## Cole Porter's "Can Can" To Be Featured At Casa Manana Production July 7th

"Can-Can", the musical comedy hit that thrilled New York audiences for over two years will be the first attraction of the new Casa Manana Summer Musicals opening Monday, July 7th in Ft. Worth.

Casa Manana will bring to the Southwest the first musical production staged in the round on a circular stage with the audience on all sides in an ultra-modern aluminum domed theatre building.

A brilliant cast headed by Broadway Favorites Deedy Irwin and Dick Smart will be seen in "Can Can" which features music and lyrics by Cole Porter, a rousing libretto by Abe Burrows of "Guys and Dolls" fame, and a bevy of high kicking demelles.

He resides at 410 Park Street in Burk Burnett, Texas.

## They Liked Rodeo

Mr. Wendell R. Goins Parade Chairman Please accept our thanks to you, the Boomtown Rodeo Club, and the fine people of Burk Burnett for the very enjoyable time we spent in your city, yesterday. You were gracious hosts.

## Pictures World's Fair Shown Tues. To Lions Club

Guests: Leslie Kauer, Mitchell Henry, David Winkles of Velma, Okla., and Curtis Burson, San Antonio.

The pictures covered scenes from the Rock of Gibraltar, Naples and Rome, Italy, over the Alp Mountains, Paris, France and the World's Fair at Brussels, Belgium.

The pictures showed excellent photographic work. The color, exposure and composition were extremely good. Also, many pictures were shown taken from the deck of the aircraft carrier Saratoga.

This program will be long remembered as one of the best presented for the Lions. Next Tuesday night officers for the coming year will be installed.

Tennis lesson, instructed by Kenneth Estes, will begin at the high school tennis court Monday, June 30th. Classes will be held for beginners and advanced students. Those interested call JO 9-2623 after 3:30 p. m. or JO 9-3504 before 3:30 p. m.

## GRASS ROOTS OPINION

**LIBERTY, N. Y., SULLIVAN COUNTY PRESS:** "To prevent hardware disease, pick up nails, wire and other metal before turning cows out on pasture. These sharp pieces collect in bossy's stomach and may work their way through the wall piercing vital organs, and result in death."

**LISBON, N. D., RANSOM COUNTY GAZETTE:** "People on the farms and in the small towns have been experiencing an economic recession for several years. Employment figures for this area show no change from last year; bank deposits are up; sales tax remittances were up 10 percent all over the area; farmers are optimistic about their economic outlook."

"So it may be that we have already had our recession, and perhaps we ought to encourage the rest of the country a bit by letting them know that things are never as bad as they seem."

**WHITEFISH, MONT., PILOT:** "The idea that youthful offenders mostly come from 'the wrong side of the tracks' is just fancy. One organization after long study came up with a final conclusion that will make a lot of folks 'howl.' Where the blame? On the homes; the churches; the schools—in short on adults who youth comes in contact. 'Failed on the job, is the erdicit!'"

**STOCKTON, KANS., ROOKS COUNTY RECORD:** "One of the differences between a small town and a big town is that in a big town the people park their cars when the fire sirens sound, and in the small town, they drive out into the street and try to beat the trucks to their destination."

## Signs Of Life

"The cemetery is full of drivers who had the right of way!" This rather ancient wisecrack states a truth that should receive a good deal of consideration this month when the traffic safety spotlight is beamed on the Signs of Life.

The purpose of the Signs of Life is to encourage recognition of the basic traffic sign shapes and observance of all traffic signs, signals, pavement markings and the laws and rules behind them.

Traffic signs are provided for the protection of drivers and pedestrians. Yet drivers and walkers constantly disregard these safeguards, frequently throwing away their own lives in the process. This is a matter of record. Statistics show that in most traffic accidents there is some violation of the law of safe driving or walking rules.

Observance of the Signs of Life and the laws and common sense rules they represent could save many of these lives. And common sense should take a driver or walker beyond the mere observance of the letter of the law.

You can be killed driving across an intersection on a thru street, if a driver on the intersecting street doesn't realize you have the right of way. Similarly, you can be struck down crossing the street on foot even though you have the green light. In either case it will be small comfort to you or your relatives that the law was on your side.

Safe walking or driving for any individual should include observance of the following rules:

Know the Signs of Life by their shapes so you can recognize them on sight. Obey them meticulously.

Be willing to yield your legal right whenever necessary to prevent a traffic accident.

## Farm Safety Week - July 20-26

There's one coming event which every farm family in this county should welcome with enthusiasm. It's Farm Safety Week, to be observed during the July 20-26 period.

