In Wichita and Cotton Counties ..... \$2.50  
Outside These Counties ..... \$3.00

## Look Behind The Money Screen

Only the letter "R" separates federal aid from federal raid.

This is more significant than coincidental. History has repeatedly shown that when Washington extends financial help to states and communities it also invades their prerogatives for self determination of their affairs.

Put it a little more bluntly, it is invariably the case that concealed by the "money screen," is a task-force of bureaucrats armed with regulatory powers that encroach on the traditional rights and privileges of states and communities.

Addition of the letter "R" becomes even more apropos when it is remembered that the federal government has no money of its own and in order to give it away it must collect it from the citizenry in taxes—or borrow it and make present and future taxpayers liable for its repayment.

Thus when it dispenses it largesse through aid programs the government must "raid" the U. S. Treasury which is the repository of taxpayer funds.

It would be well for all Americans to pay careful heed to the closeness of "aid" in considering the Administration's massive and costly aid-to-education program.

## The Two Purposes Of Advertising

Advertising can, and should, serve two major purposes. The most obvious is to sell a concern's goods or services, whatever they may be. This is essential and traditional.

But there can be more, much more—and that is advertising designed to instill faith in the system which makes it possible to produce, advertise and sell goods and services, in a climate of freedom. The "climate" is the foundation for successful production and sales.

The Freedom's Foundation each year awards it Geo. Washington Honor Medal—which is its top award—to an enterprise conducting a local advertising campaign furthering the cause of freedom.

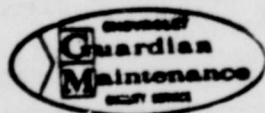

The 1962 Medal went to the Florida Power and Light

## AID OR RAID?

Company, which also won it in 1955. That made this utility the first two-time winner of the Foundation's highest award.

The 1962 advertising which won the honor pointed out the importance of maintaining the basic rights and privileges of our citizens. "Each ad in the series depicted a different phase of the American way of life—freedom of speech, the right to vote and many others—asking on each, 'Are we letting it fade away?'"

An officer of the company has said: "We have tried through advertising to awaken citizens to the value of our right and freedoms." What finer purpose can advertising serve?

## Grass Roots Opinion

FREDONIA, N. Y., CENSOR: "The Federal Aviation Agency's budget put the emphasis on spending for safety. That's easier these days than trying to save for safety."

LIBERAL, KAN., TIMES: "It's a bit hard to understand how a government now losing money can make money by reducing its income. It's like taking a pay cut to help pay your bills, only the Washington folks say it will work. Looks like it's about time Washington goes old fashioned and decides to live on its income, not monkey with everybody's affairs in the hope some easy miracle of prosperity without effort might be achieved."

## Vehicles Must Be Inspected By Apr. 15

Many motorists in Texas are going to be faced with long lines and waiting periods in order to have their cars inspected prior to the April 15 deadline. Only 39 per cent of the 586,270 registered vehicles in Region 5 of the Texas Department of Public Safety have visited safety inspection stations and obtained their 1963 safety inspection sticker, according to Captain Alen Johnson, Motor Vehicle Inspection Service of the DPS.

"All registered vehicles in Texas must be inspected by April 15 and have a 1963 inspection sticker on the windshield," Captain Johnson said. He stated that there would be no extension of the April 15 deadline and advised motorists who have not had their cars inspected to do so now, before the long lines start forming. "In the past, many people wait until the last few days of the inspection period to have their vehicle inspected and have had to wait for a long period of time at the inspection station," Captain Johnson stated.

According to the records of the Motor Vehicle Inspection Service of the DPS there are 51,428 vehicles registered in Wichita County and only 21,660 or 42 per cent of the vehicles have been inspected to date. Due to this low number the

## Notice To Bidders

Sealed proposals will be received by the City of Burkburnett, Texas, at the office of the City Manager, Jess Whatley, until 3:00 p. m. Central Standard Time of March 26, 1963, for the construction of certain water line extensions along Wichita Highway in City of Burkburnett, Texas.

At the above time and place proposals will be publicly opened and read aloud by the City Manager in the Council Room at this hour. Award will be made by the City Council at its special meeting, April 1st, 1963, for action.

Plans and specifications may be examined, without charge at the office of the City Manager, Jess Whatley, and may be procured at the above office or at the office of R. Ernest Lee, 4729 Neta Lane, Wichita Falls, Texas, with a deposit of \$25.00 as a guarantee of the safe return of the plans and specifications in good condition. No refund on Contract Documents and Plans returned later than ten days after award of Contract will be obligatory.

Attention is called to the requirements that there must be paid on this project not less than the general prevailing rates of wages which have been established by the City of Burkburnett, Texas, and specified in the Contract Documents.

A cashier's check, certified check or acceptable bidders, bond, payable to the city, in an amount of not less than five (5%) per cent of the largest possible total for the bids submitted, must accompany each bid. No bid may be withdrawn after the scheduled closing time for receipt of bids, for at least thirty (30) days. The City of Burkburnett, Texas, reserves the right to reject any or all bids and to waive formalities.

The successful bidder will be required to furnish performance and Statutory Payment Bonds in an amount of 100% of his total Contract written by a responsible Surety satisfactory to the City of Burkburnett, Texas. 27-3C

# BURKBURNETT... HISTORY

Revealed By The Star Files 10 Years Ago . . .

Recent visitors in the Buddy Fowler home here were Mr. and Mrs. D. C. Hamilton and family of Abilene, Texas.

Connie Stegall returned to her home here after spending several days in Abilene visiting her uncle, D. C. Hamilton and family.

Pat Crawford from Eastland, Texas is visiting in the home of Mr. and Mrs. J. W. Keller this week. Pat is testing for Magnolia Petroleum Co.

Miss Pat Ann Mills spent the week end in Vernon visiting her aunt and uncle, Mr. and Mrs. J. F. Anthony.

Mr. and Mrs. Emmert spent the week end in Port Arthur with their son and his wife, Mr. and Mrs. George Emmert, Jr.

Mrs. Tom Harms spent several days last week visiting with her son, Major Thomas H. Harms and family in San Antonio, Texas.

Mr. and Mrs. J. T. Gillis returned their daughter, Neda Kemp to San Francisco, where her husband is stationed at

Treasure Island. They returned to Burk last week.

Week end guests of Mrs. Buddy Fowler were Mr. and Mrs. Roy Fowler and family and Mr. and Mrs. L. L. Azell, Texas.

Glen Ray Moody, son of Mr. and Mrs. Emmitt Moody, stationed at Camp Polk, La., for basic training.

Mr. and Mrs. W. H. Moore from Lawton, Oklahoma, were week end visitors in the home of Mr. and Mrs. Buddy Fowler.

Dan Fowler was a week end visitor at the home of Freddy Hammett, Abilene, Texas over the week end.

Mr. W. T. Jenne returned home from the General Store this week and we are to report Bill is doing

Women who cook electrically know...

# Electric cooking is accurate because it's flameless

Good cooks know how important accurate cooking temperatures are. On every electric range, regardless of price, you get accurately measured heat on all surface units and in the oven. There's no guesswork. You just set the controls for the heat you want and you get exactly the same heat from the same switch setting every time!

Only an electric oven can be insulated all around, including the bottom. This is because an electric oven is flameless and requires no flow of air into and out of it to support combustion. Temperatures inside the oven remain constant and the heat is evenly distributed for best results when you are baking or roasting.

Electric cooking also is clean, fast, cool and economical. See your dealer soon about a modern flameless electric range—another appliance that adds to the joy of electric living.

