## HARD FACTS About Soft Ball

Palace, B&G	0	0	000

Rain has been the cause of the postponements of a good many games so far this season and managers should remember that 2 games will be played the next night the teams meet that have had postponements.

A slugfest occurred Thursday night when the Ex-GI's met the Dairy boys. Preston took to Rogers pitching in the second and crossed the plate 7 times in that frame to run their total up to 9 while holding the Legion to 2 runs. Manager Hugh Preston saw a chance to save his star pitcher Owens and let Short take over the mound duties. Everything was peaches and cream for Preston until the 5th when the Legion let go their big guns and scored 8 times and brought the score up to 10-13, but failed to score again so the Dairy men heaved a sigh of relief and every one went home.

Halted in the 5th inning because of a storm the game between Gulf Oilers and Devol ended with Devol leading 3 to 0. Sy Parker was credited with a no hit no run game, although several Oilers reached base on walks and errors. Devol scored 2 of their 3 runs in the opening frame on 3 walks, 1 hit and 1 error. What may have happened if the game went the full length is anyone's guess, but enough innings were played to make the game official. Booger Wood, manager of Devol says he is satisfied to call the game revenge for the shutout Garrett pitched against Devol last season.

Buster Morgan as chairman of the rodeo committee again this year promises that the show will surpass anything in this part of the country the four nights June 25-28. New attractions have been booked that will appeal to all lovers of fast outdoor action.

With two cabs running every day and an extra one for busy days, the boys state that they are prepared to give prompt and courteous service at all times.

## Burk Star Readers Best In The World

It is no exaggeration to say that Burkburnett people are the most considerate, understanding, best people in the world. Every effort is made to give Burkburnett people a good, live, readable newspaper, but there are things over which we have no control that keep us from attaining our desires at times. Last week at press time we had several columns of type and a number of ads that had to be left out for lack of space. Why not run extra pages? We had used every sheet of newsprint we had and that was not near enough to adequately handle the situation. Parties, local news and announcements and ads had to be left standing on the stones. A situation like that hurts us, more than it does the people who cooperate with us to get this material together. Several inquiries came over the telephone Friday and Saturday wanting to know why so and so was not in the paper. A simple explanation of the facts was all that was necessary to repair the disappointments. That kind of understanding gives us new strength to work and hope for a time when all local news will find its way to the columns of your newspaper each week.

Thanks to every one from

## 40th Anniversary Founding of Burk To Be Celebrated

Forty years ago this year the city of Burkburnett had its beginning. Lots in the townsite were advertised in the Wichita Daily Times, were sold and the town started on its colorful history from a struggling infant, through the boom town era and on to the present of a thriving, growing city of some 4,000 population. In memory of that beginning, the founding of Burkburnett will be celebrated this year in connection with the 2nd annual Boom Town Celebration and Rodeo and home-coming.

## Whiskers Club Is Well Organized Permits Going Fast

Last year ninety per cent of the publicity concerning the big celebration was brought about because of the existence of the Whiskers Club. More enthusiasm was worked up by the Whiskers boys than from any other source, not excepting the free barbecue and the other attractions. Many who grew whiskers last year had sworn they would not do so this year, but when the time came around to spare the razor most of them fell right in line. There is certainly no pleasure to be derived from letting the whiskers have their way. Any one who has tried it will tell you there is a certain amount of physical suffering to be endured, to say nothing of the trouble at home with the little wife. Clark Gresham is chairman of the Whiskers Club. His deputies and helpers are some pretty tough boys—oil field workers, etc., who had just as soon dunk a man as look at him—probably rather, if his face is smooth. Shaving permits are selling at a fast clip. They permit a man to shave any time up to June 25th, presumably without being molested by growers of beards. Permits are only \$3.00 each, all money going into the Chamber of Commerce to help defray expenses. Get yours or beware the horse trough.

