Interesting Article On Hogs by Local Voc. Ag. Teacher

At the request of J. V. Brookshear, T. C. Bell, new Vocational Agriculture Teacher in the local schools, prepared the following article for the Star. According to Mr. Brookshear this area has more row crops grain this year than ever before and he wondered how it could be used for best profit, in view of the fact that the price of the grain is exceptionally low at this time. Perhaps the following article will throw light on his question:

In this section, hogs are fed largely on grain and consume relatively little roughage except when on pasture, although they grow much more rapidly than other livestock and produce young when less mature. As a result, hogs suffer much more frequently than other classes of livestock from inadequate rations. It is therefore necessary, if maximum profits are to be secured from pork production and get the benefit of our grain to balance the rations.

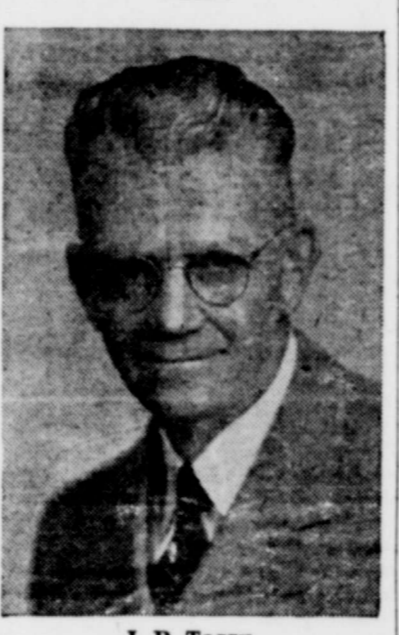

Because hogs are fed chiefly on grain particular care is necessary to provide in their ration a sufficient amount of protein and minerals of the right quality. Since the grains are low in calcium and proteins, it is necessary to feed swine a mineral and protein supplement supplying the essentials. Unless an adequate amount of calcium is furnished by other feeds, a phosphorus supplement must also be added to grain because it is also low in this mineral.

Last of Hardins Died Here Friday

Mrs. Salecia Forest Harwell, sister of the late financier and philanthropist John G. Hardin, died early last Friday at the home of a daughter, Mrs. W. M. Utley.

The 85 year old pioneer was the last remaining survivor of the Hardin family, known and revered throughout the state for their humanitarian work in educational and other fields.

Mrs. Harwell was born in Dyer County, Tenn., on November 29, 1864, and came to Burkburnett in 1932. She was married to Rufus King Harwell in 1882.

A two year institute of learning was endowed in Wichita Falls by Mrs. Harwell's brother, John G. Hardin, and for many years bore the family name, Hardin Junior College. Hardin's gifts to schools and orphan homes totaled millions of dollars.

Mrs. Harwell was the mother of the late I. E. Harwell, well known Burkburnett businessman.

Funeral services were held at 2 P. M. Sunday from the First Baptist Church with Rev. T. Lynn Stewart, pastor, officiating. Burial was made in the Burkburnett cemetery, under direction of Owens & Brumley.

Pallbearers were: F. T. Felty, Paul Browning, Cliff Cannon, J. C. Adams, Jimmie Johnson, Will Teal, H. A. Goodwin and H. D. Smith.

Arnold Holtzen Sells Top Calves At Sale Saturday

Mr. Arnold Holtzen, prominent farmer of the Clara Community, sold some fancy calves at the Burkburnett Livestock Auction Barn Saturday, the top price being 29.40 per hundred pounds. Cows brought a fancy price also, 21.70 being paid M. C. King who lives East of town.

There was a generous offering of stocker cattle which brought unusually high prices. There was a fair offering of hogs and some goats got in on this Saturday business. We could not help but notice quite a few fat cattle put through the ring that were definitely too full. Naturally the price was not so good on this kind. It will always pay the man who brings cattle to be sold to dry them out at least twenty-four hours before selling time. The weight gained will never offset the price besides there is more or less danger to handling them in hot weather when they are too full.

I attended an auction of about the same size as ours in a town in Louisiana last week and learned they charged 4% gross on all sales, large or small. Figure this out and see how lucky we are to have these fellows here sell them on a live and let live basis.

Square Dancers Go to Albuquerque

Buster Morgan and his Boom Town Mounted Square Dancers have returned from a very successful trip to West Monroe, Louisiana, and Natchez, Miss. They will rest here this week until about Friday then head for Albuquerque, New Mexico, to begin a nine day show on Saturday night through Oct. 3rd, then over to Roswell, N. M. for the 4, 5, 6, and 7th for four shows.