# STATE CAPITAL Highlights AND Sidelights

by Vern Sanford

TEXAS PRESS ASSOCIATION

... Texas — A \$3,000,000 budget bill has been passed by the House of Representatives.

... cleared the House and went on to the Senate, the bill cleared several cries of protest from some who protested by requesting as too small some who claimed certain items were too big.

... Forrest Harding of San Antonio claimed appropriations for the State Armory Board and the State Board of Control were too small since they involved \$1,000,000 raises for executive officers of those agencies.

... Terry Townsend of Braintree, deputy commissioner of the Texas Education Agency, drew a total of \$14,800,000 from the Legislature authorized to be appropriated to cut \$250,000 from the newly-donated Balcony Ranch in Balcones as a state park. He said the money was needed to establish parks. But this bill failed.

... Cost of Flying — An attempt to cut a specific appropriation out of the budget almost was successful. James Cotten of Weatherford tried to get the House to cut the State Land office. He pointed out that \$100 is appropriated annually for operation and maintenance of a high-powered Land plane.

... showed a photostatic of the plane's flight log for the year ended October, 1962. He stated, "In a year's time 68 flights were made. Sixteen were test flights to familiarize the pilot with the plane before he broke the propeller when he collided with the plane in a hangar and had to take eight more flights to familiarize him with the new propeller!" Joe Chapman of Sulphur Springs disagreed. He said the

## Comment from the Capital — STRAIGHT TALK ABOUT AUTOMATION

by Vant Neff

Think of the changes in the way we live since the turn of the century. Wonder drugs save and prolong life. Jets circle the earth in 55 hours — astronauts in a little less than 90 minutes. Electronic teachers help children learn. Almost any civilized point on the globe is just a telephone call away. Climate can be controlled with air conditioners and humidifiers.

Is this bad? A lot of people seem to think so. Pick up an article about new machinery and production methods. Most of them never fail to mention the number of people forced out of jobs by advancing technology. One Gallup poll showed that people feared automation just a little less than Russia.

Labor leaders, reaching for another cold beer from a gleaming refrigerator, blame automation for the unemployment rate of 5%. Many union contracts place job security over wage demands. The union leader forgets that automation changed his old icebox into the new mechanical refrigerator. Only automation was called technology in the icebox days.

Automation is the effort to reduce human drudgery by machines and to get the most out of money invested in new plants and new machinery. Individual initiative and investment is what brings us all the booms of modern life. Does it make sense to junk this system in favor of featherbedding, restriction, obsolete methods and welfare hand-outs? The answer is no!

Automation was new in this country in 1784 when a continuous-process flour mill was invented by Oliver Evans. It was new in 1788 when James Watt made a flyball governor to regulate the steam from his engine. Had there been labor unions when the wheel was invented, I suppose they would have objected. The only thing new about automation today is its name.

Do you know who has been building the largest computer and how long it's been in the building process? The telephone companies. They introduced the dial phone back in 1920. About 96% of their 59 million phones are dial operated today.

In 1920 a cross country call cost \$16.50. Today it's \$2.25. Without automation, many of us would not be able to afford phones today, let alone make calls. If the telephone company had not begun installing automatic switchboards in the early 1920's, it would take

every woman between 18 and 30 in this country to handle the 90 billion calls we make a year.

Most of us are too quick to count the jobs lost when automation arrives. We forget the new jobs created. Automation builds new equipment and maintains it. It creates new markets through lower costs and prices.

Automation is just another word for progress. Economists have proven over and over again that most of our unemployment comes from individual mismanaging money; not from newer and quicker ways of doing things.

27.5 million Americans were employed in 1900. Today, we can produce that 1900 national income with only 11 million workers. Our population has increased 140%. We have many more people to support.

71 million people are employed today. The per cent of people actually working now has increased from 36% in 1900 to 39% in 1962. Yet, the average work week has decreased from 53 hours to under 40.

Only selfish men with puny minds will think they can halt the march of progress and invention. Such resistance to better ways of doing things may delay and handicap our national progress and our competitive position in the western world; but progress will not be stopped, and we would all be wise to recognize this fact.

Governor Connally has ignored the commission's suggestion. Rep. Dick Morgan, Republican from Dallas, chose "a good compromise." He introduced a bill to raise tuition to \$75 a semester.

Children of members of the Texas National Guard who have been killed in the "cold war crisis" since 1950 will be provided free tuition in state colleges, if a bill by Representative Parmer is passed.

States Rights Stand — The House passed a resolution to ask Congress to call a constitutional convention to leave legislative reapportionment to state legislatures. Rep. Bill J. Parsley of Lubbock said, "This may be the last time the state can take a stand on what may

## Family FINANCIAL PROTECTION

Policyholder Questions Answered by the Institute of Life Insurance

Q. How can I tell who would be the best life insurance agent to deal with?

A. Choosing a life insurance agent is like selecting a doctor, lawyer or other trusted adviser. One way to find an agent who knows his business and in whom you can have confidence is to inquire among your friends who have had experience with their own agents. Remember that an agent is successful because of the quality of advice and service he gives his clients. An agent who

keeps your friends' best interests at heart and serves them year after year may also be the best man to help you determine your own family's needs.

A good agent has been given extensive training courses by his company and is carefully schooled in serving the needs of his clients. In all states, he must secure a license from the state before he may solicit clients. In many states, he must pass a written exam.

Many successful agents belong to the National Association of Life Underwriters, a professional organization dedicated to high standards of service to clients.

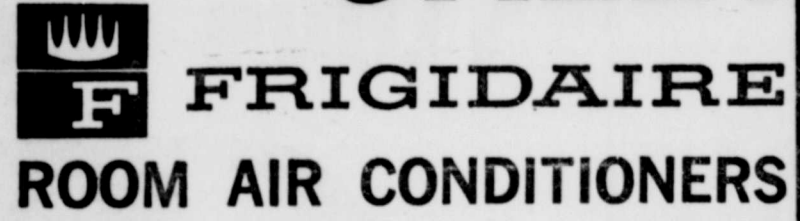

Agents who pursue advanced training can qualify for the designation "Chartered Life Underwriter" or "C. L. U." by passing a series of comprehensive, college-level examinations in all phases of life and health insurance. A C. L. U. must also have at least three years' experience in life insurance and must meet high standards of character and ethics.

An agent whose clients have had enough confidence in him to purchase \$1,000,000 of life insurance within one year can also qualify for the Million Dollar Round Table, an association dedicated to maintaining the professional qualifications of agents. Through seminars, forums and other activities, the Round Table keeps members up-to-date with latest developments in life insurance service.

The N. A. L. U. also sponsors National Quality Awards for agents who have distinguished themselves by serving their client's needs and ability to pay, so that their policies remain in force for years.

**Contemporary Study Club Met March 11**

The Contemporary Study Club met March 11th in the home of Mrs. Jim Maag with the president, Mrs. Joe Eastman, presiding.

A motion carried that we plant a tree at Sheppard Air Force Base, Texas. Plans were also made to help furnish decorations for the Santa Rosa District convention which is to be held in Vernon, Texas next month.

An interesting and inspirational program was given on the "Life of Billy Graham" by Mrs. Leo Evans.

Refreshments were served to ten members by the co-hostess, Mrs. Irvin L. Smith.

The door prize was won by Mrs. Leo Evans.

The shortest address made by a multi-term President — since that of George Washington — was the 563 word speech of Franklin D. Roosevelt at his fourth inauguration January 20, 1945.

