LIKED BY MANY - CUSSSED BY SOME - READ BY EVERYBODY

BURKBURNETT, WICHITA COUNTY, TEXAS, THURSDAY, JULY 19, 1962

NUMBER 45

Chamber of Commerce Luncheon Each FIRST MONDAY at Town Hall. Everybody Invited Each Pays for His Meal

After the 14th day in a hospital if you want any cards or flowers you have to buy and send them to yourself; and as for visitors they fade out completely.

## Accident Report

### Highway Patrol Investigates Traffic

Highway Patrol investigators reported that during the month of June there were 86 crashes in this area. The most serious was a two-car pile-up on Highway 101 near the intersection of Highway 102. The crash resulted in the death of a 45-year-old man and a 16-year-old girl. The driver of the car was identified as E. L. Stroud, Patrolman of this area.

Other accidents reported for the month of June were:

- Two cars collided on Highway 101 near the intersection of Highway 102. The driver of the car was identified as E. L. Stroud, Patrolman of this area.
- Two cars collided on Highway 101 near the intersection of Highway 102. The driver of the car was identified as E. L. Stroud, Patrolman of this area.

## Red Cross Swimming Classes to be Divided

Due to the large number of enrollments for the Red Cross Swimming Classes scheduled to start Monday, July 23rd, the classes will be divided as follows: Beginners and intermediates, ages 6 and 7, 10:00 a. m.; Beginners, advanced beginners and swimmers, age 8 and over, 11:00 a. m.

Parents must sign a card permitting their children to take the lessons and all arrangements must be made before Monday.

For any further information concerning the swimming instructions, contact Mr. and Mrs. McKinnis at the swimming pool.

## Day Family Held Family Reunion In Town Hall

The Day family held their first family reunion in several years Sunday, July 15th at the Town Hall in Burkburnett.

Dinner was served and the afternoon was spent visiting and taking pictures. Everyone enjoyed the day and plan on attending again in 1963.

All five of the late W. D. Days' children were present: Henry of San Antonio; Jim of Devol and Mrs. Annie Pannell, Devol; Bill of Burkburnett and Mrs. Nettie Woods of Burkburnett.

Other relatives attending were: Mr. and Mrs. Joe Beck of Bryson; Mr. and Mrs. J. W. Day and Cindy and Mr. and Mrs. Rafe Ferguson of Floydada; Mr. and Mrs. Charles Day and children, Abilene; Mr. and Mrs. Lee Day and Mr. and Mrs. Henry Day and children, San Antonio; Mrs. Bruce Day and children, Wichita Falls; Mrs. John Burton, Glendale, Arizona; Mrs. Buster Bowman and children, Grandfield; Mr. and Mrs. Bobbie Dunn and girls from Breckenridge; Mrs. Hugh Hall and girls, Dallas; Mr. and Mrs. Raymond Henry, Devol; Larry Elliott, Colorado Springs, Colorado.

Those from Burkburnett attending were Mr. and Mrs. Edd Elliott, Toni; Mr. and Mrs. Milbern Coleman, David and Lee; Mrs. Nin Elliott, Mrs. Rainey Wilkerson, Mr. and Mrs. J. W. Day, Mr. and Mrs. E. W. Hobbs and children; Mr. and Mrs. Tom Shaw and Ray Dean; Mr. and Mrs. William R. Pannell and son.

## Clara-Fairview Demonstration Club Formed July 17th

The ladies of the newly organized "Clara-Fairview Community" met July 17th at the E. J. Simons home for the purpose of forming the county's newest Demonstration Club, with Miss Wirges, county demonstration agent as chairman. Much interest was in evidence throughout the meeting.

The new club shall be known as the "Clara-Fairview Demonstration Club."

Officers elected were: President, Mrs. E. J. Simons; Vice President, Mrs. Ray Stimpson; Council Delegate, Mrs. Newt Crane; Secretary-Treasurer, Mrs. C. H. Adams.

Plans were formulated to sell Christmas cards and steel scour pads to get a treasury established, also to hold a bake sale August 4th in the vicinity of the Corner Drug Store.

The twelve new members were Mrs. Simons, Elmer Klinkerman, C. H. Adams, Roy Stimpson, Mary Blauer, Herbert Kiesling, Arnold Kiesling, Ed Gilner, James Leudke, Newt Crane, Duke Smith, A. C. Harris, Miss Wirges and one visitor, Mrs. Jan Pearcey of Andrews, Texas.

Delicious refreshments were served by the hostess, Mrs. Simons.

The next meeting will be in the home of Mrs. Newt Crane.

## Farm Bureau Queen Contest Scheduled Aug. 9th Iowa Park

The Wichita County Farm Bureau Queen Contest will be held August 9th in Iowa Park at 8 p. m. in the air-conditioned First Methodist Church Fellowship Hall, according to Carl Moeller, president.

To be eligible to participate the contestant must be a daughter or sister of a Farm Bureau member actively engaged in agricultural production and be between the ages of 16-22. Contestants are judged on appearance, poise and personality and are required to speak approximately one minute on some subject pertaining to Farm Bureau.

Farm Bureau looks forward to sponsoring the annual contest to recognize the farm and ranch girls of Wichita County. Miss Linda Baley of the Friberg-Cooper community was the 1961 queen and Miss Baley will be on hand to crown the new queen. Anyone desiring to enter may do so by calling the Farm Bureau in Iowa Park, 592-5151 or by stopping by the office at 105 North Wall in Iowa Park.

Earl Sargent, Farm Service Director of Station KWFT, will be the Master of Ceremonies. Mrs. Marlin Terrell is contest chairman and has selected as contest committee: Mrs. Carl Moeller, Electra; Mrs. S. D. Scherrf, Wichita Falls; Mrs. Imogene McLean, Burkburnett and Mrs. Terry Brogdon of Electra. The committee is planning an attractive queen contest and very entertaining program.

Refreshments will be served. The public is invited to attend this worthwhile project of the Wichita County Farm Bureau.

A penny will hide the biggest star in the universe if you hold it close enough to your eye.

## Burkburnett Woman Succumbs At 65

Mrs. F. M. Landes, 65, a resident of Burkburnett since 1940, died late Monday afternoon in a Wichita Falls hospital.

She was born August 10, 1876, in Clearfield, Iowa, and was a member of the Christian Church. She moved to Burkburnett from Grandfield, Okla.

Services were held at 2 p. m. Wednesday from the Owens & Brumley Funeral Home chapel. Burial was in the Burkburnett Cemetery.

Survivors include her husband, F. M. Landes of Burkburnett; three sons, Floyd and Harold Landes, both of Burkburnett, and Eugene Landes of Long Beach, California; two daughters, Mrs. Elsa Frances Emery of Oklahoma City and Mrs. Velma Ruth Evans of Gardnerville, California; nine grandchildren and 19 great-grandchildren.

## Louis Johnson Gives Fourth Gallon Of Blood

For donating four gallons of blood since 1948 to provide emergency transfusions for 32 patients, Louis Johnson was cited Monday by the Wichita Falls Record News and Times for his outstanding record of unselfish service to his fellowmen.

Johnson has been a resident of Burkburnett for 37 years and a Civil Service employe at Sheppard Air Force Base for 12 years, serving the last six years as a member of the base fire department.

He was presented an award of merit from Rhea Howard, editor and publisher of the Times and Record News, and named a four-gallon member of the Gallon Club by Dr. Joseph A. Davey, Chairman of the Red Cross blood program in Burkburnett.

A World War II Army veteran with service in the South Pacific, Johnson said he saw how blood saves lives and decided to give a pint whenever he could.

He and his wife, Frances, and their two-year-old daughter, Melva Renee, live at 609 E. First Street in Burkburnett. They attend the Church of God where Johnson serves as church clerk.

Johnson is a Red Cross authorized first aid instructor and has served on the Burkburnett Volunteer Fire Department for 16 years.

## CARD OF THANKS

We are sincerely grateful to friends and neighbors for their many acts of sympathy during our sad bereavement. Your thoughtfulness will always be remembered.

The Family of W. B. McNeill  
45-11C

## Surplus Items For Sale Sheppard AFB By Sealed Bids

Miscellaneous surplus items at Sheppard Air Force Base are being offered on a sealed bid sale by the United States government.

This property includes shirt finishing tables, commercial dishwashing machines, steam tables, vacuum cleaners, unit compressor, compressor mask and blower unit.

It may be inspected from now until August 6 from 8 a. m. to 3 p. m. Mondays through Fridays by contacting Pete W. Hogan, redistribution and marketing officer at Building 2135 at Sheppard.

The bids are to be mailed to the Fort Worth Defense Surplus Sales Office, Fort Worth General Depot, P. O. Box 6988, Fort Worth 15, Texas, where they will be opened at 10 a. m. August 7.

## Clara-Fairview Demonstration Club Formed July 17th

The ladies of the newly organized "Clara-Fairview Community" met July 17th at the E. J. Simons home for the purpose of forming the county's newest Demonstration Club, with Miss Wirges, county demonstration agent as chairman. Much interest was in evidence throughout the meeting.

The new club shall be known as the "Clara-Fairview Demonstration Club."

Officers elected were: President, Mrs. E. J. Simons; Vice President, Mrs. Ray Stimpson; Council Delegate, Mrs. Newt Crane; Secretary-Treasurer, Mrs. C. H. Adams.

Plans were formulated to sell Christmas cards and steel scour pads to get a treasury established, also to hold a bake sale August 4th in the vicinity of the Corner Drug Store.

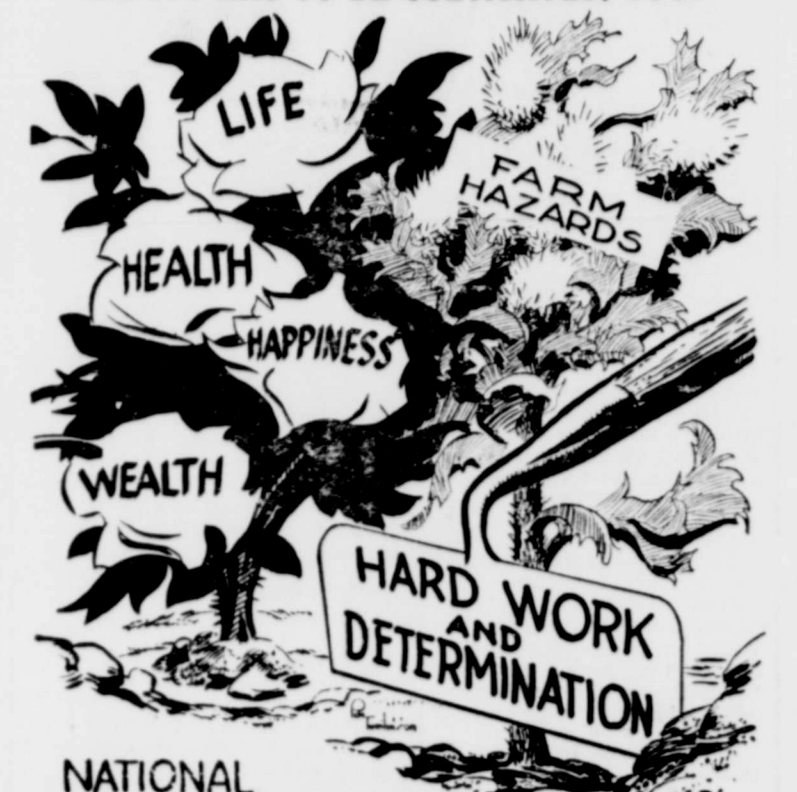

The twelve new members were Mrs. Simons, Elmer Klinkerman, C. H. Adams, Roy Stimpson, Mary Blauer, Herbert Kiesling, Arnold Kiesling, Ed Gilner, James Leudke, Newt Crane, Duke Smith, A. C. Harris, Miss Wirges and one visitor, Mrs. Jan Pearcey of Andrews, Texas.