Advanced Tickets For T - O Fair Placed On Sale

Advance tickets are being placed on sale throughout the area for the Midwestern University Revue and the Championship Square Dance Contest of the Southwest, to be presented during the Texas-Oklahoma Fair and Southwestern Oil Exposition, October 2-7.

The Revue, a fast moving musical comedy show with variety attractions, which will be held four evenings, Oct. 2-3-4 and 5, in the T-O Fair theatre, includes a cast of 150 Midwestern students of drama and music, with the widely known MU Indian Band and the capella choir furnishing background music.

Plenty of beautiful co-eds in dance and chorus routines, with flash backs to the '20's will be featured along with the romantic theme of the production.

Mac Upshaw, semi-professional magician, will awe the audiences with his spectacular tricks of magic. "The Brooklyn Dodgers" will add hilarity to the show with their "low brow" foolishness. The capacity crowds will be taken from the "ridiculous to the sublime" by the outstanding performances of Jill Storey of New York City and Leslie Handy of Wichita Falls, both of whom have received a great deal of recognition on "big name" programs.

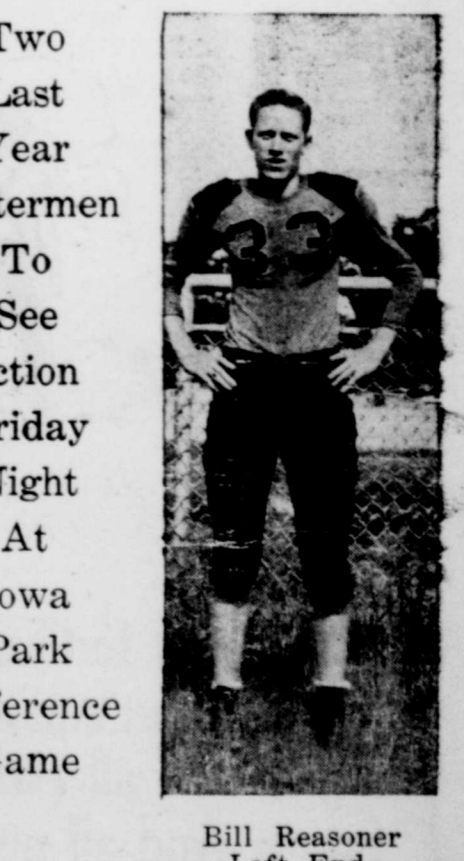

Pete Robinson, talented entertainer of Duncan, Oklahoma, and MU senior, will act as master of ceremonies for the revue. The cast includes many other area students of the Midwestern University.

Demand for advance tickets to the Revue and the square dance contest which will be held Oct. 6-7, has been great the past two weeks and capacity crowds are virtually assured for each night to the two big attractions.

BIG GUNS STILL ROAR

The present war in Korea seems to be a Russian Communist prelude to war.

The United States has an historical record that has rated high since the British burned the Capitol in Washington.

We left a pretty good record behind us in World War I and World War II. In passing, we draw attention to our ancient wars with the Indians and point out the fact that the redskins have gained higher standards these later years.

In 1898 the Cuban revolt against tyranny was brought to an end when the United States joined Cuba in cleaning up the Spaniards and driving them out of the Island.

And remember that the Czar of Russia called a Universal Peace Conference at The Hague in 1899.

Just take a peek at the history of Stalin and his fellow criminals who wrecked the United Nations. We are now in complete disagreement with Communists.

In the past dozen or more years the Russians have been undermining civilization. They have brought ruin upon the United Nations and destroyed World business, finance, and hopes of political honesty.

The World Almanac shows that ever since December, 1948, politics and statesmanship have been going from bad to worse, even though the United Nations World Capital occupies one of the most important buildings in the great City of New York. John D. Rockefeller bought the first tract of land for that building on the East River for \$8,000,000 and gave it to the United

Nations. The City of New York has been investing more than \$23,000,000 in the United Nations enterprises. No one can say that the United States of America has lagged behind in its struggle for the establishment of World Peace.

Nevertheless, the Communists, under the thumb of Stalin and Malik have practically strangled and destroyed the hopes of millions of people for peace throughout the World.

FLOWERS REMIND YOU

Flowers have character of certain people you know, if you but study them a bit. Fall flowers especially seem to remind us of human traits, distinctive qualities. There is the zinnia that makes its own way without much pampering, demands little care, remains strong, is old-fashioned and has no hidden charm. It is a very straightforward sort of flower. Whatever breeders do to fringe, quill or twist its petals to change it, it is still the zinnia. It is generous with its bloom and in a bowl of mixed blossoms, it needs no apologies.

