ANNUITIES FROM INDUSTRY

Payment of its 300th cash dividend to its 15,000 shareholders next April first sets a significant milestone for the world's biggest lockmaker and gives thoughtful Americans a suitable occasion for reflecting on the stability and productiveness of their industrial and business institutions through good time and bad.

For 65 years, since before the turn of the Century, Yale and Towne has paid a cash dividend each year—and in every calendar quarter since April 1, 1904 (the year T. R. was elected President).

Such consistent performance places this world leader in locks, builders' hardware and materials handling equipment in the ranks of the 54 famous American companies listed by the New York Stock Exchange as having paid at least one cash dividend each year since 1900.

Included with Yale and Towne in this distinguished roster are the Pennsylvania Railroad, whose annual dividend record goes back to 1848 and such pillars of progress and free enterprise as Singer Sewing Machine, Parke Davis, AT&T, Standard Oil (N. J.), American Tobacco, US Playing Card, General Mills, General Electric and United Fruit to mention just a few.

THE PUBLIC AND THE UNIONS

A number of Senators have proposed or will propose various kinds of limitations on the monopoly power of labor unions, and on an unbridled right to call and prolong strikes which are gravely damaging to the public interest.

These Senators are not alone. It should be clear to all—including the unions heads—that public sympathy for the organized labor movement, which was once overwhelmingly strong, has undergone a sharp decline because of labor excesses.

The New York newspaper strike is one example. So was the maritime strike along the Eastern Seaboard. So are shutdowns in missile and other defense installations.

The unions, to a large extent, have put themselves in the same position as did numbers of big businesses many

WASHINGTON AND "SMALL BUSINESS"

By C. WILSON HARDER

In a recent poll conducted by the National Federation of Independent Business, 76% of the nation's independent business and professional people voted in favor of cutting off all foreign aid to countries that do business with communists.

Probably one of the great concerns of the forthcoming Congress will be the groundswell of indignation over the mollycoddling of communism as evidenced by the results of the ballot quoted above.

In the last session of Congress, there was started a strong revolt against State Dept. domination which has long been a factor in U.S. public affairs.

For one thing, a major cut in foreign aid appropriations was made. For another thing, restrictions were placed on the type of aid that could be given to foreign nations. All of this met with strong opposition from the State Dept.

And now, throughout the land, there is a grass root uprising of sentiment quite contrary to State Dept. wishes.

Rather loosely organized, but apparently effective groups, nonetheless, are carrying on a boycott movement against the sales of goods made in communist nations.

© National Federation of Independent Business

The State Dept. attitude is that the people should not interfere in these matters, but let the State Dept. look after the people's interests.

But there seems to be a great reluctance to accept this doctrine. Somehow the American people have gained the impression it was only a mighty public outcry that forced the action which prevented Cuba from having the means of waging an atomic attack.

And even though this situation was only a few days away from becoming a reality, the State Dept. had done nothing to head off the danger.

Whether the people are right or wrong on this matter, they have apparently taken a position.

And this attitude will perhaps be the most powerful force at work in the forthcoming new session of Congress.

Congress is showing more and more an inclination to listen to grass roots opinions, despite partisan affiliations or connections.

This Congressional inclination augurs well.

It would seem apparent that so long as the people continue to take an active interest in what is going on in Washington, there will again be a government of the people. It may be ironic, but it also may well turn out in the long run that Castro unwittingly did more to restore democracy to the United States than any recent figure in history.

years ago. Greed, arrogance, and an almost total disregard to the public interest blinded these businesses to the restraints which are a necessary compliment of power, if power is to be tolerated. Legislation provided control. Now legislation must curb union monopolies in the interest of the rank and file of the membership, as well as everyone else.

PLAIN TALK

Secretary of State Dean Rusk, speaking in Los Angeles, declared that: "We in the Western Hemisphere cannot accept as normal any Soviet military presence in this hemisphere." We haven't quite accepted the "Wall" in Berlin as "normal", either, but we allowed it to be erected and have learned to live with it.

But Mr. Rusk also said: "Cuba will not become a base for offensive military operations against other countries of this hemisphere for the simple reason that it will not be permitted to play that role."

