Base Radio Station Installed Here By Civil Defense for the County

Installation was completed her Saturday on a base radio station for the Wichita County Civil Defense organization. The station will establish radio communication among all of the county's fire departments and will enable the emergency agencies to better coordinate their efforts.

The base station, located in the Burkburnett fire station, is the hub of a sleek communications system linking fire departments at Electra, Iowa Park, Wichita Falls, Sheppard Air Force Base and Burkburnett.

The station will be manned around the clock by personnel of the city of Burkburnett.

Two Mobile Units
Wichita County purchased the base station, complete with auxiliary power generator for use in case of power failure, and two mobile radio units. One of the county mobile units is assigned to Sidney C. Smith, Wichita Falls, county Civil Defense fire coordinator. The other mobile unit is installed in the vehicle of Bill Beck, fire chief at Sheppard.

Burkburnett, Electra and Iowa Park each has purchased two mobile units and the Wichita Falls State Hospital has one mobile unit and three walkie-talkies. Sheppard AFB has its own radio system and with the Civil Defense radio, the fire chief can coordinate the efforts of his department in the county.

This will enable any fire department responding through mutual aid and the use of radio, regardless of location in the surrounding area, Smith explained.

The new equipment was purchased on a matching funds basis, with the county and federal government cooperating, said Smith.

Smith said completion of the radio system culminates something we've been working on a long time.

Elevation Suitable
Completing the installation Saturday were Smith, Richard Toby, Wichita Falls, assistant county fire coordinator; D. T. Walker, Wichita Falls, communications technician for Texas Pipeline Co., and Wayne Williams, Wichita Falls, communications man for Sinclair Oil Corp.

Smith said the water tower provides the antenna with elevation considerably higher than any ground elevation in the county.

This should result in excellent range, he remarked.

14 Cents Out Of \$10

When you buy \$10 worth of groceries, how much of that stays with the store in the form of profit? It's a safe bet that a great majority of shoppers couldn't answer that question with any degree of accuracy. They would probably put the profit factor at a much higher proportion than it actually is.

The National Association of Food Chains and the Harvard Business School Division of Research have issued their fifth annual survey of margins, expenses and profits in the food chain industry. In 1959, net profits worked out to about 1.4 percent of the sales dollar, which means it came to 14 cents on a typical \$10 bag of groceries. There was nothing unusual about this—the profit was practically the same in 1958, 1.38 percent.

Over the years, profit margins have held remarkably stable, in the general neighborhood of a cent and a half on the dollar. Expenses, by the way of contrast, have shown substantial increases, with payroll costs leading the way, followed by advertising and promotion expense and real estate costs.

Summing up, the profit on food sales is so small, percentage wise, that it would take an exceedingly canny shopper to notice the difference if there were no profit at all. Pretty much the same thing is true in other basic retail lines, profits commonly run around three cents on the sales dollar. That is the principle on which mass distribution rests—very small unit profits add up to an adequate total profit because of big volume.

Laos Becomes Critical Situation

To most Americans, the kingdom of Laos is the "mysterious land of a thousand elephants" deep in the heart of Indo China which has become more trouble than its worth. It was a French protectorate from 1893 and a member of the Indo Chinese Union from 1899. It became a sovereign state under terms of the Geneva convention in 1954 after cessation of the Indo Chinese war. It is a landlocked country roughly twice the size of Pennsylvania but with an estimated population of fewer than 2 million.

The pro-Communists under Kong Le have been joined by a substantial guerrilla force which Red China has been supporting in Laos since the 1954 treaty. The Red threat has become critical. Laos is the most backward country in Southeast Asia despite the \$300 million the United States has poured into the country in military and economic aid. It is unsuitable for large scale military operations but ideal for guerrilla warfare.

Conquest of Laos would put the Communists in position to invade Thailand, Burma, Cambodia and Southern Viet Nam. The United States has committed itself to prevent such an eventuality. We have warned Red China and North Viet Nam against armed intervention and proclaimed that this country is "mindful of its obligation under the SEATO treaty." The SEATO council is in emergency session.

