Pool Work Monday

Due to cold weather that would have kept an igloo, the Burk Burnett Saturday broke ground for a \$30,000 swimming pool. Work on the fan shaped pool is expected to be ready for summer, was started.

Shivering spectators agree, windy weather ground breaking of this expanding pool on its way toward completion. Representing several clubs which have efforts to this under Mrs. P. A. Carpenter, Mrs. C. M. Morrison, Burk Garden Club, Mrs. Winston Freeman, Mrs. Joe Wolfe, Forum Mrs. B. H. The pool will cost more than \$18,000 has been for the project, solved by numerous civic groups. The money has been raised over a two year period in inception of the pool.

The president also said the Burk Burnett to be used recreationally with the pool.

Picnic facilities, tables, fountains and barbecue pits will be provided. There will be featured a play ground area with swings, a see saw and slide for the kiddies.

Any person having shrubs or trees to be moved may donate them to the park. Please notify Mrs. Morrison or Mrs. Dodson. Other officers of the swim club are Joe Crowley, vice president; James Brady, Jr., secretary-treasurer, and Mrs. Ralph White chairman of the board of directors.

Russell Duvall Can Handle Few More Toys to Repair

Russell Duvall, Old Santa himself, says he can still handle a few more toys to be repaired before Christmas.

Russell takes the toys, repairs and repaints them, then gives them to some less fortunate child at Christmas time. He could also use some help in the repair department if you are gifted in the use of tools, paint, etc.

Crime costs U. S. citizens \$22 billion a year, the FBI reports.

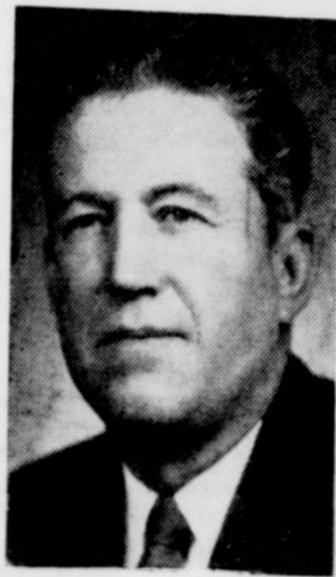

Bass Will Bite in the Summer

Proof that fish, especially bass, will bite in the summer is shown above. CATFISH PEPPER, one of the best bass fishermen in this part of the country, likes to bring in proof to the contrary, any time some one says fish are not biting.

These fish were caught August 24, 1959 from 5:20 to 6:30 P. M. The barometer was steady at 29.95, with wind S/E at 10 miles per hour, official readings. Like all successful fishermen, Pepper will be glad to tell you where and how he caught this string of bass which had a total weight of 24 1-4 lbs. The largest one weighed slightly over six pounds. That is, he will tell you something, and the story will be convincing—but 'tain't necessarily all true!

Sheriff Seeks Re-Election

Sheriff Weldon Bailey, 48 year old veteran peace officer, has announced his candidacy for the 1960 election when he will seek his second four year term as Sheriff of Wichita County.

Bailey, who has been a peace officer for 24 years, served on the Texas Highway Patrol for 17 years. Nine of those years were as supervising sergeant in the Wichita Falls District.

Announcing his candidacy, Bailey pointed to his office's operational expense which he said cost county tax payers only one and one-third cents a week per person.

I have kept the operation of this department on a high level through the use of sober, conscientious personnel, Bailey said, citing the return of over \$50,000 to county merchants by the collection of "hot checks."

My office has operated within the budget and its cost has been thousands of dollars less than in counties of comparable size, in population, Bailey continued, pointing out his department operates with only 19 employees, which includes court bailiffs, jailers, matron and office help; leaving an enforcement staff of only 9 men.

Bailey stated his office has always worked closely with county police agencies and with the county attorney and other elected officials in the court house.

A native of Midlothian, Ellis County, Bailey resides at 2206 Sheppard Street, with his wife Mozelle and 22 year old son, Bob who will be a senior student at Midwestern University next semester.

The sheriff is a member of the First Methodist church, Wichita Falls Downtown Kiwanis Club, Maskat Shrine Temple, Elk's club, Texas Sheriff's Association, North Texas-Southern Oklahoma Peace Officer's Association, Chamber of Commerce Booster's club and is a Major in the military police corps of the Texas State Guard.