**DRUG INDUSTRY URGES STRONGER FOOD AND DRUG ADMINISTRATION**

Washington — The Food and Drug Administration must provide "recognized scientific leadership" to help safeguard the health of the nation.

This opinion was voiced by the Citizens Advisory Committee on the Food and Drug Administration and endorsed by the Pharmaceutical Manufacturers Association, which represents producers of more than 90 per cent of U.S. prescription drugs.

The Food and Drug Administration is an agency of the U.S. Department of Health, Education and Welfare and is the channel through which most past the results of some \$250,000,000 spent each year on research by the prescription drug makers.

Following up on the report presented in October by the Citizens Advisory Committee is F.D.A. the F.M.A. statement calls for (1) A careful reorganization of the F.D.A. along the lines indicated by the Citizens Committee and (2) An adequate increase in the appropriation by Congress for the agency.

The association learned the committee report "required reading for all those interested in the health field." It singled

out three major points of the report for special support.

First, F.M.A. emphasized the need to upgrade scientific functions of the F.D.A. and to establish a Food and Drug Institute to consolidate these functions. Objectives to be accomplished by these moves were stated as "greater scientific contacts a-

mong industry, F.D.A. and leaders in academic medicine" and creation of "recognized scientific leadership from F.D.A."

Additional support was given the Citizens Committee recommendation to establish a National Food and Drug Advisory Council of prominent persons from science, industry, government and the public. The association said that such a group "would stimulate the F.D.A. to adapt itself more effectively to changes in the medical, scientific and sociological thinking of the outside world," thereby boosting stature of the agency and morale of its personnel.

The F.M.A. statement also asserted the prescription drug industry's desire to cooperate with the "genuine program of government-industry cooperation" urged by the Citizens Committee. The association emphasized: "The public interest can be served only when both parties discuss the complicated problems of modern medicine in a spirit of mutual confidence and respect."

The F.M.A. statement noted the burdens placed on the F.D.A. by the increasing complexity of modern science and the passage of new drug laws which will increase the agency's work load to "truly staggering proportions." Simultaneously it recognized the need to protect the public against dangerous or ineffective drugs, while avoiding any delay in making available new advances in medicine which will help conquer disease and lengthen human life.

"Accomplishment of these dual objectives can be assured, said the statement, if the F.D.A. is adequately financed and is soundly organized and staffed by individuals of high scientific and administrative stature."

**Holiday Idyll**

"Questioning is the King of the walk in Vernon, Arkansas. Clean-cut, well-dressed and soft-spoken speaker that's how the story starts. And what girl's dreamer like to be queen of the beach in a foreign land where romance, mystery, sun, swimming and other water sports are her mainstay?"

in many areas. They can be used with a septic tank if the tank meets the Minimum Proper Standards of P.H.A. These state that the septic tank should be 750 gallons for 3 bed rooms, 1,000 gallons for 4 bed rooms, plus 250 gallons for each additional bed room.

Each food waste disposer has a book of instructions. Follow the list of things you can and can't do and the disposer can save time and energy, as well as mess.

Mrs. Floyd Rodgers has completed plans made a couple of years ago for home additions. These additions include a lovely den with storage which is attractive as well as useful. The storage unit includes a business center which can double for a dressing table, when the den is used for a guest room. The additions also include a utility room, bed room, bath and pantry.

The pantry storage is well arranged. The shelves are just the right size. Everything is easy-to-see, easy-to-reach and easy-to-clean.

Mr. and Mrs. Rodgers have done a real professional job.

The Wichita County Program Building subcommittee on clothing has just completed the second in a series of work shop meetings on clothing care.

Mrs. Amy Walker, Home Service Director for Texas Electric Company, conducted this session on laundry equipment. She stressed getting the full value for money spent on equipment by using it.

Small cotton shag rugs can be washed, just as you wash your clothes. However, how they look after tubbing depends a great deal on your laundering methods.

First decide whether your washer can take your rug. Any rug of more than five pounds dry weight probably is a bit heavy for a washer and dryer regardless of size. Better send

heavy ones and those larger than three by five feet to a laundry.

If you decide you can wash your rug in your washing equipment, do so before the rug becomes very soiled. Vacuum it thoroughly first. Use hot water if the rug is quite soiled, warm water if it's not so dirty. Use the soap or syndet (synthetic detergent) you like for colored cottons.

Place one rug or two smaller ones in the washer. Be careful how you load some machines. Balance the load. With one rug you may have to add bath mats or bath towels for balance. A wash period of six to eight minutes should be enough. Rinse well to remove every bit of washing compound. Any left will increase future soiling.

A dryer fluffs shag rugs beautifully. Overdrying has a tendency to mat the pile, so check the drying time carefully. Rugs can be successfully dried on a line too, whether they are washed in an automatic or non-automatic machine. With a wringer type machine, loosen the rollers before you pass the rug through.

A fabric softener added to last, clear rinse water makes shag rugs more fluffy.

Mrs. Walker also gave many other helpful ways for using your laundry equipment.

The Third Work Shop session for "Improve Personal Appearance Through Proper Care of Clothing" will be Tuesday, April 2. Lillie Johnson, home economics consultant for the Southwest Area of Philco Corporation, will lead the work shop session on "Laundry Aids."

Miss Johnson works in Arkansas, Louisiana, Mississippi, Oklahoma, Tennessee and Texas. Her home office is in Philadelphia, Pennsylvania.

What else is there to talk or think about if you have a heap of unpaid bills?

**How to Get a Deeper View of the News!**

If you wanted to choose just one section of a newspaper each week in a quick way to become superbly "informed"—that section could be "Perspective" in The Houston Post.

Just as perspective is the way an artist projects depth into a picture, "Perspective" is the way Texas' greatest metropolitan newspaper projects to readers a deeper view of the week's news each Sunday.

A wide range of topics from world affairs to local politics, art, new books, science, and education are collected and brought into sharp focus weekly in this thought-provoking new Sunday Houston Post section.

"Perspective" is just one more reason why every thinking person will want to read The Sunday Houston Post, Texas' greatest newspaper. Subscribe today.

**THE HOUSTON POST**

Texas' Greatest Newspaper  
Writes and Edited to Meet Your Confidence

If you are considering buying a food waste disposer, study consumer information available. Suggests Thelma Wirges, county home demonstration agent. The agent and other county home demonstration agents from this area, recently attended a meeting where the food waste disposer was studied. They found that the market for disposers is good and that they are being added to many homes today.

Many people hesitate to purchase a disposal because of the trouble they have heard that others have had with them. Some of the most frequent "trouble" stories that circulate are that disposers will:

**Clog the drain.** They will not if used according to simple directions the manufacturer provides. Homemakers must learn to read directions. Miss Wirges reminds, Homemaking can no longer be done by guess.

**Have to be cleaned frequently.** If enough water is used during and after operating, the disposer cleans itself. Run cold water the whole time the unit operates.

**Uses too much water.** They use about 1 1/2 to 2 gallons a day per person — about 2 per cent more than the family normally uses.

**Aren't safe.** They are safe. Many have solid shredding tables or walls, eliminating the direct use of knives or blades; others have safety covers which keep fingers and foreign objects out and waste in. On some, the only moveable steel blade is beneath the revolving steel plate.

**Can't be used with a septic tank.** This is the \$64 question

**Burk Study Club Met In F. C. Roye Home For Study of Wisdom**

Widening Our Dimensions Through Wisdom was the theme of the Burk Burnett Study Club when they met in the home of Mrs. F. C. Roye with Mrs. Jack Smith as co-hostess. Program leader, Mrs. Harold Van Loh said that "Books Are Keys to Wisdom's Treasures," by Emilie Poulson.

