Remember MOTHER'S DAY

She may be in her 'teens or twenties, sixties or seventies—Mother is the leading lady of the day when May 11th finds her the recipient of greeting cards, flowers and every kind of gift.

Though thousands of miles separate mother and child; though their opinions differ and sense of values vary, their love for each other which is the truest, purest love, unites them for all time and under all circumstances. It is Mother who is always forgiving and consoling. It is Mother who forgets the unpleasant and cherishes the pleasant memories. It is Mother to whom we dedicate Sunday, May 11th with remembrances to comfort and delight her in small measure as she comforts and delights us all our lives.

Irma Ned Riley Is Four Years Old

Mrs. Walter Riley was hostess Tuesday afternoon, April 29 at her home for a party given to honor Irma Ned's fourth birthday. Mrs. A. C. Auld and Mrs. Jack James assisted in the hostess' duties with floral arrangements by Mrs. Jimmy Johnson.

The little honoree wore a handmade, imported silk dress of white and a corsage of tiny pink roses.

Colorful arrangements of spring flowers were placed at vantage points throughout the party rooms to create an effective decorative theme. The refreshment table featured the birthday cake, a gift from Barbara and June Vaughn, which was in the shape of a lamb. Surrounding the lamb was green sugar grass, which had embedded in it four pink candles and "Happy Birthday."

Irma Ned greeted the little guests at the door and led them to the playyard. Moving pictures were made of the children by Walter Riley, the honoree's father, during the hour of play.

The highlight of the party was the opening of the gifts. Irma Ned then presented her special guest, Mrs. M. W. Majors, with a corsage of red rose buds and a dainty gift of sachet. Mother Majors told the children a story, after which refreshments of pink ice cream and birthday cake were served the guests, honoree, hostesses and Mr. Walter Riley. Plate favors for the children were little china lamb pins for the girls and a ring and badge set for the boys.

The invitation list for this lovely party included: Tony Auld, Mur Anne Elliott, Brenda Nunn, Eddie Sullivan, Pat Kay Enloe, Sammy Harwell, Patsy McNeill, Randel Hamner, Kayrene Davis, Sue Carter, Tony Harwell, Diane Buckner, Paula Hamner, Shirley Ann Reynolds, Travis Lee Willingham, Suzette McLean, Sue Allen.

Methodist Church

If your mother is in some distant town or has gone on to heaven, you will especially want to come to church to honor her on this her day. At the morning hour the pastor will preach a Mother's Day sermon and at the evening hour the children of the church will present a program honoring mothers.

We had excellent crowds at the services last Sunday. Do not fail to come to the worship services. You will find the week easier and happier because you went to church.

Trouble in Britain

England has gone down for a small count. That of course is no reason why anybody should be ready with the old "I-told-you-so." However, some observations are in order. Outstanding Englishmen have been outspoken during the fuel crisis current in their country. An examination of the underlying causes of the crisis in England ought to make a good treatise favoring the American economic system.

In England or anywhere else in the world, it is my feeling that little or nothing along the socialist order is to be found there that we would wish to adopt in America. Even before the coal and power crisis reached the terrible proportions of mid-February, the British were being urged by critics within their own realm to abandon plans for further nationalization.

National Suicide?
Mr. Shinwell, minister of fuel and power, along with Sir Stafford Cripps, president of the Board of Trade, asked that the country forego any further reorganization of the electric power industry. The idea behind their plea was that British industry could not afford to be exposed to the uncertainties and hazards that would accompany more experimentation. It was time for danger signals to go up.

The government, it was stressed, would have to concentrate on the task of preserving the economic life of England. Another warning came from a prominent religious leader. The English people were confronted, he said, by immense danger in the planned society becoming so common. If more and more orders had to be issued "about which the people would have to put up with and obey," it would be the beginning of national suicide.

Result of Planning
The British do not lack coal because they have no plan. Socialism is full of plans. The coal mines are there, too. What socialism forgets, however, is that private and personal initiative, meaning hard work and high production, make up the factors that insure economic stability. English miners can never dig coal with paper plans. Men dig and distribute coal to consumers of fuel largely because of various incentives.

Not the least of these incentives is that men make money in the process of getting the coal out of the ground. But a nation does not get rid of monopoly by making the monopoly one of government. The prime products of socialism and communism, with their monopolies of government, have been low standards of living and meager production.