Delicious refreshments were served by the hostess, Mrs. Simons.

The next meeting will be in the home of Mrs. Newt Crane.

## Farm Safety Week July 22-28

### SAFETY HAS TO BE CULTIVATED, TOO!

NATIONAL FARM SAFETY WEEK July 22-28, 1962

In order to be effective, Farm Safety Week—which will be observed July 22-28—must be more than a seven-day interval on the calendar. The special week has been designated to call attention to the menace of rural accidents which take many lives and cause much pain and loss of work time and money each year. It's true objective however, is to promote a year long observance of safety practices which would make farm life safer and happier.

Co-sponsored on the national level by the National Safety Council and the U. S. Department of Agriculture and on the state level by the Texas Farm and Ranch Safety Council, the Texas Farm Bureau and the Extension Service, the 19th annual Farm Safety Week has as its theme "Family Safety—at Work and Play." The Burkburnett Star is glad to be among the many newspapers helping in the campaign to draw attention to the need for the year 'round observance of safety practices on the farm and ranch.

Accidents in American farm homes take about 2,700 lives a year, according to the Texas Farm and Ranch Safety Council, and some 3,400 persons are killed each year doing farm work. This is in addition to the 4,700 farm residents who die on the highways in non-work accidents.

An extra measure of carefulness could prevent many of these tragedies. Proper observance of Farm Safety Week should make farmers and ranchers more alert to the hazards to which they are commonly exposed.

## Burkburnett Woman Succumbs At 65

Mrs. F. M. Landes, 65, a resident of Burkburnett since 1940, died late Monday afternoon in a Wichita Falls hospital.

She was born August 10, 1876, in Clearfield, Iowa, and was a member of the Christian Church. She moved to Burkburnett from Grandfield, Okla.

## Red Cross Swimming Lessons to Start July 23 at Burk Swim Pool

Another series of Red Cross Swim instructions has been scheduled to start Monday, July 23rd, 9:30 a. m., at the Burkburnett Swimming Pool. Parents will be required to sign a card permitting their children to take the lessons. There is no charge for the lessons but a small pool fee will be charged.

Mrs. Daisy Slager of Wichita Falls is in charge of all arrangements. All instructors are Red Cross trained and volunteer their time for this project.

For any further information concerning the swimming instructions, contact Mr. and Mrs. McKinnis at the Swimming Pool.

## Clara-Fairview Demonstration Club Formed July 17th

The ladies of the newly organized "Clara-Fairview Community" met July 17th at the E. J. Simons home for the purpose of forming the county's newest Demonstration Club, with Miss Wirges, county demonstration agent as chairman. Much interest was in evidence throughout the meeting.

## County Farm Bureau Sending 5 Students To Bureau Institute

Wichita County Farm Bureau will send five students to the 14th annual Texas Farm Bureau Institute July 24-27 at the Robert Driscoll Hotel in Corpus Christi, according to Carl Moeller, Wichita County, president.

Those who plan to attend from this county include: President and Mrs. Carl Moeller; Ed Foster, Jr., Director; B. T. Haws, County Agent; Mrs. Ruth Gard, Secretary.

"The statewide institute is held each year to provide training for county Farm Bureau leaders so that they can be more effective in fulfilling their responsibilities," President Moeller said. In addition to specific training for leadership in Farm Bureau, there will be general assembly sessions devoted to citizenship responsibilities and understanding of economics, the local leader explained.

Special assembly sessions will be conducted by Dr. Harry M. Love, Department of Economics, Virginia Polytechnic Institute, who will lead a discussion on "opportunity versus security;" and Dr. L. C. Kay, vice president for Public Services, Lubbock Christian College, who will speak on "Challenge of the Sixties," dealing with citizenship.

Guest instructors include Dr. Earl H. Knebel, head of Department of Agricultural Education, Texas A&M College; and Warren Newberry, American Farm Bureau Federation field representative. Other instructors include Texas Farm Bureau staff members and officers.

## Burkburnett Woman Succumbs At 65

Mrs. F. M. Landes, 65, a resident of Burkburnett since 1940, died late Monday afternoon in a Wichita Falls hospital.

She was born August 10, 1876, in Clearfield, Iowa, and was a member of the Christian Church. She moved to Burkburnett from Grandfield, Okla.

## First Christian Program For The Week Starting July 22nd

The First Christian Church, Burkburnett, Texas, Hugh E. Caffey, pastor, has announced the highlights of its program for the week beginning Sunday, July 22, 1962.

Sermon in the morning worship Sunday will be "God Is Love" (I John 4:7-12). Special feature of the service will be a child-blessing and parent-dedication emphasis for all parents and children of the church who desire to participate.

Immediately following worship at 12:00 noon the congregation will hold a business session. On the agenda will be the proposed budget for 1962-63, which will be explained, discussed, and voted upon. Presiding over the meeting will be Lewis Todd, president of the congregation.

All other services and activities regularly set for Sunday will meet as announced. Following evening worship at 8:00 p. m. the Christian Education will meet.

Highlight of the weekday program will be the meeting of the Christian Women's Fellowship at the church on Monday, July 23, at 8:00 p. m.

The firebox number at Independence Hall in Philadelphia is numbered 1776. . . . Between 50 and 75 open-heart operations are performed every day in U. S. hospitals. . . . The trading stamp mania is fast reaching epic proportions. About 40-million families are saving the stamps. . . .

More children are spoiled because parents won't spank grandma.

Every outstanding success is built on the ability to do better than enough.

"A big bankroll won't count when the roll is called up yonder."

## Burkburnett Woman Succumbs At 65

Mrs. F. M. Landes, 65, a resident of Burkburnett since 1940, died late Monday afternoon in a Wichita Falls hospital.

She was born August 10, 1876, in Clearfield, Iowa, and was a member of the Christian Church. She moved to Burkburnett from Grandfield, Okla.

Delicious refreshments were served by the hostess, Mrs. Simons.

The next meeting will be in the home of Mrs. Newt Crane.

## Gary Lynn Wood Led All Students At Texas University

Gary Lynn Wood of Burkburnett had the best Spring Semester scholastic record in the University of Texas College of Arts and Sciences.

He had all A's in 20 semester hours for 60 grade points. The normal course load is 15 semester hours.

College of Arts and Sciences Dean J. Alton Burdine made public the Spring Semester list of 567 honor students including:

**Summa Cum Laude**  
Gary Lynn Wood, Burkburnett.

**Cum Laude**  
James Royce Miller, Burkburnett.

## J. Harold Wolfe Reappointed Director Auto Dealers Ass'n.

J. Harold Wolfe of Burkburnett has been re-appointed an Associate Director of the Texas Automobile Dealers Association.

Announcement of the appointment has been made by TADA President Joe B. Kinsel of Beaumont.

TADA is a statewide organization with a membership of over 1,300 franchised new-car and truck dealers. Headquarters are located in Austin with H. C. Pittman as executive vice president.

"Principal purpose of our organization is to maintain a high plane of commercial integrity among those engaged in the new-car and truck business," Kinsel explained. "Our Associate Directors work closely with our Executive Committee and Board of Directors to provide maximum service and protection for the motoring public."

Wolfe served as an Associate Director during the association's past fiscal year. His present term will expire at TADA's next annual convention to be held in Austin next May.

## Night Trap Shoot At Burk Sports Club

There will be a night trap shoot at the Burk Sports Club Thursday night, July 19, beginning at 7:30 P. M. The Sports Club is one mile South of Boomtown Bowl on Bishop Road. The public is invited.

## Burk Woman Dies In Hospital

Mrs. Charles Begeman, 47-year-old Burkburnett resident, died Wednesday night in a Galveston, Texas hospital.

She was severely burned May 28 of this year after an explosion caused by lighting a lantern in the storm cellar near her home. Mrs. Begeman had gone into the cellar to seek protection from a threatening storm.

Mrs. Begeman was born October 19, 1914 and was a member of the First Baptist Church in Burkburnett.

Funeral services are pending under direction of the Burkburnett Owens & Brumley Funeral Home.

Survivors include her husband, Charles Begeman; and one daughter, Mrs. Donald Elliott, both of Burkburnett; her mother, Mrs. Mary Welch of Electra; one brother, Alton Welch of Phillips, Texas; and three sisters, Mrs. E. C. Armstrong of Corpus Christi, Texas; Mrs. Cecil Dodd of Holliday, Texas and Mrs. Henry Evans of Vernon, Texas.

## Open House July 15 In Honor of Mr. and Mrs. Geo. T. Roberts

The children of Mr. and Mrs. Geo. T. Roberts honored their parents with an open house from 2 to 5 p. m. Sunday, July 15th in honor of their Golden Wedding anniversary. For the occasion, Mrs. Roberts wore a black and white dress and had a corsage of gold mums.

A lace cloth over gold satin covered the serving table which was arranged with milk glass. A three tier wedding cake was used on the table. The centerpiece was a pair of gold high-top shoes surrounded with white daisies. Gold and white flowers were used throughout the house.

All of the children, grandchildren and great grandchildren of Mr. and Mrs. Roberts were in town for the party and attended church together Sunday morning at the Central Baptist Church.

Among the out-of-town guests were Mr. and Mrs. Morris who came from Pennsylvania for the event, Mr. and Mrs. Fred Berry from Fort Worth, who were married at the same time as Mr. and Mrs. Roberts in 1912. Other out-of-town guests included Mr. and Mrs. S. L. Hancock from Decatur; Mr. and Mrs. Dudley Kennedy, Frederick, Oklahoma; Mr. and Mrs. Rex Davis, Bellevue; Mrs. Colene Blackburn, Mr. and Mrs. Don Gamblin, Mr. and Mrs. Van Davis, Bellevue.