The Pledge to the Texas Flag was given by club members. Guest speaker was Mrs. Archie Faulk, former member of the club and now a Home Economics teacher in the Burk Burnett High School. Her talk "Helps For the Texas Club Woman," was based on Vance Packard's Book, "Hidden Persuaders." She stated that only one in five women use personality in dress, and four out of five use only three colors, when there are actually 42. Nature gives you your face at twenty; life models it at thirty; and you get the one you deserve at forty. She recommended that we read "Fig Leaf" by Eva Murimans. Many interesting thoughts were given on Teaching Self-Improvement to teenagers.

Mrs. Hugh C. Preston, Jr., discussed Texas Writers. Texas became one of the first of the states to have her own Poet Laureate. She has also been influential in getting other states to do likewise. In 1932 the Forty-third legislature passed a resolution for the appointment every two years of a Poet Laureate to be chosen by a committee composed of the Govern-

nor, three Senators, and three Representatives. Judd Mortimer Lewis was selected at the first official Poet Laureate of Texas in 1932. The appointment is strictly honorary and carries with it no obligations or requirements, still it has become almost traditional that each person who has held the place has made some significant contribution toward the betterment of mankind.

Mrs. Harold Preston, president stated that thirteen members of the club had visited the Public Schools during public school week. She urged us to observe Wild Life Week which in March 17 through the 23rd. The General Federation President, Mrs. Dexter Arnold has a most interesting article in the March 9th Saturday Evening Post, titled, "Den Mother to the Club Women."

Plans were completed for the Pioneer Tea to be given March 21 at the Town Hall. Six members of the club attended the cooking school presented by Bills TV. Mrs. Jim Frye and Mrs. Howard Henderson won two of the lovely door prizes. The club

voted to help with the donation for the President's April 17th in Vernon at the District Convention.

Roll call was answered Texas facts. A delicious refreshment was served to nineteen members. Door prizes were won by Mrs. Glen Bear and Mrs. P. A. Carpenter.

If ever I build a church I put this sign on every door. "You are not too bad to be in. You are not too good to be out"

### Randlett News

Mrs. Mollie R. Elliott, Reporter

Mr. and Mrs. Wade Hunter of Lawton, Oklahoma visited Mr. and Mrs. N. O. Fisher Saturday evening. Mr. Hunter is a former pastor of the Randlett Assembly of God Church.

Miss Ellie Green returned home Saturday night after a two weeks' visit with her sister, Mrs. Anna Stevens of Merkel.

Mrs. C. H. Dunn received word Monday that her daughter, Mrs. Bill Null of Houston was to undergo surgery Wednesday.

Mrs. Tony Fortado and Miss Ocie Bowers of Wichita Falls visited Mrs. N. E. Kirkpatrick Saturday.

Mrs. Beulah Riley, Mr. and Mrs. A. J. Turner visited relatives in Ada, Oklahoma over the week end.

Mrs. Willard Wilson and daughter of Tulsa, Oklahoma visited her parents, Mr. and Mrs. M. H. Hyatt over the week end.

Mrs. Bill Harrison and children are ill with the flu at their home over the week end.

Mrs. R. E. Rhoads entered a Lawton, Oklahoma hospital Thursday of last week.

Mrs. Phillip Hatcher and son Wayne of Burkburnett were Sunday dinner guests of her parents, Mr. and Mrs. O. A. Bruce, then Sunday afternoon she visited Mrs. Flora Hatcher.

Mr. and Mrs. Jason Spangnel and children of Destinonia, Dale and Carol Spangnel of

Burkburnett spent Saturday night and Sunday with Mr. and Mrs. T. E. Spangnel.

Mr. and Mrs. C. E. Williams visited Mr. and Mrs. Clarence Danning and children of Wichita Falls and Mrs. J. S. Bowman of Burkburnett.

Mrs. Tiny Strange of Walters, Oklahoma visited her parents, Mr. and Mrs. M. H. Hyatt last week.

Mr. and Mrs. A. S. Nason accompanied by Mr. and Mrs. Wayne Boies and daughter Wynne of Wichita Falls attended the State Finals Basketball tournament held in Oklahoma City Saturday night. Mr. and Mrs. Nason had a grandson of Duncan, Oklahoma playing on the Duncan, Oklahoma team, and on the way home they came by Duncan and spent the night with Mr. and Mrs. Louis Dux, returning home Sunday morning.

Mr. and Mrs. Leroy Johnson and daughter Cheryl of Electra spent Saturday night with her parents, Mr. and Mrs. C. E. Williams.

Visitors Sunday at the home of Mr. and Mrs. Roy Williams of Devol, Oklahoma were Mr. and Mrs. Lewis Williams, Mr. and Mrs. Carl Turner and children of Randlett, Mrs. Sonya Green of Burkburnett, Mr. and Mrs. Leroy Perry of Dallas, Mr. and Mrs. Ellie Cagle and son Ricky of Temple, Oklahoma.

Mr. and Mrs. John Duke and children of Lawton, Oklahoma visited her parents, Mr. and Mrs. T. E. Spangnel Sunday.

Mr. E. L. Martin was reported ill at his home with the flu

### Promoted to Major

Word was recently received by Mr. and Mrs. D. D. Brown of Electra, that their son, Gene Brown, had been promoted to the rank of Major in the U. S. Army.

Major Brown, a graduate of Burkburnett High School and Mississippi Southern University, is a pilot and is stationed in South Korea at the present time. He has twelve years service in the Army.

The Browns are former residents of Burkburnett.

Monday Mr. and Mrs. Roland Stovall of Ryan, Oklahoma visited Mr. and Mrs. Henry Ennard Sunday.

Sgt. Maurice Brown of Randolph Field of San Antonio visited his parents, Mr. and Mrs. E. C. Brown, Thursday night.

Mr. and Mrs. Jerry Bowles and children of Walters, Oklahoma visited his parents, Mr. and Mrs. M. M. Bowles.

Mr. E. N. Bryes entered a Lawton, Oklahoma hospital last week. He underwent surgery Saturday.

Mr. M. W. Bowles and daughter Cindy are both reported ill with the flu.

Mrs. Raymond Hale, Mrs. Robbie Best and Mrs. Ella Penwell visited Mrs. Pearl Best in a Wichita Falls hospital Sunday. She had undergone eye surgery Wednesday for cataracts.

Mrs. Mollie Elliott accompanied by Mrs. Flora Hatcher visited Mrs. E. H. Rhoads and Mrs. Lonnie Boies in a Lawton, Oklahoma hospital Saturday eve. While there Mrs. Elliott also visited her son, David Elliott.

### Major J. A. Franks Serving With Air Defense Command

Major Joseph A. Franks, U. S. Army, son of Mr. and Mrs. L. E. Franks of 1821 8th Street Wichita Falls, Texas, and husband of the former Miss Manilla M. Milford of Burkburnett, is continuing to play a vital role as a key coordinator in the aerospace defense program of the 30th North American Air Defense Command (NORAD) Region with headquarters at Trux Field, Wisconsin.

The 30th NORAD Region uses men, weapons, and other material of the Army Air Force, Royal Canadian Air Force, and Army and Air National Guard, and it has aerospace defense responsibility in sixteen states or more than a half-million square miles in the United States and a large part of Canada.

