NUMBER 24

American Heart Association Fund Drive To Begin Monday, Feb. 25

At 7 p. m. Monday, February 25, scores of volunteer workers will begin the 1963 fund raising drive for the American Heart Association.

Thomas, Burk Burnett says that your "Fights Them All"—heart attack, high blood pressure, rheumatic heart disease, congenital heart defects, coronary heart failure and all disorders of the heart and blood vessels in the fight against the nation's most powerful enemy.

Scientists have reason to be optimistic because of the tremendous progress in research in recent years. Heart patients have a better chance of survival and recovery today than ever before in medical history.

The American Heart Association has made it a goal to develop new techniques of diagnosis and treatment, giving hope where none existed before.

New drugs can control blood pressure in almost all cases. New diagnostic techniques are helping to spot conditions that may lead to stroke, heart failure and other serious conditions.

But a few of the most serious heart diseases are still incurable. Rheumatic fever, a major scourge of children, is now preventable in many cases.

Conservation of heart muscle is vital to the health of the heart. The American Heart Association programs are designed to help you do this.

Face a potent enemy. More than 900,000 Americans die each year by heart disease—more than all other causes combined.

At the present time, heart and blood vessel disease will kill more than one million Americans a year.

They strike child and adult alike. No one is immune. The heart fund gives us the opportunity to help fight these diseases.

Increased contributions are vital to help broaden research and help check permanent disability, so the heart fund slogan will live. . . . The More We Give . . . The More We Live.

Armed Sleeping Bag spreading your sleeping bag on the warm afternoon sun is up before the cold late afternoon chills. Mmmmmmm mighty even after several hours.

Cicero Smith Lumber Company Line Sold Recently

Announcement has been made here of the sale of the eighteen branches of the Cicero-Smith Lumber Company line to William H. Hudson of Dallas and Hubert R. Hudson of Brownsville, Texas.

James Mason, manager of the Burk Burnett Branch was included in the sale. However, he has been informed that no changes in personnel are contemplated.

The Cicero-Smith line was organized in 1903 by J. L. Johnson of Fort Worth. Some fifty stockholders are concerned in the new organization which will maintain headquarters in Fort Worth for the time being and later transfer operations to Lubbock.

Robert S. Smith of Houston will serve as president and W. R. McBride, secretary.

Joe Bailey Bryant In V. A. Hospital

Word has been received here that Joe Bailey Bryant of Burk Burnett is a patient in the Veterans Hospital at Dallas again. He would like to hear from his friends at the following address: Joe B. Bryant, 4500 Lancaster Road, V. A. Hospital, 4 South, Dallas, Texas.

CARD OF THANKS

I would like to thank each and everyone for the beautiful flowers and cards for the many prayers during my stay in the hospital. Your thoughtfulness was deeply appreciated. May God bless you. Mrs. Marie Addison

DECA SPOTLIGHT

This week the Deca Spotlight features Carol Ann Key. Carol is the daughter of Mr. and Mrs. Arlis Key. Her training station is Ben Franklin Variety Store. Carol's supervisor, Mrs. Kauer, has taught her many new ideas on selling. Some of her jobs include restocking and dusting the counters, working at the cash register, and selling.

When Carol was asked how she liked her job, her reply was: "I like it very much, and have learned a lot."

Next week's Deca Spotlight will feature Rodney Hollenbeck. Joyce Byars, Reporter

Claudia Faye Morren of Burk Burnett 'Homemaker of Tomorrow' Winner

Claudia Faye Morren is winner from Burk Burnett High School of Burk Burnett in the 1963 Betty Crocker Search for the American Homemaker of Tomorrow. She thus becomes eligible for one of 102 scholarships with a total value of \$110,000.

Having scored first in her school in the knowledge and attitude test on homemaking given senior girls December 4th, the winner's paper has been entered in competition with those of other state high school winners for state-wide honors.

The State Homemaker of Tomorrow will be named in the spring. She will receive a \$1,500 scholarship from General Mills, sponsor of the program. A \$500 award will be made to the second highest ranking Homemaker of Tomorrow in the state. The school of each state winner will receive a set of Encyclopaedia Britannica.

Later, State Homemakers of Tomorrow with their advisors will enjoy an expense paid educational tour of New York City, Washington, D. C. and Colonial Williamsburg, Virginia, which will culminate with the naming of the 1963 All-American Homemaker of Tomorrow.

The national winner's scholarship will be raised to \$5,000, with second, third, and fourth place winners being granted \$4,000, \$3,000 and \$2,000 scholarships, respectively.

Prepared and scored by Science Research Associated, Chicago, the knowledge and attitude test is the basis for naming of local and state Homemakers of Tomorrow. Personal observation and interviews are factors in the national judging.

The 1963 Betty Crocker Search reached another all-time high in enrollment, with 410,466 girls in 12,964 schools participating. Since the program started nine years ago, approximately three million girls have enrolled, and, including this year, scholarships awards will approach the million dollar mark.

CENTRAL BAPTIST CHURCH BROTHERHOOD TO MEET

The Brotherhood of the Central Baptist Church will meet Thursday at 7:00 p. m. at the church. All members are urged to attend as visitation is planned. After the visitation the men will meet back at the church for coffee and doughnuts.

SWL Insurance Co. of Dallas Has Record Year

Southwestern Life Insurance Company of Dallas advanced to new record highs in all major phases of operations during 1962, according to a report received by B. H. Alexander, Sr., Burk Burnett, agent for Southwestern Life Insurance Company.

The company's 1962 year end figures reflected record breaking highs for the new insurance sales, assets, insurance in force, investments and benefit payments.

Sales of new insurance in 1962 were greater than in any previous year in Southwestern Life's history — totaling \$398,777,328. This was an increase of more than \$75 million or 23 per cent over 1961's new business.

Assets increased during 1962 by \$28,772,880 and at year end totaled \$662,187,530 — a new record high amount. The 1962 gain in assets further strengthened Southwestern Life's position in the top three per cent of the nation's more than 1,450 life insurance firms as measured by assets.

Insurance in force rose steadily during 1962 and at the end of the year hit a record peak of \$2,843,641,945, an increase of more than \$133 million over the total in force at year end 1961.

New investments made by Southwestern Life in 1962 totaled a record \$74,584,161, providing funds to finance individual, corporate and community developments across a broad segment of the nation. More than 68 per cent of the company's 1962 investment total went into loans on real estate.

An all time high for a single year of \$48,604,544 was paid in benefits to policyholders and beneficiaries in 1962 — an average of \$191,356 each working day. More than 66 per cent of the record benefit total went to living policyholders and annuitants. Benefit payments made by Southwestern Life since its organization in 1903 reached a new high level of more than \$455 million at the end of 1962.

It was also reported that the company expanded its sales territory during 1962 to include three more states — Alabama, Georgia and Kentucky. Southwestern Life now is licensed to operate in 22 states and the District of Columbia.

First National Bank To Celebrate Banking Centennial During 1963

Burkburnett Native Dies

Bobby Lavelle Strange, 38-year-old native of Burk Burnett, died Monday in Kermit, Texas, at the home of his parents, Mr. and Mrs. Johnny Strange.

Rosary was said Monday night at the Maples Funeral Home in Kermit and funeral services were held Tuesday in St. Thomas Catholic Church of Kermit. Graveside rites will be held in Hope Cemetery at Henrietta at 4:00 p. m. Wednesday, with Rev. John Przydacz, pastor of St. Mary's Catholic Church in Henrietta, officiating. Burial will be under direction of Hawkins Funeral Home of Henrietta.

Born March 13, 1924, in Burk Burnett, Strange was a professional jockey. Surviving besides his parents of Kermit are two sons, Robert and Ronnie Strange; one sister, Mrs. Howard Peterson of Michigan, and one brother, John Paul Strange, stationed in France with the U. S. Army.

Cleaning Mounts Best way in the world to clean dust and lint off valuable mounts is by rubbing in the direction of fur or feathers with a piece of fresh bread.

New 1963 Colorful Official Highway Travel Map of Texas Ready

The strikingly colorful 1963 edition of the Official Highway Travel map of Texas is ready for the asking.

Designed to show Texan and tourist alike how to discover the Lone Star State's vacation "fun-tier," the Texas Highway Department publication is free to the public. Copies may be obtained by writing the Texas Highway Department, Travel Division, Austin. It is also available at the 25 highway district offices and eight Tourist Bureaus operated by the department. County tax offices have special cards for ordering copies of the map.