Obviously we could be involved shortly in another Korean war in Laos. American intervention, if it comes, should be a last resort to be adopted only in the face of apparently certain Communist domination of Laos.

On the other hand, what can be gained by agreeing with Britain and France on using political means to settle the situation? Admit the Communists into the Laotian government which almost certainly would mean early conquest of the country anyway?

It is part of the irony of the situation that bad and frequently fraudulent administration of our aid millions in Laos gave the Reds their loudest talking point against American "imperialism" and that the war could not have been fought without American weapons. We have provided the arms for both sides. Kong Le, the Red leader, was trained by American officers in the Philippines along with the members of his paratroop battalion. And, until he was driven out of Vientiane, it was United States money which met Kong Le's payroll.

The deplorable prospect is that we now face, at best, a long and costly guerrilla operation in Laos, or another open Korean type conflict, unless we are ready to surrender to the Red Chinese the soft underbelly of Southeast Asia.

GRASS ROOTS OPINION

WILDWOOD, N. J., LEADER: "For our prosperity and well being much credit is to be given to the fact that our forefathers established this nation on the belief that man is a free agent, responsible for his acts and for his relationship with others; that he is capable of improving his own condition through faith, self reliance and individual initiative. Had America been established on the false notion that the individual should look to someone else to run his life and provide for him, it is quite certain that today we would be neither free nor prosperous."

CUERO, TEXAS, RECORD: "The agreement of both sides—labor and management—to refer a dispute over working rules on the railroads to a government study panel is historically significant. Congratulations are due on all sides—to the unions, management and to the Department of Labor. If more labor disputes could be referred to a fair Commission, with the public, welfare and simple justice, as that commission's guiding principle, we would have moved forward a giant step in management-labor relations."

WASHINGTON AND "SMALL BUSINESS"

By C. WILSON HARDER

An entire American industry has found that their chickens have come home to roost.

But what is not only unusual, but also refreshing, is the acknowledgment by the American men's apparel manufacturing industry that they have contributed to the situation which has now placed them in peril.

In an open statement, the leading U. S. manufacturers of men's clothing announce that the flood of imports from 10 and 12 cents per hour labor nations is not only threatening their businesses, but also the jobs of over a million American workers.

They also announce they are raising a million dollar fund to defend their industry from ruin.

For quite some time, the nationwide membership of the National Federation of Independent Business, have requested a curtailment of low labor cost imports. A year ago a special Senate committee headed by Sen. Pastore warned of the crippling impact of foreign imports on the American textile industry.

The men's clothing manufacturers now publicly confess, "Let us admit when government permitted a flood of fabrics from low wage countries to engulf American mills, many apparel manufacturers rushed to buy the imports, to the detriment of our own textile industry, and ultimately ourselves."

Included in this industry group is Hickey-Freeman, one of the nation's finest clothing manufacturers, Hart Schaffner & Marx, Eagle Clothes, and other reputable U. S. manufacturers.

Thus fine firms created their problem. Because these are the makers of men's suits who made it a fetish to call attention that their products, and especially their higher priced items, were made from imported fabric. Thus their customers, sold on the superficial idea there is extra value in an imported cloth, are easily sold idea imported tailoring must be better, too.

It would be refreshing if these prestige name manufacturers would start proudly promoting suits made with such famous American made wools as Forstman, Botany, Milliken and others.

Obviously, it should be the duty of government to help the men's clothing industry avert destruction.

But by the same token, the industry should recognize that it also has a responsibility to other segments of the American economy. Some members of the industry who have been busily engaged buying up big retail outlets to operate captive stores should search their souls even more to see if they can justify operating their own retail outlets in competition with independent retailers they depend on for substantial share of their sales.

In other words, they have already awakened to the dangers of carrying water on both shoulders. Perhaps now is the time for them to fully understand and recognize all the factors that must be healthy to maintain a prosperous independent American economy.

FAITHFUL AND OBEDIENT

The dog has a reputation for
being faithful and obedient. Many
have been known to give their lives
in sacrifice for their master.
How wonderful are the
joys when we faithfully attend
the Lord's house and obey his word.
How great the praise when
the Lord can say ...

