Merchants Watermelon Feast August 17th

Rites Were Held
6 In Alaska For
Burk Man

School Teachers SAFB Personnel Special Guests

Burkburnett merchants are throwing a big watermelon festival Friday, Aug. 17, in the streets of downtown. The event is an appreciation affair sponsored by the Retail Merchants Council of the Burkburnett Chamber of Commerce.

The event will be held from 7:00 to 9:00 P. M. The streets will be roped off, all business will be forgotten and several chilled watermelons will be cut and served at tables to hundreds of expected guests. Five hundred watermelons right from the vines have been ordered.

Special guests for this get acquainted, visiting party, will be school teachers from all this area, SAFB Airmen and their families, new residents and old—in fact the whole cotton pickin' North Texas and Southern Oklahoma area is invited.

Name cards will be made up in advance and distributed from a central location. Entertainment will be announced later.

EVERYBODY IS INVITED—MEN, WOMEN, AND ALL THE CHILDREN.

Moyer's 66 Truck Stop Opening 14th Randlett, Okla.

Moyer's 66 Truck Stop, located at Randlett, Oklahoma, will have a formal opening Tuesday, August 14. There will be free drinks and free gifts and entertainment will be furnished by the Electratorones from 8:00 to 9:30 P. M.

Tomatoes Grow Big Out In Rose Lawn

Proof of the fertility of the Rose Lawn soil was brought to the Star office Wednesday. Mrs. B. N. Cauthorn brought in a perfectly developed tomato 14 inches in circumference and weighing one pound 1 ounce. This beauty, and eleven more like it was grown on a tree tomato plant.

Cross Life Saving Course at Burk Pool

Oliver McDonald and Carolyn Craft are shown demonstrating two reaching assists they have learned in the Cross Life Saving course now in progress at the swimming pool. "Drowning" victims are Jay Forrest and La McDonald. Fifteen hours are the minimum requirements for the Cross Life Saving course and seventeen hours for the Lifesaving.

BURKBURNETT NEWLYWEDS

RESIDE IN OKLAHOMA

Miss Jovell Riley became the bride of Donnie Stubblefield July 27, in a 7:00 p. m. ceremony at the Assembly of God Church in this city. The Rev. H. E. Allen, pastor of the Assembly of God Church in Iowa Park, officiated.

The bride is the daughter of Mr. and Mrs. J. D. Riley, and the bridegroom is the son of Mr. and Mrs. V. L. Stubblefield, all of Burkburnett. Wedding vows were exchanged before an altar decorated with a fan shaped arrangement of white gladioli and white stock flanked with greenery. Two tall candelabra with white tapers stood at each side.

Mrs. Dorothy Duke, pianist, and Miss Karan Burton, vocalist presented the nuptial music.

Miss Ann Jackson, maid of honor, wore a blue chiffon dress with a short sleeve embroidered jacket and carried a bouquet of white and blue carnations.

James Lee Stubblefield, brother of the groom, was best man.

Mike Allen of Iowa Park, Lorell Riley, brother of the

bride were ushers. The bride given in marriage by her father, chose a ballerina length gown of white organza with a low scalloped neckline. The fitted bodice topped a voluminous skirt featuring a scalloped hemline.

Her waist length veil of silk illusion was attached to a tiara of silk illusion and seed pearls. She carried a cascade of white carnations and lily of the valley, caught by long satin streamers.

The bride attended Burkburnett High School and is now employed at the Sheppard Air Force Base.

The bridegroom was graduated from Burkburnett High School in 1961 and is associated with Haliburton Oil Company in Duncan, Okla.

A reception was given in the Riley home. Those assisting were Mmes. Bertha Skidmore, A. D. Bracken, Nancy True-love and Louise Magee and Misses JoAnn Hervey and Barbara Bracken.

The couple will make their home in Duncan.

Floyd Marten Celebrates 20th Anniversary

FLOYD MARTEN

Floyd Marten, a resident of Burkburnett for 33 years celebrated his twentieth anniversary with Southwestern Bell Telephone Company recently.

Marten, 706 Sunset Drive, is a combinationman with the company. He began his telephone career as an installer in Wichita Falls with Western Electric Company. After a leave of absence with the Army Signal Corps, Marten went to work for Southwestern Bell Telephone Company in 1946 as a framan.

Later he served as an installer-repairman in Burkburnett. In 1949 he was promoted to combinationman.

A native of Burkburnett, Marten was graduated from Burkburnett High School in 1940. He later attended ASF Technical School in Neosho, Mo., where he was graduated in 1944.

Active in Burkburnett's civic activities, Marten was chosen that city's Man of the Year, 1959. He has also served as president, Burkburnett Livestock Sale Barn, Inc., secretary, Burkburnett Independent School Board; past president, Burkburnett Rotary Club; past president, Burk Swim Club; past president, Burk Gun Club; director Burkburnett Chamber of Commerce, and chairman, Burkburnett Boomtown Rodeo.

In addition, Marten is a member of the Farm Bureau of Wichita County and of the North Texas Field and Stream Association. He is a member of the Lutheran Church.

