## Hunters Don't Shoot Birds On Telephone Lines

"Please don't shoot at birds on telephone lines," is the plea of C. C. Kirby, district manager of Southwestern Bell Telephone Co. who says that each year thousands of telephone wires are broken by stray shots during the hunting season.

"Birds can fly away," Kirby said, "but telephone wires just have to sit there and take it. It's not that the hunters deliberately try to hit the wires, and I don't think sportsmen would shoot at a sitting bird on a wire, but I guess they just don't realize that a hasty shot, might cause serious damage to telephone lines and disrupt long distance service."

One solution advanced by the manager was that telephone engineers might try to develop a type of wire that would move when shot at. "In the meantime he said, all we can do is to ask hunters to be careful when shooting at birds near telephone wires."

## LABOR DAY

Labor Day credits working men with the effectiveness with which they do their job. Labor, directly or otherwise, bears the responsibility of the future of a democracy by its past and present endeavor. There is a long list of the accomplishments of the many who toil, whether it be in a factory, office, on a farm or behind a counter. The American workingman compares in his highest standard of living any civilization has known, which the topmost economic bracket of other countries.

The Knights of Labor, who started the idea rolling for Labor Day, back in 1882, knew then that without labor there is no wealth, that there is dignity in labor. Whatever our title, those who work at any job, are laborers. Workers helped create this country. This is a laborer's land. But, labor needs capital to work with it, as a partner in its industry. By labor and management working together, you strengthen the estate of both. We honor honest labor. Labor, in honor, must keep its freedom.

## Washington News Letter

Congressman Ed Gossett

The house has today quit until September 21 under a recess agreement. Neither the House or the Senate can adjourn for longer than 3 days at one time without a joint resolution in which both Houses concur. The House attempted to secure Senate agreement for the House to adjourn for one month but the Senate voted down such House Resolution by a 58 to 25 vote. Thereupon, the House agreed to quit for one month under a 3 day recess arrangement. That means that every third day the house will meet and promptly adjourn for another three days. A few Representatives will be left here to carry on this procedure.

It will be necessary for me to remain here for several days, since I am Acting Chairman of a Judiciary Subcommittee now conducting hearings on Tidelands bills. These hearings will be concluded early next week. Following that, I have an appointment with Secretary of State Acheson to discuss with him the serious problem of oil imports. Other departmental and office work will have to be concluded before my departure for Texas. The Gossett family will have to remain here because three of our children will start back to school early in September. Because it is impossible to know just where I will be and what Congress will be doing be-

## BACK ON THE HIGHWAYS

Thousands of school children soon return to class rooms, after a summer's vacation. The first few days or weeks of school they are going to be more careless and thoughtless about safety measures, forgetting the need to watch motor traffic. They will become more cautious later, but so early they haven't quite got into the 'swing of things'. So, it is up to the drivers of cars, trucks and buses, to be extremely careful during the opening days of school year, of accidents to youngsters.

## MARGARET MITCHELL

Second only to the Bible, is the circulation of "Gone With the Wind." It has been read in most Burk Burnett homes, where its story of defeat in the tragedy of war stands for all humanity in its battle against life's undoing. The recent death of its authoress, Margaret Mitchell, from injuries due to a traffic accident, put an end to the reading public receiving any more work from her pen. Her simplicity and kindness, in spite of fame and fortune, endeared her. Unpretentious, with all of Margaret Mitchell's success, she should be an example to those who come after her on the path of fame.

stated that there would be no tax reduction this year. Representative Doughton makes the point that by the end of this fiscal year on next July 1, we will be between four and five billion dollars in the red. For this ensuing fiscal year, we will spend in excess of 45 billion of dollars. Just how, when, where, and if federal spending is to be reduced, remains the big question. All agree that we should operate on a balanced budget and should not spend billions more than we collect. Forty-five billions of dollars, the amount our government will spend this fiscal year is considerably more than our total national income was during the depression years.

Secretary of Defense, Louis Johnson, created quite a flurry in Washington this week by asking all members of Congress to be in his office at 9:30 on Wednesday morning for an important announcement. Some 125 members did go to the Secretary's office to hear him announce the closing of numerous military bases and the proposal to discharge some 130 thousand employees. The possibilities are that most of these employees will eventually remain on government payrolls by transfer to some other agency or post. Someone has said "there is nothing so permanent as a temporary government job."

