Remember When Gas Bill Was Vetoed?

When a lobbyist offered \$2500 of an oil man's money as a campaign contribution to a member of Congress while the natural gas bill was pending some two years ago, President Eisenhower's civic consciousness was so outraged that he vetoed the bill.

The President killed the legislation even though he admitted it was a good bill, was needed and he had supported it.

The contribution was offered to Sen. Francis Case, (R., S. D.), who had intended to vote for the bill anyway.

Now the President's first assistant has admitted that he accepted gifts of hotel bill payments amounting to more than \$200 a fine coat, and the loan, as he describes it, of a valuable Oriental rug.

Sherman Adams also has admitted that he made a few calls in connection with the donor's difficulties with federal agencies. Thereby he obtained for his friend information which under agency rules and federal law should not be revealed.

In this case the President's civic consciousness was not outraged.

He says that Adams was "imprudent" but "I need him." Maybe he didn't "need" the gas bill.

The fact remains that Sen. Case did not accept the proffered gift in fear that it was meant to influence the vote which he intended to give the bill anyway.

The fact remains that Adams did accept gifts from a man for whom he did favors he should not have done.

But Adams is "Indispensable."

If Oil Seekers Were Discouraged

Oil and gas wells ultimately wear out, become worthless and must be replaced. The search for new productive wells is an extremely expensive and risky enterprise. Only about one of nine wildcat wells drilled finds oil.

These facts are reflected in our tax laws, in what is known as the depletion allowance. The allowance is credit against income taxes, and it is allowed producers only—not refiners or other segments of the industry.

The allowance has long stood at 27½ percent. Every so often efforts are made to reduce it. That has happened at this session of Congress, in the form of a proposed amendment to the law setting the rate at fifteen percent.

Then a significant event occurred. The Treasury Dept. made a report to Senator Byrd of the Senate Finance Committee opposing the amendment. It said: "Percentage depletion is a subject that must be appraised not only in the light of national policy affecting the developing and preserving of natural resources. In view of the far reaching implications of depletion allowances, any change should be considered only after full consideration of all its possible consequences. Accordingly, the Department believes that an examination of the entire subject with extensive Congressional hearings would be necessary to determine whether and the extent to which the rate should be changed.

What is at stake here is our future oil and gas supply at a time when demand is enormous. Last year, for instance, gasoline consumption reached another all time peak, an incredible total of 57,402,000,000 gallons. It doesn't take much imagination to anticipate what would happen if the depletion allowance was so reduced that the risk of loss outweighed the chance of gain, and producers were discouraged from seeking new supplies.

It Could Be You

When you see a fire engine go roaring by, you may wonder for a second or two "can it be headed for my house." Then you dismiss it from your mind. You might not be so complacent if the figures on fire losses were placed before you in big red letters.

During 1956, there were 865, 561 reported fires in communities of 2,500 or more population which means that a fire started every thirty-seven seconds.

Almost everything you own, from a house down to a dishpan costs twice as much today as it did a comparatively few years back.

In most cases, even though you are carrying double the insurance you carried 15 years ago, you would still be out of pocket in replacing the things destroyed by fire. Your best protection is to see that every possible hazard around your property is reduced to the minimum. It's cheaper to call in an electrician or furnace man to make needed repairs and replacements than it is to call the fire department.

GRASS ROOTS OPINION

SULLIVAN, ILL., MOULTRIE COUNTY NEWS: "How widespread is the abuse of unemployment compensation claims? The percentage of unjustified claims that are paid may be small, but when they are flagrant, they leave a sour taste in the mouths of all employers. Unemployment compensation should not be allotted to workers who 'quit to go fishing'."

MCCOMB, OHIO, HANCOCK COUNTY HERALD: "Drugstores across the country which have served their communities long enough to fill a million prescriptions are receiving some deserved recognition. They are being given plaques attesting this by Lederle Laboratories. One went the other day to a Savannah, Ga., pharmacy which filled prescriptions for General Robert E. Lee and which has preserved one of them as a cherished relic of the Confederate hero."

HOW BOUT THAT BY RALPH TEE

Beware Of Electricity

According to the National Safety Council, more than 1,000 persons die a year from electric current, many of them in the home. Undoubtedly, thousands more are painfully shocked.

The Council has received reports of people being shocked by everything from oven elements to live refrigerator doors. How can you keep from being accidentally electrocuted? You can avoid a lot of risk by observing these rules, the Council says:

1. Don't touch appliances or radios while you're in the bathtub or your hands are wet. Always stand on dry surface when you use appliances.
 2. Unplug appliances if you must poke into them. Even then be careful of heavy condensers, such as in a TV set.
 3. Ground appliances in damp locations, such as washers or dryers. Always ground portable electric tools especially when used outside.
- Replace worn appliance cords. Confine your shocking experiences to the things you see on TV horror movies and the like, the Council suggests "Don't get electrocuted by a home appliance."

BURKBURNETT... HISTORY

Revealed By The Star Files 10 Years Ago...

Mr. and Mrs. C. O. Smith were at Oklahoma City last week Sunday through Wednesday attending the Oklahoma Florist Convention. While there Mr. Smith attended the Lions club Tuesday noon meeting.

Miss Jim Wysong of McKinney, Tex., is visiting Miss Marjorie Nell Landers this week.

Mr. D. F. Douglas, Burkburnett High School principal, underwent surgery at Ryan, Okla. early Thursday morning. He is reported to be doing nicely at this time and will be returned home soon.

Mr. and Mrs. Jack Daniel of San Angelo are the proud parents of a baby boy born at 8:30 a. m. Tuesday.

Mr. and Mrs. R. B. Schmelzer of Milwaukee, Wisc., arrived here by plane Saturday evening for a visit with her parents, Mr. and Mrs. J. T. Brady. The Schmelzers and Mrs. Brady left Tuesday morning for Amarillo where they met another daughter, Mrs. R. D. O'Keefe and Katherine of Los Angeles, Calif. From Amarillo they all went to Artesia, N. M. to visit Mrs. Brady's parents, Mr. and Mrs. J. R. Cline.

Mr. and Mrs. T. W. Byerly have returned to their home in Port Arthur, Tex., after spending several weeks here with their son, George Byerly.

Lt. and Mrs. George Welborn and Bill left Wednesday for Salina, Kans., to make their home. Lt. Welborn has just returned from Okinawa where he spent a year and a half.

Guests in the home of Mr. and Mrs. P. D. Vaught this week are Mrs. Vaught's sister Miss Juanita Roland of Ft. Worth and her mother, Mrs. Clara Roland Jacksboro.

