News and Notes

By Clovis D. Mann
City Manager

The newly appointed City Planning Board had their organizational meeting Tuesday, Jan. 17. Mr. Alvin Hill was elected chairman and Dr. Joseph Davey elected vice chairman. They set the first Thursday of each month as their meeting. Other members of the board are Mrs. Philip Carpenter, Mr. Jack Mathis and Mr. Ed Meadows.

Harry Elliott was selected Fire Chief at the regular meeting last Thursday evening. Mr. Elliott has been serving as President of the firemen's association. Mr. Vis Wooten was selected to be as president.

Mr. Carlton Story was welcomed to the Police Department. He was employed last week to fill a vacancy. His appointment increases the Department to its authorized strength of 7 members.

LIONS CLUB

Own Hall Each Tuesday; 7:30 P. M.

Mr. Frye was in the presence of the chair because of the presence of President Bill Manning, who was attending the Vernon C. of C. banquet.

Mr. Mann, in charge of program, introduced J. Ash associated with the Joe Engineering office in Wichita Falls. Mr. Ash has a degree in City Planning at the University of Illinois, and is working with newly appointed city planning commission here.

Mr. Ash explained the survey to be done here, which embrace five phases of study. 1. Basic study. 2. Use analysis. 3. Community facilities, schools, streets, etc. 4. Public improvements. 5. Administrative. The survey will be completed in 14 to 18 months to complete. A progress report will be made from time to time, and a final comprehensive report made at the conclusion of the work.

The survey costs will be shared equally by the city and the Federal government funds administered by state.

The Lions were present at the Quana club. This was the 33rd inter-club meeting of the Quana Lions made.

C. Spell was the guest speaker at the Quana club. B. Riley, Jr., had as guest Joe Price of Enid, Okla.

Announcement was made that tickets for the Lions Pancake and Sausage Dinner will be held Sat., Feb. 18, would go on sale next day night. Mr. Magers will bring the program next week.

Brains As A Seed Crop

By LYNN LANDRUM — Dallas Morning News

Some day—we don't know when—our oil will be gone. Some day—we hope it is far off—we shall have mined the last of our coal and gas. Some day we shall have to have vastly more fruitful crops from soil than has been in cultivation for hundreds of years.

When that day comes, what do you think will be our most valuable seed crop? The Columnator has been thinking about it. And he has come to this conclusion: The most important seed crop for the generations that shall come after us is—Brains. That conclusion was fortified by some of the things learned in the course of conversation with Dr. C. L. Landell, director of the Texas Research Foundation at Renner.

The foundation started out with a few acres of land, three scientists or so—and a lap full of problems. No. 1 was what to do with "worn-out" black land which had been cropped and eroded down to the point of unproductivity. Consider some of the things which have been proved at Renner by the foundation:

1. Black land which is down almost to the white rock subbase can be brought back with grass, suitable cropping and fertilizer.
2. Root rot losses can be minimized by proper rotation, fertilization and choice of crops.
3. Grain sorghums, instead of being a loss in this area can be a substantial money crop.
4. Soft wheat, formerly supposed to be penalized in the grain market, now has a local market for all that can be produced and production on an improved variety of soft wheat is far ahead of the hard-grain wheat formerly favored.
5. Coastal Bermuda grass takes to the blacklands readily and repays the owner in beef production.
6. Improved white corn has shown yields of from 40 to 100 bushels to the acre, depending upon the natural fertility of the soil.
7. Button clover, sesame and soybean crops have proved profitable innovations in this area and have a place in the crop systems pioneered by the foundation.

All this is done with private money invested unselfishly in restoring the profitability of the 300 to 500 acre farm. The foundation tries out its theory on check plots until it is sure of what it has found. Then it is tried out on full scale farming by experienced dirt-farm farmers—both renters and owners. It is one of the most inspiring developments in all Texas agriculture. It can be seen during the growing season, if you will go out to Renner and look at the living proof.

What has been done is a token of what can yet be done with continued support of this thoroughly scientific, thoroughly practical application of brains to soil, weather and economic demand. And all this has been done with no government subsidy. It is the one farm program that works without charity from Washington, D. C.

GRASS ROOTS OPINION

CLARKSDALE, MISS., REGISTER: "It is sometimes difficult for Americans to understand the power that a man such as Fidel Castro can wield over illiterate and unthinking people. Yet we must not forget that more than once in our history, and not so very long ago, considerable numbers of Americans gave ear to demagogues. To prevent the Castros and their kind from rising to the top it is necessary to treat the very serious and deep seated problems which permit them to flourish."

EASLEY, S. C., PROGRESS: "This Country would not be in such a mess today if the Indians had adopted more stringent immigration laws."

WASHINGTON AND "SMALL BUSINESS" BY C. WILSON HARDER

There is little doubt that one of the important matters the new Congress will act upon is that of making revisions in the taxing structure.

At the time when the platform committee of each major political party met last summer, officials of the National Federation of Independent Business appeared by invitation to discuss the small businessman's members of the organization. G. W. Harder, who has long requested revised depreciation schedules.

Subsequently, both party platforms pledged themselves to work for such revisions. Later in the summer the U. S. Treasury Dept. gave authority to the Small Business Administration to conduct a sampling of the nation's independent business to determine what revisions would be most helpful in expanding the economy.