On my desk is a resolution recently received from a conference of State Governors. The Governors go on record as favoring increased efficiency and economy in government. The Governors then conclude by saying—"The Governors' Conference does not in any way suggest a curtailing of public services." There certainly is a crying need for higher efficiency and for the elimination of waste and duplication. However, government expenses are not going to be greatly reduced without at the same time reducing some of the government services and activities. Officials and citizens cannot demand more service and expect to receive any substantial reduction in taxes. Unless the American people insist on keeping government within due bounds, then government will continue to grow and grow, both in size and in cost, and we will eventually drift into what is commonly called the welfare state, which, according to all available evidence is not a state to be desired, and is not in the last analysis for the general welfare.

## NOT A NEW SIN

This to-do about deep freeze units, 5 per cent bribes, winning and dining, gifts and benefits, to receive favors in return, from businessmen and politicians, isn't anything so new. It has been done before that doesn't make it right, especially with regard to representatives and senators who are supposed to be special privileges and corruption. Many business in private enterprise, won't permit members to any favors from a seller. They don't wish to be under any obligation. This holds true with many politics. Such attentions can take the form of bribes often lead to a demand for the favor returned in transactions. If they carry this deep freeze investment too far they are apt to find more than refrigeration up with the skeletons in some of the closets in Washington.

Sgt. Albert Tidwell, commissioned Officer in the Marine Corps Reserve, Wichita Falls, was on the 25th acceptance of enlistments for regular Marine Corps and acquainted with the city.

He stresses the fact that men never go to the Corps because they have to do it too hard to get out. It is not necessarily true. There are times when the Marine Corps is strict, more so than the other services, but we too are average men with our actions and duties. The Corps never asks a man more than he is physically able to do.

He announced that he would be in Burk Burnett on the 25th of every month at the office.

**DEPARTMENT OF PUBLIC SAFETY**

Aug. 26.—Man's intention toward man is pretty common in Texas according to the Crime Report released by Homer Garrison, director of the Texas Department of Public Safety. The report covers the State's crime picture for the first six months of this year shows, however, a man's regard for his property is on the decline.

According to the report which was issued by the Safety Department, the number of crimes against persons remains about the same as in 1948. These crimes include murder and homicide and aggravated assault. Crimes against property shows an over-all increase of 13 per cent over last year.

### STATE DEPARTMENT OF PUBLIC HEALTH

Geo. W. Cox, M. D. State Health Officer

The Texas State Department of Health during the first seven months of this year has a record of the examination of 2709 animals heads for rabies and of this number almost one fourth were found positive, said Dr. Geo. W. Cox, State Health Officer.

Rabies is transmitted to man through a bite or having a cut exposed to the saliva of a rabid animal. If a person is bitten, the offending animal should be penned, if possible, for a period of at least ten days. If the animal is in the infective stage, he will die within this time. This does not mean that he may not be in the noninfectious or incubative stage and develop rabies later. All dogs bitten by a rabid animal should be confined six months. If it is necessary to kill this animal, this should be done in such a manner that the brain is not destroyed.

When sending a head to the State Laboratory it should be put in a container, sealed and packed in ice to prevent decomposition.

Dr. Cox said that rabies is a hard disease to eradicate, but that it could be done if all owners would have their dogs vaccinated each year and eliminate all stray dogs. If you have a dog get him vaccinated the same as you have your children immunized against diphtheria and smallpox.

Rabies is commonly supposed to be a disease of warm weather, but it is more prevalent dur-

ing the spring and fall because the dogs congregate and move about more, therefore the chance of exposure is greater during this time. It is true that more dogs are killed during the summer months, but the percentage of rabies is low.

Mr. and Mrs. Norman Brittain and children have returned to their home in Newhall, California after a visit here with Mrs. Brittain's parents, Mr. and Mrs. R. E. Northcott.

