Darrell Walker At Howard Payne Col.

Darrell Walker, a product of Burkburnett, is on the Howard Payne College football team this fall.
Walker, a 6-2, 188-pound sophomore end, is seeing considerable action for the Paymen, who will meet Sam Houston State College Bearkats Saturday night in Huntsville, where both teams will be opening the Lone Star Conference play.
So far this year, the Yellow Jackets have failed to prove a thing in the won-lost column, because they've been unsuccessful in their non-league ventures against McMurray and Abilene Christian. They lost the first game, 28-8, but came back to give the Wildcats a better battle before bowing 11-7.

Melvin Smith, Scout Executive, Rotary Speaker

Melvin Smith, Scout Executive for the Northwest Texas Area Council, spoke to the Rotary Club Tuesday noon.

Scouter Smith's subject was, "We Have A Responsibility".

Smith reviewed briefly the number of Scout organizations in this country and gave the number of boys participating. However, he stressed the fact—We Have A Responsibility — twenty million boys of Scouting age are not in the program. It is the responsibility of each interested person to live Scouting and talk Scouting every day and at every opportunity.

To emphasize the fact we are not using every opportunity to promote Scouting, Smith read from the Delaware State News the propaganda twist Pravda, Russia's paper puts on Scouting. Pravda, translated, of all things, means "Truth".

To quote from the lying sheet: "A Pravda survey reveals that an organization called the Boy Scouts is turning American youngsters into hostile, war-mongering imperialists."

"Every boy who is forced to join the Boy Scouts is trained to be a master of all forms of espionage, violence and germ warfare."

The article raves on for many paragraphs, extolling the shortcomings of Scouts.

Any one who has ever known anything about the Scout program will be shocked by the entire article.

Area 4-H Girls At Austin Meet

October 6th and 7th were special days for two Wichita County 4-H girls. These were the days on which the State 4-H Favorite Food Show was held in connection with the Heart of Texas Fair in Waco.

Donna Childers of the Iowa Park 4-H Community Club, and Toni Ann Savage of the Burkburnett 4-H Community Club participated in this new contest as representatives of Wichita County and Extension District III. They both were chosen as winners first in the county contest, and later in the district.

Toni, 14, has been a 4-H'er for five years and has carried demonstrations in Clothing, Foods, Home Improvement, Food Preservation, Electricity, and Leadership. She is presently serving as Secretary-Treasurer of her local club, is a member of the Wichita County 4-H Sub-Committee, and is serving as a Junior Food leader under the direction of her mother and 4-H leader, Mrs. Gerald Savage. Toni served as a Junior Leader at the 1961 Wichita County 4-H Rally Day, and received a Leadership medal at the event. She is active in her church, and school activities, and is a member of the Burkburnett High School Band.

Mrs. Elizabeth Smith, Assistant County Home Demonstration Agent, accompanied the girls to Waco. A buffet given by a local utility company honored the girls on Friday night. The contest, which was held Saturday, featured four categories: Fruit and Vegetables, Milk, Meat and Bread and Cereals. Toni and Donna competed in the last two groups, respectfully.

City Doubles Forces For One Day, Oct 16

When tax payer goes to City Hall next Monday, Oct. 16th, he will immediately see that the number of personnel has been doubled and he may find them almost running over each other in the already crowded place.

When he pays his taxes, he will probably be waited on by a new and in-experienced tax clerk, and if he should want to discuss his taxes he just might find himself discussing them with a new Tax-Assessor-Collector, a teenager at that and one that may have never been in a tax office before.

When he pays his water bill it may be another teenager, again inexperienced.

Then, when he goes in to complain to the City Manager about too many clerks in the City Hall, inefficient help, etc. lo and behold he will find that the City manager is another teenager that won't know a thing about city managing, but there he is.

If by this time the tax payer can't control himself, he may find himself being arrested by another teenager wearing an official police badge. He can't expect very much help from the Corporation Court either, because the judge will be another youngster.

Any citizen of course has the right to take his grievance to the Board of Commissioners, but what is he going to do when he finds that the governing body is composed entirely of teenagers?

