Very Important School Elections Wednesday, July 7

Wednesday, July 7, a very important school election is to be held. Or rather, two elections in one.

Recently an election was held to bring the Cashion district into the Burkburnett Consolidated district. The election carried. Now it is necessary to have an election to spread the bonded indebtedness over all the districts. The total amount is about \$30,000.00.

The second ballot to be voted on is to establish a tax rate for the district. When a new district is brought in, it is necessary to hold an election to establish a rate for the combined district.

The vote will be on a rate of \$1.50, the same as existed in the district before Cashion was annexed. If this part of the election carries, IT DOES NOT MEAN \$1.50 WILL BE THE RATE NEXT YEAR. The school board sets the rate not in excess of \$1.50. It is believed the rate for next year will be less than it was last year. The board makes out the budget, knows the total valuations and then sets the rate just high enough to meet expenses. Vote for both measures, Wednesday, July 7th at the City Hall in Burkburnett. J. V. Brookshear is judge, with Mrs. Frances Felty and Miss Bess McGinnis as assistants.

Queen Candidates For Celebration Are Announced

This year a Queen will be selected to reign throughout the Rodeo and Celebration.

Entries received thus far are: Misses Frances Crane, Beth Brookshear, Patsy Morgan and Mrs. Maxine Rankin from Burkburnett.

Miss Nancy Jones, sweetheart of the Range Riders, Wichita Falls.

Miss Veta Faye Doty, Devol.

Misses LaNell Wilson and Jo Nell Griffin, Randlett, Okla.

Misses Mignon Durrett and Norma Jean Reece, Temple, Oklahoma.

Grandfield, Iowa Park and Electra will announce their candidates later.

The method of selecting the queen will be as follows: For each rodeo ticket purchased, the buyer may vote for his or her favorite.

July 6-10 each ticket will be worth 15 points.

July 11-15 the points drop to 10 for each ticket.

July 16-20 only 5 points will be allowed on a rodeo ticket.

The purchaser votes at the time the ticket is purchased.

The winner who will be crowned queen at the first night's performance, will be announced at noon, Wednesday, July 21st.

C. A. Morgan, Louis Littlefair and G. W. Counter, Jr., compose the queen committee.

Further information may be secured from either of these men.

The First Methodist Church Completes Installation of a Beautiful Pipe Organ

The Organ Will Be Played At Both Services Sunday

The Star asked Rev. T. Herbert Minga, pastor of the church to get a story about the technical side of a pipe organ. The following interesting article is the result:

By Paul N. Haggard
Organ Builder

The grand pipe organ has been finished in the sanctuary of the First Methodist church. Installation began several months ago and occupied the time of two men to install the intricate mechanism and connect the multitude of wires and contacts that the instrument contains.

The instrument is equivalent to a twenty-seven piece orchestra in the number of tonal voices or instruments that it contains. There are approximately 500 pipes in the organ ranging from the small piccolo size of a lead pencil to the huge 16 inch lead pipes one foot square.

Many types of special metal are used in making the pipes of the organ. Since the thickness of the walls of the pipes determine the type of tone that emits from the pipe, special alloys are used for each pipe which contain various degrees of virgin tin, lead, zinc and brass.

The finest grades of ponderosa pines and other costly kind dried woods are used for the wood pipes and air chests.

Included in the installation is a new all electric Reiser relay which contains thousands of fine silver contacts and hundreds of electric magnets. When the organist plays at the console in the choir loft, she operates the electric relay and it in turn plays the organ. There are more miles of wiring running from the console and to the chests through

the relay than there is in the telephone system in Burkburnett.

The organ contains various flute tones, Tuba, Oboe, strings, diapasons, piccolo, and other tones familiar to organs and orchestras. It also has two keyboards, and one keyboard of 32 notes which is played with the feet.

Air pressure for blowing the pipes and also for moving of parts in the organ is furnished by a Spencer Orgoblo Turbine, and the instrument also has a direct current generator for furnishing its own current for the operation of the magnets in the organ and the electric impulses which run from the console to the relay. There is only a cable connected from the console to the organ.

The beautiful grill work in choir loft was made by Mr. D. M. Lowery, and varnished by Mr. Barney Fink. The motor and switch were wired in by Mr. J. M. Willingham.

It has been the writers pleasure of living and working in many churches throughout the Southwest, but we have never found more friendliness and cooperation in a church and city than we have had in Burkburnett, and Mr. Robert Shumway, my aide and myself, would like to express this appreciation, and we sincerely hope that the entire city of Burkburnett derives a spiritual lift in the installation of the new pipe organ in the First Methodist Church in Burkburnett.

Carol Ann Hageman is spending the week with her aunt and uncle, Mr. and Mrs. J. W. Finley in Dallas.

Do you know the names and addresses of any out-of-town old timers who once lived in Burkburnett? If so, call J. S. Mills or W. A. Roberts. They want to send them an invitation to attend the Celebration July 21-24.

Stores Will Close Monday, July 5

This year July 4th comes on Sunday. In order to give employees a double holiday, practically every business house in Burkburnett will be closed on Monday, July 5th.

Many Burkburnett people are planning to be out of town. The others who are going to stay in town are reminded that grocery shopping to take care of the holiday should be done Friday and Saturday.

Burkburnett Pays Military Tribute To Sgt. Wright

Funeral services with full military honors were held last Thursday for S-Sgt. William Benson Wright, 28, who died in North Africa, July 9, 1943, at 3 P. M. at the First Baptist Church.

The funeral march from the Owens and Brumley Funeral Home to the church was led by the colors, followed by the usual military formation.

Rev. T. Lynn Stewart, pastor of the church, officiated. Interment was made in the Burkburnett Cemetery. A few words were spoken at the graveside by Post Chaplain, Don McCullough and benediction was given by Rev. Stewart. The flag was presented to the family by Sgt. Sharp, who accompanied the body from Fort Worth. After firing the Salute, Taps by Red Allison was followed with the Echoes by Thomas May and Mike Harms. Cherry Lynn Koller assisted with the Drum.

Jim Frye, Hugh Morris Frye, Sam Ellis, Jr., Bill Slabaugh, Bryan Harrison, James Gellner and Pershing Gellner, boyhood friends and classmates of Benson, served as pallbearers.

Benson was born February 3, 1920 in Devol, Oklahoma and attended the Devol Schools. He entered the army July 18, 1942 and was stationed at Jefferson Barracks, Rantoul, Ill., before going overseas.

Survivors include his parents, Mr. and Mrs. Will Wright; six sisters, Mrs. Harold Landis, Devol; Mrs. Sam Crone, Mangum; Mrs. Albert Lemme, Borger; Mrs. Roy Hannah, Birmingham, Ala.; Mrs. Hershel Warren, Devol; and Mrs. W. Elrod, New Orleans, La.; three brothers, John of California; Judson Lee, at home, and Martin of Abilene. All were here for the services.

Rodeo Committees To Meet With C-C Directors Thursday

Since next Monday will be a holiday, the regular meeting of the Rodeo committees and their workers has been postponed to Thursday noon. The Rodeo workers are asked to meet at Town Hall at noon for a luncheon with directors of the Chamber of Commerce.