The telephone employee served in the Army Signal Corp from 1942-45. He performed overseas service in England, Austria, Italy, France and Germany.

Marten and his wife, Rhee, were married in 1943. They have two children; Kurt, 7, and Tracey, 4.

During his spare time, Marten hunts with his five bird dogs, fishes, water skis, and raises cattle.

July Activities Burk Chamber Commerce

New "Boomtown" Celebration Planned

Due to financial reasons, Burkburnett's Chamber of Commerce has decided to discontinue the professional rodeo. During July, rodeos were produced in Wichita Falls, Lawton, Vernon, Archer City, Seymour and of course, Burkburnett. Our proximity to these competing rodeos hurt ticket sales. While the rodeo crowd became divided by the numerous rodeos, professional rodeo production costs have steadily increased. This is why the Chamber of Commerce directors decided not to produce a professional rodeo next year.

To replace the professional rodeo, Burkburnett is planning another annual "Boomtown" Celebration. Several good ideas have been suggested and are under consideration by the Board of Directors. With careful planning and full support of its citizens, Burkburnett can produce a spectacle that will attract people from miles around. Be sure and express any ideas you may have for next year's "Boomtown" Celebration.

Rodeo Proceeds Applied Toward Deficit Bank Note

The Board of Directors voted to pay one year's interest on the deficit rodeo note to the First National Bank of Burkburnett and then apply the remaining proceeds of the Burkburnett Chamber of Commerce Rodeo Account toward the note deficit.

Tourist Attraction—Historical Marker

Clark Gresham, county commissioner, recommended to the Board of Directors that an historical marker be erected at the site of one of the original "Boomtown" wells. The board voted to sponsor and be responsible for maintaining the historical marker when erected.

This project offers a real challenge to the chamber. Projecting this idea one step further, the chamber could erect a wooden derrick at the site of the famous gusher. It would have to be first class, worthy of Burkburnett's effort and pride. Properly handled, the project could develop into a notable tourist attraction.

Christmas Decoration Committee Appointed

President Jack Mathis appointed Bill Vincent and Loretta Hunt as Burkburnett's Christmas Decoration Committee. The Board of Directors voted to allocate a substantial sum of money to the committee for use as prize money. Burkburnett organizations will be given the opportunity of decorating a downtown designated corner of Burkburnett. These corner Christmas decorations will be judged and cash prizes awarded accordingly. Merchants will be eligible to compete for cash prizes too. Their stores will be judged on exterior and interior Christmas decorations.

New Retail Promotion Manual

Your chamber has been busy preparing "Here's How," a retail promotion manual full of bits of business and unusual promotions. The Retail Merchants Council has been urged to meet and discuss the ideas within the manual which will be given to all merchants attending the meeting. Watch the BURK STAR for the meeting date. Be sure to attend and obtain your personal copy.

Directors Vacancies Filled

C. J. Lippard and Bob Monaghan will replace Bill Brownning and Don Mapes respectively on the Burkburnett Chamber of Commerce Board of Directors. The appointment of these men became effective on August 2. Welcome to the fold, gentlemen.

Large Peach

Mr. W. C. Vann of Burkburnett was a visitor in the Burk Star office Friday and was proudly displaying a large peach which was grown on a tree in his back yard. It was a California peach and measured 10 1/4 inches in circumference. Mr. Vann stated that the tree grew from a seed he planted five years ago. The tree only had one peach on it this year due to the late freezes we had this spring.

NOTICE

The Board of Education of the Burkburnett Independent School District will meet in special session August 16, 1962, at 7:45 p. m. in the school tax office for public hearing and adoption of the budget for the Burkburnett Public Schools for the school year 1962-63.

W. W. Nix, President, Board of Education

Mrs. H. O. Smith and Hubert have returned home from Orlando, Florida, where they visited their daughter and sister, Mr. and Mrs. David K. Reed. Mr. Reed is an entomologist doing research work for the government.

ENCOURAGE INDUSTRY NOW

United States industries are up against world competition as never before. To expand and modernize they must have capital. To attract capital the investor must get a fair return on his money.

Taxing dividends twice, as our federal income tax does, weakens incentive which investors need to risk necessary growth capital.

In 1954, Congress granted some relief from double taxation by permitting shareowners to exclude the first \$50 dividends from taxable income and to take a 4 percent tax credit on the remainder. Now it is proposed to repeal this small measure of relief.

Our competitors abroad enjoy a more enlightened policy on dividend taxation. England, Japan, West Germany and Canada, for example, have considerably lessened double taxation by liberal tax credit or other means.

We need to expand our economy to achieve full employment, defend our democratic way of life, and preserve our free enterprise system. Such an economy must have millions of people willing to invest money to provide industry with the tools it needs.

As an incentive booster—at least the first \$100 of dividend income should be excluded from personal income tax and the tax credit on the balance should be increased to at least 10 percent.

The time to encourage the investor and employing industry is now—not after foreign competition has licked the pants off of us.

