"Fabulous Country Fair" To Be Held September 23 Thru 28

September 23rd thru 28th are the dates for "The Fabulous Country Fair" serving the West Texas and Southwest Texas area according to Dr. Alexander chairman of the fair and T. Leo Moore, Executive Director of the Fair. The location of the Fair Ground is Highway 367 at Huntington, one and one-half miles west of Wichita Falls.

Cliff Hagstrom Seeking Place On School Board

Cliff Hagstrom, a resident of Burkburnett for the past ten years, is seeking a place on the Burkburnett School Board in the forthcoming election scheduled April 6th.

He is self employed in the appliance repair business and accounting and is active in church and civic affairs. He is a member of the Church of Christ, is vice president of the Boomtown Optimist Club and is a board member of the Youth Center. Hagstrom and his wife, the former Mary Joy Gresham, have three children, Lynda, 9, Sherri, 6, and Bruce 3.

"Junior Week End" Observed By JanLee March 30th and 31st

JanLee Baptist Church observed the first annual "Junior Week End" March 30-31. In spite of the rainy weather a fine group of Juniors came to the church Saturday afternoon where they enjoyed a time of singing and playing together.

Election Was Held Tuesday

Election for city commission was held in Burkburnett's Town Hall Tuesday with Harry C. and C. L. Simmons, unopposed for reelection. Simmons received 104 votes. Other commissioners are Frye, Jack Alexander and P. A. Carpenter.

J. P. Houston, assistant hunt chairman, on left and Jim Timmis, Waurika Jaycee President in the right. Each is holding a large diamondback rattler caught along the rocky ledges of the Red River, the scene of the Second Annual Jaycee Rattlesnake Hunt to be held April 6th and 7th.

WAURIKA RATTLESNAKE HUNT TO BE HELD APRIL 6th and 7th

Warmer weather is bringing the rattlesnakes out and interest is building up for the Second Annual Waurika Jaycee Rattlesnake Hunt to be held April 6th and 7th.

Several local farmers and ranchers have reported that rattlers were observed in the area during the past week. This is an indication that the hibernation period is ending and there should be lots of snakes for hunters.

Registration for the hunt opens at 8:00 a. m. on Saturday, with the first organized caravan scheduled to leave for the hunt area at 11:00 a. m. Two caravans are planned for Sunday, 11:00 a. m. and 1:00 p. m. Lunch counters will be open both days in the hunt area.

One of the highlights of the hunt will be a banquet to be held Saturday night at 7:00 p. m. in the Jefferson Co. Fair Building. Lewis Timberlake, National Jaycee Vice President, will be the featured speaker. A dance will be held following the banquet.

Bob Jenni, professional snake hunter and handler from the Lincoln Park Zoo in Oklahoma City, will assist with the hunt. Spectators will have an opportunity to see Mr. Jenni in a 12-foot square pit with many live rattlers lecturing and demonstrating proper handling and milking of snakes.

The awarding of prizes will begin Sunday at 4:00 p. m. One hundred ninety-five dollars in prizes and twenty-two trophies will be awarded in the following events; longest snake, \$100 and trophy; most pound of snakes, \$75.00 and trophy, plus 2nd and 3rd place trophies; snake with most rattles, \$10.00 and trophy, plus 2nd and 3rd place trophies. A trophy will be awarded for each marked snake caught. Ten marked snakes will be released in the area before the hunt. All hunters must be registered to turn in snakes for prizes.

Burk Firm Sold To Wichitan

E. A. Schroeder Supply Company of Burkburnett was sold Tuesday to Tom McCarty of Wichita Falls. Schroeder will continue in business here until April 15. McCarty then plans to move the supplies to Wichita Falls.