All directors are asked to remember the noon luncheon, also. C. A. Morgan, general chairman of the Rodeo, is very anxious that a big turn out of his helpers be present. The time is short and the work will be heavy from now until the show is opened July 21st.

Ball Game Here Sunday Afternoon

The ball club from Addington, Oklahoma, will come to Burkburnett Sunday, July 4th to meet the local team at the High School field.

The game starts at 3 P. M. It promises to be a good one, be there.

Okla. Ramblers Coming Monday

Monday night Bill Grubbs and all the Oklahoma Ramblers will appear at Town Hall under the auspices of the Burkburnett Volunteer Fire Department. The show, scheduled for last Monday night, was rained out.

The show will feature 350 lbs. of "meatless Tuesday" comedy, with stars of stage, radio and recording.

Tickets are on sale by all Firemen.

Parade Prizes Listed at C. of C. Meeting Monday

At a meeting of Rodeo committees Monday night, the following reported: C. A. Morgan, general chairman; Ray Hill, J. S. Mills, R. P. Thaxton, Harry Dodson, Geo. Counter, Jr., Leo Dudley, Will Teal, J. V. Brookshear, Tom Boyd, Jess Hageman, Louis Littlefair, P. A. Wiggins and A. A. McGinnis.

Numerous actions were taken, among those the setting of the prize money for various Parade events. Riding Clubs, Floats and the best pioneer entry will be awarded cash prizes.

The best dressed cowgirl and best dressed cowboy, both senior and junior will be awarded appropriate prizes.

Prizes were also set aside for the Kiddies Parade which will be held Saturday, the final day. B. H. Preston, Will Teal and Hugh Preston were added to the Parade committee to assist Pappy Willis, general chairman, who has moved out of town but will continue to work on the Parade.

All committees seem to be functioning on schedule. Those who could complete their arrangements have already done so. Others will have to work on through the four days' celebration.

Louis Littlefair, C. A. Morgan and Geo. Counter, Jr., volunteered to head the Queens' committee. Details of the contest appear in this week's Star.

Rotary Club

There was no meeting Tuesday noon due to the joint meeting of the Lions and Rotarians for a chicken barbecue at the City Park Tuesday night. A large number of Rotarians were present for the feed.

Herb Story and John Mouser of the Wichita Falls club were visitors.

Next Tuesday noon, Woody Carter will bring the program.

SUPERVISOR VISITS HOMEMAKING CLASS

Miss Esther Sorenson, Area Supervisor of Homemaking Education of Lubbock, recently visited the Burkburnett department, under the direction of Mrs. Pauline Slater. She also visited two local projects, that of Georgia Hrazdil and Wanda Ludington.

Miss Sorenson was well pleased with the work the girls are doing, especially was she impressed by the Nursery school which was undertaken by the summer class.

Mrs. Dora Davis, Seeks Promotion To County Clerk

Mrs. Dora Davis, a resident of Wichita County for 30 years and chief deputy in the County Clerk's office for the past 16 years, issues her formal announcement for County Clerk as follows:

"The office of County Clerk, I believe, is one of the most important offices in the county. I began at the bottom of the ladder as a deputy and I know from experience what Wichita County must demand of its County Clerk.

First Time to Seek Office

This is my first time to ask for a public office and I am asking for this promotion solely upon my service as a deputy, my proven ability to handle the job and because my present job will expire on Dec. 31, 1948 and I will need it for support, as I have no other job or income on which to rely.

As a deputy, I have tried to serve you as efficiently and conscientiously as possible, regardless of the hour, ever respectful to the dictations of my employer. I have tried hard to merit this promotion. As to the service I have rendered as a deputy, I refer you to any of the many patrons whom I have served in that office.

Serves Taxpayers

If I am promoted to County Clerk by the voters of Wichita County, I shall endeavor to make the best officer possible, giving my concentrated efforts to the duties of the post, and serving with fairness to all. I shall be ever mindful that the office belongs to the good people of Wichita County and not to me, that I am only a servant of the tax payers and custodian of the office for a while. I shall employ the most efficient help to be found among the sons and daughters of the tax payers of the county, both veterans and civilians. I shall operate the office in an economical manner so that it will not be a burden, but a source of revenue to the County. The experience and judgment gained by having served there enables me to know how expenses can be kept to a minimum and I need no training at the expense of the tax payers to fill this important place and I will make a regular hand.

Son In Service

I had one son in the service. It was my pleasure and duty to serve the veterans 24 hours a day during the war. My home has been a "sub-station" for marriage license and my living room a veritable altar for weddings at all hours. I added my efforts to thousands of others in defense of home and country.

A Tax Payer

I have been a tax payer in Wichita County for 24 years, paying taxes on my home which is the only property that I own. Being a widow, paying for a home, and assuming sole responsibility of my family has not been easy to accomplish on the salary I received. It meant caring for a sick child and doing household chores early and late and the foregoing of most pleasures and recreation which meant spending money, but I met my obligations then, as now, regardless of that very limited income.

As a citizen, I have tried to have a part in worth while activities that go into community building and live so that my influence would be creditable. I exercise every effort to help my fellow man on this journey through life. You are invited to investigate my record, from any angle, it is an open book.

I shall try to solicit your vote personally; if I fail, please consider this my earnest plea for your support. If you promote me to the office of County Clerk, I shall always be grateful to you, THE VOTERS OF WICHITA COUNTY, for the trust and confidence placed in me."

Mrs. Davis has been an active member of the First Baptist Church and of the church choir for 20 years. She is the recently elected State President-elect of the Business and Professional Women's Club, Inc., and first vice-president of the American Legion Auxiliary, Pat Carrigan Post. She holds offices in other worth while organizations and always lends her support to any movement sponsored for the good of the community.

THE SCANDINAVIAN COUNTRIES

There are millions of descendants of immigrants from Norway, Sweden and Denmark living the life of Democracy in the United States. All of these people may well feel proud of the efforts in behalf of peace made by their Mother countries. Naturally that is to be expected from Scandinavians in America—who, as a whole stand at the very top among the best people in our broad land.

Only One-Third of Passenger Ships Remain

There has been a renewal of gabby talk in favor of Congressional legislation to help steamship companies construct new passenger liners for American flag operation.

There are less than one-third the number of passenger ships than there were before the war.

Ship owners talk about building new boats. "Talk is cheap." Every once in a while the New York newspapers devote big headlines to the return of shipping.

Even Britain doesn't make that old familiar boast! "Britannia rules the waves." Our own situation is shameful.

JULY FOURTH

So many will be killed or maimed in traffic accidents, so many will be drowned, so many burned due to explosives, that the aftermath of the Fourth of July dims somewhat the true purpose of the yearly holiday. The risks endanger the spirit of independence, the treasure of fixed rights and privileges, the security of liberty. These are principles to be guarded as we guard our lives, advantages to be enjoyed as we should enjoy the pleasantness of the vacation and summer outing, in safety. The loss of them would be a worse disaster than all the traffic fatalities, drownings, burnings, in American history. The risks of the Fourth are not only personal, they are national. Independence means living our lives as we like, to worship God as we like, to share in the government of our land, to preserve the freedom that those who have gone before have pledged us. There is physical danger in the celebration of the holiday. We realize it and in Burkburnett do our best to safeguard against accidents. There is a moral danger in taking the rites of the Declaration as secure. The record for ourselves and our descendants would be added tragedy and a national holocaust if we did not recognize the unalienable rights, unless we protect them, guard our blessings of liberty with endless labor, with unceasing watchfulness.

