Hero Bests Badmen With Bowie Knife

For the first time in the history of western films a leading man went through an entire motion picture without carrying a six-shooter or a firearm of any kind when Macdonald Carey completed the leading male role in Universal-International's Technicolor "Comanche Territory," in which he stars with Maureen O'Hara.

It all came about in the interests of authenticity. Research showed that Jim Bowie, frontiersman and government agent, portrayed by Carey, looked down his nose at firearms and preferred to make his point with the trusty 16-inch two-bladed knife which he designed and forged and which continues to bear his name today.

First Baptist Church Calls Associate Pastor

The First Baptist Church in conference last Sunday morning called Rev. W. R. Karkalits, pastor of the Baptist Church at Tye, Texas, to be associate pastor. He has accepted the call and will begin his work with the local church July 16. The church gave him the privilege of continuing his studies at Southwestern Seminary four days a week.

Rev. Karkalits is well known and loved by the people of this city. His many friends are rejoicing that he and his family will move here and make this their home. Mrs. Karkalits is the daughter of Mr. and Mrs. Lee Willis of Burkburnett.

The associate pastor will have charge of the musical program of the church, give much time to the young people and their program, supply for the pastor when he is away, and assist in the general program of the entire church. The local church has experienced a marvelous growth in the last few years. Few towns of this size have a Sunday School as large as the one supported by this church. The average attendance for this Sunday School year is 45.7. Many times the Sunday School has gone over 500 and some time over 600 in attendance. The record attendance this year was 698. One hundred and sixty seven have united with the church since the first of last September, 68 of these by baptism. The church carries on a busy program and the addition of another worker will greatly help even in a larger program of activities.

The losing pitcher, Gary McDonnell fanned 2, walked 3 and also gave up 11 hits. Outstanding Willow Swingers were: Don Loy Nichols who got 1 triple and 1 homer and 2 runs for 2 trips to bat. David Bryant counted for 2 singles, 1 double, 1 run for 3 times to bat. Both teams showed good form, and if you missed seeing these boys in action, you were the loser.

TOO MUCH OF A GOOD THING

To sun or not to sun, is the question at this time of year, whether 'tis better to look cool as a cucumber or as hot as a boiled lobster. One wants to return to the office showing a beautiful coat of tan. Tan looks well on women-folk with tan-back dresses. One wants the vitality that comes from the ultraviolet rays that are so beneficial. Too bad that so many of us are so thin-skinned that the tanning business results in a sunburn that results in pain and blisters. If you are highly nervous, have high blood pressure, overactive thyroids, active tuberculosis, or heart disease, the direct rays can result in toxemia and shock, in weakening your physical condition. Some of the liquids and compounds advertised for preventing sunburn may prevent some burning, but so far science hasn't found a way preventing it entirely. All of this is heresy to those resorts that advertise their brand of sunshine as curing everything from dandruff to fallen arches. But medical men advise that getting the indirect rays of Old Sol is beneficial, that you don't have to sit in the heating sun to gain from it's rays. You can get the radiation indirectly though you may not get those various shades of tan that you covet on others. A peeling back doesn't look good in a summer dress nor a blistered nose sitting behind a desk. Sunburn results in an annual loss to the U. S. Industry of over 7 million work days a year, reduces efficiency of workers an equal number of days. So, let us in Burkburnett take our ultraviolet rays with a few grains of salt tablets this summer.

WHAT COMES NATURALLY

It didn't need a Gallup poll to determine whether men and women gamble. People like to take chances even if bound by laws, perhaps for small stakes or for large sums. It may be betting on the number cards tossed into a hat or pennies thrown at a crack. It may be a chance on a quilt at a church bazaar or winning the pot at bingo. It may be race horses or the dogs, slot machines or the number game. Folks who like to gamble won't be prohibited from doing so no more than prohibition stopped drinking.

Where laws are needed arises when racketeers bribe government officers, play with politics. Liquor interests made such inroads into politics, because such a powerful system, that it led to the prohibition law. Robbing citizens and degrading politics is what has brought about the drive in Washington against gambling. Private gambling, the bingo, bridge, poker, quilt, sort of gambling, is not big time syndicated gambling. When the underworld moves in to take over it becomes a national menace, a public danger.