Within the year, 750,000 or more of the free maps depicting Texas delights in vivid full-color photographs will find their way to glove compartments all over the United States — and the world.

Keyed to the swelling Texas tourist industry—up fourteen per cent in visitor volume last year—the new travel map urges users to "Discover Texas — Today's Fun-tier." The map and its "fun-tier" theme are links in a promotional package of publications and other materials aimed at enhancing the image of Texas as a vacation paradise.

Purpose of the map is to stimulate travel in Texas by both Texans and visitors, and to make it easier for motorists to get from place to place. Scenic and cultural diversification of Texas are captured in a message by Governor John Connally urging prospective visitors to visit our historical sites, vacation playgrounds, inland lakes and Gulf Coast beaches — our mountains, plains and piney woods — our cities and towns. The Texas Highway Department will be happy to provide you with any information you may need for your visit.

Eighteen full-color photographs illustrate the Governor's description of Texas varied vacationlands. Depicting activities ranging from big-league baseball to bass fishing, the photographic cross section and easy-to-read map comprise a useful showpiece of the many splendored charms of Texas.

The 28 x 36-inch map shows that highways have been growing with Texas and contributing to the growth of its tourist industry. Multi-lane-divided highway miles now completed and indicated on the new map total

The First National Bank will join with all other commercial banks of the country during 1963 in observing the Centennial of commercial banking, by carrying on activities to focus the attention of Burk Burnett, Texas on the important role that banks have played in local community progress. Plans for Centennial activities were approved recently by the directors at their monthly meeting, according to A. R. Hill president.

"The past year has been a period of marked progress for both the First National Bank and the community," Mr. Hill said.

On February 25, 1863, President Lincoln signed into law the National Currency Act, which gave the United States its first uniform national currency, and created a new system of nationally chartered banks which took their place beside the already established state-chartered banks. Thus, the Act of 1863 marked the beginning of our present day dual commercial banking system.

This act did away with the previous system of paper money issued by individual banks, and provided means for supervision and controls leading to a soundly based banking structure. It was a first step in "Progress Through Service — A Century of Commercial Banking," the Centennial theme to be observed by all commercial banks.

Optimists to Meet In Texas Electric "Reddy Room"

Burkburnett Optimist Club will meet in the Texas Electric Service Company "Reddy Room" this Thursday evening, February 21, at 7:00 p. m. announced Optimist President Bill Reasoner. Coffee will be served.

Nominations will be made for another "Young Texan" candidate. A report was made during the last Optimist Club meeting, February 14th, about the "Young Texan" annual award ceremonies held in Dallas recently. Representing the Burk Burnett Optimist Club at the impressive ceremony were Mr. and Mrs. Cliff E. Hagstrom and Mr. and Mrs. Kenneth Blankenship. James Davey, a Burk Burnett Optimist nominee, won a \$1,000 Scholarship from Troy V. Post who underwrites the "Young Texan" program. The scholarship was presented to Jim by Supreme Court Justice Tom Clark. A letter of thanks from Dr. and Mrs. J. A. Davey was read to the club.

John Larson introduced his guests, Doug Sevien, who presented movie sport highlights of several world championship meets. His talk and film presentation was informative and entertaining. Bob Case is in charge of this Thursday's program.

Charter membership cards were given to the charter members of the Burk Burnett Optimist Club by Cliff Hagstrom, vice president.

AS-OKLAHOMA ACCEPT NEW RED RIVER BRIDGE

Representatives of Texas and Oklahoma accepted the completion of the freeways and turnpikes.

The 2,700-foot bridge with a 28-foot roadway was completed Tuesday by the contractor, Cummins Construction Co., Inc. of Oklahoma, according to Blake Ross, resident engineer for the job, and the project was accepted Wednesday by A. H. Osborne, division highway engineer at Duncan, for the Oklahoma Highway Department, with Morris attending the acceptance as a courtesy.

The bridge was built under a contract let by the Oklahoma Highway Department for a total of \$1,020,985.54, with the State of Texas paying half of this amount.

Craig said the bridge would not be opened to traffic for some thirty days, pending completion by each of the states of approaches. The new bridge will accommodate southbound traffic, while the old 19-foot wide bridge will accommodate northbound traffic. Craig said there were no plans at present for widening the old span, which has accommodated two-way traffic for twenty years.

He had been notified Oklahoma department temporary approach to the bridge from that state will be immediately so that the structure may be put into use. Both states are set for June, 1964, deadline for

TAX LUNACY

Tax laws can sometimes reach a condition that can be fairly termed lunacy. Take for instance, a situation that has developed in Wisconsin, as a result of a 1961 law requiring withholding of the state's incomes taxes on money earned within it by non-residents.

The law is apparently inflexible. As reported by Newsweek: "A bargeman plying the upper Mississippi may soon need a tax consultant to keep the ship's log, since the river channel is sometimes in Wisconsin and sometimes in Minnesota. The amount of work the bargeman does in Wisconsin—and the amount of state income tax Wisconsin may attempt to withhold from his pay—will depend on the vagaries of current and channel."

"Even an airplane pilot, crossing the Midwest, may be taxed for that portion of his pay earned while flying over Wisconsin soil. And even a New York executive, in Sheboygan for a three day sales meeting, might find Wisconsin authorities trying to withhold taxes on three days' salary from his paycheck."

These possibilities have arisen as a result of a suit involving Wisconsin's effort to force a trucking company to withhold state taxes from drivers' wages, based on the amount of time they spend within the state. There are rays of hope so far as Wisconsin is concerned—a number of legislators now see the need for changes, as does the state tax commissioner. But here is an example—and more could be cited the country over—of how the itch for more government revenue has produced situations absurd as they are intolerable.

Grass Roots Opinion

WAILUKU, HAWAII, MAUI NEWS: "Apparently the cigarette smoking-cancer relationship is beginning to make an impression on the present class of embryo medics, if action taken by medical and pre-med students at the University of Wisconsin is an indication of the start of a country-wide trend. In Madison recently some 72 medical students out of about 84 took a pledge to refrain from smoking cigarettes as a means of setting an example."

BURKBURNETT... HISTORY

Revealed By The Star
Files 10 Years Ago . . .

Mr. A. C. Harris has gone to Gladewater, Texas to help care for her sister, who is seriously ill there.

Mrs. A. L. Gilbow spent several days in Norman, Oklahoma visiting her parents.

Cheryl Ann and Jimmie Dale, children of Mr. and Mrs. John Rigby, Jr., of Dallas, are visiting in the home of their grandparents, Mr. and Mrs. John Rigby, Sr., of this city.

Bill Wood, who now makes his home Houston, Texas was in Burkburnett recently visiting his parents, Mr. and Mrs. J. R. Wood.

Major and Mrs. Harry Adrouni and sons, Pat and Mike, from Washington, D. C., had dinner with Mr. and Mrs. J. C. Adams, Tuesday.

Mrs. Joe D. McNeil and Mrs. Frank Record of Wichita Falls

were visitors in the J. C. Adams home last Sunday. Both are former Burkburnett residents.

Mr. and Mrs. J. G. Simpson are both confined to their home by illness. Here's wishing them both a speedy recovery.

J. D. Grizzle is reported to be improving from surgery performed in a Wichita Falls hospital this week.

Sally Armstrong from Porterville, California is in the city visiting in the home of Mr. and Mrs. Ferris Bell. Mrs. Armstrong plans and extended visit here.

Mrs. G. C. Henson from Dallas has been in the city the past few days visiting with her

brother, Harry Griffin, and other friends and relatives. Mrs. Henson is a former resident of Burkburnett.

Albert Mayer of Sherman, Texas is here on business. His father will return to Sherman with him to make his home. Albert was formerly employed by the Palace Theater from 1931 to 1935.

Mr. and Mrs. B. N. Cauthorn had as their guests over the week end, Mr. and Mrs. C. W. Harvey of Chickaha, Oklahoma. J. C. Cauthorn of Dallas, and Mr. and Mrs. A. R. Bunstine.

NOTICE

The Burkburnett City Council Election will be held, April 2nd in the Burkburnett Town Hall. At this time two places on the City Commission will be filled. March 1st is the deadline for listing to have names placed on the ballot. Burkburnett City Commission Mayor, Jim Frye 22-41C

Car Inspection Deadline Near

With the deadline for obtaining inspection stickers drawing near, only 30 per cent of the vehicles in Wichita County have been inspected." Captain Alan Johnson, Motor Vehicle Inspection Supervisor of the Texas Department of Public Safety, said this week.