The Fourth of July reminds us that this roof over

our heads requires repair now and then, needs care and constant tending to protect the structure. As we consider the complicated world in which we live, in stormy times, in times of serenity, we know the value of vigilance. Reading Preferences
Librarians report a great demand for travel books. South American countries usually are high on the list of desired places to visit. While war action lies practically untouched on library shelves, historical fiction is widely read, both old and recent titles. Novels concerned with race and social problems are much in demand. Movies, as always; bring a flood of requests for the book which has been filmed.

Electric Fence May Kill; Safety Precautions Listed
Electric fences take their toll of human lives every year. Most victims are children. Also, many animals are killed. Listed below are some of the safety rules recommended by the National Safety Council.

Do not use home-made electric fence controllers; they are not safe. No fence should be energized from any electric source except through an approved controller, one that meets the safety standards of a recognized agency. It is important that the controller is properly installed with good ground and lightning protection. Do not tamper with the controller. If it needs servicing return it to the manufacturer or have repairs made by a factory-authorized representative. Teach children not to tamper or play with an electric fence. Avoid locating an electric fence where the charged wire and a good ground such as a pipe line, pump, stock tank, pond, irrigation ditch, or other normally wet ground can be contacted at the same time. Identify electric fences, especially those near buildings, property lines, or roads with prominent signs. Provide insulated gate grips for opening and closing gates.

Miss Cherry Mixon Weds Rex L. Lane In Ceremony at Amarillo June 6th

Before an altar banked with palms and pink and white gladioli, Miss Cherry Mixon, daughter of Mr. and Mrs. C. H. Mixon, 403 North Buchanan, Amarillo, Texas, exchanged nuptial vows with Rev. L. Lane in an impressive mid-afternoon ceremony performed in the First Baptist church Sunday, June 6.

The bridegroom is the son of Mr. and Mrs. L. N. Lane, Burkburnett.

Rev. J. D. Horton read the marriage at 3 o'clock. Before the wedding, L. Quinn, organist, accompanied Miss Karleene Horton as she sang "O Promise Me" and "Because." He also played "Clair de Lune" and the traditional wedding marches.

Mrs. Tommy Evans, matron of honor, wore a blue satin and net gown, and carried a nosegay of early summer flowers. Attired in gowns of a variety of pastel shades, the bridesmaids wore flower-halos of white daisies.

The bridesmaids were: Misses Laura Davis, Dorothy Johnson, Mary Ann Todd, and Iris Mixon, sister of the bride. Miss Margaret Ann Mixon, gowned in pink taffeta and net, served as flower girl, scattering rose petals from a tiny white basket.

Best man was Richard Mixon, brother of the bride; and groomsmen were Beauford Hill, Billy Baland, Dean Oldfather and Tommy Evans.

Given in marriage by her father, the bride was lovely in a creation of white satin, fashioned in princess style with a sweetheart neckline, a long train and fingertip veil. Her jewelry was a rhinestone necklace, and orchids composed her bridal bouquet.

For her daughter's wedding, Mrs. Bobby Ivey left Saturday for Seagraves to visit her mother.

Mrs. Bennie Mc Donald Entertained

The home of Mrs. Hugh Preston was the scene for a lovely pink and blue shower Thursday night, June 24, honoring Mrs. Bennie McDonald.

The party rooms were gaily decorated with various colors of gladioli. Alice Milikin sang "Little Man You've Had a Busy Day, accompanied by Janice Vincent at the piano. Mrs. R. L. Gragg gave a reading and cleverly presented the gifts to the honoree.

Punch and cookies were served, with Miss Ella Billingslea and Mrs. Dan Hofack presiding at the punch bowl. Approximately thirty guests registered during the evening.

Sharing the duties of hostess with Mrs. Preston were Mesdames J. D. Majors, Harry Mayes, R. L. Gragg, Sid Gambelin, Louis Littlefair, J. T. Brady, Loma Henson, G. D. Stacy, Dow Estes, P. A. Wiggins, R. H. Henry, H. D. Smith, Betty Burns, R. J. Fields, Cris Morris, Jack Northcott, Dan Hofack, Al Ragsdale, Carl Day, Neva Jo Ott, J. N. Hicks, M. C. Tucker, D. A. Westbrook, and Misses Nell Gibson, Miss Crystle Waddell, Miss Ruth Carroll, and Misses Ella and Annie Billingslea.

Gifts from the hostesses were a baby bed and baby Chester-Wardrobe.

Celebrate Wedding Anniversary

Mr. and Mrs. W. S. Hill of Burkburnett and Mr. and Mrs. C. R. Jones of Archer City celebrated their 18th wedding anniversary June 28 at the home of Mr. and Mrs. Hill.

Their daughters surprised them with a fried chicken dinner. Table decorations were of pink and blue.

Church Honors Mrs. Matthews

On Tuesday of this week, Mrs. J. M. Matthews was honored on her birthday with a surprise card shower and lovely gifts from the members of the Church of Christ. This gift was in appreciation of the service she has rendered for the past several months as reporter for the Church Bulletin.

Besides this, she received a beautiful cake, other gifts, letters, cards and flowers which all together made it a very happy day for her.

McGuigan-Lincoln Marriage Announced

In a beautifully simple home ceremony the marriage of Miss Leah Louise Lincoln and M. J. McGuigan, Jr. was solemnized late Saturday afternoon, Dr. W. B. Slack, minister of the Floral Heights Methodist Church at Wichita Falls, officiated at the services which took place at the home of Mrs. C. P. Sanders with whom the bride has been residing. The young lady, daughter of Mr. and Mrs. R. A. Lincoln of Burkburnett, and the groom, son of Mr. and Mrs. M. J. McGuigan, are both well known in Wichita Falls and Burkburnett.

The fireplace of the Sanders' home provided the nuptial space before which the couple recited their vows. Palms framed the fireplace on each side, and a mantel display of white gladioli completed the decorations.

Miss Joza Lou Bullington, pianist, provided prenuptial music which consisted of "Nocturne, Opus 9, No. 2," by Chopin, "Clair de Lune" by Debussy, and "Poem" by Fibich. Wagner's professional also was played by Miss Bullington.

The bride, given in marriage by her father, R. A. Lincoln, chose for her wedding an attractive dusky pink faille suit, worn with a white lingerie blouse. A smart pink feather hat, white gloves and other accessories of white completed her costume. In her shoe she also wore the traditional sixpence, a gift of Lester Jones. Her bouquet of white roses with ribbon streamers was carried atop a white Bible.

Attendants

Attending the bride and groom were Miss Norma Ruth Lincoln of Burkburnett as maid of honor and Ralph W. Morgan, Jr., acting as best man. Miss Lincoln's dress was of aqua crepe designed with a scalloped bertha collar. She complemented her costume with white accessories and carried a bouquet of white roses.

The bride is well known in Wichita Falls circles, having received her education there. The

groom holds a degree in nautical engineering from M College at College and now is connected with the Aircraft in their home.