## Legion Convention Draws Large Crowd

The 13th District Convention of the American Legion held here last Saturday and Sunday with the local post No. 264, as host, was well attended by State officers, delegates and visitors. The welcoming address for the delegation was extended by H. D. Smith, Burkburnett councilman. Response was offered by Curtis E. Moore, post commander of Pat Carrigan Post 120, Wichita Falls. Melton Snoddy of Graham was elected as commander for the ensuing year. L. N. Whitney of Nocona was named district vice chairman, and Graham was selected as the site for the next convention, slated for October. Registration began at 9 A. M. Saturday. At 2:30 p. m. a colorful parade under the direction of T. Guy Willis and led by the Burkburnett High School band marched through the business section. Saturday night, the 40 & 8 held a wreck of eight or nine P. G.'s followed by a talk by Ed Riedel, grand-chef-de-gare of Texas, on What the Legion and 40 & 8 stands for and what they mean to the Veteran. Other speakers included Fred Brookman, Veterans' Administration official from Waco; Harry R. Brown, 4th division commander from Fort Worth and District Commander C. F. Johnson of Burkburnett.

Sunday at noon, a fried chicken dinner was served at the Legion Hall, at which time, Jessie Ruth Preston, favored with a reading. This is the second successful Legion program, held during Mr. Gray's term as Post Commander. The first was the Armistice Day Breakfast held last November. Mr. Gray offers his wholehearted thanks for the wonderful cooperation he has received from the Legionnaires and the community as a whole.

## Lions Club

Forty-two Lions were in attendance Tuesday night. D. C. Dodson and John Rigby, in charge of the program, introduced Chester Duncan, math teacher at Hardin College, and former Superintendent of the local schools. Mr. Duncan made a very interesting talk on Hardin College. F. E. Cruise and C. W. Schroeder will be in charge of the program next week.

Don Lohofener, who underwent an operation for a sudden attack of appendicitis, is reported to be doing nicely in a hospital at Monterrey, Mexico.

## Be An "Engineer in Good Eating"—Do Home Canning!

Simple Instructions Based on Science

You may not have a degree as an engineer, Mrs. Housewife, but when you're home canning you're using scientific principles just as surely as a mining, chemical, electrical or other engineer. That is, if you follow glass jar manufacturer's instructions, for they are based upon scientific discoveries made over a period of a century and a half.

Back in Napoleon's time, a Paris confectioner, Nicolas Appert, set out to find a method of food preservation and win a 12,000-franc prize offered in 1795 by the French government. Napoleon, like Frederick the Great, believed an army travels on its stomach, and the folks at home got hungry and discontented too! Nicolas won the prize, after 15 years' work, but his methods and equipment have been greatly improved upon. He labored under many handicaps, not knowing a temperature beyond boiling is required for processing some foods and having to design his own glass jars. Not until 1860 did Louis Pasteur establish the fact that microorganisms are responsible for food spoilage. Fourteen years

later, an American, A. K. Shriver of Baltimore, invented the "retort" or "pressure" cooker. In 1858 John Mason patented the Mason jar with neck designed for receiving a screw type cap. The Mason jar with porcelain-lined zinc cap is an old reliable. Mason would probably be astounded by the 1947 cap for sealing the Mason jar. This new style cap is a two-piece metal affair with a Dome lid which has sealing compound on the under side and is tested for seal by pressing on the center of the lid with the finger. Sealing with the Dome lid is made doubly sure by the new type metal band which bears down on the lid at three pressure points. Also reliable in seal is the lightning type jar with rubber ring, glass lid and wire bail. Many scientific experiments and jar improvements have perfected processes for today's home canning and it is upon them that instructions you will find in reliable home canning literature such as the Ball Blue Book are based. Follow these instructions and you become an "Engineer in Good Eating"—much to the benefit of your family's health and increased pleasure at the table provided by delicious home canned foods.

Never, since America has printed postage stamps, has there appeared upon them, the portrait of a newspaperman. Many men and events have been honored by commemorative stamps but the newspaper profession has not had a representative until the issue in April of one of its leading editors, Joseph Pulitzer, well deserves this distinction and on the centennial of his birth, we take pride in the recognition accorded him by placing upon a U. S. stamp, his picture and his quotation, "Our republic and its press will rise or fall together." His high standards and achievements should be carried on by every newspaper that is printed.