Goldenrod, blue chicory, purple ironweed and the fireman's red of sumac cover large plots. They brighten neglected spots, make lowly places into royal sights with their presence. Dependable, they will bear a flowerlet or two, even after the leaves are rusted and brown.

Fall asters lend daintiness to a time lush with croppings of hardier stock, of fattening grapes and plump apples. While insects make haste, the asters nod their assurance that there is such as serene and calm perseverance.

We are the little people in man's world, flowers are the little people of the vegetable kingdom.

A NATION AT WORK

The close of August found the employment level in the U. S. high, rising to 62,367,000 jobs. It wasn't over five years ago that the optimists dreamed of arriving at 60 million jobs. Of course the Korean war has already increased that level about one million. Today we are near 100 per cent capacity of production and consuming almost all of this as we go along. However, in achieving a high living level, we must meet the cost of war it the same high level. Sure, we don't like it, but as someone reminds us, in order to have your cake and eat it, you better bake two cakes.

PLEASE PASS THE SODA

A labor strike in chemical factories which make soda ash for glass, causes a scarcity of both glass and soda. Usually there is enough cracked glass needed to melt down for additional glass manufacture, but not today. So, as a result, some cities are collecting broken bottles, just as happened during wartime. As for the soda, we could use a little of it for an up-set stomach caused by thinking of the ever-increasing power of labor unions to control our well-being. Their influence works against as well as for us, but the strike medium is not always as clear as glass in its purpose. We take much of this with a pinch of salt, and follow up with a dose of soda.

Methodists to Have 'Widen Circle Day'

Sunday is "Widen The Circle Day" in the Methodist Churches of the Wichita Falls District. This will be a day when every church in the district will work to get every member out to Sunday School and church. If those who have been a little lax in their attendance will help us Sunday, our church will be filled this Sunday. The Board of Stewards will meet Monday night at 7:30. On Wednesday night at 7:30 we are to have a reception at the church for all members and friends of the church. At this reception everyone will be shown through the church which has recently been redecorated. The church is more attractive now than it was when it was built twenty-five years ago. Make your plans to attend this reception on Wednesday night, and see where the money has been spent which you gave to the repair program. Come to church Sunday. Your church needs you. You are in need of your church.

J. W. Keller and Family

The following poem was used very effectively in the service held for Mrs. Keller Sunday:

TIME YOU OWN
 The clock of time is wound but once,
 And no man has the power
 To tell just when the hands
 will stop,
 At late or early hour.

Now is the only time you own;
 Live, love, toil with a will;
 Place no faith in tomorrow, for
 The clock may then be still.

O GOD of NATIONS

YOU IN THE CHURCH THE CHURCH IN YOU

Character is a by-product of the church. It is here that young and old alike are showered with benedictions that fanily and influence for a better citizenship and a stronger democracy. In the church the ministerial are molding religious character. Statesmen today declare that the church alone can furnish leadership to handle the affairs of state in these perilous times. Then we children should go to the church of our choice on Sunday. "You in the Church and the Church in you" form a combination for good. Be a regular CHURCH-GOER and a daily BIBLE READER.

Williams Newspaper Features P. O. Box 211, Ft. Worth, Tex.

Today the 'Great God of Nations' is pleading for unity of mind, for brotherly love between men and for peace on earth. Jesus the greatest of teachers presented to men truths, which were then as they are now, of great importance to all mankind. His utterances, without revision, are most pertinent to modern life and make universal appeal. In them are heights which no man has scaled; depths which no man has sounded; reaches of length and breadth which no man has explored. Universally the need for blessings from the great 'God of Nations' has never been so great. He commanded men to learn of Him and promised to show them the way.

Pastors, Priests and Rabbis are pooling their interests in an effort to challenge All Nations to an understanding of the term 'Peace.' Prayers from millions of earnest seeking, warm hearted, religious people, go up to the great 'God of Nations' every day for those men who are entrusted with our destinies.

Millions are now saying of Jesus: "There was the true light, even the light which lighteth every man, coming into the world." Whether judged by subject matter, the method of its presentation, or its effectiveness in influencing life... Jesus enjoys pre-eminence among teachers. If men would but seek out His will; if world leaders would but ask His guidance when difficult, international problems arise... then solving would not be such a surprise, for in Him men of faith find all things possible.

