LIVE IN HOPE

The United Nations, which we felt assured two years ago, would be an organization to guarantee peace for the world, is criticised for its inability to get an agreement and co-operation from its membership. It has been stressed that what decisions it has made, the United Nations has no "police force" to carry these decisions out, in case there is trouble. The UN has no way to enforce its laws, the critics

Two years ago there were high hopes for the success of the United Nations. Today many of us have lost some of that orinignal faith, due in a large part, to the veto power of Russia, the aggressiveness of Russia, her blocking of moves to maintain peace and work for peace among the nations. Russia's actions have struck fear in many hearts. Already they figure on another Pearl Harbor, only believing it will be Alaska this time, the aggressor being the Communists instead of the Japanese.

IN TRIBUTE

January 5 is a day in memory of a Missouri-born slave, a negro who affected the entire economy of the South, who died in 1943, honored by his own country and many foreign ones. George Washington heard of Tuskegee Institute's Research and Experiment Station. His discoveries in agricultural chemistry have brought into commercial use many products that have benefited the South. Dr. Carver, born during the Civil War, led a noteworthy life, his genius was noticable at an early age but the hardships placed in the

duction. Colds en practically ruin a whole laying season. Production may fall off 50 per cent and more within a few days after a flock and the condition may persist for several weeks.

Usually, colds result indirectly from errors in management or faulty construction in the laying house itself. When the poultry raiser permits his flock to become move damp spots in the litter, or makes no attempt to plug up cracks in the walls or to replace broken window panes - if he is guilty of all these, then he is inviting an outbreak of coryza. A cold, damp, and drafty laying house is the ideal environment for a cold epidemic. So eliminate those conditions with proper ventilation and insulation.

Once the disease has appeared the sick birds should be isolated Infected chickens at first have a nasal discharge of watery consistency; later it becomes sticky. There may be some swelling of the face, wattles, and skin of the neck. Difficult breathing and coughing may be noted. While mortality is not usually high, the birds go out of production and often become culls.

Good results are being obtained in controlling infectious coryza (colds) by using sulfathiazole products, which most poultry medicine dealers can supply. The use of inhalents or nasal washes will frequently give affected birds temporary relief by loosing congestion in the upper respiratory passages. Recovered pirds are apparently immune to the disease. However, since they still may carry the infection it is advisable to keep them sparated from younger stock.

PLEASE.

RETURN YOUR CENSUS CARD TO THE CITY HALL

You will receive a Census Card with your water and light bill.

It will take only a minute to fill it out and mail to the City Hall.

It is very necessary that a correct census of Burkburnett be taken.

Please cooperate—will you?

Cleanliness Is Health Factor

Keep your body in good physical condition, advised Dr. Geo. W. Cox, State Health Officer. While colds, influenza, and pneumonia are different conditions, all three may be brought on or made by lowered bodily resistance, and all three may often be prevented in the same ways.

When these communicable diseases are prevalent, avoid crowds as much as possible and plan your work and recreation so that you will not overtax your strength and get tired out. Be sure that the room where you are is always well ventilated. Drink plenty of water and don't let your system get clogged.

Sufficient rest, cleanliness of hands, mouth and teeth, fresh air while at work and during sleep, regulation of meals and bodily functions, wholesome food and freedom from anxiety will increase bodily resistance and help avoid contracting these diseases. One attack of cold or influenza

does not confer immunity. Individuals have been known to have several attacks during an epidemic. Segregation of the patient is desirable to avoid giving the disease to others.

If you develop symptoms of cold or influenza, consult your doctor early and follow his ad-

WEEKLY NEWS ANALYSIS-

U. S. Troops Leave Panama Bases; Anderson Lists Grain Speculators; **Nation Warned of High Price Perils**

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.)

PANAMA:

No Bases

Unanimous rejection by Panama's national assembly of a treaty which would have given the U. S. the right to lease and man 14 military and airfield sites to defend the Panama canal not only precipitated a diplomatic disaster but also left this nation in the position of a fighter without a left hand to guard his jaw. The action, strongly opposed by

Panama's President Jiminez, left the U. S. with just one alternativeo pull out-since commitments had been given that no American troops would remain in Panamanian terriory without sanction of an authorlzed treaty.

Military officials later announced hat the withdrawal of some 2,000 U. S. soldiers from the 14 bases surrounding the canal would be begun immediately. That meant, probably, that the troops would be pulled into the canal zone proper, which the U. S. leases from Panama.

This was, by all odds, the most crucial issue to arise in U. S.-Panama relations since this country purchased the canal from France in 1904. And it was aggravated by the fact that the inability to man defense bases around the canal left this most vital point in American military security dangerously exposed.