Its not all as bad as it seems and it is not hopeless by any means. It just means that elected and selected groups of Burkburnett High School students are in charge of the municipal government for the day. The regular employees will be on hand to serve as assistants, therefore, the city government with its many problems as well as its various services to the citizens should continue as usual. It is felt that the citizens will be glad to extend full cooperation in the program.

The program, being sponsored by the Lions Club with the cooperation of city and school officials, is the first of its kind in Burk. Its purpose is to acquaint high school students with local government, which is a part of their studies. The sponsors hope the program is such a success that it will become an annual affair.

The average man's idea of a good sermon is one that goes over his head and hits a neighbor.

Mr. J. H. Cecil has been moved from a Wichita Falls hospital to Baylor Hospital where he will undergo surgery. He is reported in critical condition.

President Charles deGaulle has stated flatly that Soviet force must be met by Allied force in Berlin — even at the risk of triggering World War III. Khrushchev, he thinks, has no desire for a war that would destroy Russia — but if it comes, it can only be because the Soviets want it. In either case it would be disastrous for the Allies to back down.

Replying to the "neutralist" appeal for a U.S.-Soviet summit, President Kennedy has reiterated his confidence in "sincere negotiations." But Mr. Kennedy has talked to Mr. Khrushchev — shortly before Khrush started the Berlin ruckus and began rattling his atomic bombs.

Perhaps it's time for "Le Grand Charles" to talk to the Butcher of Budapest.

MEETING PROBLEMS HEAD-ON

Next April, Century 21, America's Space-Age World's Fair, will open in Seattle. It will be the first international exposition in this country since 1939. According to announcements, it will feature the most extensive exhibit ever assembled anywhere, and it is expected to attract the huge number of 10 million visitors — along with more scientists and engineers than any other exhibition the world has ever seen.

It also has been announced that REA Express, the new name for the old established Railway Express Agency, has been named the Fair's exclusive and official customs house broker. This means that all incoming shipments entered under the Fair's bond will be cleared through U.S. Customs by REA Express.

There is an interesting little story back of this development. Not long ago the express company was in

WASHINGTON AND "SMALL BUSINESS"

By C. WILSON HARDER

For some time, to curtail the ravages to American business and employment brought about by the flood of cheap goods from low labor wage areas, Sen. Keating and colleagues have had before Congress a measure which would set tariff rates according to the prevailing wage scale of any nation exporting to the U. S.

This problem of having an economy undermined by goods produced with cheap labor is not alone an American one. In England, the present government, is trying to get England into the European Common Market.

The European Common Market to which practically every free Europe nation belongs, except England, is a plan whereby goods are moved between nations without import duties or tariffs.

However, since the Macmillan government started the drive to bring England into the Common Market, there has been, according to public polls made in the British Isles, a distinct opposition to the Macmillan government which some believe will cause its fall.

A major spearhead against the plan is the Beaverbrook newspapers who are currently running front page boxes on the affect joining the European Common Market would have on British welfare.

Quite a typical example of

this barrage is as follows: "The hourly wage of a textile worker in Britain is 3 shillings, 11 pence. The hourly wage of a textile worker in Italy is 1 shilling 11 pence. That is why the mills in Italy will damage the industry and employment of Lancashire if we go into the Common Market."

Translated into American money, this means the British textile worker gets 53 cents per hour, the Italian worker 25 cents per hour.

Thus, the British opposition to tearing down their tariff walls that protect their business and employment is a great lesson that American policy leaders who have taken steps that have already destroyed a great part of the American textile industry should take note.

The British know, despite their efficient production methods, that they cannot compete with a nation who pays the workers half as much as the British pay.

Thus, it is difficult to see, the stary eyed State Dept. dreamers to the contrary, how U. S. industry can compete with a wage scale that is about four times that of the British scale.

There is perhaps another lesson to be drawn from this situation in England.

The British People seemingly will permit their leaders to engage in many strange maneuvers, but when they adopt a course that threatens the welfare of the man in the street, a mighty storm is set up. Nobody is going to destroy Alf's job without having a fight on his hands.

danger of extinction, due to heavy operating losses. Then a virtually complete overhaul and reorganization took place. Services were broadened and new ones created. Among them is an integrated, one-transaction import-export shipping facility available to and from countries the world over, which assures shippers of the utmost in good, economical, flexible and responsible service.

