First railway train ever operated from the Atlantic to the Pacific was the trans-continental excursion sponsored by the Boston board of trade in May, 1870, one year after the Union Pacific and Central Pacific railroads were opened. The trip from Boston to San Francisco consumed eight days, and was made in pullman "hotel cars," then the newest thing in railroading. A daily newspaper, the Trans-Continental, was published en route.

The Communist government had announced that he had leaped to his death from a first, second or third-floor window (U. S. newspaper readers could choose their own version) of the foreign office in Prague.

any difference.

Death in Prague

Later reports by "highly authoritative persons" insisted that Masaryk had been murdered by Communists. An alleged "eyewitness" testified that he had seen Masaryk's body after its reported fall to a concrete pavement and that it bore no evidence that the foreign minister had died in such a manner.

Supporting the murder theory was the fact that Masaryk was reported to have met President Edouard Benes the day before his death, and the two were said to have planned something the Communists wished to prevent.

Unidentified Czech officials who have escaped from Prague reported also that President Benes was a prisoner of the Communist regime.

But whether Jan Masaryk, son of the founder of the Czechoslovakian republic, had been murdered or goaded to suicide by his intolerable position, one thing was certain: Communists had killed him just as surely as if they had put a pistol to his head and pulled the trigger.

If Masaryk took his own life it was not just because he was seeking an escape, but because it was the last service he could do for his country-throwing light, by his own destruction, on the terrible, destructive force that is commun-

Prophet Among Exiles

Lesson for April 4, 1948

THIS quarter we study the Cap-tivity and Return of the Jews, using the Books of Ezekiel, Daniel, Ezra, Nehemiah, Esther, Haggai, Zechariah and Ma-

lachi. Sunday's lesson is found in Ezekiel 1-4 and 33:1-9. It would be well for us to read again the history of this most interesting Ezekielman how he came to be among the captives by the river Chebar. He is one

of the most attractive personalities in the Old Testament - a man of surpassing culture and charm-and yet

enabled to "sit where they sat." . . .

A MESSENGER OF GOD EZEKIEL could never have adapt-ed himself to the role of min'stering to the captive slaves apart from the knowledge that he was the messenger of God - the messenger of God's hope to broken, beaten

God spoke to his people through Ezekiel. He speaks to his people today through chosen messengers -parents, teachers, the Bible, the Hely Spirit. God may be speaking to you today. . . .

HEAR YE THE WORD

EZEKIEL'S approach to the Jews in captivity was by the authority of God's direct message to them through him. Ezekiel was faithful to God's appointment and mission. He knew that what he had to say to the Jews meant their hope of re- ankle. lease and return.

He studied their plight. He studied their mood. And then he spoke to them. But not only did he speak to them, telling them what God wanted them to know, but he moved among them. He loved them.

He had God's message, and he what in God's mood of compassion. We cannot help people until we understand them and love them.

GOD'S WATCHMAN

EZEKIEL reminded the people that he had been sent from God as a watchman, and he told them what terrible responsibility was upon him in warning them to repent and return unto God. Read Ezeiel 33:1-9.

Added to the list of the world's numberless martyrs for liberty was the name of Jan Masaryk, foreign minister of Czechoslovakia, son of Thomas Masaryk who was the first president and liberator of the country.

STRIKES: Miners Widespread strikes in the nation's soft coal fields were touched

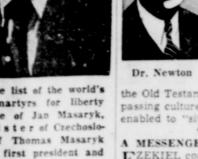

off by John L. Lewis' latest foray into the national scene, a demand for \$100-a-month pensions for his miners.

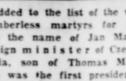

The United Mine Workers leader had asked rank-and-file "reaction" to his charge that coal operators had "dishonored" the 1947 contract by failing to grant pensions. And his miners produced the exact reaction he wanted as almost 200,000 of them in 11 states quit to support Lewis' stand at the very outset of the difficulties.

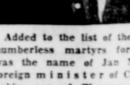

It was not a strike in the technical sense of the word. Lewis, in all his power, simply had nodded his shaggy head and his men. quick to catch the signal, walked away from their jobs.

The current mine contract does not expire until June 30, but it provides that the miners need work only as long as they are "willing and able.

Impact of the soft coal walkouts showed first in the nation's steel industry where output is threatened if the shutdowns continue for any length of time. Many of the closed mines are "captives" whose entire output goes to the" steel companies.