Which reminds us that Editor Hugh Ellis, writing in the Feb. 7th issue of the Kemmerer (Wyo.) Gazette on the White House luncheon for Wyoming editors, closed with this line: "The problem Cuba presents to the United States can only be solved by military action, the President said."

Car Inspection Deadline Near

With the deadline for obtaining inspection stickers drawing near, only 30 per cent of the vehicles in Wichita County have been inspected." Captain Alan Johnson, Motor Vehicle Inspection Supervisor of the Texas Department of Public Safety, said this week.

Unless the number of inspections is increased appreciably soon, long waiting lines will be forming at inspection stations when the April 15 deadline approaches. "The authorized inspection stations are ready and capable of handling the inspection of Texas registered vehicles without delay if owners will not wait until just a few days before the deadline," Johnson said.

"Any driver operating a vehicle registered in Texas, that is required to be inspected, on public roads after April 15 will be operating in violation of the law," he said.

Captain Johnson called attention to the fact that since the beginning of the inspection program, vehicles having a defect that was a causative factor in fatal accidents decreased from 13 per cent to 4 per cent. "The purpose of the Motor Vehicle Inspection Program is to discover any maladjustment which might become a link in a cycle of events leading to an accident and, by removing the link, prevent the accident," he pointed out.

HE ADVERTISED

"Stretch forth thine hand..." And the withered arm that stretched forth toward Him was made whole.

Today, the hands of Protestants reach forth...with help...to their brothers in countries over seas.

And doctors in many lands, supported by your Church, reach for the stretched arm of the sick child...and quickly the child receives a life saving serum or anti-biotic.

This Sunday, March 24th, stretch forth your hand...to help. Give and give generously during One Great Hour of Sharing.

VETERANS

Questions & Answers

Q—Can any wartime or peace-time veteran get a free physical examination from the VA?

A—To be eligible, he must have been discharged or retired under conditions other than dishonorable and must need the medical or physical examination to apply for certain Federal benefits. For example, the VA gives medical examinations for determination of the presence of a condition claimed to be service-connected, for Government life insurance purposes, and when application is made for hospital or domiciliary care.

Women who cook electrically know...

Electric cooking is CLEAN because it's flameless

A flameless electric range cooks with heat as clean as electric light—the same clean heat you use to iron clothes. There is no fuel grime to smudge your pots and pans, so they stay bright and new-looking. Clean-up time is reduced to a minimum.

Since electric cooking is flameless, there is no flow of air into and out of the oven, carrying heat and cooking vapors into your kitchen. Your kitchen walls, curtains and woodwork stay fresh and new looking with less washing and care.

Electric cooking also is cool, fast, accurate and economical. See your dealer and change now to a 1963 flameless electric range. Electric cooking is one of the nicest things about living better electrically!

FORECAST

Dr. Edward P. Cliff, Chief of the United States Forest Service, believes the South "will eventually at least double its present output of forest products while continuing to increase its timber reserves."

He observed that "great strides have been made in recent years in many directions. The South has consistently led the nation in tree planting and Southern Pine saw timber now exceeds the growth of any timber species in the country."

"The modern crop of Southern Pine, produced under good forestry practices, has quality as well as quantity. This quality is improving — so much so, in fact, that it will lead to many new and improved uses of wood as a building material."

Roger W. Babson Weekly Report

ROGER W. BABSON

Babson Discusses Salesmen
 When I was National Moderator of the Congressional Christian Conference I was asked for my answer to this question: "What business would Jesus be in if He were living today — surely He would not be a carpenter or fisherman?" To the above I replied: "My guess is that Jesus would sell life insurance."

This column is not a "plug" for any line of business. In fact, there may well be enough good life insurance agents today; but I know that Jesus would be in some useful work, and I think He would be a salesman. In fact, Jesus and His apostle Paul were the great salesmen of Christianity.

Need for Salesmen Today
 In a recent survey of American manufacturers and service organizations compiled in New York City, it was reported that their members are in need of 303,682 salesmen. They also strongly recommend a training course for salesmen, wishing that more colleges would teach practical salesmanship and courses in psychology, public speaking, and other subjects which would be helpful in honest selling.

