THERE ARE WAYS

Each week when a woman goes to the grocery to buy, she finds the cost of almost all essential foods, rising. It angers her, perhaps puzzles her. Hoarding and profiteering is the answer to her question. Hoarding creates a demand, a demand makes possible and probable, the profiteering. But, the women who pay the increased costs, the men who work to make the money to buy the higher priced food, are voters. Maybe they are voters who won't forget. Perhaps they figure that it our government, through Congress, can create inflation, as it did four years ago, it can prevent inflation, as of today. Statesmen might bear this in mind and do something about it before November.

NO MORE GUESSING

One of the ways the Post Office Department expects to save money, is the cut of its "directory service". Remember when you addressed a letter to the wrong street, or number, or even state, and by some strange means, the letter reached its destination? That "means" was the "directory service" of the Post Office Department. Now the magic is over, the guessing game has ended for the time being and you are on your own. It was your mistake in the beginning, so the postoffice will return your mail to you for correction. You may think the curtailment of such a service won't help the Department deficit very much, but a harried taxpayer will remind you that every little bit helps.

IT IS ONLY RIGHT

The private or private first class who enters his country's services to face hardships, perhaps risk his life, has enough on his mind without worrying about feeding and clothing his family, while away from it. Wives and children of servicemen are a nation's responsibility, at that time. The young soldier should be provided an allowance sufficient to guarantee maintenance of his family. A domestic crisis is as important to him as a national crisis. Restoring wartime dependency allowances is necessary. Objectors say that men with large families shouldn't be called, only men who can get by on the pay and allowances received at present. That is all right if such a plan could be followed, but in case of a major mobilization it couldn't be. In peacetime the man who enters the service knows it is a case of working up in rank and pay, and it is up to him to adjust his private responsibilities to conform to his pay scale. But it is different with the draftee, the National Guardsman or Reservists, who finds himself liable for active duty with a different pay scale. We don't believe that an \$80-a-month soldier should have another \$200 for the family, but we don't believe in placing him where he can't pay rent or buy milk for the youngsters.

Keep Accurate Laying Records

Knowing where you stand is an important consideration in any business, but in poultry and egg production it is particularly important, since the trends of a flock frequently influence your profits suddenly—and decidedly.

To help stay on the profitable side of poultry raising, most raisers keep up to date feed consumption and egg production records on their birds. This means keeping figures on a flock right from the start, or as soon as they go into the laying

house, and continuing them as long as birds remain productive.

Accurate records help you in a number of ways. In the first place, they help you compute your production costs. In addition, they help you spot the weak points in your poultry raising program.

Miscellaneous Costs

Records give you a continuous control over your poultry raising operation. That is, they give you an accurate picture of your profits—or losses—at all times. By maintaining a record of feed costs and all miscellaneous costs, such as investment, labor, lights, heat, fuel, etc., you can control operating costs and keep them at an efficient level.

These figures, together with

income data derived from the sale of eggs, enable you to quickly determine your poultry profits.

Daily and monthly records also point out the weak spots in your management program. When there is a sudden shift in egg production, many times records help you find the trouble, pointing out various flock irregularities. This enables you to take immediate steps to improve conditions, thereby heading off what may be a serious disease outbreak or a decided drop in egg production.

Help Egg Quality

Records also help you maintain high egg quality. By noting production records of your birds each day, you can more readily determine the non-layers and poor layers in the flock. By eliminating such birds, you not only increase flock efficiency, but you also insure good quality in your eggs. And quality eggs bring the highest prices.

When you set up our records, be sure you establish a complete record system. Itemize your costs and operating expenses and keep all information up to date. Your record-keeping will then begin to pay!

Texas Retail Sales Up 22 Per Cent

Texas retail sales for August 1950 climbed 22 per cent from a year earlier, the University of Texas Bureau of Business Research reported.

Preliminary tabulations placed August sales at an estimated \$576 million, or 4 per cent below the all time peak reached in July 1950.

August sales of durable goods stores fell 10 per cent from the previous month, while nondurable goods stores registered a 5-per cent gain. From the same month a year ago, durable sales were up 32 per cent to outdistance the 11 per cent increase for nondurable goods stores.

Household and appliance stores presented a 23 per cent reduction in August sales from the previous month. Sales of motor vehicle dealers were off 16 per cent; farm implement dealers, 12 per cent; and hardware stores, 7 per cent.

Counter to the over all monthly decline for durable goods stores, jewelry sales jumped 21 per cent from July. Lumber and building material dealers and furniture stores turned in smaller increases of 6 and 3 per cent, respectively.