Ministerial Alliance To Sponsor Sunrise Easter Service

The Ministerial Alliance of Burkburnett will sponsor a Sunrise Easter Service this year. The Services will be held in the High School Stadium beginning at 6:00 a. m. and concluding at 7:00 a. m. Rev. Kenneth Bradshaw, president of the Ministerial Alliance will bring the message. Rev. Hollis Morris, pastor of First Baptist, will give the opening prayer; Rev. Merwin Turner, associate Minister at First Methodist will have words of welcome and the closing prayer will be by Rev. Rodney Spitzer, Minister at First Christian Church. Rev. Travis

Burk Optimist Club Oratorical Contest First Place Trophy

Mike Bristow, son of Senior Master Sergeant and Mrs. J. C. Bristow, 307A Talos, Sheppard Air Force Base, won the first place trophy in the Burkburnett Optimist Club Oratorical Contest held Thursday evening, March 28th, in the Town Hall.

"Youth's Approach Toward World Forces" was the title of the five-minute speech given by four contestants from the Burkburnett High School. In his speech, Mike pictured how our freedom now enjoyed would be lost unless we learn to work for our way of life. Mike will now enter the District Contest of the Optimist Club on April 20, according to Bill Reasoner, club president.

Second place winner was Jimmy Goins, son of Mr. and Mrs. Tom Goins, 800 Sheppard Drive, Glenn Dietz and Johnny Jost tied for third place trophies. Glenn is the son of Major and Mrs. Glenn Dietz, Sr., 116-B Hercules, Sheppard Air Force Base, and Johnny is the son of Mr. and Mrs. Millard Jones, 335 Burkhaven, Eden Hills.

Judges for the event were Mr. Jay Henson, a Toastmaster Club member and judge; Reverend Ed Barcus, Superintendent of Methodist Churches in the Wichita Falls Dist. of the North Texas Conference, and Mr. Bill Koller, in the Hirschi High School, all from Wichita Falls.

Local Merchants Are Sponsoring Boomtown Show

On Channel 7 TV Every Thurs. at 10:30 P. M.

Avid late evening movie fans will be surprised and pleased to see Burkburnett featured tonight on Channel 7 television as part of a local merchant promotion program. Beginning tonight and lasting thirteen weeks every Thursday evening, Burkburnett merchants will sponsor the late evening "Boomtown Theater" on Channel 7 which starts at 10:30 p. m.

Earlier this week, Ron Waldrom, sales representative for KSWO-TV in Lawton, brought the station's cameraman to Burkburnett and filmed various scenes that will be familiar to Burkburnett residents. Shots were taken of the "Welcome to Burkburnett—Boomtown USA" Chamber of Commerce billboard located on the Burkburnett-Wichita Falls highway. Also filmed were scenes taken right in downtown Burkburnett. Several of Burkburnett's churches, schools, residences and other points of interest were filmed for the introductory portion of the Thursday movie.

- THURSDAY** — Fried Chicken, Mashed Potatoes, Peas and Carrots, Pickle Stix, Home Baked Bread, Butter, Milk, Strawberry Shortcake
- FRIDAY** — Easter Holiday, Happy Easter

CARD OF THANKS

Our recent sad loss leaves us with grateful hearts toward neighbors and friends. Their comforting expressions of sympathy and thoughtfulness will always be remembered. L. M. Archer and Family, M. T. Archer and Family 30-1tP

In response to Save the Children Federation's report that "Devastating Spring floods in the Southern Appalachian Mountain region resulting from the hardest winter in 76 years have nearly depleted our clothing supply," the students of Burkburnett High School will launch the Federation's 21st Annual Bundle Days Used Clothing Collection on April 8th and April 12th in behalf of the needy children and adults of the American Southern Mountain Area and elsewhere.

Save the Children Federation operates 107 Clothing Centers in the Southern Appalachians where 1,091,709 pounds of used clothing collected by 6,078,642 American school children is sold. Many of these mountaineers are poor but proud; for them there is more dignity involved when they pay something for the clothing than when they receive it free. The clothing which you donate is repaired, if necessary, and sold in the Federation's Mountain Centers at a low price — enabling these people to retain their self respect. The Federation also makes available to the county welfare workers of attendance teachers clothing and shoes which may be distributed free where needed.

