NOW IN REGULAR SERVICE on the Missouri-Kansas-Texas Lines is this sleek, new 4,000-horsepower diesel passenger locomotive. Built to power the Katy's new "Texas Special" as soon as the streamlined equipment is delivered later this year, the locomotive now is being used on regular Katy trains. It's first trip was between Parsons, Kans., and Denison, Tex., pulling the Katy Flyer. Following three such "shakedown" cruises, the locomotive will go into regular service on the "Texas Special."

GREAT SPORT

The sound of ball hitting against the bat and catcher's mitt is being given its final zing in southern training camps and northern hall parks dust off the welcome mat of other teams. The public eagerly awaits the opening of hostilities, discusses player's ability and the club's chance for winning pennants. Soon the call to play ball will echo on the breeze. Many an opening game of the season has been on frozen ground with a cold wind chilling the spectators. Weather doesn't keep folks from yelling enthusiastically or booing caustically. Often we are rabid in our jeering, rage at decisions, charge with blood in the eye, but is still a normal release of emotion over a healthful contest between athletes. It is wholesome to watch the bleachers jammed with folks, razzing the umpire, urging the outfielder, jumping to their feet for a tight play. It is not only a physical spectacle in the country's ball parks, but a display of mental healthiness as well. Sell the pop and peanuts, fly the pennants, keep the box scores, honk for traffice, yell your head off, and always enjoy this great American sport on native sand lots and in stadiums.

A Great Bunch -Those Ex-G.I.'s

Willie Wells and a bunch of the boys from our town went to Pound Ridge Saturday to a reunion of their old regiment.

There were about two hundred and fifty boys who came from miles around to a good old feast in Farmer Collins' barn. I expect they seemed a lot different to each other out of uniform. But they had a great time, spinning yarns, drinking beer, and talking over the old times in South Africa and Italy and the Aleutians.

I went over to cover the meeting

for the Clarion, and one thing that sure impressed me was the good behavior of those boys-their preference for a moderate beverage like beer-their friendly spirit.

From where I sit, our ex-G.I.'s are making as good a showing in peacetime as they made during the war. And they're setting a mighty good example to the rest of us-in tolerance, and moderation, and good fellowship.

Millions Now Take Healthful Fresh Fruit Drink Instead of Harsh Laxatives!

It's lemon and water. Yes - just the fuice of 1 Sunkist Lemon in a glass of water-first thing on arising.

Taken first thing in the morning, this wholesome drink stimulates bowel action in a natural way-assures most people of prompt, normal elimination.

Why not change to this healthful habit? Lemon and water is good for you. Lemons are among the richest sources of vitamia C, which combats fatigue, helps you resist colds and infections. They also supply B; and P. They alkalinize, aid appetite and digestion. Lemon and water has a fresh tang, too - clears the mouth, wakes you up!

Try this grand wake-up drink 10 mornings. See if it doesn't help you! Use California Sunkist Lemons.

Of the New Baby News Conferences Net Few Leads

Truman's Press Confabs Lack Color of FDR's

By BAUKHAGE

Washington, D. C.

WASHINGTON. - President Tru-He said he had enjoyed them all. The reporters, he said, had been

Thank you, Mr. President. "How have I been?" he might have asked us, but didn't.

On the way back from the White House that windy 100th day, some of us discussed

the question. That 100th conference was the first since his Florida trip which began when the Sacred Cow winged its way from the national airport, some 30 minutes fter Mr. Truman eft the chamber of the house of where he had de-

livered his historic message.

Meanwhile, the new declaration of American policy had wakened thousands and thousands of words, spoken and printed in every nation and in almost every newspaper in the world. Diplomats, generals, statesmen, people big and little, had quaked or exulted. So we naturally looked for something very hot to write about as a result of our first White House conference thereafter. We didn't get it.

