bible Study, 7:00.

We were made happy because of the fine increase in attendance at all services last Sunday. With vacations over and with the coming fall, we should have a continued increase almost every Lord's day. Too, we should have a growing interest in all phases of our church work. Let us remember, "Though the harvest is past, the summer is ended, there are yet many who are not saved". The public is cordially invited to attend any or all of our services. Come and worship with us. "There is a difference".

More Than Hundred Enrolled In Band

The reorganization of the Burkburnett High School Band is well under way. There are between 50 and 60 high school students, and 35 to 40 seventh and eighth grade students enrolled in the band.

We wish to thank the school board and the school administration for their cooperation and also for the nice equipment they are purchasing for us. Our only hope is that we can become a band which the school and city of Burkburnett will be proud. We want to have a band that can be used to advertise the school and community.

Thanks for all the support we are receiving from the parents and citizens of Burkburnett.

Training Union, 7:00.
Preaching Services, 8:00.

Just two more Sundays and the year will be gone. What has the church meant to you, and what have you meant to the church for the past twelve months?

The Sunday School average attendance for each Sunday of the year is 341—have you had a part, or have you kept it from being any higher?

Last Sunday our Sunday School attendance was a little under the Sunday before. We had only 342.

Last Monday night at the last teachers and officers meeting for the year we had 35 regular teachers and officers and 8 class officers—the best attendance for many months. Our standard requires that we have at least 50 per cent of regular officers and teachers present.

Just one more Sunday before promotion day. That should be a great day with us. We should go over the 400 mark by many.

Sunday morning, Rev. L. B. Roberts will preach at the First Baptist church. Sunday evening we will have the Youth Choir to sing, and then show a good picture, taking some thirty minutes. You are urged to be in your place at Sunday School, preaching service, Training Union and then for the special services Sunday night.

Thrice welcome to all.

Burkburnett Day Is Fri., Sept. 27th

Wichita County Fair, held at Iowa Park each year, will open Monday, September 23, with the biggest showing in its history.

All display booths have been filled and requests are being turned down every day for lack of space.

Department heads report that everything is complete for the six days' showing.

Friday, the 27th, has been designated as Burkburnett day.

Burk Is Best

"Just got back from South Texas and I was impressed with the way those people advertise with neon signs. Some seem to whirl around, and some seem to wink at you. But if you go in and buy something you will think they are winking at your bill fold.

Canine Population Decreasing Fast

Late Monday afternoon the dog population of Burkburnett dropped sharply in just a few minutes. Quite a number of nondescript cur alley dogs met sudden death when local police gave their "hog-leg" 45's a good work-out.

A dozen or so mangy, poor and crippled dogs that roam the streets day and night, do not contribute much to the beauty or sanitation of the town. It is not the intent of local officers to kill pets or dogs who have good homes and stay in them. Those that have gone to the happy hunting grounds are much better off now for they at least won't know the pangs of hunger and cold.

Foot Ball Players Need Transportation

Each afternoon at six o'clock eight foot ball players who live out in the country need transportation home after a strenuous work-out on the local gridiron. In the first place these boys don't have enough energy left to walk home, and in the second place, we shouldn't let them do so if they did have the energy.

Some afternoons Ray Hill had a hard time finding cars to take them home. At times it has been necessary for Geo. McClarty and Wylie Browning's cars to make two trips in one afternoon.

It takes only two cars each afternoon and if a number of foot ball boosters would volunteer their cars, no one would have to make the trip more than once each week. That is the least we can do to show our solid support of the team.

Call Ray Hill at the Chamber of Commerce office and tell him your car is available.

T-5 Billy Hall, son of Mr. and Mrs. Henry Hall, was to receive his orders in Manila on Sept. 13th, which he believed would be to return to the states. Billy has been in the service 19 months, one year of that time at Manila.

A Good Start Toward Peace

Educational leaders of thirty nations have met and united in the plan for educating for peace. There is the suggestion that large numbers of scholars be exchanged in foreign schools and colleges, covering also outside subjects of the nation's music, literature, art and books.

There would be a very strong international teachers' organization to serve in this world education. Strengthening teaching in each country they would unite the pupil and instructor. One asks how nations can co-operate when no two have the same set of textbooks. Prejudice has made the same subject entirely different reading in each land. So it is essential they say, to rewrite textbooks for world understanding. It is a problem to choose who should compile them, how to make schools use them, who is fitted to say what is actually the truth in history.

The educators, in conference, believe it possible, by eliminating hatred against neighbors, each nation conceding, forming a world committee of scholars to create books that are interesting and doctrines for understanding. Remindful that Germany was among the most highly educated nations, this program must instill in the hearts of pupils the proper thoughts to build for peace, to save the world from self-destruction.