Major Franks is the Logistics Officer assigned to the Plans Division of the 30th NORAD Region. He is a key member of an interservice, international team of aerospace defense officers who develop and update the tactical doctrine of the 30th NORAD Region. Through this team's efforts, the fighting power of elements of the Army, Air Force, USAF, and National Guard are integrated to form a tight wedge of aerospace defense for the midwest.

The work of Major Franks and his colleagues makes it possible to team the Army's nuclear-capable Nike missiles with the Air Force's supersonic manned interceptors and BOMARC B guided missiles to make up a force that can destroy entire fleets of enemy bombers trying to attack the continental homeland.

Before joining the plans staff at Trux Field, Major Franks was assigned as supply staff officer of the 8th Region, U. S. Army Air Defense Command (USARADCOM) at Ft. Sheridan, Illinois. He has served in the Philippines, in Japan, and in Korea and his decorations include the Commendation Ribbon with metal pendant.

Major and Mrs. Franks have a daughter, Margaret Elizabeth, 21.

### DEVOL NEWS

Mrs. C. O. Woodley, Reporter

The Devol Demonstration Club met Thursday, March 14 with Mrs. Dollie Hardin in her home for the regular meeting.

The President, Mrs. Cozby called the meeting to order and the devotional Psalms 23rd was read by Mrs. Pearl Coker. The Lord's Prayer was repeated in unison. Roll call was answered with a "Household Hint." Minutes of previous meeting were read and approved. Mrs. Cozby read a letter from Mrs. Dahms on club activities and goals set for this year. Clever pot holders were demonstrated by Mrs. O. G. Weaver and quilt blocks were exchanged by members. Little green ribbon bows were pinned on each one as they arrived by Mrs. Pearl Cates in observance of St. Patrick's Day. Lovely refreshments were served to two guests, Effie Clark and Raydean Shimpugh, grandsons of Mrs. F. J. Uhe, and these members, Mesdames Pearl Cates, Willie Cozby, Lillian Hutson, Ethel McCasland, Lucille Morrow, Beulah Miracle, Luella Odum, Minnie Smith, Verta Stevens, Loren Weaver, Nora Wood, Edna Wilkinson, Grace Uthe, Clara M. Woodley and the hostess.

Mrs. Guy Hutson visited her daughters, Mrs. C. L. Wells and family and Mrs. Jeraldine Weaver and Joetta over the week end.

Mrs. Pearl Cates is visiting relatives in Hot Springs, Arkansas.

A. L. Mays has returned home from a Frederick hospital and is said to be recovering nicely from an attack of pneumonia.

Mrs. Tom Monson underwent surgery in a Lawton hospital last Thursday and was reported as doing nicely.

Aubrey Mays is reported ill with the flu this week.

Mr. Earl Palmer was reported seriously ill over the week end at his home here. His condition was said to be some improved Monday.

Diane Teaff of Electra is a guest this week in the home of Mr. and Mrs. M. E. Wheeler

and children.

Junior Coker, Mrs. Pearl Coker and Jojo Champion visited Mr. and Mrs. Don Coker at Bowie Sunday.

Mr. and Mrs. Hill of Burkburnett were Sunday guests of their daughter and family, Mr. and Mrs. Andy McCasland and children.

Mr. and Mrs. Gordon Woodley of Wichita Falls visited his parents, Mr. and Mrs. C. O. Woodley Sunday.

Mr. and Mrs. Tom Noel and sons, Craig and Ron of Grandfield visited Mr. and Mrs. Harvey L. Doty and sons Sunday.

Mr. and Mrs. Harry Tarpley and son were supper guests Saturday evening of the Harry L. Doty's.

Mrs. A. J. Adams was reported on the sick list last week.

M. J. Heller

HER HEAVE-HO IS IN ORDER  
Rosalie M. Gordon  
America's Future  
of the craziest — and fiscal motions on how a government are com- of Washington these all dressed up in new like "modern" economics "New Frontier" thinking. ter what fancy phrases ed to describe these no- essentially the idea be- them is that government ke us prosperous by bor- and spending more than in, piling one deficit on another. This road to al bankruptcy has been ed by governments since gnining of time, always the same results. But that prevent certain New or thinkers from advocat- same disastrous policies ething new and forward- Chief among these New men is Dr. Walter Board of Economic Ad- That makes him the

## THE AMERICAN WAY

Why we need the Liberty Amendment!

grand exalted theorizer of the New Frontier. Dr. Heller thinks the American people need to accept this theory of his because, he says, we have "a basic Puritan ethic" against deficits.

If we have such an ethic and

it makes us suspicious of spending what we do not have, we ought to thank God for it and hang onto it. However, it does not seem to occur to Dr. Heller that perhaps this isn't Puritanism but just plain common sense. After all, the West Germans cannot be accused of having "a Puritan ethic," but they gave Dr. Heller a grand heave-to when he tried to sell them the same crack-pot economics after World War II. All they had was a good memory — a memory of what happened to Germany when she tried these same ideas after World War I.

Her government went in for heavy deficit spending in an effort to bring prosperity to her people. There was the inevitable inflation which economists like Dr. Heller told the Germans could be controlled.

**Remember When?**  
Do you remember when it cost us two cents to mail a letter? Now it costs five cents. When Germany started off on this slaphappy course after World War I, it cost one-tenth of a mark to mail a letter. By the summer of 1923 the cost of a postage stamp had risen to 300 marks. And then, the inflation got out of control, as always happens with all inflations caused by government borrowing unless the borrowing is stopped.

**Incredible But True**  
What happened in Germany may sound incredible, but it is true. By the Fall of 1923, the Germans were paying 75,000 and then two million marks for a postage stamp. On November 5th the cost of the stamp rose to ONE BILLION marks. And by December 1st, a postage stamp cost ONE HUNDRED BILLION marks and the inflationary chaos had brought complete collapse to Germany. Then she started over again. But under the same theories of cockeyed economics her government began building up the deficits again and finally wound up with Hitler, National Socialism and another war.

All this the West German leaders remembered when they told Dr. Heller, after World War II, to go peddle his nostrums elsewhere. We would do well to tell him the same thing.

**Keeping Warm At Night**  
It gets mighty cold in a tent at night — even in Texas. Stoves are bulky to take along on a hunting trip, yet campfires only takes care of your waking hours. You can carry the warmth of your campfire with you when retiring without smoke or mess, by heating a bucket full of stones red-hot. Then when you're ready to retire, just end-up the bucket over the hot stones inside your tent. It will give out sufficient heat to keep you warm for a long time.

What all of us want is a word of appreciation.

## Highway Patrol Investigate 16 Rural Accidents

The Highway Patrol investigated sixteen rural accidents in Wichita County during the month of February according to Sergeant E. L. Stroud, Patrol Supervisor of this area.

These wrecks accounted for one person killed, six persons injured and an estimated property damage of \$12,555.00. The rural traffic accident summary for Wichita County for the two months of 1963 showed a total of 34 crashes resulting in one person killed, fifteen persons injured and an estimated property damage of \$19,2525.00.

The Patrol Supervisor reported that a new hazard has been added to the traffic picture. You may not realize it but the current hiking fad has added an element of danger to driving. The sergeant added that everyone who decides to make one of these fifty mile hikes, or a twenty-five mile hike should be aware of the traffic dangers that are involved and also that all Texas drivers should be alerted to the fact that these pedestrians may cause a certain amount of danger. Hiking today is a great deal different than it was twenty years ago. With Spring just around the corner more pedestrians will be seen on our streets and highways and it is important that all drivers recognize this hazard

and be prepared to take evasive action if necessary. "Our records reveal that approximately ten per cent of all rural fatal motor vehicle accidents involved pedestrians dur-

ing the last few years and this figure was somewhat higher in our cities, which points out the necessity for safe walking as well as safe driving," the sergeant stated.