Won't you join with our school officials and students in this 21st Bundle Days Collection? States Roy L. Silkwood, principal, "Clothing will be contributed in communities throughout the country in cooperation with Save the Children Federation, leading U. S. educators and more than six million students. Both summer and winter shoes and garments are needed — coats, dresses, suits, underwear. We strongly urge our citizens to respond generously to the call and to contribute good wearable clothing that is outgrown but not worn out. The clothing should be taken or sent to the high school.

Save the Children Federation, the 30-year-old, non-sectarian, international welfare organization, is registered with the U. S. State Department Advisory Committee on Voluntary Foreign Aid. Children are aided by the Federation through sponsorships, family, school and community self-help projects and the annual collection of used clothing. The Federation helps American Indian children, children in the Southern Appalachian Mountains and in many countries over seas.

Any individual or group interested in helping children through the Federation should write to Save the Children Federation, Norwalk, Connecticut.

School Trustee Election April 6

Five candidates have filed to have their names placed on the ballot for School Trustee Election, April 6, 1963.

- Mr. Floyd Marten
 - Mr. Cliff Hagstrom
 - Mr. Paul Fisher
 - Mr. B. H. Preston, Jr.

New Wax Bar Ends Grass Clipping Chore

The tedious job of edging the lawn with clippers now promises to be as obsolete as the other back-breaking lawn chores that have been eliminated during the past few years. Power mowers have almost completely taken over from the hand variety. A

growing family of chemicals, from pre-emergence crab grass killer to grub eradicator, has practically eliminated most other hand operations.

The latest in this line of chemical lawn tools is a wedge of wax which does away with trimming grass around flower beds and trees and along fences and edges of buildings. This wedge of wax is impregnated with dalapon, a development of The Dow Chemical Company. Dalapon is a coined name for a chemical which controls such grasses as Bermuda, sorrel, foxtail and bluegrass.

The wax bar, with gripping handle inserted, is rubbed lightly over the grass to be

eliminated. The dalapon in the wax enters the grass blades and moves through the plants to the roots. The contacted seedlings and perennial grasses stop growing and slowly die.

Usually two treatments during a season will control unwanted grass, providing the home gardener with more leisure and outdating his edging tools.

The wax bar is a new method of application of dalapon grass killer. Other formulations of the selective herbicide have been used successfully for about ten years in agricultural, industrial and commercial applications.

ham and son were seriously burned when their car caught fire and exploded. She has been in a hospital but released but her son still is in the hospital at Ardmore, Oklahoma.

Mr. and Mrs. Parker White and sons of Burkburnett spent Saturday night with Mr. and Mrs. Joe Burton and family.

Sergeant and Mrs. Ray Rogers and daughters of Sheppard Air Force Base and Kathy Landus of Burkburnett were recent visitors of Mr. and Mrs. Joe Boy Griffen.

Mr. and Mrs. Cleo Beavers and son of Wichita Falls, Mr. and Mrs. Charlie Hale of Burkburnett visited in the homes of Mr. and Mrs. D. D. Kemp and Mr. and Mrs. A. J. Cook Sunday.

Mr. and Mrs. Phillip Hatcher and son Wayne of Burkburnett visited their parents, Mr. and Mrs. O. A. Bruce, Mrs. Flora Hatcher Sunday afternoon.

Mrs. Laura Mae Hopkins received word that her son-in-law, Joe Lindsey's basketball team won the State Class C title at Laramie, Wyoming. The people of Laramie met the boys outside of town and had a joyful get-together with refreshments and all had an enjoyable time. Ma Lindsey, wife of Mr. Lindsey is the former Doris Hopkins of Randlett.

Mr. and Mrs. D. H. Boggs and children of Wichita Falls spent Saturday night with Mr. and Mrs. A. L. Nolan then Sunday with Mr. and Mrs. E. L. Martin and son Larry.

Mrs. Zonia Farris, Mr. and Mrs. Eddie Reed and daughter, Beckie of Burkburnett spent Sunday with Mr. and Mrs. Clyde Davis.