"Well done, thou good and faithful
servant ..."

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Jehovah's Witnesses Circuit Assembly In Levelland, Feb. 17-19

Jehovah's Witnesses of this area will hold their semi annual circuit assembly in Levelland, Tex. Feb. 17-19th.

Harold P. Bruce, presiding minister of the Wichita Falls congregation said, "Texas Circuit No. 9's assembly will be built around the theme, "Be Taught of Jehovah."

We are looking forward to this assembly with great anticipation, Bruce said. The directive agency, Watchtower Bible and Tract Society is revamping all of the present 204 circuits in the United States to make room for 54 new circuits, with 16 to 18 congregations to the circuit.

Recently, 308 circuit and district overseers from the United States and Canada completed a 16 day intensified schooling course at the world headquarters of Jehovah's Witnesses in Brooklyn, to equip them to be better teachers and overseers in putting the new program into operation.

The setup in the program, Bruce said, is due to the criticalness of the times we are living in and in the light of Hebrew 10:25 which admonishes, Not forsaking the assembling of ourselves together, but exhorting one another; and so much the more, as ye see the days approaching.

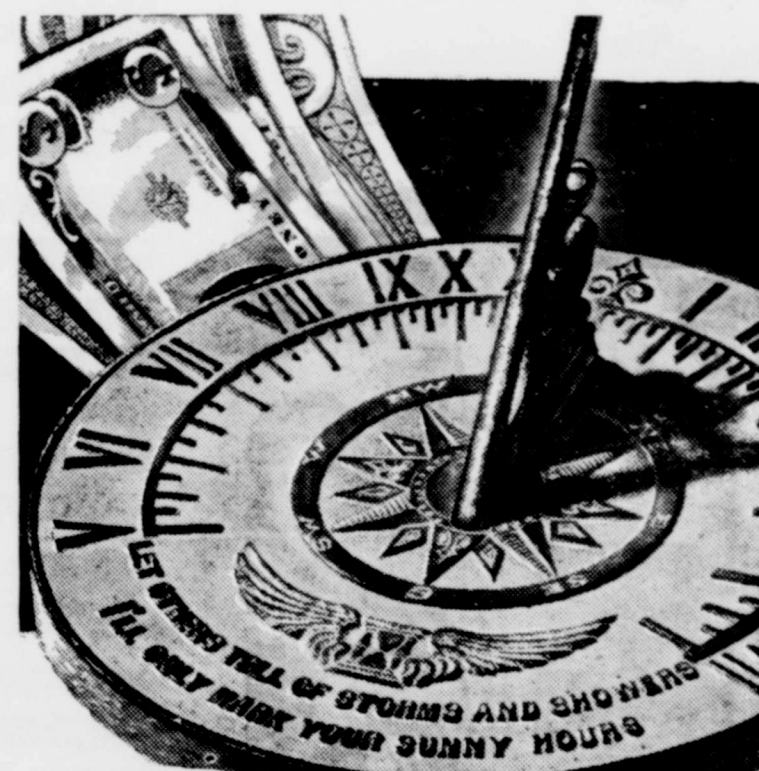

The last like assembly was held in Altus, Okla.

Better living is ready and waiting in homes that display this MEDALLION

Right from the start, you'll enjoy electrical comforts and conveniences you've always wanted . . . in a Medallion Home. The Medallion identifies homes that are wired and equipped for modern electrical living with . . .

FULL HOUSEPOWER — properly planned wiring and plenty of outlets and circuits for the appliances you own now and those you may want to add later.

WORK-SAVING ELECTRIC APPLIANCES — including an electric range; electric bathroom heating and at least three additional major electric appliances.

LIGHT FOR LIVING — properly placed fixtures for beautiful, efficient, sight-saving light. Light for living is planned lighting, based on the needs of the home.

Only new or remodeled homes that meet modern high standards for electrical living can display the Medallion. Look for it when you choose your home!

YOU PAY THE LEAST! YOU SAVE THE MOST!