Without exception all durable goods stores recorded higher sales in August 1950 than in the same month a year ago. Sales of lumber and building material dealers jumped 63 per cent; jewelry stores, 35 per cent; farm implement dealers, 32 per cent; furniture and household and appliance stores, 29 per cent; and motor vehicle dealers, 25 per cent.

Women's specialty shops, with a 19 per cent gain, tallied the biggest July to August advance among nondurable goods stores. Florists and office, store, and school supply dealers also showed increases of 18 per cent, and shoe stores reported a 15 per cent upturn in their August sales. Smaller gains ranged from 2 to 12 per cent.

On the other hand, August sales of filling stations decreased 12 per cent from July; and men's and boys' clothing stores, 7 per cent; country general stores, 3 per cent; grocery stores reported a fractional decline.

Increases over August 1949 sales for nondurable goods stores varied from a 3 per cent gain for women's specialty shops to a 20 per cent climb for shoe stores.

Jr. Reagan Beats Burk "B" Bulldogs

Burkburnett's "B" boys met Reagan Junior High from Wichita Falls last Thursday night at Bulldog Stadium for the first contest of the season. Although Reagan took the game 13 to 6, if the Bulldogs had settled down, it was their game by at least two or three touchdowns. Most of the lads were playing in their first game and were very nervous and jumpy.

In the second quarter Burk scored first when Norman Dodson scrambled through from the 30 yard line for six points. Still in the second quarter, Jimmy Robinson with the Red Birds intercepted a Burkburnett pass on the 15 yard line and raced for their first counter. A minute or so later Burk fumbled on their own 25 yard line, which was recovered by Reagan. Robinson carried to the 15 then Baker went around left end for another touchdown. The extra point was also added by Baker.

During the last half both teams see-sawed up and down the field, neither gathering enough strength to push across the goal line.

This Thursday night, the local B boys go to Electra for a game with Electra's B's. They need a good crowd to go with them and give them moral support in their young and tender football days.

Successful Year for County 4-H Clubs

Backed by last year's record membership and achievements, Wichita County's 4-H Clubs are in the midst of a revitalization program now in preparation for the school year ahead.

First meetings of the county's clubs will be held within the next two weeks, and new officers will be chosen then. The clubs did not meet during the summer.

Not only was last year a record one for membership—735 boys and girls—but also for the number of active clubs—14 in the county, six of them in the Wichita Falls schools.

But there may be a drop in membership this year, according to Bill Pallmeyer, assistant county agent and leader of the program, to whom much of the credit must be given.

Even so, any boy or girl interested in 4-H work may attend the meeting of his school's club for further information, and a club will be organized in any school where the students have evidenced sufficient interest.

Pallmeyer also urged parents of 4-H clubbers to meet with the youngsters and take an active part in leadership aspects of club work.

Club members tallied an almost unbelievable list of achievements during the last year of school. They included:

The county 4-H summer camp was attended by 136 boys, the largest number ever.

There were 16 boys at the Texas A & M College state roundup.

Sixteen attended district 4-H camp.

And Wichita County was represented at the state conservation camp by one club member.

In addition, Wichita County had representation at the State Fair of Texas, the Houston Fat Stock Show, A & M College judging contest, Texas-Oklahoma Fair, Fort Worth Fat Stock Show.

Entries included not only animals, but various teams: Livestock judging, dairy judging, grass judging, crop judging, tractor maintenance, range conservation and dairy demonstration.

Those were extra curricular activities, more or less. Active members of the 14 clubs busied themselves during the school year with these individual or club projects:

Seventy-four members fed a total of 88 beef calves; two worked on home beautification projects; 79 cared for 167 hogs; 17 were in charge of 36 dairy animals; four members had 10 sheep, 27 fed 30 horses; 252 raised a total of 10,150 chickens, two had 16 turkeys, one had a peafowl, one had ducks, another had pheasants, four work-

ed orchards totaling 5 1-2 acres, 138 had gardens totaling 36 1-4 acres, crops aggregation was 81 acres, and including such crops as corn, oats, wheat, alfalfa, and cotton, were in charge of 42 members, 90 boys and girls raised 254 rabbits (last count), 11 had 36 guinea pigs, 4 clubbers cared for 16 hamsters, one worked with bees, 56 entered the North Texas Field and Stream quail feed and cover contest, and 75 entered the Bridwell Soil Builders contest.

Four-H Club members may not have as bumper a season during 1950-51 as they experienced last year, but Pallmeyer is convinced they will be working hard—as usual—toward improving rural America.

