Directors of Santa Rosa Roundup

Director In Important Session

Plans for this county's participation in the Southern Region Training School to be held in July in San Antonio were made at the meeting of Wichita County Farm Bureau directors in Iowa Park Monday evening. Five or more delegates will be sent to take advantage of the exceptional opportunity offered in classes to be conducted by national leaders for four days.

T. J. Pace, legislative chairman, was instructed to contact state legislators and offer a protest to any tax on gasoline as a means of raising revenue but to favor instead a tax on natural resources. This is in accordance with the stand taken recently by the Texas Farm Bureau Federation.

Loys Barbour as chairman of the session, gave a resume of progress of the organization over the state and remarked that the state membership now number more than 21,000, an increase of 3,000 since the first of the year, with no special organizational effort having been made. District 3, of which he is a director, has 2,336 members.

Mrs. George Lewis, county president of the Associated Women, gave a report of a most enthusiastic response on the part of the women attending a district Home Demonstration Club meeting in Vernon last week as she outlined the woman's part in Farm Bureau work.

The next meeting of the directors was set for Tuesday, May 20, at 8 p. m. in Iowa Park.

"Clouds Roll By" At Palace Sunday

"When The Clouds Roll By," will start on the Palace screen Sunday. The picture is in beautiful technicolor.

When you consider that this star-studded production makes room for such talented luminaries as June Allyson, Lucille Bremer, Judy Garland, Kathryn Grayson, Van Heflin, Lena Horn, Van Johnson, Angela Lansbury, Tony Martin Virginia O'Brien, Dinah Shore, Frank Sinatra and Robert Walker, the latter in the role of Kern, and that there are in addition specialty numbers by Cyd Charisse, Gower Champion and the Wilde Twins—you will have an idea of the wealth of entertainment that passes in review as the story of Jerome Kern's colorful career is unfolded.

Former Burk Residents Observe 55th Anniversary

Mr. and Mrs. T. H. Stevenson, former resident of Burkburnett, now living in Comanche, Oklahoma, celebrated their 55th Wedding Anniversary, April 22.

The Stephensons came to Burkburnett in 1919 and lived here until 1930 when they moved to Comanche, Oklahoma. They are well known in Burkburnett, and visited here quite often. Mr. Stephenson has a sister, Mrs. W. D. Wilkins, living in Burk, and a daughter, Mrs. W. E. Boydston. He was an old boom-day Oil Field worker, and after the boom, worked as a carpenter until leaving Burk.

In addition to Mrs. Boydston, the couple has one son living in Comanche, 2 daughters in California, 1 daughter in Sundown, Texas, one in Seminole, 17 grandchildren and 3 great grandchildren.

Another will be a group of negroes trying to take dollar bills from the horns of wild steers, still another a wild mare race, cowboys roping, saddling and riding wild mares the length of the arena and back. A specially trained sheepdog will give a sheep herding demonstration. These, added to the big Hollywood Beauty Revue and a complete schedule of the usual rodeo events will give Santa Rosa Roundup one of the most attractive programs possible.

Improvements In Progress At Many Business Locations

Remodeling and beautifying of down town business houses here seems to be the order of the day.

Extensive repairs have been going on for the last ten days at the White House Grocery & Market. All the old flooring and ceiling was torn out to make way for a concrete floor and a Celotex ceiling. Painting and rearranging have given the store a pleasing appearance.

Work at the Acme Chevrolet Co. has been going on uninterrupted. This week the large show room and offices received a soft color green coat of paint. Concrete and gravel work on the used car lot East of the building is almost complete.

Wednesday Louis Cashwheel announced concrete floor being poured in the building next door to Western Auto Store where he will open a cafe in the near future. Complete new furnishings will make it a place of beauty and efficiency.

Western Auto Store has completed installing awning signs and finished other painting and beautifying.

Harry Mayes at the White Auto Store has reconditioned the front of his building and rearranged the stock inside to present a better display.

Jim Alexander on the Corner of Main and Avenue D has added new merchandise for the home and auto, also fishermen. A coat of white paint has added to the general appearance of his place of business.

Several other places of business have added new awnings and redecorated front windows.

Fire Dept. Helps Texas City Fund

Members of the Burkburnett Volunteer Fire Department voted unanimously to send \$100.00 to the Texas City Fire Department to aid victims of the recent disaster there.

Several volunteer firemen lost their lives while battling flames that spread following an explosion that completely wrecked the city.