Mr. and Mrs. A. L. Scott left Wednesday for a vacation trip to Kansas.

Mrs. Janie Cagle of Ft. Worth is visiting her mother, Mrs. S. Duvall.

Mr. and Mrs. G. W. Fleming spent last week vacationing in Colorado.

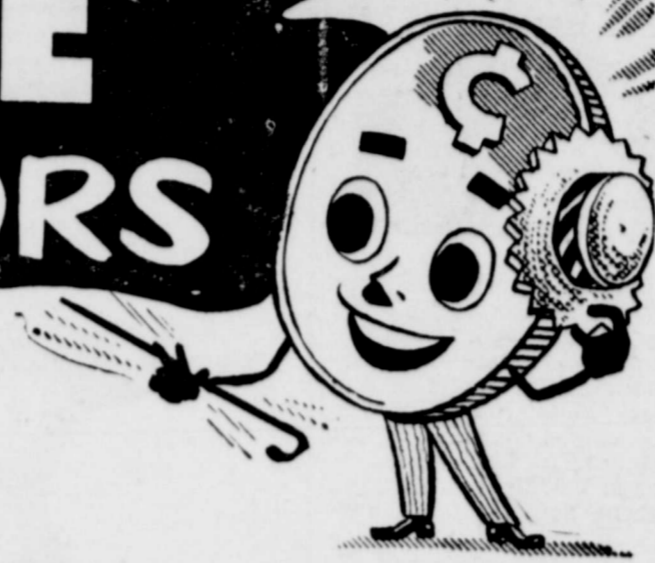

Mr. and Mrs. L. N. Gilbert and twin sons of Dallas visited Monday with Mr. and Mrs. C. Gilbert.

Andrews County is the Texas oil producing county with 926,348 barrels in 1956.

MOLLIE R. ELLIOTT

Club met July 1st at the home of Mrs. R. Underwood. Devotional was read by Mrs. N. R. Kirkpatrick from Matt. 24:14-29. Lords prayer was repeated in unison. Mrs. Betty Dahms met with the club and gave an interesting lesson on Enjoying your Years. Roll call was answered by What Bore me Most. White elephant prize was drawn by Mrs. R. Underwood. Next meeting will be at the home of Mrs. Charles Bowles.

Refreshments of Ritz, nuts, sandwiches and punch were served to the following members and visitors: Mesdames Nomie Wilkinson, F. E. Eastman, Betty Dahms, R. Underwood, N. R. Kirkpatrick, C. O. Wilson, C. H. Thompson, Miss Ola Austin and Beth Lund.

Mr. and Mrs. Paul Vickers of Vernon visited her parents, Mr. and Mrs. Scott Johnston, the 4th.

Mr. and Mrs. H. W. Black of Abilene visited Mr. C. H. Knowlton Saturday and Sunday.

Mr. and Mrs. Clifford Rhoads and girls of Comanche spent Thursday evening until Sunday with Mr. R. H. Rhoads and girls.

Mrs. R. C. Tompkins returned home last Friday after a two weeks visit with her children at McCloud and Okla. City.

Mrs. Hattie Lee Rhoads entered a rest home in Grandfield last Wednesday.

Mr. and Mrs. Clifford Campbell of Sun Valley, Calif., visited his mother, Mrs. Hattie Campbell Saturday and Sunday.

Mr. and Mrs. Oran Wilson and children of Great Falls, Mont., and Capt. and Mrs. J. D. Smith and children of Hampton, N. H. are visiting their parents, Mr. and Mrs. C. O. Wilson.

Midshipman Joe Kirkpatrick Annapolis, Md., visited his aunt

and uncle Mr. and Mrs. N. R. Kirkpatrick last Wednesday and Kirkpatrick last Wednesday and Mr. and Mrs. Ross Solomon of Hobbs, N. M. visited his mother, Mrs. Blanche Solomon, Monday and Tuesday of last week.

Mr. and Mrs. C. H. Dunn, accompanied by Mrs. Spencer Steele and children, visited Mr. and Mrs. Charles Dunn and Mr. and Mrs. Dwan Dunn in Tulsa from Thursday until Sunday.

Miss Betty Jo Braden of Wichita Falls visited her parents, Mr. and Mrs. S. M. Braden July 4th. Mrs. Arnold Turner is reported ill at her home.

Mr. and Mrs. R. B. Swinford and children and Mr. and Mrs. I. L. Smith and children of Burk visited Mr. and Mrs. C. O. Wilson Sunday.

Mr. Herman Rhoads, accompanied by Mr. and Mrs. L. E. Ellis of Burk and Mr. and Mrs. Clifford Rhoads of Comanche visited Mrs. R. H. Rhoads in a Clinton hospital July 4th.

Mr. and Mrs. Sam Braden and children of Lufkin visited his parents, Mr. and Mrs. S. M. Braden over the holidays.

The Church of Christ will begin a meeting Sunday, July 13th. Mr. Burkham will be the speaker.

Mrs. Thelma Hooper and girls of Abilene spent the holiday weekend with her parents, Mr. and Mrs. R. B. Sudduth.

Mr. and Mrs. T. A. Kinnard visited Mr. and Mrs. Paul Grady in Wichita Falls Sunday.

Johnnie Kinnard of New Orleans, La., is spending the summer here with his grandparents, Mr. and Mrs. T. A. Kinnard.

Mr. and Mrs. Wes Beard and sons visited Mr. and Mrs. R. E. Westbrook of Texarkana from Thursday until Monday of this week.

Tudd Capps of Okla. City visited his mother, Mrs. Alma Capps over the weekend. On Sunday they attended a birthday dinner for Mrs. Emma Smith of Springtown. Mrs. Mollie Elliott accom-

Wm. A. Blakley Is Candidate For U. S. Senator

Support is growing daily for Democratic Senatorial candidate William A. Blakley as he is getting around the state and meeting thousands of voters in person, says Walter Nelson, Wichita County campaign manager for Blakley, interim senator for four months in 1957, who is opposing incumbent Senator Ralph Yarborough in the Democratic Primary, July 26th, for a full six year term.

On June 22nd, Sam Wood, Capitol Correspondent for the Austin American-Statesman, uncovered documentary proof that Ralph Yarborough's campaign for

panied them to Springtown and visited an aunt, Mrs. Evannie McClung.

