Burkburnett Star Burkburnett, Texas Gentlemen:

I have just read my Star of May 22nd for perhaps the fifth time ,and thought I would express my appreciation for this ,bit of home away from home". My husband and I look forward to Monday evenings and our Star with great delight. No one needs an explanation of home, and our Burk Star is home to us. I'm happy to see that the second Boom Town Celebration is shaping up nicely, and am very unhappy that we cannot be there to meet all our old friends and share the happy comradeship so prevalent at these gatherings. Good luck, Burkburnett, in your coming event.

Our stories of the Whiskers Club, along with one good look at my husband's boots and Stetson, helps convince our Northern friends that Texas is really "Way

From where I sit, there's noth-

hum," off to pleasant dreams!

There's lots doing these days in Southwestern Bell's rural territory. We plan to connect 23,000 telephones in rural areas in Texas this year, and construction work is moving ahead.

The job of bringing good telephone service to thousands of farms in our 250 exchanges is a big undertaking. It begins with a survey of each exchange to determine the kind and amount of construction required. Then farmers are interviewed, detailed plans drawn up, materials ordered, and when they arrive, the lines built and telephones installed.

The purpose of this planning, organizing, and building is dependable, up-to-date rural telephone service. It's the kind of telephone service American farmers need, and it's the kind of telephone service we plan to make available, sooner or later, to every farmer in our territory who wants it.

## You Should Know **Your Government**

### White House Marriage:

HAS a President ever been married in the White House? Yes, Grover Cleveland married

his ward, Frances Folsom, in the White House on June 4, 1886.

Do you know which two Presidents died in the White House? Why the secretaries of agriculture, labor and commerce can-not succeed to the Presidency, while other cabinet members can? . . .

Our Reader Service Booklet No. 202 an-swers hundreds of interesting questions about our government: history, tradition, facts and figures. Send 25 cents (coin) for "Know Your Government" to Weekly Newspaper Service, 243 West 17th St., New York II, N. Y. Print name, address, booklet title and No. 202.

### The Questions

1. How far below the surface of the earth do earthquakes start? What is white gold?

How long does it take an orchid to bloo

4. Did the Italians invent maca-

roni 5. What word in the English lan-

guage has the most definitions? 6. Bobby Feller was clocked as throwing a ball at what speed?

### The Answers

1. No more than 6 or 8 miles down

2. Gold combined with nickel and zinc. 3. Ten to twelve years.

GIANT'S DEATH: End of an Era? Soviets Seek To Outlaw Atom;

The battleship Oklahoma, first of the so-called "super-dreadnaughts," might well be recorded in history as an accurate symbol of the era during which it ploughed the seas for the U.S. navy-heroic but futile. In her 31 years of steel-clad exist-

ence she never fired a shot at an enemy Based at Berehaven, Ireland, during World War I, she saw no action;

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysis and not necessarily of this newspaper.) and on December 7, 1941, five Japanese torpedoes sent the sturdy old ship lunging to the bottom of Pearl Harbor before her crew could man the guns.

Raised to the surface and then abandoned as not worth salvaging. the Oklahoma was consigned to the scrap heap and taken in tow for the last long voyage across the Pacific. Suddenly, 540 miles northeast of Pearl Harbor, the tragic oattleship listed heavily, as if tired of war and its aftermath, and slipped into the sea, three miles deep at that point. for her final escape from the era of violence that had been her lifespan.

### PORK SUPPLY: Seek More Pigs

Seeking to boost the nation's pork supply during the spring and summer of 1948, the department of agriculture has recommended a general 15 per cent increase in pig production this fall.

The increase, achievement of which would bring an additional five million pigs to market next spring and summer, is being sought because present prospects indicate that supplies of beef and veal will be shorter in 1948.

Farmers will have no difficulty in getting sufficient amounts of feed to fatten a larger fall crop, the department said. While the national goal calls for

the recommended regional inwestern states, 16 per cent in the east, 12 per cent in East Central reading it too. states and 13 per cent in the South

LESSON TEXT-II Kings 22:10, 11; 23:1-5, 21. MEMORY SELECTION-Give me un-

God can bring blessing out of the most unpromising of circumstances. Yes, and men can make chaos out of God's greatest gifts.

The good Josiah became king at eight years of age, and was surrounded by godly counselors who helped him become an outstanding ruler for God. When he was sixteen he had a real religious experience (II Chron. 34:3), and at twenty he began to purge Judah and Jerusalem of idols and wickedness.

I. A Book Found and Read (22:10, 11: 23:1. 2)

The Word of God had been neglected for about sixty years. How sad! Yes and how sad that in our homes the Bible is so often neglected-on a book shelf, or in a trunk, or gathering dust on a living room table. A lost Bible, and a people living in sin! How much we need to push aside the rubbish in our lives and bring out our "lost" Bibles.