Mr. Wayne Ressel and Miss Margaret Phillips were united in marriage Saturday night at the Hulen M. E. Church. He is the son of Mr. and Mrs. C. B. Ressel of Randlett and she is the daughter of Mr. and Mrs. Frosty Phillips of the Hulen Community. Both the young people are students of A&M College at Stillwater, Oklahoma. They will finish the year there, then make their home south of Randlett on a farm.

Cynthia Struck of Munday spent Saturday night with her aunt, Mrs. Mollie Elliott.

The Randlett W. M. U. met March 29th for a special meeting. Mrs. Walton Manley, Mission Study Chairman taught the final Chapter of the Book entitled, "The Chains Are Strong." Miss Barbara Manley sang a song she also played the piano while singing the song. Title was "His Eyes Is On the Sparrow."

Women who cook electrically know...

Electric cooking is FAST because it's flameless

Today's electric ranges start heating instantly, reach cooking heat in seconds. Flameless electric surface units put heat directly into the pans, not into the room, so practically all the heat goes into the food being cooked. That is why electric cooking is fast.

The flameless electric oven reaches baking or roasting temperature quickly. Since it is insulated all around, including the bottom, heat stays inside where it belongs. And because electric heat is instant, the broiler requires no preheating. This means your meals can be cooked in a minimum of time.

Electric cooking also is clean, cool, accurate and economical. Select your flameless electric range at your dealer's now and enjoy all these benefits. Electric cooking is one of the nicest things about living better... electrically!

STATE CAPITAL Highlights AND Sidelights

by Vern Sanford
TEXAS PRESS ASSOCIATION

Austin, Texas — Texas' Padre Island National Seashore project is getting closer and closer to reality.

Already approved by Congress it is now waiting for financing by the U.S. and approval by the State of Texas. Project could become a vast tourist attraction for Texas.

First version of the bill giving the state's submerged lands in Laguna Madre and the state's approval of the project was worked out in conference committee. It won Senate approval. House endorsement virtually is assured.

This will convert the northern 81 miles of Padre Island into a natural reservation of seashore to be kept unspoiled for the enjoyment of future generations.

Loans — One phase of the battle over interest rates has ended. But more rounds likely are to come.

Senate spent two tough days in debate before passing a bill which allows those who lend \$1,500 or less to charge more than 10 per cent interest. It does not apply to banks, savings and loan institutions, credit unions and many types of cooperative lending organizations. But it does apply to all finance companies.

Sponsors of the bill wanted to allow more than 10 per cent interest in loans up to \$3,000. But the Senate cut it down to \$1,500. Rates as high as 464 per cent were permitted on loans as small as \$5, under a fixed fee basis of calculating charges on loans under \$100.

Further revision in the House, and probably thereafter in conference committee, is expected.

Nets — While one state agency was burning fish nets, another was advertising for bids to buy some net. So a law

change sailed through the Legislature to put a stop to that.

Old law says that when Game and Fish Commission men find an illegal net, they confiscate it, advertise for the owner, and when he does not appear to claim it they burn it.

New law will say that when they get to the burning stage they can give it to the Marine Research agencies of the University of Texas or Texas A&M.

Bills Killed — Legislators appear to have killed some hot proposals.

One is the effort to abolish the state tax on property. Senate voted 23-4 to kill a proposed constitutional amendment to do away with the smallest part of that tax — that which furnishes cash for state office buildings and pensions for old Texas Rangers and Confederate widows.

House killed a bill by Rep. Howard Green of Fort Worth to prevent city councils from saying that employees of their cities must live in the cities.

Also, House killed a proposal by Rep. "Red" Berry of San Antonio to allow 18-year-olds to vote. It got a bare majority — 72-71 — but as constitutional amendment, it needed a two-thirds majority. Berry abandoned his proposal to allow betting on horse races in Bexar County.

Another bill to regulate companies which sell funerals in advance on the easy payment or "lay-away" plan was killed on a point of order.

Faster Speeds — The long talk about proposal to allow 70 miles an hour speeds on open highways went off Gov. John Connally for signature. Rep. Forrest Harding of San Angelo was the sponsor.