### LABOR SAVING IN POULTRY RAISING

To the average poultry raiser one of the most important of

considerations should be the amount of time and labor expended in stock care. Since most U. S. poultry raisers are also engaged in other kinds of operations (agriculture), live stock feeding, dairy farming, etc. they must be careful to give only the proper share of their time to stock management.

Here are a few labor saving tips to part-time poultry raisers:

Good poultry housing and good furnishings (equipment) are necessary to efficient management. A well planned house that provides plenty of space for the birds is essential. Litter should be kept clean and dry as possi-

ble. Feeders and waterers should be present in sufficient number, and should be carefully arranged both for the bird's sake and for yours. There should also be plenty of nesting and nesting space.

In your feeding methods, fill the hoppers about two-thirds of the way with clean mash. Push the old mash to one end, add the new, and stir well, so that the birds will eat both old and new. Some poultry men prefer to line up the hoppers, and to end, so that they save time and labor in feeding. However, there is much to be said for placing feeders at right angles to windows, so that light will fall on feed. Feeding a little hand or scratch grain in the litter each day helps keep the flock active and helps keep the litter stirred.

Be sure to keep layers supplied with clean nesting material. This practice helps avoid soiled eggs, and this, in itself, represents a considerable saving of time and effort. Cleaning dirty eggs takes a great deal of time. A deep lay-

er of nesting material also helps as it prevents broken eggs.

Finally, keep simple feed consumption and egg production records. These help you foresee slumps in production, and also help you locate pens that aren't up to snuff in their production.

NO TELLING what tomorrow's weather may be. It feels the best fore-caster. But we do want chints for the windows. We do need a carpet sweeper, a new percolator, and a new end-table in the living-room. And we don't want to sash around rainy streets to hunt them. Problem! How to thwart the weather man. Simple enough! Let's sit down by the fireplace and read the advertisements. Here it's comfortable and snug. We'll take the newspaper page by page, compare prices, qualities, brand-names. Tomorrow, rain or shine, we'll head for the store that has what we want, and home again in a jiffy.

### P.-T. A. Has Last Meeting For Current Year

Hardin P.-T. A. met for the last session of the current school year Friday, May 16, 1947, at 3 o'clock in the Grade School Auditorium. Mrs. O. G. Burnett, president, called the meeting to order and presented the program. The pupils of the Second Grades brought a playlet entitled "We've All Got The Mumps". Darlene Mc-

Henry, second grade, gave a reading, "When Gary Trimmed The Cat". Mr. Charles Vick presented the Grade School Band in a concert, rendering six numbers. Sixteen students compose this band from the Fifth and Sixth grades. Mr. Vick has been training these students since February with very notable success, and following the numbers played, he explained the purpose of each instrument in the band, their progress in music, and his hopes and aims. Our best thanks to Mr. Vick and his band.

Mrs. O. G. Burnett then returned to the Chair for the brief business session. The treasurer

and all committee chairmen gave annual reports. Following are some of the accomplished projects for the year: For the Grade School two record players and \$50.00 of records, fifty tea towels, \$148.20 to the Cafeteria fund for under-privileged children, one steel cot, mattress and cover for the teachers lounge, three life memberships to the Texas Congress of Parents and Teachers, one bicycle rack for the Grade School and one for the High School, \$100.00 to the School Band, one new file case for the P.-T. A. book shelf, and one \$25 Kit for an overseas teacher.

Mrs. A. W. Shackelford, 13th District PTA President acted as Mistress of Ceremonies of the Installation Service. The following slate of officers were installed: Mrs. C. W. Stradley, President. Mrs. H. C. Sullivan, Vice-Pres. Mrs. Harold VanLoh, Secy. Mrs. Dick Hall, Treas.

Mrs. Burnett was presented by Mr. Evans one service bar to be added to her Past President's Pin. Mrs. I. C. Evans' room won the book award for the most mothers present.