Rep. Albert Engel (Rep., Mich.), chairman of the house appropriations subcommittee on defense, stated his belief that the national assembly's 51 to 0 vote against the treaty was influenced at least in part by the Communist movement in Panama; and he suggested that the U.S. build a new Atlantic-Pacific canal outside Panama if that nation continued to refuse use of bases.

There did not appear to be much chance of further negotiations, however: the assembly's rejection of the pact probably closed the door on that course. Some officials were speculating on whether the problem might not wind up in the lap of the United Nations for solution.

SERIAL: Grain Opera

Secretary of Agriculture Clinton Anderson, at the behest of the senate appropriations committee investigating commodity speculation on the part of government officials, came through with the first installment of the "names" he had prom-

There were 711 of them - big traders in grain and other commodities. But except for the name of the man who precipitated the inves-Edwin W. Pauley, presiden tial advisor and special assistant

to Army Secretary Kenneth Royall, there were no spectacular disclosures on the list.

While there is no law against speculation, the current investigations ordered by congress stem from reports that government officials have profited from "inside" information on government commodity buying plans.

Anderson's 711-name list was the first installment in a series which the agriculture secretary will forward to the senate appropriations committee, simultaneously making each list public. An estimated 14,000 names are available for such list-

Meanwhile the senate appropriations committee, as well as a house committee, were ready to start sifting the rolls for possible irregularities and especially for leaks of inside information.

WARNING: On Prices

The President's council of economic advisers, an astute group that sometimes functions as Mr. Truman's conscience, has warned that the U. S. must return to "real | be handed the check. price competition" if the present boom period is not to collapse into a shapeless economic mess.

practices" and declared also that:

Home Again

ing the United Nations human rights session in Geneva, Switzerland, Mrs. Eleanor Roosevelt proclaimed that the commission, of which she was chairman, "did a very good piece of work." She expressed satisfaction with interest shown by all nations in the discussions of human rights, was pleased, too, with Russian cooper-

"Many industrial prices must come down at least in relation to other prices and many rates of profit must subside while reasonable profitability is established in other

This was a clarion call for a revival of the old freebooting competition in American industry.

The report surmised that the present era of prosperity was "abnormal" because of such factors as heavy exports, short crops and great military expenditures. To remedy the situation the council offered these recommendations:

Elimination of deliberate cur-1. tailment of output as practiced by some labor organizations.

Discontinuance of the practice · of big business of hampering the development of new, small busi-

3. Development of natural resources and increase in the industrial facilities of the nation.

PROPAGANDA? For UMT

Rep. Forest Harness (Rep., Ind.) has charged the army with carrying on an illegal campaign of "propaganda" in behalf of a universal mili- with him. The end of man, as the tary training law, thereby adding more fuel to an issue already destined to be superheated in 1948.

Harness, chairman of a special house investigating committee, said he would call high army officials before his group soon after congress reconvened on January 6 to answer accusations concerning the use of taxpayers' money to influence public legislation.

Said he, "I am receiving hundreds the country concerning a propa- as his adopted children. ganda pressure campaign being waged by the army for universal military training."

A recent investigation by his comthe proposed law.

Contention of the army is that it only through Jesus Christ. simply is doing everything it can to foster a sense of the need for national security among the people, and Harness had yet to prove that the army was morally wrong in that view, whatever the legal technicalities of the situation might be.

THE PAYOFF: Who'll Pay?

Economy-bitten members of the house of representatives who juggle billions of dollars with the aplomb of a high-wire performer are at a loss as to whom they can stick for a \$418 printing bill.

With the dreadful irony that sometimes appears to make an embarrassing situation worse, the bill is for a committee report on money entitled "Money Makes the Mare

The committee on coinage. weights and measures ordered the report two years ago but has since gone out of existence, hence, can't

John McBride, former clerk of the committee, drew up the report but can't be convinced he should In its annual report the council pay for it, maintaining that it wasn't sharply criticized "monopolistic his fault that it came out "a little late."

BABY RATIONING

Europe's Population Too Dense for Resources

lose no time in attempting to establish a favorable ratio of population to its feeding resources, observes Guy Irving Burch, director of the population reference bureau.

It is imperative, he said, that such action be taken before the U.S. reaches the point where it no longer can underwrite Europe's material shortages under the Marshall plan | tion or agriculture

One way to reach that favorable ratio is to increase Europe's resources. The only other way is to decrease population. Yet, Burch pointed out, many European countries are giving bonuses for larger families. Today, he said, Europe literally cannot support her dense population either by industrializa-

their strength; they shall mount up

God Our Maker

blessed promise.

"HE GIVES to all men life and breath and everything," Acts 17:25. One of our daily prayers should be to thank God that he has let us open our eyes to the beauty of another dawn. We must not take it for granted. It is the goodness and mercy of God that permits us to open our eyes, to breathe, to have food, to think. He gives us life and breath and everything.

