Hundreds of friends gathered at the Owens and Brumley their final tribute to Frank Clement, who passed away in the Wichita General Hospital at 2:45 P. M., Thursday, March 11th. Large numbers who could not get in the chapel waited outside to pay their last respects to their friend.

The chapel was a bowery of roses, flowers, ferns and wreaths from friends expressing their love and respect for Frank, who had lived in their midst for nearly twenty-five years.

Frank Leroy Clement was born August 14, 1896, in Decatur, Texas. He grew up on a farm in the Greenwood community north of Decatur. On May 10, 1922 he was united in marriage to Miss Jewel LeFors, began a career as car salesman, being connected with the Blum Motors and Barrow-Grace Chev-

COME GRADUATION

High hopes of youth, graduating this spring, may be struck a blow by the report of a university employment service, that the job boom is over. There will be positions open, of course, but competition will be great and those with outstanding ability will find the going, easiest. The best job prospects, says the survey are in the field of public and private accounting, engineering listed as "spotty," merchandising management as fair, advertising, journalism and investment banking quoted as very poor. The young people interested in these fields, won't give up hope as this is the right of youth. Graduates of Burkburnett, have, in the past, found their niche in the business world, and have since made us proud of their ability.

GOOD FRIDAY

An important part of Holy Week is the observance of Good Friday. There will be proper services to commemorate the solemn event in Burk. Many business houses close and special church services are held. In the midst of a world beset, the true believers seek spiritual strength in the meditation of Good Friday. The faithful manifest the hope and prayer by reserving for this time the illuminiting truth that is man's salvation. Good Friday is observed in many lands. Everywhere there is tranquility and strength to be obtained from the study of the signifance of the death of Christ upon the Cross.

IT MAY WORK

They debate whether the housing shortage is as acute as stated but there is little argument that the majority of dwellings can't be had at the rental the average man can pay. This is particularly true of veterans. Whether the veterans "March on Washington" will have the desired political effect on a housing program, we can't say. However, in a presidential year, with votes in mind, the five tenants for every landlord and with 11 million veterans and their families voting next November, politicians will take note. For two years Congress has been holding hearings, appointing subcommittees, introducing bills, and the result has been an inept national housing policy. Clearing slums, rehabilitating living areas that endanger health and morals, are necessary in any successful housing project. Thru fear of losing votes, the veterans may be able to put pressure where pressure is needed.

"Golden Earrings" tells the highly romantic story of a daring, seductive gypsy, played by Miss Dietrich, and an Englishman of culture and refinement, portrayed by Milland. The role of the gypsy gives the talented actress an opportunity to show that she can emote as well as look glamorous. As the gypsy, Marlene is called upon to be ragged and unkempt, and yet to be attractive to man-of-theworld Milland . . . no mean accomplishment, but according to reports, Miss Dietrich does it believably and effectively.

SAVING MONEY THAT YOU SPENT

Such proposition sounds absurd on first thought, doesn't it? However, if you stop to think the situation over, you know that you are saving every cent you spend with your Municipal light plant.

Revenue paid into your light plant is payment for your bills, yet you are saving that amount by enjoying lower taxes, better streets,

Again you save by having the revenue remain in your home town for home town use. It is not transferred to financial centers far removed from here to benefit the already prosperous heads of holding companies.

By patronizing your Municipal Light Plant you are actually saving the money you spend.

Wage-Hour Fixing

Thurman Sensing, who directs research for the Southern States Industrial Council, Nashville, Tenn., is a man who speaks with wisdom. Sometime ago Mr. Sensing released comments on our wage and hour law, in which he predicted there would be continued agitation to fix minimum wages at high figures. I gests, that few people understand the implications of wage and hour fixing by the government.