## JUST LIKE OLD MAN RIVER

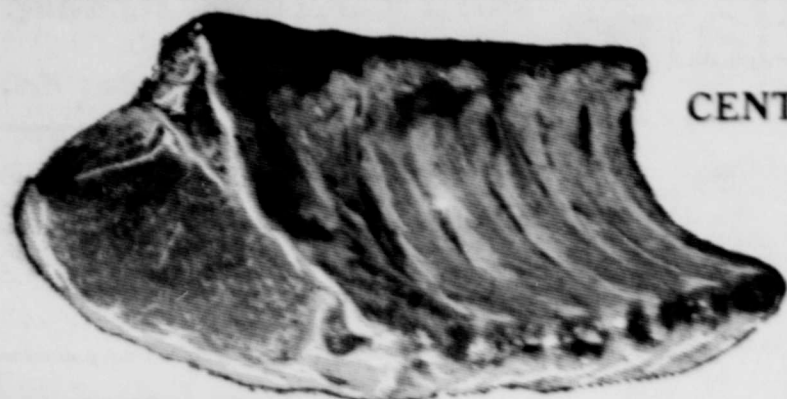

If you want a truck that does its work without yelling for attention all the time, buy a "new reliable" Chevrolet.  
You have to take care of it; it's a machine. But this isn't a full-time activity. The clear idea is that the truck works for you, not vice versa.  
The way to build such a truck is to put more quality into it. For example, Chevrolet doesn't build one type of suspension system for all sizes of trucks. Chevrolet designs suspension systems to fit your need. The light-duty type is strong on comfort. Another kind for heavier trucks stiffens up as you increase your load and vice versa. Make sense? Conventional pickups have double-wall construction in cabs, doors, lower side panels. Roofs are insulated. Body floors are select wood, not metal. Tailgate chains are wrapped in rubber. If you'd like to examine or drive a new '63 Chevrolet truck, just call us. We'll be right over.

## Member Of Commerce Reports On Recent Organizational Activities

Merchant's Council First 1963 Promotion Council, headed this Bob Monaghan, owner of Monaghan's Furniture and home furnishings, launched its first promotion of 1963 on Monday, March 18, with the George Birthdays Sale. The Council has elected to meet monthly with the Chamber of Commerce sending notices a few days in advance. Bob Monaghan urges all to attend the meetings and most important, to take part in the promotion. This will give every merchant a chance to express his views on retail promotions during the coming months. During a Council meeting, Bob Monaghan stressed the importance of merchant cooperation in the promotion of today's Mr. Dollar.

the Council had agreed to meet the Chamber's request. Certainly this is another fine gesture by the city and is greatly appreciated by the Chamber of Commerce.

### Texas Tourism Proves Itself "Big Business"

Recent statistics released by the Texas Highway Department substantiate that Tourism in Texas is "Big Business." According to department officials, the economy of the State of Texas received a significant thirty-one million dollar boost in 1962 as the Texas Tourist Industry registered a seven per cent gain. Tourists spent four hundred and seventy-one million dollars in Texas during 1962 according to a report by the department.

### Who Builds Breckenridge?

The following article is extracted from the Breckenridge American, dated May 20, 1962. The editorial goes like this—Who Builds Breckenridge? All the citizens of Breckenridge do! Not just a few. This is the simple, emphatic answer to the question posed above and an incident that happened this past week in our city proves the point. Civic leaders had been working for months on a project that appeared would eventually bring a total of nearly \$1,000,000 to our city. They felt they had it assured. Representatives of the company had visited the city on two different occasions, had looked at sites, and all concerned felt it was assured.

## HOW TO BATHE BABY — DAD-STYLE

Sometimes the new Dad hes to do a job that's second nature to Mother. Baby's bath, for instance. Here our expert shows you the easy way!

Any pan that's large enough will do—we use here a new bump-proof vinyl foam baby bath that's insulated to keep the water warm longer. Pour in two to three inches of water heated so that it feels comfortably warm to your elbow.

With clean cotton swabs moistened in water, gently clean ears, nostrils, and the creases around his ears and nose. Use moist cotton for his eyelids. After you've washed and dried Baby's face and hands, shampoo his hair. Rinse thoroughly.

Remove Baby's shirt and soap his chest, arms and hands—especially folds in neck, under arms, and hands. Keep him covered up as much as possible and work quickly, so lather doesn't dry on his skin. Remove diaper and soap lower body, legs and feet.

Keep firm grasp of his arm with one hand, supporting his back and head. Rinse with washcloth in other hand. Lift Baby back on table, cover with towel, and pat dry. Apply oil. Dad, you've done it. You've given your heir a professional bath!

With your hand under his armpit, thumb clapping his arm, turn Baby over on his stomach to soap his back. (Handle him carefully; he's slippery!) Then, support his head with your left arm, grasping his legs with your right hand, and lower him into bath.

Keep firm grasp of his arm with one hand, supporting his back and head. Rinse with washcloth in other hand. Lift Baby back on table, cover with towel, and pat dry. Apply oil. Dad, you've done it. You've given your heir a professional bath!

## Mrs. Charles Griffith Hostess For The Modern Study Club

Mrs. Charles Griffith was hostess for the Modern Study Club on Monday, March 18. Twelve members answered roll call with "Shopping Spree." Some members told of past experiences and others offered their ideas for the "dream" shopping spree.

The decorating committee reported progress in obtaining decorations for the Miss Burkburnett Pageant to be held in June this year. The pageant will be staged in connection with the annual Boomtown Celebration.

One of the highlights of our club year is the book review presented by Mrs. Fred Hunt. At this meeting Mrs. Hunt held our constant attention with a review of the book "The Moon Spinners" by Mary Stewart. Our thanks to Mrs. Hunt for her fine presentation.

Lorraine Askins won the door prize. Those attending were Mesdames Frances Smith, Tommie Sue Bavouset, Lorraine Askins, Pat McIntyre, Selma Wright, Janelle Lockett, Dixie Dillard, Pat McClure, JoAnn Thomas, Nancy Boardman, Martha Griffith and Helen Reasoner.

## Forum Study Club Met In Home Of Mrs. J. Wickersham

The Forum Study Club met in the home of Mrs. James Wickersham for a regular meeting. Mrs. Joe Wolfe, president, called the meeting to order. The club prayer was read and roll call was answered. Mrs. James Brockhaus read the minutes of the previous meeting and they were approved. Mrs. James Wickersham served refreshments to the following: Mesdames Gene Allen, Tom Burnett, T. M. Cornelius, James Brockhaus, Gene Bankhead, Edwin Green, Clyde McDonnell, Don Mills, Joe Wolfe, Lonnie Taylor and Lloyd Bloodworth.

## Mrs. Gene Bankhead Hostess To The Forum Study Club

Mrs. Gene Bankhead was hostess to the Forum Study Club for a regular meeting. Mrs. Joe Wolfe, president, called the meeting to order. The club prayer was read and roll call was answered. The minutes of the previous meeting were read and approved. Mrs. Clyde McDonnell on coming president gave her slate of officers for the next club year. Mrs. Joe Wolfe, gave the program that was arranged by Mrs. Edwin Green. The program was "The Easter Story" in colored slides.

