## Sabin Oral Vaccine Available To Those Who Missed Last Sun.

### Col. William Hendrix Extends Invitation To Tour Of SAFB

During the last Chamber of Commerce luncheon, Col. William Hendrix, director of personnel, SAFB, renewed a base tour invitation to Burk Burnett citizens. A majority of those present expressed a desire to make the tour and the date has been set for next Thursday, September 27, at 11:45 a. m.

According to Col. Hendrix, the tour will begin with a thirty minute orientation briefing, followed with a luncheon at the Sheppard AFB Officers' Club. After lunch, the group will be escorted around several base facilities, including a visit to the 4245th Strategic Wing.

Jack Mathis, Burk Burnett Chamber of Commerce President, suggested those interested in the tour assemble in front of the Chamber office by 11:45 a. m., Thursday, September 27. From there, the caravan will proceed to Sheppard AFB where it will be met by Sheppard AFB officials.

Those planning to make the tour are asked to notify the Chamber of Commerce no later than noon, Monday, September 24, so the chamber can notify Sheppard AFB officials as to how many to expect for the tour and luncheon.

Burk Burnett residents will have another chance to help wipe out the most common cause of crippling polio in the second and final day of the community's mass anti-polio campaign with the Type 1 Oral Sabin Vaccine.

The polio immunization clinic will be open at the Town Hall in Burk Burnett Sunday, September 23rd from 12:00 to 6:00 p. m. for those who were unable to take their vaccine last Sunday.

The Sabin Oral Vaccine is NOT A SHOT . . . just three drops of a tasteless liquid on a cube of sugar, for each one of the three types, can end your worries about paralytic polio. Is your health and your family's worth 25c. The Wichita County Medical Society is asking each person to make a voluntary contribution. If you cannot afford to pay, the vaccination is yours free. If you would like to make a larger contribution to help pay the cost for persons less fortunate than yourself, any amount will be welcome.

There are three different strains of polio virus and each of the vaccine types is for a specific virus. The virus which has caused most of the cases in Texas this year has been TYPE 1.

Anyone missing the opportunity to take the vaccine may be issuing an open invitation for polio virus to attack, in addition to endangering others by being a carrier of polio virus, officials stated.

The Medical Society expressed particular concern that "all persons regardless of age get the Vaccine Sunday, September 23." Since last Sunday we have had reports that many of the older people did not think they needed the vaccine. "Actually, we need very badly to get them immunized. They are less likely to get polio, but they are very likely to be carriers who pass on the disease to others . . ."

"WE NEED YOU OLDER PEOPLE. Be sure to get your ORAL SABIN VACCINE SUNDAY."

It is especially important, doctors say, for persons to take the Sabin Vaccine although they have had the Salk shots. The Sabin Vaccine prevents a person from being a carrier. The Salk Vaccine does not. The Sabin Vaccine also gives longer lasting and a higher degree of protection.

Any one three months of age and over should take the vaccine.

Many of you remember the history of "TYPHOID MARY," a typhoid carrier who was a cook. She gave typhoid fever to over 1,300 people over a period of several years.

POLIO CAN BE TRANSFERRED BY CARRIERS. WE DO NOT KNOW WHO THE CARRIERS ARE . . . SO THE ONLY WAY WE CAN PREVENT PERSONS FROM BEING CARRIERS IS TO GIVE THE VACCINE TO EVERYONE, REGARDLESS OF AGE.

"DON'T BE A 'POLIO POLLY'—GET YOUR ORAL POLIO VACCINE . . . Sunday, September 23rd., from 12:00 to 6:00 p. m. . . If you did not get it last Sunday."

## Forward To Free Enterprise

Life magazine recently devoted a full page editorial to the farm problem in which it vigorously opposed the Administration's program—a program which, when presented in bill form, was voted down by the House.

Then Life recommended a series of steps it believes necessary "to lead us out of the farm mess." Its final recommendations: "Above all, the influence of market prices should be reintroduced into subsidized farming. The farmers who earn the greater part of farm income in cattle, poultry, fruit, vegetables, etc.—get along in a free market and control their own surpluses. Until the subsidized segment is returned to this discipline, the farm 'problem' will not be solved. Congress should write a law that will extend the free market system a little more each year until all farming is once more free."