Farmers face all the common hazards of modern living. In addition, in the pursuit of their calling, they encounter special accident hazards all their own.

## HOW BOUT THAT

By RALPH TEE

For example, take tractors and other mechanized farm equipment. These machines are absolutely essential to successful modern farming. The machinery engineers never lose sight of the safety factor. New safety devices are incorporated in the designs as soon as they are proven. Careful instructions concerning safe operation are issued. But all the precautions on earth will do no good if the users violate common sense rules.

Youngsters are permitted to operate machines, and every so often a tragic and totally unnecessary death or maiming results. Farmers drive unlighted or inadequately lighted equipment on public roads at night, and the immutable law of averages says that this practice must end in disaster at frequent intervals.

Mechanically minded farmers sometimes get ideas for making changes in their equipment, or in adding accessories of their own design and construction. More often than not, this creates new dangers to the operator. It's a rare farmer indeed who has the engineering knowledge, the skill, and the facilities to improve on what the factory has done.

During Farm Safety Week, authorities will deal with all manner of farm hazards and show how they can be eliminated or minimized. It's an opportunity that agricultural America can't afford to miss.

News From The Congress

By Congressman Frank Ikard

The Committee on Ways and Means is currently giving consideration to the various proposals that have been suggested for tax relief for small business. Most of these proposals would actually benefit only small corporations and primarily those that are engaged in the manufacturing business. It is my hope that if the Committee does report one that will give some tax relief to the small merchants and service businesses as well as the manufacturers. This is necessary if any tax relief that is approved is to really be meaningful. It will probably be another two weeks before the Committee actually reports a bill.

The House this week passed the defense Re-organization Bill, which, if finally approved by the Congress, should go a long way toward bringing about real unification of the Defense Department, and most important, it is a great step forward in unifying the purchases of that Department. This provision alone should mean savings that would run into the billions of dollars as well as bringing about a considerably more efficient operation. There was a great deal of controversy developed over this measure which was centered around a series of amendments

recommended by the President. These amendments generally would have greatly increased the power and authority of the Secretary of Defense and the Joint chiefs of Staff. One amendment that was offered would have created an all-powerful General Staff that would have been independent of the various services. The crux of the controversy was over the authority that the Congress was to maintain over the military and not as to whether or not there should be unification in the Department of Defense.

A 4-H club member from our District has been selected to attend the National 4-H Club Congress here in Washington. She is Peggy Schluter, daughter of Mr. and Mrs. R. V. Schluter of Argyle. This is a deserved recognition of Miss Schluter's outstanding achievements and accomplishments in 4-H Club work.

Soil Conservationists will be on hand to assist in answering questions farmers have encountered with stubble mulching, according to Elvy Sargent, Iowa Park Soil Conservationist. Dr. Carl Gray of Midwestern University's Soil Laboratory will discuss fertilizer needs with stubble mulching.

Implement dealers have invited their district representatives to be on hand for the day. Mrs. Helen Stonecipher of Everett, Wash., is visiting her mother, Mrs. Jennie Crocker and other relatives and friends this week.

SLOW DOWN AND LIVE

"How accidental are traffic accidents?"

This question was asked by J. O. Musick, general manager of the Texas Safety association today, in connection with TSA's current Slow Down and Live program for Texas.

"The term 'accident' hardly seems appropriate for mishaps on the highway that are invited through careless or unlawful acts," Musick said. "Of course many violations are not deliberate, just inattention or an impulse to take a chance, but they are still inexcusable because of the damage they cause."

Musick said some people, thru their carelessness behind the wheel, commit harakari by using an automobile instead of a Japanese dagger. He changed the suicidal term slightly by calling it Hurri-Kari.

"Improper speed doesn't shorten the road; it shortens life," Musick said. "And this is the central theme of the Slow Down and Live program. We hope the campaign will call motorist's at-

tention to the dangers of excessive speed, which accounted 57 percent of all rural fatal accidents in Texas during 1957. Musick defined excessive speed as being any speed which is unsafe, in the face of road, traffic, mechanical, climatic or other physical conditions which present driving hazards.

A picnic supper was held Monday night at the City Park for the former employees of the Southwestern Bell Telephone of Burkburnett honoring Mr. and Mrs. Earl Gilbert of Fayette, N. C., who are visiting relatives and friends here. Those who enjoyed the fried chicken and all the trimmings were: Messrs. and Mesdames Floyd Wilson, Lonnie Hoffman and family, Chuck Fletcher and family, Floyd Martin and family, James Metz and family, Bennie Jack Turner and family of Iowa Park, Ted Randall, Edward Bankhead and family, Otis Magee and family, Mrs. Harriett Lam, Vincent and Paula, Misses Lilley Roark, Margaret Ferguson, Sadie Beth Tevis. Several are still employed by the company here and in Wichita Falls. A good time was enjoyed by all talking over the good times and seeing each other again.