An informal reception held immediately following the wedding. The refreshments were covered with a fine cloth, was impressively decorated with a long train piece of white carnations was scalloped from the table and caught in the intervals with nations. Mrs. Ralph W. Jr., presided at the punch bowl, while the cake and bride's

Miss Patsy Payne and Mrs. Keenan respectively. Mrs. H. T. Lovelace, the bride, from Okla., an out-of-town guest wedding.

O. E. S. Study Met June 22nd

A meeting was called for the purpose of electing officers of the O. E. S. Study of the ensuing year.

Mrs. Florence Vance elected president; Mrs. Evans, vice-president; Mrs. Mayes, secretary; and Mrs. Garland reporter.

The primary aim for is to promote a broader understanding of the chapter's ritualistic teachings, and by-law A and B-teachers will be at a later date.

It is customary that select a project to finish year. Members are given thought to their plans and turn their suggestions to Mrs. Vaughn Mayes so that they may be mitted and voted upon body at the next meeting, 13th.

Mr. and Mrs. Scott are the proud parents of daughter born last week at Wichita Falls hospital.

Customs Officers Use Mirrors for Smuggler Search

NEW YORK—Day and night, squads of armed men carrying flashlights and pocket mirrors swarm aboard ships entering New York harbor.

The alert, eagle-eyed men of the United States customs enforcement division don't carry the glassware from milady's bag to use in combing their hair or preening their features. Pocket mirrors are standard equipment in the grim, unrelenting war on narcotic smuggling.

Placed strategically, a mirror shows up what may be ingeniously hidden behind a lavatory washbowl, a seaman's bunk, or in the machinery of the ship's intricate engine room.

Volume of these customs officers has paid off handsomely. In the last year they've confiscated contraband drugs valued at several million dollars in the illicit market, said Harry M. Durning, United States customs collector for the New York port.

N.Y. a "Hot" Port

New York, in law enforcement parlance, is a "hot" port—about the hottest in the world.

International smugglers have renewed efforts to penetrate port surveillance with narcotics for American dope peddling rings. History, said veteran port officials, is repeating itself. A postwar resurgence of narcotic smuggling is comparable to the one after World War I.

Collector Durning attributes the alarming increase to a breakdown of prewar safeguards abroad, worldwide unrest and unsettled economic conditions and the age-old desire for quick, high profits.

In tightening their vigil against smuggling, customs officers pay particular attention to all ships coming from French and Mediterranean ports. That's where, they said, most shipments of illicit drugs originate.

Ships from Britain and Ireland, the officers said, seldom figure in drug smuggling. Always suspect, however, said Herman Lipski, chief of the United States customs enforcement division, are vessels coming from Naples, Genoa, Marseille, Le Havre and Antwerp.

Seize Big Catch

Lipski's men recently scored their biggest catch of the year when they discovered narcotics valued at one million dollars secreted about a ship from Le Havre.

One bundle of drugs was found in the ship's galley at the bottom of a full barrel of flour. Another batch, encased in a waterproof bag, reposed in a soup tureen full of water. Other packages were discovered inside the lining of the ship's oven and in a box of sea biscuits.

Another recent haul came when shore patrol officers under Durning raided the basement of a dingy water front tenement. They found 36 ounces of narcotics and complete equipment for testing, diluting and preparing drugs for illicit sale to addicts.

In a drainpipe in the basement they found \$18,000 in cash and a pistol. From a man caught fleeing the basement they confiscated four more ounces of drugs. Total value of the catch was placed at \$200,000.

Mr. and Mrs. Girard Van Barakaloo Hale of Santa Barbara, Calif., "adopted" the war-ravaged French village of Maille in 1946, subsequently sent 12,000 gifts of food and clothing to its inhabitants. Now they've gone to Maille to receive the personal thanks of the 366 persons whom they shepherded through the hard years.

AID CASH; And Politics

Although its funds were still in a state of confusion as a result of a combination of congressional economy and GOP political machinations, the economic cooperation administration nevertheless managed to toss off the biggest bundle of foreign relief cash so far.

Paul G. Hoffman, ECA administrator, approved the assignment of \$95,610,805 for 10 European countries, including Trieste, and China. The action brought total Marshall plan authorizations from available funds to \$393,737,029.

Countries sharing in the new approvals were Great Britain, The Netherlands, France, French zone of Germany, Austria, Denmark, Italy, Norway, Greece, Trieste and China.

The assignment of almost 96 million dollars in foreign aid funds served to point up the squabble set off in congress when the house voted to spread the recovery funds over 13 months instead of 12, thereby producing the effect of slashing aid appropriations by one to two billion dollars.

While the senate restored the appropriations cut, many U.S. leaders were gravely worried about another possible significance of the house action.

Theory was that the house, by cutting ECA appropriations, demonstrated that Republican organization bosses are determined to fight, and reverse if possible, the line of foreign policy represented by the Marshall plan.

It was thought to be part of a larger plan to gain control of the Republican party and to defeat the new postwar GOP leaders—Vandenberg, Dewey, Stassen and Warren—by chipping away the cornerstone of the foreign policy they all profess.

The situation had the outward appearance of chaos, but behind it lurked the business of playing election year politics while permitting the rest of the world to go hang.

MIDDLE INCOME: That's \$2,920

Any American family which could add up the wages it received in 1947 and get \$2,920 for the total had earned a "middle income," according to the way the federal reserve board has it figured out.

That "middle income," up \$320 from 1946, incidentally, means that half of all the 42 million U.S. families made more than that while the other half made less.

About 69 per cent or 28,980,000 families had a joint income of \$2,000 or more last year. By contrast, in the mid-1920s fewer than 6.6 million families had incomes at that level. But a dollar bought considerably more then than it does now.

Twenty-one out of each 100 families rated incomes above \$5,000 in 1947, while eight of that group got more than \$7,500 a year.

However, not all were in the top money. Of each 100 families 13 had incomes under \$1,000 and another 18 earned between \$1,000 and \$2,000. But even many of the well-to-do were unhappy about the whole thing. They felt that they were becoming worse off financially because of the high cost of living.

According to the federal reserve board's sample survey, those persons who own their own business or manage somebody else's earn the most money. Middle income for families headed by "a managerial or self-employed person" was \$4,500.

Next on the list were professional workers with a middle income of \$4,000. Skilled and semi-skilled workers followed with \$3,000, clerks and salespeople with \$2,900 and unskilled workers with \$1,800.

Weigh Your Words?

Scientists with a will to weigh have developed at the Rahway, N.J., Merck institute for therapeutic research a scales so incredibly delicate that it records the weight of a puff of air from a single wave of the hand.

The scales are being used to weigh potent new drugs and also to weigh the energy spent by animals placed under the influence of medicinal drugs.

Micahiah, A Prophet of Israel
Lesson for July 4, 1948

WE BEGIN a new series of studies this quarter—a series of lessons based on less known Bible characters that have much to offer us. Such a character is found in Micahiah, about whom we learn in 1 Kings 22:1-40.

Ahab, king of Israel, planned an expedition to recover the city of Ramoth in Gilead, which the Syrians had taken. He invited Jehoshaphat, king of Judah, to join him. Ahab relied upon his court prophets to predict victory; but Micahiah, the prophet of God, whom Ahab had shut up in prison, when he was summoned, at the insistence of Jehoshaphat, told Ahab the truth—the unpleasant truth—which subsequent events verified.