Proposals sets top speed at 70, but gives State Highway Department the power to reduce that speed limit where it is not safe.

License Fees — House passed a bill to exempt anhydrous ammonia tanks from the license plate fee if they weigh less than 4,000 pounds and are on wheels. If weight is between 4,000 and 10,000 pounds, license fee will be \$5.

Cotton seed trailers were given the same treatment, extending to them the exemption which already applies to stock trailers.

Senate action now is required. Home Town Treatment — A program aimed to save money and do a better job on treating mental illness went to Governor Connally for signature.

Rep. Malcom McGreor of El Paso and Sen. Don Kennard of Fort Worth sponsored the plan. It allows the Board for State Hospitals and Special Schools to contract with local city or county hospitals to treat mentally ill or tubercular in their home counties.

Authorization of such a program on a statewide basis fol-

Shopping Scene

By Dorothy Owens Wright

When food money is limited, choose the cheaper cuts of meat. U. S. Good, Standard or Commercial grades are satisfactory for pot roasts, meat loaf and stew . . . and cost less than Choice or Prime. Use such variety meats as beef, pork or lamb liver or kidneys. They're bargains in vitamins and minerals.

You'll be happy to know that there's a tasty new way for your children to take their daily vitamins. Squibb Laboratories has introduced Vigran chewable tablets with a delicious fruit flavor. They're multi-purpose to prevent general vitamin deficiencies in children.

Those of us who have enjoyed the new crispness of field-packaged head lettuce are happy to see broccoli processed by the same technique. Sam Senter Farms of Belle Glade, Florida, is now wrapping "Sam-Bo" broccoli in Trycite, a new transparent film which retains the natural moisture and freshness. It's packaged only 30 minutes after it's cut . . . and it's deliciously fresh when you serve it.

According to Cooperative Extension in Agriculture and Home Economics, "there is renewed interest in loose-frozen vegetables packaged in 1½- and 2-pound bags. Convenient amounts of loose-frozen products can be poured from the bag and the remainder stored in the freezer, eliminating the problem of bags that are a little too large or a little too small. Cost per serving is about the same as for the 10-ounce package."

Seeing Del Monte's attractive new transparent package on the shelves reminded us how appealing dried fruits can be in pies and puddings. They're perfect for breakfast at this time of year, as well.

If you're like me, you're inclined to think of powdered soft drink mix as something you ought to have around the house on a hot summer day. That's still basically true, but a good suggestion comes from the W. T. Rawleigh people, who have just introduced "Cooler". Produced in eight flavors, each envelope has a recipe for sugar cookies, ice cream topping or cream sherbet which calls for "Cooler" and makes tasty twists on old favorites.

The USDA credits increased consumption of potatoes to new dehydrated mashed potatoes and frozen French fries. The USDA indicates that the processed "are equal, or nearly equal, to fresh potatoes in color, comparative cost of servings, texture and flavor."

If you've been a recent hotel or motel guest, you may already have enjoyed "brew-it-yourself" coffee, served early and piping hot from an individual heating unit in your room. Courtesy Products Corporation, which introduced the concept, also furnishes all ingredients in a handy, four-pocket foil envelope which contains instant coffee, sugar, non-dairy "Cream'r" and even the stir stick. A real boon to travelers who like their morning coffee in privacy.

lowed a test at El Paso which proved highly successful from both medical and financial standpoints.

Study Ordered — A group of 25 Texans to be named by Governor Connally will take a long look at the state's system of education beyond the high school. Bill to allow him to appoint such a group went to his desk.

Group will report back to the next Legislature in 1965.

Land Fuss — A dispute over ownership of 1,812 acres of land in Laguna Madre in Cameron County has resulted in a House resolution by Rep. Eligio (Kika) de la Garza of McAllen.

Resolution now is in a House State Affairs subcommittee. It would allow J. W. Luttes and Shell Oil Company to sue the state and establish title to the Laguna Madre tract.