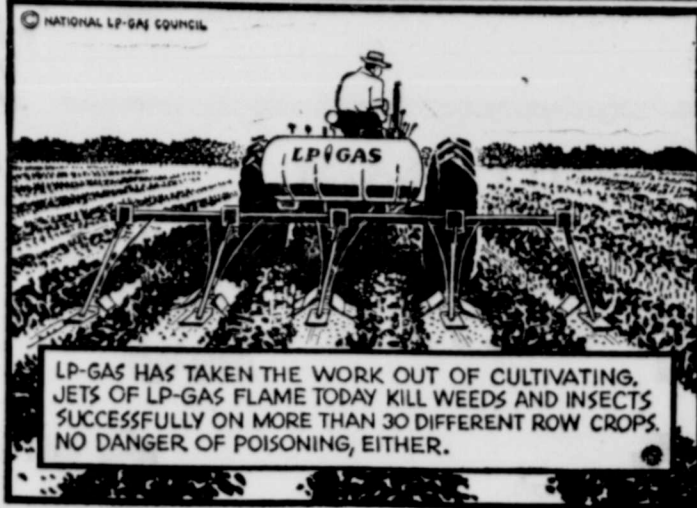

It is interesting to note that salesmen do not need to form labor unions. "Union wages" cannot be "sold" to salesmen. For labor knows that a salesman can always get what he is worth. The annual pay of salesman varies from \$6,000 to \$100,000 or more . . . according to what and how well they sell.

What About Radio and TV
 There is some fear that broadcasting tends to undermine — or make unnecessary or "short cut" — the work of the nation's salesmen. This may be true in the case of cosmetics, drugs, cigarettes, etc.; but it is not true in general. As we listen

THE CHANGING SCENE

50 YEARS AGO, EXTRACTING WEEDS STRANGLING GROWING CROPS WAS BACK-BREAKING LABOR WHICH WAS DONE RELUCTANTLY. THE WEEDS FINALLY WENT BUT DAMAGING INSECTS REMAINED.

LP-GAS HAS TAKEN THE WORK OUT OF CULTIVATING. JETS OF LP-GAS FLAME TODAY KILL WEEDS AND INSECTS SUCCESSFULLY ON MORE THAN 30 DIFFERENT ROW CROPS. NO DANGER OF POISONING, EITHER.

to radio or television, we are inclined to think that these much advertised products comprise an important percentage of the U. S. national income; but this is not true. With the exception of the auto industry, over 80 per cent of consumer products, real estate, and building materials are not being sold via broadcasting. Certainly, this 80 per cent leaves enough for salesman to work upon.

My estimate is that newspaper and magazine advertising gives the advertiser more for his money than does television. The latter reaches vast more people, but only a minute or two (although these ads are prepared with great care by very able and experienced specialists). To me one of the most interesting portions of a TV broadcast is the list of large number of concerns and individuals who were employed to prepare the broadcast. Readers will note that the automobile manufacturers are still using — and perhaps making even more important use of — newspapers and magazines to sell their cars. Such ads are on hand and available to readers for twenty hours or more; while the TV ads often are available for only twenty seconds at a

Salesmen Basis of Prosperity

Finally, let me say a word about the selection of salesmen. They should be men of character and with a pleasing personality. A good salesman believes in his product and in his employer. He honestly feels that he is serving his customers by selling them his "goods." He is convinced that full employment is dependent upon the nation's salesmen, whether his territory is international or only local. He believes that the future of America depends upon real industry, the number of homes built, the amount of clothing and good food sold . . . rather than upon the number of cigarettes or bottles of beer or quantity of cosmetics sold. If President Kennedy should ask me what he could do to help business, I would say: "Do more for the nation's salesmen. They are the basis of prosperity."

Policyholder Questions Answered by the Institute of Life Insurance

Q. What is a "termination dividend"?

A. Some companies pay a special dividend when a policy matures or is surrendered, and sometimes even when the policyholder dies. These dividends are based on the theory that there should be a partial refund of what the policy has contributed to the company's necessary surplus funds. Another view, however, is that each policy

should make a permanent contribution to surplus, since every policy has the added protection of the surplus that was built up before the policy was issued.