Control Venereal Diseases Urges Dr.

Venereal infections, notably syphilis and gonorrhea, will probably increase sharply in cities and towns near military centers in the near future, the State Health Officer Geo. W. Cox has predicted.

He urged all cities, especially those in which greater numbers of military personnel were expected, to intensify their efforts to control venereal diseases.

Experience during World War

Two, the health official said, indicates that unless civilians become as concerned about the venereal disease problem as are military and public health authorities, there will "most certainly" be a great increase in venereal disease infections among men in uniform and in the civilian population as well.

"That doesn't mean all soldiers are destined for VD infection," Dr. Cox declared. "It

means simply that vice conditions, poorly supervised recreational facilities, and an indifferent attitude on the public are inevitable around military posts and all contribute to higher VD rates."

"These young men were only recently civilians," he pointed out. "They worked or went to school in communities no different than yours or mine."

He urged that they be provided with wholesome recreational facilities while "in your town. It will help make their lives in uniform a little less drab and monotonous."

The State Department of Health has been working for years in close cooperation with the military in controlling VD and other diseases affecting men in uniform.

"It's a very important part of the civil defense program," he said. "Disease can incapacitate a man quite as effectively as a bullet."

An announcement
by Henry J. Kaiser

Today, at your Kaiser-Frazer dealer, you will see what we believe to be the most important car that America has produced since the automobile became a necessity of daily living.

It fills the needs, the wants, the purchasing power of all America as no other car has done in the last ten years.

It is rugged. It has outstanding maneuverability, handles and parks easily, and is powered with our new Super-sonic Engines which deliver up to 30 to 35 miles to the gallon.

The Henry J. is the lowest-priced car in the low-price field. It has the full, generous proportions to which Americans are accustomed. We have given it the best combination of performance, comfort, styling, and economy of operation.

It is the car that you and every American family can afford to buy, to operate, to maintain...and be proud to own.

The Henry J... the lowest-priced car in the low-price field.

The most important new car in America!

Here today... The

Henry J.

Available in two models: Henry J (as illustrated above), Henry J Deluxe (six-cylinder at additional cost).

Important because... it's Smart! Smart to look at... smart to own! Notice the extra-wide doors... front seat 58 inches wide... head room and leg room galore! And—look! The back of the rear seat folds forward, giving you 51 cubic feet of storage space, almost double that of the largest sedan trunk compartment!

Important because... it's Tough! Husky, Double-Channel Frame, reinforced like a steel bridge! The rear axle Hypoid geared, as in most expensive cars. Extra-wide windshield and windows give you the largest vision area in any low-priced car... short turning radius permits the easiest parking.

Important because... it's Thrifty! You get 30 to 35 miles per gallon from the quiet, responsive Super-sonic Engines. (Henry J—4 cylinders, Henry J Deluxe—6 cylinders.)

Lower first cost... lower maintenance... lower repair bills... lower insurance... lower operating cost. Your savings, in just two years, can more than total the down payment on the Henry J.

Built to Better the Best on the Road!

Costs less to buy... less to drive... less to maintain!

Donna Rose Greer Has Party On Second Birthday

Little Miss Donna Rose Greer was honored with a party by her parents, Mr. and Mrs. Frank Greer, on the occasion of her second birthday, September 20 at 4 P. M.

The little guests were greeted by Donna Rose and were then seated in the party room which was decorated with balloons and floral arrangements of dahlias and chrysanthemums. Two games were played with Donna Kay Hudson winner in the Donkey game and Richard Bencoter and Danny Taylor winning the Clothes Pin game. Pictures were made of the group.

Richard Bencoter pulled in a red wagon loaded with birthday gifts for the honoree. Donna Rose opened her many gifts and then blew out the two candles on her beautifully decorated birthday cake. Rev. Minga greeted the guests in his own friendly way.

Refreshments of ice cream, cake, candy and bubble gum were served the guests. Balloons were given as favors.

Physical Checkup Like Treasure Hunt

A head to toe physical examination might be likened to a treasure hunt with your doctor as the hunter and your good health as the treasure. He has to keep a constant lookout for any pirates along the way, too, threatening signs that may rob you of your fortune.

The route must be considered as a whole, not as separate pieces but as marked clues along the path with good health ascertained only if all those clues lead to the same conclusion. Perhaps one of the best examples of the tie-in between head and toe in such an examination is the finding of tophi, small bumps on the ear containing uric acid crystals, which are a clue to a bad hurt you might have in your big toe; these tophi are frequently the first indication of gout which usually affects the big toe.