He causes the sun to shine and the tides to ebb and flow. He causes the rain to fall and the winds to bear their blessings. He holds the earth in its course. God is the maker of every good thing.

And He Is Our Father

NOT only is God the Creator and Sustainer of the physical universe; but he is also our Father. He knows us each by name. He cares for the sparrows, simply because they are sparrows. He cares for us because we are his children, made in his image, capable of fellowship Catechism clearly teaches, is to enjoy God and glorify him forever.

Read again the passage that describes Paul's visit to Athens, and how he observed that the people, though quite intelligent, were worshipping many different gods. Paul summoned them to worship the one true and living God.

When we acknowledge God as Maker and Father, we are then enable to serve him in conscious asof letters daily from every part of surance of his love and care for us

Show Us the Father

READ again John 14:8-14, and join with Philip in the prayer, mittee, he said, had disclosed the "Show us the Father." Jesus anhiring of two civilians to tour the swered Philip, saying, "He that country addressing women's groups hath seen me hath seen the Faand making radio speeches favoring ther." We come to know God as Father through Jesus Christ, and

> Jesus goes on to say to Philip. "If ye shall ask anything in my name, I will do it." The greatest need of our day and generation is a fresh understanding of Godhis nature and his will. We can know him through Jesus Christ. And we come to know him through faith in the Lord Jesus Christ.

Enoch walked with God. Abraham was the friend of God. David was a man after God's own heart. And Jesus came to perfectly reveal the Father. The determining factor in knowing God as Father is our willingness to believe in the Lord Jesus

Belief in God Today

THE Bible is a Book for todayany day, every day. It reveals the purpose of creation, both of the universe and man himself. It reveals the loving concern of God for every soul. It portrays his forbearance and his mercy and his exceeding kindness, even to sinful men and women who reject his love.

Best of all, the Bible tells us the sweetest story ever told - the story of how God gave his only begotten Son that whosoever believeth on him should not perish, but have everlasting life.

Religion, the Christian religion, is the most practical proposition in the world. Every man is constantly in reach of God, if only he will believe on the Lord Jesus Christ. God is yonder in the loneliest watchtower of the timberlands. He is yonder on the storm-tossed ship at sea. He is everywhere, waiting to own and bless any and all who will come to him through Jesus Christ.

Thad's Feet Hurt

After a long, hard day's work on the farm, Thad's idea of how to spend an evening is to take off his shoes, and relax with a mellow glass of beer.

But his missus has other ideas. After being in the house all day, she's all for walking to the village, if it's only for a soda. Likes to see people, catch the latest gossip. But Thad says, no, his feet hurt! Began to cause unpleasantness in Thad's home.

Then Bill Webster comes up with an idea. If Thad takes the missus to

Andy's Garden Tavern, Thad can relax with his glass of beer, and the missus can also chat with all the neighbors there. Each gets his (or her) own way.

Worked, too! In fact, now the missus likes an occasional temperate glass of beer herself. And Thad finds it's pleasanter to enjoy his beer with good companions, rather than alone. In fact, his feet stopped hurting too!

OUR DEMOCRACY-

I disapprove of what you say, but I will defend to the death your right to say it.

THAT STATEMENT, ATTRIBUTED TO VOLTAIRE, EPITOMIZED THE UPSURGE OF DEMOCRATIC THINKING WHICH BURST UPON THE CLOSING YEARS OF THE 18TH CENTURY.

THAT WAS RECOGNIZED BY OUR FOREFATHERS WHEN IN THE FIRST ARTICLE OF THE BILL OF RIGHTS, THEY ESTABLISHED FREEDOM OF SPEECH AS A CARDINAL TENET OF OUR DEMOCRACY.

THE CONCEPT THAT A REPUBLIC DEPENDS UPON THE RIGHT OF THE INDIVIDUAL TO FORM HIS OWN CPINIONS. EXPRESS THEM OPENLY, HAS BEEN PROVED AGAIN AND AGAIN IN THE HISTORY AND GROWTH OF OUR DEMOCRACY.

BURKBURNETT, TEXAS

Announcement...

We have sold our business known as the City Grocery and Market to Monroe Prinzing and Truett Majors, both of whom are well known in this community. We want to assure our friends that Monroe and Truett and their employees will maintain the same high standard of service and high quality merchandise that customers have always found at the City Grocery & Market.

As for ourselves we wish to express our sincere gratitude to our many friends in and around Burkburnett who were instrumental in making our business career a successful and happy one. Since our plans are to remain in Burkburnett we hope to continue our pleasant and friendly relations with you. We want you to know that we shall not forget you, but shall endeavor to be of service whenever possible.