CUMBERLAND, MD., CITIZEN: "We have mortgaged the wealth and fruits of labor of our forebearers who worked for themselves and our free way of life."

WASHINGTON AND "SMALL BUSINESS" BY C. WILSON HARDER

The Twentieth Century formula on how to succeed in politics without really trying is to find out what a large bloc of voters would like free, then figure out way to make them think they are getting it free.

This basically explains the strike of doctors in the Canadian province of Saskatchewan against the socialist government of Premier Woodrow Lloyd which had forced into law a medicare program. How this crisis will be resolved is still a moot question.

Some U. S. newspapers with apparent leanings to the left are appalled at the action of the doctors. Yet from all reports, majority of the people in this Canadian province are quite bitter toward government for creating such a crisis.

There is a sobering thought here. If the U. S. government follows a present proposal to bring a portion of American medical practice under the control of bureaucratic direction, there is no predicting what the American doctors will do.

If they should adopt the strategy of the Canadian medical men, it is a certainty that they and the American Medical Association will be more bitterly attacked than they are at present for merely opposing the drive to sacrifice the integrity of American medicine for political expediency.

Most men do not primarily

enter medicine for monetary gain. There has to be a great humanitarian impulse to cause a young man to give up many of the golden years of young manhood in hard grinding study. And of course, between the cost of his education, and the income he could otherwise earn, the doctor has invested \$50,000 before he can even start to practice.

Yet even today there is a snide attempt to infer that the opposition of doctors to medicare is due to selfishness.

Unfortunately, the doctors are in a small minority, thus prime target for demagoguery.

After all, medical men devote their lives to the mysteries of healing not vote chasing. To paraphrase a famous saying of Benjamin Franklin, "a doctor between two politicians is like a fish between two cats."

Thus, in its proper light, the battle is between integrity and insidious socialism. For doctors on the average are people of the highest integrity, because obstacles young man must overcome to become a doctor comprises most brutal selection system yet devised.

There has been no Billie Sol Estes scandals in the conduct of American medicine.

And doctors, with a psychological insight in human nature, know that once the bureaucratic mind that set up the Estes affair gets any measure of control over medicine, it will be disastrous to the nation's health. Cuban masses cheered Castro when he promised land reform... but he gave them food rationing.

GRASS ROOTS OPINION

TERRE HAUTE, IND., TRIBUNE: "Americans generally seem to hold the notion that democracy is not democracy unless it follows our pattern. We must not willfully impose our ways on people who have other ideas. Yet at the same time we must be careful not to strengthen the anti-democratic forces in any country. The general truth operative here is that the situation in Latin America, as elsewhere, cannot be viewed in terms of black and white. We can neither insist on exactly our kind of democracy, nor can we let our aid fall into the hands of those who want no kind of democracy at all."

"I pulled a fast one, today!"

"My Dad held up a quarter and a silver dollar and asked me which one I wanted. I took both—the dollar for my bank account, the quarter for my piggy bank."

Wilbarger-Wichita SOIL CONSERVATION DISTRICT NEWS

BASIC FARM AND RANCH PLAN CAN BE USEFUL TO FARMER OR RANCHER

One important step in soil and water conservation is that of working out with the farmer or rancher a complete co-ordinated conservation plan covering each acre of the farm or ranch, and treating each acre according to the land need and potential productive capabilities states James Park farm and ranch planner of the Iowa Park unit, Soil Conservation Service.

Park states that soil survey is an important tool in sound farm and ranch conservation planning. A range survey can best be made while working with the land owner in making a forage inventory of grasses found growing on a particular range site. As certain soil types produce different kinds and amounts of vegetation due to depth of soil and soil structures and moisture relationship.

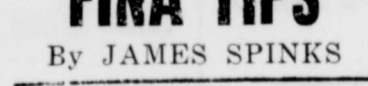

Shallow land soils support short and mid-type grasses, and bottomland soils support mid and tall grasses. Random clippings over the range in different land sites, and the clippings weighed can be calculated in pounds of forage produced per acre on the range.

This gives the landowner a good estimate of expected forage production in calculating range stocking to maintain proper range use over a long period of time.

A soil survey can be helpful in farming to point out hazards

that might be unprofitable to continued farming of some land or areas within fields due to soil depth, type of parent material underlying soil surface, slope of the land and degree of erosion taking place, and ability of a particular soil to absorb water.

In basic conservation planning the above items will help to govern what measures are necessary to maintain each acre in accordance to the land needs and capabilities and whether a rotation of high residue producing crops and proper management of residues are adequate to control erosion, or whether mechanical measures such as the installation of waterways and terraces are to be needed.

anthrax should be incinerated or buried in a lime pit, since buzzards and other carrion feeders can spread spores. The organisms of anthrax will not produce spores as long as they are not exposed to air. Therefore, IT IS VITAL THAT THE BODIES OF DEAD ANIMALS SHOULD NOT BE OPENED OR BLOOD SPILLED.