Mrs. Mollie Elliott, accompanied by Miss Bonnie Raines of Wichita Falls journeyed to Camp Chaffee, Ark., Thursday to get Pvt. Eugene Elliott who has been taking boot training there. Pvt. Elliott will spend 13 days at home on leave then will return to Camp Chaffee for eight more weeks training.

Mr. and Mrs. W. S. Wood of San Antonio visited his mother, Mrs. J. R. Wood and brother, J. G. Wood here over the weekend.

Mr. and Mrs. H. C. Harrison of Memphis, Tenn., were recent visitors in the home of Mrs. J. R. Wood.

Mr. and Mrs. John Rigby of Burkburnett and Mr. and Mrs. Leverage Rigby and Phyllis Jan of Wichita Falls have returned home from a very enjoyable tour of the northwestern states and west coast which included Colorado, Utah, Idaho, Oregon, California, Arizona and New Mexico. Mr. Rigby reports that they ran into some very cold weather and snow with 15 foot drifts in Oregon.

MOTOR MAIDS

Child Safety Arouses Women

By Jeanne Smith, Dodge Safety Consultant

WHEN CHILD SAFETY becomes an issue, women go to work. Take the case of Janelle Brimball of Provo, Utah. Hoping to make neighborhood youngsters more safety-conscious, she taught bicycle ordinances to a small group of children.

coached them in proper signalling and handling of their bikes. Soon more requests than she could handle poured in from other sections of town and Janelle's program was taken over by the Police Dept., PTA, Board of Education and the City Recreation Committee.

A special program on bicycle safety was launched, which included classroom instruction, oral and performance tests, a film on bicycle safety, and an S.O.S. (Safety on Streets) club with membership cards, letters stenciled on bike fenders and summer outings.

At last count, there were 800 S.O.S. members. In Bellaire, Ohio, the Pilot Club, a group of business and professional women, appalled by the rising number of accidents involving child pedestrians, decided the community needed added safety instruction.

They distributed several thousand copies of safety books to the high schools, and sent coloring books on pedestrian safety to the grade schools.

Literature was distributed to adults, safety posters put up, radio spots arranged for, and weekly good driving awards were given.

To climax the program, the mayor proclaimed an "All Bellaire Safety Day", and most citizens attended neighborhood safety meetings.

the 1957 election received at least \$28,143 through five eastern labor unions, proven by sworn statements from the unions themselves to the congressional committee investigating campaign expenditures.

Condemns Northern Support
Why are these northern and eastern labor union officers so interested in the election of a Texas Senator? asks Mr. Nelson. "Since World War I they have wanted to get control of Texas industries, farms and ranches and have publicly claimed that they will control Texas labor someday. So far they have been kept from plying their

racketeering control over the productive, progressive people who have made Texas the great state it is today."

"We must ask ourselves this question: What do these labor racketeers expect from a Texas Senator in return for pouring money into his campaign? Are Walter Reuther, I. W. Abel, Emil Mazey and Frank Rosenblum heads of the unions that contributed the Yarborough campaign money, interested in the welfare of all Texas?"

Blakley Loyal To Texas
In Bill Blakley we have a Texan who is a life long Democrat, a self educated man who came

up from a cowboy to be a successful accountant, successful lawyer, who helped build Braniff Airlines, a Texas company, into one of national importance, a successful banker, and a successful Texas rancher and farmer. Texas Democrats have an opportunity to elect a Texan to the U. S. Senate that will stand for Texas' best interest — one who is not beholden to eastern labor union officers who want to unionize Texas farms, ranches and industry. I urge all Wichita County citizens to help elect William A. Blakley our next Texas Senator," says Mr. Nelson.

David Harms left for Thursday morning for his home in California following a months visit here with his parents, Mr. and Mrs. Harms.

Mr. and Mrs. Bill Bundy daughters have returned to their home in Beaumont, Tex., a two weeks visit here with their parents, Mr. and Mrs. Charles Boyd and Mrs. W. M. Bundy.

Charles Boyd, Jr., and Mailege were visitors in the Charles Boyd, Sr. home over the 4th Holidays.

This is BILL BLAKLEY

"Neither labor, nor management, nor any private association or organization should dictate the destiny of the American people"

Medical Science Increases Life Span

Children born today have a far better chance than you or your parents had of surviving the disease hazards of childhood and living to a ripe old age. The Biblical three score and ten, which years ago was the exception, is now the expected — thanks to medical science.

Burial inscriptions of ancient Rome indicate that the average life expectancy of that time was from 20 to 30 years. In 1850, expectation of life at birth was about 40 years. By 1947, according to the National Office of Vital Statistics, this figure had risen to 66.8. The latest estimate places the life expectancy for this country at about 70 years.

Many factors have contributed to this increase in longevity. The majority of women today consult their physician or obstetrician within the first two months of pregnancy, and return for regular checkups, thus permitting early detection of conditions which might adversely affect the mother and the unborn infant. Use of the antibiotics and sulfonamides to control infections, whole blood and plasma, more attention to nutritional needs of the mother, better cooperation with the doctor, all contribute to better foundational health for the new baby.

However, it is in the prevention and successful treatment of childhood diseases that the greatest contributions to longer and healthier life have been made, for while a particular disease may not kill it could damage vital organs which in the long run, could lessen the life span.

Scarlet fever, measles, whooping cough, diphtheria have all been brought under control by vaccines and drugs that prevent them or lessen the severity of their attack.

Pneumonia, influenza, smallpox — each the villain in death-dealing epidemics — have pretty much fallen to the accomplish-

ments of medical research. Tuberculosis, still the greatest killer of all infectious and parasitic diseases, is being brought under control by modern drugs and techniques.

What will be the next disease killer to fall before the concerted efforts of medical science? Cancer? Heart disease? Arthritis? All along the line in our universities, research foundations and pharmaceutical laboratories the search goes on, night and day.

The most important thing you can do to assure that your children are benefited by all these fine accomplishments is to have them visit the family physician for regular checkups, and to see him promptly when illness strikes. Proper medical attention early enough can often prevent serious trouble later.

HOWARD CLEMENT
New Location—Next To Legion Hall

Marlene Cheney Hostess July 1st Meadowlark Club

The Meadowlark Garden Club met for its regular meeting July 1st, in the home of Mrs. Marlene Cheney. Betty Mills, president, presided over the business and reports of the committees were given. The Green gave a report from the council meeting which met on the 30th. Plans were made for a bake sale Saturday, July 12th. A white elephant sale was planned for the September meeting. Mrs. Betty Key had charge of the program. She presented Mrs. Bob Bristler who gave a very interesting demonstration program on House Plants which was enjoyed by everyone. Bernice Ellis was welcomed as a new member. Lovely refreshments were served to those present: Pat Adams, Betty Brandon, Bobbie Beaver, Betty Mills, Peg Crowley, Sue Green, Betty Mills, Jerry Lanham, Bernice Ellis, Betty Key, hostess, Marlene Cheney and guest, Norena Bristler.