Q. I am buying a new life insurance policy. I am now 35 years old, but because it has been more than six months since my 35th birthday I must pay the same premiums as a person who is 36 years old. Isn't this unfair?

A. Not at all. Life insurance premiums are calculated by many companies on the basis of your nearest birthday at the time your policy is issued. This means the mortality, life expectancy and other tables that determined your premium rate were based on your company's experience among policyholders between 35% and 36%.

Some companies base policies and premiums on the calendar ages of new policyholders—that is on their last birthday rather than their nearest birthday. Even though you are past the half-way mark between your 35th and 36th birthdays, your company may be able to let you back-date your policy a few months in order to get the benefit of the lower premium rate at age 35. However, it probably would not be worthwhile for you to back-date your new policy more than a few months, because you would in effect be paying for insurance protection during these months when your policy was not actually in force. At your age, it would take about two years for your annual saving in premiums to offset the extra cost of back-dating a straight life policy by one month. After that, your saving on premiums would continue every year.

Federated Missionary Society Met March 1 In W. D. Short Home

The Federated Missionary Society met Friday, March 1st in the home of Mrs. W. D. Short with Mrs. Earl Van Deren co-hostess.

The President, Mrs. Van Deren presided. The meeting was opened by singing, "My Faith Looks Up to Me," followed by prayer by Mrs. Ady. Regular business was taken care of. Mrs. D. M. Morris, who had been ill, was welcomed back.

Mrs. J. H. Haley, presented a devotional "Cheerfulness: How to Over Come Gloom" using as Scripture John 16:33 and Proverbs 17:22.

Mrs. A. R. Bunstine presented as program — Thoughts From Footnotes" by Gaston Foote—"Church Babies." This was a very interesting and thought provoking article.

Delicious refreshments were served to Mesdames A. R. Bunstine, B. N. Cauthorn, W. C. Gage, Seeley Galloup, H. C. Gilbert, Sam Schrum, D. M. Morris, James Haley, J. B. Ady, W. A. Minick, G. R. Booker T. Washington School Scene Of Valentine Play

Booker T. Washington School was the scene of a Valentine Party given by the Den Room Mothers, and they also crowned one girl and one boy king and queen. Bertha Lee Sanford was crowned queen and Donald Ray Freeman was crowned king. Alfer Murry was princess and Ricky Harris, prince.

A group of girls dressed in Hawaiian costumes and performed the Hula Hula dance were Claretta Harris, Cheryl Ann Hicks, Linda Fay Freeman, Lesa Harris, Leon Baker, Adrianna Ayres and Shirley Freeman.

Presenting gifts were Tommie Lee Hicks, Keith Rorger, Emma Aily and Brenda Kay Jones.

Den Room Mother and President was Mrs. Levern Baker. It was a wonderful play and was enjoyed by all.

On May 24, 1830, the first train drawn by a steam engine rolled down twelve miles of track on the B. and O.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

Hearings — In two sessions in the Capitol and in the Houston State Office budget hearings are toward an end by the Finance and House Appropriations committees, and by Connally's budget groups have the most on how the state's \$1,000,000 income will be for the two years starting in 1964.

Figuring will determine the hearings by the Finance and Tax Com- munitally will turn into consideration of bills tax revisions.

likely that the first increase taxes will be one the exemption on out- ing under \$10, and other raise sales tax revenue \$10,000 a year.

Rules On Safety Law — Garrison, Jr., direc- State Department of safety cautioned drivers -owned vehicles that comply with the pro- of the state's responsi-

bility law.

Garrison said that a recent ruling by the Waco Court of Civil Appeals confirmed the fact that the law must be complied with by drivers of publicly-owned vehicles. The safety responsibility law requires everyone involved in an accident to show his ability to pay for damages caused by others.

This can be done by purchas- ing a liability insurance policy, by obtaining written releases from damaged persons; or by depositing cash in the amount of damages with the Depart- ment of Public Safety.