When land areas or buildings such as abattoirs, holding pens, tanneries, etc., have been polluted with spore-contaminated wastes or effluent of infected animals, they should be thoroughly disinfected. Special instructions as to the necessity for scrupulous personal cleanliness should be given to all employees handling raw hides.

The Palace of the League of Nations in Geneva was completed in 1936.

Attends Army Language School Army Pvt. William C. Law, 22, whose wife Eloise, lives at 506 North Avenue D, Burkburnett, is attending a one-year course of instruction in the Russian language at The Language School, Monterey, Calif. The course, which is scheduled to end next May, will train Law to speak fluently as well as read and write the language.

The son of Mr. and Mrs. William P. Law, Albany, he completed basic training at Fort Leonard Wood, Mo.

Law is a 1957 graduate of Luling High School and attended Midwestern University in Wichita Falls. Before entering the Army he was employed by Wichita Falls State Hospital.

ANTHRAX

History

Moses told the Pharaoh that "a very grievous murrain" would come upon all Egyptian cattle, horses, oxen and sheep if Egyptian oppression of Israelites didn't cease (Exodus 9:3). But the Pharaoh disregarded the prophecy, and "all the cattle of Egypt died" (Exodus 9:6).

Medical historians suspect that the grievous murrain predicted by Moses was anthrax, caused by one of the largest microbes known and one of the most long-lived. It is known as splenic fever and charbon in this country. Siberians, who know it to be a merciless killer, call it "boil plague."

Whatever it is called, anthrax is recognized zoologically as one of the world's most widespread infectious diseases. Several so-called "anthrax belts" exist in the United States, one on the Gulf Coast of Texas. Cattle and horses are especially susceptible, and frequently it hits at sheep and other cloven hoofed animals. It can be transmitted experimentally to mice, rabbits, rats and guinea pigs.

Louis Pasteur, the great French chemist discovered the organism of anthrax in the blood of sheep and prepared from it a vaccine which gives a high level of protection against anthrax to animals vaccinated with it. Unfortunately, however, a vaccine against the human form of the disease has not yet been found practical.

About the Disease

Anthrax is a spore former. Spores can live for many years in pastures under all natural conditions. Livestock grazing in those pastures are at all times vulnerable to the disease.

Two types of anthrax occur—the external type arising from direct inoculation of the organism into a cut or abrasion while handling infected hair, wool or hides or products manufactured from them, or directly handling the flesh, blood or feces of infected animals. The internal type occurs when the spores are inhaled. External involvement shows up as carbuncle-like sores, while symptoms of internal infection resemble those of pneumonia.

Anthrax can also be produced by eating insufficiently cooked meat of infected animals, or it can be spread mechanically by flies.

Control Measures

Controlling this widespread infectious disease demands meticulous attention to basic sanitation, including immunization and isolation of exposed animals and the treatment of infected ones. The milk of infected animals should never be used.

Farris Jr., To Appear In State-Workshop

Farris Jr., Vocational Teacher in the State High School, will appear in the State-wide In-Workshop for Teachers...

Teach is to Sell." Dr. A. W. Tenney, director, Agriculture Education Branch, U. S. Department of Health Education and Welfare will address the group in the important area of "Agricultural Education in the Year's Ahead."

The State Vocational Agriculture Education Staff and top Technical Agriculture Specialist will conduct workshops in such important areas as "Animal Health Program in Texas," "Regulations Concerning Safe Use of Chemicals," "Operation Blackland Income Growth," "Diffusion Process of Communications," and other areas of training.

According to J. D. Nixon, President of the Vocational Agriculture Teachers Association of Texas, the organization will conduct several meetings at times not in conflict with the

workshop program. Dr. M. D. Mobley, Executive Secretary of the American Vocational Association of Washington, D. C. will address the membership meeting. Officers and Board members will be selected and a program of work for 1962-63 will be adopted by the organization.

Mr. and Mrs. Bennie McDonald have returned to their home in Smyrna, Georgia, after spending a few days here visiting relatives. Returning home with them were their sons, Ben L. and Don Allen, who had been visiting here the past few weeks.

HUH?

Hotel Paige—"Telegram for Mr. Neidspondiavanci Mr. Neidspondiavanci!" Mr. Neidspondiavanci—"What initial please?"

4-H Sewing Group

The second year 4-H sewing group had its first meeting at the home of Mrs. C. Endres on July 23, 1962. These girls made gathered skirts for their sewing project last year. All the girls entered their skirts in the Wichita County Dress Revue and all received blue ribbons on them. This year they will be making blouses from a printed pattern.

Our program this meeting was presented by Vicki Endres and Jerri Lynn Savage. They gave a demonstration on "The Care of Your Hands. After the program, we played games. Those present were: Donna and Betty Sue Schuman, Vicki Endres, Jerry Savage and Marian Bentley.

Triumph OVER THE SEAS
"God has blessed man and given him the right and power to rule over his creation. As man has needs, God has given him the knowledge and ability to meet these needs. Pictured here is only one of many such triumphs. Our nation has particularly been blessed. Let us each Sunday attend worship services and give thanks to our Lord, who is so generous."
EVERYONE IN THE CHURCH THE CHURCH IN EVERYONE
The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish.