Remember MOTHER'S DAY

She may be in her 'teens or twenties, sixties or seventies—Mother is the leading lady of the day when May 11th finds her the recipient of greeting cards, flowers and every kind of gift.

Though thousands of miles separate mother and child; though their opinions differ and sense of values vary, their love for each other which is the truest, purest love, unites them for all time and under all circumstances. It is Mother who is always forgiving and consoling. It is Mother who forgets the unpleasant and cherishes the pleasant memories. It is Mother to whom we dedicate Sunday, May 11th with remembrances to comfort and delight her in small measure as she comforts and delights us all our lives.

Irma Ned Riley Is Four Years Old

Mrs. Walter Riley was hostess Tuesday afternoon, April 29 at her home for a party given to honor Irma Ned's fourth birthday. Mrs. A. C. Aulds and Mrs. Jack James assisted in the hostess' duties with floral arrangements by Mrs. Jimmy Johnson.

The little honoree wore a handmade, imported silk dress of white and a corsage of tiny pink roses. Colorful arrangements of spring flowers were placed at vantage points throughout the party rooms to create an effective decorative theme. The refreshment table featured the birthday cake, a gift from Barbara and June Vaughn, which was in the shape of a lamb. Surrounding the lamb was green sugar grass, which had embedded in it four pink candles and "Happy Birthday."

Irma Ned greeted the little guests at the door and led them to the playyard. Moving pictures were made of the children by Walter Riley, the honoree's father, during the hour of play.

The highlight of the party was the opening of the gifts. Irma Ned then presented her special guest, Mrs. M. W. Majors, with a corsage of red rose buds and a dainty gift of sachet. Mother Majors told the children a story, after which refreshments of pink ice cream and birthday cake were served the guests, honoree, hostesses and Mr. Walter Riley. Plate favors for the children were little china lamb pins for the girls and a ring and badge set for the boys.

The invitation list for this lovely party included: Tony Aulds, Mur Anne Elliott, Brenda Nunn, Eddie Sullivan, Pat Kay Enloe, Sammy Harwell, Patsy McNeill, Randal Hamner, Kayrene Davis, Sue Carter, Tony Harwell, Diane Buckner, Paula Hamner, Shirley Ann Reynolds, Travis Lee Willingham, Suzette McLean, Sue Allen.

The ideal gift for Mother, a pretty Hankie from Opal's. Priced from 35c to \$4.95.

MOTHER'S DAY

Holidays mark our calendar pages, some observed with emotion and others barely remembered or ignored. They have their pomp and ceremony, parades and speeches, firecrackers, colored eggs, holly and tinsel, confetti, cupids and shamrocks. The second Sunday in May is designated as Mother's Day, as sentimental an occasion as any holiday of the year, no claim for greatness, no reminder of military glory, but the simple remembrance of the love and peace embodied in one woman. The significance of this day with its gifts and flowers, is that it should be carried into every day of one's life. The devotion and respect of the sons and daughters of Burkburnett should know no limit of twenty-four hours. Mother's Day is a symbol to serve a practical purpose, that maternal dreams of a good life with a noble purpose for each child, may be fulfilled.

Since inaugurated officially in 1917, other aims have

been called to the public attention as it observes the occasion, to decrease the high maternal death rate, is one of them. If we do nothing further about Mother's Day than arouse ourselves to increase the health and educational facilities offered in many cities to mothers, it is leading to the development of happier homes and healthier families for the future. Any holiday that will impress upon our hearts good for the days ahead, that will make us improve our family life, is a red letter day.

GO TO THE BIBLE

The Bible holds words of wisdom in every day conduct and of the many familiar phrases comes one that is so appropriate today. Paul said: "Each one of you will be paid according to his work." This is the crux of a moral and economic truth.

When business depends upon the consumer, the consumer must be able to meet the cost of the goods. For business to pass on its product it must be financially able to manufacture. Increased labor demands forces a cut some place along the line. Industry must either increase cost price or cut cost and increase production. Short weeks, higher wages with labor striking for more money, impedes production. The more men produce the more they should be paid, if industry doesn't grab too much profit.

The consumer today shows resistance against mounting costs by spending less. In many cases, where retailers are attempting to reduce cost of goods, they are finding they are getting more business to make up for the reduction. But behind all of these attempts for readjustment, labor must earn its wage, according to its work, and it follows that the unit costs may meet the local consumers ability to pay. If we would all only follow more faithfully those teachings of the Bible.