## Burk Chamber of Commerce Directors Meeting

A call meeting of the Burkburnett Chamber of Commerce Board of Directors was held recently in Town Hall. Attending the special meeting were Jack Mathis, chamber president; Claude Meadows, Jr., 1st vice president; Bill Donnell, 2nd vice president; Jerry Thomas, treasurer; Bill Vincent, J. C. Hinkle, Kenneth Gage, Alvin Hill, Marjorie Hofacket and Web Sharp.

The board approved that the Chamber of Commerce pay one year's interest on the deficit note to the First National Bank of Burkburnett and then apply the remaining proceeds of the Burkburnett Chamber of Commerce Rodeo Account toward the note deficit.

Another item on the agenda was the face-lifting of Burkburnett's billboards. President Jack Mathis stated that the billboards should either be improved or done away with. "A billboard sponsored by the Burkburnett Chamber of Commerce should be an attractive welcome to our city, not an eyesore," he said.

Mr. A. R. Hill discussed chamber membership pledges and the few delinquent accounts. Members of the board were assigned to contact the delinquent members. Mr. Hill emphasized that the Burkburnett Chamber of Commerce is run on a "pay as you go" basis. In order for the chamber to operate successfully it must have every member's full support.

## TO GOOD TO BELIEVE

"Glad to oblige," says the New York Daily News, America's largest newspaper, in reply to a reader who asked the editor to explain the proposed 24th Amendment which would put a stop to the waste of all the billions paid out by individual citizens in income tax-by outlawing this insidious tax. The News explains:

"The so-called Liberty Amendment has now been approved by six states — Georgia, Louisiana, Nevada, South Carolina, Texas, Wyoming—and if 28 more of the 50 states approve it, Congress will be legally obligated to call a constitutional convention for the purpose of submitting the proposed change to the state legislatures. Ratification by 3-4 or 38, of these, would nail the amendment into the Constitution.

"The Liberty Amendment requires that the U. S. government get out of competition with any kind of private enterprise. That no laws or treaties shall weaken the amendment—and that three years after the change's ratification the 16th (Federal Income Tax) Amendment shall stand repealed and the government shall cease to levy taxes on personal incomes, estates and or gifts.

"As anyone can see, this is a very drastic proposal. Whether it has a ghost of a chance of ever being adopted, we don't know. But it is being talked about more and more as time goes by and tax gouges take more and more money from the people for politicians to spend.

"In publicizing the Liberty Amendment, we consider that the News is performing a needed public service."

We applaud The News for its "public service" and would like to add that this is our dish, too, and we'd like to see a report on the Liberty Amendment published in every newspaper in America. Too many people still re-

## WASHINGTON AND "SMALL BUSINESS"

By C. WILSON HARDER

It would appear at times that people are crazier than monkeys. At least that would seem to be the feeling of Sen. Harry Byrd in reviewing the government's new spending plans.

The Senator noted that Congress is now being asked to appropriate \$1.2 billion dollars so studies can be carried on "the essential relationship of an infant monkey and his mother."

While in C. W. Harder, other times and other climes perhaps the Senator would take a lively interest in monkey number love, at the present he is concerned with the constant monkeying with the federal budget.

He says in eight months the federal debt limit has been raised \$7 billion up to the \$300 billion mark, and anticipates by June 30th, another \$8 billion boost would be requested.

"Unnecessary spending" he states, "is increasing. Non-military expenditures through the first seven months of the current fiscal year ran 10% higher than the previous year. While military expenditures during this period increased \$1.5 billion, non-military expenditures increased \$2.4 billion."

In the past 30 years, he states, the government has operated at a deficit in 24 of those years, with a deficit to be turned in at the end of this current fiscal year on June 30.

And from all indications, another deficit in the making for the coming year.

The rapidly worsening position of the federal financial picture is perhaps best given in the chronological report made by Senator Byrd.

He says that a year ago a \$1.5 billion surplus was estimated. On March 22nd, this estimate was revised to anticipate a deficit of \$2.1 billion, by May 25 the estimated deficit had grown to \$2.6 billion, by June 27 to \$3.7 billion, by July 25 to \$4.5 billion, by October 29 to \$7 billion, while the last treasury report shows a further slide to a deficit of \$9.4 billion.

"We have been the policemen and the Santa Claus for the free world for more than 15 years," the Senator says. "Recent figures show U.S. foreign aid has totaled more than \$100 billion and it is continuing."

He also points out that this \$300 billion debt, far larger than the debt existed at the end of the expensive World War II, does not tell the entire story as the government had untold billions in commitments both home and abroad.

He calls for an immediate end of all non-essential spending.

"It is possible," he says, for us to destroy ourselves from within. Nothing could serve Khrushchev better. Survival of free nations, including our own, depends on the financial soundness of this government."

Thus, in Sen. Byrd's viewpoint, million dollar studies of monkey family relationships can wait.

use to believe there is such a thing-or that it is slowly making progress in acceptance by the states. This fundamental tax reform will move a lot faster as soon as everyone who gripes about his return realizes that it can be done.

## GRASS ROOTS OPINION

ROSHOLT, S. D. REVIEW: "Anyone who served in the infantry can tell you how it was to do things 'by the number'. And you did it that way--or else. Big government is getting to be like that. Everything coming to the compulsory order. Your own initiative, your independence is slowly, but surely being taken over by the big boys who think it is best for you to do things their way 'by the number'."

## UNSEEN ELEMENTS

According to the Southern Pine Association, the real worth of a home depends on the health of unseen elements, the most important being the structural framework.

Visible house parts—the flooring, the roofing and the walls—are appendages of the framework whose quality largely determines their endurance.

Careful craftsmanship and good quality material both are essential in designing the framework. In most homes, it's built of lumber. The lumber should be strong, of a proper grade, and, above all, "pre-shrunk" by proper seasoning.

## Motor Wise FINA TIPS

## This Week's Ideas — for Sportsmen

A hot beverage tastes good on cold spring days, but who wants to carry the equipment to make it when we're going fishing? Here's an idea which makes it easy!

Get a half-pound tin of "Nestle's EverReady" Cocoa and wrap it in several squares of heavy duty aluminum foil which are folded once, all together. Carry this in your fishing jacket, along with a can of "Sterno Canned Heat". All this weighs less than a pound, and takes up very little room.

To make a hot drink along the stream or beside the lake, take a square of the foil and mold it around your fist to make a cup—or mold it around the can of "Sterno". Twist part of the excess foil into a handle, and crimp the rest down to make a secure rim for the cup.

Dip some water into the cup, and shake in a generous amount of the "EverReady" Cocoa. This kind contains sugar and whole milk, so nothing more is necessary. Support the foil cup over the "Sterno" on three or four small rocks. Light the "Sterno" and let the cocoa come to a boil. Now, sit back and enjoy this tasty and invigorating drink.

Chocolate and cocoa are valuable energy foods, as most sportsmen know. For really delicious chocolate, take along a "Nestle's Crunch" bar, because this kind contains added proteins in the form of crispy rice.

After your clock has spent a week in the shop, you tell the temperamental repairman you wish he'd hurry up, and he tells you to take the thing home, and asks why you bothered him with it in the first place.

IF IT'S FOR SALE ADVERTISE

## BURKBURNETT... HISTORY

Revealed By The Star Files 10 Years Ago...

Mr. and Mrs. R. P. Thaxton spent the week end recently in Mineral Wells visiting with her sister and family.

Interest in the local Amateur Rodeo is growing with each show. Last Thursday night nearly 1200 went out to the new Morgan Boom Town Stadium to watch the local yokels rassel with the wild critters from the prairies.

Booger Wood's Grandfield Harvesters are at present in the competition in the Texas-Oklahoma Baseball League.

While Mr. and Mrs. John Brookman were in California visiting their sons, they also visited with Mr. and Mrs. Bill Reasner, Mr. and Mrs. Wayne Lax, and Mr. and Mrs. Tex Maney.

Work of remodeling the Ben Franklin Store, which has been closed for several days is now complete with the reopening scheduled for Saturday, July 26.

BWC of the First Baptist Church met Tuesday night, July 15, in the home of Mrs. I. C. Evans. Mrs. Thaxton presided in the absence of Mrs. Alyene Frieleds.

Mr. and Mrs. E. E. Clack, who live just northwest of Burk en-

tertained last Friday night a barbecue supper at home. The occasion was celebration of the coming of the new black-top way leading to their farm.

On the program at the Club Tuesday night were Ann Elliott and Carolynment, both pupils of E. Butler.

Mr. and Mrs. C. K. Lund and children from Big National Park were at the home of Mr. and Mrs. E. Lundberg over the week end.

Mrs. J. H. Brumley and Mrs. Harold Van Loh went to Harlingen, Tex. to visit Mrs. Brumley's mother.

## Here's why a flameless ELECTRIC WATER HEATER gives you hotter water... faster

In a flameless, quick recovery electric water heater, two super-fast heating elements are in the water, inside the tank, rather than just one heat source outside the tank bottom. Element at top heats water at the point of draw-off. Element at bottom heats incoming water. Notice, too, that heavy insulation completely surrounds the tank, including the bottom. Heat is sealed in, and none is wasted up a flue, since an electric water heater is flameless and needs no flue or vent. That's why an electric water heater gives you the hot water you need for dishes, laundry and other uses... as fast as you need it. See both round and table top models at your dealer's soon!

## SAVE NOW... WITH TEXAS ELECTRIC'S \$50 INSTALLATION CERTIFICATE

Good for \$50 on the retail purchase and installation of a new electric 40-gallon (or larger) glass-lined, quick recovery water heater, replacing an existing water heater, in any home served by Texas Electric Service Company. This offer good only until August 31. See your appliance dealer, plumber or electrical contractor.

NEW LOW RATE FOR ELECTRIC WATER HEATING  
Only 1 1/4¢ per kilowatt-hour for all electricity normally used for water heating by the average family. Call our office for full information.

### Vows Sunday Afternoon Unite Miss Sims, Johnnie Lee Gratton

MRS. JOHNNIE LEE GRATTON

Sanctuary of the First Church of Gates, Texas was the setting for the wedding ceremony of Patricia Ann Sims and Johnnie Lee Gratton at 4 p. m. The double-ring rites were performed by Rev. R. Herman Waco, assisted by Rev. L. Turner Jr., church pastor.

The bride given in marriage by her father, wore a gown of hand-clipped, rose-patterned lace over white tulle. It was fashioned with a basque bodice and sabrina neckline. Seed pearls and iridescent sequins adorned the neckline of the fitted bodice. Her illusion veil was held by a crown of lace and pearls, and she carried white roses centered with apricot French carnations.