BRAVE ENOUGH TO TELL THE TRUTH
THE first blessing in the study of this obscure Bible character, Micahiah, is to discover a man who was brave enough to tell the truth when he knew it was unpopular. It is always the best policy to tell the truth, though there be many in today's world who deny this principle. It is not enough to say that we will tell the truth because it pays. That is true, but it is a by-product of doing what is right. One must tell the truth because it is right to tell the truth. Men swear with their hand upon the Holy Bible that what they testify is the truth and nothing but the truth. But, alas, such men often tell anything but the truth. They have been carefully coached to evade the truth.

Micahiah told the truth, because he was speaking for God. It hurt him, but it must needs be the truth he spoke to Ahab.

TRUTH DISREGARDED
Ahab scorned the words of Micahiah, and ordered him thrown back into prison. But scarcely had the prophet of God been thrust again into prison, until Ahab was bleeding to death in his chariot.

Men not only take their own lives in their hands when they disregard the truth, but, like stubborn Ahab, they bring grief to countless others. Had Ahab heeded the words of truth which Micahiah proclaimed, Ahab might have lived. Indeed, had Ahab heeded the words of truth, he might have recovered Ramoth, and more besides.

Truth may appear forever on the scaffold, wrong forever on the throne, but time always proves a hard taskmaster to the man who regards wrong instead of truth.

THE SOURCE OF TRUTH
GOD is the source of truth—all truth. If we miss this, we miss the lesson of the lesson. Note the words of the golden text, "As the Lord liveth, what the Lord said unto me, that will I speak," said Micahiah.

Let us remember that it was God speaking through his prophet, Ahab could not have doubted that Micahiah was speaking what God had told him to speak. But Ahab did not want to hear the truth. He wanted to hear pleasing words that would encourage him in his evil plan.

God speaks the first and the last word on every subject, because God is truth "I am the truth," said Jesus. And he went on to say, "Ye shall know the truth, and the truth shall make you free."

THE PENALTY OF DISOBEYING THE TRUTH
HORRIBLE, indeed, was the penalty which Ahab suffered for disregarding the truth. The way of the transgressor is hard—always hard. The wages of sin is death. Be sure your sins will find you out.

Take down your cherished books of history. What do they say to you? That the straight line of truth is the only safe way in which to walk. It is applicable for the individual, for the family, for the community, for the nation, for civilization.

Thus every great prayer must be, "Thy will be done." God's will is the way of truth. Micahiah declared it. Every true prophet must declare it. It is the only way to peace and joy in this world.

On Believing
All over the world now there is a reaction from the superficial talk that it does not make much difference what a man believes. We have learned our lesson. What a man believes makes a world of difference not only in what he does, but what happens to him.

Build It From A Pattern

Live Out Of Doors! No Need To Break Your Budget Obtaining Attractive Lawn Furniture
By DONALD R. BRANN

Make your porch, terrace or lawn an outdoor living room — turn your backyard into a picnic ground. You'll be agreeably surprised to see what fun dining out can be. Food takes on an added zest when flavored with the thrill of a picnic.

You can build wonderful pieces of lawn furniture at very low cost. The set illustrated above was built from patterns. These patterns take all the mystery out of woodworking. Each shows the full size, shape and length for cutting each part. Wherever two parts are fastened together, the exact location is indicated on the pattern.

Making a home is traditionally American. The strength of the country rests on the people who have built a home for themselves and their families. Building lawn furniture or any other home equipment is not difficult. You can do it if you try. Each pattern is designed so that no special tools or skill are required. Build this lawn set for immediate use. You'll save money and have fun building it. All materials pattern specifies are stock size and readily obtainable at lumber yards everywhere.

STOP USING HARSH LAXATIVES
Try Lemon in Water - it's good for you

The juice of a lemon in a glass of water, when taken first thing on arising, is all that most people need to insure prompt, normal elimination. No more harsh laxatives that irritate the digestive tract and impair nutrition! Lemon in water is good for you!

Generations of Americans have taken lemons for health—and generations of doctors have recommended them. They are rich in vitamin C, supply valuable amounts of B₁ and P. They alkalize, aid digestion.

Not too sharp or sour, lemon in water has a refreshing tang—clears the mouth, wakes you up. It's not a purgative—simply helps your system regulate itself. Try it 10 days. USE CALIFORNIA SUNKIST LEMONS

That Nagging Backache
May Warn of Disordered Kidney Action
Modern life with its hurry and worry, irregular habits, improper eating and drinking—its risk of exposure and infection—throws heavy strain on the work of the kidneys. They are apt to become tired and fall to filter excess acid and other impurities from the life-giving blood.
You may suffer nagging backache, headache, dizziness, getting up nights, leg pains, swelling—feel constantly tired, nervous, all worn out. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.
Try Doan's Pills. Doan's help the kidneys to pass off harmful excess body waste. They have had more than half a century of public approval. Are recommended by grateful users everywhere. Ask your neighbor!

A General Quiz

- THE QUESTIONS**
- When was the first professional game of football played?
 - Who formulated the principle of the parachute as long ago as 1495?
 - A viva voce vote is taken how?
 - Can people become immune to snake bites?
 - Where did the American Indian originally come from?
- THE ANSWERS**
- In 1895 at Latrobe, Pennsylvania.
 - Leonardo Da Vinci, who is remembered mostly for his painting, but who was also a great scientist.
 - Orally.
 - Yes. The famous Australian snake expert, August Eichorn, allowed himself to be bitten by snakes hundreds of times for exhibition purposes. He finally died at the age of 87 as a result of blood poisoning caused by a barbed wire scratch.
 - Most scientists agree that the American Indian probably originated in Siberia.

FARM FACTS WORTH KNOWING

Q. How much floor space do broil-
ers need?

A. There should be one square foot
of floor space per chick when no
outside yards are used. When out-
side yards are available, slightly less
house space will be necessary. Broil-
er raisers have found that it pays
to give the birds plenty of room.
Where the chicks are crowded, mor-
tality and vices increase, and growth
decreases.

Q. How important is pasture in
raising hogs?

A. Although fine hogs can be
raised without pasture, authorities
are agreed on the advantages and
great economic value of good hog
pastures. Green pasture is one of
the best and cheapest sources of vi-
tamin A as well as other essential
nutrients and is a big factor in
maintaining the health and breed-
ing efficiency of the hog herd and
a producing rapid and economical
gains. The use of good pasture re-
sults, too, in an important saving of
grain.

Q. Do dairy goats need browse?

A. No. An experiment at the Re-
search Farm of the Ralston Purina
Company clearly indicates that
browse does not supply any factor
or factors necessary for milking
goats that may not be supplied by
alfalfa hay and grasses fed with a
properly balanced grain ration.
Dairy goats relish browse but do not
require it.

Q. How much range do turkeys
need?

A. It is generally recommended
that 100 turkeys up to 16 weeks of
age have one-half acre of land, with
an additional half acre from 16
weeks to market. The requirements
will vary, however, with the type of
soil, topography, crop grown, weather
conditions, presence or absence of
disease, etc.

Customs Officers Use Mirrors for Smuggler Search

NEW YORK.—Day and night, squads of armed men carrying flashlight and pocket mirrors swarm aboard ships entering New York harbor.