The Administration offered its services to the SBA to make such a survey among nationwide membership. With approval of Treasury Dept. this was taken on the government's terms. Results are in the hands of the government officials studying the situation.

A great deal of the data gathered is quite technical, but on the major points, it does highlight some of the greater frictions on the American economy.

It would appear that there are many firms among the 4,000,000 or so small business enterprises in the U. S. who

would build new premises or modernize. If the expenditures could be more closely geared to current earnings.

In many cases the revenue bureau, guided by laws it must follow, compels a business to stretch out depreciation allowances for tax purposes over an over long period.

For example, if a building or piece of machinery, costs \$10,000, and it is required to take ten years to depreciate, the amount for tax purposes, it works out something like this. The first year, only \$1,000 can be deducted for income tax purposes, and income tax must be paid on the other \$9,000.

This means in case of a small corporation, that \$10,000 improvement cost at least \$12,500, as the \$10,000 in the first place, which \$2,000 would be taxed a minimum of 25%.

Now this is a problem that is peculiar to the small, independently owned business. It is not necessarily shared by the big public owned corporation which has access to Wall Street through the securities market for any capital.

But in average small business, the proprietors have all their resources tied up in their enterprise, and any money for growth must come out of operating profits.

There seems little question that a revision of the tax laws so they are presently applied to small business capital expenditures could result in development of many millions of dollars in new business and expansion, and at the same time, improve facilities of small firms, making them better able to compete.

News From The County Agent

There will be a Soil Fertility Meeting at the Valley Farms Community house on Wednesday, Jan. 25th, beginning at 10 o'clock. This meeting is sponsored by the Burlington Lines in cooperation with the agricultural agencies of Wichita County. Lunch will be served at noon. The meeting will be over by 2:30 p.m.

The program is as follows: 10:11—Jack Barlow Soil and Water Conservation Specialist will discuss humus, fertility and Soil Conservation in general. 11:11—Lloyd W. Bergama Livestock marketing specialist will discuss agriculture outlook for 1961. 12:00—Noon. 1:11—Ray Bowden Grain Producers Association from Ft. Worth will discuss small grain. 1:45—2:30—Panel discussion led by Tom Hunter, Farm management specialist, Vernon and Dr. Carl Gray, Midwestern University.

The meeting will adjourn at 2:30 p. m. in the general public is invited to attend.

A survey of small grain insects in several North Texas Counties have revealed infestations of the winter grain mite that can do considerable damage to small grains in those areas, according to R. T. Hayes, county agent and that damaging populations of the mite were found in many fields with the infestation being general over the area.

Hayes pointed out that it is very difficult to detect the mite, but their presence is first indicated by a stony appearance on the leaves and later the tips of the leaves turn brown.

Wilbarger-Wichita SOIL CONSERVATION DISTRICT NEWS

Listing of irrigation ditches with concrete is being used by Wichita County Water Improvement Districts Nos. 1 and 2 according to Elvy Sargent, Soil Conservationist of Iowa Park. Cost of lining limits the amount that can be installed in a given year. Areas having had ditches constructed in sandy soils and where water must be maintained in ditches for long periods of time will be lined first. Fred Parker, manager of the District is looking over needs with representatives of the Soil Conservation Service, and engineering surveys are being made at present.

Included in this year's program will be an irrigation ditch on the Texas Experiment Station, Cliff Brodson and C. Milt Edales, Rufus Kline and North Main Canal West of express way.

Personnel from the Water Improvement Districts are assisting the Soil Conservation Service gather engineering information, after which SCS will provide the Districts with a design for construction.

BAPTIST CHURCH NEWS Dean Burk, pastor of Devol Baptist church, will graduate from Southwestern Baptist Theological Seminary in commencement services to be held this Friday at 7:30 p. m.

NOTICE

There will be a band parents meeting Monday, Jan. 23rd at 7:30 p. m. in the band hall. Let's all the band parents show their interest in the band by attending these meetings.

On swanky Park Avenue in mid-Manhattan there's a famous church. Visitors go there to see its interior beauty; fashionable New Yorkers go to Sunday morning services.

The nave and vault sparkle in gold mosaic; the altar and crucifix are gleaming gold. The ushers wear frock coats, striped pants, gray gloves, white carnations. The ladies of the congregation are loaded with mink.

Often when I find myself in New York of a Sunday I go there, principally to hear the scarlet robed choir and witness the stately Processional.

Always, as I approach the church, I am met by shabbily dressed, alms-seeking members of the human race. Maybe they really are needy or hungry or broke, as they whisper; maybe they're not. I don't know, and I don't care. I carry a supply of loose change to give them, as unostentatiously as possible.

I have yet to see one of the Homburg or derby hatted gentlemen of the parish stop to give them anything but a frigid look. More often, the sanctimonious swells just choose to ignore their lowly existence.

As I go in and sit in the mahogany pews, I can't help but think of the Man of Nazareth for whom the church was named: the meek, the humble One who said 'Even as ye do to the least of these, ye do unto Me'.

And I get to wondering what He would do should He return to us some Sunday in the human form once more. Would He go inside that sparkling edifice supposed to be His — or would He stay out there on the sidewalk?

Charlotte Wallace Named Homemaker Of Tomorrow For '61

The 1961 Betty Crocker Homemaker of Tomorrow for Burkburnett high school is Charlotte Wallace.