Her only jewelry was a diamond question-mark pendant, a gift of the bridegroom. Carrying out the bridal tradition of wearing something old, borrowed and blue, she wore a blue garter belonging to a friend, Mrs. Tom Post Thomson, and worn by Mrs. Thomson at her wedding.

Mrs. Thomson was matron of honor and Miss Charlotte Sanders of Center, Miss Patricia Miller Patterson of Arlington and Miss Nancy Brown were bridesmaids. They wore street-length sheath dresses in iridescent apricot fashioned with scooped neckline. They wore small pillbox hats with apricot veiling adorned with orange blossoms. They wore long white gloves, and each carried a long-

stemmed yellow rose. Jimmy Kent of Monahans was best man, and groomsmen were Sandy Poer of Monahans, Pat Higgins of Fort Worth and Richard Jones of Denton. Ushers were Tom P. Thomson, Buddy Mitchell, Bobby Kendrick and Terry Post.

The bride's brothers, Curtis O. Sims Jr. and James Leslie Sims, lighted the candles. For her daughter's wedding Mrs. Sims chose a beige chiffon dress with matching accessories. The mother of the bridegroom wore a blue French lace dress with matching accessories. Their corsages were of white carnations.

Mr. and Mrs. Sims were hosts for a reception in the fellowship hall of the church following the ceremony. The table, covered with white net over white satin, was centered with the bride's bouquet flanked by the tiered cake and the crystal punch bowl.

Members of the house party were Mrs. S. A. Powell, aunt of the bride, of Temple; Mrs. Lester Batterton, sister of the bridegroom, of Duncan, Okla.; Mrs. Freddy Kindrick of Denton; Miss Marguerite Leavell of Dallas; Miss Mabel Ann Brown and Mrs. John Fulton of Austin; Messrs. and Mesdames H. G. Huckabee, Edwin Bradford, Pat Holt, J. W. McDonald and Robert E. Ashby; Mesdames Gene Arnold, Fred Koch Jr., John T. Brown, Madge Patterson and Frank McCoy; and Misses Debra McCoy and Jann Bradford.

Miss Carolyn Stewart of Fort Worth presided at the guest registry.

For travelling, the bride chose a white sharkskin suit with apricot and white accessories and the apricot carnations from her bridal bouquet.

After a wedding trip to West Texas and New Mexico the couple will spend the summer in Burkburnett. This fall they will resume their studies at North Texas State University in Denton.

Out-of-town guests were Mr. and Mrs. William Lee Powell, Miss Pamela Wilson, Mrs. S. A. Powell and Miss Bess Chapman of Temple; Mr. and Mrs. James Everett and Mrs. Clyde Sims of Oglesby; Mrs. James Sims of McGregor; Mrs. Cynthia Bessey, Mike Howard, Mr. and Mrs. L. C. Hill, Mr. and Mrs. R. L. Powell, Mr. and Mrs. Frank Stockwell, Mrs. Arnold Geisler and Mr. and Mrs. Hal Stringer and Perry, all of Waco; Mr. and Mrs. Richard Ashby, Mr. and Mrs. G. C. Carr, Jimmie Molene and Kay, Miss Molly Walsh and Miss Marguerite Leavell, all of Dallas; Mrs. R. Herman Boyd of Waco.

Paul Dean of Fort Polk, La.; Lester Batterton and daughters of Duncan, Okla.; Mr. and Mrs. Weldon Price and Mr. and Mrs. Robert White of Monahans; Mrs. John Peery and Mrs. Bob Searls Jr., of Kerrville; Jimmy Green, Gilbert Hickman, Sandra Parker, Weldon Dackhner, Rice Ugarte, Betsy Uranson, Bob Gustavac, Art Langehlo and Freddy Kindrick, all of Denton; and Jan Casey of Arlington.

### Rehearsal Dinner Given By Simses

Mr. and Mrs. Curtis Sims were hosts at a rehearsal dinner for members of the Sims-Gratton wedding party in the fellowship hall of the First Methodist Church Saturday evening.

The banquet-style table, covered with a white linen cloth, was centered with an arrangement of pink gladioli with a bride-and-groom figurine under a tiny arch. Satin-covered boxes decorated with tiny corsages of wedding bells and roses and filled with rice marked the individual places.

The menu consisted of chicken baked in lemon-butter sauce, green beans with almonds, baked potatoes with cheese, beets cooked in orange sauce, pear salad, hot rolls, iced tea, orange sherbet and cookies.

Guests at the dinner were the bride and groom, Mr. and Mrs. John Gratton, Mrs. Lester Batterton, Rev. and Mrs. R. Herman Boyd, Rev. and Mrs. Frank L. Turner Jr., Bobby Kendrick, Terry Post, Mr. and Mrs. Tom P. Thomson, Buddy Mitchell, Curtis Sims Jr., James Sims, Nancy Brown, Patricia Patterson, Charlotte Sanders, Sandy Poer, Jimmie Kent, Richard Jones, Pat Higgins, Mrs. Turk Brown, Orpa Mayo, Marguerite Leavell, Mr. and Mrs. Richard Ashby and Jan Casey.

We were trying on hats and the salesman said this Vagabond number could be sat on, carried in a pocket, or shoved into a duffel bag. It would come out uncreased and would resume its present shape.

"Let's sit on it right now," we said.

"Let's not," he said.

### DEVOL NEWS

Mrs. C. O. Woodley, Reporter

The Devol Demonstrators met in the club rooms of the Community Building, Thursday at 2:00 p. m. for the regular meeting with Mrs. Dollie Hardin hostess. The afternoon was spent in finishing a quilt that had been worked on at a previous meeting.

Refreshments were served to seven members and one visitor. The next meeting will be the 4th Thursday in July.

Mr. and Mrs. Jim Eley and Mary Beth spent the week end in Altus with Mr. Eley's parents, Mr. and Mrs. W. D. Eley. Mr. and Mrs. A. C. Green of Greenville, Texas and Mrs. Max Jones of Petty, Texas visited their brother, Mr. and Mrs. C. O. Woodley Monday.

L. C. Taylor of Marshall, Texas was a Devol visitor Monday. Mr. and Mrs. Raymond Smart of Fort Cobb and Mr. and Mrs. R. A. Odom spent Sunday at Chickasha at the Odom family reunion.

Mr. and Mrs. K. L. Smith were visitors in Oklahoma City, several days last week.

Mr. and Mrs. Billy Mullins and two sons of Eastern, Oklahoma have been visiting her parents, Mr. and Mrs. A. J. Adams several days.

Mr. and Mrs. E. N. Miracle attended a Primitive Baptist Association convention at Loveland Thursday, Friday and Saturday of last week.

Barbara Huff of Ryan, Oklahoma is visiting her grand parents, Mr. and Mrs. E. N. Miracle this week.

Mrs. David Mulheren and children, Dee, Marilyn and Vanita of Lincroft, New Jersey, arrived by plane Sunday for a visit with her mother, Mrs.

Ethel McCasland and her brothers, Andy and Don and their families.

Word has been received here by Wes Davis of the serious illness of his brother Joe of Calera but formerly of Devol, who is in a Durant hospital at this time.

Mr. and Mrs. Joed Inman were Oklahoma City visitors several days last week.

Edd Morrow attended funeral services Sunday for an uncle, Mr. Burkhalter of Springtown, Texas.

Mrs. Jeweldene Weaver and daughter Joetta of Norman visited her parents, Mr. and Mrs. Guy Hutson over the week end. Mrs. Pierce and Mrs. Kremmel of Wichita Falls visited Mrs. J. W. Hale over the week end.

### Surprise Baby Show Held in Honor of Mrs. Marty Boren

A surprise baby shower was held in honor of Mrs. Marty Boren on July 12 at the home of Miss Mary Durham.

Refreshments were served to Cookie Morren, Janice Leitner, Kay Hicks, Sandy Goodwin, Ann Jennings, Pam Duke, Anita Sweet, Marilyn Reckard, Judy Aiken, Jean Todd, Marianne Campbell, Carol Stoneman, Sue Parsons, Toni Wood, Melinda Stitt, Mary Stitt, Marty Jewell, Jeannine Seaburg and Pat McAdams.

Hostesses for the shower were Mary Durham, Jan England, Ramona Bridges, Pat Mills, Marilyn Vaughan, Marianne Campbell, and Linda Lokey.

Gifts were also sent by Francis Mills, Sharon Nix, Pat Dulin, Sue Dempsey and Karan Burton who were unable to attend.

### Mrs. J. B. Morris Hostess July 2 To Wesleyan Guild

The Wesleyan Service Guild met in the home of Mrs. J. B. Morris on July 2, 1962. Mrs. Jean Craft, president, called the meeting to order. Mrs. O. M. Kelley read the minutes from the previous meeting. Mrs. Lucille Duvall gave the financial report. Each committee chairman reported on her month's activities.

Mrs. Joy Pirtle urged all the Guild members to attend the Wednesday evening Bible study being conducted by the local Methodist Church. Mrs. Melton read a letter received from Charles and Helen Clay in Santa Paula, Brazil. The letter gave an overview of their missionary activities in Brazil.

Mrs. Craft announced she was making plans to attend the school of missions to be held at SMU in Dallas on July 14-15.

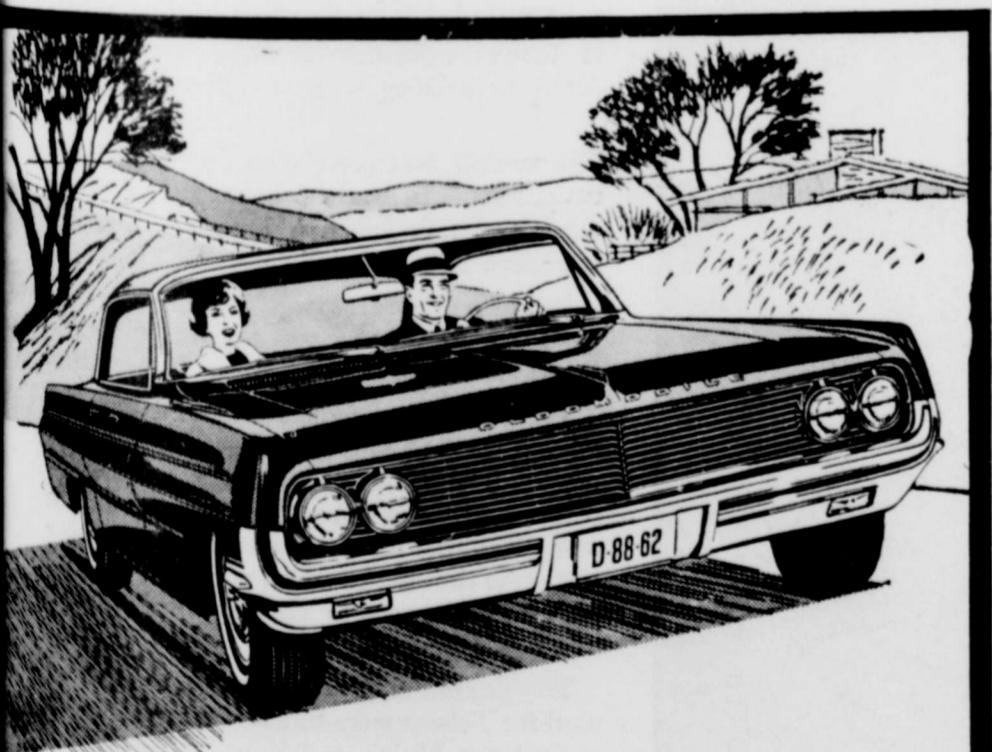

Miss Lou Ann Grady was in charge of the program. She introduced Mrs. Paul Grady from Midwestern University who discussed the Church of Today's Student.