The alert, eagle-eyed men of the United States customs enforcement division don't carry the glassware from milady's bag to use in combing their hair or prettifying their features. Pocket mirrors are standard equipment in the grim, unrelenting war on narcotic smuggling.

Placed strategically, a mirror shows up what may be ingeniously hidden behind a lavatory washbowl, a seaman's bunk, or in the machinery of the ship's intricate engine room.

Vigilance of these customs officers has paid off handsomely. In the last year they've confiscated contraband drugs valued at several million dollars in the illicit market, said Harry M. Durning, United States customs collector for the New York port.

N.Y., a "Hot" Port
New York, in law enforcement parlance, is a "hot" port—about the hottest in the world.

International smugglers have renewed efforts to penetrate port surveillance with narcotics for American dope peddling rings. History, said veteran port officials, is repeating itself. A postwar resurgence of narcotic smuggling is comparable to the one after World War I.

Collector Durning attributes the alarming increase to a breakdown of prewar safeguards abroad, worldwide unrest and unsettled economic conditions and the age old desire for quick, high profits.

In tightening their vigil against smuggling, customs officers pay particular attention to all ships coming from French and Mediterranean ports. That's where, they said, most shipments of illicit drugs originate.

Ships from Britain and Ireland, the officers said, seldom figure in drug smuggling. Always suspect, however, said Herman Lipski, chief of the United States customs enforcement division, are vessels coming from Naples, Genoa, Marseille, Le Havre and Antwerp.

Seize Big Catch
Lipski's men recently scored their biggest catch of the year when they discovered narcotics valued at one million dollars secreted about a ship from Le Havre.

One bundle of drugs was found in the ship's galley at the bottom of a full barrel of flour. Another batch, encased in a waterproof bag, reposed in a soup tureen full of water. Other packages were discovered inside the lining of the ship's oven and in a box of sea biscuits.

Another recent haul came when shore patrol officers under Durning raided the basement of a dingy water front tenement. They found 36 ounces of narcotics and complete equipment for testing, diluting and preparing drugs for illicit sale to addicts.

In a drainpipe in the basement they found \$18,000 in cash and a pistol. From a man caught fleeing the basement they confiscated four more ounces of drugs. Total value of the catch was placed at \$200,000.

AID CASH: And Politics

Although its funds were still in a state of confusion as a result of a combination of congressional economy and GOP political machinations, the economic cooperation administration nevertheless managed to toss off the biggest bundle of foreign relief cash so far.

Paul G. Hoffman, ECA administrator, approved the assignment of \$95,610,805 for 10 European countries, including Trieste, and China. The action brought total Marshall plan authorizations from available funds to \$393,737,029.

Countries sharing in the new approvals were Great Britain, The Netherlands, France, French zone of Germany, Austria, Denmark, Italy, Norway, Greece, Trieste and China.

The assignment of almost 96 million dollars in foreign aid funds served to point up the squabble set off in congress when the house voted to spread the recovery funds over 13 months instead of 12, thereby producing the effect of slashing aid appropriations by one to two billion dollars.

While the senate restored the appropriations cut, many U.S. leaders were gravely worried about another possible significance of the house action.

Theory was that the house, by cutting ECA appropriations, demonstrated that Republican organization bosses are determined to fight, and reverse if possible, the line of foreign policy represented by the Marshall plan.

It was thought to be part of a larger plan to gain control of the Republican party and to defeat the new postwar GOP leaders—Vandenberg, Dewey, Stassen and Warren—by chipping away the cornerstone of the foreign policy they all profess.

The situation had the outward appearance of chaos, but behind it lurked the business of playing election year politics while permitting the rest of the world to go hang.

MIDDLE INCOME: That's \$2,920

Any American family which could add the wages it received in 1947 and get \$2,920 for the total had earned a "middle income," according to the way the federal reserve board has it figured out.

That "middle income," up \$320 from 1946, incidentally, means that half of all the 42 million U.S. families made more than that while the other half made less.

About 69 per cent or 29,890,000 families had a joint income of \$2,000 or more last year. By contrast, in the mid-1930s fewer than 6.6 million families had incomes at that level. But a dollar bought considerably more then than it does now.

Twenty-one out of each 100 families rated incomes above \$5,000 in 1947, while eight of that group got more than \$7,500 a year.

However, not all were in the top money. Of each 100 families 13 had incomes under \$1,000 and another 18 earned between \$1,000 and \$2,000. But even many of the well-to-do were unhappy about the whole thing. They felt that they were becoming worse off financially because of the high cost of living.

According to the federal reserve board's sample survey, those persons who own their own business or manage somebody else's earn the most money. Middle income for families headed by "a managerial or self-employed person" was \$4,500.

Next on the list were professional workers with a middle income of \$4,000. Skilled and semi-skilled workers followed with \$3,000, clerks and salespeople with \$2,900 and unskilled workers with \$1,800.

WEIGH YOUR WORDS?

Scientists with a will to weigh have developed at the Rahway, N.J., Merck institute for therapeutic research a scales so incredibly delicate that it records the weight of a puff of air from a single wave of the hand.

The scales are being used to weigh potent new drugs and also to weigh the energy spent by animals placed under the influence of medicinal drugs.

By LOUIE D. NEWTON, D. D.

SCRIPTURE: I Kings 22:1-40. DEVOTIONAL READING: Psalms 138:1-4.

Micaiah, A Prophet of Israel

Lesson for July 4, 1948

Dr. Newton

WE BEGIN a new series of studies this quarter—a series of lessons based on less known Bible characters that have much to offer us. Such a character is found in Micaiah, about whom we learn in I Kings 22:1-40.

Ahab, king of Israel, planned an expedition to recover the city of Ramoth in Gilead, which the Syrians had taken. He invited Jehoshaphat, king of Judah, to join him. Ahab relied upon his court

prophets to predict victory; but Micaiah, the prophet of God, whom Ahab had shut up in prison, when he was summoned, at the insistence of Jehoshaphat, told Ahab the truth—the unpleasant truth—which subsequent events verified.

BRAVE ENOUGH TO TELL THE TRUTH

THE first blessing in the study of this obscure Bible character, Micaiah, is to discover a man who was brave enough to tell the truth when he knew it was unpopular.

It is always the best policy to tell the truth, though there be many in today's world who deny this principle. It is not enough to say that we will tell the truth because it is right. One must tell the truth because it is right to tell the truth. Men swear with their hand upon the Holy Bible that what they testify is the truth and nothing but the truth. But, alas, such men often tell anything but the truth. They have been carefully coached to evade the truth.

Micaiah told the truth, because he was speaking for God. It hurt him, but it must needs be the truth he spoke to Ahab.

TRUTH DISREGARDED

Ahab scorned the words of Micaiah, and ordered him thrown back into prison. But scarcely had the prophet of God been thrust again into prison, until Ahab was bleeding to death in his chariot.

Men not only take their own lives in their hands when they disregard the truth, but, like stubborn Ahab, they bring grief to countless others. Had Ahab heeded the words of truth which Micaiah proclaimed, Ahab might have lived. Indeed, had Ahab heeded the words of truth, he might have recovered Ramoth, and more beside.

Truth may appear forever on the scaffold, wrong forever on the throne, but time always proves a hard taskmaster to the man who regards wrong instead of truth.