The head as a whole, its size, shape, movements, the hair on the head, and the contour of the face may also present less obvious signals of distress or may be definite clues as to illness.

In infants and children, especially, deviations from normal in the size of the head are significant. The soft spots on a baby's head always come in for a special scrutiny from the doctor; bulging or depression of those spots may be an indication of disease, and closure or failure to close at a proper age may result in abnormal size of the head.

An extremely large head may result from many causes. Rickets may be the cause of a large, bulky head. The condition commonly known as "water on the brain," medically known as hydrocephalus, results in a large head because of the increase within the skull of the amount of brain and spinal fluid. Sometimes, though rare-

ly, the mechanism of calcium usage of the body gets out of whack, leading to an increase in the thickness of the skull and enlargement of the head known as Paget's disease.

Rail Shipments Of Texas Fruit Up

Rail shipments of fruits and vegetables in Texas stepped up 2 per cent in August 1950 as compared with the same month a year earlier, the University of Texas Bureau of Business Research reported.

Onion shipments showed a 27 per cent increase in August 1950 as compared with August a year ago. Shipments of potatoes and watermelons slid 2 and 9 per cent, respectively, during the 12 month period.

Mary Martha Class Officers Installed

The highlight of the year's activities of the Mary Martha Class of the First Baptist Church was the installation dinner held Thursday, Sept. 14.

The party left the church at six o'clock and motored to the Browning Bros. Ranch in Oklahoma, where a delicious covered dish dinner was served to members and their husbands.

The officers for 1950-51 were installed in a simple but impressive ceremony by Mrs. Fred Fewin, using the theme, "The Tree of Life."

A social hour followed and all expressed their thanks to Mr. and Mrs. Browning for the lovely place in which to hold the service.

Enjoying the occasion were: Messrs. and Mesdames Brack Preston, A. H. Lohofener, Fred Fewin, Ralph White, F. M. McMurtry, Barney Landers, Sam Lax, Lee Willis, R. P. Thaxton, J. G. Cheney, W. R. Karkalits and Tommie, A. K. Lassiter, Woodward, Sam Wood, and Misses Jewel Reed and Bessie McKnight.

9:45 A. M. The Church in Bible Study. This is Family Day in the School of the Church. It is the first Sunday of the new Sunday School year and our goal is to have every member of the school present, together with at least 100 visitors. Every member of the family should attend. The Lord blessed us with 569 present last Sunday. "Praise Him from whom all blessings flow." You have a most cordial invitation to attend this Sunday.

10:50 A. M. Morning Worship. Sermon: "Neither Barren nor Unfruitful." This will be a great installation service for all officers, teachers and workers in all organizations of our church. These are asked to sit together in the center section which will be reserved. Don't miss this service. Pray that the Lord will be honored in it.

6:30 P. M. The Church in Training. "We study that we may serve." Our goal in the Training Union is every member present with at least 50 visitors.

7:30 P. M. Evening Worship. The Sermon: "Some Glorious Truths." A Bible message of comfort, strength, and help.

Wednesday, 7:00 P. M. Officers and teachers meet to study next Sunday's lesson. 7:35 P. M. Prayer Service.

Babylund is open for all regular services of the church. Capable attendants are in charge. Our church bus covers a regular route to furnish free transportation for all who have no way to attend our services.

We extend to you a cordial invitation to attend the services of this friendly, spiritual, New Testament Church.

Mrs. R. H. Henry Entertains Club

Members of the University Study club held their second meeting of the year last Wednesday afternoon at the home of Mrs. R. H. Henry.

Mrs. J. H. Rigby, president, conducted the business meeting. A special program, "Women in Welfare Work" was introduced by Mrs. O. E. Melton. Mrs. S. S. Reger gave an interesting discussion of Frederick of Greece; Mrs. R. P. Reagan gave the life of Margaret Sanger, and Miss Bess McGinnis discussed Lady Mollie Huggins of Jamaica.

Refreshments were served to fourteen members.

Wichita Falls Art Sidewalk Exhibit Sat., September 30

The Sidewalk Exhibit of the Wichita Falls Art Association will be held this Saturday in Wichita Falls. The exhibits will be located on 9th Street between Indiana and Scott, and up Scott Street to 11th on both sides of the street.

Members and interested patrons of the Arts, who wish to exhibit paintings or Craft, will please contact Mrs. Dan Sheriff, phone 550-J not later than Thursday evening. Non-members are especially invited to show at this Sidewalk exhibition. Mrs. Sheriff has contacted a number who will exhibit, but she has been unable to contact some she feels would exhibit.