LIGHT IS CHEAP!

Now that students are starting another year at school, see that they have a good light to safeguard eyesight and make studying easier. The lamp you child uses for reading or studying should have at least a 100-watt bulb to provide enough light. The shade should be wide to spread the light, and be careful to keep any glare from unshaded bulbs from striking the eyes.

Campbell-Alexander Rites Performed Sunday, Sept. 15th

Miss Mary Lafon Alexander became the bride of Carl Thomas Campbell in nuptial rites performed Sunday afternoon at 3:00 o'clock at the home of her parents on East Fourth Street. A REPORT

on telephone progress in Texas

The first postwar year was the busiest year we've ever known, filled with work to give telephone service to those who are waiting and to improve service for everyone.

We have put in 240,000 telephones in Texas—nearly twice as many as in any prewar year. We are handling more calls per telephone now than in the rushed days of the war. And even this record-breaking performance has not been enough.

But we're glad to say we've been able to take care of most customers whose applications were held up by lack of facilities on V-J Day—and in most places, most of the time, service is fast and good. Operators are answering 9 out of 10 calls within 10 seconds.

Demand Up

On the other hand, more people than ever are applying for telephones—24,000 a month for the last six months. Prewar months averaged 11,000. Thus, as we go ahead on one front, there are increasing demands on another.

We want all those waiting for telephone service to know we are doing our best to get it to them. It is just as much an emergency to us as a hurricane—but this is country-wide.

Bell System factories today are working around the clock, three shifts a day. And—despite scarcities—are

even breaking some records set in boom days years ago.

In Texas we're putting the new equipment to work as fast as we get it, and putting up new buildings to house it when necessary.

People Are Telephoning More

This first postwar year has also brought an extraordinary increase in telephone use. Local calls are now 7½ million a day in Texas—nearly 1½ million a day over last year. That rise would have taken several years in normal times. Toll and long distance calls are also at all-time highs.

We have increased our forces to handle your rising telephone needs. Now we have 48,000 employees in the Southwest—more than ever before. This is an increase of 11,000 since the war ended. About 6,000 are returned veterans.

It will take a great deal of money and some time to do all the things we have planned for your telephone service, but our 250-million-dollar 5-year expansion program in the Southwest is well under way. During the first postwar year alone we spent about 50 million dollars providing telephone equipment.

It all adds up to our desire to serve well everyone who uses the telephone. And to do it always with courtesy and understanding.

W. L. Prehn

Nazi Bigwigs Await Sentence; Dewey Faces Mead in Strategic Race for Governor in New York

Released by Western Newspaper Union

Searching for mines of the type that blew up transport scheduled to carry illegal Jewish immigrants to Palestine to detention camp on Cyprus. British combed seaside settlement of S'Doth Yam. Tommy is shown tapping floor of nursery in quest for hidden cache.

WAR CRIMINALS:

Germany

Defiant to the last, Nazi bigwigs awaited sentence on war crimes after a 10-month trial at Nurnberg. Winding up the lengthy case, in which 3,000 documents were introduced and 5,000,000 words of testimony taken, former Reichsmarshal Goering denounced the allies for accusing the German leaders alone of violations of international law; ex-Foreign Minister Von Ribbentrop ripped the prosecution for refusal to admit as evidence an alleged warning by Churchill that Germany would be destroyed if she became too strong, and Finance Minister Schacht pleaded he had tried to avert the war.

Japan

Counsel for 27 high Japanese leaders on trial for war crimes in Tokyo was thrown into a dither by the revelation that officials of the war department had misused confidential information to tip off the prosecution on its strategy. Knowledge that counsel would claim Japan was forced into the war by America's diplomatic moves and economic sanctions was radioed to the prosecution and accidentally fell into the hands of the defense.

Philippines

Concluding three days of fiery oratory before the people's court for his release on bail, Jose Laurel, Filipino puppet ruler under the Japanese charged with collaboration, declared everyone had worked for the enemy out of fear or other motives. Mentioning Japanese money, Laurel shouted that it was in general circulation throughout the nation and therefore everyone who accepted it had assisted the Nipponese.

AUTO OUTPUT:

Hits Lag

In calling a press conference in Detroit, Mich., C. E. Wilson, president of General Motors corporation, presented the company's case against both the government and workers for the serious lag in auto production.

Pointing out that G.M. had turned out only 400,000 cars and trucks in the year following V-J Day instead of the 1,400,000 scheduled, Wilson charged the Truman administration with having attempted to appease labor unions by taking the lid off wages while at the same time stating that price increases were unnecessary. As a result, manufacturers were "put in the nutcracker," he averred.