Having received the highest score in a written examination on homemaking knowledge and attitudes taken by graduating seniors in her school, she becomes a candidate for the state homemaker of Tomorrow award which will be announced in March. Charlotte is the daughter of Mrs. Opal Wallace.

Each school Homemaker of Tomorrow will receive an award pin, manufactured by Jostens and representing the slogan, "Home is Where the Heart Is." The examination paper of school Homemakers of Tomorrow will be entered in competition to name the state's Homemaker of Tomorrow.

The \$110,000 homemaking education program sponsored by General Mills offers a \$1,500 scholarship to the first ranking girl in each state and \$500 scholarship to the state's second ranking participant.

State Homemakers of Tomorrow and their faculty advisors receive an expense paid educational tour to New York City, Colonial Williamsburg, Va., and Washington, D. C. April 8-13, the trip culminating the announcement of the All American Homemaker of Tomorrow whose scholarship is increased to \$5,000. Second, third and fourth ranking Homemakers of Tomorrow in the nation will have their scholarships raised to \$4,000, \$3,000 and \$2,000, respectively.

The testing and judging is conducted by Science Research Associates of Chicago. With a record 402,786 girls in 12,633 of the nation's schools participating this year, The Betty Crocker Search has enrolled more than two million girls in its seven year history.

The 52 cards in a deck represent the number of weeks in a year.

TELEPHONE Service Improvements For Burkburnett In 1961

As we move into the second year of the "Soaring Six," many of us in Burkburnett are busy with new plans next year. The year ahead is always a new challenge. A new opportunity for each of us to do a better job of our job at the telephone company is to continue proving you with ever-improving telephone service.

One way of improving your telephone service is to offer a wider range of things that make telephone service more convenient and enjoyable. Examples are the new dress phone, color phones, wall phones, and the new interphone now being introduced.

Another way is to expand the communications network, improve its quality, make it more efficient and trouble-free. Here are some of the improvements planned for Burkburnett.

Completion of a 900 pair buried feeder cable from the Central Office down Avenue D to Sheppard Road at the Park. This project is one of the biggest steps since conversion because 9 different cables can be pulled without disturbing the streets. Completion of the buried distance cable project to Wichita Falls will provide trouble-free, storm-proof service along with 13 additional E A S circuits to Wichita Falls. Extension of feeder and distribution cable into new sub-divisions and feeder cable out West 3rd Street to relieve congested as will also be completed in 1961.

In 1961, we'll not only give you better service but we'll give it more efficiently. This is important, because greater efficiency helps fight inflation.

Our ability to achieve greater efficiency—through technical advances in the telephone business, innovations and methods—helps make it possible for us to give you, reasonable rates, telephone service that grows better after year.

Important New Film on National Defense

How safe are we from an enemy missile attack? A new film, "Seconds for Survival," produced by the Bell Telephone Company offers a dramatic and positive answer.

The film, which is being offered for showings at church, school, civic, and business group meetings, is narrated by Raymond Massey and shows how the United States uses network guards against enemy attack.

Would your group or club like to see this movie? If so, just call the telephone business office to make arrangements. There's no charge, of course. I hope you see it soon.

Modern Study Club Met Jan. 16th With Mrs. Bill O'Brien

The Modern Study club met in the home of Mrs. Bill O'Brien Jan. 16th. President, Mrs. Darrell Nichols called the meeting to order and the club creed was recited. Mrs. Jerry McClure called the roll with each member answering "What my club means to me." The president read the constitution and by-laws for the clubs three new members who are Mesdames Cleo Askins, Arnold Oliver and Billy Gilbow. New officers for 1961-62 were elected. They are: president, Mrs. Dede Smith; vice pres., Mrs. Selma Wright; Recording Secy., Mrs. James Pearson; Treas., Mrs. Lee Bavousett; Corresponding Secy., Mrs. Bill O'Brien; parliamentarian, Mrs. Arnold Oliver; historian, Mrs. Jerry Thomas; Publicity reporter, Mrs. Cliff Hagstrom. During the business session the members voted to donate \$5.00 to the District Nurses loan fund. A most interesting program was given by Mrs. Bill Reasoner on GFWC, a resume of it's history and program. The door prize was won by Mrs. James Pearson. Delicious refreshments were served to Mesdames J. B. Riley, Jr., Dede Smith, Lee Bavousett, Bill Reasoner, Arnold Oliver, Bill Browning, Randall Hudson, Jerry McClure, Martin Wright, Lonnie Dolan, Darrell Nichols, Jerry Thomas, Johnnie Crane, Billy Earl Askins, James Pearson, Cleo Askins, Cliff Hagstrom and the hostess, Mrs. Bill O'Brien. The next meeting will be Jan. 30th at the home of Mrs. Randall Hudson.

Mrs. A. C. Houser Hostess Thursday To Dorcas Class

The Dorcas Class of the First Baptist church met in the home of Mrs. A. C. Houser on 4th St. last Thursday. Group four was hostess. Mrs. Beldon, president, presided over the business session. A short pep talk was given by the teacher, Mrs. Frields. Mrs. John Brookman brought the devotional. It was very fitting for the occasion. Mrs. C. W. Boyd, program leader, had a couple of bible quizzes that had the group thinking fast to answer her questions. Then the gracious hostess showed a number of slides made on her visit to Germany and a number made at some previous class parties. Nineteen members and four service group members, Mesdames Horr, Cheney, Johnson, and Browning, were served delicious desert plates. The group had class benediction and adjourned until next month.

