Armistice Day Breakfast 8 A. M. Saturday, 11th

The annual Armistice Day Breakfast will be held at the Legion Hall, Saturday, November 11th at 8 A. M. All Legionnaires and ex-service men are invited to attend as guests of Frye-Vaughn Post No. 264.

Honored guests are to be Gold Star Mothers and Fathers. A short musical program including songs by the local Barbershop Quartet, promises to be very entertaining. The quartet is composed of C. J. Morrison, Cliff Wampler, Kenneth Smith and Jim Frye.

Mr. and Mrs. E. Jeffers of Artesia, New Mexico, spent the week end in Burk Burnett.

To induce other nations of the earth to share with us the vision of Armistice Day, is the obligation of everyone who wants peace. This day is not for us alone, it is for international thinking, for a world must have a co-operative movement for peace, for defeating aggression, in order to have balance throughout.

Our first celebration of Armistice Day we had hoped that the guns of war were finally silenced. A holocaust had ended in the sacrifice of lives for the treasures of freedom. Then a quarter of a century later, fires of war enveloped us again, were quenched at more frightful cost with more devastating weapons. We have had to build for war in time of peace, for it seemed that war was inevitable. We stand on the brink, today, and ask is there hope for United Nations? Is our universe to be obliterated before Armistice Day is a worldwide project, must power and poison oppose peace and prosperity, greed and domination oppose understanding and brotherhood? We have tried for peace through humanitarian and economic means, putting dollars to work to increase the living standard of miserable neighbors. Dollars alone will not work. Our obligation to the war dead, on this Armistice Day, is to pray to be shown the way for an enduring peace, and to WORK for this end.

ARE WE IMMUNE?

We are used to the removal of a tooth being called "painless extraction". Are we aware of the removal of money by means of a withholding tax being called "painless taxation"? Getting used to not having the money, the taxpayer is apt to feel it isn't his money. That makes it "painless". Though it is a convenient way to collect government revenue, it might breed public indifference to government use of it, when the withholding tax seems like OTHER people's money. Are hidden taxes "painless" too? They affect present living costs, bring on inflation. Consider these: a woman's hat has 150 taxes included in its price; a man's suit of clothes, 116 taxes; 151 taxes in the cost of a loaf of bread; a car runs \$300 to \$500 in taxes; 11½ cents of the price of a package of cigarettes is for taxes. Is it painless or are we immune or hardened to the pain

INTO FAR CORNERS

Tibet seemed a far away place, a land of lamas, of monks, of forbidden places, of hidden cities, rugged mountains, impassable passes, of strange cults, of aloofness, set apart from a modern mad kind of world, with ancient impenetrable walls of culture and religion. Into this land moves the Communists, threatening the serenity, the customs, the faith, of a harmless, innocent people. Tibet that seemed a story-book land, is invaded by the Red menace. There seem to be no places far enough away.

WE COULD STOMACH THIS

It has been understood that military cuisine cannot be likened to good, home cooking. But each war finds the conditions bettered, with dieticians at work to plan palatable meals for our boys. Field rations have become more appetizing though we have heard some lads giving K rations the Bronx cheer. But man's ingenuity is making possible kits that include a meal far superior to the army rations of yesterday. There is a new one for assault troops, about the size of an ice cream brick package, weighing less than a pound. In the individual cardboard box are two cans, one containing meat patties which can be eaten hot or cold, with a can opener inclosed that is the size of a watch charm. The top of the can holds a heat tablet which, when lighted, gives the effect of canned heat. Over it, in two minutes the patties begin to sizzle. The packet contains two portions of coffee with a vial of water purification tablets, if you are uncertain about the water in your canteen. Another heat tablet and you have good, hot coffee. There is a tin of cookies, two sweet, chocolate bars, three cigarettes and a stick of chewing gum, to complement your meal.

War is still what Sherman said it was, but you can't say the same for the food, if this new package is a sample of the fare.

Are Our Texas Highways Being Destroyed by 1% of Highway Users?

This question is presented squarely for the first time by the Texas Tax Journal in its booklet, "The Case of the One Per Centers."

Every Texan who wants good highways, adequate for 99 of every 100 users, should write for a free copy of this revealing booklet.

Approximately 99% of all Texas motor vehicles are registered for a gross weight of 20,000 pounds or less.**

All Texas taxpayers, including your Texas Railroads, have reason to be concerned about the high cost of constructing and repairing our highways and the prospect of building more costly roads made necessary by the operation of highway "box cars."

No one has any desire to bar vehicles of reasonable size from our highways, so long

as each pays its fair share of construction and repair costs.

Other Texas taxpayers should not be required to shoulder the burden of a roadway system for highway "box cars", representing only 1% of highway users.