House Committee on Insur- ance has approved a bill by Rep. Robert Fairchild of Center which would strengthen and stiffen the safety responsibility law. Under this bill, if anyone failed to prove financial responsi- bility, the DPS could take his driver's license, as well as his car license plates.

Governor's Appointments — Governor Connally has made these new appointments:

Everett Fulham of Lubbock has been named to the State Securities Board.

Appointed to the Board of Regents of State Teachers Col- leges are Clayton Heare, Amar- illo; Otis Lock, Lufkin; and Dr. Jose San Martin, San Antonio.

W. S. Bellows, Jr. of Houston will fill the unexpired term of Joe Ed Winfree, also of Hous-

HOW FAST CAN YOU GO IN A COFFIN?

Next time you are tempted to step on it, ask yourself this question! Last year, 40,000 died on our high- ways. In 3 out of 10 fatal accidents, drivers were speeding. Obey speed limits. Drive safely.

Lynch Ban Constitutional — A law prohibiting lynching is constitutional, says Atty. Gen. Waggoner Carr.

Carr also held that Floyd R. Palmer Landscape Company can be held to a bid of \$16,161 for landscaping work around a state office building, even though the company says it will lose money on the project.

In other opinions, Carr said: A facility caring for six or less children during the day must be licensed as a commercial boarding house.

A county which purchases gasoline for its own use must pay the state excise tax, but is not subject to the federal excise tax.

Texans, buying and register- ing cars in other states, still must pay the 1.5 per cent tax on the purchase price if the car is operated in Texas.

New residents coming into the state, are subject to a \$15 use tax, he says.

Vendors Win — The state can- not collect the two per cent sales tax on sales through vend- ing machines, where each sale is less than the minimum 24-

cent taxable range.

Justice John C. Phillips of the Austin Court of Civil Appeals pointed out that the sales tax is a levy on the consumer, not the vendor.

"Vacation State" — a lady legislator believes the slogan "Vacation State" will bring Tex- as a bundle of tourist dollars.

Rep. Myra Banfield of Rosen- berg wants that slogan placed on all future Texas auto license plates.

She has introduced such a resolution in the House, asking that the Texas Highway Depart- ment order it done.

"Personally, I believe that tourism can bring more money into our state than any indus- try," she says.

Vaccination Reminder—Texas Health Department currently is reminding travelers to foreign countries of the need for cer- tificates of vaccination.

Citizens planning to go abroad

or visit the interior of Mexico must obtain a smallpox vaccina- tion certificate.

U. S. citizens returning from another country are required to have a valid International Cer- tificate of Vaccination or re- vaccination against the disease.

SHORT SNORTS

Texas again led the nation in 1962 as the foremost interstate highway builder, with 3,000 miles of highway construction contracts awarded during the year.

Rep. Bill Rapp of Raymond- ville and Rep. Maurice Pipkin of Brownsville introduced a bill to repeal the 1961 Sunday Blue Law.

State Comptroller Robert S. Calvert said a new cigarette vending machine permit — a gold pressure-sensitive decal — must be displayed on all ma- chines March 1.

Texas Railroad Commission ordered an oil allowable of 28 per cent for March. This would

be a production decrease of 56,- 559 barrels per day from the 29-percent February allowable.

On March 20, principal execu- tives from oil purchasers thru out the nation will come to Aus- tin to testify on the demand for Texas oil.

Savings and loan associations may operate multiple branches within the same city says the Third Court of Civil Appeals in Austin.

Form 1040A

Form 1040A is the easiest Federal income tax return for individuals to prepare. The 1040A card Form may be used by taxpayers whose income was less than \$10,000, and consisted entirely of wages reported on Withholding Statements (Forms W-2) and not more than \$200 total of dividends, interest and other wages, not subject to withholding.

Who Must File—Under \$600

If your gross income for 1962 was less than \$600 (\$1,200 if you were 65 years of age or over at the end of 1962), but all or part of it was subject to income tax withholding, you should file a return to get a refund of the tax withheld.

When Ford Motor Company was organized in 1903, Henry Ford refused a doctor's offer to invest money in the new company. Twelve men already had purchased stock and Ford feared thirteen incorporators would bring bad luck.