Plans for the program will be discussed at the meeting of the Burk Burnett Auxiliary of the Wichita Falls Association which meets Thursday evening, (tonight) at the Methodist Church. The president of the Association, Miss Jenny Robertson and a group of Wichita Falls members will be present. Everyone is invited to attend this meeting. Mrs. Sheriff says she is well pleased with the work of the Burk Auxiliary, but would like more members to join with the group.

Mr. and Mrs. Sam Shrum of Eunice, New Mexico, are visiting Mrs. Shrum's mother, Mrs. Minnie Wallace.

REMEMBER WHEN

... it was either too hot or too cold

Many's the tea-kettle of hot water you toted from the kitchen to the tub. Remember? It's an almost forgotten ritual nowadays, for nearly every modern home in the Gulf South enjoys the convenience and economy of an automatic gas water

heater. Natural gas serves your whole family—helps with all the big jobs in the home at a cost of only a few cents a day.

An automatic GAS water heater is an essential factor in modern living... keeps a plentiful supply of hot water always on hand to make your household tasks easier, more enjoyable. See the new gas water heaters today wherever gas appliances are sold.

A large part of the cost of our public school system is defrayed through taxes paid by the companies in the oil and natural gas industry. They are good friends of yours and good citizens of the area. Through their payrolls and local purchases of equipment and supplies, they place extra millions of dollars in circulation. That's the way the American system of Free Enterprise works. The successful operation of a business benefits everyone—employees, investors and public alike.

From where I sit... by Joe Marsh
New Use
For Old Windmills

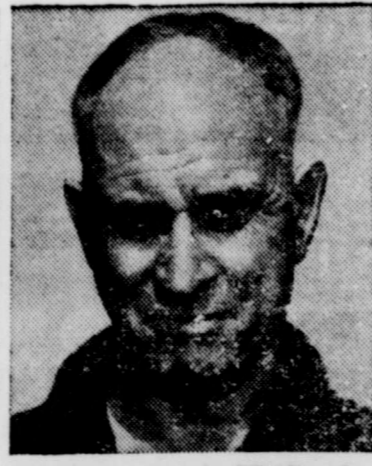

I drove past Larson's farm last week and saw him perched on top of his 75-year-old windmill. "Still planning on tearing it down?" I shouted up to him.
"Not on your life," says Curly as he climbs down. "I'm getting myself a television set from Buzz Ellis' and he says this windmill is going to come in mighty handy."
"You see," Curly went on, "I'm going to put my TV antenna right on top of it. Since the windmill is higher than the house, I'll get the best reception around here—but if it wasn't for Buzz and his advice, I'd have scrapped it."
From where I sit, Curly's success as a farmer and his popularity in town is due, in a large part, to his open-mindedness and his willingness to listen to people and their opinions. He'll listen to Buzz Ellis over a malted milk or he and I can talk politics—each with a glass of temperate beer. Yes, Curly's as modern as television itself!

Don't Be Satisfied With Symptomatic Relief!

HADACOL NOW MAKES IT POSSIBLE TO RELIEVE THE CAUSE OF YOUR SICKNESS

Neuritis Pains, Stomach Disturbances, Indigestion, Gas, Constipation, Certain Nervous Disorders and a General Run-down Condition
When due to lack of Vitamins B₁, B₂, Iron and Niacin in your system!
Read How These Folks Benefited Who Had Such Deficiencies

Annamatten, 4731 South West Ave., Tulsa 7, Oklahoma, suffered from stomach distress for quite some time. Had spent much money trying everything possible for relief and was in bad health when he started taking HADACOL. He says, "After taking the bottles of the \$3.50 size, I gained 27 pounds and now I'm anything I desire and nothing I have no trouble." (HADACOL gives such wonderful relief because it actually reaches the REAL CAUSE of each distress [gas pains, indigestion, constipation, etc.] due to such deficiencies. And continued use of this HADACOL helps prevent distress from returning.)

Mrs. Mabel Kitchen, 1650 Amsterdam, Cincinnati, Ohio. "Before I started taking HADACOL I had aches and pains of neuritis in my shoulders, my back and arms. I could hardly move without having those terrible pains. Then I heard about HADACOL. After the second bottle the pains and aches were about gone. I'm now starting my fourth bottle and am on top of the world. I eat well and, best of all, the aches and pains are completely gone." (Mrs. Kitchen is a very smart woman because she relieves the REAL CAUSE of her neuritis pains due to such deficiencies. HADACOL often brings a wonderful improvement within a few days' time.)