News From The County Agent

Since 1950, the number of milk cows in the United States has declined 4½ million, but the milk supply continues at a record rate. The average milk production per cow has increased from 5,314 pounds a year to 7,004 pounds. Total milk production in 1960 was slightly more than 57 billion quarts from 17½ million cows.

Dairying is the largest single source of farm income in the United States, involving about one-fifth of our agricultural economy.

Dairyman's Short Course.—Dates for this year's Dairyman's Short Course are November 29 and 30. Mark it on your calendar and begin now making plans to attend. This will be held at A&M College.

The American Dairy Association.—The American Dairy Association is a dairy farmer financed, dairy farmer controlled organization. It exists solely for the purpose of expanding the sales of all dairy foods through a promotional program of non-brand advertising, merchandising, and public relations. Texas dairy farmers owe it to themselves and to their industry to support the ADA.

Milk Production.—Milk production in the United States in April was estimated at 11,340 million pounds—1.2 per cent above the April 1961 output and slightly above the previous record high for the month set in 1956. For the first 4 months of the year, milk production totals 2 per cent more than for the same period in 1961. Encouraging, however, is the fact that the margin of monthly production over a year earlier has declined each month since last December.

Wichita County Farmers submitted six soil samples to the Agricultural Service Soil Testing Laboratory at (College Station, Seymour and Lubbock) during the months of May and June, according to B. T. Haws, county agent. This was part of a total of 1366 samples received by the three laboratories for this period.

Haws points out that the Agriculture Extension Service maintains and operates this Soil Testing Laboratory for Wichita County farmers to use in determining their fertilizer (and limestone) needs. The \$2.00 spent on a soil test is the most important money spent

in a fertilizer program, advises Haws.

Submit your samples now to determine needs for your crops to be seeded this fall.

Fleahopper populations continued to increase during the past week in many areas reports B. T. Haws, county agent, and cotton producers are urged to check their field closely for the presence of this cotton pest and its damage.

The puncturing of small forms by the cotton fleahopper results in the loss of the square, according to B. T. Haws, Wichita County, Agricultural Agent, and can result in serious yield losses where fleahopper populations are large especially during early fruiting or where cotton is late.

Boll weevil populations increased during the past week in many cotton fields, Haws reports.

Haws reports that most of the squares which have fallen on the ground contain boll weevil grubs. Cotton producers should continue to check their fields for boll weevil damage warns Haws, and control should begin as soon as the number of punctured squares approaches 15 out of every hundred checked.

Farmers should refer to the **Texas Guide for Controlling Cotton Insects (L-218)** for information on how to check their fields for cotton pests and control recommendations stated B. T. Haws. These are available at the county agents office.

Layers of compact soil just below tillage depth restrict or halt plant root growth by interfering with root penetration, not by restricting air or moisture supply from the roots, the U. S. Department of Agriculture reports.

NO SLIP SLING

Now's a good time to sew buttons on the shoulders of your favorite hunting shirts. Will keep your rifle sling from slipping off while you walk with both hands free.

THE STATE OF TEXAS
TO: ALENE M. FORD, Defendant.

Greeting:
YOU ARE HEREBY COMMANDED to appear before the Honorable 78th District Court of Wichita County, at the Court-house thereof, in Wichita Falls, Texas, by filing a written an-

swer at or before 10 o'clock A.M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 10th day of September A.D. 1962, to Plaintiff's Petition filed in said court, on the 18th day of July A.D. 1962, in this cause, numbered 70,460-B on the docket of said court and styled ALTON E. FORD, Plaintiff, vs. ALENE M. FORD, Defendant.

A brief statement of the nature of this suit is as follows, to-wit:
Plaintiff alleges that he and Defendant were first married on or about the 11th day of February 1933, and lived together as husband and wife until said marriage was dissolved by divorce on January 26, 1957 in cause number 3335-D in the District Court of Garvin County, Oklahoma. That after living separate and apart for several months, Plaintiff and Defendant did on or about the 15th day of June, 1957, commence living together again as husband and wife, without obtaining a marriage license and going through a marriage ceremony, and that said marital relations continued until on or about the 1st day of February, 1958, when by reason of the Defendant's actions and conduct towards your plaintiff, he was forced and compelled to permanently abandon her, since which time they have not lived together as husband and wife.

Plaintiff alleges that during the time he and Defendant were cohabitating and living together as aforesaid, he was kind and affectionate to her and did all that was in his power to provide for her maintenance and well being, but that shortly before their final separation, your Plaintiff was transferred by his employer to Archer County, Texas, and Defendant stated that she would not live in such wild and uncivilized surroundings and complained so bitterly and so often about their mode of living and environment that she kept your plaintiff constantly worried and upset, causing him loss of sleep, loss of appetite and inattentiveness at his work so as to constitute mental cruelty.