SUPER SPORTS—that's the only name for them! Four entirely different kinds of cars to choose from, including bucket-seat convertibles and coupes. And most every one can be matched with such sports-car type features* as 4-speed stick or Powerglide transmission, Positraction, tachometer, high performance engines, you name it. ■ If you want your spice without sacrificing the luxuries of a full-sized family car, try the Chevrolet Impala Super Sport. It's one of the smoothest road runners that ever teamed up with a pair of bucket seats. It even offers a new Comfortilt steering wheel* that positions right where you want it. ■ The new Chevy II Nova SS has its own brand of excitement. Likewise the turbo-supercharged rear-engine Corvair Monza Spyder and the all-new Corvette Sting Rays. It's simply a matter of deciding how sporty you want to get, then picking your equipment and power—up to 425 horses in the Chevrolet SS, including the popular Turbo-Fire 409* with 340 hp for smooth, responsive handling in city traffic.

It's The Law In Texas

FUGITIVE

In recent years, encouraged by easy travel, a number of people in trouble with the law have skipped out and gone

abroad. The law, or rather the lack of law, also serves to make such a trip attractive. For international extradition is not a world-wide extradition has not yet caught up with the jet age.

When a fugitive runs to another state, extradition is fairly easy. One governor asks the governor of the other state to

send the fugitive back home. But when a small country, the governor usually does this. But when fugitives flee abroad, international treaty governs extradition. If our treaty with the foreign country fails to cover the offense, extradition may not be possible since each country may interpret treaties in its own way.

One rule most often applied is that of "double criminality" which means the offense must be a crime in both the requesting and the asylum nations. Many countries, especially underdeveloped ones, do not deal with the same kinds of "business" crimes that we do. Everywhere murder and robbery are crimes; but not violations of banking

laws, or other kinds of business regulatory crimes and taxes. Many countries do not extradite for political crimes, but may grant asylum. In one case Russia sought to get its hands on an escapee charged with murder and arson which occurred in connection with political uprising. The U. S. turned down the request claiming the charge

was "political in character." In 1934 Germany sought to extradite a Jew for criminal trial. Again the U. S. refused because the Jew would not be likely to get a fair trial. Washington bid farewell to the officers of his army at Fraunce's Tavern in New York City.

Preparing for FLIGHT

The beautiful breezy skies turn our eyes upward to watch the flight of the kite and the soaring of the airplane. The pilot must prepare for his flight in order to remain aloft, to reach supersonic speeds, to soar to highest blue sky. In our lives, to prepare for the speed of our times, and to pave the way for soaring to the highest success in living, we need God's word as it is preached in His Church. Isaiah 41:31 reads, "But they that wait upon the Lord shall renew their strength; they shall mount up with wings as eagles; they shall run, and not be weary; and they shall walk, and not faint."

EVERYONE IN THE CHURCH
THE CHURCH IN EVERYONE

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Farm Facts

A microscopic worm-like parasite, the nematode, causes crop losses amounting to at least \$1 billion a year. Nematodes attack some of the five hundred different kinds of plants. A cubic foot of soil can contain 6 million of them.

Nematodes damage crops to the extent of \$1,000,000,000 annually.

Nematodes burrow into soil and suck the plant's juices. The roots can't absorb the plant food they get from the soil. While the plant may not die, it won't grow full and healthy, and yields will be reduced. Nematodes open the way for destructive fungi and bacteria. Greenhouse men have long been troubled by nematodes. They sterilize their soil with chemicals to control them. Crop rotations aid in nematode control and some varieties of certain plants are nematode resistant.

Soybeans, cotton, tobacco, sweet corn, strawberries, onions, carrots, spinach, seedling trees, nursery stock, sugar beets, flowering bulbs, potatoes, melons, and lawn grasses are among the many plants affected by nematodes.