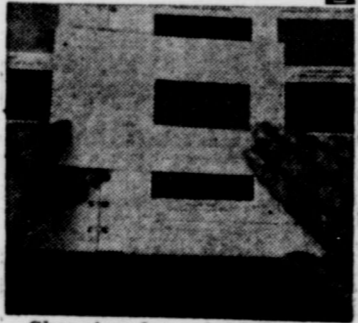

Unless the number of inspections is increased appreciably soon, long waiting lines will be forming at inspection stations when the April 15 deadline approaches. "The authorized inspection stations are ready and capable of handling the inspection of Texas registered vehicles without delay if owners will not wait until just a few days before the deadline," Johnson said.

"Any driver operating a vehicle registered in Texas, that is required to be inspected, on public roads after April 15 will be operating in violation of the law," he said.

Captain Johnson called attention to the fact that since the beginning of the inspection program, vehicles having a defect that was a causative factor in fatal accidents decreased from 13 per cent to 4 per cent. "The purpose of the Motor Vehicle Inspection Program is to discover any maladjustment which might become a link in a cycle of events leading to an accident and, by removing the link, prevent the accident," he pointed out.

How To Avoid Color Mistakes

Shopping for paint? You can make your color selection easier and avoid disappointment later by imitating a simple, but effective, trick used by the professionals.

Miss Irma Dutrieux, color styling director for The O'Brien Paint Corporation, suggests "isolating" the paint color before you make a decision. Whether you choose from a color card or color album, the color chip should be masked off from the other colors.

Reason? All colors are influenced by surrounding colors. Like people, the result can be either good or bad. You should see your color as it really is—alone.

For your mask, Miss Dutrieux suggests white cardboard with a rectangle or square cut in the center. It can be made small enough to fit the purse.

After "isolating" your color, here are two other professional pointers: (1) View your selection in both natural and artificial light. (2) Remember that the shade you pick may look as much as 25% darker after you get it on all four walls!

Pick
Freshness

Enjoy CUSTOMIZED COMFORT

with **CLEAN FLAMELESS ELECTRIC HEAT!**

One of the nicest features of built-in electric heating is temperature control. With built-in electric wall insert or baseboard units, any room can have its own thermostat and the temperature can be raised or lowered without overheating or underheating the rest of the house. The bathroom can be kept at 80° while bathing, then turned down afterward. The living area can be kept at a pleasant 72°, a bedroom at 65° for sleeping comfort. You use only the amount of heat you want, when and where you want it, without waste or discomfort. You'll find electric heat is sunshine clean, too. See your electrical contractor soon about modern electric heating in your home. Or call us for information.

January toll at approximately 200 persons, accidental deaths during the first three months of 1963 could be considerably higher," he explained. Musick noted that fires continue to cause most of the home fatalities during the first month of each year and that of the

recently reported fire fatalities and injuries many were caused by improper maintenance and use of heating equipment and unsafe practices.

Slippery steps and walks, plus bath tub accidents, caused many of the injuries from falls; and poor ventilation of homes was the contributing factor involved in poisonings from gases and vapors.

Musick said the apparent rise in home accidents has been partially attributed to unusually bad weather conditions, but pointed out safety experts figure nine of ten accidents of this nature can be prevented by

observing home safety rules. Musick said all combustibles should be stored away from furnaces, heaters and cook stoves to prevent fire.

Portable heaters, often used during extremely cold weather, should be placed well away from curtains, towel racks and bed clothing. Wet clothing should not be placed near or over a stove to dry.

All electrical equipment should be checked for frayed cords and other hazards, and wiring should not be overloaded by using too many appliances at the same time.

He advised senior citizens to use caution in walking and stepping and said hand rails should be checked for security. Rubber mats in bath tubs and grip bars can prevent serious falls which often kill or permanently injure an older person.

In concluding, the safety director advised home owners to check heaters for escaping gas and to make sure a window is open in the bed room when

sleeping — "whether you get your '40 winks day or night."

"Of the many remedies that won't cure a cold whiskey is by far the most popular."

Four different ways to make going more fun than getting there

You can see why one of America's favorite outdoor sports is driving Chevrolets, with four entirely different kinds of cars like these to choose from. There's the Jet-smooth Chevrolet, about as luxurious as you can go without going overboard in price (has lots of new lower upkeep features, too, like a flush-and-dry rocker panel ventilating system that helps remove rust-causing salt and slush); the new low-cost Chevy II, a good-looking, fun-loving car that would send any family packing; another perennial family

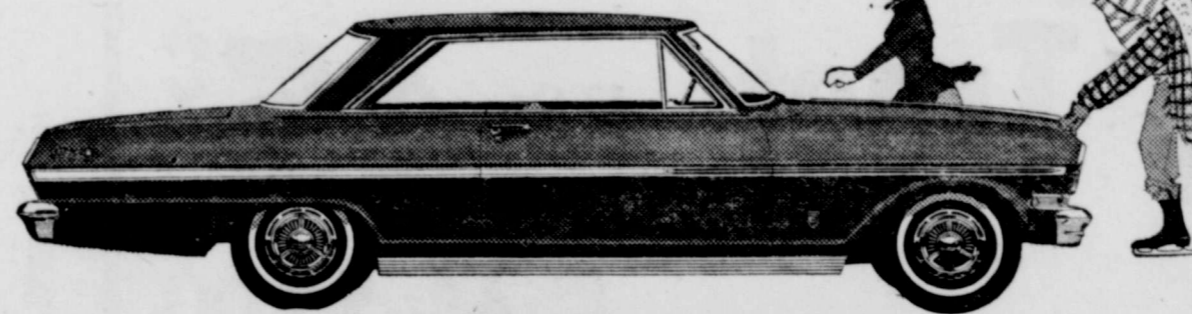

favorite, the sporty Corvair, whose rear-engine traction will make you think that ice and snow are kid stuff; and for pure driving adventure, America's only homegrown sports car, Corvette—now in two all-new versions with looks that can stop traffic like a rush-hour blizzard. Chances are you've already picked your favorite. The next thing is to take a turn at the wheel at your Chevrolet dealer's. If that doesn't have you thinking of places to go, you'd probably rather spend what's left of winter just having a ball around town!

Methodist Church Has Youth Banquet February 13

Youth Division of First Methodist Church was honored last night, February 13, at the Valentine Banquet sponsored by the Youth Division with aid from various School Classes. Each of the Youth Group electing King and Queen candidates:

7th Grade: Copeland, Bill Zimmerman

8th Grade: Greer, Walter Craft.

9th Grade: Scarbrough, Jimmy

10th Grade: Yarbro, Johnny Kars.

11th Grade: Harsh, Jackie Cornelius.

12th Grade: Goodwin, Charles Gal-

The banquet was beautifully decorated in the Valentine motif. Each candidate was escorted to a red and white archway where they were introduced to the group. Each queen candidate was presented with a red flower corsage. The winners of the contest were announced as follows: Queen — Donna Greer and King — Jackie Cornelius. The queen was then presented with a bouquet of red roses.

The King and Queen reigned over their court and some one hundred royal subjects with great majesty. The Court Jesters entertained with stunts, skits, and songs. Sandy Goodwin and Marvin Arthington entertained with a scene from a typical teen-age date. Sally Maberry and Larry Sullivan were featured in "Weather Report at the Lovelys". Oliver McDonald, Wayne Peters, Jimmy Creel, and Tom Harris presented the Soap Opera Tragedy of "Little Nell." The entire kingdom enjoyed a Bible Story and other activities. The banquet closed with the singing of "Tell Me Why" and the MFY Benediction.

Family FINANCIAL PROTECTION

Policyholder Questions Answered by the Institute of Life Insurance

Q. A friend of mine has more life insurance on her own life than her husband has on his. How can this be done and is it right?

A. This is unusual and as a rule is not the best arrangement. However, the best plan depends entirely upon the needs of each individual family, and there may well be cases where such an arrangement would be justified. They would represent families that have checked over their insurance needs and apparently believe that the wife's protection requirements are currently more important than

the husband's. Very likely you would find that they also have plans, as time goes on, to expand his insurance to a greater amount than hers. In a similar "wife insurance" case reported recently, it was developed that the wife's death would involve a huge budget increase for the family, to provide care of the young children and increased expenses due to the loss of her family management. The husband was determined he would not call on her parents for help in case of her death. At the same time, they felt that if the husband died, they wanted some basic cash and income, but the family would want to fall back on her parents for aid—hence, temporarily, they had less insurance on him, planning to add materially as able. Larger "wife insurance" amounts might also be found where the husband is now uninsurable or where estate taxes are involved.