This, naturally, has strong appeal to those who will exhibit at the Seattle Fair, and is the reason for REA Express's appointment. And, beyond that, it's a fine example of how a private enterprise can meet problems head-on, and take the measures that are needed to solve them.

GRASS ROOTS OPINION

WISHEK, NORTH DAKOTA, STAR: "Rugged individualism — We have paved the road to socialism and its second cousin, communism, with good intentions. We ask more and more of government and don't realize we are actually bloodsuckers on our own hearts. . . . To gain fringe benefits we have donated our freedom to government by bureaucracy. There is a certain amount of security in the arms of an octopus, but it can't last forever."

Safety Inspection Time Is Here For All Vehicles

Motorists can now have their vehicles safety inspected for the 1962 Inspection Sticker.

Captain Alan Johnson of the Motor Vehicle Inspection Service, Texas Department of Public Safety, said today that over 5,000 inspection stations have started inspecting more than 4 1/2 million vehicles coming under the provisions of the Motor Vehicle Inspection Act. All such vehicles must display the new safety sticker by April

1962. Johnson said, "We feel that the vehicle inspection program in Texas has proved a deterrent to vehicle accidents on our streets and highways. He urged all motorists to get their vehicles inspected before the bad weather of winter begins, when it is so essential to have vehicles in safe operating condition."

"It takes just a few minutes to have a vehicle safety checked," Johnson stated, "yet those few minutes thus spent today could mean the saving of someone's life tomorrow."

Johnson noted that the percent of accidents in which vehicle defects were causative factors has been cut approximately in half since the program was started in Texas.

BABY YOUR BUGGY

VEHICLE SAFETY CHECK—National voluntary safety check programs are under way in 32 states where there is no compulsory inspection. First through check lane and setting example in Minnesota was Gov. Elmer L. Anderson, right. Harry A. Sieben, former State Safety Director and new U.S. Marshal, is seen testing governor's windshield wiper arms for adequate pressure, one of 10 vital points to be checked

State of Texas Safety Inspection Law requires that all vehicles be inspected by April 15, 1962.

CARD OF THANKS

We would like to take this means of expressing our appreciation for the comfort received from our friends and neighbors in this time of our sorrow, especially do we thank those who had a part in the service, the speakers, singers, pall bearers, and funeral directors. Also a special thanks to those who so thoughtfully sent food and flowers, those who sat up and visited. May God bless each of you.

TAKE YOUR PROBLEMS TO CHURCH -- MILLIONS LEAVE THEM THERE

The Lord's Calling Card

The Light shining through a stained glass window beckons one to enter the house of the Lord. It is an invitation to friendship, sympathy, joy, and worship. Let this be your invitation to church this Sunday.

"Enter into His gates with thanksgiving, and into His courts with praise."

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

H. J. POWELL
Mr. H. J. Powell, Visiting Teacher, (duties — truancy and attendance problems), is also a teacher of Mechanical Drawing and has been teaching school for 30 years. He has been with the public schools in Burkburnett for 14 years, coming here from Patterson, Texas.
Powell has won many trophies and awards while coaching in athletics, but he says that his best award comes from an activity he enjoys most of all — helping boys and girls.
He is quick to explain that there is no problem so big that it can't be solved, if one will just try and work at it. This he has tried to pass on to youngsters, and through patience and understanding, has helped many a student to find himself and make a good and useful life for himself. Powell says that when there is a disturbed student, you can usually find a disturbance in the home.
Also helping in his work with students is his wife. Mrs. Powell teaches Business Administration in High School. They reside at 501 Park, and have one daughter, Pat, who has just finished North Texas College.

Diamond Bessie's Grave

"Diamond Bessie" now lies in a well-marked, fenced grave in the cemetery at Jefferson, Texas, in the northeast part of the state.
This beautiful, well dressed, and be-diamonded woman was found murdered near Jefferson only a few days after her marriage to a Rothschild.
Rothschild destroyed one eye in a suicide attempt, on being charged with her murder. He was twice convicted of first-degree murder, but twice freed by a reversal from a higher court. The trial lasted seven years.