The hostess, Mrs. Morris, served delicious refreshments to three guests, Mesdames Paul Grady, A. R. Bunstine and Jennie Williams and members, Miss Lou Ann Grady, Mesdames O. E. Melton, H. R. Hayes, Lucille Duvall, Leslie Craft, James Brady, Jr., J. D. Majors, L. H. Edwards, Leslie Tuel, Homer Gilbert, Jim Pirtle, Earl Martin, Charles Kirsh, O. M. Kelley and Glen Schroeder.

The group adjourned with an invitation to meet at seven o'clock August 7th at the home of Mrs. Homer Gilbert for the annual outdoor evening picnic.

**SATELLITE TALK**—Telstar, the Bell Telephone System's first communications satellite, is now orbiting the earth at 16,000 miles per hour. White lines show how signals for phone calls, live television and other communications are sent from a ground station to the satellite and retransmitted to another earth station. Electronic gear on Telstar boosts signals 10 billion times for their return trip to earth. Telstar tests will help pave the way for a worldwide satellite communications system.

### Phone Satellite Sending Signals

A small satellite hundreds of miles in outer space is sending signals to earth in tests that will lead to better communication services for Burkburnett residents.

The satellite, Telstar, is the Bell Telephone System's pioneer in the new frontier of space communications. Telstar tests will help pave the way for a world-wide satellite communications network to send overseas phone calls, live television and other signals. The satellites will receive and retransmit signals, much as overland microwave systems do in today's long distance calling.

Telstar was successfully launched from Cape Canaveral by the National Aeronautics and Space Administration which is cooperating with the Bell System in the experiments. The Bell System will repay NASA for the Telstar launching costs, about \$3 million.

Burkburnett television viewers will have opportunity to see Telstar's work first hand in a series of live telecasts planned between this country and Europe. Television signals will be sent from ground stations in England and France to Telstar and retransmitted to the Bell System's ground station at Andover, Maine. American programs also will be sent to Europe via Telstar.

Live overseas telecasts have not been possible up to now because ocean cable and radio systems in use don't have the transmission capacity for the signals.

Major experiments involve sending signals from the main ground station to another Bell

### Linda Baley, Thomas Christopher Plan Sept. Wedding

Mr. and Mrs. G. O. Baley of the Friberg-Cooper Community announce the engagement of their daughter, Linda, to Thomas E. Christopher, son of Mr. and Mrs. A. J. Christopher of El Paso.

The double ring wedding ceremony will be performed by Bro. Charles Brashear at the Cashion Baptist Church on Saturday, September 1st.

The bride-elect is a 1961 graduate of Burkburnett High School and was chosen as Wichita County Farm Bureau Queen for 1961-62 at the county elimination contest in August. She is employed by Drs. Morrison and Boardman, D.D.S. in Burkburnett.

Thomas is a 1958 graduate of Ysleta High School of El Paso. He is presently serving in the USAF stationed at Sheppard Air Force Base. He plans to enroll at Midwestern for the fall semester.

### Enter Dress Revue

The five girls in the first year 4-H sewing group entered the Wichita County Dress Revue held July 13, 1962. All received blue ribbons on their gathered skirts. Jerilynn Savage and Marian Bentley received nice awards in addition to their ribbons. Those entering the Revue were Jerilynn Savage, Marian Bentley, Vicki Endres, Sue Schuman and Donna Schuman.

Station at Holmdel, New Jersey, via the satellite. Telephone calls, video tape signals, facsimile news photographs and high-speed data signals are being transmitted in these tests.

In addition to communications transmission, Telstar gathers technical information on outer space as it orbits the earth at altitudes up to 3,500 miles. These findings will be shared with scientists throughout the world to help advance the peaceful use of space.

Built by Bell Telephone Laboratories, Telstar is a 170-pound satellite, just under three feet in diameter. It carries more than 10,000 electronic parts and this gear amplifies signals 10 billion times for their return trip to earth.

A number of Bell Laboratories inventions, including the transistor and solar battery, are essential to Telstar's operation. The small transistors make possible the satellite's complex circuitry. Telstar is lined with 3,600 solar battery cells that convert sunlight into electricity for the satellite's power supply.

Mexico City is the oldest city in North America... A double edged knife is an Argentine gaucho's only eating utensil. The cowboy holds meat in one hand, seizes a mouthful in his teeth, and cuts upward with a deft sweep.

### Federated Missionary Society Met in Home Of Mrs. Gilbert

Federated Missionary Society met in the Homer Gilbert home with Mrs. Ben Turner, co-hostess. Mrs. Earl Van Deren, vice president, opened the meeting. "Sweet Hour of Prayer" was the opening song.

Mrs. Van Deren led the prayer. The secretary called roll and Scripture Verses were given. A card was sent to our President who is ill. Mrs. D. M. Morris.

Flowers were sent to Mrs. Neal Hall who is ill at this time.

Mrs. R. Kent brought a beautiful devotional Psalms 135-138. She quoted, we do not read our Bible as Christ would like for us in these busy times. She brought some wonderful memories down through the years that Mrs. Buchanan had brought to her, and what a blessing she had been to the church.

Mrs. Carswell had charge of the program and told the story, "Much Oblige Lord." Can you love God without gratitude? Can you love any one without gratitude. Is it not the golden key that unlocks the fuller possibilities of health and happiness Living as we do in this land of unbelievable plenty where our hands are almost always fuller than our hearts. We need training in the oldest of the great arts, that of being grateful.

This story of a colored nurse of Fulton Oursler author, "The Greatest Story." The old nurse said: "Much Oblige Lord for My Vittles." "But you get your vittles whether you thanked the Lord or not." She answered, "Sure, but it makes everything taste better to be thankful."

Thanks to these ladies for this good program. Closing prayer by Mrs. Buchanan.

A refreshment plate was served to Miss Miller from Charlotte, North Carolina and members Mrs. Kent, Van Deren, Gage, Buchanan, Carswell, Miller, Jones, Bunstine, Gilbert and Turner.

### Archery Club

Our target range is now located in town—at the old "Go-cart" track behind Wolfe Ford. Work is now underway on our targets and the range in general.

Plans are in the offing for an Open Invitational, Chicago Round Tournament, to be held on our range August 18th. These invitationals attract some of the best archers in Northern Texas and Southern Oklahoma, and we always extend a cordial invitation to the public to join us. There's no charge to watch, so if you're interested in archery, or just looking for something "different" to do on a Saturday afternoon, come on out. We guarantee you'll see some of the finest shooting in this part of the country—and meet some of the finest sportsmen—and women—in the world.

Many people don't realize that archery is a sport for the whole family. Some of our members learned to shoot a bow before they were old enough to attend school, and many of the best archers you'll ever find are teenagers. Our own Janice Lindsay—who will soon be 16—is the proud possessor of more trophies than any of our other club members!

Our next meeting will be held Thursday night, July 26th, at 7:30, at our range. For further information, call Mary Helen Littlefield at 569-3765, or Jim Lindsay at 322-7138. Hope to see you at our next meeting.

Sandi West, Reporter

### M. E. TALIAFERRO MARRIES MISS SADIE BETH TEVIS

Miss Sadie Beth Tevis, daughter of Robert C. Tevis and the late Mrs. Tevis, and Marvin Everett Taliaferro, son of Mr. and Mrs. John G. Taliaferro of Pleasanton, Texas, exchanged wedding vows Saturday afternoon July 14, at 3:00 p. m. in the First Christian Church here.

Officiant for the double-ring service was Dr. Travis White of Wichita Falls, president of Midwestern University and ordained minister in the Christian (Disciplines of Christ) Church.

The altar space was centered with a silver urn containing white gladioli and stock flanked by candelabra holding tall white tapers entwined with greenery and featuring garlands of white carnations. The lower altar space was arranged with matching white candelabra.

Mrs. Travis White of Wichita Falls, organist, and Mrs. James H. Harwell of Paris, vocal soloist, presented a program of pre-nuptial music.

The bride, given in marriage by her father, wore a dress of white organza over taffeta featuring a fitted bodice with portrait neckline and cap sleeves. The street-length sheath skirt was softly gathered at the waistline to a smoothly fitted cummerbund. From a large pouf bow at the waistline, streamers extended to the hemline. Her veil was of shoulder-length illusion and was attached to a pearl-trimmed tiara. She carried an antique lace-covered ivory fan, a family heirloom, arranged with gardenias and stephanotis.

Mrs. L. G. Shiplet, San Antonio, was her cousin's matron of honor, and wore a dress of pink taffeta styled with a scoop neck and bertha collar, short sleeves and bouffant skirt. She wore a Dior bow in matching color in her hair. Her bouquet was a fan-shaped arrangement of pink carnations. Miss Ellen Zeigler, cousin of the bride, was maid of honor and was attired identically to Mrs. Shiplet.

Wayne E. Taliaferro, brother of the bridegroom of Fort Knox, Kentucky, was best man. Ushers and candlelighters were Billy Zeigler of Seminole, James H. Harwell of Paris, and L. G. Shiplet of San Antonio. Audy Cox of

Seminole was groomsmen.

The bride's father, assisted by the bride's aunt, Mrs. Joseph Keevil of Longview, was host for a reception following the wedding in the Tevis home. Miss Susanne Zeigler registered guests. Reception assistants were Mmes. John T. Tevis of Wichita Falls, Kathryn Nevin of Shreveport, Louisiana, W. E. Cox of Seminole and Garland Johnston of Vernon and Misses Laura Louise Tevis of Burkburnett, the bride's sister, and Susanne Zeigler, Seminole.

The refreshment table was covered with a pink, taffeta-lined net cloth centered with an heirloom rose Venetian glass bowl in a tall silver stand. The bowl contained an arrangement of pink and white pompons and gypsophalia. The guest registry table featured a fan-shaped arrangement of pink carnations.

After a wedding trip to points of interest in New Mexico, the couple will be at home at 307 N. Ave. E. in Burkburnett.