Refreshments were served to 87 members and a large number of children. Mrs. Fred Hunt, Secretary.

#### THE STATE OF TEXAS

To: Milton R. Moore, Defendant. Greeting: You are hereby commanded to appear before the Honorable 78th District Court of Wichita County at the Court House thereof in Wichita Falls, Texas, at or before 10 o'clock A. M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 9th day of June A. D. 1947 then and there to answer Plaintiff's Petition filed in said Court, on the 23rd day of April A. D. 1947, in this cause, numbered 43166-B on the docket of said court and styled Irene W. Moore Plaintiff, vs. Milton R. Moore Defendant.

A brief statement of the nature of this suit is as follows, to-wit: After alleging jurisdiction plaintiff further alleges that she and defendant were married on or about March 11, 1933 and separated on or about January 26, 1947, since which time they have not lived together; that defendant is guilty of harsh and cruel treatment towards this plaintiff of such nature as to render their living together as husband and wife insupportable; and that there is no community property and no children born of this marriage. Wherefore plaintiff prays that defendant be cited to appear and that on final hearing she have judgment for divorce and for such other and further relief to which she may show herself justly entitled.

If this citation is not served within ninety days after the date of issuance, it shall be returned unserved.

The Officer executing this process shall promptly execute the same according to law and make due return as the law directs.

Issued and given under my hand and the Seal of said Court, at office in Wichita Falls, Texas, this 24th day of April A. D. 1947.

SEAL Attest: Glenn Haynes, Clerk, 78th District Court, Wichita Co., Texas. By Mary Lou Holman, Deputy, 40-4tc.

WEEKLY NEWS ANALYSIS Brazil Court Bans Communists; Telephone Strikes Come to End; Oklahoma State Senator Shot

Released by Western Newspaper Union. (EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysis and not necessarily of this newspaper.)

BRAZIL: Outlaws Communists

The Communist party in Brazil—one of the largest in the western hemisphere—has been outlawed by the supreme electoral tribunal by a three to two decision. Immediately after the ruling police rushed forth to close the party's 445 clubs. By its decision, the high court approved a government petition which asked that the Communist party be declared illegal and closed. Some Communists predicted that the national congress soon would pass a law expelling "extremists" from the armed forces and all government agencies. These same sources said that the same act probably would close all Communist newspapers and publishing houses. The party showed remarkable strength in the last elections, polling 800,000 votes, and electing a governor and two senators in the important state of Sao Paulo. They have 17 deputies and one senator in the national congress. In the capital city, Rio de Janeiro, the largest party group in the city council is the Communist. Officially, the party claims 180,000 members. There are three possibilities now for Brazilian Communists, according to expert observers: They could turn their well-organized party over to some other group. They could organize a new party under a different name and seek apparently different objectives. Or they could go underground as they did between 1932 and 1945.

OKLAHOMA: Shooting in Senate

A hometown feud exploded into gunplay on the floor of the Oklahoma senate house in Oklahoma City. When the smoke cleared, elderly Sen. Thomas Anglin was lying wounded, shot through the hip. His assailant, Rep. James Scott, a marine veteran, was arrested a few minutes later in a washroom. The shooting occurred before the afternoon session had opened, when about half the senators were on the

State Sen. Anglin

floor. Scott apparently fired twice, with one shot going wild. Some senators were under the impression that Anglin returned the fire, but this has been denied. Police said that Anglin's curious nine-shot, .25-caliber automatic had not been in action. Both legislators come from Holdenville, Okla. Anglin is 64, the oldest senator in the chamber in point of service. Representative Scott, 34, is heir to an oil fortune. Only motive that has been discovered for his action is that Anglin's law firm represented Scott's former wife in her divorce suit and property settlement.

FOOD PRICES: Drop Held Unlikely

At least throughout May average prices of foods will remain at about the same figure, according to a special report on farm income by the department of agriculture. Farm income for the month is expected to reach two billion dollars. If so, this will bring cash receipts for the first five months of the year to \$9,800,000,000, or about 25 per cent above last year. Prices farmers have been receiving have averaged about 30 per cent higher than for the comparable period of 1946, but total returns have not been up that much because some government payments have been discontinued.