THE SOURCE OF TRUTH

GOD is the source of truth—all truth. If we miss this, we miss the lesson of the lesson. Note the words of the golden text, "As the Lord liveth, what the Lord saith unto me, that will I speak," said Micaiah.

Let us remember that it was God speaking through his prophet. Ahab could not have doubted that Micaiah was speaking what God had told him to speak. But Ahab did not want to hear the truth. He wanted to hear pleasing words that would encourage him in his evil plan.

God speaks the first and the last word on every subject, because God is truth. "I am the truth," said Jesus. And he went on to say, "Ye shall know the truth, and the truth shall make you free."

THE PENALTY OF DISOBEYING THE TRUTH

HORRIBLE, indeed, was the penalty which Ahab suffered for disregarding the truth. The way of the transgressor is hard—always hard. The wages of sin is death. Be sure your sins will find you out.

Take down your cherished books of history. What do they say to you? That the straight line of truth is the only safe way in which to walk. It is applicable for the individual, for the family, for the community, for the nation, for civilization.

Thus every great prayer must be, "Thy will be done." God's will is the way of truth. Micaiah declared it. Every true prophet must declare it. It is the only way to peace and joy in this world.

On Believing

All over the world now there is a reaction from the superficial talk that it does not make much difference what a man believes. We have learned our lesson. What a man believes makes a world of difference not only in what he does, but what happens to him.

Build It From A Pattern

Live Out Of Doors! No Need To Break Your Budget Obtaining Attractive Lawn Furniture

By DONALD R. BRANN

Make your porch, terrace or lawn an outdoor living room—turn your backyard into a picnic ground. You'll be agreeably surprised to see what fun dining out can be. Food takes on an added zest when flavoured with the thrill of a picnic.

You can build wonderful pieces of lawn furniture at very low cost. The set illustrated above was built from patterns. These patterns take all the mystery out of woodworking. Each shows the full size, shape and length for cutting each part. Wherever two parts are fastened together, the exact location is indicated on the pattern.

Making a home is traditionally American. The strength of the country rests on the people who have built a home for themselves and their families. Building lawn furniture or any other home equipment is not difficult. You can do it if you try. Each pattern is designed so that no special tools or skill are required. Build this lawn set for immediate use. You'll save money and have fun building it. All materials pattern specifies are stock size and readily obtainable at lumber yards everywhere.

STOP USING HARSH LAXATIVES

Try Lemon in Water—it's good for you

The juice of a lemon in a glass of water, when taken first thing on arising, is all that most people need to insure prompt, normal elimination. No more harsh laxatives that irritate the digestive tract and impair nutrition! Lemon in water is good for you!

Generations of Americans have taken lemons for health—and generations of doctors have recommended them. They are rich in vitamin C, supply valuable amounts of B₁ and P. They alkalize, aid digestion.

Not too sharp or sour, lemon in water has a refreshing tang—clears the mouth, wakes you up. It's not a purgative—simply helps your system regulate itself. Try it 10 days. USE CALIFORNIA SUNKIST LEMONS

That Nagging Backache

May Warn of Disordered Kidney Action

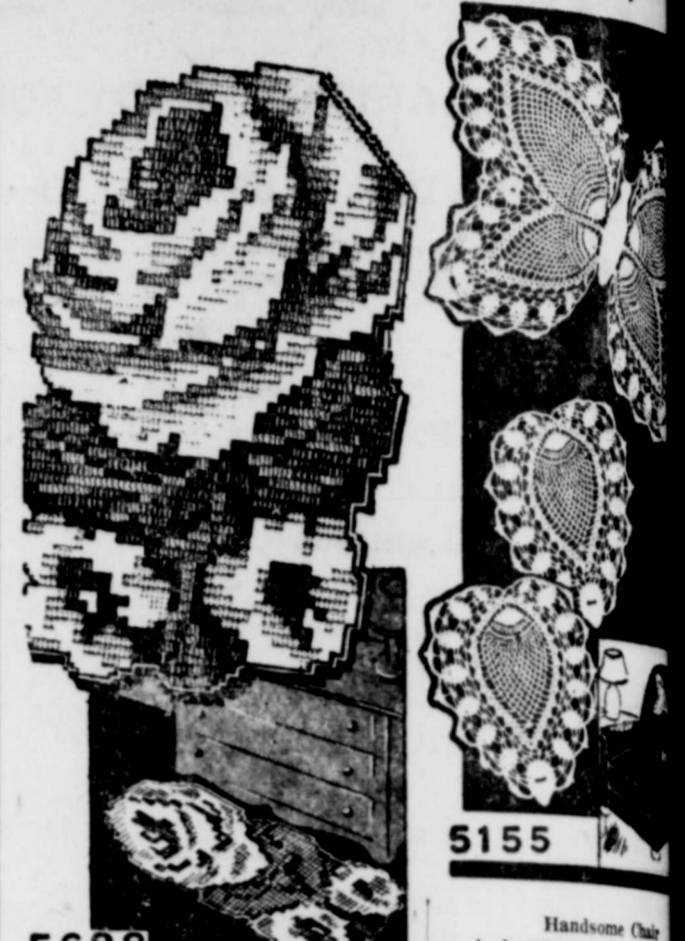

Modern life with its hurry and worry, irregular habits, improper eating and drinking—is a risk of exposure and infection—throws heavy strains on the work life of the kidneys. They are apt to become over-taxed and fail to filter excess acid and other impurities from the life-giving blood.

You may suffer nagging backache, headache, dizziness, getting up nights, leg pains, swelling—feeling constantly tired, nervous, all worn out. Other signs: times burning, scanty or too frequent urination.

Try Doan's Pills. Doan's help the kidneys to pass off harmful excess body wastes. They have had more than half a century of public approval. Are recommended by grateful users everywhere. Ask your neighbor!

ASK ME ANOTHER? A General Quiz

THE QUESTIONS

- When was the first professional game of football played?
- Who formulated the principle of the parachute as long ago as 1195?
- A viva voce vote is taken how?
- Can people become immune to snake bites?
- Where did the American Indian originally come from?

THE ANSWERS

- In 1895 at Latrobe, Pennsylvania.
- Leonardo Da Vinci, who is remembered mostly for his painting, but who was also a great scientist.
- Orally.
- Yes. The famous Australian snake expert, August Eichorn, allowed himself to be bitten by snakes hundreds of times for exhibition purposes. He finally died at the age of 87 as a result of blood poisoning caused by a barbed wire scratch.
- Most scientists agree that the American Indian probably originated in Siberia.

U. S. Flag Merchant Fleet

U. S. flag merchant fleet as of May 1, 1948, totaled 3,542 vessels of 1,000 gross tons and over, as against 3,577 vessels in the same category on April 1, 1948. Of the total fleet, 1,948 vessels were in active service; 1,084 privately owned, 833 government owned vessels under bareboat charter, 29 government-owned vessels under G.A.A., including nine C-4 "austerity" vessels temporarily in passenger service, and two Panama railroad vessels. Inactive vessels totaled 1,594 including 48 privately owned, temporarily inactive; 138 vessels inactive under G.A.A., 1,407 vessels in the reserve fleet and one Panama railroad vessel under repair.