He has served as chief usher in numerous civic and non-denominational religious services during the past ten years, these include the downtown Easter services and the Howard Butts Crusade.

Virginia Swinford One of Six Most Beautiful at ETSC

Mrs. Ralph Swinford, Jr., formerly Virginia Finch of Ennis, was recently revealed as having been judged one of the six most beautiful coeds at East Texas State College.

Elected one of the 18 college beauties in an all college election of the 3,000 member student body, Mrs. Swinford was judged one of the six most beautiful and is featured as one of the Locust beauties in the current Locust yearbook.

Among the panel of judges were Jerry Hanes, Dallas Radio and Television personality, Miss Betty Townsley, John Robert Powers Modeling Agency and Jack Finney, owner of Holsum Bakeries and well known business man. Appearing in cocktail dresses, the 18 beauties were judged on the basis of beauty, poise and personality.

The names of the selected six were sealed in envelopes and placed in a local bank vault.

The six Locust Beauties remained a secret until the annual Locust Ball when the 18 were presented and the top six were announced. Presented in long formal dresses and following a fanfare by the East Texan Orchestra, the six girls walked down a long aisle carpet to receive the honor and an arm bouquet of white gladiolus and mums.

Mrs. Swinford was the only married coed selected for this honor. White attending East Texas State, she was formerly elected a college beauty for two years, reigned as "Miss Posture" for 1957-58, was named "Miss Company B" of the National Guard of Texas. She is alumnae secretary for the Toanooove Social club, now petitioning Zeta Tau Alpha national sorority. She was also a finalist for the title of Honorary Cadet Colonel for the East Texas State ROTC. A senior elementary education major, Mrs. Swinford will receive her degree in June.

LIONS CLUB

Town Hall Each Tuesdays
7:30 P. M.

Eight members of the Wichita Falls club were present: Gose Waggoner, Hearne Hines, Jim Jones, Verner Crofford, Kelly Gilbreath, Don Washburn, J. Lesley Nichols and Walter Coleman.

W. O. Nix, Kenneth Geis Jimmy Johnson and Dallas Groenwald were guests of Burk Lions.

Ted Roark, in charge of the program, presented Walter Coleman, who showed a colored film, with sound, of the Lions Clubs Crippled Children's Camp at Kerrville, Texas.

The film showed handicapped children swimming, hiking, camping out and learning crafts indoors. All Lions are proud of the efforts being made in behalf of crippled children at the camp. A total of 4,284 boys and girls have enjoyed the camp since it opened a few years ago. Following the film, Coleman gave some statistical information concerning the camp, and answered questions about it.

Next week Winston Freeman will bring the program.

Ladies' Night has been postponed until Dec. 1st.

Color printing was used as early as 1457 in Germany.

ROTARY CLUB

George Cooter, Junior introduced 9 visiting Rotarians from Wichita Falls and C. J. Lippard, president of the Lions Club, guest of George Byerly, and Jim Johnson, guest of Joe Janeke.

The club was host to 29 Airmen from Sheppard Field. Each guest introduced himself and gave his home town. Practically all the states were represented.

I. C. Evans was program chairman and presented Lt. Reeder of SAFB who introduced Major Shen and Capt. Hu from the Republic of China. Major Shen gave one of the most interesting talks we have been privileged to hear in some time. He told of his home land, customs of his people and how his country appreciated all the courtesies of the U. S. He also told of the hardships his country has suffered and stated that being free in a democracy is worth the struggle. English is now being taught in high schools in his country. After informing the club on points of interest in his country, he asked to be informed what Rotary really is, as this was his first time to attend a Rotary noonday luncheon. Paul Browning, charter member of the Burk Burnett Rotary Club, in his usual gracious manner, proceeded to grant the Major's wish and told of Rotary's beginning in 1905 in Chicago to its present day, with clubs in practically every country in the world.

Bryan Farris will bring the program next Tuesday.

Steel's Competitors

In past steel strikes, a common pattern has emerged. Workers have been given wage increases and various increased fringe benefits, and management has compensated for this by raising steel prices.

But in the current strike, which has idled 500,000 or more people and shut down the most basic industries, that pattern has not emerged. Management is clearly determined to hold the price line, and to resist what is considered unwarranted wage demands.