## 'You Have Heard That It Was Said'

In the sermon on the mount Jesus introduced things the people had always heard in religion, and then gave them the things he would have them do. He said: "Ye have heard that it was said to them of old time, Thou shalt not kill—but I say unto you, that every one who is angry with his brother shall be in danger of the judgment." (Matt. 5:21,22).

There are many other things that you have heard in religion which Jesus does not today approve, and we need to hear what he says unto us about them.

You have heard it said: "One church is as good as another, and it does not make any difference what church you join." But Jesus says: "Every plant which my heavenly Father planted not, shall be rooted up. Let them alone: they are blind guides. And if the blind guide the blind, both shall fall into a pit." (Matt. 15:13,14). Regardless of what "ye have heard" one church is not as good as another. The church that Jesus built is greater than any built by man.

You have heard that baptism is not necessary to salvation, and that you can go to heaven without it. But Jesus said "Verily, verily, I say unto you, except a man be born of water and the Spirit, he cannot enter into the kingdom of God." (Jno. 3:5). Did anyone of greater authority than Jesus tell you that baptism is not necessary?

You have heard that sinners could be saved just by praying to the Lord to save them. Jesus said: "Now we know that God heareth not sinners." (John 9:31). Regardless of what you have heard of men, you never heard God or his Son telling alien sinners to pray.

Remember it is MUCH BETTER to take what Jesus says than the teaching of men.

Sunday School at ten a. m. with all classes studying the 20th chapter of Judges—"Answering For Sin." The statement is made four times in the book of Judges that "there was no king in Israel." In other words no established rule of government. But what people seem to forget, when they think they can do, or not do, as they please, that God does have a government—a King in heaven. Come study in this Bible Sunday School. Jimmy Jaggars is S. S. Supt.

Song and preaching service at eleven a. m. Sermon subject of pastor will be, "Proving God." All of us may not be from Missouri, but I believe that we all have the right to say "show me", or "prove it" to any statement or proposition. It can certainly be done in things concerning God. Come and see.

Young people meet at 7 p. m. with Fred Clynch and wife, and B. A. Dorland and wife as leaders. This happy, growing group invites all young people to meet with them.

Night preaching service at 7:45. Following a good song service the pastor will continue the discussion on, "The Answer to The Evil Trend of all Humanity—The Second Coming of Christ."

Welcome, neighbor, to all of our services. Our grey bus still makes regular runs over the city to bring you to Church, if you care to ride it. Just step out on the porch and signal the driver. Ray C. Morrow, Pastor.

## Church Ceremonies Performed Miss Mills and Joe F. Anthony

The cross centered decorations for nuptial ceremonies performed Saturday evening at the First Baptist Church uniting Miss Betty Mills and Joe F. Anthony of Wichita Falls. The ceremony was officiated by Dr. James H. Landis, pastor of the First Baptist Church of Wichita Falls as the bridegroom knelt on a white covered bench before the altar. The bride wore a fitted bodice with white net yoke, long sleeves extending to points over her hands, and a full skirt which swept into a chapel length train. The frock's only trim was a wide fold of the satin set onto the yoke; and her

only jewelry was a single strand of pearls, a gift from her father. She also added the items traditionally mentioned in the bridal rhyme and carried a bouquet in which gardenias were combined with stephanotis. The bridal costume was completed with addition of her illusion veil which swept from a closely fitted headdress of lace.

**Attendants**  
Miss Carol Lohofener took part in the wedding as maid of honor. She wore a frock of pink taffeta and net which, except for the cap sleeves, was an exact copy of that fashioned for the bride. She also wore a dainty hat of taffeta and net, and her only jewelry was a single strand of pearls. Her flowers were white pompon asters arranged in a colonial bouquet.

Identically costumed in blue taffeta and net were Mrs. Don Mills-of Burkburnett and Mrs. Garland Johnson of San Antonio, the two bridesmaids. They, too, wore similarly styled hats and carried colonial bouquets of white and yellow pompon chrysanthemums. Single strand pearl necklaces were additional complements to their costumes.

Miss Jane Amend of Wichita Falls and Donna Kay McConnell of Burkburnett took part in the wedding as flower girls. They wore dresses of blue taffeta and net, headdresses of blue flowers and dainty pearl necklaces.