A Service Of The Thor Research Center For Better Farm Living

A worthwhile one-evening project is the construction of a hall tree. Easy to make by utilizing portable electric tools such as saw, jigsaw and table, and drill, a hall tree is an ideal substitute for closet space for hanging coats, hats, and jackets, near the recreation room where neighborhood youngsters and adult guests congregate.

The hall tree can be made from any type of wood, depending entirely on where you intend to use it. You'll need an 11 1/2-inch length of 2x12 for the base, 6 feet of 2x2 for the upright and base feet, and a few feet of 3/4-inch dowel rod for hanger pegs.

Hall tree is a one-evening project for a handyman with proper electric tools.

Since finished lumber always is somewhat smaller than the actual size designation, the 2x12 really is 11 1/2 inches wide and, by using an 11 1/2-inch length of that lumber, you'll have a square base. When you make the square hole in the center of the base to insert the upright, remember that a 2x2 actually is 1 1/2 inches square, so the hole should be that size.

The pieces of dowel rod should be inserted as hangers in holes drilled at a 15-degree downward angle. To assure that all are at the exact angle, make a drilling jig from a 3-inch piece of 2x2. Drill a 3/4-inch hole perpendicular to one end and, using the mitre gauge of your saw table, cut off one end of the 2x2 at a 15-degree angle. Place this jig so the angular face is flat against the hall tree upright, drill through the jig hole into the upright, and all hanger peg holes will be at the identically proper angle.

Another tip: You may want to install a set of hanger pegs halfway down the hall tree, in easy reach of the youngsters, in addition to the higher pegs for adults!

(For free hall tree plans, write to the Thor Research Center, Marengo, Ill. Ask for Project No. HT201.)

Burk Community 4-H Club News

The Burkburnett Community 4-H Club met Monday, Jan. 16 at the Youth Center. The meeting was called to order by our president, Sonny Bentley. The secretary read the minutes and called the roll. It was voted to buy our historian, Roger Johnson, a scrap book. Each member on the telephone committee was given a list of names. We decided to go in alphabetical order to bring refreshments. Our program for this month was a demonstration on egg salad given by Toni Ann Savage and Lynn Halsey. The meeting was adjourned. Refreshments were served and one game was played. Miss Wirges, our county agent, and Mrs. Elizabeth Smith, assistant county agent, were present. The project leaders were also present.

HARDIN HD CLUB

The Hardin Home Demonstration club met for its first meeting of the year in the home of Mrs. S. E. Askins. Miss Thelma Wirges gave an interesting program on landscaping. Fourteen members and guest, Mrs. Joe Beavers, were present. Those attending were: Hewell, Lila Jacobs, Catherine Jinkins, Veda Mae Kruseman, Grace Markum, Julia Roderick, Carol Roderick, Jewell Gage, Johnnie Hageman, Ozzie Farn and Miss Thelma Wirges, agent. A semi tailoring workshop will be held in the Texas Electric auditorium in Wichita Falls, Tuesday, Jan. 31st at 9:30 a.m. Anyone in the community is invited to attend.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford

TEXAS PRESS ASSOCIATION

The 57th Legislature began its session today in an awkward start in an awkward way for some time—difficultly.

House members felt that the legislature would start in an awkward way when they voted them salary raises as the first order of business. House voted to put into effect the \$4,000 a year legislative salaries.

It is possible when the people made a constitutional amendment last November. Objectors were quick to point out that (1) the state general revenue fund was at that moment \$35,499,951 in the red and (2) many lawmakers campaigned on an "economy in government" slogan.

Raymond Bartram of Fannin County said he felt the legislature would rather raise teacher salaries and medical assistance for the aged before spending extra money on themselves.

as fast as it comes in, has to be used to pay the state's "hot checks."

Down the road are even more fireworks as the legislature searches for \$200,000,000 plus to take care of the wants of other state agencies and services.

Turman Speaker— James Turman of Gober was elected Speaker of the House by a vote of 83 to 66. Rep. Wade Spilman of McAllen, whose support was largely from conservative House members, was the losing candidate.

Turman and his family operate a 103 acre farm in Fannin County. He is a former grade school teacher and worked his way to a doctor of philosophy degree in education. For a time he was assistant to the president of Texas Women's University at Denton.

As speaker, Turman's first big job is appointing House committees, due to go into action about Jan. 23rd. By his selections, he can influence to a considerable degree how certain legislation will be handled.

Senator Roberts Honored—

Sen. Ray Roberts of McKinney is president pro tempore of the Senate for the present session. His job, largely honorary, is to preside over the Senate in the absence of the Lieut. Governor. Also, he is second in line of succession to the governorship. By tradition, during each president pro tem's term, the governor and Lt. Governor leave the state so the senate president can serve as "governor for a day."

Sen. Roberts, a world war II Naval hero, is a farmer and realtor.