Burk Fireboys To Attend M. E. Church Services Sunday

At the eleven o'clock service Sunday morning, members of the Burkburnett Volunteer Fire Department will sit in a body for a memorial service. A tribute will be made to the members of the department who have passed on, also to those brave volunteer firemen who gave their lives in the recent Texas City disaster.

The Cub Scouts and members of their families will be special guests Sunday night at eight o'clock, at which time Mr. Jack Linn will present the Charter to the church.

One of the largest crowds for regular morning worship in 20 years attended our church last Sunday morning. If you were there, come back this Sunday, if you were absent, make a special effort to be there this Sunday.

GIVING AND TAKING

Record floods in Michigan, a tornado rips into Texas and Oklahoma as millions of dollars of property damage is recorded and as the announcement comes that fall-sown winter wheat has survived the cold season with very little loss. A record crop is forecast to even exceed the large record crop of last year. Although there has been delay in getting the spring wheat planted, we may look forward to meeting large export demands this year, due to a most profitable harvest. Anthracite mine explosion in Pennsylvania, an earthquake shakes sixty thousand square miles of California, Arizona and Nevada, airplane disaster in Texas, railroad accident in New Mexico, but nature and man works their magic and gives us an abundant wheat crop to care for the world's hungry.

KEEP THE MARINES

Altho in favor of merging the armed forces, such a move would permit the President, if he so desires, to order the abolishment of the U. S. Marine Corps. Since its establishment in 1789, this branch of our service has made a great name for itself. The record is so brilliant that most of our people would have the Corps preserved, if only for the glory of two battles, Tarawa and Iwo Jima. Ever since the Revolution this outfit has been the shock troop, the

ON THEIR OWN

It isn't news but it sounded ominous when President Truman said that with present costs pay hikes are necessary. With the higher cost of living wage earners have demanded more money, many by means of strikes. We hope such an open statement by the President won't increase and encourage more of these strikes. The only solution is a voluntary reduction of prices by business men, and will they cut prices to save us? Some firms have already done so, stepping forward to prove that competition and free enterprise is still America's life blood. Business has long sought to be free of price control. Now free, it has to meet the responsibility placed upon it, in a financial crisis. The government says it does not wish to step in with price control at this time but hopes that business will adjust itself—voluntarily. We, who live in Burkburnett and count the cost of living, hope so too.

Burkburnett History

As revealed by the files of the Star 10 years ago.

Polly Hall and Dick Patrick, students in the local high school, gave speeches at the Lions Club Tuesday night on the subject of early diagnosis of tuberculosis.

Three Oklahoma bands have accepted the invitation to attend the Burkburnett celebration June 18 and 19.

J. H. Brumley and Paul Browning, local delegates to the 41st Rotary Convention held in Childress the first of the week, returned home Tuesday evening.

A crowd of approximately 500 persons attended the formal opening of the new recreational park, as the First National Bank soft-ball team defeated the Thaxton Hardware 8 to 4 to start the season.

Community nights will be held each month starting in May, according to plans made Friday morning by the trade extension committee of the Chamber of Commerce. The programs will be presented at the rodeo grounds and local talent will be used in the entertainment.

What's on my mind today? The same thing that's probably on every housewife's... spring cleaning! But I'm not going to let it get me down, and I hope you won't let it get you down either. That's why I want to share some of my pet labor-saving ideas with you. Try them and see if they don't make it easy to take it easy!

BEANS FOR THE BUSY
 When I'm up to my ears in nails and mops (as who isn't these days?), I'm more grateful than ever for A&P's ready-to-eat ANN PAGE BEANS. They're simply delicious just the way they come out of the can... and extra-tasty fixed like this: Fill a casserole with 3 1-lb. cans of ANN PAGE BEANS with pork and tomato sauce (enough for 6 generous servings); top with slices of ham or bacon, and then bake for 30 minutes in a moderate oven, 350° F.

HOUSE CLEANING HINTS
 To remove watermarks from a waxed finish, take off old wax with liquid wax; apply a fresh coat. To mildew-proof awnings and shower curtains, soak them in very soapy water and, without rinsing, dip them in a solution of copper sulphate, which you can get at the drug store.

To protect floors from furniture marks and scratches, wax rockers and feet of chairs and tables when you wax your floors. To make your home "come clean" from attic to cellar, get BRIGHT SAIL cleaning aids at your A&P. Every one of these fine products does such a thorough job that no homemaker should be without them.