Water Test Reveals Facts About Fat People

Human "guinea pigs" are being dunked in a warm water well at the University of Minnesota to determine how fat persons' hearts and veins will stand the stress of modern life. The experiments began as the result of findings by Prof. Ancel Keys during his observation of conscientious objectors who served as subjects of starvation diet studies during the war. Dr. Keys said there appeared to

Boy! Corn on the Cob!

One of the first carloads of sweet corn to arrive in Chicago from Texas is gleefully sampled by Joe Speciale, whose father is a wholesale produce merchant. This succulent delicacy is moving in volume to all northern markets.

PHONE STRIKE ENDS: Workers Accept \$4.40

Long distance telephone operators agreed to accept a compromise pay increase of \$4.40 a week, thereby ending the month-old strike that has been tying up the nation's communications. Quick settlements of 28 other disputes followed the acquiescence of the long lines workers to the new terms. The increase means about 11 cents per hour pay boost, vacation benefits and certain other concessions, such as seniority rights. About 22,000 workers in 42 states are affected.

The agreement was announced by Asst. Secy. of Labor John Gibson and Conciliation Director Edgar Warren, after a 7 1/2 hour night session with representatives of the unions and the American Telegraph and Telephone company. Strikes against local companies of the Bell system were settled on substantially the same terms.

Besides the wage hikes and other benefits the contract with the long distance workers was practically a renewal of old terms, which were extended for one year. A clause permits either the union or the company to begin negotiations, after September 1, for reclassification of towns to readjust wage schedules. Officials of the long lines workers' union indicated the members would not cross picket lines of striking local telephone workers.

'45 Family Income \$2,378

Average family income, during 1945 was \$2,378, or \$149 more than in 1944, according to figures just released by the census bureau. About one-third of American families had incomes between \$2,500 and \$5,000. One in ten got between \$5,000 and \$10,000 per year, and 13 out of every thousand had an income in excess of \$10,000.

BOX CARS: Shortage Easing

Slowly but steadily the boxcar situation is improving, declares John Hayden, Chicago district manager of the American Association of American Railroads. Midwest freight conditions, he said, are the best they have been for a long time. Grain cars are moving in adequate numbers to the Southwestern wheat belt, where cutting of the new crop has begun.

NORWAY: King Given Raise

Probably to meet the rising cost of living, King Haakon of Norway has been granted an increase in allowance of 300,000 kroner by the Storting, or national assembly. Including this raise, the monarch now receives a million kroner a year, or about \$220,000 in U. S. money. The total allowances for the Norwegian royal family now amounts to 2,417,900 kroner, or \$550,000, of which 340,000 kroner has been earmarked for repairs on Oslo castle. Crown Prince Olaf has a personal grant of 300,000 kroner annually.

Loans Hit New Record

Loans made by the nation's banks in the second half of 1946 increased more than \$4,000,000,000 to a total of \$36,150,000,000, the largest since the end of 1930. This is shown in the 2,741-page first 1947 edition of Rand McNally Bankers' directory just off the press. The country's 14,845 banks had \$1,996,063,000 more cash at the end of 1946 than six months previously, but less than at the close of 1945.

MAIL SERVICE: Politics Charged

The post office is reducing its mail service in a "brazen" attempt to discredit the congressional economy drive. Senator Bridges charged in a recent interview. Actually, declared the chairman of the senate appropriation committee, the post office department's funds have not been up for consideration yet.

The senator showed newspaper clippings quoting Patrick Connelly, postmaster of Boston, and Harry Kramer, postmaster of Holland, Mich. Both men said in print that mail deliveries and other services must be curtailed "all over the country as a result of a failure of congress to pass the customary deficiency bill to allow government agencies to finish the final months of the fiscal year ending June 30."