BETTER LATE

There is something to be said for the bill introduced in the West German parliament which would prohibit the sale of warlike toys to tiny tots and which would prevent them from receiving such gifts from the American forces. The movement for disarmament by spring hasn't taken place in much force, but at least this bill is an encouraging sign that a certain form of disarmament is under way. It has been stressed many times that our hope for peace lies in the educating of the youth.

Couple Married At Sheppard Field

In an impressive ceremony performed at the Chapel of Air Force Base Sheppard Field, Miss Florence Carnie became the bride of Sgt. Charles Wilson. The Chaplain James B. McLeroy was the officiant at the ceremony read at 2 p. m. Wednesday afternoon. The couple repeated the marriage vows before the altar which was centered with two large arrangements of white gladiolus back-grounded by a mass of Boston Fern and two seven candle branched candelabras casting a soft light across the altar.

Nuptial music was provided by Charles Pitts. Mr. Ray Gardner gave the bride in marriage. She was a lovely picture in a street length dress of ice blue Swiss organdy embroidered in the Chenille, over blue taffeta. The dress was designed with a fitted bodice and a full skirt. A handmade half hat of sheared blue organdy held the shoulder length veil of blue Swiss illusion which provided a frame for the brides' brunette beauty. She wore blue linen opera pumps, blue gloves and carried a colonial bouquet of pastel flowers. In the bridal tradition she wore "something old, something new, something borrowed and something blue."

Mrs. Evelyn Nally was matron of honor. She wore a soft pink organdy dress over pink taffeta, styled similar to that of the bride. She completed her costume with accessories of white and carried a colonial bouquet of pastel flowers. Mrs. John Nally was the best man for the groom.

A reception was held at the home of Mr. and Mrs. F. E. Cruce of Burkburnett. Other members of the house party were Mrs. Evelyn Newton and Mrs. Julia Boyd. The table fur-

ther emphasized the brides chosen colors of blue and white with a lovely lace cloth over blue and a floral centerpiece of white gladiolus and blue daisies. This arrangement was outlined by blue birds and a streamer of blue ribbon, with gold letter inscription of "Charles and Florence." The three-tiered all-white wedding cake was topped with a miniature bride and groom. Punch was served from a crystal punch bowl.

Prior to the departure of the couple on a trip, the bride opened the wedding gifts presented them by the guests. For travel the bride wore a brown and white sheer print. Her accessories were of brown and white. The bride is a daughter of Mrs. J. Saladino of Woodside, New York. She received her education in Walton Girls School of New York, New York. She was employed as office manager of Mail-Ad-Service.

The groom is the son of Mrs. Jennie Kittell of Addison, New York. He received his education in Addison High School. The groom is now stationed at Sheppard Field.

Upon their return, the couple will reside at 511 East 4th St.

Mr. and Mrs. Lee Reagan and boys of Loveland, Colorado spent last week with Mr. Reagan's sister, Mrs. J. V. Wallace and family. He is a member of the Police Force at Loveland, and Mrs. Reagan is with the High School faculty.

"Mrs. America" Shines Car In 20 Minutes

Mrs. America—San Diego's Mrs. Francis Clay—shines her own car the new, easy way.

Science does it again. Any woman, anywhere in the world, can now make the family car bright as a mirror in about twenty minutes. It's quick and simple. The reason? Silicoles! They were developed during the war. Most everything such as airplane ignition systems, and other motor equipment was protected from weather, rust and salt air corrosion by a coating containing silicoles. They are anti-soot. They hate dirt, grease, etc., and won't allow any of it to become a part of them. They're tough—heat and cold don't affect them. After many years of research, silicoles have been successfully made into an automobile polish called Autobrite which is tougher than any car wax. The polish is just spread on and wiped off and the car stays brilliant for six months, needing only cold water cleaning. The 4% solution of silicoles in Autobrite is the perfect solution, according to scientists. In a single operation it cleans, polishes and protects.