STORMING A BEACHHEAD 1970-STYLE—Bloody beach assaults will eventually be a thing of the past, as displayed in this new U.S. Army exhibit now on a nationwide tour. This panel depicts warfare in the 1970's, when Commanders will have to think in terms of miles and "kilatons" rather than yards and rounds-per-minute. Troops will be projected into battle zones using three-dimensional transport devices to surprise the enemy with force and suddenness never before known. The exhibit will be displayed xxxxxxxxxxxxxxxx.

Baptist Youths Attend Regional Abilene Rally

Fifteen boys and their sponsors from Central Baptist Church, Burkburnett, Texas will attend the Regional Texas Baptist Royal Ambassador Rally on October 14th at Hardin-Simmons University, Abilene, Texas.

After attending Leadership Conferences on the New Royal Ambassador Program, they will hear a message on "The Future Is In Our Hands" by Rev. James Basden, state secretary of the Human Welfare Commission of Texas. The group will then tour the university campus and attend a football game between Hardin-Simmons University and Abilene Christian College.

This meeting is one of four rallies which are expected to attract around 7,000 persons throughout the state, said Robert Chapman, state RA director.

"The whole idea is to get Royal Ambassador boys and men to attend a conference in which they will learn about the new program which begins about October 1st," Chapman said.

The Royal Ambassador program enlists more than 34,000 Royal Ambassador boys in Texas. They participate in programs of study, fellowship and recreation designed to help mold Christian Character.

Cub Scout Leaders To Attend Pow-Wow

Cub Scout leaders and parents are completing plans for a delegation to attend the annual Cub Scout leaders Conference, the Pow-Wow, to be held from 9:30 a. m. to 5:00 p. m., October 14, at Barwise Junior High School in Wichita Falls.

Ted Litteken, Pow-Wow general chairman, pointed out that some 300 adult Cub Scout leaders and parents from over the entire 13-county Northwest Texas Council, Boy Scouts of America, will participate in this the largest conference on Cub Scouting, ever held in this section of Texas. The council-wide conference is designed for all adults interested in Cub Scouting. Litteken indicated that the Pow-Wow is specifically created to offer the opportunity for Cub Scout leaders, parents, and other youth agency leaders to learn first hand about the Cub Scout program and how it works to strengthen boy-family relations.

There will be specialized sections offered at the Pow-Wow covering the subjects of Cub Scout games, ceremonies, pack administration, skits and stunts, and cub crafts. There will be hundreds of exhibits of Cub Scout program ideas for the coming year and a carnival-like midway where all persons attending will have a chance to practice Cub Scout skills and fun events.

The noon meal for the conference will be fully catered. The meal will be fashioned as a typical Cub Scout Blue and Gold banquet which is held by each Cub Scout pack during Scout birthday week in February each year. Baby sitting services are furnished for all youngsters.

Any person wishing to join the Burkburnett delegation to the Pow-Wow should contact: Bennie Stine, Cub Master, Pack No. 150, sponsored by Booker T. Washington School, William R. Tate, Cub Master, Pack No. 151, sponsored by

GARDENING FOR BEAUTY AND PLEASURE

MRS. ROY MAGERS

A series of articles on "Gardening for Beauty and Pleasure" by Mrs. Roy Magers, will be a weekly feature in the Burkburnett Star. Mrs. Magers, whose home address is on Shannon Road, is chairman for the Wichita Falls Garden Club.

Mrs. Magers is one of three accredited flower show judges in Burkburnett. She has been very active in Burkburnett and Wichita Falls in various club activities for several years. Among her many club activities she has devoted a considerable amount of time and effort to the Garden clubs. Her articles on "Gardening for Beauty and Pleasure" are of an informative nature, backed by experience and knowledge of the work.

If you enjoy working with flowers, growing and arranging them, you have probably dreamed the fact that we have them for such a small part of the year.

Actually, you can enjoy flowers and foliage all year around without running up a big florist bill. How? By drying and preserving your own.

Almost any flower can be dried and you don't have to be an expert gardener either. Such commonly grown and loved flowers as Marigolds and Zinnias dry beautifully. So do ornamental shrubs such as Hydrangeas and lilacs.

In fact, the same brush or flower will furnish a variety of material according to the season, bud, leaf, flower and finally seed pod.

If you have no garden, wild flowers are available to everyone and a drive in the country should get you armfuls—goldenrod and queen Anne's lace, dock, snow on the mountain and mullen. Not to mention leaves in all shapes and sizes.