We did hear former Ambassador to Poland Arthur Bliss Lane's blast against Communism; we found out that the President was a left-handed bowler (he had just been presentassured that he was concerned about | for it. rising prices; we listened to him ex- Of course, there was reason for

News Analyst and Commentator. WNU Service, 1616 Eye Street, N. W., , of type that almost always appeared after a Roosevelt news conference. We wondered why. Looking back over the hundred conferences with Mr. Truman, we agreed they had been pretty good. But of late, we agreed, it required a bit of digging to get the news. Roosevelt usually gave us something which, even if it wasn't news, had a strong human

interest appeal. Even if it were only

a striking simile like the one Roose-

velt used in connection with lend-

(You may remember, he said that if a neighbor's house was on fire. you naturally would lend him your hose if his weren't long enough, not only to help him save his home but also to keep your own from catching fire. And you wouldn't demand payment for its use. After the fire was out the neighbor would give back the hose or pay for it with whatever he had to offer in return.)

Even the anti-Roosevelt papers would have to report stories like representatives | that, whether they agreed with the idea behind them or not.

And if Roosevelt hadn't any specific comment on the important news of the day, he frequently would make use of a parable or give us a homily, which showed us how he was thinking on the subject, something that managed to get his ideas over and furnish us with the background we needed to interpret the daily happenings,

We talked the 100th press conference over, lamenting that nothing had come out of it which would clarify the Greek-Turkish aid program. We regretted that President Truman hadn't injected a little more of himself into the meeting. It would have been to the advantage of the news folk, the program itself, the peoed with a bowling alley); we were | ple who were trying to get support | industries.

Newspaper men and radio casters crowd eagerly about President Truman in one of his 100 press conferences.

demands; we asked for but got "no ! from spontaneous replies. As a recomment" on a number of bills "in sult he is now perhaps leaning a the works" because the President won't talk about "pending legislation"-and he applied the same rule to the Greek-Turkish affair.

We also were handed a good laugh out of comment on the famous faux pas made by Gael Sullivan, deputy chairman of the national Democratic committee while the President was away. Sullivan almost disrupted "bi-partisan foreign policy" by writing to the Republican national committee chairman and asking for a joint statement supporting the Truman plan on Greek aid. When somebody asked if Sullivan

was thinking of resigning there was considerable gaiety.

There were a number of other questions which elicited some minor stories but no screaming headlines

Here's Point for Better Roads

Last year, some 34,677,000 tons of milk were hauled over rural roads on the journey to milk plants and dealers, according to a report from the Public Roads administration cited by Charles M. Upham of the American Road Builders' associa-

Figures show the nation is using 13 billion pounds more of milk and various dairy products at present than in prewar years. During the prewar years, 1936 to 1940, the average yearly tonnage of milk going over rural roads was 21,287,000 In 1945, 101.5 billion pounds of milk were sold from farms, returning \$3.070,380.000 to our farmers, a good percentage of their annual cash in-

come. The highway plays the major role in the transportation of milk from the farm to the plant or dealerand to the customer, Upham points out. Forty-nine of our large cities receive every drop of milk by highway, as do 54.000 communities that depend upon the highway for their entire food supply.

little too far backwards.

The White House press and radio conference is a great institution. It provides a medium for bringing the people and their government nearer together than any other medium which exists, except perhaps the rarer "fireside chat." Nothing like it exists anywhere else in the world. But it is not an easy thing to handle. The correspondents are there to get every scintilla of news which they think will interest their readers and listeners. The President is there to reveal only what he thinks is his duty to release in the public good. And he is also there to present his side of all questions so that his administration appears in the best

President Roosevelt was a past master at the art. He seldom refused to answer a question, for that to feint and dedge in a manner that produced some kind of an answer which would suit his ends. President Truman has chosen to go risk a wild haymaker.

Closed as Dangerous Five hundred and eighteen government-operated soft coal mines have been closed down as unsafe by Secretary of the Interior Krug. They will remain closed for an indefinite period, until inspections indicate that they are "reasonably just meant "no news." He preferred safe." Representatives of miners

About 40,000 miners are employed in the 518 dangerous mines. The into a clinch rather than feint or greatest risk, Secretary Krug said, is from explosive gas and dust. The

joint infection, is being given a blood transfusion.