It is an ironical fact that the incredibly costly and wasteful farm programs of the past have been of primary financial benefit to the big, corporation-type farms, operating huge acreages of wheat and the other supported crops and creating surpluses almost faster than facilities could be found to hold them. While this has been going on, free farming and ranching has proven its soundness and its durability. Meat is a first class example, perhaps the best of all. There have been ups and downs. But the livestock people, like all the other groups which are a part of the great meat industry, have taken their chances. All in all, they've done well. And the consumer—that final arbiter—has been given a more than adequate supply of the meats of his choice at fair, competitive prices.

The present motto for farming should be: "Forward as rapidly as possible—to free enterprise."

## WASHINGTON AND "SMALL BUSINESS" BY C. WILSON HARDER

In all the discussion of slashing U. S. tariff protection to work with the European Common Market, it has largely escaped notice that there is a disparity between the legal business practices in Europe and in America.

The U. S. antitrust laws are not recognized in Europe, where business is done largely by cartels and monopolies. These cartels have their own cosy way of rigging markets. Unfortunately, they have also been teaching the big American combines who have set up operations in Europe to take advantage of the cheap labor, some of the tricks

A recent example is the case due to be tried in October in Federal courts in which the government charges that the two largest American electrical manufacturers were in cahoots with a European firm to keep U. S. made radio and TV sets out of Canada

The European party to this arrangement was Philips Gloeilampenfabrieken, of Holland. This is a huge firm, many of whose products are sold in the United States.

But the Justice Department found that Philips as well as the two U. S. combines have Canadian plants.

It is charged the three conspired to keep American products out of Canada by reserving all patent rights for their Canadian subsidiaries

The apparent result, Justice Dept. charges, has been to restrict U. S. sales of radio and TV sets in Canada to less than 1% of total sales volume of nation's northern neighbor

Last month the Dutch firm signed a consent order by which it agreed to stop taking part in this rigging of the Canadian market. The American firms are scheduled to go on trial in October

Now, even though the Dutch combine, by signing the consent decree, tacitly admitted guilt, actually, unlike the U. S. firms involved, there is a large question in this area

European firms, in their own nations, can engage in all sorts of market rigging practices legally, just as in a like manner a citizen of Russia can preach Karl Marx in Red Square with full legality.

Thus, there is opened up a serious question. If American tariffs are abandoned, on the theory that if Europe has a free market in America, America will likewise have a free market in Europe, will the U. S. economy benefit?

The answer is probably no. For there exists between the American concept of free enterprise and the Europe concept of market rigging by monopolies a chasm as deep as that which exists between the American and Russian economic concepts. There can be nothing in common in a Common Market where part adheres to the archaic practice of market rigging by monopolies, and the other part believes in a free and open market place.

The ancient adage about a worm that turns has taken on new meaning to a lot of fishermen all over the country, and particularly so in the Midwest. Because fishermen there are waxing ecstatic over the fish-catching abilities of plastic worms, and insects of all types, and snakes, and eels and crayfish and tadpoles and water dogs and frogs and lizards, on and on, ad infinitum. For one reason—they catch fish.

The plastic imitations are so realistic they feel like bugs, look like bugs and taste like bugs, to those who have had some experience as a bug taster—and most fish have, luckily for we who like to angle.

In the daytime, when most of us do our fishing, use a plastic imitation that goes deep, because there is where the fish will be. In early mornings and late evenings, when the water has cooled and the fish come into the shallows to feed, use surface lures.

Had a chance for dramatic proof on worms earlier this year at Lake Ouachita, just outside Hot Springs, Ark. Fishing had fallen off at the big impoundment, and limit catches were few and far between. So my fishing partner and I tied on black plastic worms with lead heads, fired up our Mercury outboard motor and ran upwind of one of the numerous rocky points that dot the scenic paradise.

Then we cut the motor and drifted, bouncing the worms off the bottom as the wind moved us gently along. Our first drift produced a keeper largemouth bass, and our second drift two more. In two more points we filled our limits.