An Ordinance defining food, potentially hazardous food, adulterated, misbranded, food-service establishments, temporary food-service establishment, health authority, utensils, equipment, etc.; providing for the sale of only unadulterated, wholesome, properly branded food; regulating the sources of food establishing sanitation standards for food, food protection, food-service personnel, food-service operations, food equipment and utensils, sanitary facilities and controls, and other facilities; requiring permits for the operation of food-service establishments; regulating the inspection of such establishments; providing for the examination and condemnation of food; providing for incorporation by reference of the 1962 edition of the "United States Public Health Service Food Service Sanitation Ordinance and Code"; and providing for the enforcement of this ordinance, and the fixing of penalties.

BE IT ORDAINED BY THE BOARD OF COMMISSIONERS OF THE CITY OF BURKBURNETT, TEXAS:

SECTION 1: The definitions;

the inspection of food-service establishments; the issuance, suspension and revocation of permits to operate food-service establishments; the prohibiting of the sale of adulterated or misbranded food or drink; and the enforcement of this ordinance shall be regulated in accordance with the unbridged form of the 1962 Edition of the "United States Public Health Service Food Service Sanitation Ordinance and Code", three certified copies of which shall be on file in the office of the City Clerk: Provided, that the words "municipality of Burkburnett, Texas" in said unbridged form shall be understood to refer to the City of Burkburnett, Texas: Provided further, That in said ordinance all parenthetical phrases referring to grading and subsection H, 2, e. shall be understood to be deleted; and provided further, That subsections H, 7, and H, 8. shall be

understood to be deleted.

SECTION 2: Any person who violates any of the provisions of this ordinance shall be guilty of a misdemeanor and, upon conviction thereof, shall be punished by a fine of not more than \$200.00. In addition thereto, such persons may be enjoined from continuing such violations. Each day upon which such a violation occurs constitutes a separate violation.

SECTION 3: Provided further that sub-section 12 of Section A of Part IV of said "United States Public Health Service Sanitation Ordinance and Code" shall be understood to be amended to read as follows: "12. Health Authority shall mean the City of Burkburnett Health Officer, and/or The Wichita Health Unit of Wichita County, Texas or their designated representative or representatives."

SECTION 4: This ordinance shall be in full force and ef-

fect 12 months after its adoption and publication as provided by law; and, at that time, all ordinances and parts of ordinances in conflict with this ordinance are hereby repealed.

PASSED AND APPROVED this 4th day of February, 1963, C. R. CHAMBERS, City Secretary

uary 7, 1963. Passed on second reading January 21, 1963. C. R. CHAMBERS, City Clerk. Passed on third and final reading, February 4, 1963. C. R. CHAMBERS, City Clerk

WHY Seat Belts

Sponsored By — BURKBURNETT STUDY CLUB

Q—How many belts can be installed per seat?
A—One per passenger.

Q—Why should children wear them?
A—Most of all, children should wear them. Never drive with a child standing up. A crash stop at only fifteen miles an hour can kill him in a split second. Parents can also drive better when both hands stay on the wheel — without the need to hold one arm out to keep a child from plunging forward.

Policyholder Questions Answered by the Institute of Life Insurance

Q. Why don't I receive dividends on my paid-up policy?
A. Most of the money that a life insurance company takes in each year comes from premiums paid by policyholders. A small additional amount comes from earnings on investments of funds the company has set aside to meet future obligations to policyholders.

Dividends to policyholders come from money that is left over each year after the company has met all its obligations and expenses and has added to its reserves and other necessary funds. These dividends are distributed in proportion to the amount that each policy contributed during the year through premium payments and earnings on policy reserves. Since you are no longer paying premiums, any dividend that the company might pay you would have to come from earnings on the reserves behind your policy. The company is already paying you interest on those reserves by adding to the cash value of your insurance each year at the rate stated in the policy—in your case, probably 3%. The company could pay you a dividend only if its investment earnings, after all taxes and expenses, were sufficiently above that agreed interest rate.

Some years, this may happen. But there also may be years when net investment earnings after taxes and expenses are not even high enough to cover the agreed interest rate on your policy. When this happens, the company has to take money out of its other funds to increase your cash value by the agreed amount. This money must be paid back out of future earnings before you can receive any dividend on your policy.