Feted Thursday Afternoon, Surprise Kitchen Shower

Miss Jo Clair, daughter of Sgt. and Mrs. Charles Clair, 203 East Sixth, was feted Thursday afternoon, July 3rd with a surprise kitchen shower at the Ted Roark home. Attending were several close friends of the bride-elect. The gifts were arranged in a large pink kitchen wastebasket. A dark green tablecloth furnished the background for the refreshment table arrangement of large pink zinnias and mimosa leaves. Scattered over the table were miniature wedding veils. Lime punch and cookies were served to Miss Clair, her mother, and the guests. Hostesses for the affair were the Misses Linda, Kathleen, and Rosemary Roark. Miss Clair is the bride-elect of William W. Davis, Jr., of San Jose, Calif. They will be married August 3rd at the U. S. Naval Base Chapel, Moffet Field California.

VACATION BIBLE SCHOOL AT CLARA CLOSING FRIDAY

Daily Vacation Bible School at the Clara Lutheran church will continue in session from Monday through Friday 9-11 a. m. Friday, July 18th at 8:00 p. m. the closing service for the Vacation Bible School will be held. There will be a sermonette and the children will render songs and recitation selections. After the service the work of the children may be viewed and the ladies of the church will serve refreshments. Everybody is welcome.

NOTICE

All girls between the ages of 10 and 18 who are interested in the summer recreation program meet in front of the high school Monday, July 7th at 8:00 a. m.

Mr. and Mrs. C. E. Bogart and girls of Hail Center, Tex., visited Mr. and Mrs. Jack Duke and Mr. and Mrs. J. E. Gentry over the weekend.

Wichita County homemakers are now receiving the latest recommended methods of food preservation. Some 43 leaders were trained in 3 food preservation workshops, taught by Thelma Wirges, county HD agent. 13 of these leaders were volunteer leaders, not representing a HD club.

While attending the workshops, the leaders had the actual experience of freezing eggs, vegetables and fruits. They also did some canning by the one step method. These leaders are now teaching some 200 homemakers the things they have learned.

The latest method for canning vegetables is a one step cold-pack method. This is the method being taught by leaders.

Directions are simple, as an example, take snap beans. Begin by washing all pint or quart jars in hot soapy water and rinse well. It isn't necessary to sterilize jars since the pressure canner must be used in canning all non acid vegetation.

Use only fresh, young tender beans. The bean should be just beginning to form in the pod. Wash thoroughly, trim ends and cut into 1 inch pieces.

Thus far there is nothing different from the old method of canning snap beans. Now you will note that the fill is different.

Pack raw beans tightly into clean jars to 1-2 inch of top. Cover with boiling water, again leaving 1-2 inch space at the top of the jar. Add 1-2 teaspoon salt to pints and 1 teaspoon to quarts.

Close jar with two piece lid and place it in the pressure canner. Exhaust canner for 10 minutes, close petcock and process at 10 pounds pressure, pint jars 20 minutes, quart jars 25 minutes. Remove canner from heat, let pressure return to zero and remove the jars.

This one step method can also be used for canning fresh lima beans, carrots, cream style corn whole kernel corn, black eye peas and summer squash. For further information check with your local home demonstration agent, 305 Federal Building, in Wichita Falls. You may also wish to ask for a copy of B-194, Home Canning, Fruits and vegetables.

I. O. O. F. LODGE.
BURKBURNETT, TEXAS
Meets at I. O. O. F. LODGE
Every Tuesday Night, 7:30 p. m.
Visitors Welcome
CLAUD REED, Noble Grand
JIM ADY Vice Grand
Ralph England, Jr., Secy.
John M. Bryan, Finance Secy.

The leaders also warn you to prevent spoilage and poor quality in home canned foods. They remind you that you lose time, labor and money when your canned food spoils. If quality is poor, the food may lose appeal and nutritive value.

Three main causes of food spoilage are: under processing, faulty seals and improper handling, according to Thelma Wirges county HD agent. Work for top quality in your canned products by following these suggestions from the agent and leaders.

Use young tender products. Gather and can in the cool of the morning.

Can in small amounts. Clean food thoroughly, keep all utensils and containers clean.

Use aluminum, unchipped enamel or glass for holding or precooking food. Aim for speed in preparation. One hour from the garden to can is ideal.

Use proper type of can or jar for food being canned. Have food hot when sealed unless canning vegetables by one step cold pack method.

Get a good seal. Do not overcook or underprocess. Cool quickly. Store in a dark dry place. Store in a cool place, 50 to 70 degrees.

These same leaders suggest freezing as another method of using those surplus vegetables. Freezing is a quick, easy way to preserve fresh vegetables. The leaders and agent say that freezing keeps the natural color, fresh flavor and food values of most vegetables and fruits better than other methods of food preparation.

For best results, select fresh tender vegetables right from the garden while they are at the right stage of maturity for eating. Other factors that influence quality are preparation, packaging, freezer loading and length of storage.

Latest information on how to freeze and how to cook frozen foods is given in Extension Bulletin, Frozen Foods. Get a copy from your HD agents office.

This work on food preservation was planned by the county food and nutrition committee. Mrs. L. L. McHugh is serving as chairman.

News From The County Agent

24 outstanding 4-H club boys and girls, representing the 12 Texas Extension Districts, have been named recipients of the State Fair Awards honor for 1958.

The club boys and girls were selected on the basis of their outstanding achievements in general 4-H club work.

The district winner for District III was William Morton, 4-H clubber from the Friberg-Cooper community. William has completed 6 years in 4-H club work.

Cotton in the county is looking good. Farmers are urged to check their cotton closely for cotton insects. We find in our weekly cotton insect check that fleahoppers are doing damage in some fields. Some of the insecticides that may be used to control the fleahoppers are Dieldrin, Aldrin, Heptachlor, Endrin and Toxaphene.

The newest, easiest, cheapest and most effective way to control Johnson grass in row crops is to spot treat with oils or dala-pion.

Costs of dairy farming now favor the mechanization of chore work, but operators planning to mechanize should carefully balance estimated cost against expected net returns.