Best man for his brother was W. V. Anthony of Marfa. Other masculine members of the wedding party were Marvin Willis of Electra, H. L. Colbert of Denton, Don Mills and Jim Fry, both of Burkburnett.

**Reception**  
The wedding preceded a reception at the home of Mr. and Mrs. Ray Mills, parents of the bride.

Decorations in the bridal motif enhanced reception and dining suites for the affair. In the latter, the refreshment table was a center of special interest featuring a white cutwork cloth and a decorative arrangement of pink and white asters flanked, at the board's extremities, by punch bowl and tiered wedding cake.

During the course of the party Miss Christine Suttles and Miss Alice Millikin shared duties of presiding at the punch bowl while the cake was cut and served by Mrs. D. M. Voulgaris and Miss Peggy Swink. Miss Katherine Beckham presided at the guest book and the gifts were displayed under the direction of Mrs. James Mason. Other members of the house party were the host and hostess, the bride and groom and the members of the wedding party.

The reception preceded departure of Mr. and Mrs. Anthony for a honeymoon in northern Oklahoma and Missouri. For travel the later chose a handsome suit in autumn bronze complemented by harmonizing accessories. Upon their return to Wichita Falls the couple will establish residence at 1905 Grant Street.

Out-of-town guests for the wedding included relatives and friends from Waco, Galveston, Lubbock, Tulsa, Garland, Marfa, Archer City, Holliday, Denton, Electra and Wichita Falls.

Mrs. Anthony, who is well-known in Wichita Falls' business circles, is a graduate of Draughon's Business College. Her high school education was completed in Burkburnett. She now is employed as bookkeeper by Be-

thania Hospital in Wichita Falls. Mr. Anthony, son of Sam Anthony of Wichita Falls, is a graduate of Electra High School. He, too, attended Draughon's Business College and will receive a degree from Hardin College in January.

The young people and the members of their wedding party rehearsed for the ceremony Friday evening. That practice session preceded an informal picnic on the lawn at the home of the bride's parents.

## Rotary Club

Only four members were absent last Tuesday when the Rotary club met for their noon luncheon at the Town Hall. They were Tom Britton, Woody Carter, Ted Harwell and Alvin Hill. Ralph Davis gave the invocation.

**What Witch Hunt?**

"No Communist, no matter how many votes he should secure in a national election, could, even if he would, become President of the present government. When a Communist heads the government of the United States — and that day will come just as surely as the sun rises—the government will not be a capitalist government but a Soviet government, and behind this government will stand the Red army to enforce the dictatorship of the proletariat."

Please read the above quotation again. Could an American have said that? Or does it sound like a message from Moscow? Indeed, everything in that statement is un-American. It was written by William Z. Foster, head of the Communist Party in the United States. This statement is reprinted in large type on the back of a pamphlet prepared and distributed by a Committee of the U. S. House of Representatives. This is the Committee that is accused of "witch-hunting."

**Sworn Statement**  
Nor is the Congress guilty of distributing the sayings of Communists as propaganda for the Soviets. The publication which carries Mr. Foster's sworn statement is very much anti-Communist. The booklet is called: "100 Things You Should Know About Communism in the U. S. A." It is one of a series of five publications "on the Communist conspiracy and its influence in this country as a whole, on religion, on education, on labor and on our government."

By giving Mr. Foster a prominent position on the back cover of this booklet, our Congress hoped to show Americans that native Communists really condemn themselves whenever they open their mouths. In the quotation, there is revealed Communism's greatest appeal: the lust for power, and the urge to dominate others that some people have. There is revealed also its greatest weakness, for people everywhere do not like to be dominated by force. People like to be free.

**Light and Facts**  
The Congressional Committee to which I refer is the Committee on un-American Activities. If you have ever listened to the palaver of Communists or the "fellow travelers" (Communist sympathizers), the chances are you have heard this Committee of Congress strongly criticized. Like the committee says, the right answers given in the booklet, by using the facts, must certainly infuriate the Communists. It is true also that many of these right answers will shock the average citizen who has not studied the "ism" closely.