Every Texan interested in good highways without increasing the growing tax burden should fill out the coupon below and get a copy of this valuable booklet.

Burk Defeated By Crowell In Conference Game

Last Friday night on the local gridiron Burkburnett dropped a conference contest to the Wildcats from Crowell. The score was 19 to 0. Crowell scored when the game was just five minutes old. Burk fumbled and lost the ball on their own 36 yard line. Stacking up yardage through the line, Crowell advanced the ball to the 15. Quarterback Gobin passed to Left Half Sanders for the score. An attempt to run over the extra point was stalled. With three minutes to go still in the first quarter, Fewin raced back a kick from his own 15 yard line to Crowell's 40, where he was hit hard and lost the ball. Crowell made 5 through the line, Burk got a 15 yard penalty; other line plays placed the ball on the 10, from which point Full Back Hack Norman crashed through for six more points. An attempted pass for the conversion point was knock- ed down. With a very few minutes to go in the second quarter, Burk lost the ball on downs after working up to Crowell's 20. A number of consecutive first downs by Crowell placed them on Burk's 21. Sanders passed to

Left End J. Norman who step- ped across the goal line for the third and final counter. Sanders kick for extra point was good. In the third quarter Crowell received the kick and marched to Burkburnett's ten yard line, where Keen intercepted a pass. The Bulldogs got back to their own 46 in eight plays, but lost on downs when a fourth down attempt to make 2 was halted. Crowell took over and proceeded to Burk's 23 as the quarter ended. Fourth quarter—Crowell kept up their goal line march to the Burk 7. With four downs to go they bogged down on the 3 in a fourth down try and Burk took possession once again. Two first down brought them out to the 31, but a 15 yard penalty shoved them back toward the goal and they had to kick. Crowell again put on a goal line march which carried to Burk's 7 where a pass was intercepted. Burk ended the game in possession of the ball on their own 15 yard line. By winning this game Crowell is in second place, with Olney in first. Burk and Sey- mour are tied for third. This week the Burk boys go to Olney Friday night. The next week, Nov. 17, Holiday comes to Burk to end our sea- son's play.

The humorous simple story this picture tells and the dramatic close-up without distracting details made it a prize-winner in the Graftex Photo Contest.

WHAT MAKES A PRIZE-WINNING PHOTO

How can you evaluate your pictures and decide whether they might win a prize in a photographic competition? This isn't as hard as it may seem.

First of all, prize photographs must be technically perfect. They must be in focus, well composed, properly exposed, lighted for best effect and printed to bring out the best tonal value of the negative. These requirements are "musts" and are within the power of any careful photographer. It is so easy to do a good technical job on a picture that judges won't accept sloppy work except in those rare instances where the pictures are of such importance and the photographer was working under such difficult conditions that he did not have a chance to plan properly. The only time this condition usually occurs is in picturing spot news events that happen quickly and unexpectedly.

The second requirement is that prize pictures must tell an interesting story in the possible. By interesting to lots of people. You are a snapshot of you a judge might throw cause it was "just a picture." If you made reminded all parents of children, that would be a chance of winning a prize picture must say something that will interest everyone, it, whether they know the subject personally or not in other words, become a record shot.

Most prize pictures are a sort of emotion to tell. They say "aren't those majestic," "isn't youth full time of life," "look ble a big storm is." Interesting that emotion is well the picture conveys the main criteria by which pictures are judged.

Camp Fire Council Held Meeting At Iowa Park

Twenty-four members of the North Central Texas Area Council Board of Directors met in Iowa Park Monday night for their regular meeting. Mr. and Mrs. John B. Barbour served barbecued steaks in their yard at 6:30 P. M. The group then held a business meeting. F. E. Hill, president, presiding.

Mrs. W. B. Featherston, Regional Representative from this Council, and National Council member from Region IV, gave a report of the National Council meeting held in Saint Paul, Minn., last month. At that time Mrs. Richard Blalock, Marshall, Texas, was re-elected president of the National Council.

Plans for continuing work at Camp Letoli were made and the reports on training and recruiting of leaders were given by staff members, Misses Elizabeth Owen and Mary Sue Tipps. Including the training course now in session in Wichita Falls over 100 volunteer leaders have been trained in the area towns since September. This sets a record for the Council.

The 1950-1951 budget of \$16,296.00 was adopted by the group and plans made for raising that much money.

Card of Thanks

We are deeply grateful and extend our sincere thanks and appreciation to the many friends in the Burkburnett area for the kindness shown our father, Mike Begun, during his illness and for the sympathy expressed for us in our great sorrow at the time of his death.

Your thoughtfulness is truly a great consolation to us since we feel it bespoke the kindly esteem in which he was held by his friends in this community.