In reply, Jesse Donaldson, acting postmaster general, stated that no postmaster has been authorized to make any statement about congress. "Actually," said Donaldson, "congress is not to blame. The deficiency appropriation which we will have to ask for extra clerk hire and substitute carriers has not even been submitted to congress yet."

GERMANY: U. S. to End Army Rule

Control of the U. S. zone of Germany soon will be transferred from the American military government to civil authority. Secretary of State Marshall is preparing to take this long-delayed step as soon as possible. The move will reverse the state department's 158-year-old tradition. Heretofore the department has vigorously resisted taking on any functions except formulation of policy.

Former Secretary Byrnes wanted administration of Germany left with the war department, but Marshall, himself a veteran of the war department, is willing to change that. He has not revealed any details of the civil government setup that he has in mind. Obviously a considerable military force will be needed in Germany for some time, in case of outbreaks.

Foster Mother of '47

Chosen as "Foster Mother of 1947" by the Children's Aid foster homes department was Mrs. Harold Volbergh of New York City. She has opened her heart and home to half a dozen boys and girls since 1940.

Cure for Worry

Worry is a disease that can be treated and cured. An article in Cosmopolitan magazine by Greta Palmer cites the success of the Boston dispensary in conducting a "worry clinic" which has handled more than 3,000 patients. The article states: "Patients' problems are of many kinds, requiring vastly different solutions, but there is only one kind of worry, and that is always a disease."

More Toothaches in East

For some reason, not at present clear, people in the East suffer from tooth decay about twice as often as people in the West and Southwest. The Pennsylvania State Dental society was told by Cndr. Carl Schleck of the naval medical research institute that chemical content of soils and differences in water supplies apparently were to blame. Eating of sweets was an important factor, too, he said.

WHY NATIONS PERISH

LESSON TEXT—II Kings 17:5-12. II. 22. Isaiah 23:1-4. MEMORY SELECTION—For the Lord knoweth the way of the righteous; but the way of the ungodly shall perish.—Psalm 1:4.

Nations as well as people come to crossroads in their history, and taking the wrong road then means future disaster. Solomon had built up great national prosperity, but at the expense of heavy taxes. He had forgotten God, and was succeeded by a son who followed in his footsteps. Offered an opportunity to ease the burden of the people (I Kings 12:14), Rehoboam in his folly made it greater, and the nation was divided. The ten northern tribes, which were henceforth to be known as Israel, followed Jeroboam, and the two southern tribes under Rehoboam became the kingdom of Judah.

Jeroboam started with God's favor, and might have led his people right, but instead he became the king whose name stood for wickedness (see II Kings 15:18). The story of that downfall is a sad picture of unbelief and failure.

Through varied experiences and under different kings, Israel had gone down, down, down in its history of sin and departure from God.

I. Doomed by Sin (II Kings 17: 5-12, 22, 23). The hour had struck when God's heavy hand of judgment had to fall on them. Verse 4 relates their carrying away into captivity to Assyria, and verses 7-9 tell us the reason for that judgment.

Ingratitude for God's blessing (v. 7) led to the worship of other gods (v. 8). They knew God's hatred for the sin of idolatry, and his judgment upon those who walked in that way, but they went right on.

Note in verse 9 that these things were done "secretly." The same thing is true today of many who profess to be the people of God. The line of demarcation between the church and the world is not clearly drawn. We do well to note carefully the outcome of this course of procedure on Israel's part (vv. 6, 18). The fact that Israel did these things secretly did not hide them from the eyes of Jehovah (Ps. 139:1, 2; Heb. 4:13) (John W. Bradbury).

The statement in verse 23 is a striking one. The prophets had repeatedly spoken of the impending destruction of the nation. Now the time had come that the Lord could no longer stand to look upon their sin, and in a sense put them "out of his sight." That does not mean that they had been forgotten or that God was not watching over them in mercy and love, but that he had to judge them for their sins, and for a time bring them into judgment leading to repentance.

There is always a reason for a nation's deterioration, and with Israel there were many reasons. Outstanding among them is the one for which they were rebuked by Isaiah in the verses of our lesson, namely, drunkenness.