Grist For The Mill—

Texas Legislative Council, an influential joint House-Senate study group, will offer a mass of proposals for new legislation. Among recommendations:

1. Some streamlining, but not a wholesale re-writing of the state constitution. This will be a disappointment to groups working for steps toward a new constitutional convention.

2. Limitation on the annexation powers of cities and towns.

3. Increased facilities for juvenile guidance and care, including a home for dependent Negro children, facilities for mentally ill juveniles and regional training centers for delinquent youths.

4. High minimum coverage requirements for automobile insurance. Present minimum is \$5,000. A raise to \$10,000 or \$20,000 was suggested.

Another study group, a special Senate committee, recommends removal of some of the restrictions on investment of the permanent school fund. It suggests investments in corporate securities and real estate mortgages, guaranteed by the federal government.

College Bid Rejected—

Commission on Higher Education does not favor making Del Mar College in Corpus Christi a senior college.

Commission has agreed to study requests for senior college status and state support for Pan American College at Edinburg and San Angelo College.

On Del Mar, the Commission will make its negative recommendation to the Legislature which will have the final say. In the past, the Legislature has approved more such requests than the Commission.

New State Building—

Contracts have been awarded for construction of a second new State Office building just north of the Capitol.

It will be a four story granite building with 147,205 square feet. Cost is to be \$2,076,102. It will be known as State Office building No. 2 and will house the Game and Fish Commission, State Board of Plumbing Examiners and some other agencies now scattered over Austin.

This is one of six buildings in the current program to create a unified government center, clustered around the State Capitol. Already in use are State Office building No. 1, the State Courts Building and the Texas Employment Commission building. Archives building is to be finished soon, and a new insurance building is due to start this year.

Decentralization Set—

State Game and Fish Commission has voted to set up a system of five regional and 20 district offices to improve operation of its field service.

Reorganization plan was recommended by the Texas Research League, a privately financed organization to study operation of governmental agencies. Regional offices will be at Seabrook, Rockport, Tyler, San Angelo and Waco.

District offices will be at Amarillo, Beaumont, Bryan, Houston, Victoria, San Antonio, Edinburg, Corpus Christi, Lubbock, El Paso, Wichita Falls, Midland, Ft. Worth, Temple, Brownwood, Kerrville, Dallas, Texarkana, Palestine and Lufkin.

ARROWHEAD CAMPFIRE

The Arrowhead Campfire group closed 1960 with a Christmas party in the home of Mrs. Page Brown, our leader. Gifts were exchanged and refreshments served to the following: Judith Bowles, Jan Brown, Anita Foster, Phyllis Kiesling, Kathleen Reasoner, Laquita Stout, Stephanie Slusher and Mesdames J. B. Riley, Arnold Kiesling and Page Brown.

We started the New Year with a business meeting in the home of Anita Foster after which we celebrated Anita's birthday. The beautiful cake and lovely table decorations were in pink and white. Games and delicious refreshments were enjoyed by all members.

On Jan. 11th we met to work on our honor books and we discussed plans for the coming event of the Father-Daughter Banquet to be held in March.

NEW SEWER RATES

The City Commission in its regular meeting Monday night passed the ordinance establishing new monthly sewer rates, as follows:

In the Beginning

"In the beginning God created heaven and the earth."

Out of the void God created this wonderful world, he created the stars, the herbs, the trees and animal life. All of these wonderful things, God spoke into existence, but he created man with his own hands.

"And the Lord God formed man of the dust of the ground, and breathed into his nostrils the breath of life; and man became a living soul."

God has done so much for us... attend church regularly and learn more of man's relationship to God.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Arbor Day Set for January 20

Arbor Day, by official proclamation of Governor Price Daniel will be observed in Texas, Friday, Jan. 20th.

Governor Daniel in his proclamation said, The 51st Legislature by resolution designated the third Friday in January each year as Arbor Day and urged that attention be given to planting and cultivation of forest, shade and ornamental trees throughout the State.

The State of Texas derives many benefits from its trees, whether grown as a forest crop, used as a wildlife habitat, planted for protection of the soil, or cultivated as landscaping.

Protection of so valuable a resource from the ravages of forest fires and disease and renewal through annual planting must be assured.

"THEREFORE, I, as Governor of Texas, do hereby designate Friday, January 20, 1961, as ARBOR DAY in Texas, and urge all Texans and particularly the public schools, to observe this occasion appropriately in the interest of our State and Nation."

Present at the signing of the proclamation at Austin were Marvin Angle, president of the Texas Forestry Association, and D. A. Anderson, head, research and education dept. of the Texas Forest Service.

Arbor Day was first observed in Nebraska, January 4, 1872. In Texas the occasion was first celebrated February 22, 1889 in the community of Temple. Now, 72 years later, this tree-lined city is a memorial to all men who protect and replenish rather than destroy this natural resource for future generations.

This year, as in the past, the Texas Forest Service will assist schools and other organizations in arranging special Arbor Day Programs.

Mrs. S. E. Lee returned to her home in Cheyenne Wyo., Tuesday following a two weeks visit here with her parents, Mr. and Mrs. N. H. Harris. Mrs. Lee had been visiting here due to the serious illness of her father.

If It's For Sales ADVERTISE!

April 15th Deadline for Vehicle Stickers

The director of the Department of Public Safety urged motorists to get their 1961 vehicle stickers "before the short and the lines get long."