Now this is not to say that plastic imitations are the only lures to use, because that is not always the case. I've got a tackle box full of wood and hardware that I'm continuing to use. But now I've got another box, with plastic worms in it, and it's getting used more and more every day.

## Grass Roots Opinion

BURLINGTON, WIS., STANDARD-PRESS: "We're putting students in classes according to their ability." This was a statement made by local Principal Frank Hanrath in a speech to Burlington Rotary. It's the kind of thing so many people have been advocating for years. It's the kind of thing that will keep us ahead of the Russians in education—for, the idea of trying to make the same thing of all children is ridiculous—it can't be done. 'What we are trying to say is simple. Don't try to make college whiz kids out of all our students.'

## HOSTESS PLANS A PARTY

**BRIDGE IS BIG** when the fall social season is in swing. The hostess who would like to "score" with her guests chooses a theme for her decorations such as this setting that features the familiar patterns of autumn—colorful melamine dinnerware with a leaf motif, combined with Plans-a-Party paper accessories in an ivy design. Gaily wrapped packages, containing a gift for the winner and the "hooby" prize, serve as a centerpiece for the bridge table. Dessert and coffee may be kept ready on a nearby serving cart, along with the ivy-decorated playing cards, coasters, matches, tallies and score book ready for use when the luncheon is over.

parents. The refreshment table was covered with a white satin cloth, and the bride's bouquet was used for decoration. Misses Sherry Brooks, Judy Oxford of Fort Worth, and Linda Rodolph were assistants.

The bridegroom's parents were hosts for a rehearsal dinner Friday evening in the home of Mr. and Mrs. O. A. Nichols, aunt and uncle of the bridegroom.

Mrs. Gilbert is a 1962 graduate of Wichita Falls High School, where she was a member of the National Honor So-

ciety, honor graduate, and member of the A Cappella choir. She is employed by Mitchell and Baxter. The bridegroom is a graduate of Burkburnett High School, and attended Decatur Junior College. He will be a senior at Howard Payne College in Brownwood, where the couple will establish residence when the fall term begins.

### MODEL PRAIRIE WAGON

Complete in all details, this authentic model is a quaint reminder of covered wagon days. Although it is relatively simple to make, it will be a challenge to the hobbyist who has only worked on plastic-model kits. The wagon without the top is 8-3/4" long, 4-1/2" wide. The top is cut and sewn from unbleached muslin. All constructional details are given on Blueprint B728, available for 40¢ from Service Bureau, c/o this newspaper, 740 N. Rush, Chicago 11, Ill.

## SCIENCE FACT AND FABLE

BACK IN 1676, A POPULAR REMEDY FOR THE COMMON COLD WAS A SYRUP MADE OF GARLIC AND BROWN SUGAR CANDY, MADE BY GRINDING THE GARLIC INTO A LIQUID PASTE AND BOILING IT WITH THE CANDY.

ANOTHER REMEDY, BASED ON THE OLD SAYING, "AN APPLE A DAY KEEPS THE DOCTOR AWAY," WAS EATING A "RAW PIPPIN," A TYPE OF APPLE.

TO THIS DAY, SCIENTISTS HAVE NOT DISCOVERED A CURE FOR THE COMMON COLD. BEST ADVICE: SEE YOUR DOCTOR, GET SUFFICIENT REST, AND DRINK PLENTY OF LIQUIDS. SOME DRUG PREPARATIONS, SUCH AS CORYMBAN-D, REDUCE FEVER AND RELIEVE HEADACHES AND OTHER SYMPTOMS OF THE COMMON COLD.

**FRIENDS TO THE END**

"Burk Girl Scouts"

Our thanks go to all the mothers and leaders who gave their help graciously to make the Day Camp at Tanglewood for the Brownies and Girl Scouts a success. The girls enjoyed the cook-outs, hikes, songs and making new friends.

Now that school has started the troops will begin their sessions again. Troop 50 will begin September 25th at 3:30 p. m. in the Hut behind the Methodist Church on Avenue E.

Troop 49 will meet September 28th at 3:30 p. m. in the same Hut.

Troop 48 will meet September 26th at 3:30 p. m. in the American Leigon Hall.