The bride, a graduate of Burkburnett High School, received her B.A. degree in art from Texas Christian University. She studied Camp Fire Girls executive training at Tex-

as Women's University, was employed in the Southwestern Bell Telephone Co. office in Burkburnett, taught in the Burkburnett elementary school and was a professional Camp Fire executive in the North Texas area for several years. She is a member of the Burkburnett Garden Club.

The bridegroom is a graduate of Kilgore High School and a former manager of the G. F. Wacker Stores in Gladewater and Seminole. He is now manager of the G. F. Wacker Store in Parker Plaza in Burkburnett.

Pre-nuptial entertainments honoring the couple included a buffet dinner in the home of Mrs. John Tevis, 1212 Monroe, Wichita Falls, following the wedding rehearsal Friday night. Mrs. Tevis was assisted by her daughter Mrs. L. G. Shiplet. Pink and white pompons with greenery decorated the tables.

Many widows, after a few months of discreet black, lunge into red hats and red shoes—either as a revolt against gloom or a not-to-subtle indication that they are again on the open-market.

Am I the only person who detests love ballads, record after record, on radio?

### IRMA NED RILEY NAMED TO DEAN'S HONOR LIST

Miss Irma Ned Riley of Burkburnett has been named to Dean's Honor List for spring, 1962 semester in Christian University's College of Arts and Sciences.

The list consists of the students ranked in the upper per cent of the majorets in respective schools.

One hundred eighty-eight students were named to the lists from the university's College of Arts and Sciences, School of Business, School of Education, Harris College of Nursing and School of Arts.

### AWARDED GRANT-IN-AID

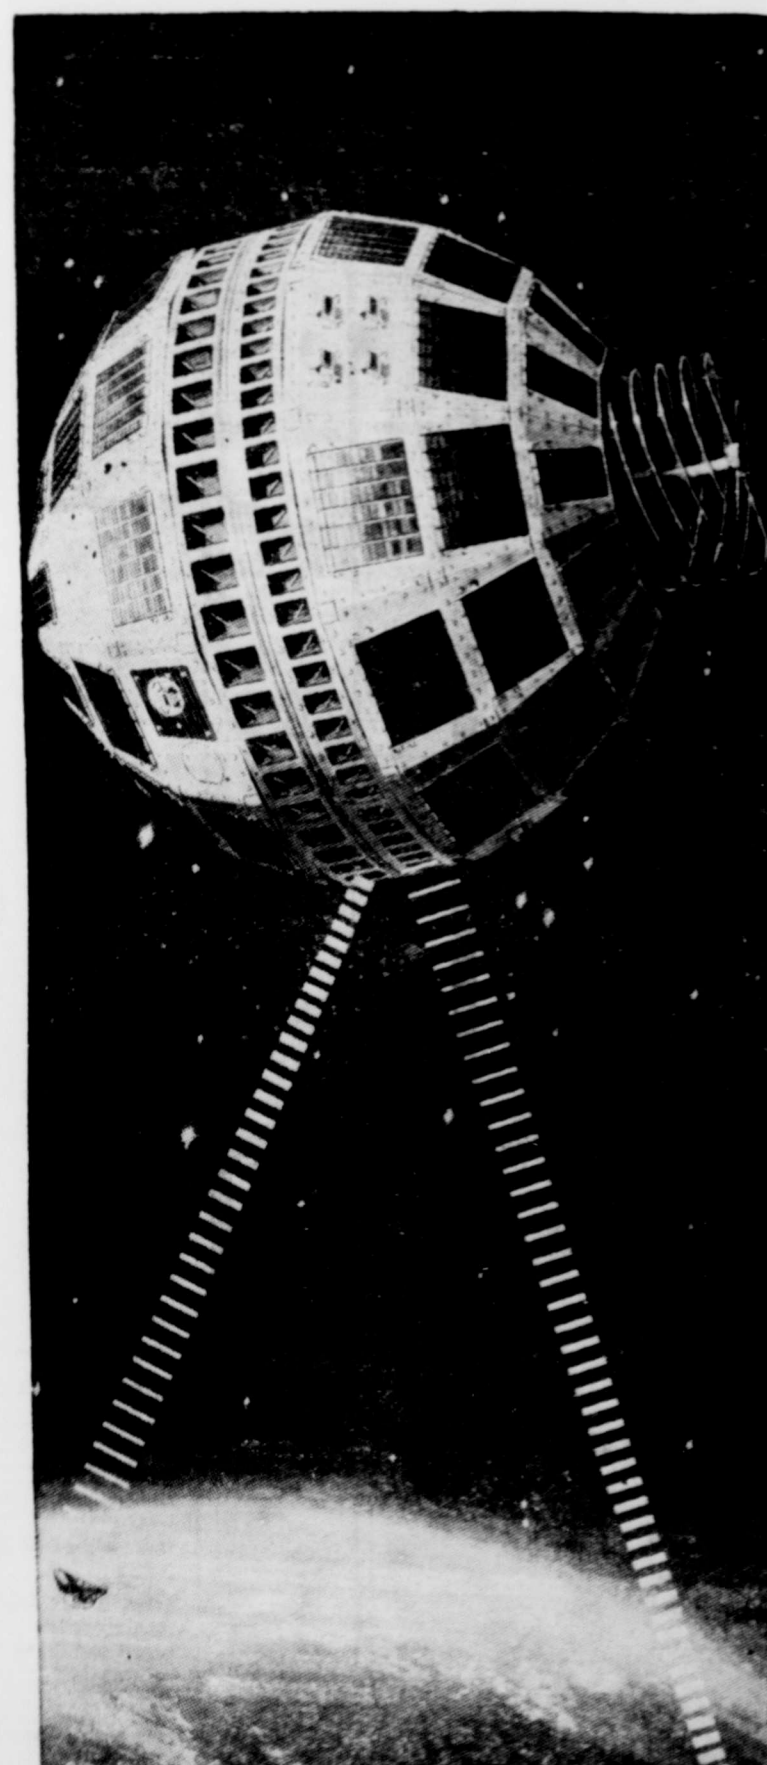

Miss Judith Elaine Neff, daughter of Lt. Col. and Mrs. Thomas L. Murphy, 108 W. Sheppard Air Force Base, has been awarded a Lulu Haywood grant-in-aid for study at Christian University for 1962-63 school year.

This scholarship fund established by a bequest of Miss Lulu Haywood is in honor of her parents' sisters.

Miss Murphy is a graduate of Burkburnett School.

## New "TELSTAR" relays phone calls and TV pictures for first time!

Bell System microwave-in-sky satellite is latest communications triumph for America arising from telephone research

The world's first private enterprise communications satellite is now being used for dramatic experiments in relaying telephone calls and television internationally.

Its name: Telstar. It was launched from Cape Canaveral at Bell System expense by the National Aeronautics and Space Administration.

Telstar receives signals beamed to it from a ground station, amplifies them and transmits them to another station on the ground below—perhaps an ocean away from the first one. The new satellite thus acts as a microwave relay station in the sky, enabling voices, TV pictures and data messages to leap thousands of miles in a new and exciting way.

The ground stations in the U.S. now being used for Telstar were built by the Bell System at Andover, Maine, and Holmdel, New Jersey.

Telstar is a first major experimental step toward a worldwide satellite communications system that was first proposed as a practical venture at Bell Telephone Laboratories. Progress toward such a system would not have reached its present state without continuing research and development by the private communications industry.

Above all else, Telstar is the latest achievement in an unending Bell System quest—the search for ways to make your telephone service still better, more economical, and more useful.

### TETANUS

WHAT IS IT?  
Tetanus is an acute systemic infection due to any one of the members of the genus Clostridium. Some of its common names are Well's disease, lockjaw, swineherd fever, swineherd dip, fever, or hemorrhagic fever, or hemorrhagic fever.

Reservoir  
Common reservoirs or sources of infection in Texas are cattle, swine, rats, and some of the rodents. The germ is excreted in the urine of infected animals. Sometimes it is found in the milk of infected cows from mastitis. It is a thick yellow milk curd that remains soft.

How Man Is Infected  
The incubation period in man—the time from infection until symptoms of illness develop—varies from four to 19 days, the average being about ten days. Commonly man exhibits severe malaise or discomfort, fever and chills, muscular aches, headaches and vomiting. Sometimes jaundice, hemolytic anemia, or hemorrhage of skin and muscle membranes are present. The disease is often misdiagnosed because the symptoms resemble brucellosis and influenza. Ill persons who know that their animals have leptospirosis should acquaint their family doctor of the fact.

### LEPTOSPIROSIS

Prevention  
1. Do not swim in contaminated waters.  
2. Where possible, wear protective rubber gloves and boots when exposed to infected animals.

### 50 Years of Thrift

GIRL SCOUTS OF THE U. S. A.

Since 1912, over 18,000,000 Girl Scouts have learned the value of thrift. And vast numbers of them are bank savers: They have learned, too, that the bank is the saver's best friend. We will welcome you as a saver at our bank!

### When Crickets Begin to Die

Hot weather often takes the life out of live crickets. Whip this dilemma by once in a while dipping the sack or bucket over the side of the boat for a moment. Drain off the water, and you will find the crickets take on new life.

### More Mileage From Ice Chest

To keep your ice chest cold much longer, in camp or boat, slice a hunk of dry ice about two inches thick to fit the bottom of the chest. Wrap the dry ice in tough paper, put it in the bottom of the chest and cover it with a couple inches of cracked ice.

### \$160,000 For Lubricants

To keep machinery operating smoothly at the plant of the Huntington Alloy Product Division of The International Nickel Company, Inc., in West Virginia, about \$160,000 is spent annually for lubricants.

### The Weekly Handyman

THOR RESEARCH CENTER FOR BETTER FARM LIVING

"Can you give me a list of rules to follow for the best care of mower cutter bars?" writes a farm reader. We might point out, to begin, that you can expect troublesome side draft, increased loads, and generally poor work output when the mower knives become dull and ledger plates worn. These things will indicate when it's time to get to work on the cutter bars.

FarmTool is helpful instrument in mower maintenance. Keep rivets well tightened and replace ledger plates when serrations have worn smooth. If knife sections are broken or so badly worn that they cannot be ground to the proper angle, replace them.

You'll find that a portable electric grinder or an electric FarmTool with grinding attachment does a really good job in grinding worn knife sections. The trick is to grind these knife sections to the same cutting angle as on the new sections. Guards that have been dented by rocks should be ground smooth to the original point. If the point is broken off, replace the guard. The guards should be properly set and aligned. Each must be tight on the bar and adjusted to make each ledger plate provide shearing contact with the corresponding knife section.

(Address your do-it-yourself problems or questions to Thor Research Center, Aurora, Ill. They will be answered by mail or in this column.)