Col. Homer Garrison, approximately half of the inspection period has expired only about one-third of the vehicles in the state have been inspected. Unless the inspections are increased considerably soon, he added, the inspection lines will be long.

After that date, displaying the new sticker will be operation of the law.

The 4,800 authorized inspection stations over the state are ready and capable of the inspection of the 4,800,000 vehicles without a few days before the deadline.

Garrison called the fact that since the beginning of the inspection vehicles having a was a causative factor in accidents decreased to 5%.

The purpose of the vehicle inspection program is to discover any mechanical defect which might become a cycle of events leading to an accident and by removing the link, prevent the accident.

Comment from the Capital —

WHOSE SIDE ARE WE ON?

by Vant Neff

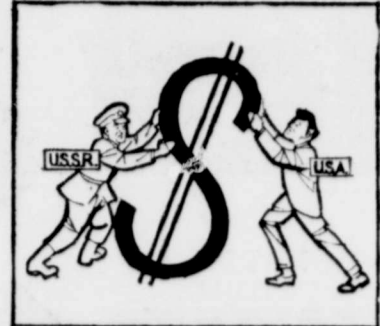

We all know that the Russians will leave no stone unturned to destroy the economy of the United States. For as long as the United States remains powerful — both militarily and economically — the whole of the free world will be in stronger position to prevent a Communist "take over".

Since this is an obvious fact, you would think that our lawmakers would take every possible precaution to see that conditions here at home remain economically sound so that we will be free of the dangers of inflation. It is not only surprising, therefore, but frightening when we learn that supposedly responsible men in legislative circles advocate programs which would weaken our economy, just while they regard themselves as opponents of Communism.

Everybody knows that spending more than you can afford is just as foolish for a government as for an individual, yet these men would support a program that would spiral our economy into further inflation and unemployment by increasing the federal minimum wage to \$1.25 and extending federal controls to workers in industries never before covered, notably "retailing and service industries".

Not only would such a step

spawn more bureaucracy and add expense to the cost of government but, as surely as one and one equal two, it would force the retailers to add extra overhead to the price of the things you buy. The result: the value of your dollar goes down because you have to pay more for everything you buy. The dog chasing his tail gets nowhere.

The Russians, of course, would like nothing better than to see America in the throes of inflation. The recent complicated "reevaluation" of the Russian ruble which Moscow is picturing as a devaluation of the American dollar is part of the Russian propaganda program to shake confidence around the world in the dollar, and cover up the fact that the revaluation of the ruble is in truth a devalu-

ation of that currency. Because of this latest maneuver by the Russians, and because of the present unstable condition of the world's gold market, President Eisenhower took immediate steps to show the world we intend to protect the dollar.

Surely the incoming administration must realize that if we are to maintain world respect for the dollar, we must begin by maintaining a sound economy here at home. Surely it realizes that legislation which reduces the buying power of the dollar here at home ultimately reduces its buying power around the world.

Now that the campaign is over, we hope the new administration will reconsider some of its platform promises and will get down to reality. We hope that pie-in-the-sky promises will be forgotten . . . and among them the expansion of federal control of minimum wages. Surely the new administration owes it to the entire nation and especially to that more than half of the voting public that did not support it, to avoid any radical change of policy which would create inflation, impair the economy of our nation and place us at a disadvantage in relation to the Russians.

**Current Literature
Club's Annual Dinner
Held January 12th**

The Current Literature Study club annual covered dish luncheon was held in the home of Mrs. W. W. Chambers, Jan. 12, with Mrs. C. R. Chambers as co-hostess.

Mrs. John Brookman, president, presided over the business session.

Mrs. C. E. Lundberg, chairman of the Christmas basket gift committee, reported on the gifts bought for the needy family—medicine, clothes and toys. Some of these things were donated by Burkburnett merchants. Mrs. Lundberg also reported on the Cancer Crusade.

Mrs. A. H. Lohofener reported for the Therapy Department at Sheppard Base hospital and said that 30 dozen cookies were donated to the patients New Year's.

A report on Public Safety was made by Mrs. Ralph White — Make Texas Safer. The Safety Convention is to be held in Houston on March 27-29.

The Education chairman, Mrs. W. C. Vann, moved that the club give \$20. to the Santa Rosa District Scholarship Fund and that \$1 per member be set aside for a Community Scholarship fund, this fund to be given to some deserving High School graduate of Burkburnett. Both motions carried.

Mrs. Brookman appointed the following on the Community Scholarship Fund committee, Mesdames Ralph White, F. G. Jeffers, Marjorie Kauer, F. M. McMurtry and C. M. Archer.

Club members voted to enter the Community Improvement Contest, a two year project sponsored by the General Federation of Womens clubs and the Sears Roebuck Foundation.

The program for the day was on Community Achievements. The leader, Mrs. F. M. McMur-

try, spoke on "Citizenship is Responsibility."

Mrs. McMurtry introduced the Panel Discussion, Our Community, with (a) The Needs—Mrs. A. H. Lohofener; (b) Possibilities—Mrs. J. S. Vanderberg; (c) Cultural Opportunities — Mrs. Marjorie Kauer; (d) The Retired Wasted Resources—Mrs. L. O. Campbell.