One reason for this, no doubt, is the growing inclination in management circles in virtually all industry to try to stop the wage-price spiral and save what is left of the dollar's value. And anything that can prevent inflation is clearly in the interest of all—business, agriculture, union members, the government, the public at large.

Then, in the case of steel, another very compelling reason plays a big part. In a word, it is competition. More and more steel has been coming into this country from the revitalized steel mills of Europe and Japan, where wages and other costs are lower.

And that isn't all. As a Wall Street Journal article reports, steel is facing increasing competition from other directions. Chairman Roger M. Blough of U. S. Steel is quoted citing "the tough competition that steel faces from other materials produced domestically" as one proof of the need for holding the price line. The materials in question include aluminum, glass, plastics, and cement. So far, these have not made a really big dent in steel's markets. But their products are making every effort to obtain more of those markets—and it's certainly evident that higher steel prices would undermine steel's competitive strength.

There's a moral in this for union heads and the rank and file alike. What good are higher wages if a commodity is priced out of markets and employment sags as a result?

In The Squeeze

The Lakeview, Oregon, Examiner-Tribune, tells a sadly amusing little story. Due to an error, a clerk was given a pay envelope containing a blank check. He moaned, "Just what I've been afraid of: My deductions have caught up with my salary."

Well, the deductions haven't come to 100 percent of salary yet, but they are moving steadily forward. As the Examiner-Tribune sees it, "There is no retreat in sight; all the Big Government planners grow more energetic in pushing ideas which call for more and more federal spending, consequently more and more federal taxes. Everytime the government gets into business or industry, like TVA or making rope, the government is crowding out some taxpaying individual or firm. And the more tax payers who are crowded out of business or industry, the more the government must increase taxes on others."

Because government programs don't pay taxes; they eat taxes. This puts the case in the plainest and simplest terms. A child should have no difficulty in understanding it. On the one hand, we are projecting government deeper and deeper into the affairs of the people, at an ever soaring cost. On the other hand, we permit government to absorb and destroy taxpaying enterprise—as in the case of TVA and rope manufacture, to take the two disparate examples the Examiner-Tribune cites. How long can tightening the thumbscrews of bureaucracy and socialism continue without squeezing our individual opportunity and freedom? This is something to think about right now.

Service At A Profit

Toward the end of September, the American Meat Institute, which represents the packers, held its annual meeting in Chicago. And the theme was "Service At A Profit."

That may strike some people as curious. After all, meat packing is a very big industry, geared to meeting the needs of 170 million people spread over every nook and cranny of this vast nation. So, one could suppose that it is an extremely profitable industry as well.

But that has not been the case. Over the years the industry's profits have been far below those of manufacturing industry in general—and far below the level that is needed if the industry is to be able to progress in its technology and to do the best possible job on the behalf of both livestock producers and meat consumer. In fact, profits are so small that the average consumer would never notice the difference if they were entirely non-existent—they work out to but a fraction of a cent a pound on the meat sold at retail.

The Institute's president cites ways in which, it is hoped, a better profit picture may be obtained—better selling, better buying, better operations, improved efficiency, better cost accounting. In his words, "All of these and many more are involved in this problem of constantly improving service and product which the public wants and expects from our industry."

J. Edgar Hoover Says:

"A valuable ally in the fight against crime, the news media of the Nation can afford further public service in focusing the spotlight of public opinion on those members of the judiciary who, in the face of the present crisis, persist in endangering the public by unleashing young terrorists apprehended at great risk by law enforcement officers."

"Parents who, through bad example, indifference, or lust for worldly gain, inflict upon their fellow men the scourge of vicious offspring deserve to feel the sting of public indignation and to face legal and financial responsibility for the criminal acts of their children."

"At this time, when the increase in youthful crimes constitutes the bulk of the shameful rise in our national crime, serious consideration should be given to lowering the age distinction between a juvenile and an adult violator. We are dealing with vicious young criminals, and they should be treated as such."

"The prevention of juvenile destruction lies in the establishment of juvenile discipline. Assuredly, this is the responsibility of every individual interested in his own safety and the welfare of his country."