Plaintiff alleges that Defendant's actions and conduct towards him generally were of such a nature as to render their further living together as husband and wife insupportable, the premises considered.

Plaintiff further alleges that

there was no community property accumulated by the parties of this action during the time of their marriage, nor were there any children born of this marriage, necessitating any action on the part of this court.

Wherefore Plaintiff prays the Court that Defendant be cited to appear and answer herein for judgment, dissolving said marriage and for such other and further relief, special and general, in law and in equity, to which your Plaintiff may be justly entitled.

Issued and given under my hand and the Seal of said Court, at office in Wichita Falls, Texas, this the 23rd day of July A.D. 1962.

Attest:
WAYNE WIGGINS, Clerk
78th District Court, Wichita County, Texas.
By Lenna Cutbirth, Deputy. 46-47C

ON NEW CHEVROLETS

TO PLEASE EVERYBODY

(WELL... ALMOST EVERYBODY) CHEVROLET

Even the most persnickety luxury-lover couldn't ask for very much more than a Jet-smooth Chevrolet (like that Impala Sport Coupe at the top). Yet it's all yours for a Chevrolet price. (And you know how low that is.)

JET-SMOOTH CHEVROLET

Here's the best thing that's happened to make money go further since budgets—the lively low-cost Chevy II. It's got all kinds of room. And comes in 11 models, too—like the Nova 2-Door Sedan (second from top).

CHEVY II NOVA

Want a roomy family car and a sporty driver's car for one low price? The rear-engine Corvair Monza (e.g. that Club Coupe, third from top) plays both roles to the hilt. Care to join the club—and get a buy, to boot?

CORVAIR MONZA

W. Babson Weekly Report

W. Babson

DISCUSSES THE STOCK MARKET AND COLLEGE ENROLLMENTS

of the multi-billion-dollar market in stock values. Many have asked how the stock market college enrollments. Parents can make investments tend to give their children relatively rich college budgets. These often include late model cars, generous sums for personal services and amusement items. Heavy cutbacks could be made in budgets of this kind without sacrificing education! Most college financial officers believe also that with the great variety of college loan programs no worthy student will be forced out of college for lack of funds.

Celebrating a special occasion this month? Then plan an informal patio supper featuring a tasty menu highlighted by a cool and refreshing beverage. Fried chicken, made early in the day and served cold, teams well with seasoned potato salad and buttered peas and onions. The fruity beverage is ideal as an opener and a delicious accompaniment for this menu. Prepared with an envelope of pineapple-grapefruit instant soft drink mix and blended with cranberry juice, it's a versatile drink that tastes good all through the meal.

Pineapple-Grapefruit Cranberry Punch
1 envelope pineapple-grapefruit Kool-Aid Soft Drink Mix
3/4 cup sugar
2 cups (1-pint bottle) cranberry juice cocktail
3 cups water
Pineapple Ice Cubes*

Combine all ingredients. Stir until instant soft drink mix and sugar are dissolved. Serve with Pineapple Ice Cubes, if desired. Makes about 1 quart, or 8 servings, 4 ounces each.
*TO MAKE PINEAPPLE ICE CUBES: Four pineapple juice into ice cube trays and freeze until firm.

in this group were to be thrown out of work of if they many working mothers in these families should lose employment, college enrollments might be affected.

The Thirties and the Sixties
College enrollments in 1927-38 totaled 1,053,955. In '28-'29 (the panic year) enrollments did not drop, but increased by 24,000. And in '30-'31 another 27,000 were added, for a total of some 1,127,000. Not until 1923-33 was the crash reflected in enrollments, and that was but a 5% drop. Therefore, I believe most parents will have no trouble financing WORTHY children.

The 1960's cannot be compared with the 1930's. Our credit structure, under the watchful eye of the Federal Reserve, is on a vastly sounder basis. Banks have been insured against the kind of runs that took place in the 1930's. Most home mor-

tgages are guaranteed. Many new industries—such as electronics, chemicals, and the preparedness effort—have made our economy considerably more dynamic. By law (Federal Employment Act of 1946) the government is obliged to try to offset depressive economic factors.

The Problem: The Small Privately Endowed College
College enrollments have tripled since 1929-30, to over 3,500,000 in 1960. Dr. Ronald Thompson, an authority on college population projects, estimates that this fall's enrollment will reach 4,234,769. By 1965, his studies predict, 5,206,493 will be enrolled; and by 1975, 8,480,676! The question is not one of the effect of the current market gyrations on 1962-63 enrollments, but rather of how to find the facilities and facilities to meet the fantastic increase in demand.

The real developing problem

is this: Public colleges and universities supported by taxes are already increasing their facilities at a rapid rate. Small privately endowed "liberal arts" colleges will be harder and harder pressed to compete... or even maintain what they already have. There must be considerable more financial support of the privately endowed "liberal arts" college.

Parents who see the uncertainties of life ahead are willing to go into debt for education and things worthwhile. Many say, "What's the use of saving... we all may be 'blown up' before long? And if there is no nuclear war surely inflation is ahead, so let us take a chance for the children's sake." I think they are wise if the children are WORTHY.