### 'Visualizer' Kit Helps to Plan Future Rooms

A new do-it-yourself room planning kit that lets families see what their rooms will look like before they build or remodel a house is being made available by a group of wood-work manufacturers.

The "visualizer" kit is designed to permit arrangements of furniture, appliances, windows, doors, and other components on drawn-to-scale floor and wall grids. It contains scale cutouts of typical furniture used in all rooms of the house, including kitchen appliances and cabinets. Also in the kit are scale drawings of virtually every stock wood window available, plus panel doors, louver doors, fireplace mantels, and corner cupboards.

With the kit, families can plan every room in the house according to the size, shape, and traffic pattern best suited for their needs. This helps eliminate many of the causes of dissatisfaction with new and remodeled homes: rooms that are too small or too dark and such things as badly-placed windows and doors that interfere with furniture placement.

The kit may be obtained by sending 25¢ in coin to the Porosera Pine Association, 39 S. LaSalle St., Chicago, Ill.

### Vacuum Your Dog

When your dog comes in from the field his coat is apt to be a mess of leaves and trash. Don't bother to comb these out. Run your vacuum cleaner over him a time or two and he'll be clean and glossy once more.

### Before and After Shots of Hail Damaged Chevrolet

Above left is shown a 4-Door Chevrolet Sedan damaged in a hail and wind storm Saturday night, May 26th. At the time of the storm the car was on Mathis Chevrolet Company's sales lot at the Y East of town. Besides the damage caused by hen egg size hail, the car was crushed by a four inch steel pipe which crushed the top down against the steering wheel. The pipe supported a five foot circular sign which weighs two to three hundred pounds. The picture at right shows the car after it was repaired in Mathis Chevrolet paint and body shop by Merrill Taylor in charge of this department of the Chevrolet Company.

**STATE CAPITAL**  
**Highlights**  
 AND **Sidelights**  
 by Vern Sanford  
 TEXAS PRESS ASSOCIATION

**Austin, Texas**—U. S. Supreme Court's decision that federal courts have power to review acts of state legislatures in reapportionment representation was met with an uproar from many states.

"Reapportionment" is the business of redistricting a state to determine the number of legislators according to an area's population. National and state constitutions both provide for re-examination of representation in legislative assemblies every ten years.

An area frequently gains or loses representatives to the state house. This happened in Texas recently, when a 1961 redistricting act by the legislature took effect.

Working under a constitutional amendment adopted in 1963, limiting cities to one representative for every 700,000 inhabitants, Texas, representative districts got a pretty thorough going over.

The 31-member senate body was not generally effected by the reapportionment, however, since the law states that the senate "shall never be increased and no single county shall be entitled to more than one senator."

What the U. S. Supreme Court would hold about such a condition, in view of a congressional provision for two U. S. senators from each state, regardless of population, won't be known unless the question is put to it's nine justices.

There is some reason to believe, however, that the higher court would look with disfavor on this State's constitutional provision limiting House representation to one member for every 100,000 inhabitants after a county attains a population of more than 700,000.

In the event citizens dissatisfied with the situation in Texas

ever go to court for a reshuffling, they'll be armed with the information that 11 urban counties have a little more than half of Texas' 9,579,677 inhabitants and more than a third of the 150 members of the House of Representatives.

**Hope for Trapped Fish**—An "escape route" for thousands of fish which risk death daily in a shallow pool off Padre Island is planned by the State Game and Fish Commission, which estimates that tons of game fish have died in a nine-mile hole north of Port Mansfield over the last ten years.

Howard Lee, the commission's director of field operations, said red fish and trout swim into the shallow pool in the course of their north-to-south migration, "and don't recognize the fact that there's only one way out."

As the temperature increases in late spring and summer, the water level drops. Fish then are caught in a dry water pool created by drifting sands and are trapped there until death releases them as food for birds and other scavengers in the area.

Dredging of a six-foot deep, 50-foot wide channel running 4,000 feet through Laguna Madre into the Intracoastal Canal is expected to put a stop to the waste of fish and make them available for "harvest"—a Game and Fish Commission euphemism for fishing.

Up to now, fishermen have been unable to get to them in the pool trap without trudging through long distances of mud and sand.

**Permian Basin College Urged**—A "Citizens Relations Committee" of 20 West Texans flew into Austin to ask the Texas Commission on Higher Education to approve plans for converting Odessa Junior College

to a state-supported, four year "Permian State College." According to their spokesman, W. D. Fleck of Odessa, 30 per cent of the Ector County's college enrollment of about 1,600 is composed of out-of-county students. Administrators estimated a 3,686 enrollment by 1970, if it's changed to a state-supported senior college.

C. A. Roberson, business manager of Odessa's \$3,000,000 junior college, said the population in the Permian Basin increased from 159,000 to 288,000 between 1950 and 1960 and is expected to reach 500,000 by 1970.

Commission will study the matter further before making a recommendation to the next legislature.

Attempts to get the 57th Legislature to approve full state support and senior college status of San Angelo Junior College, Laredo Junior College and Pan American College at Edinburg failed in the third special session.

**T. E. C. Teams to Aid Small Towns**—Two teams which form the working force of the Texas Employment Commission's newly-organized Expansion Employment Service for Small Communities recently moved into Brady where they'll survey job seekers and job opportunities for the next six weeks.

Service was set up with funds from the Federal Bureau of Employment Security to assist communities like Brady which have "substantial and persistent unemployment problems," yet are too far from one of the Employment Commission's 91 local offices to get help from a regular staff.

According to Ted Clifford of the commission, the teams will go into economically-distressed areas to try to determine what has caused a long-time employment slump, offer remedies and either find job opportunities elsewhere or assist local civic groups in launching industry recruitment programs.

Limestone and Falls county officials already have asked for the team's services Clifford reported that some 25 or 30 counties now are in the "substantial and persistent unemployment category."

Powdered resin is used by professional rodeo cowboys as an adhesive on chaps and riding gloves.

### Civil Defense Education Class Scheduled in Burk., Sept. 17-21

The Civil Defense Education Program, in operation since June, 1959, is conducted by public schools and colleges electing to organize and administer this course of instruction. The Civil Defense Staff, Texas Education Agency, assist these schools in

the organization and implementation of the twelve hour course.

Specifically, the course is designed to increase the survival capabilities of the individual, family, and community in natural or war caused disasters. Materials and class instruction are planned to encourage the development of family and community protective programs to insure intelligent action in emergencies. With these objectives, the program is an integral part of the National defense effort, conducted by local schools in cooperation with State and National Education Agencies.

The Civil Defense program will include the following subjects:

1. The need for survival education.
  2. Capabilities of world powers.
    - a. Vulnerability of America.
    - b. Natural disasters.
    - c. Weapons in the nuclear age.
    - d. Chemical and Biological warfare.
    - e. Radiation and effects.
    - f. Protective measures against disasters.
      - a. Warnings and communication.
      - b. Family and community shelters.
      - c. Monitoring and decontamination.
      - d. Family Planning.
        - a. Community Civil Defense plans.
        - b. Home protection exercises.
        - c. Medical supplies and food.
        - d. Shelter living.
- Please watch your local papers for information concerning this class.

### Calculator New Guide To Comfort

A fast and highly accurate new method of estimating heat gain promises to benefit families who install electric heat in new or remodeled homes.

Called the "Electric Comfort Calculator," the new aid is designed for use with homes insulated with mineral wool. It provides heating contractors and builders with a virtually fool-proof method of determining the size of electric heating equipment needed on a room-by-room basis.

In addition, the Electric Comfort Calculator enables a contractor to estimate accurately the annual cost of heating a house electrically.

A contractor who follows the calculator's recommendations can be sure of installing electric heating equipment of the right capacity to provide maximum comfort and top operating efficiency.

One of the most important factors taken into consideration by the calculator is how well a house is insulated. A house properly insulated with mineral wool, the calculator shows, can use smaller—and therefore more eco-

Measuring the rooms of a house is the first step in determining its heating requirements.

nomical—heating equipment than one that's poorly insulated or not insulated at all. Annual heating and air-conditioning costs are substantially lower and the house is also more comfortable both winter and summer.

The Electric Comfort Calculator may be obtained by sending 25¢ in coin to the National Mineral Wool Association, 1270 Sixth Ave., New York 20, N. Y.

Church Board Names Its Officers

The General Board of the Burkburnett First Christian Church, Second and D, has elected its officers for the period July 1, 1962-June 30, 1963. They are Lewis Todd, elder; chairman; W. K. Clayton, elder, vice chairman; and Mrs. Max Barnes, deaconess, secretary. Last year's officers were Lewis Todd, chairman; James Harwell, now of Paris, Texas, vice chairman; and Mrs. Archie Ross, secretary. Mr. Todd is beginning his third consecutive year as chairman of the board and by virtue of his office will also serve as president of the congregation. The membership of the board, in addition to the new officers named above, consists of James

Jeffers and James Kincaid, elders; Waldo Huddleston, Paul Gilchrist, Willis Cushing and Donald Morris, deacons; and Mrs. Archie Ross, deaconess. The Rev. Hugh E. Caffey is pastor of the church.

4-H Sewing Group

The 4-H Sewing Groups in Burkburnett met on July 9, 1962 in the home of Mrs. Gerald Savage to make plans and fix invitations for the Wichita County Dress Revue to be held Friday, July 13, 1962. Those attending were Vicki Endres, Donna Schuman, Sue Schuman, Toni Ann Savage, Kathy Savage, Jerrilyn Savage, Diane Bentley, Louise Bentley, Marian Bentley and Susan Leitner.

Vickie Endres, Reporter

Mr. James Pearson Participating In Summer Workshop

Mr. James Pearson, Burkburnett ISD, Curriculum Director is participating in the second Texas Instructional Media Summer Workshop in Austin, according to Mr. W. T. Kinnell, Director of the Division of Instructional Media of the Texas Education Agency. Approximately fifty educators from throughout the state are engaged in the month-long workshop, learning new teaching techniques and training in the use of new teaching media. Half of the group is scheduled to appear on Texas Instructional Media Project regional conference programs next year; members of the other group are school-sponsored and are pre-

paring for such activities as faculty workshops within their own school systems. Mr. Pearson, a school-sponsored participant, is attending sessions directed by outstanding university instructors, commercial representatives, teachers who have previously participated in the program, and the Agency personnel. The workshop, which is being held at Albert Sidney Johnston High School, will end July 13.