Ralph T. Moore writes in the Oregon Voter: "This writer has difficulty in trying to understand why the Germans instead of Americans are now the leading exponents of the American way of life. Perhaps it is because the Germans are intensely practical while Americans continue to be patsies for every socialistic nostrum that the fevered brain of the neurotic bigot can contrive. The German rejects the something for nothing philosophy as a complete phony while we continue to play with it, hoping to somehow make it work." Then, speaking of the success of the Volkswagen, he observes: "The end of the American competition for the popular car market will approach at racehorse speed unless American workmen change their attitudes, an unlikely prospect."

TAKE YOUR PROBLEMS TO CHURCH -- MILLIONS LEAVE THEM THERE

The old question about the chicken and the egg is one that will haunt the minds of men forever. It will never be answered and fortunately need not be, but we do know from whence came life itself and that is of vastly more importance. Life was given by the Creator God who made Himself known to men and about whom we read in the Bible. We are also told in the Bible that our destiny as persons is to receive light and life from God and reflect His splendor into the world; this and this alone will give us the true joy of life. Let your light so shine that seeing your good deeds men will turn and glorify your Father who is in Heaven.

Is something wrong with your life— an inner restless dissatisfaction? The answer to every human problem comes only from God our Maker. He alone can forgive and reassure. Through the church God has committed the provision and proclamation of His forgiveness and redeeming love. Without a church relation no one is securely related to God. Everyone should be in the Church and the Church in everyone!

vet tiara and featured tiny rose buds scattered over the veil. She carried a white bible topped with a bouquet of shattered carnations and greenery with tiny seed pearl hearts and streamers with loveknots.

TAX MAN SAM SEZ:

The other day I asked a tax man, "What is the best advice I can give a taxpayer?" He came right back, "Tell them to read their instructions." This tax business is probably the most important part of our business. It is not just the millionaires who have tax problems.

Most wage earners and salaried employees have to pay \$20 or more out of every hundred for taxes. It does pay to read your tax instructions. It will also pay you to keep records. Paying your bills by check makes a good record for most taxpayers.

SHOP AT HOME CAMPAIGN

Once again Burkburnett merchants plan a Shop In Burkburnett advertising campaign for the coming holiday season. Last year's united advertising campaign was an excellent example of united community effort and attracted attention and comment as being a model program for communities in this area. It is our thought that this year's campaign will be equally successful.

SHOP EARLY

Why not do your Christmas shopping early this year? Get out your gift list & select a beautiful color telephone for your friends. You couldn't select a more useful or attractive gift than a colored telephone in a favorite color. Let us arrange all the details for you. Call JO 9-2291 or come by the Business Office and make your selections early.

IDEA FOR THANKSGIVING

In most homes, the highlight of Thanksgiving Day is a family get-together and, of course, a big meal that Mom spent half the day cooking.

Juicy turkey, tasty dressing, and all the trimmings. Yes, a happy occasion for the whole family, and Mom deserves a pat on the back for making it that way.

But is that all? A friend of mine has come up with an idea that really makes a hit at his house.

"Last Thanksgiving," he told me, "as I watched my wife fixing dinner, I felt she deserved a reward. I was wondering what I might give her and then I decided—a Long Distance call. She can talk with her folks."

"Great idea," I said. "How'd she like it?"

He smiled. "That Long Distance call was sort of like our pumpkin pie."

"How's that?" I asked.

"The whole family enjoyed it."

It's Smart to Have A Bedroom Phone

I've been noticing that quite a few people in Burkburnett have decided that it's a good idea to have an extension phone in color in their bedroom, and reports I get indicate that lots of our customers in towns throughout Texas feel the same way.

I can understand how they feel, because bedroom phones really are wonderful.

They add beauty to the room, and they give you convenience and privacy during the day and a real sense of security at night.

Why don't you call the telephone company business office and order one now? Because the sooner you do, the sooner you can start enjoying it.

Call by number. It's twice as fast.

Town New Renewal Texas

There's nothing like a new car—and no new car like a Chevrolet. This is the 1960 Chevrolet Bel Air Sport Coupe!

PEOPLE SAY THESE ARE THE THINGS THEY WANT IN A CAR...and CHEVROLET for '60 comes closest to meeting every need!

Interviews with thousands of car owners across the country show clearly what they like or dislike about their present cars... and what they want most in their 1960 cars. Here's what the people tell us they want... and here's how Chevrolet meets their needs.