NEWS REVIEW

German Miners Strike; **British Draft Extended**

GERMANY:

Strikes for Food

Coal miners in Germany's Ruhr area are striking for larger food rations for themselves and their families. This region is in the British zone. More than 300,000 miners mittee when Secretary Krug issued have been off the job at various times in demonstrations against what they consider inadequate food is doing now what he should have allowances. Most of the Ruhr's 170 mines have been idle at some time or other during the past two weeks. The Ruhr is the heart of industrial Germany, containing coal and iron mines, steel mills and other heavy Ash Ruins Farms

British authorities have been appealing, for the most part futilely, press the hope that industry would Mr. Truman's reticence. He had to the miners to remain on the job. see "the handwriting on the wall" been criticized early in his adminis- The situation has been getting and stop an upward spiral which tration for answering some ques- worse for some time, largely as a would bring forth renewed wage tions too glibly. THE KINGDOM STRENGTHENED AND ENLARGED

LESSON TEXT—II Samuel 5:6-10.17-25.

MEMORY SELECTION—David waxed greater and greater; for the Lord, the God of hosts, was with him.—II Samuel

David was the great king of Israel. His life and reign are of unusual interest and the Bible gives much information about him. In the rapid survey of Israel's history which we are making in our lesson series, we have just this one lesson on David's reign and that is concerned more with the nation than with its king.

This unique man was by God's choice placed over Israel. At first he received only the allegiance of the southern division of the kingdom, Judah (see II Sam. 2:4). But by showing himself friendly (Prov. 18:24) he won the hearts of the people of the north, Israel, and they too recognized him as king (II Sam.

Thus united, the kingdom was ready to move forward, by the blessing of God-and that is the sies and other gay for story before us in our lesson.

I. The Lord Was with Them (vv. A united people! How important

that is in the affairs of the nations. Nothing is more disturbing or a "I point out that Secretary Krug greater hindrance than internal friction. We ought to deal quickly and decisively with any group or force in the life of our nation which is clearly divisive or disloyal.

Think, then, how important it is that God's people in the Christian church stand together in undivided loyalty to Christ, our King, and in loving devotion to one another.

Jerusalem, which was to be the "city of David," and which figures so prominently not only in history but in prophecy, had to be wrested from the hands of the heathen Jebusites, and be established as the sacred city and the capital of the Jewish nation.

Note that the kind and considerwide and 48 feet high are flowing ate king was not a weakling. He from the mountain. Boulders hurled knew how to fight and to win. Verse into the air explode like artillery 8 is difficult to interpret, but evishells. Farmers are slaughtering dently does not mean that David their livestock and moving out of was cruel. The Jebusites taunted him by saying that their blind and cripples could hold the wall against David's men. Then they doubtless Tests are being made at the put their best soldiers on the wall,

od is for commercial aviation This David was not only a fighter, but ethod, found successful by the also a builder. He began then the army and navy air corps, employs development of Jerusalem, the great city of which we are yet to hear wondrous things.

II. The Lord Delivered Them (vv.

The Philistines, Israel's constant enemy, had control of much of the land west of the Jordan. As soon as they heard that the people were now united under a young aggressive king they laid plans to destroy his power almost before he could start.

The Philistines were clever, but they reckoned without God. David was smart; he counted God into his plans. He asked the Lord what to do and the answer was, "Go up. I will certainly deliver the Philistines into thy hand," and he did!

We may well learn the lesson that prayer, consultation with God, must come before any successful campaign for him. Inquire of him to be assured of victory.

Note also here that there are battles in which the Lord expects us to go up boldly right into the face of a mighty enemy, and take the victory by faith! Sometimes we are afraid to meet

ness, choosing rather to compromise for the sake of peace. It never works. That is the way of defeat. III. The Lord Went Before Them

the enemies of the cross with bold-

(vv. 22-25) Defeated once so decisively that

they had to run away from their

sacred images (v. 21), the enemy

rallied for another attack. It is ever thus-and foolish is the Christian who thinks that one victory wins a war. After spiritual victory Satan redoubles bis efforts and strikes while the believer is resting on his laurels-if he is foolish enough to do it. Here again we say, be on guard!