TEA FOR THE TIRED
 Doesn't a cup of tea do wonders for you when you're weary? It does for me... especially when it's full of really invigorating flavor. That's why I always use OUR OWN, NECTAR or MAYFAIR TEAS from the A&P. They're all Flavor Tested, so no matter which you choose, you can be sure you're hitching your tea wagon to a star!

Chick Chats

(By Clark Gresham)

SOME TIPS ON FEED AND WATER

Chicks can be fed anytime after they are 24 hours of age with safety, and since most baby birds are at least this old when they go into the brooder house, feeding may commence at once on their arrival.

Before the chicks arrive, the poultryman should see that he has an ample supply of a reliable chick starter on hand. The feed should be placed on egg flats or paper plates during the first day of two, to encourage early feeding. Thereafter the birds should be able to feed at the hoppers.

Provide Green Feeds

If it is available, provide the chicks with fresh green feed such as alfalfa, clover, blue grass or kale, cutting it into short lengths of 1-2 inch or thereabouts. These feeds are rich in the nutrient which often are found lacking in some poultrymen's feeding programs. As the chicks grow older, they can be turned onto grassy range.

When chicks are about five weeks old, scratch grains can be fed, gradually changing at six to seven weeks to a good growing mash. Never make a sudden change in feeding methods.

Fine grit and oyster shell can be made available to chicks after the first several days. At six weeks larger sizes of grit and shell may be used.

Allot eight feet of hopper space for each 100 baby chicks at the start, and increase this to 16 ft. at the end of three weeks.

Perhaps the most important thing to be said about watering the little birds is this: make sure that they have an adequate supply of clear, fresh water before them at all times. If the chill

is taken off the water before it is placed in the founts during the first several days, consumption will be increased.

Water should be supplied in quart size founts during the early period of brooding. At the start there should be four quarts of water for each 100 birds per day. This should be doubled when the chicks are three weeks of age. Larger size waterers may be used at this time.

Frequently baby chicks die of thirst before learning to drink or where to find water. Thus, it is a good idea to dip the beak of each bird in the water as the chicks are placed in the brooder house.

Wichitan Is Noted Glider Designer

Vernie Ross, wartime designer of gliders for the Army has produced a new sailplane which he hopes will break several international records during the 14th Annual National Soaring Meet July 4-20 in Wichita Falls, Texas. The ship is so radical in design that the mathematics of aerodynamics can prove either that it can or can't fly. Ross, who lives in Wichita Falls, has taken the plane only a few feet off the ground in tests, but expects to show its full possibilities soon. It features a semi-laminar wing and slotted aileron. Other sailplane pilots are expected to bring radical designs to the meet. Pictured examining Ross' Ranger II during conferences in Wichita Falls on plans for the national competition are, left to right: F. L. Harvey, co-director of the meet; James B. THE STATE OF TEXAS

To: Milton R. Moore, Defendant, Greeting:

You are hereby commanded to appear before the Honorable 78th District Court of Wichita County at the Court House thereof in Wichita Falls, Texas, at or before 10 o'clock A. M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 9th day of June A. D. 1947 then and there to answer Plaintiff's Petition filed in said Court, on the 23rd day of April A. D. 1947, in this cause, numbered 43166 on the docket of said court and styled Irene W. Moore Plaintiff, vs. Milton R. Moore Defendant.

A brief statement of the nature of this suit is as follows, to-wit: After alleging jurisdiction plaintiff further alleges that she and defendant were married on or about March 11, 1933 and separated on or about January 26, 1947, since which time they have not lived together; that defendant is guilty of harsh and cruel treatment towards this plaintiff of such nature as to render their living together as husband and wife insupportable; and that there is no community property and no children born of this marriage. Wherefore plaintiff prays that defendant be cited to appear and that on final hearing she have judgment for divorce and for such other and further relief to which she may show herself justly entitled.

If this citation is not served within ninety days after the date of issuance, it shall be returned unserved.

The Officer executing this process shall promptly execute the same according to law and make due return as the law directs.

HOUSEHOLD HINTS

Use kitchen scissors for dicing fruit, celery, peppers, for trimming fish and cubing meat.

When painting stairs which are used every day, paint every other step and when they are dry, paint the remaining steps.

You may find it easier to iron a man's shirt in this order: Collar first, yoke, cuffs and sleeves, then back and front of shirt.

Save buttons from old garments. String them in sets so that they will be all together when needed for other garments.

A good crack sealer for cisterns, tanks, etc., can be made by mixing boiled linseed oil with cement. Mix to a consistency of paint and apply with a brush. Sometimes a second coat will be needed.