Parents With No Stocks

I am considerably more concerned about another group of parents—those in the \$5,000—\$15,000 income brackets. College financial officers tell me that the financial statements submitted by these parents when their children apply for loans or scholarships indicate a generally serious financial situation. Very few own stocks—have perhaps a few shares of Mutual Funds. Most carry heavy mortgages and are paying for late-model cars out of current earnings. An appalling number either have no saving accounts, or at best but a few hundred dollars.

I am glad to say that many carry some life insurance. They do what they can toward the education of son or daughter. However, if any great number

FEET ACHE, ITCH?
3/4 of all your bones are in the feet. No wonder they ache, swell, perspire, itch. Bathe feet twice daily with T-4-L Solution for relief of the 52 bones, 66 joints plus ligaments. "I CAN LICK YOU AND YOUR KID BROTHER, TOO!"

SAID THE FORD FALCON TO THE CHEVY II (AND CORVAIR)

No matter which compacts you compare the facts favor the Ford Falcon. Here's proof!

FALCON VS. CHEVY II

Falcon's standard engine is a Six, Chevy II's a Four! Falcon goes 6,000 miles between oil changes. Chevy II, 4,000. Falcon topped Chevy II's gas mileage in the '62 Mobil Economy Run. In addition, Falcon gives you more glass area, multi-leaf (not single-leaf) rear springs, wider choice of models! AND FALCON'S PRICES START LOWER!*

FALCON VS. CORVAIR

Falcon is longer and almost 4" wider than Corvaire... holds 6 adults in comfort (try that in a Corvaire)! Falcon's engine delivers more power than Corvaire's. Falcon packs almost twice as much as Corvaire's front-end trunk. Falcon's wheelbase is 1 1/2" longer; Falcon has bigger brakes; Falcon's seats are comfortably higher. In addition, Falcon gives you oil savings, more glass area, bigger doors. AND FALCON'S PRICES START LOWER!*

Water heater need replacing?

INSTALL A FLAMELESS
ELECTRIC WATER HEATER
AND ENJOY ALL THESE ADVANTAGES

SAFE—NO FLAME

Perfectly safe in any location, an electric water heater has no flame to blow out accidentally, no fuel to leak, no pilot light or flue to worry about. And the outside of an electric water heater is always cool to the touch.

EFFICIENT

Electric heating elements are in the water, inside the tank. The tank is completely insulated, even on the bottom, to prevent heat loss. And no heat is wasted up a flue. You get hotter water faster and it stays hot longer.

LONG LIFE

With an electric water heater, the tank bottom is not subjected to the corrosive action of flames. There are no valves to stick, no burner to adjust. An electric water heater assures you many years of trouble-free service.

INSTALLS ANYWHERE

Because an electric water heater requires no flue, it can be installed anywhere in the house, close to the point of greatest use. This saves long pipe runs and consequent waste of heat due to water cooling in the pipes.

SUNSHINE CLEAN

With an electric water heater, there are no by-products of combustion to soil walls or ceilings. No unpleasant fumes. No flue to accumulate soot. An electric water heater provides the cleanest method known for heating water.

MODERN—COMPACT

Choose from round or table top models at your plumber's or appliance dealer's. Compact round models require only four square feet of floor space. Table top models provide additional counter space in kitchen or laundry.

NEW LOW RATE FOR ELECTRIC WATER HEATING

Only 1 1/4¢ per kilowatt-hour for all electricity normally used for water heating by the average family. Call our office for full information.

\$50 INSTALLATION CERTIFICATE
OFFER EXPIRES AUGUST 31

Good for \$50 on the retail purchase and installation of a new electric 40-gallon (or larger) glass-lined quick recovery water heater, replacing your present water heater. Offer good for installation in any home served by Texas Electric Service Company. Certificate available now and through August 31 only, from your appliance dealer, plumber or electrical contractor. See about it soon!

CARD OF THANKS

I want to take this opportunity to thank all my friends who were so kind while I was in the hospital. The many cards, phone calls, visits, well wishes and prayers really make one feel he is remembered. May God bless you. Thank you so much. Jimmie Boyd

4-H Sub-Committee Met Tuesday, July 31

The 4-H Sub-Committee met Tuesday, July 31 in the agents' office to discuss the overall 4-H program. The committee, made up of 4-H boys and girls throughout the county, evaluated last year's program and decided what things should be included in next year's program.

Donna Childers and David Johnson, co-chairman, conducted the meeting. Others present at the meeting were Cecelia Childers, Diane Bentley, Linda Taylor, Sarah Brockreide, Roy Childers, Jerry Lamb, David Johnson and Carl Brockreide. One adult leader, Mr. Melvin Cantrell, was present. Assisting in the planning meeting were Thelma Wirges, county home demonstration agent, Sandra Herrell, assistant home demonstration agent, B. T. Haws, county agent and Bob Wurtzbach, assistant county agent.

