Garbage Pick Up Regulations

There have been various and sundry interpretations of the Garbage Pick Up Ordinance that was passed by the City Council and published in the paper for the public to read.

A number of people have interpreted it as compulsory and that you must pay garbage fees whether the service is used or not. That is what the Ordinance reads. It reads that the fee is available to each and every one within the limits. This removes any excuse a person has to let garbage and refuse collect until it creates an unsanitary condition. When a complaint is filed by some one against a person for such a condition exist, then the health officer requires the premises to be cleaned up in a certain length of time, or charges can be filed against the person for each day they allow such condition to exist.

Charges are \$1.00 per family unit where garbage is set out at alley or street. If carry outs have made over 20 ft. back of property line, then charge is \$1.50 per month. Where there is no alley it is entirely up to the customer as to whether they want to set his garbage can out at the street or back yard and pay \$1.00 per month, or leave it at the back yard for the garbage men to carry and pay \$1.50 per month.

It should be very obvious to any one that a person cannot pay three men's wages and the operator of a truck and make at least four and some five carryouts from the back of a 150 ft. alley.

The Ordinance was passed by the City Council a great amount of time and study and with thought in mind of creating a cleaner city in which to live, so instead of only criticism for their forward direction, how about co-operating in a cleaner and more sanitary city for our families.

Also, the burning of trash in open barrels is a great fire hazard to everyone. Approximately eight out of ten fire calls are fires set from barrels. If the garbage Ordinance curbs this, it will have been worth while in that alone. If it does not, it may become necessary to make it a finable offense to be caught burning trash or garbage at all, except during certain hours of the day.

How about everyone pitching in and helping to make our city a place in which we are proud to show our out of town friends.

Connie Swinford's Grand Champion Steer Brings \$6,000

With a kiss and a smile, 9 year old Connie Swinford of Wichita Falls sold her grand champion steer for \$6,000 at the 1959 Southwestern Exposition and Fat Stock Show.

Amon Carter, Jr., chairman of the Stock Show board, got both the steer and the kiss. He purchased the steer at auction in the name of the Carter Foundation and said the Hereford would be given to Lena Pope Home, an institution for underprivileged children.

Bidding at the steer auction was spirited and Connie's Steer had reached \$5,800. After the bid was made, Auctioneer G. H. Shaw urged the tiny girl to kiss Carter on the cheek and see if he would top the \$5,800. Carter responded to the kiss with the \$6,000 bid which bought the champion.

The reserve champion steer, a Hereford owned by Ronnie Martin of Lubbock, sold for \$3,000. The champion Short-horn brought a top bid of \$1,800 and the same price was paid for the champion Angus, owned by Don McAnear of Clarendon.

Connie said she was going to use part of her \$6,000 to feed out another calf for next year. The rest, she said, would be saved for college. She and her parents, Mr. and Mrs. Ralph Swinford, live in the Friberg community, ten miles from Burk Burnett.

Burk Post Office Receives Letter With 1919 Address

The Burk Burnett Postoffice was treated to another of the "believe it or not" incidents that happens now and then in the general run of business.

On Monday morning a letter arrived to a street and number that is now non-existent in the city and to a probable patron of long ago. This was evidenced by a notation by the sender on the envelope that "This was the address in 1919."

Forty years ago, the address might have been correct and the addressee might have lived in Burk Burnett, along with some 20 or 30 thousand other people, but today neither the street number nor the addressee are known. The letter was returned to the sender.

No Victories In Sight

At this writing we are engaged with the Soviets in two high level conferences in Geneva—one on the cessation of nuclear testing and the other on reducing the peril surprise attack—and getting nowhere on either. In Warsaw still another US emissary is attending a footless series of meetings with a Red Chinese envoy over the bombardment of Quemoy.