Due to the lack of leaders and helpers there are numerous girls on the list that can not

be enrolled into the Girl Scouts. Anyone interested in helping and working with these girls please contact Mrs. G. E. Tercek, Neighborhood Chairman at 569-3244. There will be a meeting for all new girls and their mothers to form new troops in the next two weeks. Watch for time and place in the Burk Star.

The RESPECTED WORD

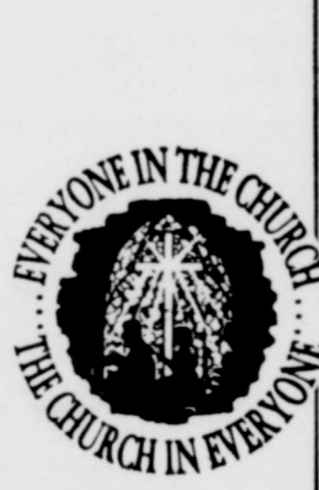

The bible is a book translated into every known language. It is the word that men have died for, in order that it may be available to all men. It is the textbook for God's people.

The bible, itself, is not worshipped, but is respected, for it is the story of God and his relationship to man. It is man's guide for worship and daily living.

Attend church regularly, study, and seek God's will in your life.

"I wait for the Lord, my soul doth wait, and in his word do I hope."

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

## Scout Meeting

Wednesday, September 19th, the first scheduled meeting of the Cub Scout Pack 156 for the 1962-1963 season. All parents and scouts are urged to attend and a special invitation is extended to the parents of the eight years old scouts who are interested in Cub scout-ship.

The year's activities kept the boys busy and interested in putting on little "skits" which included "Knight of Old," "The Peddlers," and "Islands of the World" to mention a few. They are also very proud of their "Blue Ribbon" they won at the Scouting Jamboree held at Wichita Falls last spring. The award was given for a "Nature" skit in which the boys demonstrated their knowledge of proper care and feeding of pets which ranged from a kitten to a father and son dog.

The trip to the Wichita Falls proved to be an experience that won't be easily forgotten.

Don't miss out on all the fun. See you September 19th, 7:00 p. m. at the Town Hall. Pack 156 is sponsored by Wolfe Company.

## New Twist For Classic Cheese Spread

A delicacy with old-world flavor, called "Liptauer"—and also "Liptau" and "Liptoi"—is a classic seasoned cheese mixture which lends itself ideally to party use.

This classic spread has been given a new twist—both in the making as well as the serving—by the Borden Kitchen. The making calls for blending America's unique Liederkranz cheese with soft, creamy-yellow Camembert and creamed cottage cheese. The service innovation features an array of piquant condiments in small side dishes so that guests can help themselves to the type they wish.

The three-in-one cheese treat owes its unusually fine flavor to the distinctive properties of each of the cheeses used—the robustness of Liederkranz, the delicacy of Camembert and the creaminess of cottage cheese. The resulting cheese mixture is one that will please the palates of the most discriminating guests.

**Three-In-One Cheese Spread**  
 (Makes about 1-1/2 cups)

1 (4-oz.) package Liederkranz Cheese	Paprika
1 (4-oz.) package Camembert Cheese	Caraway seeds
1/2 cup sieved creamed cottage cheese	Chopped chives
	Chopped parsley
	Chopped sweet onion
	English or German mustard

Blend cheese together with wooden spoon; put mixture through a sieve or a Foley Food mill. Serve with salty rye bread and toasted crackers. Set out small dishes of a variety of seasonings which may be added to the basic spread; bright red paprika, caraway seeds, chopped chives, chopped parsley, capers, chopped sweet onion, tangy mustard. Let everyone add their own variation.

## Farm Facts

Back in 1947, food sales represented 88% of total grocery sales. They represented only 80% in 1959. At the same time, beer, wine, and liquor sales jumped from 2% of the total to 5%. Other non-foods were only 10% of the total in 1947, but had reached 15% by 1959.

This is reported by Cleo Fitzsimmons and Sarah L. Manning of Purdue University's Experiment Station in a study made by them in the Indianapolis area in cooperation with the U. S. Department of Agriculture's Economic Research Service.