Although G.M. has 88,000 more employees on its payroll than in 1941, production is about half, Wilson said. Tests on relative jobs have shown that worker productivity is about 80 per cent of the pre-war rate. Refusal of employees to extend themselves, a high absenteeism rate, inexperience and a large turnover partly due to the ease in collecting unemployment compensation all have contributed to the inefficiency, Wilson declared.

HOUSING:

Having trimmed commercial construction and tightened allocation of materials to speed up the veterans' emergency housing program, Housing Expediter Wilson W. Wyatt feared a prospective labor

REDEVELOPMENT:

Big problems of small towns recently assumed the limelight in Oklahoma where technical aid and research facilities are being centered on rural redevelopment by the new state Institute of Community Development.

The institute is helping small towns build a new economy to fit the changing times since the traditional pattern of rural life in the state is affected by soil erosion and a growing manpower surplus.

NEW YORK:

Election Battle

Gov. Thomas E. Dewey's renomination as the Republican candidate for re-election in November, and Sen. James M. Mead's selection as the Democratic choice for the office, promised to make New York one of the strategic political battlegrounds for the 1948 presidential race.

In naming Mead, the Democrats

pushed one of their strongest standard-bearers into the fight to capture the governmental apparatus of the all-important empire state and at the same time squelch Dewey's aspirations for the White House. The son of Irish immigrants, who got his start in life as a water carrier for a railroad section gang, Mead has made an impressive record in the senate, particularly as head of the war investigating committee.

That Dewey hoped to make the impending gubernatorial race a springboard for the 1948 presidential run was seen in his strong castigation of the Truman administration for "bungling and confusion" in his renomination speech. As the party lines were being drawn for battle, Dewey stood as the favorite to win because of his administrative record in office.

NAVY:

To Provide Comforts

One could almost have heard the rattle down in Davey Jones' locker when the navy announced that it was air-conditioning the new cruisers, Salem and Newport News, to determine the best kind of equipment for eventually cooling all of its ships.

In announcing the navy's plans for providing additional comfort for crews on the bounding main, Vice-Adm. Edward L. Cochrane, chief of the bureau of ships, emphasized that air-conditioning had proved invaluable in boosting morale and fighting efficiency in combat.

Various types of new air-conditioning equipment will be used in the tests in the new 17,000-ton cruisers, with the cool air transmitted into all living and working compartments save machinery areas where the heat is too intense. Simplified coils will be shockproof and easily cleaned, it was said.

Business volume and membership of farmers' co-operative associations showed a substantial increase in the 1944-45 marketing season over the previous season, according to Farm Credit administration.

Estimated membership in the agricultural co-operatives operating in the year ended June 30, 1945, was 4,505,000, an increase of 230,000. Business handled by the co-ops went from \$3,160,000,000 to \$3,645,000,000

Improved Uniform International SUNDAY SCHOOL LESSON

By HAROLD L. LUNDQUIST, D. D., Of The Moody Bible Institute of Chicago, Released by Western Newspaper Union.

Lesson for September 22

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education, used by permission.

JESUS AND THE LAW OF THE STRANGER

LESSON TEXT—Exodus 22:21-23; Deuteronomy 24:14, 15; Matthew 23:34-41. MEMORY SELECTION—The King shall answer and say unto them, Verily I say unto you, Inasmuch as ye have done it unto one of the least of these my brethren, ye have done it unto me.—Matthew 25:40.

There is as much need today for the words of counsel and admonition regarding strangers which we find in our lesson, as there was in the days of Moses, for there seems to be an almost complete breakdown of neighborliness both between nations and individuals.

I. The Law Required Neighborliness

(Exod. 22:21-23; Deut. 24:14, 15). Our heavenly Father as revealed to us in his Word is a Father indeed, one greatly concerned about his many children; but especially does he care for those who are weak and needy.

The laws of ancient Israel made provision for the feeding of those who had no fields. The corners of the field were left uncut at harvest-time, some of the grapes were to be left on the vine, etc., so that the poor could enjoy the sense of self-respect as they picked for themselves what God had provided (see Lev. 19:9, 10; 23:22; Deut. 24:19-21, and other passages).

The poor man who found work was to receive his pay when needed. For the one who hired him to do otherwise was to bring upon himself the judgment of God. He listens to the cry of the hungry worker and his family (Deut. 24:15).

Strangers were in a peculiar way subject to the possibility of extortion. They are even today the easy mark of the one who lives by his wits, the "confidence" man and sneak thief.

If any such person reads these notes let me warn him solemnly to keep his tricky hands off the stranger, for God is watching and will hear their cry (Exod. 22:25).

The same is true of widows and orphans. God is their keeper and their defender.