Against this dismal setting Russia's Premier Khrushchev has declared that the West has overstayed its leave in West Berlin, that US, British and French troops must get out, or get permission to stay from the East German government, which the Free World has never recognized. He seemed to be saying that West and East Berlin are one and the same—and both Soviet. The reaction of the West to brace itself for another Berlin blockade and to prepare for another airlift of necessarily much greater proportions than that of 1948-49—since West Berlin has prospered mightily since those days.

Undoubtedly, this country and its allies could provide the necessary planes and pilots, but it is recalled that during the previous air lift the Russians made no effort to interfere with plane operations in and out of the beleaguered city over the three air corridors assigned to the occupation forces and linking West Berlin with the West German frontier. Now, if Khrushchev withdraws Soviet officials from East Germany and from the Air Control Board, as his speech indicated, and substitutes East German puppets, will the new authorities seek to intercept allied planes, force the use of fighter escorts and invite incidents of the gravest consequences.

Off the China coast, Quemoy continues to withstand the off again on again Red shelling which has added a new element of nerve shattering suspense to a war that is neither hot nor cold.

In Cuba, where country has maintained a curiously aloof attitude despite the repeated capture of US nationals by the rebel forces, the position of law and order continues, apparently, to deteriorate.

And here at home in the United Nations in New York, our efforts at forestalling the use of outer space for military purposes has backfired with the demand of Russia that we give up our foreign bases. From here, it looks as if the Democrats were losing as well as the Republicans.

Soviet Spider Draws U. S. Flies

It looks as if we might better have invited Khrushchev himself (the self appointed grave-digger for the U. S.) to visit us than to have permitted his first deputy, Anastas Mikoyan to land on our shores. As keen as he is cruel, as cunning and ruthless as he is disarming, this number one henchman is bad medicine for the US.

Except for minor annoyances created by Hungarians who resented his slaughter of their kinfolk in the double-cross of Budapest, this arch-enemy of the US was given the conquering hero treatment, wined and dined and fawned upon from coast to coast, by an eager press of politicians and tycoons who should have known better. By the time he had returned to New York, where the Police Commissioner deemed it wise to detail 500 men to his protection, Mikoyan had spent most of his synthetic sweetness and was talking tough. Next on his agenda were Secretary of State Dulles and President Eisenhower. He indicated in advance that he would find (as Americans hadn't) what Mr. Dulles meant by his recent statement that there were other ways of unifying Germany than through elections, would be interested in an alternative, if Mr. Dulles had one, but considered the arrogant Red plan to swallow Berlin the best yet. The President, whose weekends have generally been considered inviolate, was scheduled to stay in Washington and see Russia's star salesman on Saturday.

Mikoyan, we are reminded by Elizabeth Churchill Brown in the current issue of HUMAN EVENTS, was the wartime receiver of Lend Lease from American and Foreign trade Commissar as well, jobs which equipped him admirably as "chief of Soviet espionage into our war industries." Testimony of such witnesses as defector Victor A. Kravchenko, Major George Racey Jordan, who was in charge of lend-lease air shipments to Russia from Great Falls, Mont., and Dr. Medford Evans, former AEC chief of training, paints a startling picture of the wholesale transfer of US military secrets, including atomic "blueprints" and the actual fissionable materials, and establishes Mikoyan as the master mind at the top.

All he wanted this time were two to three billion dollars in trade credits, concessions on German unification and a summit meeting. Brace yourself for the final report.

In Peace And War

Has incredibly fast international air travel, the prospect of space vehicles, and other such modern phenomena undermined the importance of the merchant ship?

In fact, Admiral Burke describes a ship as the most flexible, versatile and economical mode of transportation the world has ever known. He added, "The sea reaches all islands and continues on earth, where people live, fight and do business. Ships can carry large quantities of people and goods over the homogenous surface of the oceans."

Noting that last year this country exported one fifth of the world's total export trade of \$100 billion, the Admiral continued: "We are heavily dependent on the sea, and this demands that we not only control the sea but also that we have the means to use those seas. This means ships under effective American control."

"Both in peace and in war, a strong American Merchant Marine is essential to the strength and well being of our country."