Refreshments were served to the following members: Mesdames James Wickersham, Lonnie Taylor, Don Mills, Joe Wolfe, Clyde McDonnell, Wallace Landrum, Don Holtzen, Charles Goins, T. M. Cornelius, Tom Burnett, Gene Allen, and Gene Bankhead.

## CARD OF THANKS

The kindness and sympathy of neighbors and friends in our recent sorrow will always remain with us as a precious memory. Our sincere thanks and gratitude for all those comforting acts.

J. T. Day and Family  
28-11C

Visitors in the James Mason home last week were his mother, Mrs. M. B. Smith, and sister, Mr. and Mrs. Arnold Courington and Michael of Jasper, Alabama.

## IT'S THE LAW IN TEXAS

### Property Should Be Rendered To Tax Authorities

April 1 and May 1 are important deadlines for Texans to render their property to various taxing agencies. State law require all real and personal property to be rendered for taxes on or before prescribed dates. Those who fail to comply can blame only themselves for the money loss they may consequently suffer.

Some Texas cities set their own tax deadlines. These are the cities of more than 5,000 population which have incorporated under the "Home Rule" provisions of our statutes. All other cities are governed by the general laws of Texas.

In towns operating under the general laws property must be rendered for taxes between January 1 and April 1 each year. A number of home rule cities set up the same requirements in their ordinances, while others prescribe different periods.

For state and county tax purposes, property must be rendered to the County Tax Assessor by April 30, and homestead exemption must be claimed by the same time.

In some localities a third taxing unit is involved — the independent school district. In other places school taxes are collected by the city or county. In addition, some localities have water, irrigation, or levee districts which assess and collect taxes. Make inquiry as to where these various taxes are assessed and as to applicable deadlines for rendition.

What property must be rendered for taxes? If Texas laws were strictly enforced, we would be required to render to all taxing units every piece of real and personal property which we own, down to the very clothing

on our backs.

An exception is the constitutional exemption of \$250 worth of household furniture. However, no taxing unit carries its requirements this far, and it will be necessary to inquire of each tax assessor when rendering your property whether specific types of property are ordinarily rendered in that locality. Some cities and counties collect ad valorem taxes on automobiles, television sets and other personal items, while others ignore practically all personal property. Business and profession men are generally required to render all merchandise, furnishings, fixtures, business automobiles and equipment.

If property is not rendered by the tax payer, it may then be placed upon the unrendered tax roll, and the taxing agency places such valuation thereon as it considers fair. One advantage of rendering your property is that you can set your own valuation. Then, if the county or city decides a higher valuation is in order you will be given an opportunity to appear before a board to explain why the higher figure should not be used in computing your taxes.

Thereafter, an appeal to the courts is possible in some instances. Generally speaking, however, the courts are unable to strike out a valuation unless the agency or board has acted arbitrarily and placed the property a valuation higher than that placed on comparable property owned by others. If you do not render, the valuation set by the taxing agency is final.

Remember these facts: You may render your property at three or more different tax offices. Ask each tax assessor if in doubt concerning the deadline or the rendering of specific items.

Ez Tike comments that the only trouble with those big, thick, heavy towels supplied by luxury hotels is that they make your suitcases so hard to close.

## Civil Defense Preparedness

### PREPARE:

Your family shelter and equip with two-week supply of food and water, first aid kit, battery radio.

Evacuation kit for your automobile with food, water, first aid kit, battery or car radio, blankets.

### LEARN:

1. Warning signals and what they mean.
2. Your community plan for emergency action.
3. Protection from radioactive fallout.
4. First aid and home emergency preparedness.
5. Use of CONELRAD—640 or 1240 for official directions.

### WHEN THE WARNING SOUNDS

A STEADY BLAST OF 3 TO 5 MINUTES  
Means ATTACK PROBABLE — TAKE ACTION  
AS DIRECTED BY LOCAL GOVERNMENT

Tune your AM radio to a CONELRAD frequency (640 or 1240) for official directions. Proceed accordingly to your community's emergency action plan. Don't use the telephone.

### WARBLING TONE OR SHORT BLASTS FOR 3 MINUTES

Means: ATTACK IMMINENT — TAKE COVER IMMEDIATELY IN BEST AVAILABLE SHELTER.

In a building: If there is no prepared shelter, go into a basement or to an interior first floor room. Stay in shelter until you get word you can leave. Outdoors or in a car: Go to nearest shelter. If you cannot reach prepared shelter lie flat on the ground face down, or crouch on floor of car.

A rubber stamp is the greatest labor and time saving device of the modern bank, office or factory. Used in countless ways for the small investment involved it has no equal in business equipment.

**Applications Open  
Jr. Sr. Life Guards  
At Burk Swim Club**

The Burk Swim Club Board of Directors met in the Reddy Room for their regular March meeting. Applications will be accepted

by the Directors for Pool Manager, Senior and Junior Life Guards. All applications must be sent in letter form. All Life Savers applicants are required to have Red Cross Life Saving Courses. Committees were named to have the pool and bath house area improvement complete for a clean and safe swim season.

A bicycle rack will be built by E. M. Mullins. Two new diving boards will be installed. Season tickets will be offered to family groups again for the public and Burk Swim Club membership holders. Also regular admission or books of 12 tickets will be available. Swimming class plans will be announced in the near future.

Any one interested in paying their membership pledges may contact a member of the Board of Directors. Sincere appreciation was expressed by the Board of Directors for the many projects and special donations made by civic minded citizens and clubs last year and to those paying season passes. All together making

a successful season and the Directors are happy to announce \$4,000 and interest was paid on the note. The balance due on Swimming Pool Property is now \$4,500. Ray Anderson and Dr. Davey were unable to attend because of illness. Other Directors and officers are Earl Martin, H. R. Hays, Harold Van Loh, Finis

Taylor, Paul Fisher, Mrs. H. C. Preston, Jr., Mrs. Bill Vincent, and Mrs. Ralph White. Mail all applications for Pool Managers or Life Guards to Ray Anderson, Water Safety Chairman, 800 N. Ave F. The next regular meeting of the Board of Directors will be April 2nd at the Reddy Room. The date for the Annual Mem-

bership meeting will be the next meeting. CLUB ROOM Father: "We don't want son's friends running around in the basement." Neighbor: "Oh, I see a wreckreation room."

**PAINT . . . Protects wood and metal  
GOD'S WORD . . . Protects the soul**

As paint protects wood and metal from decay, rust, and corrosion, so the promises found in God's word protect the soul from the evils of sin, anxiety and despair. Hear God's wonderful promises proclaimed from the pulpit in the church of your choice this Sunday. These promises so heard will accomplish wonderful things in your soul and heart, for God says of His Word, "It shall not return unto me void, but it shall accomplish that which I please, and it shall prosper in the thing whereto I sent it." Isaiah 55:11.

## Wilbarger-Wichita SOIL CONSERVATION DISTRICT NEWS

Farmers and ranchers in Iowa Park area are showing a high interest in coastal bermudagrass, according to Elvy Sargent, Iowa Park, Soil Conservationist.

The Great Plains Conservation Program has several producers making preparation to establish coastal bermudagrass. Steve Gose will establish 20 or more acres; James R. McKinney, 80 acres; John R. Jones, 7 acres; and Clyde E. Robertson, 46 acres; Seventy-Seven Ranch will be one of the larger sodding operations through Soil Conservation District plans.

Great Plains Conservation Program and those with prior approval through Agricultural Conservation Program may receive cost-share.