Mrs. Troy J. Miller Named President of Unity Garden Club

The Unity Garden club members elected new officers at the luncheon meeting in the home of Mrs. A. L. Gilbow Wednesday, Jan. 11th. Co-hostesses were Mesdames J. D. Riddle and T. J. Campbell.

Mrs. Troy J. Miller was elected president to succeed Mrs. Roy T. Magers. The nominations were submitted by Mrs. D. Riddle. The other officers accepted were Mrs. Neal Hall, ce. pres.; Mrs. B. H. Alexander, Treas.; and Mrs. A. L. Gilbow, secy.

A study in table setting was conducted by the hostesses before the luncheon was served. She decorated her dining table with red, white and blue in honor of the coming birth anniversary of George Washington. She used a coarse woven white cloth with a crocheted, china with old castles of Britain painted in blue on each piece and central floral arrangement of cherry laurel, photinia and red carnations in a white container. The centerpiece was Fosteria. On a table she had an espaliered cherry tree. It was made from china berries painted red and cherry leaves all placed on a wire frame that was mounted on a wooden cutting board.

Then the members were seated at the dining table and card tables in the living room for the delicious and hearty luncheon. All enjoyed the food and comradeship.

Mrs. Magers opened the meeting by thanking the hostesses for the delightful meal.

A letter from Mrs. John Lynn, rector of Zone II was read and thanked the Unity Garden club for its part in the Christmas Idea Show in Wichita Falls which netted \$202. for the headquarters building.

Mrs. T. J. Campbell reported meeting with the Junior Unity Garden club Tuesday, Jan. 10 at her home. There were ten members present. They worked until 6 p. m. making ribbon corsages. Mrs. Roy Magers, Mrs. R. Gilbow and Mrs. B. T. Mann assisted her with the girls

and the corsage making. Two mothers, Mrs. Fred J. Morgan and Mrs. Carl Fisher were also present.

It was voted to cooperate in the rodeo by having a float. Mrs. T. J. Campbell and Mrs. R. C. Gilbow are co-chairmen for this task.

The members are to take their trees for planting at the roadside park on the Wichita Highway to Mrs. J. D. Riddle.

Roll call was answered by hints on conservation. Mrs. Troy Mills was program leader.

Mrs. Neal Hall gave a paper and talk on Forest Management and Wild Life. She gave a brief history of our National Forests and Wildlife stressing the need for conservation in its operation. She told the club members they were "share holders in 180,000,000 acres of wealth — our National Forests. These forests were set aside for the production and conservation of timber, for grazing, for the protection of vital watersheds, for the protection and preservation of wild life and the enjoyment of recreationists.

Mrs. O. E. Melton reviewed "A Dramatic Story of the Soil" by Mantague Free. Soil is a living dynamic thing. It is the source of plant essentials and without it there would be no birds or animals, no you or me.

There was one visitor present, Mrs. Lee Beckham. The members present were Mesdames B. H. Alexander, Sr., T. J. Campbell, A. L. Gilbow, R. C. Gilbow, H. C. Gilbert, Neal Hall, Roy T. Magers, B. T. Maben, Sr., O. E. Melton, Troy J. Miller, Troy Mills, Clyde Peed, J. D. Riddle, Paul Schroeder, W. R. Stimpson, W. B. Short & Kenneth Callege.

SWEET BLUEBIRDS

Because Monday was warm and sunny, the Sweet Bluebirds met outside the hut. Refreshments were served by Mrs. White and the girls practiced sewing in preparation for future projects. Present at the meeting were Lynn White, Tony Gillis, Patti Karmos, Roberta Pollard, Deborah Taylor, Faylin Pate, Cynthia Sands and a new member, Robin Lee Morris. Mrs. Kormas, assistant leader, conducted the meeting.

NOTICE

PARENTS OF CUB PACK 155

A regular pack meeting will be held at the Town Hall Monday, Jan. 23rd at 7:30 p. m.

Refreshments will be served by Den. 1.

A film will be shown, Our American Heritage.

Cubs, be sure to come and bring your mom and dad to this meeting.

CARD OF THANKS

With deepest gratitude I wish to extend this work of thanks for the many nice cards, flowers and telephone calls I received during my stay in the hospital and since my return home. Your thoughtfulness is sincerely appreciated. May God bless each of you.

At the beginning of a new year for the Wichita County Home Demonstration program, it seems to be a good time to look back to see what was accomplished in the year just past.

Miss Thelma Wirges served as County HD agent the entire year. When she took a look, she found that she had worked in 280 homes, received 17 office calls, received 1490 telephone calls, prepared 96 news articles, participated in 31 radio programs and 1 television program and distributed 4805 bulletins. In addition she presented information in the field of home economics at 137 meetings, with an attendance of 20,685. She also trained leaders that gave 214 demonstrations where 3578 attended.

Mrs. Elizabeth Smith served as assistant county HD agent. The assistant agent does work with the youth program. In 1960, 480 4-H girls enrolled in demonstrations and 438 completed their work. 230 girls were in 4-H club work for the first time.

Mrs. V. C. Lamb served as chairman of the county HD council. The home demonstration council reports many and

varied accomplishments, some of which were: Exhibits and a food booth at the Texas-Oklahoma Fair; county day camp; celebrated National Home Demonstration Week with a luncheon, radio programs, exhibits and community meetings; clothing, lampshade and furniture refinishing workshops were held; clothing selection, care and storage and foods and nutrition demonstrations were carried out; contributed to TB, Cancer and Polio drives; participated in Civil Defense activities; held an achievement tour; helped with work at the State Hospital; and all clubs carried a community project. Mrs. J. A. Fouts will serve as council chairman in 1961.