Mrs. J. Scieszinski, 514 Kruger, Ottumwa, Iowa, writes: "My daughter, Marilyn Sue, is 5 years old and for some time lacked pep, had a poor appetite, ate well and, best of all, she likes to take HADACOL, too." (HADACOL is a great "builder-upper" for sick, nervous, puny kids whose systems lack precious Vitamins B₁, B₂, Iron and Niacin. A big improvement in their well-being is often noticed within a few days' time after taking the great new HADACOL.)

Mr. Henry Angol, RD No. 1, Springfield, Ohio. "I used to suffer great pain from neuritis aches in all parts of my body, especially in my legs, arms and shoulders. I never got any real relief until I tried HADACOL. After taking several bottles, my pain is all gone. And I'm working every day." (Now there's a smart man! Mr. Angol took HADACOL and relieved the REAL CAUSE of his neuritis pains because they were due to such deficiencies. HADACOL is helping thousands upon thousands of grateful men and women troubled this way. Why don't you give HADACOL a chance to help you? Start taking it today!)

IMPORTANT! Why don't you get that wonderful HADACOL feeling everyone is talking about? In this modern age, wise folks are no longer satisfied with symptomatic relief because now it's possible to relieve the cause of such distress with that wonderful new HADACOL. HADACOL not only supplies deficient systems with extra quantities of Vitamins B₁, B₂, Iron and Niacin but also helpful amounts of precious Calcium, Phosphorus and Manganese—vital elements every human being must have to maintain good health. You owe it to yourself to give HADACOL a fair trial. Many doctors recommend this great new HADACOL. It's sold on a strict money-back guarantee. Trial size, \$1.25. Large family or hospital size, \$3.50.

Government Has Best-Seller Books

The Federal Government is carrying on a thriving book-selling business, the Government Printing Office announced today, as it found another best-seller on its hands—the second within a month. Orders started pouring in to the Superintendent of Documents in Washington for the National Security Resources Board's newest publication entitled "United States Civil Defense," which sells for 25 cents. Over 5,000 were sold the first day of an initial printing of 50,000 copies of the book, which is described as the most comprehensive publication issued to date by the Federal Government on civilian defense.

The Government's other best seller called "The Effects of Atomic Weapons" was released last month and is now in its fourth printing. Over 40,000 copies have been sold at \$1.25 each of this book issued by the Atomic Energy Commission which describes what may be expected when an atomic bomb explodes.

REMEMBER the Sabbath Day to keep it HOLY

IN THE Ten Commandments, which do you suppose gets the larger treatment? Reverent observance of the divine order for a day of rest and of worship gets chief emphasis. A moment's reflection makes the reason clear. The man who does not take time to keep the Sabbath will likely forget to worship the God of his fathers; he who does not reverence God cannot be expected to regard his neighbor and his neighbor's goods. Sabbath observance stands, therefore, at the very center of religion and of morality. Then if you disregard the Sabbath you do it at the peril of your soul!

NOTICE the argument of Moses. God could get His work done in six days, even the creation of a universe and all its creatures. Surely you do not need the seventh day for the lesser tasks of your doing.

YOU are under the command of God; you are a part of His creation; there is nothing more important for you than that you remember God and your relation to Him. The Sabbath is such a time of remembrance. The church bell, the rest from daily toil, the quietness in the busy street, the need of your own soul, unite to remind you of your God and His day. The law giver commanded His people to keep this one day sacred to the Lord; to use it for one's own profit is to rob God of the time which belongs to Him.

HERE is an ancient command, never more important than today. The press of the material and the secular was never more insistent; things want to get in the saddle and ride mankind. Remember the Sabbath; then you will worship God and know that you are the eternal child of the Highest. He who remembers the Sabbath most is most likely to remember to attend his church.

YOU IN THE CHURCH THE CHURCH IN YOU
Character is a by-product of the church. It is here that young and old alike are showered with benedictions that fortify and influence for a better citizenship and a stronger democracy. In the church the ministerial are molding religious character. Statesmen today declare that the church alone can furnish leadership to handle the affairs of state in these perilous times. They wish with our children should go to the church of our choice on Sunday. "You in the Church and the Church in you" form a combination for good. Be a regular CHURCH GOER and a daily BIBLE READER.

SPORTS AFIELD

By Ted Kesting

Did you realize that almost every wild hickory, walnut, butternut, pignut and king nut in this country was planted by a squirrel? Some scientists believe it was squirrels which speeded up the reforestation of all the parts of North America swept bare of life by the great ice sheets of the glacial age. And of all the squirrels, the gray is the most efficient tree planter. Donald Culross Peattie, one of our most famous naturalists, thinks that if the gray had studied at the Yale School of Forestry he couldn't do better by the woods.

