Please consider the statements when you go to the polls April 3rd to elect members to serve on the Board of Commissioners.

Commissioners are electing governing body, to represent citizens. This government is charged with the duty of the "protection, general welfare, and interest" of ALL citizens of the city.

Regarding this responsibility, by its actions, future course of our decisions and actions will determine our government of tomorrow.

Responsibilities of the Commissioners are you should not take it. It's every action of the people. The duties, responsibilities, and sound reasoning, with the ability to effect the effect of it's on the future welfare of the city.

Why has the experience, and ability, our city and has a understanding of its people. He has lived in Burk Burnett—owns his own other property in the Board of Commissioners, looking for his type when they appoint to fill an unexpired has served well in city for over a year.

We us who personally Crowley know that given to hasty decisions a deep interest is that of representation of citizens.

Commissioner serves, sometimes the long and the "going" Crowley has concluded, to serve the citizens desire. He is doing a good City Council, and a person with his is needed in the our community.

you to show your approval for his services and for which he stands for him to serve you Board of Commissioners next term.

MENTAL HEALTH DRIVE HELD HERE MONDAY, MARCH 26th

Seventy-four Burk Burnett volunteer campaigners started seeking contributions to the mental health drive at 6 p. m. Monday, March 26th. The Mental Health Bell was the symbol of the Bell Ringer's March.

Commenting on objective of the association, Tom C. Foley, President of the Wichita Mental Health Association, said: "Only 15 or 20 years ago, there was not too much that could be done for the mentally ill. Today, medical science has a whole battery of treatment methods that can be used for different mental illnesses."

"Thousands of mental patients are being helped to recover. Now that science has made this partial breakthrough, it is up to us to help this breakthrough grow so that we can save not only thousands of victims, but hundreds of thousands and so that we can even start to work on prevention."

The Wichita Mental Health Association serves all residents of Wichita County and is a Chapter of the Texas Association for Mental Health, a division of the National Association for Mental Health.

At present the Wichita Mental Health Association serves Wichita County by:

- Operating an information and referral office which serves Wichita County citizens needing help with problems relating to juvenile delinquency, mental illness, alcoholism and other problems caused by emotional disturbance.
- Providing diagnostic evaluation for delinquent children on probation referred by the Wichita County Probation Department. This testing is done by qualified clinical psychologists and is paid for by WMHA.
- Spearheading the planning, operation and support of the North Texas Mental Health Center, the first regional mental health center in the State of Texas. This Center will provide diagnostic evaluation and consultative services for hundreds of Wichitans and their children.
- Volunteers of Wichita Mental Health Association were instrumental in:

- Obtaining administrative, volunteer, and financial help for this project from the Junior Service League of Wichita Falls.
- Obtaining a grant from the Hogg Foundation for Mental Health for this project.
- Obtaining the endorsement and financial support of the Wichita Falls School Board, the Wichita County Commissioners and the Wichita City Council for this project.
- Obtaining \$14,000 from the State Department of Health on a matching fund basis for this project.
- Making a survey of the mental health needs of this county, including a statistical study and recommendations based on the identification of priority mental services needed in our area.
- Making first contribution to Center project of \$1,000.00.
- The association is responsible for:

- Continuing education in mental health for the community—nurses, seminars, police seminars, career programs for high school students, panel discussions on alcoholism, programs for P-TA's, clubs, churches, etc.
- Giving two scholarships to high school students to encourage young people in mental health careers.
- Proposing an ex-patient club, devoted to adjustment of former patients to normal relationships in the community, as a future project of WMHA. Experts in the field of mental health agree that a community with an ex-patient club will do much to reduce the number of readmissions to mental hospitals. The ex-patients club program will serve as a much needed bridge from the hospital leading to a fuller and productive life in the regular community for the discharged patient.

GOOD NEWS

The current year promises "good news for family budgets."

That's the word of forecast that comes from the head of the National Association of Food Chains, based on a survey of food chain executives.

With virtually unanimity, these executives forecast that food prices will be stable during 1962. And food chain plans for the year call for even greater emphasis on friendly personnel and quality perishables.

The report also points out that "the real surprise for many people comes in the fact that a good many food items are actually lower-priced now than ten years ago." This is true according to the Bureau of Labor Statistics, of such widely consumed items as round steak, leg of lamb, coffee and eggs.