Sgt. and Mrs. G. Abdoch honored with dinner

Sgt. and Mrs. George Abdoch were honored with a farewell dinner, Thursday evening at Underwoods. Sgt. Abdoch has been ordered to an overseas Air Force Base. After dinner, games of Forty-Two were enjoyed in the home of Mr. and Mrs. Lawrence Gilbert.

Those attending were Mr. and Mrs. Wayne Burk, Mr. and Mrs. Hollis Morris, Mr. and Mrs. J. D. Turner, Mr. and Mrs. J. L. Cantwell, Mr. and Mrs. Elvie Welborn, Mr. and Mrs. John Dodd, Mr. and Mrs. Leon Pace, Mr. and Mrs. J. D. Grizzle, and Mr. and Mrs. Wayne Landrum.

Mr. and Mrs. Dale Shufflin of Dallas are the proud parents of a baby boy born August 2nd. He weighed 7 lbs. 6 oz. and has been named Ronald Dale Shufflin, Jr. The Shufflins are former Burk residents.

Visiting in the home of Mr. and Mrs. V. C. Skipwith recently was their daughter, Mrs. Virgie Senn and daughter Judy of Littleton, Colorado.

Local Births

Donny Lew Boren, girl, Michelle Lynn, Thomas Meredith Goins, girl, Leasa Ann, William Galli Mosteiro, girl, Mary Agnes, John Kenny, boy, Mark James, Timothy Charles Jewett, boy, Norman Dewitt, Joseph Roger Landry, boy, Joseph Bernard Roger, Frederick James McCarthy, boy, Timothy Brien, Irvin Dwyne Stickel, girl, Sheryl Denise.

Rebekah Lodge

By Cora Lee Harmon

The Burkburnett Rebekah Lodge, 67, met for a stated meeting last Monday night with the following officers in the chairs: Eva Bingham, Noble Grand; Cordie Lawrence, Vice Grand; Ethel Wofford, Secretary; Cora Lee Harmon, Musician; Jean McPhail, Warden; John Rogers, Inside-Guardian, pro-tem; Cora Lee Harmon, Chaplain, pro-tem. After the roll call of officers sick members were reported on.

The Noble Grand reported that the district Deputy President is to make her official visit to our lodge, Monday night, August 20th.

Jean McPhail was appointed as chairman of the refreshment committee for the District Deputy's visit.

Being no further business the meeting closed in form.

Last Sunday, Mr. and Mrs. C. L. Clingman, Iowa Park and Cora Lee Harmon visited their sister-in-law and aunt in Walters, Oklahoma. It was Mrs. Nettie Clingman's 88th birthday.

All who attended lodge on the last meeting of July gathered at Jean McPhail's for a social honoring Eva Bingham on her birthday. Delicious punch and cake was served to those attending. The meeting was after lodge.

The Past Noble Grand Club met on the fourth Thursday night with Cora Lee Harmon. Some information was discussed concerning non-contributing members of the Rebekah Lodge. Jean McPhail made plans to entertain the club and those members who are not club members, rather who are not past grands at her house the fourth Thursday night, August 23. After this discussion punch and cake was served by the hostess.

Mr. and Mrs. James R. McDonald and Julie have returned to their home in Farmington, New Mexico, after a few days visit here with their parents, Mr. and Mrs. Ben L. McDonald, Sr. and a reunion with Ben L. McDonald, Jr. and family of Smyrna, Georgia, who had been visiting for a week. The McDonald boys, Ben L. and Donald, had spent a month here visiting and returned home to Georgia with them. The McDonald, Mrs. also had as guests over the week end, their granddaughter, Mrs. Charles Rushing of Duncanville and her mother, Mrs. C. M. Walker of Dallas.

Mental Alarm Clock Possible

Q. I have two friends who just "set their mind" at a certain time. It is a fact that they have never had built-in alarm clocks. A. Normal adults have a sleeping cycle that measures in units of 24 hours. The cycles are associated with various times of the day and sleeping-waking cycle. It is associated with the body's temperature. It is a fact that in going to sleep a person might "set" the number of hours he would like to sleep and a certain change in temperature occurs, would awaken. They get up at a certain time and also produce a condition of internal cycle, such as temperature change.

Medical . . . Promptness, dependability, price fairness are the words of our prescription.

CORNER DRUG (PRESCRIPTION) 320 E. Third St. After Hours 569-2233 Store Hours 9 A.M. to 9 P.M. Sun. - Holidays 10 A.M. to 6 P.M.

Wichita Falls Research Project . . . Wichita Falls will be the site of a research project for the feasibility of installing materials on bridges to prevent damage from the freeze cycle.

The Texas Highway Commission today authorized a project at an estimated cost of \$900,000. The material will be used on the Fort Worth to Overly Railway overpass on Highway 287. During freezing weather, Highway Department de-icing salts on bridge which results in damage to concrete. Purpose of the project is to find a way to prevent the need for de-icing salts.

HANDY CHART . . . Got any golfing friends? Doesn't ask them to use plastic tubes new clubs in. Make dry, handy carry nautical charts or graphical maps.