Q. Would my family have to pay income taxes on the proceeds from my life insurance policies in the event of my death? I am trying to check out just what the family would have

A. Generally, the income tax does not apply to death payments under life insurance. The only exceptions would be cases where title to the policy had been transferred for value or where policy proceeds are paid in an income basis, in which case only the portion of income representing future interest earnings is taxable. This is true whether you have paid one small premium, or many years' premiums. There is a Federal estate tax which applies to wealth in excess of \$60,000 and your state may apply an inheritance tax, but the income tax does not apply. These policy proceeds are also exempt from the claims of creditors, which fact may not be important to you now, but is an added safeguard for the family in case of some unexpected financial problems just before death.

Sir Gordon Richards, English jockey, holds the world's record for winners.

The first zoo in America was at Philadelphia in 1874.

THE AMERICAN WAY

Relief Needed — From Politicians!

Flag Your Car

Hunters in open but rolling country in the West never get lost . . . but sometimes the way to the car wanders off. They stop at the hardware store and invest a couple of bucks in aluminum rod and put up a 25-or-so-foot pole with a flag at the top of it. Same trick might work in some of the big metropolitan parking lots.

Puppy Feeder

New plastic cups cottage cheese comes in can make a good puppy feeder. Get as many cups as you have pups and cut a one by six plank to receive the cups. Mount the plank on appropriate length legs (so pups won't step in them) and you can feed a canine army at little expense.

Winter Refrigerator
Incidentally, there's an easy way to keep things from freezing up when you're ice fishing. Just wrap perishables in a water-proof plastic bag and lower in water below ice level.

Field Cleaner
Bet you never thought of using a corn cob to clean your shotgun. Well a smart farm boy does and the cobs do a mighty fine polishing job when properly oiled. Push the cob through with a stick.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford

Texas — According to the House of Representatives Committee on the Governor's mansion, Howard Rose, assistant to Governor Connally, says:

On the north side, the man is settling so much, there are several inches between the floor and the bottom of the door. He added, there are cracks in the walls; a good deal of furniture needs re-stuffing, and the work won't work right for a row."

Rose says, "we have a coffee table in the room if you don't want to use the floor or balance your knee. In the Green Room there are no pictures. There are eight chandeliers of silver."

The Appropriations Committee Chairman Bill Heatly said to comment "I've spent between \$125,000 and \$150,000 in the last six years." Connally has not spent any money for repairs. He is asking for \$5,000 for each of the next two years to operate the mansion. \$5,000 for utility and \$2,000 for "other supplies."

Organize — The largest delegations in the Legislature have organized for the purpose of working together "for better

representation" of their regions.

An 80-member East Texas delegation elected Rep. John Allen of Longview as chairman.

About 30 West Texas legislators chose Rep. Richard C. Slack of Pecos as their leader.

Court Shuffle Proposed — Rep. Henry Stollenwerck, young attorney from Dallas, appears to be the most active of the seven Republican members of the House.

He is an aggressive participant in the five committees he's assigned to, and has co-sponsored several bills by Democrats. Stollenwerck feels he's been able to take an active part without defecting from the Republican political philosophy to which he adheres.

After Governor Connally chided Republican legislators for "obstructionism," Stollenwerck said, "The boys joke with me about what the governor said, and I just joke back and say I would be awfully disappointed if I thought he was talking about me."

He is author of a bill to move 12 district courts from places where filings and caseloads are meager, to more-populated locations with heavy caseloads.

District courts in this state have not been reapportioned since 1907. Several bills have been introduced by big city legislators who claim their towns need additional courts.

Stollenwerck said some East and Central Texas courts he proposes to move had only 150 filings in 1961, compared to 1,500 filings in many other district courts.

Game and Fish Merger Hot Topic — Rep. James Cotten's bill to merge the Game and Fish Commission with the State Parks Board — originally proposed by Governor Connally and the Legislative Budget Board — hasn't come out of committee yet. It's a most controversial subject.

Legislators are beginning to feel pressure from all directions. The South Texas Chamber of Commerce sent them copies of a resolution opposing the merger. Then the Sportsmen's Clubs of Texas issued a statement in favor of the plan.

If the Weatherford representative's bill passes, some of the six members of the Parks Board and nine members of the Game and Fish Commission will lose their posts, since the composite commission would be limited to three members. So some legislators are torn between loyalty to local appointees and a desire to "streamline" state government.

Budget Trimmed — Mean-

while, the current Game and Fish Commission ran into trouble with the Legislative Budget Board. Commission's executive secretary, Howard Dodgen, requested that during 1963 it be allowed to spend the \$9,199,000 it will have available.

But the budget board recommended a biennial appropriation of \$3,662,000 less than the agency requested.

Poison's Dangers Cited — Dr. Irwin L. Sawyer, Jr., of San Antonio, director of the State Veterinary Medicine Association, appeared before the House Central Committee on Criminal Jurisprudence in favor of a bill by Rep. Howard Green, Fort Worth, to banish thallium pesticides from the market.

Dr. Sawyer described thallium as a heavy metal, which is colorless, odorless and tasteless in sulfate form.

"When mixed thallium merely waits for a rat, a man, a child or a pet," he stated.

One reason it's so dangerous is that reaction to its poison may be delayed as long as 48 hours. Then it's too late for an antidote. "It's even hard to detect in post-mortem examination," said Sawyer.

Farmer Liability Law — Rep. W. T. Dungan of McKinney ran into some sharp questioning when he brought his bill before the House Judiciary Committee. Proposed bill would exempt farmers and ranchers from liability damage suits filed by injured sportmen.

"The hunter pays the farmer to go on his land," Rep. W. H. Miller of Houston remarked. "That puts the farmer in business. Why not exempt the hunter owner from damage suits filed by partons who slip on popcorn sacks?"

After several other similar remarks, Dungan allowed that the wording of the bill might be improved. But he insisted that such a law would encourage more farmers and ranchers to open their lands to sportsmen.

Deficit Down — Deficit in the State General Revenue Fund was reduced in some two weeks from more than \$60,000,000 to \$35,401,125, according to a report by State Treasurer Jesse James.

Sharp drop was due to quarterly payments on the state's two per cent sales tax.

Crime Spirals Upward — Texas' increase in major crimes during 1962 outstripped the population increase, according to Col. Homer Garrison, Jr., director of the Department of Public Safety.

Colonel Garrison said an offense was committed on the average of one every two and one-half minutes last year. Crime jumped 6.6 per cent over the 1961 total.

Largest increase by population groups was 14.7 per cent in cities between 50,000 and 100,000. Largest decrease was 15.5 per cent in counties with less than five people per square rural mile.

Appointments — Will Bond of Hillsboro was reappointed by Governor Connally to a six-year term on the board of the State Department of Public Welfare.

Bond's term was thus extended to January 20, 1969.

Hunter McLean of Fort Worth newly appointed member of the State Board of Insurance, was sworn in by Associate Justice Frank P. Culver, Jr., of the State Supreme Court in Senate Chamber ceremonies. McLean succeeds Dr. Joseph F. Trosper of Dallas whose term ended on January 31st.

Pensions Proposed — A bill to provide retirement pensions ranging from \$100 to \$300 a month for elected state officials has been introduced in the House.

Reps. George T. Hinson of Mineola and Joe Chapman of Sulphur Springs are the authors.

Hinson said their bill would pension the governor, lieutenant governor, state treasurer, state comptroller, land commissioner, agriculture commissioner, attorney general and members of Railroad Commission.

Revenue Not Enough — Senate finance committee is finding that the state does not have enough revenue in sight to "meet reasonable requests" of state institutions and agencies.

Sen. George Moffet of Chillicothe, chairman of the subcommittee hearing budget requests, told the Senate, "We can't add a lot more items without having a new tax bill."

Wrath of Ladies — Sen. Martin Dies of Lufkin says he is misunderstood by the ladies. He voted against the "equal legal rights" amendment passed by the Senate.

"I knew I was going to catch it from the women," Dies said. "I wish they could see that I'm not against women's rights."

Dies' quarrel is with the constitutional revision route taken by a Senate majority. He believes statutes operating against women in the management and control of property and other matters should be repealed selectively, without disturbing laws that give women needed protection.

Tourism Pushed — Texas business leaders are urging the Legislature to invest State money in tourism in order to get back millions in new revenue.