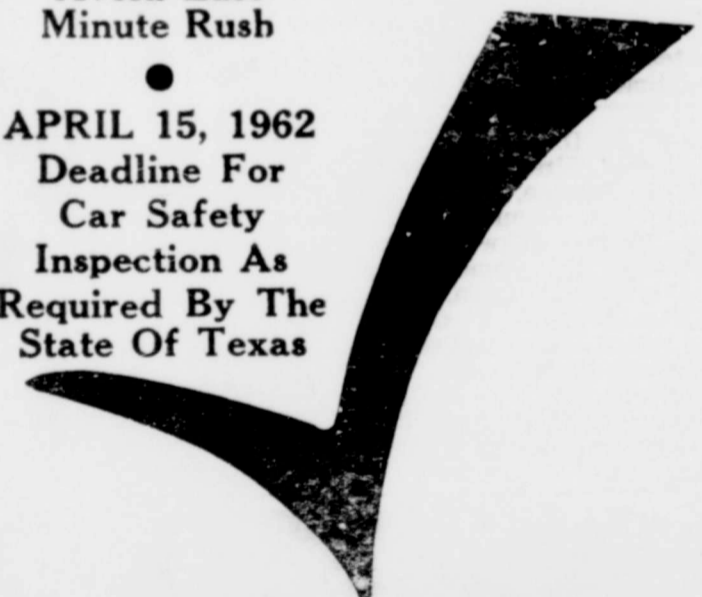

The profit picture should also be of interest to consumers—who often, for lack of authentic information, regard the merchant as something of a monster, who mulets them mercilessly in order to swell his bank account. The net profits earned by food chains range between one and 1.5 per cent on the sales dollar—which means that their total yearly profit on all the purchases made by an average family will run between \$16 and \$24. That family would never notice the difference if there were no profit at all.

What is true of the food business, is true, in varying degree, of all other forms of chain retailing. Profits are far lower than most of us realize. And every effort is given to holding prices down to the lowest levels that the conditions of the time permit.

WASHINGTON AND "SMALL BUSINESS"

By C. WILSON HARDER

Some segments of official Washington seem quite concerned as to the front put up all over the world. This could be a reason why there is so much interest in U.S. collaboration with the European Common Market.

At least this inference could be drawn from a recent speech by Eugene Braderman, director, Office of International Economic Programs, Bureau of International Programs, Department of Commerce, before convention of the Corset and Brassiere Association of America.

Mr. Braderman is all for cutting U.S. tariffs. He seems to feel the difference between U.S. and foreign wage scales is no serious consideration. He feels all such problems can be solved by "imaginative and enthusiastic selling."

As an example of "imaginative and enthusiastic selling," he stated that U.S. exports of bras and similar articles to Common Market nations increased from 18,500 dozen in 1956 to 88,400 dozen in 1961.

For an even more pointed example, he reported all exports of U.S. bras increased from 398,400 to 752,000 dozen.

This leads to interesting conjecture. Presumably, the U.S. is not exporting bras to Iron Curtain nations, and after deducting the amount shipped to Europe, there are still a lot.

This leads to speculation as to whether the U.S. government or National Federation of Independent Business

mental policy is now to teach Congo women to wear bras.

If so, this could perhaps account for the steady increase in federal employment. And perhaps, it could also explain in part why the men of the Congo have been so wild the past few months.

And while he seemed figure conscious in one direction, Mr. Braderman glibly reported the fact that while America was exporting 732 thousand of the items, 2 million, 350 thousand were imported.

Lest the idea grow that the U.S. has a corner on bureaucratic frivolity, it should be reported that while in solemn conclave in Brussels recently, the ministers of the Common Market appointed a committee to study bras. It was found the French product does not fit Dutch women, the Italian article does not fit French women, and German women cannot wear any from any other country. A spokesman reported it is essential to develop "an absolutely interchangeable bra."

It is not difficult to imagine a French bureaucrat in the Brussels meeting springing to his feet to cry out, "Alons, ma cheries, the Common Market must go forward with a common bra."

This column may seem ridiculous. It is. But it is factual. And perhaps better than anything else, it illustrates the fact that if Congress votes an alliance with the European Common Market, there is no phase of American life that will not be controlled, regulated, by U.S. bureaucrats working in concert with the bureaucrats of Europe. Bunker Hill and Valley Forge may yet prove out to have been in vain.