In fall, beautifully tinted foliage can be preserved; in winter a grayed twig, a gnarled branch or a bunch of cones.

Cut the plants or flowers on a bright, sunny day just before they are fully opened. If your material has any moisture on it you'll have spots on it when dry.

Take off all unnecessary leaves from the stem. Group three or four stems into a small bunch, tie them tightly because they will shrink during the drying process. Large stems such as cockscomb should be hung singly. Hang them upside down to keep the flower heads and stems straight. Do not cover them or expose them to direct sunlight, but use a warm dry spot that has plenty of air.

In eight or 10 days, look them over. They should be stiff to touch and the stems should snap easily when completely dry. Remove the bunches and store in a covered box until you are ready to use them.

For beautifully kept single flowers try this method. Mix equal parts of borax and yellow corn meal. To each quart add three tablespoons of salt. Have a box handy, one large enough to hold the flowers without crowding. This is essential because the flowers heads will be bent out of shape if crowded. Line the box with waxed paper pour borax mixture into box until it reaches one half inch.

Cover bottom evenly. Flowers should be cut on a sunny day when they have the least amount of moisture on the petals and before they are fully mature. Take off all the leaves

Mrs. Willie Bolinger Wins Cash Award For Top Suggestion

Mrs. Willie Faye Bolinger of M&S Gp. recently received the highest cash award ever granted a civilian employe at Sheppard for an initial suggestion.

She was awarded \$440 for a suggestion entitled "Consolidated Billing of Non-Temporary Storage."

The suggestion, pertaining to the Transportation Division's Household Goods section of which she is supervisory shipping clerk, has streamlined quarterly payment to local storage contractors for non-temporary storage.

Based on one year's experience, tangible savings of some \$4800 have been achieved in forms and manhours expended. The streamlining has also resulted in better relations between the base and contractors concerned.

Cash awards totaling \$510, were presented five other Sheppard employes, boosting the sum recently granted by the Base Military-Civilian Incentive Awards Committee to \$950.

Of this amount, \$310 was awarded four employes also contributing to the Air Force suggestion program.

These contributors, amounts of awards and titles of their suggestions were Billie A. Alard of Tech School's Training Aids, \$170, "Install Spacers on Sustainer Section of Hydraulic Pump, T-10 Atlas Missile Trainers"; Darrell L. Ferris of Communications Training, \$15, "Use of Anchor Mount Board," pertaining to installation of equipment; Travis E. Meyer of Civil Engineering Gp., \$100, "Side Bar Watering Assembly for water Trucks," and Robert B. Elkins of Civil Engineering's Utilities Branch, \$25, "Alarm System for Console Unit of T-33 Trainer, Bldg. 1924," which insures cooling for electronic equipment during trainer operation.

The remaining \$200 was presented to Jack I. Loomis as a cash award accompanying a Sustained Superior Performance rating he received for his work as a supervisory training instructor, GS-9 in the Department of Communications Training of Tech School.

This type of award is granted for superior performance of duties during a period of not less than six months while serving in the same position at the same grade level. Only one such award may be earned by an employe in a 12 month period.

Faye Bolinger is married to Warren Bolinger. They have a daughter Jan and a son Bobby and are residents of Burkburnett.

Future Homemakers Elect New Officers

The FHA girls had their first meeting of the year Tuesday, Sept. 26th in the high school auditorium. This year's sponsors are Mrs. Hutchinson, Mrs. Faulk and Mrs. Simonson.

Mrs. Hutchinson took charge of the meeting until the president, Mary Durham was elected. Mary then took charge and the following officers were elected: vice president, Romona Bridges; Secretary, Marilyn Vaughn; Treasurer, Hustena Lawson; Reporter, Sharon Smith; Pianist, Jerry Lanig; Song leader, Mary Ann Bosley.

The FHA girls discussed plans for the following year. No definite plans have yet been made.

The FHA girls started a contest between the officers and members to see who could get the most new members. The losing team is to give a party for the winners.

The Burkburnett chapter of the Future Homemakers of America was dismissed by president Mary Durham.

Seymour Slaps 20 to 0 Defeat On Burkburnett

Seymour's off again, on again Panthers crushed a hapless Burkburnett eleven here Friday night 20-0 in a 9-AA game to post a 2-3 season record.