They estimate a return of \$7,500,000 in direct taxes for an initial outlay of \$250,000. That

Democratic freedom was fine for colonial America
but what will we have in 1976?

THE PEOPLE WANT TO KNOW— what is freedom?

Freedom is defined as the possession by law of the basic human rights of democratic liberty and the continuous enjoyment of those rights through the purpose and power of an honest government of law.

The basic human rights of democratic freedom evolved from the ideals and ethics of courageous men of good will during centuries of bitter struggle by the people against government greed, corruption, tyranny, injustice, and oppression.

FREEDOM DEMONSTRATION BY RUSSELL CHILTON HILL
© 1962 THE CHILDREN'S FUND, SAN ANTONIO 5, TEXAS

is the sum proposed for a new Texas Tourist Development Agency.

Governor Hospitalized — Governor Connally entered St. David's Hospital Sunday for a hernia operation. He will be away from his office for at least three weeks. However, he plans to conduct official business by telephone from the Governor's Mansion within three or four days after the operation.

Plaudits for Speaker — House Speaker Bryon Tunnell has plaudits from Junior Chamber of Commerce officials.

In a brief ceremony in the Capitol, he was awarded life membership in the state, national and local organization.

Tunnell was active for ten years in the Jaycees. He commended public service to all young people.

Care for Needy — Rep. Will L. Smith of Beaumont has introduced a bill to provide medical care for the needy, totally and permanently disabled persons not covered by the current program.

Smith says nearly 8,000 persons now benefit from the state needy disabled program.

Loan Fund Urged — A state bond issue of \$200,000,000 has been recommended by the Senate Constitutional Amendments Committee.

Purpose is to create a self-financing industrial develop-

ment loan fund.

Sen. Martin Dies Jr. of Lufkin, sponsor of the amendment says it is "a must" to enable the state to induce new industries to come to Texas and existing one to expand.

For Preservation — Reps. Stanley Boyesen of Yoakum and John E. Blaine of El Paso have introduced a series of bills authorizing the state, cities and counties to select and protect historic, archaeological and paleontological sites.

One bill would permit local taxes to be spent for the purpose.

Two other prescribe fines for destroying or defacing places marked for preservation.

On the state level, the Historical Survey Committee would advise the State Building Commission which structures and sites should be preserved.

Annexation Bills Unopposed — Two "compromise" bills aimed at curbing abuses of annexation powers by cities drew no opposition at a House public hearing.

Both measures would establish "buffer" zones adjacent to cities. Size of the zone would be determined by the city's population.

Cities could exercise regulatory powers over such areas, but could not levy taxes on the property owners prior to annexation.

In 1605, Guy Fawkes tried to blow up the English House of Lords.

Oberlin College in Ohio, was the first college to confer degrees on women.

AT YOUR FORD DEALER'S FRIDAY!

The Liveliest of the Lively Ones!

Meet Ford's all-new Command Performance cars fresh from their world premiere in Monaco! At center is the hot new Falcon Sprint V-8 that won first in its class at the famed Monte Carlo Rallye. Bucket seats, sports-type steering wheel, 164-hp V-8 and tachometer are standard. More news! V-8 engines now available with any Falcon! Top: the new Fairlane 500 Sports Coupe that took Alpine grades like a native. There's a choice of two V-8's and a vinyl covering in black or white for its Thunderbird roof. Foreground: new Super Torque Ford Sports Hardtop with V-8 zoom up to 425 hp and sleek new roofline. This beautiful new hardtop looks like a convertible!

America's liveliest, most care-free cars!

By George Rogers
 Thor Research Center
 for Better Farm Living

Many do-it-yourself fans brighten up when they see some new project or repair job to undertake. But enthusiasm dims when they descend into a poorly lit work area.
 It's easier to work quickly and accurately if you can see what you're doing. Yet many persons putter around with an old table lamp on the work bench.
 The resulting contrasts of glare and shadow are enough to make a man hang up his hammer for good. He might be better off, because inadequate lighting contributes to accidents and severely handicaps chances of doing good work.

Inadequate lighting contributes to accidents.

Proper lighting varies according to working area and jobs to be done. Requirements for a farm shop handling major machinery are greater than for a basement bench.

A good basic rule is to light both general and specific work areas, especially those where power tools are used. Then increase lighting efficiency by painting or adding walls, ceilings and floors with light colors.

A fluorescent ceiling fixture with twin tubes provides a good general illumination, lighting up broad areas, corners, drawers and shelves. Two 20-watt tubes give much more light than a single 100 watt or more set right over the work bench. Keep fixtures clean. Dirty bulbs can cut lighting efficiency in half.

A variety of portable lights for close work or jobs away from the bench can be built or bought. A caged service light can be hooked onto machinery and automobile hoods or suspended in mid-air from a small balancer at the exact point the operator wants it. A wall-mounted swing-arm lamp can extend over a big space.

(Readers may address handicraft problems to Thor Research Center, Marengo, Ill.)

There's a left-handed shoe polish can on the market . . . Martin Van Buren, our eighth president, was the first president to be born a citizen of the United States . . . Coffee consumption in our country is over 13 billion cups a year, more than four times that of 1920 . . .

The first and worst fraud is to cheat yourself.

THE AMERICAN WAY

We won't know how you feel.... unless you tell him!

Tomorrow may be too late

Democratic freedom was fine for colonial America but what will we have in 1976?

THE PEOPLE WANT TO KNOW - the source of freedom

As primitive men grew in intelligence and knowledge some developed such attributes of character as honesty, generosity, compassion, tolerance, and a sense of justice. These qualities are common to men of good will of every race, color and creed. These qualities of men of good will are the primary source of freedom's basic human rights.

FREEDOM BERNINETTES BY RUSSELL CHILTON HILL
 © 1962 THE CHILDREN'S FUND, SAN ANTONIO 5, TEXAS

Tame A Hornet's Nest

Must be many ways to get rid of a hornet's nest. (Belt and run!) This way insures no sting. Get a CO2 fire extinguisher and wait until night when the critters have all come home to roost. Cut off the nest and let loose with the CO2. Cold galvanizes the hornets in their tracks.

Fly Line Leader

A needle helps you make a neat attachment of a light leader to a heavy fly line. Thread leader through needle then run the needle up the core of the fly line for a half inch. Bring leader out and wrap around fly line at that point.

Reflecting Hound Dogs

Coon hunters wrap their hound's collars with reflective tape so the dogs stand out clear in the beam of a light.

A REAL MAN . . .

A real man never talks about what the world owes him, the happiness he deserves, the chance he ought to have, and all that; all that he claims is the right to live by and play the man. A real man is just as honest alone in the dark, in his own room, as he is in public. A real man does not want pulls, tips and favors; he wants work and honest wages. A real man is loyal to his friends and guards their reputation as his own. A real man is dependable; his simple word is as good as his Bible oath. A real man does not want something for nothing, so the "get-rich-quick" people cannot use him. A real man never hunts danger, and never dodges it when he ought to meet it. A real man is — well, he is an honest man, the finest, best, noblest, most refreshing thing to be found on all the green earth—unless it is a real woman.

DEVOL NEWS

Mrs. C. O. Woodley, Reporter

The Devol Demonstration Club met in the home of Mrs. W. C. Charboneau Thursday, February 14th for the regular meeting. Mrs. Charboneau brought the devotional and the Lord's Prayer was repeated in unison. Fourteen members answered to roll call, "What I Want in My Yard." After a business session the meeting was turned over to Mrs. Betty Dahms who gave a talk and showed slides on "Landscaping." Refreshments were served to four visitors, Mrs. Clark, Mrs.

Frank Grantz, Mrs. Bea McClelland and Mrs. Dahms. and these members, Mesdames Willie Cozy, Pearl Coker, Dollie Hardin, Guy Hutson, Ethel McCasland, Edd Morrow, R. A. Odom, K. L. Smith, J. B. Stevens, Nora Wood, V. J. Wilkinson, F. J. Uthe, C. O. Woodley and the hostess. The next regular meeting will be February 28th with Mrs. Pearl Coker in her home. Mr. and Mrs. Shelly Dodson of Frederick visited Mr. and Mrs. W. H. Stevens Sunday. Among those attending a showing of religious films at the Baptist Church in Grandfield Thursday night were Mrs. J. B. Stevens, Mrs. W. C. Charboneau, Mrs. Grace McClurkin, and

BANISH BAD WEATHER BLUES WITH A PATRIOTIC PICNIC

By Betsy Blake, Carnation Teen Committee

Looking backward to last summer's chuckles, forward to good times next summer, and wishing it were half past spring? Banish bad weather blues with a Fourth of July Picnic.