Observe that they not only found the book, but they read it. That was an overall increase of 15 per cent, true of the ones who found it as well as of those to whom they creases would be 18 per cent in passed it on. What a good thought we have there: read the Bible, yes, Midwest corn belt and in the North- but be sure to get someone else

In Josiah's day it was thus first received

1. By the King. The ruler or rulers of the people ful binding to match the neckline. need to return to God's Word in our day. It is all too often neglected in the council chambers of the nations. Josiah was moved by what he read to real repentance. He realized that the judgment of God must come. Inquiry at Jerusalem brought word from Huldah the prophetess Protests against the department that it would come, but not in

The king was not content to keep that it be read

2. By the religious leaders. The priests and the prophets who were doubly guilty in neglecting it were now brought face to face with God's revelation.

Who will say that the great need In America is not just this, that its preachers and denominational leaders get back to the reading and teaching of God's Word, Book re-

views, lectures in economics and

politics, discussions of one world-

Applying that to our day, it is

3. By the people.

## POSTAL RATES: May Go Up

A measure embodying the first general revision of postal rates since 1879 which would add about 110 million dollars a year to post office revenues has been introduced in the house of representatives.

The bill provides for a 30 per cent increase in parcel post rates and would revise the air mail rate from five to six cents an ounce. In addition, the new plan would add about 30 per cent a year to present scales for second-class mailing of newspapers and periodicals sent outside the county in which they are published.

Another provision would maintain the current three-cent local and nonlocal rate for first class mail beyond the July 1 deadline when those rates were slated to revert to the former two-cent level.

The new rates would go into effect 60 days after the bill is passed and signed by the President.

### NET PROFITS: Industries Gain

Top money maker in the United States in 1946 was the textile industry which, according to a Wall Street Journal survey, rode the seller's market harder than any other group to register a 219.9 per cent increase in net profits over 1945. Fourteen textile corporations

were reported to have net profits of \$109,435,562 in 1946, compared with \$34,206,787 the previous year. Profits 78.9 per cent above 1945

were recorded by food products and packing house industries, those which lie closest to the family coffers.

Gains also were made by distillers, whose net profits soared 144.6 per cent, and iron and steel with a 53.7 per cent increase despite damaging strikes.

Gen. Lucius D. Clay, military governor of the American zone in Germany, has predicted that at the rate German denazification courts are proceeding it will take several years to dispose of the huge number of cases still pending.

He revealed that 3,277,790 of the 11,825,000 Germans in the American zone were chargeable under law, and that the cases of 223,449 have been completed. So far, 450 of the Germans tried were major offenders, subject to a maximum sentence of 10 years in a labor camp.

to stabilize about 25 per cent under brakes on any further inflation if congress provides the necessary assistance.

### Fire Losses Zoom

Losses from fire in the United States followed the general trend of the times during the past year.

They went 'way up. Summing up for the past year, the national board of fire underwriters reported the greatest fire loss for any 12-month period in bistory of the nation.

Total amount was \$616,408,000, making an increase of 22 per cent over the \$497,153,000 in fire losses for the preceding year. Losses during the first four months of this year were greater than those recorded in either 1935, 1937 or 1938.

## SEAWAY: Soon a Reality?

Despite powerful opposition, the long - sought St. Lawrence - Great Lakes seaway which would make ocean ports of at least three large inland cities may become a reality in the near future.

The combined seaway and electric power project, designed to bring vessels from the Atlantic ocean along a 2,300-mile waterway to Chicago, Detroit, Duluth and other cities, has been advocated by every president since Taft.

Sen. Arthur Vandenberg (Rep., Mich.) has introduced a bill which would make the vast project selfliquidating within 10 years by means of exacting toll charges from vessels passing through the route. Previous proposals entailed the spending of hundreds of millions of dollars as a public works project.

If the bill is passed by both houses of congress and if American cooperation with Canada is authorized, real work on the seaway may be expected to begin within a year. Total cost of the project to the United States and Canada is estimated at about 500 million dollars.

### A Working Whistle

Naval research scientists are working on an extremely shrill-almost supersonic-whistle as a device to disperse airfield fogs.

The plan is to send out powerful vibration waves with a frequency just at the border of audible sound. Such waves cause fog vapor to gather in larger drops, and when the whistle stops they drop to the ground. Difficulty is that the whistle, which some hear and some don't, causes everyone in the vicinity to feel highly uncomfortable.

# HENRY & MONROE

Conveniently Located

Plenty Of Parking Space

We Want Your Business and Do Appreciate It.

# **ATTENTION! MOTHERS WITH BABIES**

We are very sorry that the Libby's Baby Food coupon as advertised in in our ad the past two weeks failed to show up. But we now have the promise that it will appear this week end. So please watch for it.

DON'T FORGET TO SHOP OUR COUNTER OF "SPECIAL 10c BUYS THEY WILL REMIND YOU OF PRE-WAR DAYS

# Again We Say Thanks A Million to Our Many Friends and Customers . . . .

Our business showed an increase of 12 per cent the past month over the same month a year ago. We know that your friendship to us was a contributing factor in this but we also appreciate the fact that our prices must be right to deserve this friendship. We again pledge you that we shall do our utmost to keep our retail prices down and pass any special buys that we pick up from time to time on to you. We shall not juggle our prices at any time, but rather be satisfied with a small profit on each article sold. You can come to our place and find the same prices all week or untill the wholesale market changes. Low operating cost helps us keep our prices down-