About 18% of the total spent by customers in the stores studied went for non-food items (beverages and gum in addition to tobacco and other inedibles). Of the average of 12 items per shopping basket, 2 were non-food.

Soaps, detergents, paper goods, household care items, tobacco products, and health and beauty aids were noted most frequently and in that order in the non-food items purchased. In dollar value, tobacco led the list.

Non-food buying tended to be higher in suburban stores than in grocery stores in city centers, residential areas, and small towns.

1/5 of our grocery bill is for non-food items.

In a quaint old cemetery in the East is a marker erected to the memory of a man whose life is reckoned successful. Upon the marker has been carved an epitaph that should be a tonic to our day. It read thus:

I tried and failed,  
 I tried again and failed,  
 I tried again and failed,  
 I tried again and failed,  
 I tried again and failed,  
 I tried again and failed,  
 I tried again and failed,  
 I tried again and won.

# Tough new '63 Chevrolet Trucks are here!

...THE ONES THAT WHIPPED THE BAJA RUN...TOUGHEST UNDER THE SUN... TO SHOW THE WORTH OF NEW ENGINES, FRAMES AND SUSPENSIONS!

Millions of years ago nature fashioned a proving ground for trucks that man can never duplicate. Today it is known as the Baja (bah' hah) California Peninsula, Mexico.

These pictures give you only a bare idea of the place. The road bears no resemblance to the modern highways on the Mexican mainland. It's fine for 140 miles below the U.S. border. Then the beating begins. Rocks and hard-baked ruts bang, punch, jab and jerk the trucks from stem to stern. Loose sand makes them struggle and strain. Dust chokes them. Heat roasts them. Rivers drench them.

The Baja Run took this Chevrolet caravan 17 days to go the 1,066 miles. All the trucks performed magnificently. Not one was forced to drop out because of mechanical difficulty.

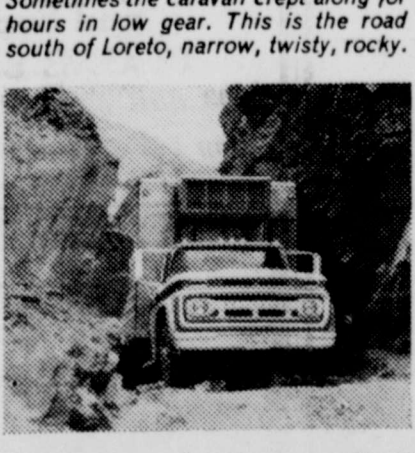

Trucks that can take this kind of beating can take on your toughest truck jobs. Come in now and see tough quality-built '63 Chevrolet trucks with all their new improvements.

QUALITY TRUCKS COST LESS

When you came to a river, you got wet. This Baja river bottom was covered with rocks the size of melons.

Tight squeeze for the conventional medium- and heavy-duty units. Their new narrower front ends certainly paid off here (7 inches slimmer).

The new ladder-type frames on all models took severe punishment from terrain such as this.

Temperatures as high as 122 degrees F. burned the land in the desert area around Dry Lake.

See the "New Reliabilities" now at your Chevrolet dealer's!

### Den 1—Pack 156

On September 19, 1962, we had the first meeting of the season with our Den Mothers, Mrs. Mary Rupard and Mrs. Florence Gann at the home of Mrs. Rupard.

We gave the Pledge of Allegiance and then played some games in the yard. Afterwards we went in and we each drew a picture and then told a story about the picture. We closed the meeting with the Cub Scout Promise and the Law of the Pack.

A treat was served by Michael and Joel Rupard and served to Randy Gann, Kenneth Bailey, Ronnie Gann and Den Chief Eddie Gann.

Ronnie Gann, Keeper of the Buckskin

**Mentholated Cigarettes**

Q. I have recently "come away up" to a mentholated cigarette. Now I wonder if menthol is harmful. Is it? A. We know of no studies of effects of long-term intake of menthol but it would be to assume that it is as harmful as the non-menthol variety. One investigator had to say about mentholated cigarettes: "It remains to be proved that mentholated tobacco is different from ordinary tobacco in its effect on the respiratory tract except as related to sense of coolness characteristic of locally applied menthol."