Q. Is a life policy ever issued without a medical examination?
A. Group insurance and small individual "Industrial" policies (usually for less than \$1,000) are nearly always issued without medical examinations. Many companies will also issue ordinary policies for moderate amounts without medical examinations to children and younger adults who have a good medical history.

News From Cong. Purcell

A large part of each Congressman's time at the beginning of each session of Congress is taken up with committee hearings. This session is no exception. Before any bill is brought up for consideration in the House it must go through the process of committee hearings and approval. It is some time, therefore, before many bills come up for a vote in the House.

In the Committee on Agriculture, of which I am a member, we are now engaged in extensive hearings on many subjects. We spend several hours each day listening to testimony on the various proposals submitted to Congress.

I have asked for permission to testify before two committees on bills which vitally affect our area. One is before the Committee on Ways and Means and the other is before the Committee on Appropriations.

I have asked for permission to testify in opposition to the tax proposals dealing with the oil and gas industry before the Committee on Ways and Means. The North Texas Oil and Gas Association, which is headquartered in Wichita Falls, has also asked for time to state the oil industry's case on these proposals. I will do my best to see that the discriminatory and unwise proposals which have been presented are not adopted.

The Sub-Committee on Public Works of the Committee on Appropriations will hold hearings this year on flood control projects. I have asked for time to appear before this committee on behalf of the Lake Kemp project. I will urge the committee to recommend to Congress the appropriation of funds for this badly needed project.

These two matters will receive a large share of my attention in the coming months. On February 28 I introduced a bill which would exempt farm trucks from the highway use tax. Under the present law all trucks except those operated by Federal, State and local governments are subject to this highway tax of from \$80.00 to \$180.00 annually if they use public highways at any time. I do not believe it was the intention of Congress to add this financial burden to the farmer who uses his farm truck only occasionally on the highways to take his crops to town and to take farm equipment and supplies to his farm. The bill, H. R. 4400, has been referred to the Committee on Ways and Means where I will press for quick and favorable action on it.

It would be impossible for me to adequately express my thanks for the wonderful appreciation dinner and other activities in Wichita Falls on February 23rd. Literally dozens of wonderful people devoted many hours to make this event a success. It was very gratifying to see such a large crowd at the dinner and the throngs at the Court House to welcome Vice President Johnson. As I said in my remarks that night, I feel that he is the greatest living

LET DOCTOR DIAGNOSE AND TREAT
Q. Is it possible for a doctor to determine whether the thyroid gland is functioning below normal without using the P.A.I. test? Would lack of energy indicate thyroid trouble? Would taking thyroid tablets be dangerous to a teenager?

A. Let's start with your last question. Thyroid tablets should not be taken without supervision. Lack of energy could be due to many conditions and not necessarily to thyroid deficiency. The thing to do is consult a physician, but don't go in with a preconceived opinion or notion of what tests should or should not be performed. After all, it's up to the physician to decide what is called for in the laboratory tests and treatment.

VINEGAR AND HONEY
Q. A medical book I have recommended a tablespoonful of apple cider vinegar and a tablespoonful of honey in a glass of water three times a day as a health drink. Is this good for?

A. We haven't the slightest idea. No doctor would object to a salad dressing prepared with apple cider vinegar or to a toast, but few indeed would attribute any special health properties to either vinegar or honey.

The Burkburnett Garden Club entertained the Senior Citizens, our Secret Pals, Wednesday, February 27 in the Reddy Room of the Texas Electric Service Company with Mesdames J. C. Adams, B. N. Cauthorn and A. R. Bunstine as hostesses.

The room was attractively decorated in yellow and gold motif, the focal point of the decorations was the tea table. Mrs. J. L. Caffee and Mrs. A. R. Bunstine presided at the tea table.

Each club member introduced her guest and presented her with a corsage. Mrs. A. H. Lohoefer in her very gracious manner saluted the Senior Citizens.

Mrs. J. L. Caffee, president, conducted a short business session, and the meeting was turned over to Mrs. D. C. Dodson, program leader for the day.

Mrs. Johnnie Herring presented her guest, Mrs. Ralph White, who gave a very informative talk on Hardin Park.

There were sixteen members present and ten guests.