The Bulldogs were held to a total of only 90 yards net all night as the Panthers rolled up 213 yards on the ground and added another 107 via the air lanes.

Seymour wasted no time in letting the visitors know the intentions as they churned across the Bulldog goal

line with only 2:38 gone in the opening period. Panther halfback Billy Tom McCarty rushed over right tackle for 37 yards and the game's first score. The speedster then added a two-point conversion with a plunge over left guard.

The Panthers needed only seven plays in which to chalk up their first score.

Then with 2:13 left in the first half, Panther fullback Ary Lynn Harris lunged over from the three. His conversion attempt failed and Seymour settled for a 14-0 lead at halftime.

The Panthers posted their first tally of the night in the fourth quarter on a 12-yard scamper by McCarty, set up by Robert Willbanks'

District Clerk's Office Changes Hands in Wichita

By CARROLL COPELIN
Wichita County will get itself a new district court clerk Monday when Wayne Wiggins, the offices chief deputy, takes over the duties of his former boss, Miss Flora Cobb.
The popular and attractive gray-haired woman who has held down one of the county's highest elective offices for the last 11 years and apparently could have been re-elected any time she chose, gave up her public service career Saturday to become the bride of Dr. Ralph H. Peterson, Wichita Falls osteopath. The three district judges immediately named Wiggins to the post.
A native of Tennessee, Miss Cobb came to Texas with her parents the late Mr. and Mrs. J. J. Cobb, when she was less than a year old. She had lived in Wichita County all of her life except for about 3 1/2 years. She began her career in public service back in 1923 when she was named city clerk at Iowa Park where her parents lived for many years. She held this position for seven years.

Since 1940
She came to Wichita Falls in May of 1930 to work in the district clerk's office for a couple of years and in 1933, went to work in the county tax assessor-collector's office under Arthur Howard.
She left the tax office in 1936 and remained out of politics until November of 1940 when she came back to the district clerk's office.
She was appointed district clerk in January 1951 and has held that position since that time. During the 11 years she has held the office, Miss Cobb has had but one political opponent—a record even the most accomplished politician looks at with envy.
In submitting her resignation to the county's district judges, Miss Cobb expressed her appreciation to county officials for their kindness and understanding.

"I am ending an association with some of the nicest people to be found anywhere," she said, adding she would miss her daily association with them deeply.
Praised Bar
She expressed special thanks to District Judges Arthur Tipps, Temple Shell and Graham B. Purcell for their help during the years and to members of the county bar association "to whom I shall ever be indebted."
She praised her successor, Wiggins for his ability and work in the office over the years, saying, "I don't think a better man could be found anywhere for this job."
Wiggins, a native of the small community of Vashti in Clay County, has lived in Wichita Falls for 14 years. He has worked in the district clerk's office for the past eight years.
His mother, Mrs. D. L. Wiggins resides in Bowie.

SACRIFICE FOR WHAT

The people of the nation have been told by high government officials that they must be prepared to "sacrifice." They can understand that, when sacrifices are essential to defense or war, but it is difficult for them to entuse about sacrifices for purely domestic spending by the government on schemes that smack of nothing but expanding political power.

The Wall Street Journal of August 24 cited a classic example. It quoted a citizen of Corsicana, Texas as saying, "This is one year people ain't going to get the grass hood out of their cotton, because we ain't going to do it." It gave facts and figures on "Groceries Day" which occurs once a month over the nation when free feed is handed out.

Only 40,031 Georgians got free federal food in January. By June the number had risen to 154,429. In Oregon, the number jumped from zero in January, to 7,435 in June. A Louisiana official notes that 200,000 people are getting federal free food in the state now, compared to 90,000 a year ago. In North Carolina, in June 1960, only 58 citizens called for food. But by June 1961, the number was 147,269.

The Journal article showed the expanding giveaway program has gained new customers rapidly by adding fancier fare, such as chopped meats, beans, eggs, oatmeal, powdered milk, and peanut butter, in addition to the basic list of flour, cornmeal, rice, lard and butter. "By mid-1961, some 6.2 million Americans, officially classed as 'needy,' were receiving free federal commodities . . . compared with . . . 3.3 million who were on the free list in June, 1960."