It is not my purpose to apologize for the Committee on un-American Activities. No apologies are needed. It has done a great service to the American people in a time when light and facts are needed to clear up so much confusion. If the Committee has made minor mistakes in the course of its work, it has at the same time done a glorious job in reselling our people on the American way of life. It has opened the dark secrets of Communist conspirators.

**Hired Men**  
The Communist policy is to break down existing nations any way they can, and in the confusion to seize control. They will promise every kind of "better life," but they have never been known to deliver it. As an American I am thankful for the work the Committee has done. I say with the Committee: "You know what the United States is like today. If you want it exactly the opposite, you should turn Communist. But before you do, remember you will lose your independence, your property, and your freedom of mind."

When a picnic's no chore, I enjoy it more, and that's one reason why JANE PARKER POTATO CHIPS rate a special spot in any picnic basket. These fresh, flaky-thin fliter-uppers are ready to serve—and really good, because they're made from specially selected potatoes, with only pure vegetable shortening.

**DOUBLE TREAT**  
Serve this two-tone ice cream for an end-of-summer party. It tastes doubly good because it's made with both Vanilla and Chocolate flavors of ANN PAGE SPARKLE ICE CREAM MIX. Buy them both at your A&P. **Crawford Bride Of E. W. Stevenson, Jr.  
The Little Chapel In The Woods**

Wedding of Miss Marjorie Crawford, daughter of Mr. and Mrs. Edward W. Stevenson, of Burkburnett, was held July 23 at the Little Chapel in the Woods in Denton. Reverend Joseph Cope, pastor of the Presbyterian Church, officiated. The ceremony began at nine o'clock with the exchange of vows on an altar banked with flowers and interspersed with the beauty baskets overflowing with white tapers in branched candelabra cast over the entire wedding. A program of organ music was rendered by Jack Crawford of Denton including favorite selections as "Alone" and "Because." As the bride and groom stepped from the altar, the bride presented a gift to her groom. The ever-beautiful of the Bridal Chorus sang "The Wedding March" in the approach of the bride. The bride presented a gift to her groom. The bride presented a gift to her groom. The bride presented a gift to her groom.

trimmed sections which swept into a graceful chapel length train. She wore matching brief mitts and her bridal veil of illusion fell in graceful folds from a Mary Stuart bonnet-crown trimmed with white rosebuds. For the traditional "something old" Marjorie carried a handkerchief which belonged to her great, great grandmother. Her only jewelry was a single strand of pearls. She carried a white Bible topped with a specimen white orchid and showered with satin streamers.

Mrs. Glen Paul Hicks of Denton was her sister's only attendant. She wore a lavender organ-dress designed with a fitted bodice and scalloped bertha. The bouffant skirt was adorned with scalloped tiers edged with delicate lace. She carried a colonial bouquet of limetinted daisies.

Best man was George McCoy of Houston. Ushers were Cliff Barr of Denton and Glen Paul Hicks of Denton.

The mothers of the bride and groom wore corsages of vanda orchids.

**RECEPTION**

A reception was held immediately following the ceremony in the home of the bride's sister, Mrs. Glen Hicks, 1102 Bell Ave., with Mr. and Mrs. Crawford host and hostess.

The bride's table was covered

with a handsome white Maderia cloth and centered with a tiered wedding cake topped with a miniature bride and groom. Miss Joanne Cantrell of Joineville served the cake while Miss Nina Joe House of Denton presided at the punch bowl. At the bride's book was Miss Joanne Stocks of Waldo, Arkansas. The receiving line was formed before the fireplace with the mantle boasting a charming arrangement of gladioli and stock.

**LIVE IN WICHITA FALLS**

Mr. and Mrs. Stevenson are making their home at 1302 Travon street in Wichita Falls following a wedding trip to San Antonio. The bride wore for travel a navy sheer costume with matching accessories. Her navy hat was adorned with white flowers.

The bride was valedictorian of her graduating class Gaston High School. She attended T. S. C. S. and was graduated with honors May 29 from NTSC, receiving a degree in Bachelor of Business Administration. She was a member of Pi Omega Pi and Alpha Chi honor fraternity.

The bridegroom was graduated from Burkburnett Hi School and attended Hardin College and NTSC. He served 22 months in the U. S. Naval Air Corps. At the present time he is employed by the Jones Laughlin Construction Company in Wichita Falls.