The life of a gray squirrel usually begins at the end of winter when mating is at its height. Four or five young are born about 44 days after the breeding. The babies don't open their eyes for 36 days, and are utterly helpless for eight or nine weeks. They are naked, their ears seemingly nonexistent, and the tails give little promise of future beauty.

All this time they see nothing of their father. In the first place there is nothing he could do to be useful. In the second place, the male is by this time pursuing another mate. This is not resented by the first; his promiscuous behavior merely puts more little squirrels in the world, and who objects to that?

When a gray squirrel is big enough to walk and balance himself, his mother puts him away from her and he has to go and look for his own breakfast. Then the fun begins. And nature has fitted him superbly to enjoy it. He has big bright eyes, and a nose than can smell anything good to eat. His fore-paws are almost as mobile and cleverly manipulated for handling things as a raccoon's; his hind legs are coiled springs for jumping. And finally nature has pinned on him that preposterous yet elegant tail.

Once in a squirrel's lifetime an impulse stronger than love may overpower him—a wild desire to leave home. Every gray squirrel within a hundred miles travels with him. Studies in Ohio and Wisconsin have shown that these flights from nothing to nowhere reoccur in cycles of five years when the population has reached a peak of about 10.8 squirrels per acre. Back in the region where they have left, a hunter will need an average of 11 1-2 hours to bag one squirrel! But nature swiftly fills the void. Soon again in early spring every hollow tree has a nursery of little suckling grays, preparing to start on their madcap existences.

Time To Control Peach Borer

Written By Thomas Bell Vocational Agri. Teacher

Now until November 15th is the time for orchardists to think about controlling borers in Peach trees if you expect a long and healthy life for your trees.

There are two types of borers that the orchardist has to contend with. One is the peach tree borer which confines his damage to the trunk of the tree below the ground surface. This borer attacks the outer layer of bark and decreases the flow of sap, causing the tree to either die or be stunted.

This borer is controlled by using Ethylene dichloride emulsion. Diluting directions are given on the container from the manufacturers. Clear the grass and weeds from around the tree trunk. Build the ground level well above where the borers are working in the

trunk. Do not apply the material when too wet or when the temperature is below 45 degrees. Apply one-half pt. of the diluted solution on mature bearing trees; for smaller trees one-fourth pint of the diluted solution per tree.

This material will also control the borers that attack the trunk and main branches of the tree, about ground surface, which is an entirely different borer from the undersurface borer, by painting the signs with the same solution.

Paradichlorobenzene crystals will also control this borer, but care must be used in handling this material. It should be placed in a circle around the tree about 2 inches from the trunk using about 1 oz. of crystals for mature trees and 1-2 oz. for younger trees. Cover these crystals up and pack the dirt firmly to make a cone shaped mound. These crystals should be removed in about six weeks.

Band Parents Met Monday Nite

Members of the Band Parents Club met at the Band Hall last Monday night, with Mrs. Fred Hunt, president, in charge. During the business session, it was voted to furnish Capes for the Junior Band. Mrs. Arnold Muller and Mrs. Vic Van Loh were appointed to buy the material and mothers of the Jr. Band students will make the capes. Mrs. F. M. McMurtry offered to make the Caps, also for the Jr. Band. Mrs. D. C. Dodson and Mrs. Glen Bear were selected to plan entertainment for the Sr. Band during the months of September, October and November.

It was decided at the Monday night meeting to have a Band Concert this year instead of an Operetta as in the past. Several new members were present at the meeting, but the membership is very small in view of the fact that one hundred students are enrolled in the Bands this year. All parents of Band Students are invited and urged to attend these meetings.

Grace Lutheran Church ANNOUNCEMENTS 3rd at Avenue E R. L. YOUNG, Pastor

Divine Worship is conducted each Sunday morning at 11 A. M. and Sunday School and Adult Bible Class begin at 10 A. M. This Sunday Holy Communion will be celebrated in the regular morning service. Those wishing to partake of the Lord's Supper are asked to announce their intention to the pastor on this Saturday afternoon or evening. The Men's Club meets Wednesday, October 4, at 8 P. M., in the Parish Hall of our church. The Ladies' Missionary group will meet on October 12 at 2 P. M.