Rodeo to October 1st

Sept. 10 (Echo)—The "Most Rodeo on Earth," will be held each October 1st in Huntsville, at the annual Prison Show, and this year will be "bigger and better" than the previous years.

Albert Moore, director of this rodeo, insists that he'll have the wildest and most exciting rodeo ever staged during the 1950 Prison Rodeo.

Each performance will include novelty acts, such as bareback and saddle bronc riding, etc.; and exclusive Prison Rodeo features, such as the hilarious Chariot Race, the wild mare milking contests, the breathtaking mad scramble, the fine Prison Military Band, the Goree Cow Girls, and the Rhythmic Stringers.

Mr. Roy Dillon, widely known as the "voice of the prison show" will again MC the performances.

Mr. French M. Robertson, chairman of the Texas Prison Board's Rodeo Committee, announced that "Opening Day at the Prison Rodeo will be designated as 'Governor's Day,' and that Governor Shivers had accepted the Board's invitation to be present as honor guest." The Texas Prison Board will also be host to the members of the Legislature as guests of honor.

Each member has been issued a personal invitation by General Manager O. B. Ellis. In a further display of honor to Governor Shivers, A. C. Turner, in charge of Rodeo Publicity and Director of Rehabilitation has asked all Texas newspaper and radio men to be his guests on Governor's Day, and a special "press section" is being reserved for them.

Reserved seats are now on sale at the Prison Rodeo Ticket Office, Huntsville. Prices are \$2.00 plus tax, totaling \$2.40. Plenty of seats will be available with the new and modern bleachers replacing sections of old wooden stands. Proceeds are deposited in the prisoner's Educational and Recreational Fund to provide schooling, library, athletic supplies, eye glasses, and other medical aids not provided for in state appropriations.

Mr. French M. Robertson, chairman of the Texas Prison Board's Rodeo Committee, announced that "Opening Day at the Prison Rodeo will be designated as 'Governor's Day,' and that Governor Shivers had accepted the Board's invitation to be present as honor guest." The Texas Prison Board will also be host to the members of the Legislature as guests of honor.

CHICK CHATS

By Clark Gresham

Extra Profits With Fall Chicks

In the past, practically all pullets were hatched at one time of the year — in the spring. Now, under modern conditions, many poultrymen find it profitable to hatch pullets during other seasons. By doing this, raisers find they can maintain a steadier rate of egg production, with one flock taking over the egg-laying chores when the other drops off.

The first consideration under this plan is the time of year the pullets will mature and begin to lay. A brood of fall chicks will be ready for production in five or six months. Started now, these chicks may be laying eggs by February or March. In this way, poultrymen get in on some of the higher egg prices which usually prevail during the winter months.

Advantages

Chicks hatched at this time increase the efficiency of your business by making it possible to replace birds that die or are culled during the year. In addition, less brooding equipment is needed and more efficient use is made of it. Other advantages are: Egg production is more uniform through the year; there is better yearly distribution of labor; livability is more likely to be better in the fall (more chicks are usually lost when they are hatched in hot weather); and more chicks are produced from the same breeders.

Disadvantages

To make fall hatching pay, you should also keep in mind some of the disadvantages. For one thing, the cost of growing pullets will probably be somewhat higher, since they require a longer period of artificial heat in brooding. Also, pasture cannot be utilized fully. And, although it isn't always the case it may be difficult to maintain production through the following fall and winter.

But in view of the many advantages to be derived from a fall brood of chicks, it can easily be to your benefit to raise a flock of fall pullets. With proper attention to chick management, sanitation, and medication, you — like many other raisers — can make fall hatched chicks earn extra profits for your next year.

Literature Club Opens Fall Season

The Current Literature Club opened the fall season with a morning coffee at the home of Mrs. Charlie Boyd. The meeting was scheduled for nine o'clock, but at eight the hostess committee went to the home of each member and informed them it was a come-as-you-are party. They went attired in curlers, house coats and house shoes.

The hostess, dressed in house coat, and without make-up, served coffee from a silver service. The table, centered with an arrangement of dahlias, was laid with a beautiful linen cloth.

Mrs. Fred Hunt, the new president, presided over the business session and gave the welcome address. Roll call was answered with "What Club

Work Means to Me" Mrs. Dodson gave "The Study Club and Its Mission."

Mrs. Dodson gave "The Study Club and Its Mission." Mrs. Jeffers, secretary, read the constitution and By-Laws, and Mrs. C. R. Chambers gave the resume of the yearbook.