Government policy, as laid down by the legislative and administrative branches, is geared to building and maintaining that kind of U. S.—flag Merchant Marine. It is a policy that the hard and inescapable facts of life in today's world make essential.

Mrs. Harold Wilson Guest Speaker Of University Club

The University Study club had a most enjoyable and worthwhile meeting on Wednesday, Feb. 4th when they met in the lovely home of Mrs. E. R. Burns, with a guest speaker, Mrs. Harold Wilson of Wichita Falls. Mrs. Wilson spoke on Mental health and retarded children. The president of the club introduced Mrs. Wilson and assured us that we were in for a treat. As Mrs. Wilson took the floor and began her speech, we indeed were held spell bound with the information she gave us. She is the past president of the Association for retarded children and certainly handled her subject well. She informed us that three out of every hundred babies born are mentally retarded. Over half the hospital beds in the nation are occupied by mental patients. The states most urgent health problem is mental illness. 16,000 Texans are in state mental hospitals. One in every twelve Texans will be hospitalized for mental illness some time during his life time. One family in every five is stricken by mental illness.

After this interesting and instructive talk, Mrs. Crosley presented the speaker \$5.00 to be used for the mentally retarded children's work.

Following adjournment of the business, the members and visitors were invited into the dining room for refreshments. The table was laid with an heirloom cutwork cloth over pink satin with an arrangement of red and white carnations in a silver container in the center and a silver service for coffee on one end. Mrs. Crosley presided over the coffee service. Mrs. Brocker, vice president, served chicken salad on heart shaped bread, heart shaped cookies colored red with candies on top, mints and nuts also adorned the table. It was a beautiful setting.

Those present were Mesdames Crosley, Brocker, Bunstine, Cauthorn, Holt, Mathis, Melton, Newman, Pogue, Reagen, Reger, Sessums, Tevis, Young, Witherspoon and our hostess, Mrs. Burns. Guests for the afternoon were Mrs. Wilson, Mrs. Barbara Manner and Miss Laura Louise Tevis.

broad as to limit union members from expressing opinions and hence, free speech. They would be too heavy an expense also said the CPA requirement for small unions.

Parkhouse said many union members asked him to sponsor such a bill so they could get an accounting of what goes with union funds. Some, he said, complained their dues money was used for purposes with which they did not agree.

SCHOOL BILLS— Committee hearings on higher education appropriations brought varied, but cautious, expressions on how these increasing costs might be met.

Before the House Appropriations panel, A. M. Muldrow, Higher Education Commission chairman, said that the commission was studying the question of asking for higher college tuition rates. State college tuition was doubled, from \$50 to \$100 a year, last session.

Before the Senate Finance Committee, most of a group of 18 junior college presidents said they would approve a general sales tax if necessary.

MATTER OF MATH— First official consideration of a part of the governor's money programs brought a real set to.

It was a hearing on "the book-keeping bill" by the House Revenue and Taxation Committee. This is a proposal, sponsored by Rep. James E. Bates of Edinburg, to credit to the general revenue fund \$18,000,000 from the omnibus tax fund. Since the general revenue fund is expected to be \$65,000,000 in the red by Aug. 31st, this would help to ease the pain in that area.

Representatives from the state comptroller's office called the plan unsound, declared such juggling around would just be "legalizing a false statement."

Legislative critics labelled it "check kiting." But members of the governors office defended it stoutly as a means of giving a "true picture of financial condition."

PARKHOUSE vs LABOR— More heat was generated when representatives of organized labor came up to protest Sen. Geo. Parkhouse's union reporting bill.

Briefly, the Parkhouse bill would prohibit use of union dues for political purposes and require unions to file financial statements audited by a certified public accountant.

Labor officials protested that some phrasing in the bill was so

be required to operate passenger service at a loss.

INCREASE FRANCHISE TAX on corporations by 60c on each \$1,000 capital, by Rep. J. E. Winfree of Houston. Part of the Daniel tax program, it would raise an estimated \$14,000,000 this year, \$15,000,000 next year, then expire.