Washington, army planners were working late at their desks. Procurement officers were reported to be showing great interest in cement factories, since cement is strike for more pay by 100.000 vital in building underground shelters and fortifications.

Russian troops were said to be massing in eastern Germany, but no one would venture to say whether this was true bluff, a threat of retaliation to the Marshall plan and union of western Europe, or a show of force intended to influence the coming elections in Italy. But President Truman himself pre-

cipitated the worst outbreak of war fitters when he publicly proclaimed that his faith in real world peace had been shaken. In this crisis the U.S. govern-

ment was stressing these points which embodied administration policy for meeting the situation:

1. The European recovery plan should be carried out promptly. 2. The U. S. encourages forma-tion of what Marshall called a political association in western Europe as the first step toward restoring stability.

. 3. Spread of Communist govern-ments anywhere in the world, including China is opposed by the American government which will do everything in its power to block communism.

4. The U. S. will continue to work for world peace wherever possible.

Finally, any estimate of the situation must include this inescapable conclusion: Neither Russia nor the U.S. wants war now; and, more important, neither could af- crease. I once met a man who was rated as worth \$7,000,000. When we met again, he shook hands and smiled. Afterward, a mutual acquaintance said, "He likes you; that was mighty cordial for him."

Reckon a fellow who has \$7,000-000 has to be on his guard all the time to keep somebody from getting to him for a chunk of cash. A millionaire can never be sure that he is liked for himself and not for his money. That must make life a rather lonesome sort of thing.

And all this man's millions couln't save him when a locomotive struck his automobile.

MAKING HIS Mark. THE WORLD

Texas is making its mark in the cement industry, converting limestone and clays into good roads, into concrete foundations for prospering new industries, and putting them to scores of other uses that help to serve the state. But limestone and clay, in their natural state, are of little value. They must be gathered and processed into cement which is then taken to places and used where people need it.

Natural gas is another natural resource that is worthless while it is under the found. It, too, must be gathered, processed and transported to cities and towns where it can be put to use before it gains value. This is the job being done by the United Gas companies...giving importance and value to an otherwise worthless product of the earth. This is practical conservation, for it stimulates industrial development, creates jobs and benefits all the families in Texas.

Greeting:

You are hereby commanded to appear before the Honorable 30th District Court of Wichita County at the Court House thereof, in Wichita Falls, Texas at or before 10 o'colck A. M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 19th day of April A. D. 1948 then and there to answer Plaintiff's Petition filed in said Court, on the 3rd day of March A. D. 1948, in the cause, numbered 44227-A on the docket of said cour and styled Maurine Hogle Plaintiff, vs. Ray C. Hogle Defendant.

A brief statement of the nature of this suit is as follows, towit:

After alleging jurisdiction, plaintiff further alleges that she and defendant were married on or about September 7th, 1940 and continued to live together as husband and wife until on or about the 11th day of July, 1946, when by reason of the cruel, harsh and tyrannical treatment on the part of defendant toward this plaintiff was of such a nature as to render their further living together as husband and wife insupportable; that there are no children born of this marriage and that plaintiff's maiden name was Maurine Hollingsworth:

Wherefore, plaintiff prays that the defendant be cited to appear and answer herein and that upon trial hereof she have judgement for divorce, for restoration of her maiden name, and for such other and further relief to which she might show herself entitled.

If this citation is not served within ninety days after the date of issuance, it shall be returned unserved.

The Officer executing this process shall promptly execute the same according to law and make due return as the law directs.

Issued and given under my hand and seal of said Court, at office in Wichita Falls, Texas, this the 4th day of March A. D. 1948.

COTTON-SYMBOL OF THE AMERICAN WAY

The source of America's strength arises from our faith in human liberty. And the pages of history prove that man's liberty is secure only under a system of free enterprise.

The cotton farmer and the cotton industry stand as a symbol of the American way of life. For here we have the free enterprise of millions of peoplecotton growers, ginners, warehousemen, merchants, crushers, spinners-welded together by a common bond of interest. Yet each and every man is free to live and work and carry on his business without compulsion-without fear.

The American way of life shall never fail so long as we hold to our deep and abiding faith in freedom.

The American cotton industry shall never fail so long as we prove our faith in it by buying cotton products ourselves.

The message above is published by this institution in behalf of the cotton industry of surroundng counties in Texas and Oxlahoma.
