#### The Retail Story

An excellent film, of a documentary character, could be made of the history of retailing in this country.

It might begin with the trading posts and the settlers who followed the troops in the West. And it would give considerable attention to the old-time emporium, which carried everything from bolts of gingham to barrelled whiskey. Many a man is still alive who can remember those days. He can remember, too. that the emporium try has ever known. It was a long, slow way to the next possessed the nearest thing to a retail monopoly the countown and there wasn't much chance of doing better there

Improved transportation and other civilizing elements steadily changed the picture. And a real retail revolution began with the first experimental chain systems. These were based on the then startling notion that a man could run a successful store by paring unit profits to a minimum and making them up through increased volume. This was the birth of mass distribution, which we take for granted now. But that certainly wasn't true in its swaddling clothes day-many a skeptic was certain it would be a fiasco.

the enterprise shown by the independents in successfully to detract the full attention of all Americans from secmeeting the competition, the population shift to suburbia ing what each of us can do to make our country stronger. that led to the development of the shopping centers, and If the United States falls before communist expansion so on. And the upshot of it all would be that American there would be no further need for any of us to debate retailing-judged by service, value, offerings, or any other or struggle over interpretation of constitutional rights." criteria-has no equal in the world.

### IT'S UP TO YOU

Howard E. Kershner, L.H.D.

A BOUT 1,600,000 couples will be married in our country this year-3 per cent more than last year. About

640,000 of the brides and 200,000 of the grooms will be teen-agers. One out of six teenaged wives in the United States has two or more chil-

earlier and Dr. Kershner starting their families earlier than ever be fore. More women marry in their eighteenth year than in any other year and more have their first child in their nineteenth year than in any other year. Thirty-eight-year-old grandmoth-Thirty-eight-year-old grandmothers will soon be commonplace. Before the state assumed responsibility for all children parents exercised some restraint, usually limiting their families to the number of children for whom they could provide. Young people now know that it is not

people now know that it is not necessary for them to limit their families to the number of children they can support but that they can shove this problem onto the state. Socialism is the real explanation of the popula-tion explosion. Moreover, this practice tends to build up our population mainly from the less responsible segment of society. Our thrifty self-reliant citizens who keep their families within the limits of their own resources are forced to support the chil-dren of the more irresponsible members of the community. In other words, we are downgrad-ing our population. In very truth, we are doubling on the trail. The climb upward has been long and arduous but the descent is likely to be much more rapid. This is one of the ways in which socialism is destroying our free self-governing civilization.

Stock Woodwork Versatile

### Owners Add Personality To Look-Alike Homes

It's still possible in these days of standardization to achieve patible with any architectural style.

Casement—operated by hand facing the high cost of custom carpentry. The imaginative use of stock wood windows is one of stock wood windows is one wertically in or out—preferably

Sliding

Since windows of ponderosa pine are factory-produced in a wide range of styles and sizes, a home owner has a choice of many window effects. Windows of various styles, like furniture of various periods, can be used in combination to give a home pleasantly interesting yet inlegrated atmosphere.

There are six basic types of wood windows, available ready to install. They are:

Double have a large state of window walls, often opening onto patios.

Fixed—these units are usually used in picture, bay, and bow windows in conjunction with Double-hung-the most pop- movable windows.

kind that results when you give your car adequate pro-lt's as simple as regular use of Shamrock Motor Oil. hamrock Motor Oils come in different categories as engines do. Your Shamrock dealer will recommend the right one for your car, You'll notice a strong family resemblance in Shamrock's new motor oil cans! There's an even stronger one in their quality ... quality you can measure by your car's performance.

# S saves you a pot-full

Some of the richest people we know always mention economy as a virtue of GAS cooking.

(Maybe that's how come they're so rich.)

But it's true. Low-cost meal preparation is one feature that non-gas cooking doesn't begin to match. Another is speed and control - GAS applies heat faster, removes it instantly (no 'hangover' heat in your kitchen!) Then there's convenience: like Burner-with-a-brain . . . and the new Cook n-Keep oven — latest marvel from GAS.

A new automatic GAS range would do so much for you (and your kitchen). And, luckily they're on sale! So buy now and save an extra pot-full.