This is a new idea for a shower gift, and it's very handy. Select a set of tools (hammer, pliers, screwdriver, scissors, etc.) and paint handles a bright color. The bride will find the set useful as well as ornamental.

Small children seldom tell you when they are tired. They show fatigue more often by becoming cross or restless than by wanting to sit or lie down. The child under three years is usually better off if some of his outdoor play is of the quiet type.

The spirit of collecting things is a part of most people. One kitchen we know houses a collection of white china and milk-glass. An open three-tiered wall shelf painted inside and out a bright cherry red holds the collection of cups, plates, jugs and pitchers as a daily treat to the eyes of the owner and visitors.

WMS Holds Monthly Business Meeting

The Womens Missionary Society of the First Baptist Church met Monday afternoon for their regular monthly business meeting. Mrs. Carswell, newly elected president of the WMS took charge and the meeting opened with the song Sweet Hour of Prayer, followed by an appropriate and inspiring devotional on prayer given by Mrs. Short. Mrs. Harrison then led in prayer.

During the business session, reports from the various circles were read. A goal of \$100 was set for the church to give to the Baptist Charity fund. May 11 is the day set for the occasion and the WMS will need the cooperation of all its members as well as the members of the church to accomplish our goal which is for a more than worthy cause. A crate of eggs, donated by the women of the church was packed for Buckner Orphans Home.

There were only 8 ladies in attendance, which shows how badly in need we are of workers, so come one and all next time, and take your rightful place in the working unit of the church, the WMS. We need you.

3 Out of 4 Accidents Occure In Small Towns

Texas small towns are becoming more dangerous each year for motorists with an alarming increase in fatal traffic accidents shown last year, the Texas Safety Association revealed this week.

The death toll for towns under 2,500 population in the State during 1946 was 76 per cent above the 1945 mark. George M. Clarke, managing director of the Associa-

tion, announced. Fatalities in larger cities increased only 13 per cent, he said, with a 34 per cent increase on State highway and a 22 per cent rise on country roads.

Clark said a final compilation of traffic accidents in 1946 showed that 76 per cent of all traffic deaths in Texas, in other words three out of every four traffic deaths occurred in accidents in small towns, on highways or in unincorporated rural areas.

One of the reasons for the unbalance between accidents in cities and in rural areas, Clark said, was a lack of emphasis on traffic safety programs in the smaller communities.

He said a thorough study of the problem of educating the public to the mounting need for safer driving in the State—particularly in rural areas—will be one of the principal objectives at the Texas Safety Association's 8th annual conference in Ft. Worth May 1-2.

A special invitation is being extended to law enforcement officers, judges and others living in the smaller towns who are interested in safe driving to attend the conference, Clark said.

Mrs. W. L. Minor left Wednesday for Eunice, Louisiana to join her husband where they will make their home. Mr. Minor, who is with the Magnolia Oil Co. has been transferred to Louisiana.

Mrs. Virgil Garrett has been returned to her home after two weeks illness in the Wichita General Hospital.

permits a union shop.
Prohibits industry-wide bargaining.

Prohibits illegal boycotts.
Prohibits jurisdictional strikes.
Prohibits the check-off of union dues each month by the employer to be turned over to the union unless permitted in writing by the worker.

Prohibits mass picketing and violence. Protects a non-striker in the right to go to and from his place of work.

Requires a clear majority secret vote by those in a bargaining unit before there can be a strike.

Prohibits a union from being recognized which has an officer who is a communist.

Makes labor unions responsible under the Sherman and Clayton anti-trust laws.

Requires unions to make annual financial reports.

Prohibits unions from making political contributions.

Prohibits strikes based upon demands for welfare funds.

The bill in no way destroys labor unions or impairs their usefulness. It does not destroy collective bargaining. It does not set up compulsory arbitration. It endeavors to preserve all legitimate rights of organized labor while protecting the unorganized folk—farmers, small merchants, school teachers, white collar workers, and the public generally—from powerful organized labor monopoly and from many forms of racketeering to which the public has been subjected. The public is entitled to be protected from organized labor monopoly on the one hand and from organized

industrial monopoly on the other. I offered one of the two major amendments written into the bill on the House floor. The Gossett amendment states that "it shall be unlawful for any employee of the United States or any agency or instrumentality thereof to participate in any strike or to encourage anyone to strike. Any employee of the United States or of any such agency or instrumentality who strikes or participates in striking or who encourages others to strike shall be discharged immediately from his employment and shall forfeit all rights of re-employment, and shall forfeit his civil service status, if any, and shall also forfeit all benefits and privileges which he may have acquired by virtue of his government employment."