Sgt. Albert Tidwell, in charge of the Marine office, Wichita Falls, advised that Jackie W. McDonald was enlisted in the U. S. Marine Corps for a period of

three years at Dallas one the 23rd.

Young MacDonald is the nephew and ward of Mrs. Lillian Rogers, 612 W. Main, Burk.

Private MacDonald was transferred to Marine Corps Recruit Depot, San Diego, Calif., for his boot training. Three others from this area left Dallas with MacDonald, two were from Electra and one from Wichita Falls.

**'Mighty Joe Young' Arrives;  
Fabulous, Heroic, Superhuman**

Sensationally novel and actionful screen entertainment is presented in "Mighty Joe Young," which opens Sunday with Terry Moore, Ben Johnson, Robert Armstrong and Frank McHugh in the stellar roles and with presentation by John Ford and Merian C. Cooper.

The identity of the much-discussed Joe Young proves to be the surprise of the picture, the adventure-thriller builds suspense to a stirring climax as the character Joe Young performs feats of superhuman strength, ferocity and, finally, heroism.

With New York, Hollywood and the African jungle as its principal settings, the action of the film turns on the startling results of a showman's trip to the Dark Continent to collect animal talent for an exotic night club he is building in the screen capital. Armstrong plays the showman, Miss Moore has the part of a girl who has been brought up on a lonely farm in the heart of Africa and has trained a huge gorilla, Johnson, a "find," is cast as an Oklahoma cowboy on his safari. Frank McHugh plays a harassed press agent.

Mounting thrills mark the epic career of Joe Young as he reduces a night club to splinters, and as later he threads the flaming timbers of an orphan asylum to rescue its panic-stricken inmates. This is a show to hold the spectators spell bound, a show that lives up to its billing as Merian Cooper's Amazing Adventure in the Unusual.

Mr. and Mrs. Robert M. Robinson and Sharon are visiting in Burk this week with her parents, Mr. and Mrs. J. V. Brookshear and with Mr. Robinson's parents, Mr. and Mrs. Ben L. Robinson.

### Asks Burglary Insurance Costs Be Reduced for Families Keeping a Dog

Every local family keeping a dog would reap a saving in its burglary and theft insurance premiums, if a movement inaugurated by the Gaines Dog Research Center, New York City, succeeds.

In recognition of the dog's value as a "burglar alarm," insurance companies for years allowed a discount to homes having a dog, according to Harry Miller, director of the Center. The practice, like a lot of others, was discontinued during the troubled years leading up to World War II. Now his organization is attempting to get the insurance companies to resume the practice.

"While not all dogs are of equal value for guard duty, practically any family dog will rise to the occasion when needed," he states. "Any dog can sound a warning and even the little toy dog can act as an effective alarm by barking in shrill ferocity. Families with a dog not only sleep with more confidence, but also know that the likelihood of their sustaining a loss while absent from home because of a visit from thieves or burglars is materially reduced."

Mr. Miller believes that the recent Victor Reuther shooting in Detroit probably would not have taken place but for the Reuthers' parting with their dog a few days previously. His assailants evidently were fearful of the family Cocker Spaniel, and by anonymous complaints to the police that the dog was a continuous barker forced the Reuthers to give their dog away. With the dog removed, the culprits could proceed with their plans with the chances of detection greatly minimized, he states.

### NOTE OF APPRECIATION

To the Burkburnett Fire Department and to our friends and neighbors who did such a wonderful job of saving our house and household goods we are in deep grateful.

### More Eggs Under Aluminum Roof

Production records for these two poultry houses show that they lay more eggs in the house on the left, which has an aluminum and is therefore cooler in summer, than they do in the house on the right which is roofed with another metal. These two otherwise identical buildings are on the farm of P. T. Meyers, near Hayward, Okla. It is 15 degrees cooler in summer than those with roofs of other metal. Other investigations indicate that frysers also develop better in the cooler aluminum-roofed buildings. The Aluminum Age reports.

Mr. and Mrs. Raymond Henry and Juanita and Mrs. Leo Henry returned from their vacation Monday. They visited Pvt.