Observe that the Lord worked differently this time. David inquired again, but this time the word was, \$36,500,000 went to people in Canada, | Britain and Northern Ireland, \$17,- to come up from the rear of the "Thou shalt not go up." Israel was 400,000; Bermuda and other British Philistines, and not to attack until dependencies in the Caribbean, \$12,- the wind in the treetops told that God had gone before to smite the

There is a time for straight out frontal attack on the enemy. There is also a time when God wants us to stand back and watch him work out den, \$10,300,000 to Spain and \$4,300,- harder to do than to attack, but we must obey his word.

Trading With Yourself...

It's natural for you to be deeply interested in your own business. You carefully consider the most advisable methods to increase your profits. You give your business your earnest and thoughtful loyalty.

A little thought will show you that one of your best business interests is the Municipal Light Plant. Wise solution of its problems is vital to your success as a business man.

Every dollar paid the local plant as revenue is an investment for you. Every demonstration of loyalty to it is an act of supporting your best interests. It is your plant and your business. Its success means uour success.

Trading with the Municipal Light Plant means trading with yourself.

WAGES AND THE TELEPHONE STRIKE

Because wages are at issue in the telephone strike, let's take a look at what operators here are now getting. Almost all telephone people are in this group.

The basic work period is a five-day, 40-hour week. Scheduled employees are paid overtime for time worked over eight hours a day, premium time for Sunday and holiday work, and added money for evening and night work.

OPERATORS

A girl just out of high school, with no previous experience, starts at the beginner's rate of \$26 a week. But if she works after 9 p.m., she gets \$27.50 a week, and if that week includes Sunday work, she gets \$30.10.

The beginning operator gets a raise in pay every six months for the first year. An operator with 12 month's experience, for example, gets \$28 for a normal 40-hour week. If it includes evenings and Sunday, she earns \$32.30.

Periodic increases bring the operator to the top rate of \$34 a week. If she works evenings and Sundays, her weekly earnings are \$38.90.

But the union wants to increase the beginner's rate of pay from \$26 to \$41-up \$15 a week. Also, they would increase the top wages from \$34 to \$51. That is an increase of \$17 a week.

We believe most people will agree that present wages are good. The company believes that no increases are justified at this time.

Bu

ogar

The way to resolve these differences of opinion and settle the strike is to arbitrate the wage issue. That would be fair to our employees, to telephone users, and to the company.

Nearly three weeks ago the company proposed that Governor Jester and the governors of the other four states in which we operate appoint a panel of five impartial citizens-men with a knowledge of conditions in this area-to arbitrate the wage issue. The company enlarged its offer to include not only basic wages but such other demands as length of time for employees to reach top wage rates and wage differentials between different communities.

The company urges union officials to reconsider the offer of arbitration. It is the fair way to settle the strike, restore full telephone service to the public, and get the telephone wage issue decided equitably.

SOUTHWESTERN BELL

I most humbly confess that the testimony given here is not an asion of pride nor idle show. It shall be my desire to relate ome of the most profound influences in my scheme of living. I have en called upon to speak these words for the specific purpose assisting some of you young people to find yourselves in time avoid embarrassment.

Let me begin by saying that it was a happy privilege of mine have a good home. My parents spent many hours directing me nd how well I remember now those good times together. I was ight the curse of drink and its companionate sins and conseently have never to this good day indulged. Sure I am the picture health and good morals. The very reason I don't look dissipated -I do not dissipate my energies like many of my tired looking riends do. I am a regular attendant of my church and contribute much to her program. Be sure to attend your church Sunday.

Here's an important member of the

team . . JAMES F. BAGLEY, Customer

"Like every other member of the team of

5,000 United Gas employes, I am conscious of teamwork'—and am proud of my job as a customer service man. In my visits to your home,

all of my knowledge and skill are turned to

just one job-making your gas service the best

James Bagley appreciates the fact that in order for you to get your dependable gas service it takes vast resources, hundreds of miles of pipe lines, millions of dollars worth of equipment, and abundant gas reserves. He knows, too, that no expense has been spared to assure

you good gas service at the lowest rate in

Service Man . . .

that money can buy.