#### PARROTS DO TALK ... But SO DOES A RECORD PLAYER Our Nation faces a serious threat of communism just off our shores. At the same time within our nation, they are seeking to undermine our faith in God. There are many sayings and expressions going around in our country that are communist inspired. In order to prevent "parroting" these sayings, that weaken our nation ... attend church regularly, and study God's word so that the truth is more easily recognized.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

"Put on the whole armour

of God, that ye may be

clothes love ELECTRIC drying, tool

The same flameless electric clothes drying that has freed homemakers from washday drudgery also makes it possible for clothes to be dried without being whipped by the wind and faded by the sun. An accurate and precisely controlled electric dryer heats gently, yet quickly dries every washable. While you go about other household jobs, your flameless electric dryer automatically dries your clothes and leaves them fluffy soft-ready for ironing or putting away. Clothes last longer, too, and you'll need fewer of them since you can wash and dry anytime. Give yourself and your family's wash the wonderful advantages of modern electric clothes drying!

### Food Sense B Not Nonsense

#### What Makes Johnny Skitter

Getting off the ground is no problem for members of the skit-tering set. Parents gasp, "Where does Johnny get his energy?" One answer is carbohydrates from foods: From milk, breads and other cereal foods, from fruits and vegetables, too. These have been sources of energy for both children and adults since the time Eve gave Adam his first apple.

Best known carbohydrates are cheapest and sugars . . . our cheapest and only sources of quick energy. When we short carbohydrates in the food we eat, the body's machinery launches a rescuing operation by breaking down fat and protein to fill the energy breach. Equal in carbohydrate value, for example, are:

1 SLICE OF BREAD We look to carbohydrates to

supply ready-to-go energy, the kind that makes us feel like getting to the bus on time, playing basketball, or hanging out clothes. Athletes and those

who must work at peak per formance over long periods of time find in carbohydrates the most satisfactory and enduring sources of energy.

We look to certain carbohy drates—the complex starch kind in bread, cereals, fruits and vegetables—to lower the levels of a fatty substance in the blood, called cholesterol, which is implicated in coro-nary heart disease.

Not only do complex carbohydrates supply skittering power and help drop a lid on cholesterol in the blood, they promote a healthy digestive tract... play a part in manufacturing the minute building blocks of our bodies called amino acids... make the proteins in food more usable. teins in food more usable

THE HEAVENLY PRIESTHOOD

The victory is mine sayeth the Lord. Will you observe this my children? Know yo not that I am the King and I am the captain of your soul? Why work ye for that which ye have? What about the rest; about the eternal sabbeth? For 2000 years ye have struggled, trying to earn that which has shown above your heads. Blessed is he that will cease from his own works, and enter into my rest, for I have not appointed unto you an everlasting care. I have come to give you rest. Is not the Kingdom of God within you? How can you see here things upless you see that I am here?

It is now brought to your rememberance that I am the Holy One, the Righteous One; I am the Substance, the Rock, the Beginning and the End. I will share my glory with no man. Ye are my subjects; I am the pilot. I will give you gifts out of my heart.

Do you see me? Do you know me lovely children? What I have cleansed, let no man call unworthy. Oh ye beautiful children; will ye laugh? Will ye cry? Will ye proclaim a mighty celebration? Ye are become the temple of my habitation. The world shall now know me and see me as I am. Ten thousand and more, even a hundred and forty four thousand drums shall proclaim that I am Lord. There is no further sacrifice under the sun to be gade. Let us be seated at the royal least, the wording

The got of Abd P. O. Box 3273 Amarillo, Texas

In the 4th Century, B. C. Alexander The Great sent silver buttons to constituents, promising them the ancient equivalent of a New Deal. Men in Constantinople painted their fingernails blue or green to show their political persuasion

In my town, a report on the day's stock market is immediately followed by a commerical for a sleeping pill.

SHERIFF'S SALE THE STATE OF TEXAS

# 63 Chevrolet Trucks

THEY'VE ALWAYS BEEN TOUGH BUT NEVER STRONGER THAN NOW!

You can be sure that new engines, frames, suspensions that licked Mexico's Baja\* Run will work for you long, faithfully and at traditionally low Chevrolet cost.

A Chevrolet truck has always been a sound investment because of its quality construction. This is what makes it give you an honest day's work every day at very low cost and-when you are finished with itreturn more resale money to your happy pocket.

This year stronger frames, engines that can pull more, and practically tailor-made suspension systems make Chevrolet trucks a better buy than ever. If you're in the market now, we'd welcome the chance to tell you about, and let you drive, the new trucks. Just give us a call.