RAISE STATE EMPLOYEE pay 5 to 20 percent on salaries under \$4,800, by Travis County legislators.

PERMIT FLEXIBLE RATES on automobile insurance, varying according to good and bad records of drivers, by Sen. Jarred Secret of Temple. This is a highly controversial bill which was defeated last session.

TAX TRADING STAMPS by 10 percent, by Rep. Joe Chapman of Sulphur Springs.

REGULATE BOXING AND WRESTLING by a new commission created for that purpose, by Rep. Will Smith, Beaumont.

ABOLISH AERONAUTICAL BOARDS by Rep. Bill Hollowell of Grand Saline. He called it a "needless waste" of state money with the CAA serving all useful aviation functions. He said he is considering a similar bill to end the Good Neighbors Commission

More and more bills keep pouring into the legislative mill daily. Among recent ones are those measures which would:

PROTECT PUBLIC RECORDS by providing a three to seven year prison term for unlawful removal, by Sen. David Ratliff of Stamford.

CREATE A NEW COMMISSION to regulate telephone, gas and electric power companies statewide, by Rep. Bill Kilgarlin of Houston.

KEEP PASSENGER TRAINS running long after revenue declines, by Rep. Clyde Miller of Houston. Railroads cannot now

News From The County Agent

Range fires during this season not only destroy needed forage but create wind and water erosion hazards. County agent B. T. Haws points out that most range vegetation is now dormant and the several hard freezes have created conditions favorable for fires.

Widespread fires, warns the county agent would largely destroy the range improvements made as a result of the two years of good rainfall. Fire would remove all dry plant material and organic matter from the soil surface and leave it bare and unprotected. A real soil erosion hazard would be created and runoff from winter moisture could be excessive.

Too, pointed out Haws, there would be no cover to combat spring weed growth. He suggests that steps be taken now to prevent range fires. Fire guards which expose the bare soil are suggested. They may be made by plowing, discing or with a blade. The guards should

be wide enough to prevent a fire from jumping them. Looking into the future, the county agent suggests that fire prevention and fire fighting plans be developed on a county basis.

During this season, dry range forage will not provide all of the needed minerals, proteins and energy required for livestock to maintain adequate flesh. Supplement feeding if they are to provide adequate supplies of milk for their offspring. Supplementary feeding, says the county agent will insure efficient livestock production and range conservation.

Thirdly winter treatment of fence row brush, bottomland hardwoods and mesquite by the individual tree treatment method will result in a high percentage kill and utilize labor during this slack period.

Local county agents can supply additional information on carrying out these practices.

HUMPS ARE GREAT! BUT...

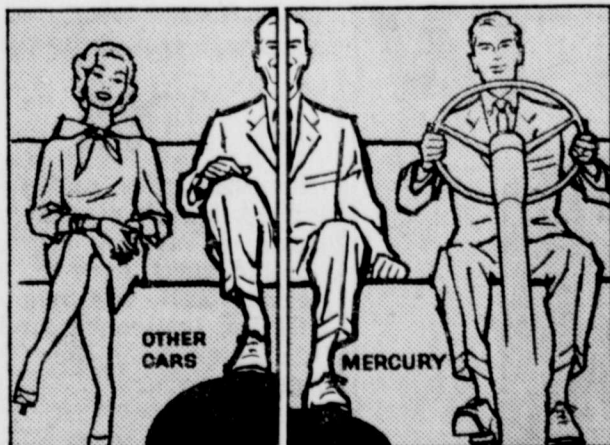

NOT FOR CARS

'59 MERCURY CUTS THE HUMP IN THE FLOOR WAY DOWN. FIRST CAR WITH REAL COMFORT... EVEN FOR CENTER-SEAT PASSENGERS

For 1959, Mercury's got what the other new cars forgot. For example, Mercury is the only new car that remembers "the man in the middle."