Says Mr. Sensing: "The whole system of democracy is directly opposed to any sort of planned economy. . . . Deny it though we may, the fixing of wages by legislative action can be regarded as nothing else than part and parcel of planned economy. If the government is allowed to assume the power to fix minimum wages and maximum hours, there is nothing to keep the government from reversing this process and fixing maximum wages and minimum hours." With that, democracy flies completely out the window, Mr. Sensing de-

Real Guarantee

Everybody, he says, should have a living wage - or more - if he earns it. "But no one who believes in democracy will argue that a person should have a certain wage whether he earns it or not. Productivity comes first, not wages. The only real guarantee behind a wage in a democracy is the productivity of the person who receives the

These words are so logical and the reasoning so plain that I would like to continue with Mr. Sensing's comments. Suppose an employer couldn't pay the minimum wages set up, and had to close down. There are two choices for the government; "either the business must be taken over . . . and workers paid without any reference to the earnings of the business; or the workers go on relief and are issued a dole at the expense of the general public."

False Promises The first would be state socialism, which the people of America would never endorse willingly or knowing-"Socialism never has and never will bring the people a strong government and a high standard of living." Mr. Sensing cites state socialism in England: "Promising them greater production, it has brought decreased production; promising them a higher standard of living, it has brought them a lower standard of living; promising them happiness, it has brought them misery."

Whence Prosperity? The other alternative, says Mr. Sensing, would bring a great body of unemployed. "They are unemployed simply because the laws of the land have made it unprofitable for them to be employed. . . . They are living off the enterprise and productivity of the rest of the people. Their incentive is dulled. energy is stifled, their initiative is warped. They are drones in a free society." When the drones are too numerous to be supported by the workers, Mr. Sensing continues, the government takes over and the society is no longer free.

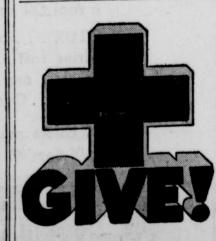

"If minimum wages fixed by the law are to make us prosperous, we might as well set the figure at one dollar per hour or two dollars per hour or five dollars per hour. . . . In a democracy the requirement must always be that the individual shall earn his wage, whether it be ten cents per hour or ten dollars per hour: moreover, that it shall be fixed by free enterprise in a competitive economy. Our whole history has shown this to be the road to prosper-

RE IMPORTANT...

Texas' lumber industry is important in many ways, to many people. Millions of cords of Texas lumber are going into the markets of the world...into housing, furniture and a host of other products that people want and need. Lumber is making jobs, paying wages and providing income to thousands of Texas people. But like other natural resources, lumber would be of little value unless it were put to use for the benefit of mankind.

Natural gas, too, would be worthless or wasted unless it were made available for use. Its importance as an efficient, low cost fuel is gained only after it is gathered, processed and transported to places where it is needed. This is the job being done by the United Gas companies. We regard it as practical conservation, for it stimulates industrial development, creates jobs and benefits every family in Texas.

LUMBER INDUSTRY

Basic products of lumber and timber in Texas in 1946 were valued at \$119,646,000. The more than 1,000 establishments in the industry employed 29,218 persons, paid salaries and wages of \$42,-548,000. The Ki Ta Wa group of the Camp Fire Girls in Burkburnett was organized January 22, 1948. Miss Mary Sue Tipps, Field Executive for Burkburnett, was instrumental in organizing this group. The first few meetings were held in the Hardin Grade School Auditorium. Since then the First National Bank has furnished a very nice room in the Bank building. In the near future, the room will be redecorated with drapes, pictures, flowers, and perhaps with more furniture.

Sponsors for the group are: W. L. Gibson, Preston Johnson, Robert James, Carl Morrison, Garland Smith, D. D. Vaughn and Fred Hunt. Faye Willhoit is the Guardian, with Mrs. Roy Foutz, assistant guardian.

It should be administered as soon as the first coryza symptoms are noted.