With this coming Sunday, October 1, our Sunday School begins a new year. The Bible stories to be taught are taken from the Old Testament. The Bible story for this coming Sunday is the story of Elijah, who was one of the prophets sent by God to preach God's Word to the people. Parents, the Bible says, "Provoke your children to wrath, but bring them up in the nurture and admonition of the Lord." Bring them to Sunday School and then you yourselves attend the Adult Bible Class.

Tanda Campfire Girls Met Wed., 27

The Tanda Camp Fire group met Wednesday, with the president in charge of the meeting. The Corner Drug Store furnished chairs for the Camp Fire room. A Hallowe'en party was planned. Visitors were: Elinor Housen, Pat Ann Mills, and Diane Buckner. Reporter, Patsy Austin

Lavender Services Held Here Friday

Final rites were held here Friday afternoon for James Abel, "Uncle Jimmy" Lavender 82, resident of Burkburnett for thirty years, who died Thursday in a Wichita Falls hospital.

Rev. T. Herbert Minga, pastor of the First Methodist Church, conducted the services from the Owens and Brumley Funeral Home and interment was made in the Burkburnett Cemetery.

Lavender was born in Quebec, Canada, in 1868. A retired oil field worker, he had been ill for some time prior to his death.

Survivors include two sisters, Mrs. Mary Hodges of Burkburnett and Mrs. Elizabeth Rand of Weyauwega, Wisconsin; one niece and one nephew.

Friendship Class Installs Officers

The Star Installation service was performed capably and impressively by Mrs. T. Lynn Stewart, Thursday afternoon in the home of Mrs. Will Teal, at which time officers of the Friendship Class of the First Baptist Church took office for the coming year. Mrs. Teal heads the class as president.

Members to assist the president were installed to include: Mesdames R. P. Thaxton, teacher; B. L. Landers, membership vice-president; E. H. Logan, Ministry vice-president; J. B. Wright, Stewardship vice-president; Elmer Burns, Fellowship vice-president; H. A. Goodwin, secretary and treasurer. Group captains to assume new positions were: Mesdames H. D. Smith, Agnes Boyd, W. N. Anderson, and Don Woodward.

Mrs. Thaxton closed the service with a prayer.

Linda Rae Teal favored the class with a reading, "Evening Grace." Mrs. O. L. Clark dismissed the meeting with a prayer.

Refreshments were served by the hostess, Mrs. Teal to nineteen members and the following visitors: Mesdames L. W. Hothan and Hattie Daniels of Wichita Falls, and Mesdames A. H. Lohofener, Lee Willis, Jack Duke, O. A. Nichols, A. R. Lattimer, Sam Woods, Don Woodward, all from the Mary Martha Class, and Mrs. Raymond Teal from the Gleaners Class, and Linda Rae Teal.

Bride-Elect Named Honoree for Shower

Mrs. A. F. Waller, Jr., and Miss Hazel Beckham were hostesses for a Coke party and personal shower in the Waller residence Monday evening. The occasion was to honor Miss Beatrice Vernon, bride-elect of Pvt. Jack Rogers.

The living room was attractively decorated in the chosen colors of silver and azure blue with Miss Vernon being seated below a hexagon shaped mirror, "Beatrice and Jack, Oct. 6th" was penned in silver on the mirror. The gifts were displayed below a large silver heart entwined with azure blue lover's knots cascading down over the beautiful miniature bride in white satin. Favors were miniature heart pictures of the betrothed couple.

After inspection of the gifts, refreshments were served to: Miss Vernon, Mrs. E. R. Vernon, Ruby Henry, Lahoma Woods, Lavena Rexford, Viola Bryan, Mary Lou Rush, Floy Holly, Josephine Vernon, Joyce Malone, Hazel Beckham, Sadie Malone, Jack Rogers and Johnny Waller.

Lions Club

First Vice-President J. A. Franks made a report of the Zone meeting held at Henrietta Monday night. He, President J. M. Patterson, Secretary Jimmy Frye and James Mason attended the meeting. Franks told of the plan of Texas Lions to Build a \$500,000 Crippled Children's Home near Kerville. A drawing of the proposed buildings and information on the project appears in this week's Star.

Members voted unanimously to play host to Wichita County Lions here in Town Hall Tuesday, October 24th. This is an annual affair, held last year in Wichita Falls.

Out of town guests attending open house at the Methodist Church Wednesday night were: Mr. and Mrs. Clyde Bohner, Mr. and Mrs. Clyde Brannan, and Mr. and Mrs. J. C. (Hap) Clower, all of Wichita Falls. The Church recently completed a remodeling job, spending several thousands dollars modernizing the building.