Fellowship Class Has Weiner Roast

A streamlined weiner roast was the party of the month for the Fellowship Class of the Methodist Church. Complete preparations had been made by the entertainment committee in advance so that when the group arrived at Perkins Reservation at 6:30 Tuesday evening, all they had to do was to go down the chow line, roast their own weiners, and begin to eat.

After the bountiful, well prepared food was gone, games, stunts and a sing song were enjoyed around a huge camp fire.

The entertainment committee was composed of Dick and Phyllis Brown, Del and Maurine Adams, and Raymond and Stella Murphy. Ed Smith is president of the class and Ann Minga teacher, and a large number of the members are Sheppard Air Base personnel.

Those attending this outing in the nearly perfect weather were: George and Maurine Yarbro, Ed and Irene Smith, Mary Veach, Bill and Rhea McLean, Edith Hall, W. P. and Mary Margaret Boydston, Del and Maurine Adams, Bob and Peggy Rickner, Raymond and Stella Murphy, Janice Donaldson, M. R. and Anna Lee Cunningham, Joe Bob and Jeanie Tyler, Jim and Jean Whitaker, Howard and Opal Henderson, Gene and Ann Blanton, Pete and Mack Martin, Dick Brown, Chris and Juanita Morris, and Herbert and Ann Minga; and sixteen children of various members of the class.

Training Moved Sheppard

Training again will be held at Sheppard Air Force Base and its basic training will be discontinued. The training of all new personnel will be moved to the new base at Sheppard Air Force Base. The new base is believed to be the old Sampson Station, to be used by the Navy to supply the Air Force's only unit, Lackland Air Force Base at San Antonio.

The transfer and extension of operations to the Sheppard Air Force Base is not disclosed.

Permanent personnel with the basic training also remains undetermined and other permanent personnel would go direct to the New York base or to the other base.

This month marks also the dedication of the new gothic chapel at Southwestern University in Georgetown, gift of Mr. and Mrs. J. J. Perkins of Wichita Falls. These are just two of the many types of projects supported by the Methodist church.

The Week of Prayer will be observed this next week by the WSCS. A series of morning devotional services has been scheduled to observe this week of spiritual emphasis. On Monday afternoon women from the WSCS of Scotland Methodist Church in Wichita Falls will be guests of our society.

Character is a by-product of the church. It is here that young and old alike are showered with benedictions that fertilize and imbue for a better citizenship and a stronger democracy. In the church the ministerial and a stranger alone can furnish leadership to handle the affairs of state in these perilous times. Then we with our children should go to the church of our choice on Sunday. "You in the Church and the Church in you"—form a combination for good. Be a regular CHURCH-GOER and a daily BIBLE READER.

WORLD PEACE

WORLD PEACE! That cry comes straight from every heart today. We must not lose heart, we must continue to believe in God and His good will for His world. War is wrong! War is contrary to all the teachings of Jesus. God is no more satisfied than we are with our war-torn earth. Our Lord is the Prince of Peace; His ways are the ways of truth and love. He is calling us to work with Him more faithfully and more intelligently. We have been war-making instead of peace-making.

HAVE we trusted that somebody else would make Peace? Have we trusted that Kings would bring about peace? Their very position makes them war-makers. Our demand that they bring prosperity to the people at the expense of another is a war demand. Have we trusted armies to make Peace? Again we have erred. Their very business is war-making; they must subdue other armies. Have we expected that economic treaties would make Peace? Again, the business of the world is highly competitive; investors demand profits from their money and their toil...profits that come from economic victory. **INTERNATIONAL CONFLICT CAN BE SOLVED; WORLD PEACE MUST COME. How?**

CHRIST is our answer, and we must answer to Christ. **RELIGION IS OUR HOPE; RELIGIOUS PEOPLE WHO FOLLOW THE GREAT TEACHER AND FRIEND AND SAVIOR WILL MAKE PEACE.** The Cross is the symbol of Peace. **SWORDS MUST GIVE WAY TO PLOUGHSHARES, AND SPEARS MUST BE REFASHIONED INTO PRUNING-HOOKS.** What is that word you spoke yesterday? Did it make for Peace or for strife? When you finished the business transaction, did you leave a friend on the other side of the bargain? **THE PRINCE OF PEACE IS NOT A RULER OF MEN BUT A FRIEND AND A SUFFERING SERVANT.** Are you and willing to suffer in the cause of Peace? We have suffered enough for war. Our boys want to live, and to live abundantly; to construct, not destroy to love, not hate. Peace will cost us much; kind words, generous dealings, goodwill, helpfulness and patience and self-control. Do we pray first for our own success, or for Peace? God is the Peace-maker; Peace-makers are the children of God. Grace and Peace belong together; graciousness of spirit will go ahead of abiding Peace. Are you and I gracious toward every other person? **PEACE IS A MATTER OF SPIRIT AND OF SACRIFICIAL BEHAVIOR.** We are being watched. Shall we make sacrifice for Peace? Shall we forget the Crown and the Thorn? Shall we carry a cross?