II. Christ Expects Neighborliness

(Matt. 25:34-41).

This is a prophetic picture of a great judgment scene. It is not, as many suppose, the same as the judgment of the Great White Throne of Revelation 20.

The scene here is not in heaven, but upon the earth. It is not individuals who are being judged, but the nations of the earth. They are not being judged regarding personal salvation, but for their treatment of Christ's brethren.

Who are his brethren? First we think of his brethren, after the flesh, the people of the Jewish race. Scripture reveals again and again that God is watching over his chosen people, even though they are now scattered in judgment for their unbelief. He will not hold any guiltless who harm his people (Gen. 12:1-3).

The word "brethren" is also used in such a passage as Matthew 12:46-50 to include all who do the will of God. That suggests a broader application of these words.

Our attitude toward God expresses itself in our attitude toward our fellow man. That which we do toward those about us is not a matter of indifference, but is the basis for God's judgment of our lives. Each of us must answer for the deeds done in the flesh whether they be good or evil. That is true even of the believer (II Cor. 5:10), whose salvation has already been determined by his faith in Christ.

Here in our lesson, however, the failure to do that which shows forth God's law of love is made the ground of eternal judgment. This is not because an act of kindness itself can be regarded as the ground of division, but because the failure to give it or do it reflects an attitude of heart toward our God and his Christ which is in reality a rejection of his way of salvation.

Judgment is thus a revelation of the attitude of the heart, which marks a man or woman as being either saved or lost. It may be possible to so becloud the thinking of our friends and neighbors that we may go through life looking something like a Christian, but when Christ judges, it will all be revealed.

Notice the importance of a proper attitude toward those who need our kindness and help. All too often the only concern of men and women is to look out for "number one" and let the rest of the world shift for itself.

Observe also that the Lord identifies himself with his brethren—what is done to and for them is counted as done to and for him. Compare the experience of Samuel (I Sam. 8:7) and of Paul (Acts 9:5). Touch God's people and you touch him. Fail them and you fail him. Serve them and you serve him.

Castle Disease Spreading In U. S.

Years ago there was a disease among poultrymen in the South over the appearance of a disease that was able to recognize or

diagnose. Later, in 1940, another type of nervous disorder, much like the earlier ailment, cropped out in flocks and spread quite rapidly throughout the state. It became known as "Avian pneumo-encephalitis."

Discovered In Orient
Now investigators are quite certain that the strange disease is actually Newcastle disease, which first was discovered in the Dutch East Indies in 1926. Later that same year an outbreak was discovered in England, near Newcastle from which it derived its name.

Symptoms Vary
Little is known of the dis-

ease now, and thus far no curative remedy has been discovered. Symptoms vary, some of them being loss of appetite, respiratory ailments, ruffled feathers, and bluish combs and wattles. Chicks often have ruffled feathers, stand with half-closed eyes and give the appearance of being chilly by huddling close together as if seeking more heat. Sometimes birds will develop nervous symptoms characterized by leg weakness, paralysis and by peculiar positions of their heads. A chick may hold its head down between its legs or in a twisted position over its back. Sometimes there is a tendency for infected chickens to walk in circles or forward and backward alternately.

Investigators recommend very strict sanitary measures as a means of preventing spread of the disease.

State Fair to Have Championship Rodeo

The first annual Southwest Amateur Championship Rodeo will be held in Dallas, Oct. 5th to 20th, at the grandstand of the State Fair grounds, it has been announced, and dates run currently with those of the 61st annual State Fair of Texas.

Contestants and champions from famous cowboy reunions such as those held at Stamford, Snyder, Matador and other Texas towns, as well as the famous ones of Oklahoma will compete for the Southwest championships. Entries of more than 200 "cowhands from Oklahoma," have been made, according to Pat Hamilton, proprietor of the famous "Hell's Halfacre Ranch" at Fargo, Oklahoma, who will produce and direct the championship contest. Mr. Hamilton said that he expected more than 500 contestants in the championship events. Any cowboy wishing to enter the contests may do so by registering with the entry department of the Dallas Rodeo Association, Fair Park, Dallas, 10, Texas.

Hall of State Seeks County Histories

The Texans Reference Library in the Hall of State, Dallas, wants materials on the History of Wichita County, and officials of Dallas Historical Society are appealing to citizens of the county to help locate the needed items.

"Copies of these books and pamphlets are in the hands of pioneer citizens and their descendants," Director Herbert Gambrell said, "but they are not to be found in book stores. Information regarding available county materials should be addressed to the Director, Hall of State, Fair Park, Dallas 1.

In addition to other items of interest, the following are wanted: "The Famous Wichita and Red River Valley Country."