Bennie McDonald returned to Kerrville Sunday, after a brief visit with his parents.

William Edward Boyd, of Burkburnett, is a member of the Crack Company from Tarleton College which marched with the Military Band from Tarleton that placed first in the annual Battle of Flowers band contest at San Antonio recently. William, a freshman, is majoring in agricultural education, and is a member of the F. F. A. Club.

I, the undersigned,
being duly sworn, do
hereby command you,
the Honorable 30th
District Court of
Wichita County,
Texas, to show cause
on the first Mon-
day after the expira-
tion of the date of
this citation, to
show cause why you
should not grant the
petition filed in
this cause, on the
14th day of April,
1947, in this cause,
No. 118-A on the docket,
and styled Egbert E.
Weyand, Lena Hardin,
et al., vs. John F. Weyand,
et al. All those persons
first named in the
petition to whom the same
has been served, or Goldie
or Zoldia Persky, I. B. Persky,
Chambers, Defendants.
Statement of the na-
ture of the cause is as
follows, to-wit: A First
Petition was filed in
this cause on or about
April 14, 1947, and
was lawfully seized
and served on the fol-
lowing persons, to-wit:
A. First Petition referred to as
above and described

allel with the East boundary line
of said Farris Survey; Thence
East 479.8 varas to the place of
beginning, and containing 100
acres and

B. The following described tract
of land which will be hereinafter
referred to as the East 100
acres, described as follows:

100 acres of land out of the
Oscar Farris Survey, Abstract
363, said 100 acres being described
by metes and bounds as follows:
Beginning at a point in the
East boundary line of said Survey
332.8 varas North from the
Southeast corner of said Survey;
Thence North with said East bound-
ary line of said Farris Survey
1176.5 varas to the Southeast
corner of a 60-acre tract of land
in said Farris Survey owned by
O. L. Clark; Thence West with the
South boundary line of said O.
L. Clark 60 acre tract 479.8 varas
to a stake for a corner; Thence
South on a line parallel with the
East boundary line of said Farris
Survey, 1176.5 varas to a stake
for a corner; Thence East 479.8
varas to the place of beginning.

Plaintiffs further allege that on
the day and year aforesaid the
defendants unlawfully entered
upon said premises and ejected
plaintiffs therefrom to their dam-
ages in the sum of \$1000.00 and
that the reasonable annual rental
value of said property is
\$1000.00. Wherefore plaintiffs
pray that defendants be cited to
appear and that they have judg-
ment for title and possession of
the above described land and
premises, for writ of restitution,
for rents, damages, cost of suit
and general relief. And on second
count plaintiffs further allege
that on April 24, 1917 they ex-
ecuted oil and gas leases on each
of the 100 acre tracts described
above to A. G. Iseng, W. L.
Mann and N. A. Dodge; that each
lease was let to the lessees for
the sole and only purpose of min-
ing and operating for oil and gas
and for laying pipe lines, build-
ing tanks, power stations and
structures to produce oil and gas,
and that said leases should re-
main in force for a term of one
year and as long thereafter as
oil and/or gas was produced by
lessee and provided that 1-8 of
the oil should be delivered to the
lessors as royalty and that if gas
was discovered and used that
\$100.00 per year per well was to
be paid to lessors; that said les-

sees agreed to develop said prem-
ises with reasonable diligence;
that said leases were given for
the real and true consideration
that said leases should be de-
veloped with reasonable diligence
by lessees or their assigns; that
lease agreements ceased upon the
failure of lessees or assigns to
carry out terms of said leases and
ceased also upon abandonment of
said leases by lessees or their as-
signs.

Plaintiffs further allege that
defendants are assignees of the
original leases by mesne assign-
ments to certain portions of the
lands herein-before described as
will be hereinafter set out and
that they have wholly breached
the terms and conditions of said
leases and have wholly abandon-
ed the obligations thereof; that
a few small wells were drilled
but no oil produced from them
for more than twenty years, no
additional wells drilled in more
than twenty years and no wells
drilled to a depth exceeding 580
feet; that sufficient wells have
not been drilled to determine if
there is oil in paying quantities
on lands assigned to them and
that defendants have long since
abandoned said leases and have
no intention or plan to drill said
land and that their assignments
constitute a cloud on title of
Plaintiffs' land.