More and more Texans are turning to water sports for summer fun. There were 286,000 pleasure boats in the State in 1957 and each year about 10,000

new fishing licenses are bought, according to B. T. Haws, county agent. But he also reports 293 drownings for last year. Haws urges water safety to keep fun and enjoyment at a maximum.

If you want more profit and more satisfied egg customers, cool your eggs as soon as possible and keep them cool, says B. T. Haws, county agent. The temperature of eggs when laid is about 105 degrees. Quality breakdown begins immediately and continues rapidly unless the eggs are cooled. To maintain the highest quality, cool your eggs to below 60 degrees before the quality breakdown gets a start. Haws points to research showing that it takes between 16 and 18 days for eggs to get to the consumer. Quality is deteriorating all the time so it is easy to see why it is important to keep the eggs cool.

With the exception of beef, chicken is the first choice meat of households in Houston, Tex., according to a recent survey of consumer attitudes and preferences regarding chicken by research workers of the Texas Agricultural Experiment Station. Most of the families who bought chicken at the chain stores included in the Houston survey did not consider it their first choice meat. However, people who usually buy chicken rather than other meats do so because they prefer it or because it can be used for variety in the family menu.

The main reasons given for buying chicken fell into four groups, flavor, economy, health and versatility in meal preparation. It is considerably more popular for weekday evening meals or Sunday dinners than for special occasion meals.

Burk Boys Training At Fort Hood, Tex.

Burkburnett boys are attending a six week summer camp at Fort Hood, Texas, under the Reserve Officer Training Corps program of Midwestern University. The training will end August 2. Attending from Burkburnett are:

Jackie V. Wright, 21, son of Mr. and Mrs. Vernon Wright, 201 Beach Lane. He was graduated from Burkburnett High School in 1955.

James R. Estes, 20, a 1955 graduate of Burk High. He is the son of Mr. and Mrs. Dow Estes, 716 College St.

Gerald B. McCabe, a 1955 Graduate whose wife, Jimmie, lives at 2005 Speedway, Wichita Falls. His parents, Mr. and Mrs. Eugene B. McCabe, live at 522 W. Main in Burkburnett.

Mr. and Mrs. J. T. Deckard and Mrs. Mildred Audus and son visited Mrs. Deckard's brother, Mr. and Mrs. O. L. Holley in Lawverne, Okla., over the weekend.

FOR ATHLETE'S FOOT USE T-4-L BECAUSE—
It sloughs off infected skin. Exposes more germs to its killing action. IN 1 HOUR, if not pleased with STRONG, instant drying T-4-L liquid, your 48c back at any drug store. Use T-4-L FOOT POWDER too—gives a film of antiseptic protection. Now at CORNER DRUG STORE

Sliding Door Saves Space

Space savers are important in today's smaller, more compact homes. A useful trick of this kind is a sliding louver door between kitchen and dining room, as shown in the drawing.

By gliding smoothly out of the way, this door of ponderosa pine doesn't take up space swinging out into the room as do conventional doors. With the door closed, the louvers let air circulate, keeping the kitchen from becoming hot and stuffy.

The door can be painted or stained on each side to match colors or wood tones used in both rooms. Louver doors of ponderosa pine can be obtained from building materials dealers in many stock sizes and styles, ready to be installed.

The sliding louver door idea also is a good one for other rooms in the house, especially

closets. The louvers permit circulation of air in closets, preventing mustiness. Installed between rooms, the louver doors make heating and air-conditioning systems more efficient.

Last Rites Friday For J. W. Zink, Sr. Former Burk Man

Death came to J. W. Zink, Sr., 70, at 12:50 Wednesday morning at the Boehne Hospital in Evansville, Ill. where he had been a patient for the past five weeks. He resided in Maunie and for the past 10 years has operated a service station there. His health started a serious decline in January.

He was born in Nashville, Tenn., on Sept. 21, 1887. The son of Hamilton and Lizzie McClure Zink. He came to this county from Burk Burnett, Tex., in 1941 and was employed by the Cherry-Kidd Oil Company. He lived in Nashville, Ill., for a year before moving to Maunie where he resided since. At the time of his death he was filling the position of village treasurer.

He was a member of the First Baptist Church in Carmi and of the Odd Fellows and Rebekahs of Maunie lodges; of the Carmi A. F. & A. M. and Royal Arch; of Mt. Carmel Commandry, K. T. and Olney Council R. & S. M. and very active in all.

He was married to Bessie Lee Mayo on Nov. 18, 1908 who survives along with three sons, James Wesley, Jr., of Mt. Vernon, Ind.; Elbert of Carmi and Albert of Pool, Ky.; a daughter, Mrs. Felix (Lillian Pearl) Myers of Evansville, Ind.; two brothers, Ernest Zink of Nashville, Tenn.; and Fred Zink of Lexington, Ky.; a sister, Mrs. Lillian Brumit of Chicago. A brother, Edward Zink, Sr., preceded him in death about three years ago in Nashville, Tenn. He also leaves 12 grandchildren and 3 great-grandchildren.

The funeral service was held Friday afternoon at 2:00 o'clock at the First Baptist Church in Carmi with the Rev. Carl Jacobs and the Rev. Kenneth Archer officiating. Interment was in Garden of Memories with Masonic Rites by Carmi A. F. and A. M. No. 272.

Guests in the home home of Mrs. H. S. VanCleave and Oma this week were Mrs. W. Frank Armstrong and Miss Carolyn VanCleave of Ft. Worth and Miss Heidi VanCleave of San Francisco, Calif. Heidi and Carolyn are granddaughters of Mrs. VanCleave.

No Time -- Nor Money -- For Frills

DEVOL NEWS

MRS. C. O. WOODLEY

Guests in the home of Mr. and Mrs. Guy Hutson Sunday were Mr. and Mrs. Charles Moran of Hollister, Mr. and Mrs. Jimmie Bryant of Wichita Falls and Mr. and Mrs. Jess Weaver and Joetta of Edmond.

Mrs. Laura Carroll of Houston is here visiting her parents, Mr. and Mrs. J. H. Gardner.

Mrs. W. A. Wood who has been ill several months was reported in a serious condition Tuesday.

Mr. and Mrs. John Sells drove to Pampa last Tuesday to return their neices, Katherine and Barbara Smith to their home after a two weeks visit here.

Mr. and Mrs. A. L. Mays who have been employed in Clinton several years have returned to Devol to make their home.