How To Check Poultry Colds

The annual threat of fall and early winter colds is here again. And to the average poultry raiser, this means another season of coughing, rattling, and perhaps lowered disease resistance in his flock.

Yes, colds and respiratory conditions are prevalent in poultry this time of year. But such conditions can be controlled—and greatly reduced—if Mr. average poultry raiser follows a few rules of management and takes certain preventive measures.

A Comfortable House
The condition of the laying house is all-important. Therefore, as part of the overall precautions against colds, it should be kept as free from drafts as possible. In doing this, the area around nests and roosts should be given special attention, since any sudden changes in temperature is likely to upset layers—and production. But layers must provide protection against cold air throughout the house. In fact, every effort should be made to duplicate springtime conditions in the laying house. A good ventilation system will go a long way in achieving these ends.

In guarding against colds, it also is necessary to keep the flock eating well. To do this, poultrymen must keep up the vitality of layers and see to it that birds' diets are well supplied with vitamins and trace mineral elements. Stomachic appetizers can usually be fed with good results.

Treat Colds Promptly
If poultry should develop colds during the forthcoming cold weather months, there are several means of easing the conditions. When poultry have trouble breathing, it is advisable to treat them with an inhalant. There are good vaporizing spray treatments available at most hatcheries, feed stores and farm poultry supply stores. Prompt use of a spray or nasal wash usually brings quick relief to birds' clogged nasal passages.

Sulfa drug aids are also useful in bringing colds under control. Used in either drinking water or mash, sulfa aids are excellent treatments for such cold troubles or coryza and roup. Many poultrymen also use certain vaccines and bacterins for colds.

Beware Coughs From Common Colds That HANG ON

**Thomas Bell
Addressed Lions
Tuesday Night**

Lions C. M. Archer and Jim Ady had charge of the program Tuesday night. Archer introduced Lion Thomas Bell, Vocational Agriculture instructor, who brought the club briefly the program undertaken by FFA this year.

In opening his talk, Bell explained what Agriculture is, and stated that everyone is directly or indirectly dependent upon agriculture. "FFA, Future Farmers of America," said Bell, "is a young man's training for the farming vocation. Our program teaches boys how to farm profitably. Every boy has a project. He keeps minute records of expenses and income. At the end of the year he can tell exactly how much money he made or lost. Vocational Agriculture Education teaches a boy more than farming. It teaches him public speaking, fundamental parliamentary rules, mathematics, and bookkeeping. It is a well rounded course to better fit a boy for the future."

To give some idea of the scope of the work being done by local FFA boys, Bell said: "Since September 15th, we have sprayed 15 pecan trees to control worms, treated 78 peach trees for borers, castrated 8 calves, vaccinated 11 calves for pink-eye, vaccinated 9 calves for blackleg, vaccinated 7 calves for Hemorrhagic-Septicemia, vaccinated 2 dogs for rabies, treated 5,000 flower plants to control insects, culled 335 hens for egg production, treated 93 hens for lice and mites, treated one laying house for mites and lice. This is a community service to teach the boys to do by doing; to give them experience in the actual work."

"In conclusion, let me say that agriculture is the backbone of our national economy. Without a prosperous agriculture the world would be paralyzed." Lion Harlan Mills had as his guests his daughter, Miss Wanda Gayle Mills, and Miss Charlene

Clements.

Three new Lions were welcomed to the club and presented pins by W. W. Browning. They were: O. D. Bernethy, E. A. Westbrook and Thomas Bell.

W. W. Chambers presented 20 year pins to Roy Magers and W. B. Browning. Ten year pins were presented J. N. Hicks and D. C. Dodson.

Next week Lions Bernard Buck and Wylie Browning will bring the program.

REMEMBER WHEN

... cooking was only half the chore

Cooking on those old-fashioned stoves was difficult enough, but cooking was only half the chore. There was wood to chop, fires to build—and the inevitable bucket full of ashes to carry away. What a difference today . . . when natural gas provides instant heat at the turn of a knob. A new AUTOMATIC GAS RANGE is an asset to the smartest kitchen. It makes cooking easier, faster, cleaner and cooler . . . at surprisingly low cost. See the outstanding new models today . . . wherever good gas appliances are sold.

The companies which make up the natural gas business have had an important part in bringing business prosperity to the Gulf South area. The money they pay out in payrolls and royalties, the money they spend with local merchants for supplies, the taxes they pay . . . ultimately work their way into the channels of trade. That helps to make business better for everyone—everywhere.
