HOUSING FOR VETERANS

In an effort to meet the housing shortage on behalf of veterans, seven states have undertaken financial support to bring homes to them. Communities have worked through committees to raise money for the purpose. Public support is getting in its hand, with official or semi-official backing. In some states the method is through bond issues, alcoholic beverage taxes, a take on parimutual, a land buying program through bonds with the state reselling to veterans on a long term loan basis, increasing homestead exemption. It is necessary to watch construction programs most carefully, however. Present high prices of material and labor can further upset and already quivering economy. We are for the housing of veterans, but not for sible for veterans to pay for their homes.

Full Tables

After counting the bountiful yields of 1946 farm production, the department of agriculture told Americans that they would eat well again in

By intensive tillage of substantially smaller acreage than prevailed in the '20's, farmers produced record erops of wheat, corn, rice, potatoes, soybeans, tobacco and garden vegetables; near record yields of grapes, peanuts and oats, and better than average harvests of sweet apricots, sugar cane, sugar beets, dry peas, sorghum and hay.

If Americans will have plentiful supplies of cereals, vegetables and fruits, they also are promised a full table of meat. The department reported record numbers of cattle on feed in grain belt feedlots.

Production Pattern

The department's final estimate of 1946 farm output suggested the shifting pattern of production within the past decade.

While such old American agricultural standbys as wheat, corn, potatoes and tobacco showed appreciable increases in 1946 over the 1935-'44 average, rye was down to 18,685,000 bushels from 42,356,000, and cotton dropped to 8,482,000 bales from 12,553,000

STALIN'S HEALTH

WASHINGTON.-Diplomatic dispatches from Moscow indicate definitely that Marshal Stalin's health has had another setback. He suffered a heart attack some time in November and now is resting in the Crimea.

This fact has been made the subject of an official report to the state department,

This last heart attack is the second suffered by the man who has ruled Russia so long. Last winter he also had to go to the Crimea to recuperate from an illness. Stalin is now 67 years old, but has crammed more diversified life and hardship into those years than any other world leader.

Stalin was imprisoned and exiled to Siberia eight times, and the years have taken their toll. He was not play-acting when he held up Churchill and Truman by staying in bed one day at Potsdam.

THE WORD MADE FLESH

LESSON TEXT-John 1:1-18. MEMORY SELECTION—No man hath seen God at any time; the only begotten Son, which is in the bosom of the Father, he hath declared him.—John 1:18.

A new year always carries with it a deep sense of responsibility and at the same time a thrill of expectancy.

That is why we need to begin this new year-and continue it-in the study of God's Word, so that we may know his will. You will find it to be a joy and blessing to you, not only as you study it by yourself, but also in the fellowship of those in the Sunday school and church.

Our lessons for the next three months are of unusual interest, for they take up the Gospel of John which was "written, that ye might believe that Jesus is the Christ, the Son of God; and that believing ye might have life through his name" (John 20:31).

the Word (Logos), and he is indeed the living Word come to reveal God to us. I. The Living Word Is the Light

Men ask questions about Christ. They want to know whether he is to be regarded as a good man and

a great leader, or must we recog-

nize him as being God? The answer is here. He "was" in the beginning (Gen. 1:1), which means that he pre-existed from all eternity, and he "was God" even as he was "with God." This eternal, living, divine Word was the "express image" of God (Heb. 1:3), and so perfectly revealed the Father (v.

He dwelt among men and showed forth the grace and truth of God, for he was full of these heavenly attributes. But it was in his giving of himself as Redeemer and Saviour of mankind that he fully revealed God in all his gracious love for us.

Notice the antithesis here. "Law" is set over against "grace"; "given" stands in contrast with "came," and "Moses" with "Jesus Christ."

The law was a schoolmaster to bring us to Christ (Gal. 3:24), but it could not save anyone; but grace -oh, it is by grace that we are saved (Eph. 2:8).