R-H COTTON DUST

Gives excellent control of thrips, tarnished plant bugs and flea hoppers when dusted early and permits cotton to hold early fruit and set an early crop. In Bollweevil control, R-H Dust has been found to give a high degree of kill of Bollweevils within cotton squares, in addition to the kill of adult Bollweevils.

R-H Dust has proven to be very effective for the control of the bollworm, army worm, web worm, grape colaspis, ants, bean leaf beetle and grasshoppers.

R-H Dust has a very low toxicity to warm-blooded animals. R-H Dust is very economical in cost per pound as measured by all season control.

R-H Dust does not burn or adversely affect foliage on any of the common farm crops.

FARM FACTS WORTH KNOWING

Q. How much floor space do broil-
ers need?

A. There should be one square foot
of floor space per chick when no
outside yards are used. When out-
side yards are available, slightly less
house space will be necessary. Broiler
raisers have found that it pays to
give the birds plenty of room. Where
the chicks are crowded, mortality
and vices increase, and growth
decreases.

Q. How important is pasture in
raising hogs?

A. Although fine hogs can be
raised without pasture, authorities
are agreed on the advantages and
great economic value of good hog
pastures. Green pasture is one of
the best and cheapest sources of vi-
tamin A as well as other essential
nutrients and is a big factor in
maintaining the health and breed-
ing efficiency of the hog herd and
a producing rapid and economical
gains. The use of good pasture re-
sults, too, in an important saving of
grain.

Q. Do dairy goats need browse?

A. No. An experiment at the Re-
search Farm of the Ralston Purina
Company clearly indicates that
browse does not supply any factor
or factors necessary for milking
goats that may not be supplied by
alfalfa hay and grasses fed with a
properly balanced grain ration. Dairy
goats relish browse but do not
require it.

Q. How much range do turkeys
need?

A. It is generally recommended
that 100 turkeys up to 16 weeks of
age have one-half acre of land, with
an additional half acre from 16
weeks to market. The requirements
will vary, however, with the type of
soil, topography, crop grown, weather
conditions, presence or absence of
disease, etc.

MARKETING with Marjorie

To set forth a perfect picnic spread on the Fourth, be sure to take along all the little treats that make picnics such big treats! They'll be easy to make if you follow the recipes below... and the cost will be easy to take if you buy the ingredients at your thrifty A&P. It's a picnicer's paradise!

MAYONNAISE YOU'LL PRAISE
For a patriotic picnic salad, combine fresh strawberries, pineapple and blueberries. And for a bang-up dressing to go with it, add 1/2 cup heavy cream, whipped, to 1/2 cup A&P's creamy-smooth ANN PAGE MAYONNAISE. This salad is delicious as a dessert, too, served with the brownies or spice drops I'm going to give you the recipes for now.

WHITE HOUSE BROWNIES
Melt 2 sqs. unsweetened chocolate over hot water, remove from heat and add 1 cup sugar, 2 unbeaten eggs, 1 cup A&P's double-rich WHITE HOUSE EVAPORATED MILK (undiluted), 3/4 cup sifted flour, 1/2 cup chopped nut meats, 1/2 tsp. salt and 1/2 tsp. vanilla. Stir well, pour into greased 8-in. sq. pan, and bake in moderate oven, 350 F., 85 mins. Makes sixteen, 2-in. squares.

TOPS IN SPICE DROPS
Melt 3/4 cup shortening, add 1 cup molasses and 2 beaten eggs. Stir well. Sift 2 1/4 cups of A&P's fine SUNNYFIELD FAMILY FLOUR with 4 tsp. baking powder, 1 tsp. salt, 1/2 tsp. soda, 1/4 tsp. cloves, 1 tsp. cinnamon and 3/4 tsp. ginger. Add half these dry ingredients and beat well. Add other half and 1/2 cup milk alternately, beating well after each addition. Add 1/2 tsp. lemon extract. Drop by teaspoonfuls on ungreased cookie sheet and bake in moderate oven, 375 F., 8 to 10 minutes. Makes about 5 dozen.

FIRST FOR THIRST
Parched picnicers always go for grape juice... especially rich, tangy A&P GRAPE JUICE. So pack plenty of this thrifty thirst-quencher in your picnic basket. It's grand mixed with ginger ale... and a grand A&P value!

The SNAPSHOT GUILD

Enlarged from a 2 1/2 x 3 1/2 negative, a picture such as this increases in effectiveness as it increases in size.

Showmanship In Your Pictures

NOT long ago a neighbor was complaining that his pictures rarely impressed his friends. Many of them good pictures, too. "I'll show guests half-a-dozen snapshots I think are fine," he told me, "and they will mutter some polite comment and turn the talk to the weather."

By way of illustration he showed me several shots he had taken on his vacation along the coast of Maine. All were excellent. But all were contact prints just 2 1/2 x 3 1/2 inches. So we tried a stunt.

We took the best one of his half-dozen shots and made an 11 x 14-inch enlargement, mounted it on a mat and framed it, and hung it in his home. A week or so later one of his friends dropped in for a visit, and almost the first thing he noticed was the big, new picture. He thought it a wonderful shot.

The moral, of course, is that showmanship gets your prints the attention they merit. All of us are impressed by size. If you doubt this, think how quickly our interest is roused by the tallest building in the world, the largest ship, the biggest show on earth.

And, by the same token, a good enlargement from a standard size negative becomes more impressive, compels more attention by its bigness alone.

Thus, to effectively show your best prints, have them enlarged. Mount them in an album, on mats, or frame them. But use their size to draw attention. And, where you're showing a number of prints, have enlargements of different sizes. For, with enlargements of varying sizes, you gain all the drama of "bigness" and at the same time avoid the monotony of prints of uniform dimensions.

You'll find that enlarging has other advantages when you once have tried it. For one thing, it permits you to crop your pictures—to use only that part of the negative which is the best. And this, too, will help you to get something more than a polite but uninterested comment from friends who see your pictures.

—John van Gulder

Uncle Sam Says

Your part in the Security Loan takes minutes but benefits of your action may last a lifetime. By signing up today for the payroll savings plan for buying United States Savings Bonds where you work, or the bond-a-month plan where you bank, if you are self-employed, you will be on the road to security. Small savings become big savings when you save systematically—automatically—profitably—safely. For example, an allotment of \$3.75 a week for savings bonds amounts to \$2163.45 in just 10 years. From where I sit... by Joe

Pampered Farmer

If the folks in our town were less tolerant, they'd be really burned up over that nationally circulated article on "pampered farmers," describing them as living off the fat of the land.

From where I sit the farmer is anything but "pampered." If he's better off today than twenty years ago it's because he's worked hard to improve the quality and quantity of his production.

Take Bert Childers, for example. Bert is up at four in the morning, to get the milking finished—and

ploughing or harvesting on the season, and the evening he finally gets the milking over a matter of beer.

And the farmer takes temperate in his habit of evening glass of beer. In his opinion, he can't say of that article, "got the facts wrong, let it go at that."

THE BRIGHTEST STARS IN FREEDOM'S FIRMAMENT

Betsy Ross was the humble little seamstress who first plucked a star from every state to make the first flag of the United States of America. More stars — more stars — have been added since; but Betsy Ross still remains an important figure in American history for her gracious contribution to a new nation — her country and ours.