Plaintiffs further allege that
the defendants hold by mesne as-
signments from said original les-
sees, certain parts of said origi-
nal leases as herein set out, to-
wit: John F. Weyand, or his un-
known heirs, legatees and devise-
es, or his independent execut-
or, Charles B. Weyand, holds an
assignment on the north 28 acres
of the north 56 acres of the two
100 acre tracts hereinbefore de-
scribed; F. E. Butler, L. F. Smith,
S. H. Smith, Goldie or Zoldia
Persky and husband, I. B. Persky,
R. E. Fisher and W. W. Cham-
bers claim an overriding oil pay-
ment in the amount of \$1000.00
payable out of one-fourth of the
oil produced therefrom; and that
further W. W. Chambers holds
an assignment of the South 28
acres of the North 56 acres of the
two 100 acre tracts hereinbefore
described and that New Tex Oil
Company claims an oil payment
or overriding royalty out of 1-8
of 7-8 of the oil produced there-
from and H. D. Smith claims a
right to develop the oil and gas

under said lands by virtue of a
contract with the New Tex Oil
Company dated July 10, 1922 and
recorded in Volume 193 page 438,
Deed Records of Wichita County,
Texas and John F. Weyand whose
independent executor, Charles B.
Weyand also claims some interest
in this tract.

Plaintiffs further allege that
defendants have not used due
diligence in developing said leases
assigned to them and that title
and estate of each of these de-
fendants has long since terminat-
ed and that their legal remedy
for damages against these defend-
ants is totally inadequate as some
of their residences are unknown.

Wherefore plaintiffs pray that
defendants be cited to appear and
that they have judgment can-
celling the leases hereinbefore
described in so far as said leases
pertain to the North 56 acres of
land described in the two 100
acre leases hereinbefore mention-
ed; and in the alternative Plain-
tiffs pray for an order of the
Court requiring defendants to
reasonably develop said leases in
so far as it may be assigned to
each of said defendants and that
a reasonable development would
be the drilling of a test well with
reasonable diligence to a depth
of 1400 feet within 30 days from
the date of the court's order on
the North 28 acres of said North
56 acres and the drilling of a
similar well within the same time

upon the South 28 acres of the
North 56 acres, and the drilling
of additional wells upon each
of said tracts as may be directed
by the Court upon the complet-
ion of each of such test wells,
either as dry holes or as produc-
ers of oil or gas, and in the event
defendants do not comply with
such Order of the Court then
plaintiffs pray for a decree of
absolute cancellation of all said
leasehold interest and all claim,
title or estate of all these de-
fendants in said North 56 acres,
and for such other relief, general
or special, in law or in equity, to
which plaintiffs may show them-
selves justly entitled.

If this citation is not served
within ninety days after the date
of issuance, it shall be returned
unserved.

The Officer executing this pro-
cess shall promptly execute the
same according to law and make
due return as the law directs.

Issued and given under my
hand and the Seal of said court,
at office in Wichita Falls, Texas,

AT TEXAS ELECTRIC SHOW — Clothes drying worries are over for housewives who have this Bendix automatic home dryer, one of the many electrical wonders on display at the Texas Electric Show of '47 in Wichita Falls, May 12 through May 15. A patented, criss-cross tumbling action assures more uniform drying without tangling.

is practically a nation-wide scale. Occurrence of cecal coccidiosis is most frequent in the spring and early summer. This acute form of coccidiosis

appears in the flock suddenly. Affected birds may lose appetite, appear listless, huddle where it is warm, and show other general symptoms of infection. The first positive symptoms of cecal coccidiosis is bloody droppings; these come from hemorrhaging of the ceca (blind intestinal sacs), where the infection localizes. Cecal coccidiosis may spread swiftly through the flock. In the event of an outbreak, the flock-owner should act immediately to check the spread. This may be accomplished by giving the flock certain arsenic compounds such as 3-nitro 4-hydroxy phenylarsonic acid or certain sulfas. Both of these families of drugs have proven effective in controlling cecal coccidiosis.

Sanitation Important
 Sanitary measures are highly important in controlling outbreaks of cecal coccidiosis, as well as in preventing them. In either case, the poultry house or yard should be kept as clean and dry as possible. Although the importance of moisture in the development of the disease is disputed

by some poultry disease specialists, dampness does seem to be a predisposing factor in many outbreaks.