For a successful wintertime, you need finger foods, friends in casual clothes, and a tablecloth you can spread on the floor. Write ROCK, TREE, FLOWER, LAKE, ANTS on sheets of paper, place them around the room, add red-white-and-blue crepe paper streamers, and your landscape is complete.

Divide your friends into Democrats and Republicans for games. Have an oratorical contest (speech limit, five seconds) on the subject of How Many Objects Spin in the Stratosphere, Smokey the Bear, or anything else you please. Present the winners with little American flags (dime store variety). Or play Pin The Capitol On the Capital. Get a large photo of Washington, D. C., make your own cut outs of the Capitol Building, and borrow a handkerchief from Father for a blindfold.

Make your menu patriotic by serving Citizen's Sauce with July Fourth Franks, Public Spirited Pick-Up as salad, and a Star Spangled Banner Cake, with sparklers instead of candles. Creamy evaporated milk makes Citizen's Sauce so smooth, everyone will think you've been saucing around the kitchen for years. Your Public-Spirited Pick-Up is a finger-food salad—celery, carrot sticks, spring onions, cauliflowerettes, olives -- anything that can be eaten without benefit of knife and fork. With your Star Spangled Esmer be al-

ready baked or bought, all you do is broil your frankfurters, and prepare the sauce (takes minutes). Don't forget the buns and forget the mustard, please.

To make ten to twelve servings of Citizen's Sauce with July Fourth Franks, melt 2 tablespoons of butter or margarine. Stir in 2 tablespoons flour and 1 teaspoon salt and blend until smooth. Gradually add 2 cups undiluted Carnation evaporated milk and cook over low heat, stirring constantly, until thickened. Stir in 2 tablespoons prepared mustard and 1 tablespoon Worcestershire. Meanwhile, broil 2 pounds of frankfurters 3 to 4 inches from source of heat 3 to 4 minutes on each side, or until lightly browned. Heat or toast 10 to 12 frankfurter rolls. Serve with Citizen's Sauce.

The Carnation Teen Committee, made up of teens in schools across the country, make suggestions for this column. If you have an idea, or want a Teen Party Idea Booklet, write to CTC, 124 E. 88th St., New York 16, N. Y.

Eisenhower Asks Support for 1963 Heart Fund

EACH AMERICAN has a highly personal stake in the conquest of heart diseases, according to former President Dwight D. Eisenhower, Honorary Board Chairman of the American Heart Association. In a special statement, he said: "Your Heart Association is mobilized for the conquest of heart disease and I urge you to join with me in aiding the Heart Fund."

Lightning doesn't zigzag. It curves, twists, meanders, and branches off like tree limbs, but it doesn't travel downward in a series of sharp short angles. For about two cents an item, the Library of Congress will microfilm for you any book or document in its collection of 30 million items.

Slavery was abolished in the U. S. by the 13th Amendment to the Constitution in 1865.

WHY Seat Belts

Sponsored By BURKBURNETT STUDY CLUB

Q—Should more than one person use a single belt?
A—No. One passenger could injure another fastened within the same belt. The driver should ALWAYS have a separate belt.
Q—How tight should the seat belt be fastened?
A—A snug fit. Tight enough

to hold the occupant in place, but loose enough to be comfortable.

Q—Can the belt itself or kill users?
A—Chocking and lowering injuries occur six times often to non-seat belt. Belts do not pull across abdomen, and if properly will not slide down.
Q—Will seat belts tear or otherwise injure clothing?
A—When properly worn or-fast belts will not tear clothing.

Lanig - Bill Russell Crowned Queen At Sweetheart Banquet

Bill Russell and Lanig were crowned Sweetheart Queen and King at the Intermediate-Senior Sweetheart Banquet held February 12th at JanLee Baptist Church.

Trees covered with red were used to carry out the "Lover's Lane." The Valentine colors of white were used in decorations throughout the banquet. Adding to the romance were hearts, flowers, and candlelight.

Jr. University Study Club Held Valentine Dinner For Husbands

Thursday, February 14th the Junior University Study Club entertained their husbands with a Valentine Dinner in the Reddy Room at Texas Electric Service Company. The dining room was attractively decorated in Valentine motif and the focal point of decorations was a white heart which stood about four feet high.

The program for the evening was presented by Mrs. B. J. Vincent. The first part of the program was a skit entitled "The Tragedy of Little Nell," and was acted out by the following: Little Nell, Howard Clement; The Sheriff, J. B. Riley, Jr.; The Farmer, George Yarbro, and the Villain, Russell Kelly.

Another part of the program was a musical satire on Shakespeare's "Othello." B. H. Preston, Jr. portrayed Othello; Mrs. Russell Kelly, Desdemona; Finis Taylor, Iago; and Mrs. J. B. Riley, Jr., Emilia. Accompanist was Mrs. George Yarbro. The characters were appropriately dressed for the part portrayed, and the entire program was enjoyed by all present.

The following were present: Messrs. and Mesdames: Ralph Brookshier, L. J. Byars, Howard Clement, Zac Henderson, Russell Kelly, W. C. Koller, Floyd Marten, Ellis McCullough, B. H. Preston, Jr., J. L. Ragan, J. B. Riley, Jr., Gene Robertson, J. R. Sprague, Finis Taylor, B. J. Vincent and guests, Mrs. Bill McLean and the George Yarbro's.

CARD OF THANKS
We wish to thank our friends for their kind expressions of sympathy in our recent bereavement. Thank you for your prayers, flowers, cards, food, calls, and home visits. May God bless each of you.
The Earl Martin Family

1963 Texas Fine Arts Association Regional Show, March 10-31

This year's Regional Show will be held in the Gallery of the Wichita Falls Art Association of the Woman's Forum, 2120 Speedway. The show will be sponsored by Region 16. We urge all who would like to further the interest and participation in the arts to join with us in making this show better than the one last year.

The show will be judged with the Citation Winners being sent to Austin for the June-July Texas Fine Arts Association Citation Show. Honorable Mentions will be chosen to round out the show in the gallery. All work will be shown the first Sunday, March 10, 1968. The Gallery will be open on Sunday, March 10, March 17, and March 31, from 3:00 - 5:00 p. m.

Deadline for Entries: March 9, 10:00 a. m.

Classification: Painting and Drawing Crafts. All works must be original and not previously shown in the Regional Show. All paintings and drawing must be framed and equipped with screw eyes and wire.

Fees: \$2.00 - 1-3 paintings or drawings. \$2.00-1-3 crafts. Work chosen by the judge will remain in the Gallery; and then at the close of the show. Citation Winners will be sent to Austin.

For more information, please contact: Mrs. Betty Hansen, 2114 Sheppard, Wichita Falls, Texas, Phone 723-5474 or Miss Jennie Robertson, 3012 Speedway, Wichita Falls, Texas, Phone 767-4475 or Walter Ehlert, 1205 13th, Wichita Falls, Texas, Phone 767-7744.

Den 2-Pack 156

We met February 6, 1968 with our Den Mother, Mrs. Florence Gann.

We opened the meeting with the Cub Scout Promise. We went on a tour of the Burk Burnett Star newspaper company. We saw the printing press working. We learned how the linotype machine works and how type is set up. We enjoyed this tour very much and want to thank Mr. Pepper for taking the time to show us through the company and for explaining the many things that go into publishing a newspaper. Our closing ceremony was the Living Circle and the Law of the Pack.

Those present were Donald Vitale, Gordon McCluskey, Ronald Gann, Bobby Dilbeck, Roy Boswell, Ronald Rush and Jerry Williams.

Ronald Gann, Keeper of the Buckskin

Mr. and Mrs. Donald Dickson of Garland, Texas, are the parents of a baby boy, Robert Irl, born February 7th. Grandparents of the new baby are Mr. and Mrs. L. A. Dickson and Mrs. Betty Dickerson, all of Burk Burnett.

Saint Davis is the patron saint of Wales.

News From The County Agent

Beef cattle need a liberal supply of minerals for proper bone development and growth. County Agent B. T. Haws says that mineral supplements are no cure-all, but they are necessary for successful grassland production in areas where soils have become deficient in minerals. Minerals most likely to be needed by cattle are sodium, chlorine, phosphorus and calcium. You can supply sodium and chlorine by feeding common salt. The other two, phosphorus and calcium, can be furnished through mineral supplements.