4-H clubs carried demonstrations in clothing and foods and nutrition. County activities included: County demonstration contests, clothing workshops, a 4-H dress revue, 4-H Rally Day, Project Show, Poultry Show & 4-H achievement Banquet. Miss Linda Baley was selected Gold Star Girl.

The County HD agent taught 24 clothing leaders limited to those never before reached by the home demonstration clothing program. 26 other homemakers were taught by these leaders, 50 garments were completed in workshops conducted by the agent and leaders. 82 garments were completed by the leaders to model completed garments.

From work on clothing selection, care and storage; club members helped 129 other homemakers, 82 homemakers improved stain removal methods, 111 homemakers improved use and selection of accessories, 122 homemakers improved

UP-TO-THE-MINUTE MEN DEFENDING AMERICA

YOUR NATIONAL GUARD

methods of buying better dresses, 78 homemakers improved clothing storage, 7 demonstrators developed result demonstrations in their individual homes on storage of family clothing.

176 Wichita County homemakers reported improved meal planning as a result of a main demonstration on foods and nutrition in 1960.

The home demonstration program in 1960 included work on improved lighting and newly covered lampshades. 235 homemakers covered shades. Homemakers also refinished furniture which also improved the inside of Wichita County homes. 138 pieces of furniture have been refinished.

In this busy world, in which we live management and planning are most important. With this in mind the 1960 home de-

monstration program included work on 1. Figuring operating costs of operating home freezers. 2. Division of the Family Disposable Dollar, and 3. Selection, Use and Care of Large Equipment.

Work on the home landscape was completed along with work inside the house. 92 home landscapes were improved. Other work included 30 composts, 120 homemakers grew shrubs from cuttings and 96 homemakers pruned trees and shrubs.

In general the 1960 home demonstration program included work with home demonstration clubs, committees and council; leaders were trained; demonstrators developed demonstrations in their own homes as a result of home demonstration work; workshops were held and individuals were helped. The teachings were given to all interested homemakers, not just club members.

As 1961 begins, a new year work has been planned by the Wichita County Program building committee and its sub-committees. Work has been planned for club and non-club members.

The "car of the year"

Overwhelming acceptance of the new 1961 models introduced last fall—together with the tremendous success of the '60 Chevrolets—has sent Chevrolet passenger car sales to an all-time yearly high. More new Chevrolets and new Corvairs were delivered to more people during the past year than ever bought any make of car in a single year before. We and your Chevrolet dealer

thank you for your continuing confidence in, and preference for, Chevrolet. Your record-breaking purchases of Chevrolets have significance to everyone thinking of buying a new car this year, and—since sales of new 1961 Chevrolets and Corvairs continue at record-breaking levels—are a healthy indication of the inherent strength and vigor of our national economy.

SEA 44

SEA WATER A Chemical Smorgasbord

The ocean contains 44 chemicals that are soluble in water. Many of those chemicals are reduced seriously or totally missing from our farm land, so our meat and potatoes, vegetables and fruits are often sadly lacking in vital chemicals.

By taking a little sea water each day, we can thus offer our bodily glands a "Chemical Smorgasbord." Figuratively, therefore, the pancreas and liver and spleen and bone marrow and thyroid and adrenals and other organs can march around this chemical smorgasbord, helping themselves to whatever they require to produce their manufactured secretions that guard our health. Our blood is essentially water, so it can utilize only those chemicals that will dissolve in water, but all water-soluble chemicals on this planet earth are already dissolved in ocean water.

Many medical troubles are called "deficiency ailments" such as cancer, diabetes, gray hair and baldness, probably multiple sclerosis, myasthenia gravis, Parkinson's disease, leukemia, arthritis and etc.

Sometimes only a trace of chemical is all that is needed to spell the difference between health and sickness or even death. Thus a tiny amount of iodine added to salt in 1924 has almost entirely banished goiter. Fluorine in drinking water cuts down dental decay about 65 per cent. A trace of Cobalt saved the sheep of Australia a few years ago when they were sickly and the females became sterile.

God Almighty apparently created our intricate body with many little manufacturing plants (glands) but no factory can turn out its proper finished product if it lacks essential raw materials. A known case of Grandpa Miller, age 98, was dying 15 months ago, after being bedfast, disoriented and unable to feed himself for months, now he hobbles around, comes to the table and can cross his Arthritic right leg over his left knee to take off his shoe and sock. He hadn't been able to do that for 15 years. Yet the only change in his input has been a little ocean water (three table spoons a day) and he doesn't yet know he is getting it so his improvement is not due to suggestion of psychosomatic medicine.

This Ocean Water labeled "Sea 44" can be purchased at Corner Drug Adams Drug Burk Drug Parker Food Store

Card Of Thanks We are sincerely grateful to friends and neighbors for the prayers, cards, letters and flowers Leon received during his stay in a Dallas hospital. Your kindness has meant so much to us. May the Lord richly bless each of you. Leon Smith, Mrs. Biddie Smith. 19-1tc