With the amount of coastal bermudagrass established, and being established management becomes more important. Soil Conservation Service recommends that grazing be delayed until grass is well established. After grass is well established rotation of grazing or haying should be done about each twenty-four to twenty-eight days. The harvest height should be about four inches. Fertilizing should be according to a recommendation based on soil test. If a soil test has not been made, three or four applications of sixty-six pounds per acre of nitrogen for each application. Grazing should be delayed in spring until grass grows to an approximate height of eight inches, harvest down to about four inches and repeat this un-

## IT'S UP TO YOU

By Howard E. Kershner, L.H.D.

ALMOST everyone wants to improve his position, to have more and better things, a higher standard of living. Fortunately in a free market the only way to achieve these things for oneself is to improve the lot of others, to offer them better goods and more desirable services at less cost. The one who does that prospers.

The relative abundance achieved in the Western countries is the direct result of the operation of the free market wherein many people, in order to have more themselves, have been obliged to do many things that have improved the standard of living for all the people.

How fortunate that the profit motive drives people to work for the benefit of others in order to achieve something for themselves. There never has been a better illustration of the Master's great statement, "And whosoever will be chief among you, let him be your servant." (Matthew 23:27). The free market is the testing field where that principle is worked out in practice. If allowed to continue it will overcome poverty and provide abundance for all men.

Not all of the founders of our country were Christians. But all of them, so far as I have been able to ascertain the facts, believed in God and recognized Him as the author of liberty—that it was a gift of the Creator.

Even Thomas Paine, often accused of agnosticism and even atheism, recognized this fact. In "Thoughts on Defensive War" he wrote:

"Till the coming of Christ there was no such thing as political freedom in any known part of the world... the Jewish Kings were in point of government as absolute as the pharaohs... the Romans held the world in slavery and were themselves slaves of their emperors... wherever political as well as religious freedom is the gift of God through Christ."

Christian Free Press Foundation, Inc. New York 19, N. Y.

til fall. By resting in spring and fall, more production can be expected due to development of root system, Sargent added.

## COLOR CONSIDERATIONS

In choosing colors for wood paneled walls, the type and purpose of the living area should be considered.

According to the Southern Pine Association, "cool" colors are relaxing and hence desirable in sleeping and study areas. Stimulating "warm" colors are preferable in the family room and entertainment quarters.

The sunshiny golden hue of Southern Pine is a "warm" color which is left unchanged with a natural finish. However, any of the "cool" colors can be applied simply by tinting the finish with oils. The applied color is transparent to expose the grain and look just as natural as the wood's actual hue.

The English House of Parliament consist of the House of Lords and House of Commons.

Democratic freedom was fine for colonial America but what will we have in 1976?

### THE PEOPLE WANT TO KNOW—

*freedom is difficult to maintain*

An honest government of law that provides the basic human rights of democratic freedom for its people is the most difficult kind of government both to establish and to maintain. Enemies of freedom are numerous and active. Defenders are too often careless, unperceptive, or too busy with pleasant diversions.

FREEDOM SERMONETTES BY RUSSELL CHILTON HILL

## PATIO ADDITIONS

Practical spring remodeling projects, for many families, are the addition of covered patios to the house rear.

According to the Southern Pine Association, the wood plank-and-beam system is ideal for such additions. The strength of the roof permits large window areas overlooking the rear garden or swimming pool. The solid handsome appearance of members blends well with the indoor outdoor setting.

# YES SON... "COWBOYS" GO TO COLLEGE!

Especially pint-sized "ranch hands" like you. You'd be surprised how many of them change their Western headgear for a mortarboard when they grow up to college-graduate size!

Of course, these young "buckeroos" usually have a couple of pretty good "pardners" in making the grade to college "pardners" commonly known as Dad and Mom.

They do the kind of planning ahead and saving ahead that it takes to "swing the deal." They get started, while their young "cowboy" is still winning kudos as the "fastest draw on the block!"

**Big Pasture F. F. A. Boy, Top Showman**

The Temple Junior Livestock Show turned out to be a great success for one particular boy. This boy was Lonnie Nolan, son of Mr. and Mrs. Albert Nolan of Randlett, Oklahoma. He is a Junior at Big Pasture High School. He was the unanimous winner of the Top Show Award, which was given in honor of the late Dr. Charles Prather by his wife. The award was a \$25 War Bond. This award is based on showmanship, care of pens and animals, attitude toward fellow exhibitors, and his general behavior and conduct while at the show. Lonnie cleaned up in the Sheep Department at Temple. He showed the Grand Champion Ram, Grand Champion Ewe. First and third place pens of commercial lambs and several other less important placings. The Nolans live on a fine farm 2 1/2 miles north and 1 1/2 miles east of Randlett. Lonnie has quite a farming program with his beef cattle, his registered Suffolk sheep, and wheat for a total investment of \$1,396.00. Lonnie is working for the Junior Master Farmer Award the highest honor given by the State Association of Future Farmers. Those same qualities which won this award will be of tremendous benefit after school days are over. Our thanks to Mrs. Charles Prather for making this award possible.

**Medical Mirror**

"SEEING" BY EAR  
Q. I know a teacher in a school for the blind. Many of their students possess an amazing ability to get around without aid of any kind. How do they do it?  
A. Careful studies show that many blind people develop this skill and that it is primarily dependent upon the response to echoes. In other words, they employ a sonar system. Scientists interested in developing aids for the blind have a sightless boy who could avoid obstacles while riding a bicycle. The child made "clicking sounds" with his mouth while riding and listened to the echoes of his own noises. The trick was he had learned to "born in" in certain areas and birds. Bats can catch nightflying insects by the wing by listening to the echoes of their rapidly repeated cries.

**MONGOLISM TREATMENT**

Q. My husband has just returned from a military service in Germany where he learned about the Haubold treatment for mongolism. Is the treatment available here and would it help our son?  
A. The Haubold treatment of mongolism is a better term is "Down's syndrome" consists essentially of vitamins, minerals, and hormones. With a few variations, this form of treatment has been in use since the early 30's. There is evidence that it is effective. Such treatment adds further financial burden and disappointment to an already difficult family problem.

We take pride in our profession—take pride in bringing you the services and products of modern Pharmacy at their very finest.

**Big Pasture F. F. A. Boy Wins At Temple Show, March 5th**

Roy Lee Ressel, 15-year-old son of Mr. and Mrs. Ben Ressel of Randlett, Oklahoma, had both first and second place steers in the commercial steer class at the Temple Livestock Show on March 5th out of a class of fifty-three steers. He won a total of ninety-five dollars and a trophy for first place. Roy Lee is a sophomore at the Big Pasture High School. As a freshman he was outstanding in F. F. A. He was chosen as the Star Greenhand and won the Agriculture I Award. His investment in beef cattle is \$2,241.20. His older brother, Dennis Ressel, served as secretary of the chapter and was honored as Junior Master Farmer.

Roy Lee is very active in all sports. He plans to show in the fairs at Temple and Walters and will try for the degree of Junior Master Farmer.

Ben Ressel, Roy Lee's father was elected an Honorary Chapter Farmer in 1961. He farms in Randlett community and raises Registered Hereford cattle.

**Don't Make This Mistake**

A serious mistake made by many hunters is in buying outdoor boots and shoes the same size as the ones worn in town. Outdoor life in cold weather demands woolen socks and woolen socks demand larger shoes and boots. Here is a rough guide to follow: For thin or medium weight wool socks, wear one size larger shoe. For heavy wool socks, wear one-and-a-half size larger shoe. Should extreme weather call for two pair of woollies, you must gauge your shoe size accordingly.

The swastika became the national flag of Germany in 1935.