"Price, that's what's uppermost in my mind." All Impalas and Bel Airs with V8 engines are lower in price, as are automatic transmissions and many other popular options. Also Biscaynes now include as standard equipment conveniences formerly optional at extra cost.

"And how about operating economy? And resale value?" You keep right on saving after you buy your favorite Chevrolet, too. And Chevrolet's traditionally higher resale value means you'll get more back when you trade.

"Give me plenty of good old-fashioned comfort." There's comfort and then some in this one. Chevy's long on space, for one thing. Once you're under way you'll know just how comfortable Full Coil suspension makes your ride.

"Safety—don't forget safety!" You're surrounded by safety features in a new

Chevrolet. You've got big, sturdy brakes underfoot, for example, that last longer. As it has been for years, safety is standard equipment in Chevy.

"Let's keep upkeep down, too." More than ever, Chevrolet for 1960 is built to stay on the road and out of the repair shop. You can tell that from its hushed, unruffled way of going, from the solid *thunk* of Chevy's big doors. Of course, if you should need service, you're always near efficient, economical attention to your needs.

"I want a car that will stand up to the driving I do." For proof of Chevy's staying power, just spend a minute watching the nearest road. You'll see more Chevrolets traveling on it than any other car—evidence-on-wheels of Chevrolet durability. (And that higher resale value attests to it, too.)

"Me for a sweet-handling car." Handling's always been Chevy's forte, and

1960 is no exception. But really, this kind of lightness and precision you've simply got to enjoy for yourself.

"... a car you can look at and be smug about buying it." Chevrolet for 1960 leaves the low-price field far behind when it comes to fashion. But you're the best judge of styling, so take a good close look at Chevrolet. We warn you: you're about to fall in love.

"And performance. Let's have a hot one!" Chevy's spirited V8's have set the standard for ultra-efficient power in American-built passenger car engines. You've got a long list of performance-minded transmissions to pick from, too.

So that, friends, is what you told us you want. We think it can be summed up rather well in just one word: *value*.

Get the full story of Chevy's brand of value soon at your Chevrolet dealer's.

Nearest to perfection a low-priced car ever came...

Burk Bulldogs Lose By Score 22-20

Braving bitter cold and a strong wind, the Burkburnett Bulldogs looked good even while losing to a strong Decatur Eagle team in Decatur Friday night. The boys played their best game of the season.

The scoring began in the second period when Ronnie Elliott, candidate for all state honors, went over from the two. Ernie Patton ran for the two pointer and the score was 8-0. The Bulldogs scored next when Bobbie Lewis rolled out to pass and finding nothing but Eagles to throw to, decided to keep it and run and fought over from the two. The attempted pass for conversion was not good. The next time Decatur had the ball, Ronnie Elliott blasted through the line on a 67 yard jaunt and six points. Again Ernie Patton was called on for the two points and made it. The second Bulldogs score came on a freakish sort of play by the Decatur quarter back. They were deep in their own territory and lacked several yards for a first down on fourth. A running play was called and they failed to make the first down. The ball went over on downs on the four. After a five yard penalty, Bobby Lewis again attempted to pass and finding no Bulldog receivers open, ran it over. The try for extra points was stopped and the half ended with the score standing 16-12. The Bulldogs surged ahead when Eddie Eastman ramed over left tackle on the draw play and went on to score the needed extra points. So the score beginning the fourth quarter was 20-16. Ronnie Elliott was again the man of the hour when he went over from the 15. For the first time, the Eagles didn't make the extra points and the score at the end of the game was Decatur 22, Burk 20. In the waning moments of the game, Burkburnett was on the move making nice gains through the heavier Eagle line. Several times on the march, they gambled on fourth down situations, when they had nothing to lose and everything to gain. It was definitely a team effort. The defensive play was outstanding as was the offensive end of the game. The score was expected to be much worse by many people.

Well fellows, congratulations for a fine season. And fans, thank you for the fine support you gave the Bulldogs all season. Someone said that there were about as many Burk fans there Friday night as there were people from Decatur.

Early New England women bleached their sheets by spreading them with sour milk and putting them in the sun.

Stars and stripes in the American flag were suggested by the coat of arms of the Washington family.