Mrs. Callie Baumhardt is visiting her daughter, Mrs. Birdie Lou Webb and family in Wichita, Kans., at this time.

Hobart Hale of Kilgore spent the weekend here with his mother, Mrs. J. W. Hale.

Mr. and Mrs. W. C. Charbonneau spent July 4th in Wichita Falls visiting their daughter, Mrs. Ernest Weaver and family.

Sgt. and Mrs. Donald Wayne Bryant and children, Donna Jean and Tommy of Little Rock, Ark., spent the weekend with his grandparents, Mr. and Mrs. E. Watson.

Mrs. T. A. Landers has been visiting relatives at points in East Texas the past two weeks.

TRINITY LADIES AID MET THURSDAY, JULY 3rd

On Thursday afternoon, July 3rd, the ladies aid of Trinity Lutheran church met at the Parish Hall for the regular meeting with Mrs. Arnold Keisinger serving as hostess. After the meeting was called to order by the president, the opening hymn was sung. Rev. Boriack gave the bible reading from Psalm 119 and led in prayer.

The topic lesson for the day, The Bible Is God's Word for all the World, was given to the group by the pastor.

After the reading of the minutes of the last meeting and the treasurers report was given Mrs. George Alexander gave a very interesting report on the LWML Convention she attended at Lubbock June 11-13th.

The ladies voted to send the many clothes that have been donated to be sent to World Relief.

We are to pack and send all clothing this month.

After roll call the meeting was adjourned and Rev. Boriack led in the Lords Prayer.

The hostess assisted by her daughter, Phyllis, served a delicious refreshment plate to Rev. and Mrs. Boriack, two visitors, 17 members and a group of children who were present at the meeting.

SING A SONG OF HIGHWAYS

Here's a group of songs appropriate for those who traveled the highways over the Fourth of July. You may sing them, too, on any future motor trip:

At 45 miles per hour, sing "Highways Are Happy Ways."
At 55 miles per hour, sing, "Merrily We Roll Along."
At 65 miles per hour, sing, "I'm But a Stranger Here, Heaven Is My Home."
At 75 miles per hour, sing, "When the Roll is Called Up Yonder I'll Be There."
At 85 miles per hour, sing, "Nearer My God to Thee."
At 90 miles per hour, sing, "Lord, I'm Coming Home."

Though through the ages man has progressed to the point where he walks upright, his eyes still swing from limb to limb.

The average man's biggest problem is reconciling his gross habits with his net income.

Aerial Police Unsnarl Traffic

By Jeanne Smith, Dodge Safety Consultant

THE CARELESS MOTORIST who ran out of gas on the Los Angeles freeway system used to cause hour long delays for thousands of motorists.

Now, the problem can usually be handled in minutes because the Los Angeles police have taken to the air.

Until recently, the police had difficulty locating the source of the problem. Now, the Helicopter Unit of the Los Angeles Police Department is always on the alert. Like a good natured big brother, the 'whirlybirds' seem to look over your shoulder as you drive.

Operating Monday through Friday during the peak morning and evening rush hours, the planes provide a three-to-five-mile view of traffic in either direction. As soon as a trouble develops, the ground forces are contacted by radio and rush to the scene.

"Statistics indicate that both our population and our traffic problems will continue to increase," said Capt. C. E. Wolfrum, "and our experience over the last two years indicates clearly that the helicopter is the most modern and effective tool for traffic control."

In addition, the Helicopter Unit has also helped police by reporting fires, locating stolen cars, reported aircraft violations and reduced speeding just by casting the whirlybird shadow over the motorists below.

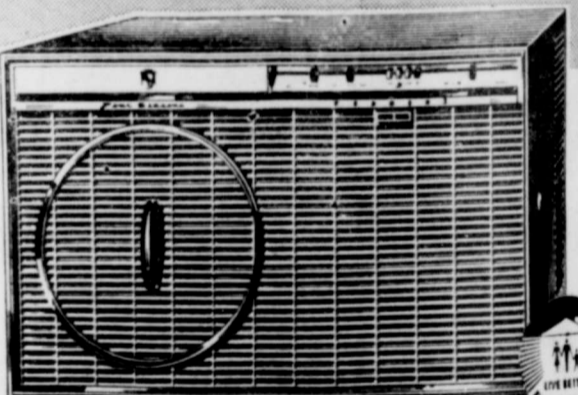

So, when you visit L. A. drive at your safety-best. It's safer, and cheaper too.

Miss Smith

cool a whole apartment with the world's most powerful 115-volt air conditioner (no costly 230-volt re-wiring)

1 1/2 HP 115-Volts

1958 FEDDERS AIR CONDITIONER

Why jail your family in a single air conditioned room when the heat's really on?

This new 1 1/2 HP Fedders can cool a whole apartment of moderate size, depending on room layout. It provides more cooling than two small-capacity units... costs less to operate... yet it's priced far lower.

Best of all, it's the world's first 1 1/2 HP model to run on 115-volt electricity, the kind in most apartment houses; saves the cost of 230-volt re-wiring. It uses 40% less current than other 1 1/2 HP models, but its amazingly high factor of 99.8% enables it to produce more cooling from each watt of electricity.

Like all 1958 Fedders models, it features Deep-Cold Cooling Reserve that permits the heavy-duty four-row evaporator to run 25% colder than any other air conditioner on scorching days. New Vari-Air Control permits quiet nighttime operation without loss of cooling efficiency. Come in for a demonstration today.

also a 1 1/2 HP 115-volt model that HEATS... as well as COOLS

AUTO ENTRANCE ramp burrows inconspicuously into the desert as it leads down to a dual-purpose underground shelter and garage at the Operation Flumbob atomic tests in Nevada. Lower photo shows how the A-bomb blast crumbled part of the concrete retaining wall but failed to block the entrance. To the right of the crumbled wall is the entrance, closed by a 100-ton, four-foot-thick reinforced concrete blast door (inset), which was undamaged. (WTO Lookout Mountain Lab Photos)

About Your HEALTH

A weekly public service feature from the Texas State Department of Health. HENRY A. HOLLE, M. D. Commissioner of Health

It will arouse the wrath of sun worshippers, but this must be said: The healthful effects of a suntan aren't worth the time and trouble it takes to get one. After all, a sunburn, like any other burn, is a manifestation of a skin injury.

True, a sensible bask in the sun makes a fine mental pick-me-up and there is no denying the supple appeal of a tawny life-guard. But to over do it can lead to trouble. In fact it can kill you. More than one person has succumbed to prolonged and unaccustomed exposure to the sun. Even at best, overexposure can mean two or three miserable days when a mere shirt or blouse is torture, and a friendly pat on the back can end in murder.