Grass Roots Opinion

BROOKVILLE, PA., JEFFERSONIAN DEMOCRAT: "In some kind of economy (?) drive the United States Post Office Department is clamping down in no uncertain terms on mailing technicalities that will affect practically every citizen in the country and cause them inconveniences and annoyances. But Mr. Khrushchev's Communist propaganda, by the millions of pounds, is still accepted and distributed free throughout the United States . . . and Mr. Kennedy says we shouldn't stop it . . . doing so might be an obstacle to the distribution of U. S. mail in the Soviet Union. My, oh, my."

FARMINGDALE, N. J., HOWELL BOOSTER: "The Communists tell the Russian people that America is the worst place in the world, that half of us are starving to death—in the very next breath they are bragging that in the next couple of years they will catch up with our standard of living."

Have Car Safety Inspected for '62 By April 15th

Less than thirty per cent of the registered vehicles in this area have been safety inspected for 1962, according to Patrolman Harlan Eades, Motor Vehicle Inspection Service of the Texas Department of Public Safety.

With the April 15 deadline, for having the vehicles checked, rapidly approaching, this means there are approximately 37,900 vehicles in Wichita County remaining to be inspected by the 53 approved inspection stations available.

Many motorists are going to find long lines awaiting them as the deadline draws nearer, due to the inspection stations not being able to cope with this large number.

The patrolman urged drivers to have their vehicles inspected as soon as possible to avoid this last minute rush. In addition, he reminded drivers that this time of the year is noted for adverse weather conditions which prevent the inspection stations from checking the vehicles.

"Passenger cars are inspected for brakes, lights, reflectors, horn and windshield wipers; while commercial vehicles are inspected for the above plus additional items required by law," Patrolman Eades said. "All motorists not displaying a valid 1962 inspection sticker by April 15 will be in violation of state law."

SAFETY RULES

Prepared and Sponsored By BURK STUDY CLUB

When turning left from a one way street onto a two way street a vehicle must pass to the right of the point in the two way street where the center line enters the intersection. (A driver will find it safer to make a 100 foot approach near the left curb for this turn. If he does not he might violate the right of way of other traffic when he cuts across a lane to his left.)

"This Is Exploring" At Town Hall Thursday, April 5th

"This Is Exploring" will be presented at the Town Hall on Thursday night, April 5th, at 7:30 p. m. in a program designed to revitalize explorer activities in Burkburnett. Exploring is a part of the Boy Scouts of America for high school students with program ideas and methods that are geared to the imagination of the individual boy. All of the boys of high school age and their parents are invited to attend and see what this dynamic program has to offer. Exploring can bring adventure, travel, expansion of education, social activities, and a view into the future through vocational programs.

"This Is Exploring" is a Technicolor motion picture that pre-

sents the program in a most beautiful and definite scope. This picture was made all over the United States, and tells the fine details of every aspect of the program. The results of this program should be the organization of new Explorer Posts in Burkburnett, with boys enjoying the opportunities it has to offer.

Our District Executive of the Boy Scouts of America will be present to present the film, and answer any questions concerning the program, possibilities of sponsorship, and make any plans necessary for organizing a new post.

Grace Stephenson, District VI Chaplain, gave the devotional, entitled, "Thou Shalt Love Thy Neighbor as Thyself." Welcoming address was given by Helen Miller, president of Epsilon Eta. Indian Springs At The Crossing

In 1824 the Huaco Indians made a treaty with Stephen F. Austin. But in 1837 the Comanche Indians drove the Huacos out.

A city then grew up near the site of the Indian village and took the name of Waco. Now Waco is one of the leading cities in Central Texas.

Site of the Indian village also was the site of the first crossing of the Brazos River. In 1917 the Daughters of the American Revolution reclaimed the Indian Spring at the village site and memorialized it.

This spring flows, near the west end of the old and renowned Suspension Bridge over the Brazos River, in Waco.

PRESTON SMITH
 LIEUTENANT
 GOVERNOR of Texas

- Working for Texas
- to simplify the general sales tax.

tion of the general sales tax; correcting the auto insurance merit plan; economical government without waste; correction of the inequities in Texas' women's rights; better schools; safe, efficient highways and farm-to-market roads; vigorous water and soil conservation projects; providing hunters and fishermen with an improved game and fish program; and better recreational facilities for our parks and lakes.