Commenting editorially, the Journal said, "No doubt there are among these millions, many who are in true

WASHINGTON AND "SMALL BUSINESS"

By C. WILSON HARDER

The loss of the U. S. gold reserve has taken an increased stride as foreign nations present dollars for exchange in gold. Unless the Congress takes strong action on restoring American protective tariffs, there is every indication this trend will continue.

Half measures will not work. Early this fall there went into effect the reduction from \$500 to \$100 the amount of goods American tourists abroad can buy free. While this was a step in the right direction, it also places further focus on the need for an upward revision of the tariff rates as long as European skilled labor is paid on wage scales running from 50 cents an hour on downward.

Actually, the bulk of American tourists, on limited budgets, have never bought too heavily abroad. The damage has been done by the minority of affluent means who have bought heavily in Europe.

It is doubtful this affluent minority will be impeded. After all the whole of Europe is dedicated to getting the American dollar and even Diner's Club, American Express and Carte Blanche credit cards are accepted freely for goods.

In addition, foreign governments give tourists special concessions in purchasing that their own citizens cannot get.

In many countries, the citizens of those nations must pay a stiff purchase tax on things they buy.

© National Federation of Independent Business

But even with these taxes included in the price, the price of small manufactured items, apparel, and other items using mostly raw materials produced in that country, and in which a lot of labor is involved, is 50 per cent or less than that of American goods.

But even despite this disparity, foreign governments make it even more attractive to the American with a great deal of money to spend. In France if payment is made in American currency, or American travellers checks, there is a minimum further discount of 20 per cent, and on certain items as much as 60 per cent. This discount is not given if paid in French currency.

In Britain these discounts are given provided the buyer agrees to take delivery of the goods at the airport or port of embarkation, or has them mailed to his home address.

Thus, thanks to the starry-eyed "do gooders" at home who have sabotaged U. S. protective tariff laws, wealthy tourists abroad can bring home any quantity of goods, pay the prevailing low duties, and still deprive American business and labor of a substantial amount of business to say nothing of further depleting U. S. gold reserves, because as already stated, these discounts only apply when dollars are used for their purchase.

And Europeans cannot afford to buy U. S. goods, because not only do they reflect higher U. S. labor costs, but they also have tacked on foreign import duties, plus the purchase taxes.

It would seem there is a great deal of confusion as to who is kidding whom.

need. But nowadays need is something it is not nice to inquire about; it might embarrass men with pride . . . Other give-away political programs are costing the taxpayers billions of dollars. Apparently the only persons who are supposed to "sacrifice" are the workers who must prepare to pay higher taxes to provide the money for the public spenders to dole out.

NOT A PRETTY PICTURE

The federal government spends \$18,000 a minute. That works out to more than \$1 million an hour, \$26 million a day, and \$3 billion every 10 days.

Last year the interest on the national debt alone was 9.5 billion. It will be higher this year, as the debt limit has been increased.

This is the result of spending money we don't have. We are simply passing the bill on to future generations, which is about as sorry a legacy as anyone can think of. And with it we have been creating a welfare state which if the current trend keeps on going, will handcuff their freedoms even as it drains their pocketbooks. It's not a pretty picture.

The amount of work needed to qualify for social security payments has been substantially reduced under the new law, Mr. Erton F. Tate, Manager of the Social Security Administration for this district says.

Some people who were not able to get any retirement or family insurance because there had not been enough work, are now eligible for payments. Applicants whose claims were previously denied should inquire again if the worker has at least six quarters of coverage.

Anyone who reached age 65 or died before 1958 now needs only a year and a half of social security work to be fully insured, according to Tate. A man who reaches age 65 or a woman who reaches 62 this year needs only ten quarters or about 2 1/2 years of work covered by social security to be eligible to receive retirement benefits.

Another new provision of the law permits a 62 year old man with 3 1/4 years of work credit to receive his retirement insurance.

Social Security credits were first earned in 1937, Tate explained. The calendar quarters of covered work need not be consecutive but can be earned at any time.

Anyone in this area who wants to know if he is now eligible for payments should get in touch with the Social Security Administration, 411 Federal building, Wichita Falls.

men are often the most simply dressed.