Uncle Sam Says

June 11 marks the first day of summer, that time of year when everyone's thoughts turn to vacation, whether it be to travel, to visit the seashore or mountains, or maybe to go fishing, or, maybe a swell vacation in that new home in the suburbs, the one you have dreamed about so long. Whatever it is, you can make those dreams a reality by investing, regularly, in U. S. Savings Bonds. You alone can answer the question "Will you be up or down in 1960?" If you want to be up and coming, enroll during the Independence Drive for the Payroll Savings Plan where you work, or if self-employed, the Bond-A-Month Plan at your bank.

"Hello daddy, supper's ready"

Yes, Daddy can be sure his meals are ready—and piping hot—when the fuel which cooks them is fast, efficient, dependable natural gas. Even though mother and the children spent the day away from home, he can count on gas to cook his meals, heat or air-condition his home, heat his bath water, keep perishable foods refrigerated, even dry the family wash... all for just a few pennies a day.

Natural Gas Service Is Truly A Public Service
Thousands of stockholders, some of whom probably live in your community, are the owners of the natural gas industry. Thousands of wage-earning employees, your friends and neighbors, operate the gas industry. The gas companies, like other businesses, pay taxes which help support the essential functions of government. The natural gas industry is a good example of the way American business has worked to bring the advantages of a great natural resource to a maximum number of people.

Sec. Brannan Calls U. S. Savings Bonds Good Farm Reserve

Washington, D. C.—Charles F. Brannan, Secretary of Agriculture, today urged America's farmers to buy bonds during the Independence Drive in order to build a financial reserve and assure future financial independence.

"Farm people were the pioneers who settled the frontiers of America. As pioneers, farmers came to know the meaning and to appreciate independence through hard experience. They have never lost that appreciation. That's why 'Save for Your Independence' appeals strongly to farm people.

"In pioneer days independence usually was measured by the food, feed and fuel stored in reserve on the farm. A full storehouse spelled independence against 'rain days' and other emergencies which faced farmers then as today.

"A good measuring rod of independence for farmers and other Americans today is the number of United States Savings Bonds they have stored in reserve. I urge farmers to take the opportunity of the Independence Savings Bonds Drive to keep building their reserve in Savings Bonds and thereby maintain their independence."

ANOTHER STRIKE

AGAINST THE PUBLIC AND INDUSTRY AND AGRICULTURE SERVED BY FIVE WESTERN RAILROADS

President Truman's EMERGENCY BOARD recommends a 40-hour week and a pay increase of 18 cents an hour, or \$1.44 a day for switchmen represented by the Switchmen's Union of North America.

• Notwithstanding the tremendous increase in their expenses involved, the

Railroads' answer to Board is . . . YES NO

Union leaders' answer to Board is . . . YES NO

In face of Board findings to the contrary, union leaders insist on 48 hours pay for 40 hours work. This would be an average increase of 31 cents an hour, or \$2.48 a day. So Union leaders have called a completely unjustified strike on 5 Western railroads, effective June 25.

On June 15, an Emergency Board appointed by President Truman under the terms of the Railway Labor Act recommended the railroads grant switchmen a 40-hour week and a wage increase of 18 cents an hour, or \$1.44 for an 8-hour day.

Despite the added financial burden involved, the railroads are ready to accept these recommendations, as they have always accepted Emergency Board recommendations on national issues.

But the leaders of the Switchmen's Union refuse to accept! They demand an average increase of 31 CENTS AN HOUR OR \$2.48 A DAY—although their present earnings are substantially higher than those of workers in other industries!

Board Says Demands Unjustified.

In its report, the Board declared this demand unjustified by all the evidence presented. It also pointed out that it would give the switchmen an unfair pay advantage over other groups of railroad employees, and would add too great a burden to railroad costs.

Here is another case of a railroad union flouting the findings of an Emergency Board—another case of calling a crippling

strike in an outrageous and reckless attempt to force demands which the Board clearly labels as unjustified!

Leaders of the Switchmen's Union are calling this strike in defiance of the Board—in defiance of the facts—and at the expense of the public!