100 acres of land out of the Oscar Farris Survey in Wichita County, Texas, Abstract 383 with field notes as follows: Beginning at a point 332.8 varas North and 479.8 varas West from the Southeast corner of said Farris Survey; Thence North 1176.5 varas to the South Boundary Line of 60 acres of land out of said Survey owned by O. L. Clark; Thence West 479.8 varas; Thence South 1176.5 varas on a line parallel with the East boundary line of said Farris Survey; Thence East 479.8 varas to the place of beginning, and containing 100 acres and

B. The following described tract of land which will be hereinafter referred to as the East 100 acres, described as follows:

100 acres of land out of the Oscar Farris Survey, Abstract 383, said 100 acres being described by metes and bounds as follows: Beginning at a point in the East Boundary line of said Survey 332.8 varas North from the Southeast corner of said Survey; Thence North with said East boundary line of said Farris Survey 1176.5 varas to the Southeast corner of a 60 acre tract of land in said Farris Survey owned by O. L. Clark; Thence West with the South Boundary line of said O. L. Clark 60 acre tract 479.8 varas to a stake for a corner; Thence South on a line parallel with the East Boundary line of said Farris Survey, 1176.5 varas to a stake for a corner; Thence East 479.8 varas to the place of beginning.

Plaintiffs further allege that on the day and year aforesaid the defendants unlawfully entered upon said premises and ejected plaintiffs therefrom to their damages in the sum of \$1000.00 and that the reasonable annual rental value of said property is \$1000.00. Wherefore plaintiffs pray that defendants be cited to

appear and that they have judgment for title and possession of the above described land and premises, for writ of restitution, for rents, damages, cost of suit and general relief. And on second count plaintiffs further allege that on April 24, 1917 they executed oil and gas leases on each of the 100 acre tracts described above to A. G. Iseng, W. L. Mann and N. A. Dodge; that each lease was let to the lessees for the sole and only purpose of mining and operating for oil and gas and for laying pipe lines, building tanks, power stations and structures to produce oil and gas, and that said leases should remain in force for a term of one year and as long thereafter as oil and/or gas was produced by lessee and provided that 1-8 of the oil should be delivered to the lessors as royalty and that if gas was discovered and used that \$100.00 per year per well was to be paid to lessors; that said lessees agreed to develop said premises with reasonable diligence; that said leases were given for the real and true consideration that said leases should be developed with reasonable diligence by lessees or their assigns; that lease agreements ceased upon the failure of lessees or assigns to carry out terms of said leases and ceased also upon abandonment of said leases by lessees or their assigns.

Plaintiffs further allege that defendants are assignees of the original leases by mesne assignments to certain portions of the lands hereinbefore described as will be hereinafter set out and that they have wholly breached the terms and conditions of said leases and have wholly abandoned the obligations thereof; that a few small wells were drilled but no oil produced from them for more than twenty years, no additional wells drilled in more than twenty years and no wells drilled to a depth exceeding 580 feet; that sufficient wells have not been drilled to determine if there is oil in paying quantities on lands assigned to them and that defendants have long since abandoned said leases and have no intention or plan to drill said land and that their assignments constitute a cloud on title of Plaintiffs' land.

Plaintiffs further allege that the defendants hold by mesne assignments from said original lessees, certain parts of said original leases as herein set out, to-wit: John F. Weyand, or his unknown heirs, legatees and devisees, or his independent executor, Charles B. Weyand, holds an assignment on the north 28 acres of the north 56 acres of the two 100 acre tracts hereinbefore described; F. E. Butler, L. F. Smith, S. H. Smith, Goldie or Zoldia Persky and husband, I. B. Persky, R. E. Fisher and W. W. Chambers claim an overriding oil payment in the amount of \$1000.00 payable out of one-fourth of the oil produced therefrom; and that further W. W. Chambers holds an assignment of the South 28 acres of the North 56 acres of the two 100 acre tracts hereinbefore described and that New Tex Oil

Company claims an oil payment or overriding royalty out of 1-8 of 7-8 of the oil produced therefrom and H. D. Smith claims a right to develop the oil and gas under said lands by virtue of a contract with the New Tex Oil Company dated July 10, 1922 and recorded in Volume 193 page 438, Deed Records of Wichita County, Texas and John F. Weyand whose independent executor, Charles B. Weyand also claims some interest in this tract.

Plaintiffs further allege that defendants have not used due diligence in developing said leases assigned to them and that title and estate of each of these defendants has long since terminated and that their legal remedy for damages against these defendants is totally inadequate as some of their residences are unknown.