In the early stages of coryza, the infected chickens have a watery nasal discharge; later, this mucus becomes thick and sticky. The diseased bird's face, the wattles, and the skin of its neck are swollen. A post-mortem examination reveals that the swellings are filled with fluid. Often coryza is confined to the nasal passage and sinuses, but sometimes the windpipe and lungs are also involved. Difficult breathing and coughing may be symptoms.

While mortality resulting from this disease is usually negligible most poultry raisers fear it because it causes heavy losses in production. Among younger stock it often creates culls.

CRACK DOWN: Holy Land

It was time to get tough in the Holy Land, the British occupying army decided.

Far from showing any inclination toward peace, Palestine Jews and Arabs were carrying their civil war over the partition plan to even bloodier lengths than ever before.

Weapons and ammunition were being sold openly in the streets. Bombings grew in number and intensity. Open warfare was the virtual rule in Jerusalem. All this might be the natural result of the artificial division of a long-standing state, but the British army had had enough of it.

Force must be used impartially against both Jews and Arabs, Brig. C. P. Jones, commander of the British Jerusalem garrison, told his

In a directive he said: "Prolonged firing between Arabs and Jews within Jerusalem makes life intolerable for its inhabitants. Such disturbances will not continue. Force will be used in incidents of this kind. The army will, if necessary, use weapons more powerful than those available to Arabs and Jews." It was impossible to decide, the British announced, whether the Arabs or Jews were the aggressors.

RENUNCIATION: Southern Style

Things were not getting any better for President Truman in the Southland.

Democratic leaders of two strongholds, South Carolina and Tennesirritating civil rights program, turned thumbs down on him as the party's 1948 candidate.

At the same time the Mississippi Democratic committee voted to withdraw from the party's nominating convention in June unless it pledged itself to fight "anti-southern" laws, meaning the civil rights

Nipped by Tuck

Gov. William Tuck of Virginia received a flood of congratulatory telephone calls after he had made a speech denouncing President Truman's proposed civil rights program and asking Virginia voters to ban Truman. He requested joint session of the Virginia general assembly to keep Mr. Truman's name off the ballot next November and permit Virginia electors to choose another Democratic candidate.

The Kingdom of God Lesson for March 21, 1948

JESUS went back to his boyhood home in Nazareth, and on the Sabbath he went into the synagogue, "as was his custom," They gave him the Book of Isaiah, from which he read

a passage in the 61st chapter, adding. "This day is this Scripture fulfilled in your ears," Luke 4:21. Jesus had come

to let people know about God - to reveal the Father's perfect love for all men. He loved the

Bible, and was constantly reading it, which in his day was the Old Testament only. And he loved the Sabbath day, which we now call the Lord's day. Beginning with his resurrection, the first day of the week has been observed as the Lord's day. And Jesus loved the appointed places of worship, and was always found in some synagogue on the Sabbath. Don't you wish you might have been in Nazareth that day when he stood up to read the Scrip-

WHAT HE CAME TO DO

JESUS, I repeat, came to reveal God to men, which is but another way of saying that he came to teach men about the Kingdom of God. Here we shall need to read Mark 4:26-29, and Romans 14:17.

"The Kingdom of God is as if a man should cast seed into the ground," said Jesus; and Paul, in Romans 14:17, says, "The Kingdom of God is not meat and drink; but righteeusness, and peace, and joy in the Holy Spirit.'

Jesus, then, came to establish a kingdom within the hearts of men. It means the rule of God in human hearts. What he wills, we gladly do. It manifests itself in the daily life of the individual, in the home, in the school, in the church-everywhere.

"THY KINGDOM COME"

So VITAL is this truth for the Christian that Jesus, in the pattern prayer, teaches us to say, "Thy Kingdom come. Thy will be done on earth as in heaven."

If we live in the atmosphere of this prayer, we shall embody daily the fruits of the coming Kingdom of God. If we really "seek first the Kingdom of God, and his righteousness," we lift the level of life wherever we stand and serve. This is precisely what Jesus did. "He went about doing good."