II. Deceived by Drink (Isa. 28: 1-4).

The picture here is a graphic one. The leaders of Israel (here called Ephraim) lingered long over their bowls of wine, and in their drunken stupor gloried in the fact that Samaria, their capital city, was so situated at the head of a valley that it was not only beautiful but practically safe from attack by the enemy. The drunkards spoke with pride of their nation and of Samaria its "crown." The description was apt, for it was beautifully situated on a hill surrounded by a fertile terraced hillside. But their boasting was vain, for after a bitter three years' siege, the city eventually fell to Sargon II of Assyria.

All this has a familiar sound. We think of the nations that have gone down to oblivion even while the people engaged in foolish levity, and in the awful stupefying and degrading use of alcohol.

Remember the fall of France in the recent World War when its own leaders said that the defeat could be largely attributed to the tremendous increase in the use of alcoholic liquor.

What about our own United States? With an annual liquor bill of about eight billion dollars, saloons on almost every corner, liquor flowing freely in hotels and restaurants, bottles and cases of it being brought into the home, booze the common medium of not only social but business relations, our insane asylums so crowded with alcoholics that the poor inmates have no real care—but why go on? It is a picture so appalling and so utterly distressing that every sensible person is shocked by it.

Do we think that God can long withhold his judgment upon a people blessed by all his many bounties, and yet using them for destruction of body and soul? Can a people continue to be strong which is determined to undermine itself by the use of alcohol?

Secret Compartment Built In Desks as Early Safes

Before safes were introduced a century ago, valuable papers and articles were usually kept in secret compartments of a desk, says Collier's. Their location was known only to the owner and the cabinetmaker, and many were so cleverly concealed that they virtually defied detection.

Not long ago, an expert bet that he could find every one in a colonial desk and, after searching for four hours, claimed he had succeeded. But he had missed six of the 21 hiding places.

### Burkburnett As Musical Center

At a recent meeting of Federated Study Clubs in Ft. Worth, which was attended by representatives from our city, it was pointed out that Burkburnett has four Federated Clubs; the most for any town of its size in the district. These clubs namely, The Current Literature, University, Jr. University and the 20th Century, are cooperating in an effort to

stimulate an interest in good music. Their first concert, which is open to the public and free of charge is to be presented Sunday, May 25 at 4 p. m. at the First Methodist Church. The Harmony Club of Wichita Falls is presenting the entire program which consists of a Violin ensemble, a Choral group of approximately 20 voices, a Vocal soloist and Piano soloist. This club membership is made up of Public music teachers, Teachers of private lessons in various musical fields and young matrons, many of

whom have as many as three children. In other words, they are a busy group, but take time to study together and are then gracious enough to let the public enjoy their music. Under these circumstances, we, the entire community can do no less than secure for them a large and appreciative audience. Will you attend and urge your friends and neighbors to do likewise. Again, this concert is open to the public, with no charges whatsoever. Let's make the surrounding territory conscious of the fact that Burkburnett is musical

minded as well as literary minded. RATS MOVE IN WHEN weather gets cool. Stop them with Dr. Salsbury's RAT DEATH, sensational new ratcide containing Antu. Kills common brown rats surely, easily. Inexpensive, safe to use around poultry and livestock. Ask us about RAT DEATH. —Corner Drug Store. John Andrews and Donald Dodson went on a fishing trip last week end to Possum Kingdom dam.

## EXTRA CARE OF YOUR ELECTRIC REFRIGERATOR MEANS LONGER WEAR ... More Efficient Operation

- Let Hot Foods Cool**  
Give hot foods time to cool before placing them in your refrigerator.
- Defrost Regularly**  
Defrost at least once a week in the summer, or when the frost gets about 1/4 inch thick.
- Remove Ice Trays Carefully**  
Avoid using a knife, ice pick or other sharp instrument to loosen ice trays.
- Don't Overload Your Refrigerator**  
Jamming food into shelves and compartments prevents proper circulation of cold air.
- Always Maintain Even Temperature**  
Running your refrigerator on "high" for long periods can damage foods, as well as overwork the motor.
- Keep Refrigerator Door Closed**  
Open your refrigerator only when necessary, and close the door quickly to conserve the cold air.
- Should your refrigerator need adjustment or repair, call the dealer from whom it was purchased, or some other reliable service man who is experienced.**

● Your electric refrigerator is built to give long service. It serves you best if you give it proper care. Help your refrigerator last longer and operate more efficiently by following these suggestions.