In its report on this case, the Board made this statement:

"The railroad industry, the Board believes, needs above all else a period of relative stability to adjust and adapt itself to present competitive post-war conditions."

Despite this warning, the leaders of the Switchmen's Union are upsetting the apple-cart—forcing a completely unjustified strike against everybody who uses the railroads.

FIVE WESTERN RAILROADS AFFECTED BY THE JUNE 25 STRIKE The five railroads affected by this strike, which goes into effect at 6:00 A.M. local time, Sunday, June 25, 1950, are: Chicago Great Western Railway Company Chicago, Rock Island & Pacific Railroad Company The Denver & Rio Grande Western Railroad Company Great Northern Railway Company The Western Pacific Railroad Company

It is time to put an end to such American tactics!

The Answer to a Raw Attorney At Dictatorship is "No!"

In the interest of the public who depend on the railroads every day, there can be one answer to this outrageous and dictatorial action by the leaders of the Switchmen's Union. And that answer is—

We are publishing this and other advertisements to talk to you at first hand about matters which are important to everybody.

CHATS

which appear to have the best breeding qualities. Usually it is desirable to retain enough cockerels to maintain a proportion of one male to 15 females among your medium and heavy breeds. For Leghorns, keep only one rooster for 20 hens. This will save feed for you, besides reducing the number of cockerels to a number that will encourage the development of better breeding stock.

How To Pick Cockerels

In selecting the cockerels you are going to keep, pick those birds that had long pinfeathers in their wings at hatching time or tail feathers at 10 days of age. The flockowner should prepare for this by making the promising cockerels early in life. Hold on to those cockerels that are free of standard disqualifications and have no bodily deformities.

Mr. and Mrs. M. C. Tucker wish to announce that there is now a Tucker Girl. Her name is Martha Ellen, and she arrived in Corpus Christi on June 25th. Her father and mother are Mr. and Mrs. Matthew Tucker, of that city.

CITATION BY PUBLICATION TO ROBERT LEE CARROLL
 Defendant, Greeting:

You are hereby commanded to appear before the Honorable 78th District Court of Wichita County at the Court House thereof, in Wichita Falls, Texas at or before 10 o'clock A. M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 31st day of July A. D. 1950 then and there to answer Plaintiff's Petition filed in said court, on the 25th day of May A. D. 1950, in this cause, numbered 47295-B on the docket of said court and styled Gaynell Carroll Plaintiff, vs. Robert Lee Carroll, Defendant.

A brief statement of the nature of this suit is as follows, to-wit:

After alleging jurisdiction, plaintiff further alleges that she and defendant were married on or about September 20th, A. D. 1947, and continued to live together as husband and wife until on or about June 25th A. D. 1949, when by reason of cruel harsh and tyrannical treatment on the part of the defendant toward this plaintiff without cause or provocation, was of such a nature as to render their further living together as husband and wife insupportable; that there was one child born of this marriage.

Wherefore, plaintiff prays that defendant be cited to appear and answer herein, and that upon trial hereof, she have judgment for divorce and for such other and further relief, in law or in equity, to which she may show herself justly entitled.

If this citation is not served within ninety days after the date of issuance, it shall be returned unserved.