The medical term for sunburn is "erythema Sorari." It's the ultra-violet light in the sun rays which does the damage. And since clouds don't remove all the ultraviolet rays, it is possible to get burned even on overcast days in mid summer. Some people are physically unable to tan. Known medically as "heliophobes," they could spend the entire summer on Padre Island, and all they'd get would be blisters on their blisters. The reason: Their skin lacks the pigment necessary to produce the tan tint. They never had a tan and they never will, so they ought never attempt one. Each new exposure will only mean a new burn.

Assuming you are the type who can tan, a heliophilac," that is, the well known rule about doing it by progressively longer exposure times is valid and should be followed.

Sunshine is a source of vitamin D, as most people know. What is apparently misunderstood is that ordinary healthy people can get all the D vitamin they need through routine activities such as hanging out the family wash, mowing the lawn, or walking to the store.

For persons suffering from pellagra, lung tuberculosis, high blood pressure or hyperthyroidism sunlight may be definitely harmful.

In case you have wondered about the source of freckles, here's the answer: The color of everyone's skin is determined by the amount of pigment in skin cells. Dark complexioned people have considerable, blondes very little and albinos none at all. Under microscope the pigment in skin cells looks like tiny flecks of brown paint. Sometimes, especially in children, it is manufactured unevenly and collects in the spots we know as freckles. Ultra violet rays can be filtered, fortunately, by smearing a thin film of olive oil over exposed skin. So if you are a heliophilac, and if you just have to have that golden sheen this summer, it might pay you to try it.

Church of The Nazarene

Rev. T. F. Keese, Pastor
Sunday School—9:45 a. m.
Morning Worship—11:00 a. m.
Young People Service—6:45
Junior Society—6:45 p. m.
Evening Worship—7:30 p. m.
Wednesday—Prayer Meeting, 7:30 p. m.

It's The Law In Texas

You can give some of your rights to other people, for example, the right to collect a bill; but it's a different thing with your duties. You need your creditors OK firmly to assign your debts to another.

You can sell what you own, all right, but you can't shake a debt merely by getting somebody else to promise to pay it for you. Your creditor, who is a party to your contract, has something to say about who takes over your obligations.

Thus, your cousin, say, borrows from you and promises to pay the money back. He can't get out of it by getting his neighbor to say he will pay you for him unless you agree, and this takes a written contract.

Suppose you bought Abel's house on time for \$15,000 and had paid off \$5,000. Then, with \$10,000 left to pay, you get Joe Blow to buy the place.

How could Blow pay you for it? Well, for Blow it would be just dandy for you to let him take over the \$10,000 debt, pay your \$5,000 equity and then pay off Abel the rest of your \$10,000 debt. Blow would save the cost of a new loan, if his credit was good enough to get one in the first place. So you set it up that way.

One day Blow blew; and you, yes you, hold the bag. True, you could turn over your equity to Blow without Abel's consent.

But your agreement with Blow to pay the balance is not binding on Abel. He can hold you to your original deal. Pay up \$10,000.

Don't let someone "assume your loan unless you protect yourself by an agreement with your lender, or unless you are

willing to risk holding the loan. Your buyer is often enough risk for you to assume the loan, but don't think you are free of debt.

Clair-Davis Engagement Announced

T-Sgt and Mrs. Charles Clair of Burkburnett announced the engagement and approaching marriage of their daughter Jo to William Worden Jr., who is stationed at McAFB, Washington, son of and Mrs. William W. Davis of San Jose, Calif.

Wedding vows will be exchanged in the Moffett Field Club in California, Aug 3rd at 3 with Navy Chaplain H. E. officiating.

Miss Clair spent part of first high school year in Ma where she was a member of a swimming team, later to Wichita Falls and was a member of the Coyote band. She is a member of the junior class of Burkburnett High School and was a member of the drama and choral club.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

Way through the so-called "year of 1958," Texas economic forecasters are turning their eyes upward again. Statistical reports show steady improvement in overall business activity since the bleak lows of February and March. If the hop-pick-up in oil demand during the latter half of the year, 1958 may be a year after all.

Deposits:— Many banks have lots of money in their vaults; in most areas, more than last year. Response to the Banking Commission's call for condition of deposits showed that most have more than last sum-

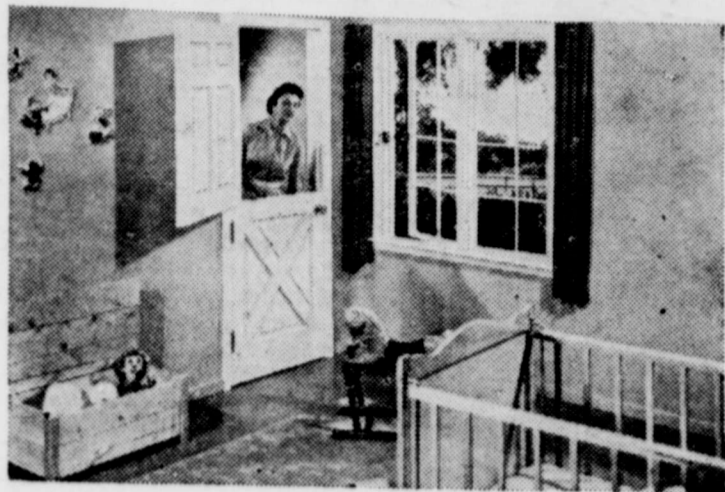

mer and some are at new record highs. Dallas County bank deposits increased by \$333,000,000; Harris County (Houston) by more than \$267,000,000 over a year ago. Towns with all time high deposits were Amarillo, Corpus Christi, Tyler, Denton, Midland and Port Arthur.

Retail Sales— Despite saggs here and there, Texas retail sales are expected to run some 7 percent ahead of '57, says the University of Texas Bureau of Business Research. Because of low months early in the year, sales volume for the first five months of '58 were 1 percent below the same period of '57. But a late spring upsurge put May, 1958, sales ahead of those for May, 1957. Apparently Texans are concentrating on essentials. Compared to last year, farm implement sales were up 27 percent, food up 11 percent, autos down 8%.

Business Index— BBR's latest report shows the 1958 level of general business activity 4% below May 1957. But May, 1957, was a dizzy pinnacle the highest point ever reached by the Texas business index. Since the low in March the index has made encouraging progress, pulling up by 8 points. Fall will bring the tip-off, says BBR, as to whether recovery momentum is sufficient for a rise to a new crest.