An increasing percentage of specimens being received at the Southwest Screwworm Eradication Program's laboratory are being identified as "non screwworms" and as the program continues the ratio of non-screwworms to screwworms should continue to rise. Faithfulness on the part of farmers and ranchers in sending in samples will help hasten the arrival of that day when screwworms will be eradicated in the Southwest.

Many of the samples submitted by livestock producers have been identified as wool maggots or black blow maggot flies. These and several other larvae are similar in appearance and characteristics to the screwworm and are often found in the same wound, but do not cause the serious damage done by the screwworms. The non-screwworm larvae have a tendency to stay around the edge of the wound, feeding on dead tissue, whereas the true screwworm larvae feed on live tissue.

VETERANS

Questions & Answers

Q-What is the present maximum amount of a GI home loan the Veterans Administration will guarantee?

A-That part of a GI home loan guaranteed by the government may be up to 60 per cent of the amount of the loan or not more than \$7,500. The limit on direct loans made when no loans from private lenders are available is \$15,000.

Q-How does one get the free American flags for use at the funerals of veterans?

A-These free burial flags are used to drape the casket during funeral service of a deceased veteran with wartime service, discharged under conditions other than dishonorable, or with peacetime service for at least one enlistment unless discharged or released from duty for disability incurred in the line of duty. They are then presented to the next of kin. Flags may be obtained from VA offices and some post offices as well as from U. S. State Department offices overseas.

Circle 2 of W.S.C.S. Met In Home Of Mrs. G. D. Henson

Circle No. 2 of the Women's Society of Christian Service were entertained in the home of Mrs. G. D. Henson on February 11th with the Circle Leader, Mrs. Gilbert in the chair. The minutes were read and approved and the pledge to missions was taken up, also the love gift.

A short business session was held and the meeting turned over to Mrs. Melton the program leader for the day.

She told us the purpose was to give a report of the World Council of Churches that met in New Delhi, India, November 18th, 1961. Mrs. Melton brought the meditation on Jesus Christ the Light of the World. Then she introduced a panel that brought the program.

Mrs. Galloup was the moderator; Mrs. Melton represented Mrs. Williams; Mrs. Gilbert, Mrs. Jones, Mrs. Tucker, Mrs. Smith and Mr. Chambers was the voice of the from the audience. It was a very interesting program after which Mrs. Henson served a delicious refreshment plate carrying out the Valentine motif to the following members: Mesdames Galloup, Revier, Grace, Gilbert, I. Bruce, Tucker, Melton, Gage, Bazelle, Scruggs, Willis and one guest, Mrs. Bird. The hostess was Mrs. Henson.

SHARON ANN BOYLE ELECTED SECRETARY

Sharon Ann Boyle of Burk Burnett has been elected alumnae secretary of Mu Phi Epsilon, national music sorority, for the 1968 spring and fall semesters at North Texas State University.

A sophomore music education student at NTSU, Miss Boyle is also vice president of Music Educators National Conference and a member of Concert Band and Brass Choir.

She is the daughter of Mr. and Mrs. Nelson E. Boyle, 700 Meadow Drive, Burkburnett.

Blue and Gold Banquet Held Feb 11

Denners Phil Taylor, Den 3; Stephen Gande, Den 4; Randy Green, Den 1; Ronnie Gann, Den 2; and Mike Ganner, Den 6, blew out the candles on the cake when Cub Scout Pack 156 celebrated their birthday during their annual Blue and Gold Banquet.

The banquet was held February 11th at the Town Hall. Roy Harris, Minister of Education and Music at the First Baptist Church, gave the invocation. The Webelos Den presented the flag. Cub Scouts and their parents sang several old favorite Scout songs. Making a big hit with the boys as well as their parents, were members of the Sheppard Air Force Clown Club who provided entertainment for the evening.

Four new boys were welcomed into the pack and received their Bobcat pins. They were Leslie Hill, Ferry Williams, Mitchell Maddox, and Richard Mallory.

Advanced to Wolf Cubs were Ronald Rush, Brad Bellacico, Dwaine Askins, David Spinks, and Sam Hancock. Gordon McCluskey, Donald Vitale and Bill Poole advanced to Wolf and received Gold Arrows. Silver Arrows under Wolf were awarded to Ray Boswell, Bobby Dilbeck, and Steve Sutherland.

Advanced to Bear Cubs were Steve Sutherland and Ronald Gann. Gold Arrows under Bear

were given to Ronald Gann, Randy Green, and John Sanders.

Bill and Bob McBride were advanced to Lion and received the Gold Arrow under that rank.

Mike Tanner and Jackie Miller were given the Denner Stripes. Bill McBride and Tom Krause were presented the "Go Round Up Patch" for recruiting new Cubs.

Service Stars were presented to Ken Bailey for three years and Joel Rupard for one year. Officers for Pack 156 are Carl Sutherland, Cub Master; Ervin Goosens, Assistant Cub Master (Webelos); Jack H. Rupard, Pack Committee Chairman; Billy Askins, Committeeman; Awards; and Oscar McBride, Institutional Representative. Wolfe Ford is the Chartered Institution.

Den Mothers are Mary Rupard, Den 1; Florence Gann, Den 2; Mary Robertson, Den 3; Betty Lacy, Den 4; Zelma Sutherland, Den 5, and Gloria Pyne, Den 6.

Home Builders Class Met In Home Of Mrs. Revier

The Home Builder's Sunday School Class of the Methodist Church met in the home of Mrs. Rivier. The meeting was called to order by Mrs. Henry in the absence of our president, Mrs. Sadie Jones, who has been quite ill.

Song, "Help Somebody Today." Prayer was by Mrs. Tucker. The devotional was given by Mrs. Gilbert.

Refreshments were served to Mesdames Tucker, Kelley, Gage Lowery, Gilbert, Grace, Henson Bruce, Gloger, Gladys Henry and the hostess, Mrs. Revier.

Emergency Frying Pan
Who'd think of using a hula pan from your car as a frying pan if you got stuck in the woods. Well, you would... now!

"Let's Go Fishing"

WITH CATFISH PEPPER

Burkburnett Star-News Field and Stream Editor

memory of our great president, today will be correct many of the little that has been my disaster have told in the past NOT LIE.

was the time that upon asked by a lady who I had a very nice string of about thinking my angling slightly in error for told, "Trolling down a river." Now the TRUTH is, my intentions, but upon at the place that I had the car door slammed I got out to get my feet out of the trunk. The door slammed, bull jumping into the water. There were so many that they splashed all out of my fishing. I had to do was the bass up. I'm sorry that catch.

here was the 4th of my brother and I had a fifty-two channel cat of Diversion Lake. Upon examination carry many people, we finished to taking them green grasshoppers. didn't say crickets in- eliminate the need of. I don't know. Cric- ally wasn't the true or what we used was of cricket calls that play with. We simply these toys to the skis ected people. All that for us to do was fol-

low those skiers around and pick up the catfish that had swam themselves into exhaustion trying to catch those crickets, I've regretted this slight misrepresentation until today.

Another time that I had caught a large string of bass during a very bad sandstorm. I err'd. The wind was blowing so hard that my plugs would not fall, but upon seeing the bass start jumping out of the water, trying to grab the plug, I began to try to figure out a way of getting the plug down. Naturally the first thing that came to mind was to put a sinker ahead of the plug to give enough weight to overcome the wind velocity and this was what I told people, but again that is where the error came. The truth is I attempted to get these fish to follow the plug in and jump out on the bank, but the wind would blow 'em right back in the water. After trying this for several minutes, I simply let out line so the plug blew out over the pond and over the other bank. This let the bass have the wind to their backs so they jumped right out into grass, so you see if I had just left that sinker off when I first told this, my conscious would have been clear. By the way, this string of bass had to be thrown away. They had got so wet with sweat jumping for that plug that every one of them had taken pneumonia before I could get around

the pond to pick them up. Just hated to throw such a pretty string of fish to the cats.

Speaking of cats, makes me think of another little mistake of mine. Not being able to correct this one injustice will likely cloud my conscious to such a point that sleep will be difficult for me tonight. Upon pulling into the docks at Diversion Lake one day with a beautiful string of channel cats, the first question was, "What did you catch 'em on?" Again my answer didn't give the true picture. Why I'd ever tell a man that my bait was dill pickle juice is unanswerable. Due to the fact that this man was sneaky enough to send his wife to the grocery store the next day to buy a case of dill pickles instead of doing it himself is enough for me to keep the particular bunch of cats were taken to myself. More than likely you would doubt the truth anyway. Still bet that gentleman is having a hard time keeping the bait on his hooks.