Water founts and feed hoppers should be kept clean and sanitary. During an outbreak, disinfect them at least once daily. Stir up the litter of the house. Stimulate consumption of feed. Although cecal coccidiosis is certainly one of the leading deadly diseases of young chickens, it can be rather effectively controlled through careful sanitation and management.

Where's the Argument?

You should have heard Ed Carey and Spike Miller debating the merits of Guernseys versus Holsteins. Ed's car firechief, and Spike handles hardware—but to hear them argue you'd have thought that they'd been dairying for life.

Finally they put it up to Sam Carter, who breeds dairy cows! Sam hems and haws . . . and concludes there's a lot to be said for Holsteins, and about as much for Guernseys . . . take your pick!

Actually, Ed and Spike were like people arguing about—say, beer

versus buttermilk. Folks who've never tasted beer will sometimes get mighty vehement about their choice of beverages. And folks who've never tasted buttermilk will be equally pig-headed.

From where I sit, it's in things we know nothing about that we get bigoted and stubborn. But when it comes to things we know a lot about, we're able to see both sides . . . be tolerant and reasonable . . . and above all, understanding.

Band News

The Band Parents Club had their regular meeting at the high school last Monday night, with the president, Mrs. George McClarty, presiding. Plans were made for the concession in connection with the Boom-Town Celebration. It was decided to have a bazaar and Bingo game. Each member took material to make an apron for the bazaar.

Mrs. Chambers was appointed Historian, and Mesdames Caffee, Vick and Gibson were elected to the nominating committee.

It was decided to charge \$1.50 per semester for use of the instruments furnished by the school, and \$1.50 per year semester rental of the uniforms. The constitution was changed to allow officers to hold office two years.

Circle No. 3 met with Mrs. Carswell in charge. The meeting opened with a prayer by Mrs. Polston. We started with the letter "A", and a verse was quoted from memory starting with the letter A. This was followed thru the alphabet. Mrs. Carswell then read the 23rd Psalm and commented on it as she read. The meeting was closed with a prayer by Mrs. Walling.

Attending were Mesdames Carswell, Walling, Polston, Goodwin and McClurkan.

Our next circle meeting, May 19, will be with Mrs. Goodwin.

Mother's Day next Sunday is

Surely the heart of the mother
will be made to rejoice if you
are in your place in Sunday
School and preaching services.
Special recognition will be given

the Oldest Mother present and

message on the Mother.

We had a good day last Sunday,
with 353 present in Sunday
School and a good audience.
However, your place was vacant,
and the pew was empty in the
preaching services as well as
in the Sunday School and the

far over the 400 mark next Sunday,
and this can be done only
through your support and cooperation.

Sunday. Invite, bring, encourage

**YOU IN THE CHURCH
THE CHURCH IN YOU**

Character is a by-product of the church. It is here
that young and old alike are showered with benedic-
tion that fortify and influence for a better citizen-
ship and a stronger democracy. In the church the
ministerial are molding religious character. States-
men today declare that the church alone can furnish
leadership to handle the affairs of state in these per-
ilous times. Then, we with our children should go
to the church of our choice on Sunday. "You in the
Church and the Church in you"—form a combination
for good.

"GOD could not be everywhere, so he made mothers." Thus runs an Eastern proverb.
We shall all testify that it is true. The early Christians found it difficult to refrain
from worshipping the Mother of our Lord, even as we stand in reverence today in the
presence of the mothers of our best women and men. Reverence is their due; they go
to the borders of death in order to bring back with them a new life, they forget their
suares and their comfort that the growing child may be fed and taught and furnished
an adequate equipment for successful living among his fellows. Let us then speak
of love and our high appreciation for all mothers everywhere; our debt to the mothers
who have passed into the Heavens, our gratitude to the blessed mothers who remain to
see and adorn our homes of children and grandchildren, our appreciation for the
mothers of today in the midst of their heavy responsibilities and great sacrifices, our
solicitude for the young mothers and mothers-about-to-be as they dedicate them-
selves to the ongoing of the race.

All-Gracious! grant to those who bear
A mother's charge the strength and light
To lead the steps that own their care
In ways of Love, and Truth, and Right.
—William Cullen Bryant.