Water for Alice — The City of Alice in Jim Wells County proposes to solve its water problem by creating a reservoir to capture water from Chiltipin Creek and by drawing on Lake Christi for additional supply.

Project was approved by the Texas Water Commission. Alice has been depending on wells, but C. R. Marks, engineer for the project, said the wells are no longer sufficient. However, they will be continued in use after the Chiltipin-Lake Corpus Christi program is completed.

Slick Operators in Liquor — An illicit liquor scheme, being worked along the Texas border in such a way as to escape taxes, is the target of Rep. John E. Blaine of El Paso. He says his bill — or the com-

mittee substitute for it — would mean thousands of additional dollars to state and federal governments.

Bill, which is in a House Liquor Regulation subcommittee, would authorize Liquor Control Board to require a bonded liquor exporter with a state license fee of \$710.00 per year, and

eliminate a "bottlegging" operation along the border, Blaine said.

Operations, which is devious and complex, would be hampered by requiring the Texas-Mexican liquor traffic to move by common carrier.

Candy Barr — Governor Connally approved recommendation of the Board of Pardons and Paroles to parole Juanita Dale Phillips, known as Candy Barr, who has been serving a prison sentence for narcotics violation.

SHORT — SNORTS

Governor Connally urged Congress to reject the changes in oil and gas tax laws proposed by President Kennedy . . . Atty. Gen. Waggoner Carr said he will send an assistant to help in the Jim Wells County grand jury investigation of last November's general election . . . Hardin, Jasper, Stonewall and Tyler counties are among those for whom hospital district laws are being passed under a new constitutional authority. If legislators authorize them, voters in the counties can tax themselves to set up and operate hospitals.

Rep. Charles Wilson of Trinity wants to outlaw professional boxing in Texas, as an aftermath of deaths of fighters . . . A Senate committee killed a bill which would prohibit the state or local units of government from discriminating against anyone because of sex, race, creed, color or national origin. Vote was 12-4 . . . Flying while intoxicated will be against the law if Governor Connally signs a bill to that effect by Rep. Sanford Smith of San

Antonio . . . Texans who run crop-dusting services want a state licensing agency, but there is legislative resistance to setting up any new state agencies. Trend this year is to abolish them, not create them . . . Higher retirement benefits for teachers will be possible under a bill by Rep. George Hinson of Mineola awaiting the Governor's signature. Rep. Alonzo Jamison of Denton, one of the original sponsors of the bill, voted against it on final passage because he felt it had lost its original purpose — improvement of benefits for those who retired when teacher salaries were low.

NICKEL IN STEEL

One of the earliest important markets for nickel began to develop by 1890 as a result of increasing knowledge of the favorable properties of nickel bearing steels. Today manufacture of constructional and stainless steels absorbs about 43 per cent of total nickel consumption.

A TOUCH OF TINT

Nickel, applied primarily as an alloying element to increase the strength and corrosion-resistance of many metals, is also used to produce black, purple or amethyst tints in the coloring of fine glass.

Roger W. Babson Weekly Report

ROGER W. BABSON

BABSON CONCLUDES SERIES ON INFLATION HEDGES

Let me repeat: Inflation is a very tricky word. Most natural resources which I have mentioned in this column the past few weeks are helped by inflation. However, most railroads, public utilities, and corporations whose income is largely fixed by government and state commissions are handicapped by inflation. Therefore, wise investors should balance their portfolios so they will not be hurt — whether inflation comes or not. Personally, with the constantly growing government debt, I think the U. S. is headed for inflation; but it will come about gradually. If however, speculators temporarily run up stock prices too soon in advance, beware of a market collapse to follow. Also, readers should remember cost of taxes when buying timber or other real estate.

Timberland is A Good Investment

The primary asset of the paper industry is the millions of acres of land and growing timber they own. Most of the timber properties lie in remote regions of the U. S. and Canada. Timber growth is not circumscribed by union regulations with regard to productivity and length of work week. The trees do not require holidays, vacations, coffee breaks, and the myriad of other fringe benefits. Labor costs are a relatively small portion of total costs. Book values of these companies are generally undervalued in relation to realistic timber values.