Whew, what a relief to get all this out of my mind. It really feels good to unload oneself of their sins. Now that my mind is unburdened, I'm going to Electra, Texas and plead with a friend of mine to please (at least) split the webs on that ducks feet that he saw sitting on a phone wire.

Thanks George for making a truthful man of men. Amen.

REPORT FROM MOTOR TREND EXPERTS ON THE '63 RAMBLERS:

"Lean, clean lines...more room inside"

Rambler '63 WINNER OF "Car of the Year"

The award reads, "for outstanding design achievement and engineering leadership." Motor Trend experts saw it in the "lean, clean lines," with "more room inside for increased comfort." Hailed Advanced Unit Construction "... will take punishment longer... hold resale value." In ride, performance, long-life features, they found '63 Ramblers outstanding. See the value of the year, at your Rambler dealer.

Full room for six 6-footers. "Plenty of headroom, legroom."

Curved glass side windows, easy entrance

American Motors—Dedicated to Excellence

It's The Law In Texas

HISTORY OF WILLS
Courts see that your intention or "will" as to property is carried out after you die. Before then you may revoke or change

it any time. The passing of property to heirs is one of man's oldest transactions. As far back as the Egyptian, Assyrian and Jewish civilizations, we have wills written and witnessed on papyrus, clay tablets, etc. In one will an early testator left some of his property to his wife and named a guardian for his children. The Hammurabi code (2100 B.

C.) permitted a father by deed to favor his son. Under early Roman law the head of a house could tell the patrician assembly his wishes, but later Roman law favored a written will to keep the testator's plans secret until death. It also favored having a firm record of his wishes, not resting on memory. By 1200 A.D. the English law

of wills (from whence ours came), was quite well advanced: The church courts (like our probate courts) supervised disposition of property according to a "testament" of how the testator wanted his property to go. Church courts supervised personal property (movables like armor or personal effects); land was passed on by wills which

the king's court handled. Hence today we speak of "last will and testament" since English courts came to pass on both real and personal property, so that one court could handle the whole estate. English church courts had "executors" who carried out one's testament. To die "intestate" (without a testament) was almost like dying unconfessed.

Some times the church in the interests of a man's soul could give some of the man's goods to others besides his family. Then, as now, some property had to be left to the surviving wife and children. By the time of the American Colonies, the laws were well settled, and law courts, rather than church courts, administered and distributed estates here.

The Dominican Order founded in 1215.

Dad's steady influence is needed for...

LIFE'S OBSTACLES

We can easily see physical obstacles such as logs, boulders, and many other things that may be too difficult for our children to handle, but things that are not physical are not always so obvious. A young child needs help from his parents in spiritual matters too. The church can be an influence on children's lives, but when you, a parent, are taking part in church worship, you can be an even greater influence. Give your children, the leaders of the future, a hand now when they need it most. Take them to church regularly... and you too, will have a fuller and better life.

ATTEND CHURCH SUNDAY

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it is the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Democratic freedom was fine for colonial America but what will we have in 1976?

THE PEOPLE WANT TO KNOW—

where does freedom succeed?

Democratic government and the basic human rights of democratic freedom are suitable only for and can succeed only in a country where the national leaders and a majority of the people are informed, intelligent, capable, and courageous people who understand the value, and the obligations of freedom and determined to be free.

FREEDOM SERMONETTES BY RUSSELL CHILTON HILL

HOME

in inner or outer space
by ALICE CARTER

I used to think that my laziness was due to a vitamin deficiency or anemia. But ever the past few years I've discovered that I'm just a typical modern housewife who wants to do no more "homework" than is absolutely necessary.

After checking with various builders, I find that most homes built today practically run themselves because home owners want a minimum of maintenance chores and other physical activity around the house.

Leo Chmil, former president of the New Jersey Home Builders Association, says, "Women want a kitchen that has the latest appliances and floors, walls and bathrooms that can be cleaned easily. They want their kitchens only a few steps away from the laundry or play rooms."

New products that promise to ease home maintenance and save housework are first tried in model homes to determine home buyers' response. Sometimes the item is included at the buyer's option, but if the feature catches on, many builders start putting it in new houses and soon the product becomes standard equipment," he explains.

One of the newest labor-saving products for the home is "Marvethane," a clear urethane coating made by Sherwin-Williams Company. "Marvethane" provides a tough, durable finish that lasts much longer than regular varnishes on all types of wood. The coating can be applied by brush, spray or roller just like any other varnish.

Sherwin-Williams tells me that when "Marvethane" is used on floors, it gives a beautiful finish that needs no waxing or polishing. A few swipes of a damp mop makes the floor shine like new.

Waxing floors always has been one of my least enjoyable housekeeping activities, and if other women share my feelings, there probably will be a stampede to paint stores all over the country.

"Use urethane coating's feature" as a selling point to prospective home buyers," says Chmil. "If I can convince the wife that the urethane finish will save her housework, often times I've clinched a sale. Although the husband makes the actual decision to buy, his primary concern is whether or not his wife likes the house."

The Central Minnesota Council office of the Boy Scouts of America filled out for a merit badge in "Scholarship" Publishers of Webster's third new international dictionary added 50,000 words not included in the second edition.

Attention flower fans: Horticulturist David Burpee reminds us that America is the only major power without its own floral emblem. Wyoming's state flower is the Indian Paintbrush. Is it true? That the word "fecitious" is the only one in our language that includes all the vowels in order?

The weekly newspaper Grit reports that twenty-four per cent of U. S. families live in towns of less than 2,500 population, have a much higher rate of home ownership, own more cars per family, and are more loyal to brand favorites.

Certain women can't understand why certain women get up with certain men.

An Easter egg was sold recently at a London auction — for \$30,800. The pale green enamel egg — three inches from end to end — was commissioned by Russian Czar Nicholas II in 1916. The Lincoln Memorial in Washington has 30 columns, one for each state of the Union in 1965 when Lincoln died.

Better Health Through Knowledge

SEX-LINKED HEREDITY
Q. I recently heard my college daughter talking to a boy about sex-linked heredity. I was absolutely shocked! Can you advise me privately what this is all about? I want to talk with that young lady!

A. Before you do any talking, brush up on your science. The kids were no doubt discussing the new and exciting developments in genetics. Every cell in the human body contains 23 pairs of chromosomes (rod-like structures) which carry hereditary factors (genes). Normally, both male and female have 22 pairs of autosomes plus a pair of "sex" chromosomes consisting of two chromosomes in the female... one X and one Y in the male. Sex-linked heredity usually implies that the trait is due to a gene carried on an X ("sex") chromosome. Clear? If not, perhaps you should have a talk with your doctor... but you do the listening!

MUSCULAR DYSTROPHY
Q. I have two brothers who are victims of muscular dystrophy. Can the disease be inherited? If so, would my children be affected even though I show no signs of the disease?

A. Muscular dystrophy has been defined as a genetically determined primary degenerative myopathy. In other words, an inherited disorder of the muscles. There are several varieties of the disease. One, the Duchenne type, occurs almost exclusively in young boys and is inherited as a sex-linked recessive character. Efforts are now being made to identify female carriers of the inheritable factor responsible for most cases of the Duchenne type. If an accurate prediction which female relatives of patients with this type of muscular dystrophy would pass on the disease to their sons.

Modern Study Club Holds Valentine Day Dinner for Husbands

Two meetings of the Modern Study Club have been held recently. On February 9th we treated our husbands to a Valentine Day Dinner at Underwood's Restaurant. Web and Joanna Sharp, Jerry and JoAnn Thomas, Jerry and Pat McClure, Ted and Dorothy Harris, Bill and Nancy Boardman, Gad and Betty Garland, Bill and Hellen Reasoner, Bob and Jeanette Case, Charles and Martha Griffith, Martin and Selma Wright, Dude and Frances Smith, and Cleo and Lorraine Askins attended.

On February 18th a regular business meeting was conducted in the home of Mrs. Newt Crane with Wanda Pierce as hostess.

The resignation of Evelyn Maxwell was read and regretfully accepted. Dr. Bill Boardman presented an excellent program on dentistry. This subject brought out many questions from the members which were adequately answered by Dr. Boardman. JoAnn Thomas won the door prize.

Those attending were Dorothy Harris, Jeanette Case, Mary Joy Hagstrom, Nancy Boardman, Lorraine Askins, Frances Smith, Selma Wright, Barbara Bean, Wanda Pierce, JoAnn Thomas, Joanna Sharp, and Pat McClure.