Wherefore plaintiffs pray that defendants be cited to appear and that they have judgment cancelling the leases hereinbefore described in so far as said leases

pertain to the North 56 acres of land described in the two 100 acre leases hereinbefore mentioned; and in the alternative Plaintiffs pray for an order of the Court requiring defendants to reasonably develop said leases in so far as it may be assigned to each of said defendants and that a reasonable development would be the drilling of a test well with reasonable diligence to a depth of 1400 feet within 30 days from the date of the court's order on the North 28 acres of said North 56 acres and the drilling of a similar well within the same time upon the South 28 acres of the North 56 acres, and the drilling of additional wells upon each of said tracts as may be directed by the Court upon the completion of each of such test wells, either as dry holes or as producers of oil or gas, and in the event defendants do not comply with such Order of the Court then plaintiffs pray for a decree of absolute cancellation of all said

leasehold interest and all claim, title or estate of all these defendants in said North 56 acres, and for such other relief, general or special, in law or in equity, to which plaintiffs may show themselves justly entitled.

If this citation is not served within ninety days after the date of issuance, it shall be returned unserved.

The Officer executing this process shall promptly execute the same according to law and make due return as the law directs.

Issued and given under my hand and the Seal of said court, at office in Wichita Falls, Texas, this 19th day of April, A. D. 1947.

From where I sit... by Joe Marsh

We Got to the Fish Fry After All

Community fish fry was a success. There were appetizing extras, and they did a right wonderful job of frying the fish—soft inside—brown and crisp edges. I didn't get to go. The fish was tired after working hard, and we just didn't have her. How did we know the fish was tired? Because the folks got us. They sent Skippy over with two steam-

ing covered plates of fish, and a pitcher of cool, sparkling beer. And we finished them off in front of our own fire. From where I sit, that's one of the things that makes our town so nice a place to live in: a spirit of share and share alike. That plate of fish and glass of beer weren't just great eating, they were symbols of the thoughtfulness that makes for better living!

Sunday School, 9:45.

Training Union, 7.
Preaching Services, 8.
The Lord gave us another good day last Sunday. There were 730 in Sunday School and 133 for the Training Union, with good crowds for both preaching services.

However, some familiar faces were missed, and quite a few pews were empty. Have you a reason or an excuse for missing? The Lord has made provisions for reason, but we wonder about many of the excuses some of His people make. We are reminded of a parable he taught, "They all with one accord begin to make excuses," but no where do we find He approved them—neither will He approve of your excuse.

With the coming of spring we should begin to increase in every line of our church work—the Sunday School, Training Union, and also the preaching services—you are needed in these organizations and they will be a blessing to you.

Sunday the Pastor speaks on "The Message of God's Witness-ness"—Heb. 12:1—for Sunday night "The Savior of the People."

Your whole family has a special invitation to be with us in every service—there is a place for every member of the family in both the Sunday School and the Training Union from the cradle all the way up. Come be with us, We will do thee good.
—Pastor.

IF WE COULD GO TO SUNDAY SCHOOL

FROM this corner it looks like sadness personified . . . a couple of broken hearted pooches, strained to the point of melancholy as little Willie and Kathleen leave them behind and go on their way to Sunday school. With a mind and understanding next to that of a human being these kind hearted little dogs seem to know well that their third and fourth legs render them unwelcome at Sunday school. Here they impatiently await the return of their little masters. The parents of little Willie and Kathleen didn't even go with them. Like many parents of today they sent them alone to Sunday school not even worrying about their safety or return.

It is becoming more apparent every day that the phrase "Juvenile Delinquency," is being over worked, misused and misapplied. This Delinquent business has a very definite beginning. More often it begins with the parents. They are the ones who fail miserably in the performance of duty. Your children need your presence, your companionship . . . they need you to TAKE them to Sunday school and church—NOT SEND THEM. The very least you can do is to care as much for your youngsters as their little dogs do. The pooches would gladly go if they could. Why not decide now to swell the attendance of your church Sunday by taking your entire family.

YOU IN THE CHURCH
THE CHURCH IN YOU

Character is a by-product of the church. It is here that young and old alike are showered with benedictions that fortify and influence for a better citizenship and a stronger democracy. In the church the ministerial are molding religious character. Statesmen today declare that the church alone can furnish leadership to handle the affairs of state in these perilous times. They we with our children should go to the church of our choice on Sunday. "You in the Church and the Church in you"—form a combination for good.