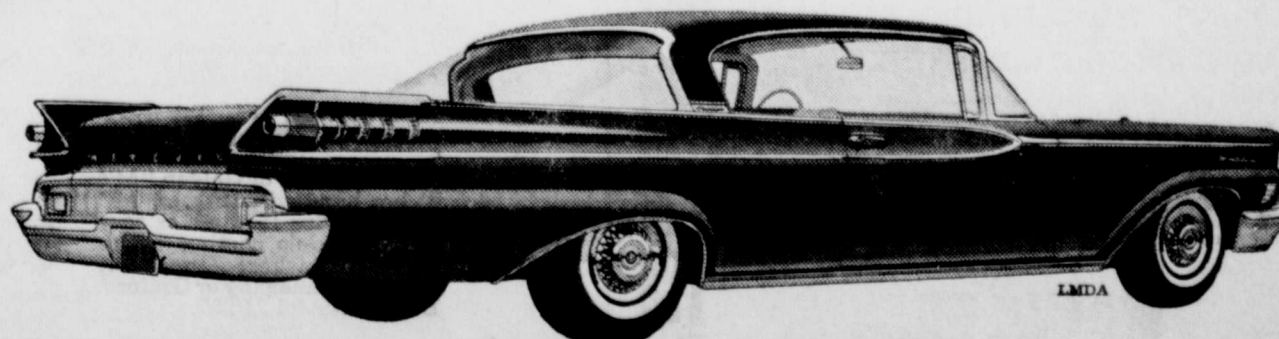

Other new cars still have that big tunnel-hump in the center of the floor. The so-called "6-passenger" models are only comfortable for 4 passengers. Center-seat passengers ride with their legs doubled up. But Mercury has cut the hump in half—shrunk it into a footrest. Seat cushioning is deep and soft. There's solid, stretch-out comfort wherever you sit.

Stop in. See all the ways Mercury turns problems into pleasures; windshield wipers that clear even the center, doors that are easy to get through (wider than in the costliest cars). And so much more—all at a price that 2 out of 3 new-car buyers can afford.

News From The County Agent

Grasshoppers are likely to be more widespread in the west and midwest this summer but are expected to be less destructive than in 1958.

A USDA state survey made last fall showed almost 23 million acres with enough grasshoppers to damage crops and grass. The effective chemical treatment of 5 million infested acres last summer not only saved crops and grass but is now paying dividends in fewer grasshoppers.

The county agent points out that weather conditions between now and hatching time will have a strong bearing on the number of hoppers which emerge from egg beds found during the survey last fall. Cool wet weather with heavy rains during the spring hatching season could greatly reduce the hopper population. Predators and grasshopper parasites could also have a pronounced effect on the infestation, they added.

A check will be made next spring during the hatching season to determine the area where control measures may be needed. Farmers & ranchers in the area where infestation could cause trouble are advised to keep a close watch on the egg beds during the hatching season

News From The HD Agent

C. L. Russell, Nathan Phillips, W. W. Harris, Max Jentch, Jr. and W. E. Karstetter.

Many homemakers, not just demonstrators are working toward better organized kitchens. Your county HD agent, Thelma Wirges, has some ideas to help you. Write her office, 305 Federal for the years work.

Demonstrators having a list of goals for the years work are: Mesdames C. L. Jenkins, Alton Holbrook, Bill Lalk, Jesse Nixon, eral bldg, Wichita Falls, for kitchen bulletin on "Storage Devices" or visit a HD club in February. Miss Wirges will give demonstrations and show these storage aids, to all HD clubs in February.

Since most kitchen work takes place in three places, well planned work centers are the first step. These centers are mixing centers, clean-up or sink center and range and serving center. Each center needs storage and counter space.

Other plans the demonstrators have are such things as: Selection of a new floor and wall coverings, well planned color schemes, improved storage space new cabinets and the selection of new equipment. New built in equipment seems to be high on the wish list and among goals