We all thrill to a... FAMILIAR TUNE

It is so soothing, comforting, and pleasing to listen to our favorite tunes when played by capable artists. These tunes can make our minds wander back to pleasant memories of days gone by, and also awake us to new joys. Each Sunday we have the opportunity to be thrilled by the preaching of God's word, and the story of God's great love for us. Attend church Sunday and enjoy worshipping God with others.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

**TELEPHONE TALK**

C. A. Deuschle, Manager

**GROWING WITH BURKBURNETT**

Construction work started last week on the 81' wide deep addition with basement to the existing Telephone Company Central Office building. Completion of project is scheduled for Spring, 1963 in order to provide growing telephone service needs in Burkburnett for future growth and development.

The present dial building was constructed in 1957 and dial service was completed in September, 1957. At that time, there were approximately 1575 telephones in service in Burkburnett. In May, 1962 there were 2777 total telephones in service in the Burkburnett area.

Construction of the new building addition is another step in our plans to provide the best possible telephone service for Burkburnett customers, both now and in the future.

**DO YOU KNOW THE ANSWER?**

During his entire lifetime, how many hours would the average man spend telephoning?

Well, the answer might seem impossible (to anyone under 18) but the average is 8,760 hours! And this is sure a lot of time, just think how many hours you save by telephoning instead of having to deliver a message in person!

Anyway, it strikes me that as long as you're going to spend a year of your life on the phone, you may as well do it conveniently. And nothing offers more convenience than personal extension phones wherever you sleep or play.

So we've got phones in a rainbow of colors to suit your mood. Just call the business office, 569-2291, for any telephone service man.

**A WORD TO THE WISE**

I ran across this cartoon in one of our company publications. I think the moral is clear without me adding too many words.

If you are planning your vacation, and want to be sure of a reservation, always call ahead. Our telephone booths are nice but they were never designed for overnight stays.

So long, see you next month.

Call by number. It's twice as fast.

**WESTERN BELL TELEPHONE COMPANY**

**Cooling Costs Low If House Passes Tests**

Operating costs of home air conditioning will be kept low when the house passes three key tests, says A. M. Watkins, author of a new book, "Building or Buying the High-Quality House at the Lowest Cost." The tests are:

"1. Is there plenty of thermal insulation?" Watkins advises following the "R" formula of specifying mineral wool insulation. "R" stands for resistance to heat flow. For an air-conditioned house, R-19 insulation is recommended for ceilings, R-11 for walls, and R-13 for floors above ventilated crawl spaces.

"2. Are large windows areas shaded from direct sunshine in summer?" The author explains that "a staggering amount of heat will enter a house through glass. Windows on the east, west, and south require shading."

"3. Is there plenty of attic ventilation?" The roof is the biggest single source of summer-heat entry into houses, according to Watkins, an engineer and former technical magazine editor. Attic vents should be made large to prevent intense heat build-up, he says, and a light-color or white, roof also can cut air conditioning costs by bouncing back sun rays.

"Naturally, extra insulation, shading devices, and large attic vents cost money," Watkins says. "They may increase the construction cost of the average house by perhaps \$150 to \$250. But you get this money back in two ways.

"First, a smaller heating and air-conditioning system than otherwise required often can be used. This reduces the first cost of the heating and cooling systems. Half the time this saving alone more than pays for the extra construction cost. Second, operating costs for heating and cooling are cut by as much as 25 to 50 per cent a year.

"Building or Buying the High-Quality House at the Lowest Cost" was just published by Doubleday, in both hard-cover and paperback editions.

Flags of Necessity  
By Raymond C. Baker  
Guest columnist  
C. Baker is a former  
seaman who writes  
on economic and industrial  
subjects.

The United States  
Department of Defense  
is also warring with  
the Soviet Union in  
the sea. What makes  
this particularly  
important is that  
World War II. Amer-  
ica has become more  
dependent on imports  
of raw materials.  
The United States  
defense commitments  
around the globe  
require the quick  
and efficient use of  
war materials and  
commodities in an emer-

gency. This massive  
job of supporting  
our own industrial  
needs and military  
forces in a limited  
fleet of total  
merchant ships larger  
in history is required.  
The truth is that we  
do not have enough  
modern, fast  
and bulk carriers to  
carry a margin of  
victory. America  
can count on only  
100 deadweight tons  
needed "Flags of Ne-  
cessity" tankers and ore car-

## CHANGING SCENE 1912-1962

U. S. tankers and ore carriers out of international competition, the real issue of competition was between U. S.-controlled foreign flag ships and foreign-owned foreign flag ships. Emphasized also was the fact that U. S. maritime union harassment of the American-owned Flags of Necessity ships could force the owners to sell their vessels to foreign interest. Then they would, unfortunately, not be available to the Defense Department in time of military need. The Flags of Necessity ship-owners underscore the fact that U. S. maritime picketing and harassment of these ships would not create a single job for American seamen if sold to foreign interests. The shipowners maintain that U. S. maritime union inflation of wages and operating costs have undermined the capability of American merchant ships, quoting and appreciation of the subject as offered by an editorial in the N. Y. TIMES during the maritime strike last year: "The current Federal budget lists \$182,000,000 for the year's operating differential subsidy . . . on the average 84% of this goes to seamen's wages. This means that each of the 20,230 sea-going jobs in the 303 subsidized ships cost the country over \$7,300 a year."

**Pronouns**  
Is the use of pronoun 'myself' overdone? For myself I will say that so far as myself is concerned I think that myself and others would prefer that the pronoun 'myself' be eliminated and that we refer to ourselves as me and I when we are speaking of ourselves. If this is not clear I can only say for myself and others that me and them are not clear about our grammar, but do the best that I and them can. My friend and myself have discussed this problem, but herself and me have been unable to agree on proper usage, except that we think she comes ahead of he as far as social usage goes. My women friends tell me it's lack of will power that permits my stomach to ache, but I notice their will power doesn't reach down as far as their aching feet.

## FHA Plans New Standard For Cooling

by NEAL J. HARDY  
Commissioner  
Federal Housing  
Administration

An air-conditioned home that meets FHA's Minimum Property Standards is eligible for an FHA-insured mortgage, and installation of an air conditioning system in an existing home is an eligible improvement under FHA's Home Improvement programs. Today, in many sections of the country, air conditioning is considered a necessity rather than a luxury. Since air conditioning in the home of today is becoming so prevalent, FHA is now preparing standards for insulation in an air-conditioned home that is to be insured by the FHA.

**Reduce Heat Gain**  
These standards will constitute an improved minimum requirement for insulation that will reduce the heat gain. In the North, our present insulation standards for heating are perhaps adequate for air conditioning. However, in the Southern states, where little or no insulation is required, the development of insulation standards for air conditioning may well result in the need for less expensive and smaller equipment than would be required in the same house with little or no insulation.

**Low-Cost Operation**  
The house could be air conditioned more economically because over the years the power requirements of the smaller equipment would be lower. By careful application of today's building materials and scientific know-how, the installation of air conditioning becomes increasingly practical as well as desirable. When such things as proper orientation of a house on its site, preservation of trees for shade, wide roof overhangs, white or light colors roofs to reflect heat, good weather stripping, and proper insulation are utilized in home construction, air conditioning is economically feasible for a greater number of families.

'Tortured flowers' is one way to describe a lot of fancy floral displays.

## Memories

Now, half a century later, it occurs to me that my four years as an undergraduate at Western Reserve University may have been my happiest years. Certainly those years from 1906 to 1910 include more vivid memories than any other span of living. In those years I discovered I had some talent for writing, and that I could make a living by putting words on paper. Ever since, that has been my main occupation. In those years I met many girls, danced with them, and dined with them in their homes and treated them to ice cream sodas. One of them, two years after my graduation, became my wife.

In my studies I found that my interest and aptitude leaned to English, economics, and sociology. In later years I pursued those subjects as an avocation and not as a duty. By election to the presidency of my class in my sophomore year, and to the presidency of the student council in my senior year, I acquired a degree of self confidence that has been helpful to this very day. I could write a book about those college days. After graduation, life was never quite the same, or quite as good. Billie Sol Estes lists \$40 million in liabilities, \$20 million in assets. With that record, they're not sure whether to declare his bankrupt — or Secretary of The Treasury.

**If you take your truck for granted**

...it's a good one!

A truck that doesn't call for a lot of attention, that just does its job every day, is a great asset. This is the thing most users tell us they like about Chevrolet trucks—their reliability. And this, of course, comes from quality. Sound engines, strong frames, double-wall construction, insulated cabs, separated bodies and cabs, tight tailgates . . . are some of the features that help Chevrolet trucks work longer and bring back more of your investment at trade-in. If you wish you had a truck that cost you less thought and attention, put your money on quality. Make your next buy a dependable Chevrolet truck.

## Should We Re-model or Move?

Remodeling is a popular pastime that's wrought miraculous transformation in countless homes.

But it isn't always the most practical solution to our space problems.

As the Southern Pine Association points out, we aren't all endowed with attics, basements or spare garages that can be turned into new rooms.

Or, if we do, they may be too valuable in their present roles to justify a change. If we convert our attics and basements into sleeping quarters, will there be enough space elsewhere for storage? And with the garage turned into a family room, where do we put the car?

We should also realize that some homes are literally beyond improvement. A home that's unsound, deteriorated or hopelessly out of date is a poor subject for an ambitious renovation job.

Further limitation may be imposed by logistics. Does the lot contain enough room for house enlargements or additions, without depriving our children of essential outdoor recreation area?

Such questions should be carefully weighed before deciding whether remodeling or a move is the best solution for our space problems. Here's some advice from the Southern Pine Association on making a wise decision:

1. Don't "spite Peter to pay Paul." Extra sleeping and living space is hardly worthwhile if we sacrifice storage and outdoor recreation area to get it. Unless remodeling mutually resolves ALL space needs, a move is the more desirable alternative.
2. The likeliest candidates for remodeling or additions are homes which are structurally sound. This quality minimizes the need for costly structural alterations and is important to consider, whether we're remodeling or planning new homes. Homes that are properly framed with strong "pre-shrunk" lumber are easy to add to when the need arises.
3. Costs should be carefully pre-determined before a single workman or ounce of material is procured. If we're competent handymen, we can perform certain jobs ourselves. In the case of major renovations, however, this might be false economy, with the work more economical, in the long run, if left to professionals. Also, if the probable remodeling tab seems high, it would be wise to weigh it against the cost of a new home.

### Fallout

Many readers are confused about the effects of radioactive fallout. Often asked questions are "What are the dangers of fallout?" and "Should I build a fallout shelter or not?"

Next several columns in this Mirror will discuss these items which concern us all.

As of early '62, fallout resulting from nuclear tests is generally agreed to be of no level of radiation exposure which would be harmful to man. It is generally agreed that fallout from nuclear tests is of no level of radiation exposure which would be harmful to man. It is generally agreed that fallout from nuclear tests is of no level of radiation exposure which would be harmful to man.

Dispensing prescribed medicine is what we do best. It is promptly, and at a reasonable cost. Trust your health to your doctor - trust his prescriptions to us.