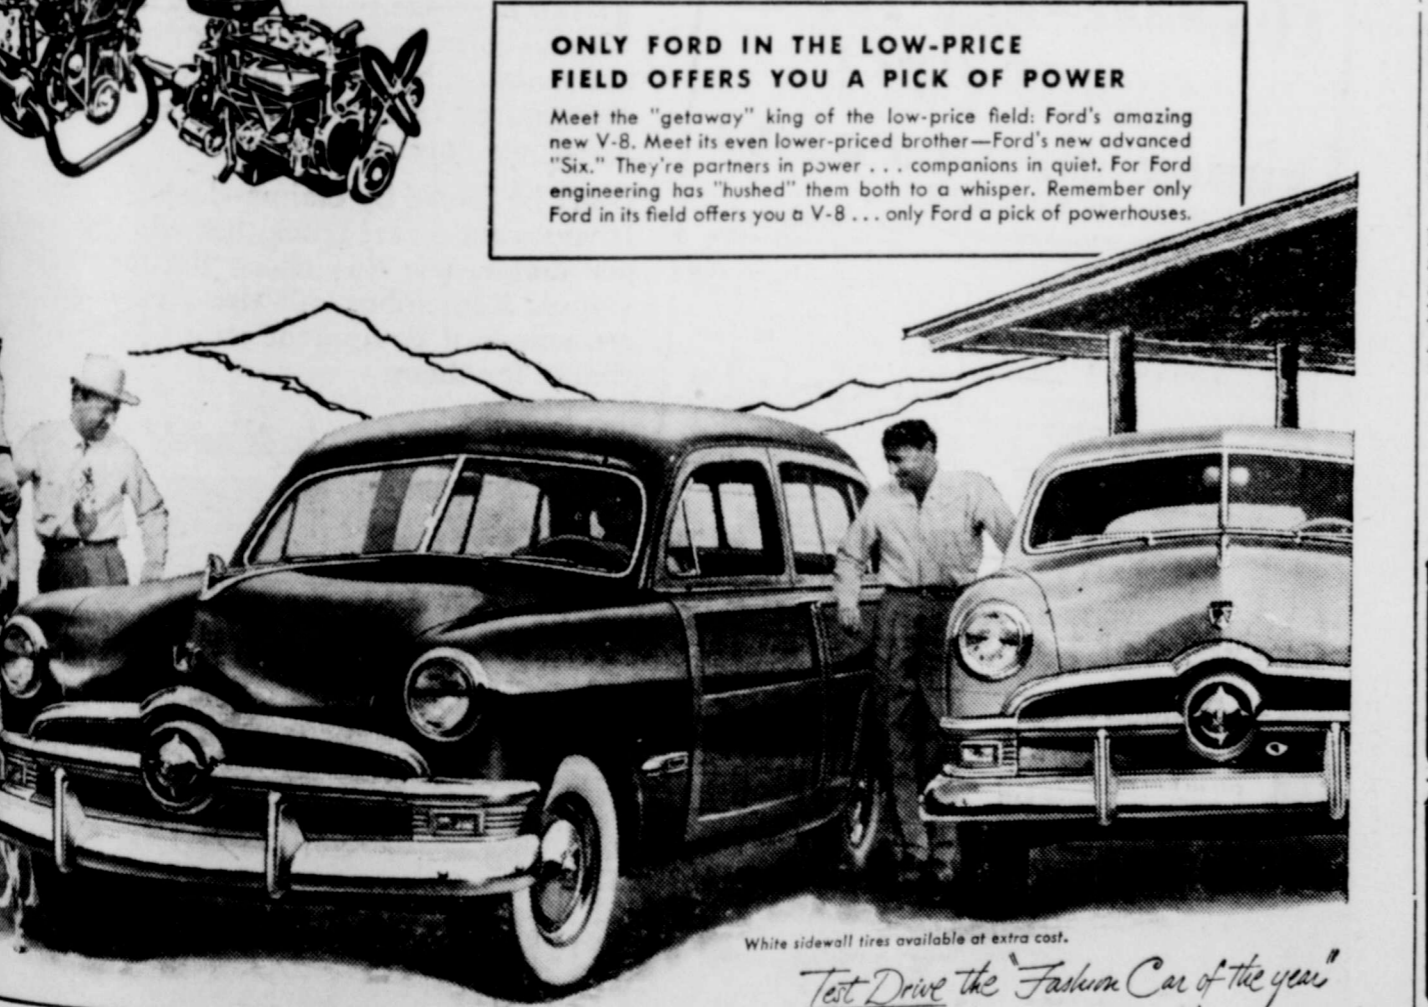

The Officer executing this process shall promptly execute the same according to law and make due return as the law directs.

Issued and given under my hand and the Seal of said Court, at office in Wichita Falls, Texas, this 17th day of June A. D. 1950.

Attest:
 (SEAL)
 Glenn Haynes, Clerk,
 78th District Court, Wichita County, Texas.