Rev. Jimmie Owen preached at the Calvary Baptist Church last Lord's day. Rev. Owen spent almost three years in the U. S. Navy. He was saved while in the service. Shortly after his wonderful experience of salvation, God called him to preach the gospel. The Lord is graciously blessing the ministry of this young preacher. His messages were a real blessing to our hearts. The blessings of christian fellowship, prayer and worship far surpass the pleasures of the world. So-called good times are for a moment. God is eternal; so is his church. Please read Psalm 84:10 and Hebrews 11:25. As you ponder over the great truths of these scriptures, will you read also Nehemiah 13:11. Nehemiah asked, through inspiration, this great question today. What is your answer? Notice 1st John 3:21. Will you not see the truth in Psalm 16:11 and meet with Calvary Baptist church next Lord's Day. May the Lord draw us close to him and bless us for his sake.

**Methodist Church**  
T. Herbert Minga, Pastor  
This Sunday the pastor will preach as usual at the morning hour. He had a fine day last Sunday at Valley View speaking to graduates of the high school. At the evening hour we will have no service at our church but will give our people opportunity to attend the baccalaureate services held at the High School auditorium.  
Envelopes for weekly contributions to the church budget will be distributed on Sunday morning. Our new conference year will begin June 1, and all members of the church and any others who wish to pay regularly to the church are asked to get a new package of envelopes this Sunday.  
The finance committee of our church will meet Saturday evening to draw up plans for the new year. Members of this committee are: Paul Browning, Glen Bear, Luther Caffee, Virgil Brookshear, and Carl Morrison. Let us have a large attendance at the morning hour. You need the help and inspiration gained by participating in public worship. Make the Methodist Church your church home.

**Do CHURCH PEOPLE Live Here?**

When we view this beautiful little home with its elegant architectural details, situated in such lovely surroundings—we are compelled to wonder how home it is.  
It has been well said, "It takes a heap of living in a house to make a home." We might add that God is only interested in the kind of living that shelters . . . wholesome living if you please. The Almighty wants all of us to be a shelter in the time of storm—a haven of happiness and peace where His will is supreme . . . where love abounds and greedy selfishness is not known.  
Architects design houses. Builders put them together. But only the church of the living God builds homes. Through its teaching the church challenges humanity to drink of its waters of life and live . . . live the wholesome kind of living which only is pleasing in His sight.  
What the church does. The church pictures to humanity the world's greatest designer of living . . . Jesus Christ, the Son of God. "Except the Son build the house, they labor in vain that build it," Psalms 127:1. This implies mutual affection, gentleness, meekness, refinement, and a genuine forbearance.

**YOU IN THE CHURCH**  
**THE CHURCH IN YOU**  
Character is a by-product of the church. It is here that young and old alike are showered with benedictions that fortify and influence for a better citizenship and a stronger democracy. In the church the ministerial are molding religious character. Statesmen today declare that the church alone can furnish leadership to handle the affairs of state in these perilous times. Then we with our children should go to the church of our choice on Sunday. "You in the Church and the Church in you"—form a combination for good.

### When Ed's Crops

Three years ago Ed Smith's luck went bad. His crops failed, and it wasn't long before Ed's home and furnishings were up for auction.

Half the town turned out, and Ed must have thought his neighbors were a bunch of hungry vultures—buying up all his precious possessions for a song.

When it was over, and the auctioneer had left, Sam Abernathy turns to the crowd and says: "All right, folks, let's take time out for a glass of beer, and then put this stuff back where it belongs!"

Two hours later, Ed session of his home and furnishings were up for auction.