## Burk 4-H Clubber Wins State Honors

Burkburnett and Wichita County again were in the limelight at the recent State Round-up as one of its 4-H clubbers was honored at the two day meet. Alden Smith, who has been active in this area in rural youth events, won state in the soil, water and range conservation demonstration. A resident of the Clara community, Alden was coached by B. T. Haws, Wichita County agent. A graduate of Burk High School, Alden has attended Texas A&M College for 2 years and will be a senior in the fall term. At present, he is studying Russian at Texas University for the summer terms. In 4-H work, Alden has won many laurels. He has won state in 4-H speaking and in 1956 attended the National 4-H Club Congress as State and national winner in community relations. Alden has been active in advertising club work, in speaking engagements and news articles. He has helped coach several district and state winning groups in 4-H competition. Alden will enter his records this fall in the national 4-H leadership contest which is one of the leading contests in club work.

Insufficient and poor quality lighting often may be the cause of nervousness, irritability and headaches, according to Thelma Wirges, county HD agent. Homemakers spend many hours in the kitchen and work with many automatic and electrical appliances that must be handled correctly. Each of the kitchen areas needs a certain type and amount of light fitted to the job in that area. The old lighting arrangement of one ceiling fixture and a single, unshielded bulb over the sink does not do a good job. For even a bare minimum of good lighting in your kitchen, 3 requirements must be met. First a general lighting fixture is needed for room-wide illumination. This is usually an indirect center ceiling light. Next, plan local lighting units for the sink and stove areas. These can be wall brackets or ceiling fixtures. The third lighting area to be considered is under wall cabinets. This lights up the the work area on top of the counters. Safety is one of the biggest reasons for the right amount of light in this area as most electrical appliances are used on the counters. Kitchen improvement is one of the major phases of work in home demonstration clubs, this year. Demonstrations are being given to HD clubs on Kitchen arrangement, Kitchen Cabinets, colors for the kitchen and selection, use and care of large and small equipment. HD clubs have individual kitchen demonstrators working to improve their individual kitchens. Mrs. Olen Baley is the kitchen demonstrator for the Cooper HD club. Mrs. Baley has added new kitchen cabinets and improved storage methods. Her cabinets are not only good to look at, but well arranged. Well arranged cabinets save time, stooping, stretching, steps and the homemaker. Mrs. T. E. Smith has a kitchen worth a stop for anyone. Mrs. Smith has remodeled an older house. She planned and developed a U-shape kitchen. A U-kitchen is the most popular arrangement and can provide the greatest amount of efficiency. There is no traffic in the work area. The sink is in the center and work can move easily to the range or refrigerator. This plan is easily adopted to a remodeling job. As well as having a well arranged room, Mrs. Smith has done a nice job with cabinets, colors, floor covering and wall finishes. Mrs. Smith

## Dallas C. Bryant Is New Banquet Chief

Dallas C. Bryant, executive director of the Variety club of Dallas for 13 years, has been named banquet manager of the 1000 room Rice Hotel, general manager B. F. Orr announced Saturday. In his new position, Bryant will arrange and supervise banquets, parties and meetings on the Rice's remodeled and greatly expanded mezzanine floor. Facilities under his direction include the Crystal Ballroom, with a seating capacity of 1600, the Grand Ballroom with a capacity of 1200 and 10 other banquet and party rooms with seating capacity ranging from 30 to 600. Bryant was assistant manager of the Marchman Hotel in Wichita Falls before accepting the Variety Club position. Better known to his friends in Burkburnett as Jack Bryant and son of Mrs. Mamie Bryant, 308 Hayworth Street.

This year's roundup was a salute to 4-H work in Texas which is celebrating its 50th anniversary. Modern club work was begun in Jack County, Texas, in 1908 with the First Corn Club. Among pioneer members honored was W. L. Derrick, a retired Jackboro farmer, who is one of the original members of the Corn Club, the forerunner of the 110,000 member Texas 4-H. Another county 4-H clubber, Shirley Van Huss, won sixth place in dairy foods demonstration. Shirley, a member from the Friberg-Cooper community, is well known because of her interest in dairy cattle and participation in the local shows. Ethel Geeslin, assistant HD agent, coached Shirley and accompanied her to College Station.

## Note of Appreciation

Mr. H. D. Smith, chairman of the Kiddie Parade held Friday afternoon, wishes to thank the workers and each one who had a part in the parade for their cooperation in helping make it a success.
