MOTORIST LIABILITY

A committee of the Texas Safety Association has reommended enactment of a state law to make negligen motorists liable for damages to the injured party in a traffic accident.

Such legislation would go farther than exact pecuniary satisfaction of irresponsible drivers in favor of their victims. It also would be calculated to insure more careful driving, if the motorist prone to recklessness realized that his negligence would be costly.

The proposed Texas law would not require indemnity insurance of all motorists but proof of ability to pay for damages in event of accident. If the operator had made a false affidavit, he would then be subject to prosecution for periury.

Massachusetts is the only state that provides by law able poultry-raising season will be for traffic accident indenmity, which is proper. The Texas greatly enhanced Legislature should consider the wisdom of such protection for the law-abiding people of this state who often are victims of reckless drivers but must bear the cost of negligence in others. Making Hay

Even in these days of the atom and high-flying airplanes, "making hay while the sun shines" is still the rule! And with farm labor costs at an all-time high, farmers find the modern sweep rake a fast and economical one-man way of handling hay to the barn or stack. The rake is lowered and raised by the tractor's hydraulic system. It has an automatic unloading device and can handle more than a quarter-ton at a time.

We had a real thrill in Our Town just the other day-when the Freedom Train stopped by!

You've heard about it, of course -an actual train that's touring the country to remind us again what true Democracy means. It carries such Americana as the Declaration of Independence, the Bill of Rights, and other immortal documents that guarantee every citizen his liberty.

A great idea! And from where I sit, we're all riding along with that Freedom Train-right now-by living in a country that protects our individual liberties-whether they apply to our right to vote, to choose our church, to speak our minds, or enjoy a glass of beer with friends.

Only thing is-we've got to prove ourselves worthy of the ride ... by guarding zealously against whatever forces of intolerance encroach upon our American concepts of live-and-let-live, in a free and strong Democracy!