He is for small loan regulation and adequate care of the aged, the needy and the blind. Preston Smith is as sincere a man as ever ran for public office. He is confident that there is more than one way to put a business in the black. Also that there are many ways to provide necessary government services without raising taxes.

"I firmly believe that a strong program of progress designed to bring new industry, new tourists, new businesses, and new investments to Texas, will enable our state to grow soundly without increasing tax rates," Senator Smith has stated.

"If I am elected Lieutenant Governor," he added, "I will work hard to help build a program of progress whereby Texas can attract new industry, new tourists, and new income that will mean better jobs, and more jobs, for all Texans."

Backers of the candidate contend that his own career as a successful businessman for more than 25 years is evidence per se that he knows whereof he speaks.

Preston Smith was born in Williamson County, worked on his daddy's farm in Gaines County, and gained his early education in Dawson County.

He is a graduate of Texas Tech in Lubbock, where he has been in the theater business and an active civic worker since 1936.

He and his wife, Ima, have two children, Mickey, 20, and Jan, 16.

**THORNTON-LESTER VOWS
ARE EXCHANGED FRIDAY**

Miss Beverly Ann Lester, daughter of Mr. and Mrs. Robert Lester, 1805 Victory, Wichita Falls, became the bride of William Edward Thornton, son of Mr. and Mrs. Marion M. Thornton of Burkburnett, Friday night in a candlelight home service at 8 o'clock. Only close friends of the couple attended. Dr. James H. Landes, pastor of First Baptist Church, read the double-ring ceremony before an improvised altar. Two

white spiral candelabra holding cathedral tapers were placed on either side of the fireplace. The altar area was decorated with greenery, white gladioli and white stock.

Miss Judie Pemberton, organist, accompanied Miss Mary Lou Oden, soloist, and she played other traditional wedding music preceding and during the ceremony.

Given in marriage by her father, the bride wore an antique pure silk gown styled with a basque waist. The portrait neckline was outlined with Chantilly lace and the floor-length skirt was adorned with wide applique scalloped Chantilly lace. Her veil of nylon edged in imported Belgian lace was attached to a coronet of seed pearls. The bride wore lace gloves, a family heirloom belonging to her late grandmother. She carried a green throated orchid atop a white satin-covered Bible.

Matron of honor to the bride was Mrs. Dolores Rodgers. She wore a full skirted white chiffon dress. The skirt was accented at the hemline with red rosebuds. Her bouquet was of peppermint carnations and her headpiece was a small pill box with matching red veil.

Best man to the bridegroom was Ray Dean Shaw. Larry Armstrong was usher. Both attendants are from Burkburnett. Miss Janet Thornton, sister of the bridegroom, was flower girl.

Following the ceremony, a reception, hosted by the bride's parents, was held in the home. Table appointments were in silver and crystal. An epergne held peppermint pink carnations and white sweetheart roses and was flanked by cathedral tapers. Garlands of green-

ery surrounded the crystal punch bowl. A three-tiered wedding cake completed table appointments.

Mrs. Karlene Arnold and Miss Lola Greaves assisted the hosts with the reception.

The bride is a graduate of Wichita Falls High School where she was a member of Latin Club, Tri-Hi-Y, Girl's Club and YTeens. She held various offices in her homeroom and was presented as a debutante by the Senior-Junior Forum. She attended Midwestern University and is presently employed by the Lone Star Gas Co.

The bridegroom was graduated from Burkburnett High School where he was a member of Letterman's Club, Speech and Dramatic Club, co-captain of the BHS football team. He was runner-up for junior favorite and was voted Mr. Burkburnett in his senior year. He is employed with Fedway.

The couple will reside at 107 Broyles Street in Burkburnett.

COOK CLEAN THE FLAMELESS ELECTRIC WAY

WITH HEAT AS CLEAN AS ELECTRIC LIGHT

Most homemakers will admit they have a hard enough job cleaning the inside of cooking utensils. Scouring fuel grime from outer surfaces, too, just adds unnecessarily to kitchen chores. But clean, flameless, electric heat is free from by-products of combustion that smudge and soil utensils. Pots and pans, walls and curtains, and the range itself, stay cleaner. You'll be surprised how much time you'll save for other household activities when you cook the clean, flameless electric way. See your electric appliance dealer today.