Employment— Although thousands more were out of work than a year ago, Texas Employment Commission's most recent over all survey showed a substantial shortening of the jobless lines. Like the general business index, employment seemed to be making a steady recovery from the early spring "trough." Number of unemployed dropped 4,200 during May, TEC reported, and non-

Interior 'Dutch' Doors Keep Children in Bounds

A Dutch-style door used inside the house can be the answer to many problems and inconveniences, especially when there are children around. The photograph, showing a "Dutch" door as the entrance to a small child's room, illustrates one of the most popular uses. When the bottom half is closed, the toddler is kept happily confined without being completely shut off from the rest of the family. A Dutch door of this type is available in stock from building material dealers, or can be made from a stock panel door of ponderosa pine sawed in half. As a kitchen door, the Dutch-style is ideal, since the top half can be left open for ventilation, while the bottom half keeps children and pets out.

farm employment rose to almost three million. Insured unemployment in Texas was only 4.1 percent of the working force compared with the national average of 7.2 percent.

Company Challenged— A king size clash is in prospect July 15th between the State Insurance Dept. and National Bankers Life Insurance Company of Dallas.

Commissioner William A. Harrison has ordered the company to prove fitness of its management or lose its license.

National Bankers, regarded as one of the largest and most prosperous companies in the Southwest, claims more than \$19,000,000 in assets. Some \$5,000,000 of these are discounted by the Department as unsound or unsuitable for an insurance company. Specifically questioned by the state are a number of mortgage loans made by the company to other firms in which the company's officers or directors have an interest.

Company President Lester F. Hall said the firm's financial footing is so sound it could raise \$5,000,000 in a matter of hours. He said the company had a premium income of \$10,000,000 last year and net earnings of \$1,000,000.

Glad To Move Over— Despite the prospect of losing "biggest state" honors, Texas officials say they're happy to welcome Alaska as No. 49. Sample comments:

Gov. Price Daniel: "We will still have the biggest navy."

Sec'y of State Zollie Steakley: "I'm glad another state will bear the brunt of the gags about being the largest state."

Atty. Gen. Wilson: "I suggest they nail down their off shore lands before they enter the union."

Semi Westward Ho— Redesignated Texas tan uniforms have brought a new look to the Texas Highway Patrol. Semi western in style, the uniforms sport black trim, black shoes, wide brimmed grey hats with western crease.

Only 380 patrolmen and other division members of the Dept. of Public Safety are outfitted at present. New uniforms for the rest of the force will have to wait for another appropriation from the Legislature.

Taxpayers Get Wary— Slump in federal income tax collections in Texas the past several months has been noted

by Internal Revenue officials. Cause has been attributed to recession minded taxpayers lowering their estimates of income for the year. South Texas Collector Bob Phinney thinks, however, most will wind up making just as much money as last year.

Last year Texans paid a record breaking \$2,600,000,000 in federal income taxes, about \$128,000,000 more than in the year previous.

School Cost Climbs— Texas counties expect cost of education to climb \$70,000,000 annually in the next five years.

This was revealed in reports of 251 counties to the Hale-Aikin Survey Committee on Public Education. Most of the increase would go for expansion necessary to keep up with increasing enrollment.

Counties differed as to how the money should be raised. 25 percent favored higher local taxes or increased valuation. 44 percent wanted additional money from the state. 9 counties favored federal aid. 35 recommended a sales or income levy.

Short Sorts— Walter Buckner, publisher of the San Marcos Record and past president of the Texas Press Association, has been named by Gov. Daniel to the Industrial Accident Board. He will serve as the employer representative. The two other members of the board are Ned Price of Tyler, representing labor; and Leonard Carlton of Austin, representing employees. A \$20,500 grant for re-codifying Texas school laws has been provided by the M. D. Anderson Foundation of Houston. A legislative committee headed by Rep. Robert H. Hughest of Dallas is in charge of the work. Preliminary report on a comprehensive survey of Texas water resources has been submitted to Gov. Daniel. It was requested by Sen. Lyndon

B. Johnson and prepared jointly by State and federal water agencies. Contents of the report will not be released for publication until final approval is given. Farm experts expect that a 92-year old record for cotton yield per acre may be topped this year. Second highest yield was recorded last year at 295 pounds. All time high was 325 pounds per acre in 1886, when soil was virgin. Gov. Daniel has proclaimed July 14-20th as State Park Week to call attention to the 56 park unit begun in 1924 when Gov. Pat Neff and his family donated "Mother Neff Park" to the State. Texas draft quota for August will be 539 men, only one more than were called for in July. State Selective Service Headquarters also announced that some 1,700 men are to take preinduction exams in August.

Your New Social Security

Social Security reports on domestic workers for the May-June quarter are due in July. Erton E. Tate, manager of the Wichita Falls social security office announced today.

Under the present law, most domestic employees, such as gardeners, cooks, maids and housekeepers are covered under social security. Employers of these and other household workers must report the cash wages paid and remit the social security tax at 4 1-2 percent of the employee's wages. In cases where the domestic employee has earned less than \$50 in cash in the quarter, the employer does not have to make any report.

Mr. Tate stressed the point that these wages reports are extremely important to the domestic employee, since old-age survivors and disability insurance benefits under social security are figured on the basis of the amount of earnings credited to a person's account.

The form used in making the return on household employees requires only a few minutes to complete and may be obtained from the office of the District Director of Internal Revenue in Dallas, Texas.

Owens & Brumley Funeral Home

Can your home pass this HOUSEPOWER test?

- Do your lights dim when major appliances start up?
 YES NO
- Do you have to replace "blown" fuses frequently?
 YES NO
- Do your electric toaster and iron take too long to heat up?
 YES NO
- Do you have to unplug one appliance to plug in another?
 YES NO

IF YOU CHECKED "YES" one or more times, it's an indication of low HOUSEPOWER. You may need larger wire, additional circuits and more outlets to get the most efficient and convenient service from your electrical appliances.

You see, home wiring designed for the appliances used by the average family only a few years ago may be inadequate for the many additional electrical conveniences you enjoy today. As a result, lights may dim, appliances may operate sluggishly and fuses may blow frequently due to overloads. These symptoms are usually most noticeable during hot weather, when electricity does so many more jobs for you.

Your electrical contractor will gladly check the wiring in your home and suggest the additional wiring you may need. Call him about it today. Live Better Electrically with full HOUSEPOWER.