In just five minutes, we Ford Dealers will show you how to save over one hundred dollars a year in operating costs with America's lowest-priced, full-size 6-passenger car (including the equipment most people want) and we'll give you a free copy of this folder to prove it.

HERE'S PROOF YOU'LL SAVE MORE WITH A '61 FORD

You can ride in this rich-looking '61 Fairlane . . . with radio, heater and automatic transmission . . . for less than the price of any other full-size, 6-passenger car in the U.S.A.

In fact, this car is priced nearly \$100 below some of the compact cars.*

And mind you, this amazing low price brings you a car that's *Beautifully Built to Take Care of Itself*. That means you'll save plenty in operating costs—save more than with other 1961 full-size cars.

Figure it out for yourself with our FREE fact-filled folder, "Here's Proof—." At the same time, get our unbeatable **SAVE-MOST DEAL** on a '61 Ford Fairlane—for a limited time only. Don't waste another day or another dollar. Come test-drive a cost-cutting, new '61 Fairlane today!

HERE'S HOW THE '61 FORD TAKES CARE OF ITSELF

Lubricates Itself—You'll normally go 30,000 miles between chassis lubrications (which cost only about \$4.00 and take about 20 minutes) because Ford has replaced conventional grease fittings with a sealed-in lubrication system.

Cleans Its Own Oil—You'll go 4,000 miles between oil changes because Ford's Full-Flow oil filter gives you filtration through fibres . . . trapping more dirt than any other type of filter made.

Adjusts Its Own Brakes—New Truck Size brakes adjust themselves—automatically.

Guards Its Own Muffler—Ford mufflers are double-wrapped and aluminumized—to last three times as long as ordinary mufflers.

Protects Its Own Body—All vital underbody parts are specially processed to resist rust and corrosion, even to galvanizing the body panels beneath the doors.

Takes Care of Its Own Finish—New Diamond Luster Finish never needs waxing.

*Based on comparison of manufacturers' suggested retail delivered prices, including radio, heater, automatic transmission and white sidewall tires

Camp Fire Leaders Meet Tues. Jan. 24

Camp fire and Blue Bird leaders met in the Hut Tuesday, Jan. 24th. Mrs. Page Brown, chairman of the Leader's Association, presided as the group discussed and evaluated past Camp Fire activities, such as the Mother-Daughter Tea and the Candy Sale.

Camp Fire is always grateful for your patronage during the Candy Sale, held once a year. The proceeds of this sale are the only source of revenue Camp Fire has for operation.

All the money raised locally remains here, as Burkburnett is a Camp Fire Council and is not affiliated with any other council, except the National Council Headquarters in New York.

The meeting was then turned over to Mrs. Glen Ladd, who is chairman of the Father-Daughter Banquet, assisted by Mrs. Paul Fisher. Mrs. Ladd revealed the date and plans for this coming event, which highlights the activities of Blue Bird and Camp Fire girls. It will be held on Friday, March 3rd in the school cafeteria. The theme will be "Texas Independence Day" and each girl will decorate a box accordingly, in which to carry a supper for her father and herself. A three-minute skit or song will be presented by each group.

This banquet proves to be a very colorful and exciting event as these young ladies step out for an evening with their father.

Freedom From Pain

Yes, freedom from pain for the SICK made possible in Chiropractic. Hundreds upon hundreds of people who believed they were condemned to spend the rest of their lives in misery and pain learned that natural... normal health could be theirs, in some cases after they had been told that their disease or illness was incurable.

Eighth Grade Class Attends Inauguration via Television!

The pupils of the Eighth Grade Reading Class attended the Inauguration Friday, January 20 via television.

Mr. Bills, owner of Bills T-V Furniture and Appliance, provided a lovely 23-in. screen. Zenith set for Mrs. Ratliff's room. Six sections of pupils saw different phases of the inaugural ceremonies.

Since the eighth grade made a Special Unit of the November election and voted by ballot in the class room, seeing the Inaugural Ceremonies was indeed an educational and interesting experience.

Mrs. Ratliff, a member of the Federated Burkburnett Study Club is chairman of the Education Committee.