ACCESSORIES AROUND THE CLOCK, a bulletin written by extension clothing specialists, gives suggestions and ideas. Get a copy from your county home demonstration agents, 305 Federal Building.

Give your costume a "finished — complete look" by choosing a hat that will echo the lines of your new fall costume, suggests Thelma Wirges, County Home demonstration agent.

To cap a costume with the new flared hems, choose a hat with a brim that tilts, a deep cap or maybe a draped turban. The soft rounded curves of berets and bretons complement the lean, long lined clothes that are featured by some designers. Tall, narrowed toques, turbans and cloches complement the rounded capes, large collars and loose coats that are being shown.

There are fabulous materials to choose from in all price ranges.

Match your hat to basic materials or trimmings in your costume, suggests the agent. Or, if it's a simple, understated outfit, you may choose a contrasting color — a richer fabric — or both . . . like the frosting on the cake.

Shop for a hat when you are rested and have time to look, without a feeling of pressure or fatigue, suggests the agent. Walk back and forth in front of a full length mirror to get the full effect of the silhouette.

If you can't afford a new fall hat, give the old one a new look with careful brushing and cleaning, suggests Thelma Wirges.

Start by careful brushing. This may show up spots and stains that need special treatment.

Try using the sandpaper method first. With a piece of No. 0 sandpaper, begin at center top of crown and gently sand in the same direction around the crown, side crown and the brim.

If this fails, use naphtha or

other cleaning fluid. Dip a small brush, as nail brush, in the cleaning fluid, shake out excess liquid and brush hat until the soiled spots disappear. Remember to work outdoors when using cleaning fluids.

White or light colored felt hats may need special treatment. Saturate corn meal with naphtha or other cleaning fluid. Rub the mixture into the felt with a clean stiff brush. When fluid has evaporated, brush out the corn meal and air the hat before storing.

Mrs. Emil Flousche, Mrs. J. D. Cheney and Mrs. George Wyatt, members of the Wichita County Clothing Committee are working on plans for a grooming workshop to be held early in the new year. The workshop will include: Weight Control, Posture and exercise, Foundation Garments, Hair Style, Make-up as well as Clothing and Accessories.

SOIL CONSERVATION DISTRICT NEWS

OUR SOIL ★ OUR STRENGTH

"Deferred Grazing is one of the better methods for improving grass pastures in this area," states James Park, Soil Conservationist at Iowa Park.

Deferment of range during the period that the better native grasses make their maximum growth means profitable gains from beef production during the fall and winter. Pastures that are not deferred when needed, often result in heavy weed infestation and a weakening of the better grasses root system.

Most grassland in this area will profit more by deferment during the spring and summer months. This will allow for seed development and the re-establishment of a vigorous

root system. Park states that where conditions prevent deferring grassland during spring and summer due to water facilities, providing supplemental grazing of

Austrian winter peas and oats for winter and spring grazing and Sudangrass for summer grazing can assist much in giving the range grasses a boost in vigor.

The Jr. University Study Club was well entertained at their last meeting by Dr. Walter Charles. Director of the Wichita Falls Symphony Orchestra and the Blue Jeans Band which plays at Estes Park, Colorado, during the summer. Dr. Charles centered his interesting lecture on the practical aspects of music and its necessity to a peace-loving world.

Dr. Charles stated that music is next to God; that it creates love, not hate. He believes that if the world would take time to listen to and enjoy music, that there would be less hate in the world.

He also stressed the importance of fall-out shelters, and the importance of taking "your entertainment to the fall-out shelter." Games, books, etc., and above all, take your music, whether it be a guitar, horn, piano, or whatever you have, for music is relaxing, soothing the nerves, and your thought will be on more pleasant things."

Dr. Charles has taught and played in many symphony orchestras. One of which he remembers and enjoys the most was one in which Albert Einstein was also a musician. He said that not everyone knew that Einstein was also a great musician.

He announced that the Wichita Falls Symphony Orchestra will open its season on October 21st at the Municipal Auditorium, with guest artist Lucien Leinselder. The concert will be "Tchoikovsky Makes the Hit Parade." The Youth Concerts will begin November 17th at 4:30 p. m., and following each concert will be a dance provided for the youth of the area. Tickets are now on sale at the Hamilton Building, Phone 322-9267.