We help to answer the prayer. "Thy Kingdom come," when we do with all our might what our hands see, brooding over the President's find to do-in the home, in the community, in the church.

. . . . KINGDOM OF GOD AMONG NEN IT IS not enough to consider this truth in terms of some far-off dramatic event. It is a present force and factor in today's world.

One day the Pharisees asked Jesus when the Kingdom of God should come. He told them that it would not come with observationthat it is within the hearts of men.

What did he mean? I believe that he meant just this, that the Kingdom of God will and must manifest itself in the common affairs of everyday life. We may hinder its manifestation. We may retard its coming. On the other hand, we may make it manifest and hasten its spread to earth's remotest bounds.

How? By yielding ourselves to the rule and reign of God in every relationship of life. In race relations, in social service, in relief to the afflicted, in united effort for peace, in better housing, in better recreational facilities, in educational opportunities for all. The Kingdom of God is not an impractical theory, but a working principle, even as the leaven works in the loaf.

WHEN WILL IT COME?

THE Kingdom of God will come I when redeemed hearts everywhere enthrone God in their whole attitude and purpose. Then, and not until then.

Will it come? This is a stubborn question. From our viewpoint, it may seem doubtful; but Jesus deciares that it will come, "I have overcome the world," he declares. The one question for you and for

Million Irishmen Attend Largest Political Meeting

Probably the largest political mass meeting in history, says Collier's, was that called at Tara, Ifeland, on August 15, 1843, to hear the Irish statesman, Daniel O'Connell, demand the repeal of the union between his country and Great Britain.

It was attended by more than 1,000,000 people, a number equivalent, at that time, to one person in every family in Ireland.

Better Health

By Dr. Geo. W. Cox

Pellagra, although not a communicable disease, is one of great concern to public health officials in Texas and other southern states. The disease is caused by the lack of certain essential foods, and as it comes on slowly, it may not be recognized until the victim begins to have the more serious symptoms such as sore mouth, stomach trouble, and reddening and scaling of the skin.

"When these symptoms appear, the disease has been present for some time," states Dr. Geo. W. Cox, State Health Officer. "The longer an individual has pellagra the early symptoms such as nervousness, indigestion, and burning of the hands and feet, and if these symptoms appear, treatment should be instituted at once. In its advanced stages pellagra may become so severe as to not only cause physical suffering but seriously affect the mind."

Pellegra is not contagious and it can be prevented entirely by including the right kinds of foods in the daily diet. These essential foods are milk, fresh meat, whole wheat products, brewer's yeast, and salmon, as well as tomatoes and other fresh fruits and vegetables. Including these foods in the daily diet will prevent pellagra, and as in the case of any disease, it is much better to prevent it than to cure it.

D. 1948, in the cause, numbered 44227-A on the docket of said cour and styled Maurine Hogle Plaintiff, vs. Ray C. Hogle De-

fendant. A brief statement of the nature of this suit is as follows, to-

After alleging jurisdiction. plaintiff further alleges that she and defendant were married on or about September 7th, 1940 and continued to live together as husband and wife until on or about the 11th day of July, 1946, when by reason of the cruel, harsh and tyrannical treatment on the part of defendant toward this plaintiff was of such a nature as to render their further living together as husband and wife insupportable; that there are no children born of this marriage and that plaintiff's maiden name was Maurine Hollingsworth:

Wherefore, plaintiff prays that the defendant be cited to appear and answer herein and that upon trial hereof she have judgement for divorce, for restoration of her maiden name, and for such other and further relief to which she might show herself en-

If this citation is not served within ninety days after the date of issuance, it shall be returned unserved.

The Officer executing this process shall promptly execute the same according to law and make due return as the law directs.

Issued and given under my hand and seal of said Court, at office in Wichita Falls, Texas, this the 4th day of March A. D. 1948. (SEAL)