ST. REGIS PAPER COMPANY owns or controls over 5 million acres of timberland in the U. S. and Canada. It is a highly integrated producer of many prod-

April 7 Is World Health Day

HUNGER: DISEASE OF MILLIONS Theme For 1963

These children are sipping "atole", a hot drink that is common fare to most rural communities throughout Central America. The typical atole is mainly a mixture of corn, a staple of the area, and boiling water. It is easy to prepare, and what's more, the people drink it daily, and with gusto. Unfortunately, with corn as its chief ingredient, it is a drink with little nutritive value. Not so however, is the atole the children in this photo are gulping, and, to the evident joy of their mother and a nutritionist, liking so well. The children's glasses have been enriched with nourishing protein, a food element needed badly for their

good health, but until recently generally lacking in their diet. What transformed the old nutrition-less atole into the new nourishing atole was a pale yellow flour called Incaparina. Used instead of the corn, Incaparina puts into the children's glasses as much protein and vitamin A content as there would be in glasses of fresh milk. Not only is Incaparina a highly nutritive diet supplement, but — more important — it is a low-costing one. Its developers, the Institute of Nutrition of Central America and Panama in Guatemala City worked hard and long to turn out a product the average rural housewife could afford. Their success is

reflected in a two-and-a-quarter ounce package, containing all the proteins a child needs daily, that sells without profit, at four cents each.

Incaparina is made mainly from the staples of the Central American soil — corn, sorghum, cotton-seed flour make up 96 per cent of the formula. But from the staples of other lands — rice, for instance — so also can like products be developed. There is little doubt therefore, that what has been done in Central America can be repeated with equal success in other parts of the world where people need more nutritive elements in their diets. Nutritionists are certain that Incaparina-like products, which are at once high in protein and low in cost, will eventually still the gnawing hunger suffered by half the earth's population today.

It is in recognition of the plight of these 1.5 billion hungry that the World Health Organization has selected "Hunger: Disease of Millions" as the theme for observance April 7 of World Health Day, the 15th anniversary of its founding.

In his message on the anniversary, WHO's Director-General, Mr. M. G. Candau of Brazil, says: "It is my hope on this World Health Day that people everywhere in the world will try to visualize this problem of hunger and the disease and death that go with it.

"Remedies are largely known — they call for simultaneous action on the agricultural, medical, and education fronts. And this action, to be successful, must have the participation of governments and of peoples in all countries, rich and poor."

ucts, including Kraft and wrapping papers, containers, printing paper, pulp, lumber, and even packing machinery.

KIMBERLY - CLARK CORPORATION is the largest producer of cellulose wadding, and is a leading manufacturer of book and printing paper, napkins and towels, and cigarette and other specialty paper. It's affiliated companies produce newsprint. Kimberly is a highly integrated organization and controls some 11 million acres of timberland in the U. S. and Canada.

FAVORITES AMONG THE PAPERS

The largest American manufacturer of newsprint is GREAT NORTHERN PAPER COMPANY. Company's mills and some 2 1/4 million acres of timberland are concentrated in state of Maine. While world-wide excess capacity in newsprint production has created problems, company has expanded modernized facilities and is placing increasing emphasis on specialty papers.

SCOTT PAPER is heavily concentrated in the consumer-goods field, as an important producer of tissue, napkins, towels, wax paper, etc. Aggressive advertising and promotion have made Scott a leading brand name. Company owns valuable timberland (it is self-sufficient in pulp

requirement); and has a wonderful retail distributing organization.

PLYWOOD INDUSTRY IS GROWING

Despite intense competition in the plywood field, the growth of U. S. PLYWOOD CORPORATION has been remarkable. Because of its wide distributing facilities throughout the U. S. and Canada, company is considered to be more of a seller than a manufacturer. In addition to distributing plywood, it sells doors and other timber products to the building trades. It maintains extensive timber stands on the West Coast, in New England, various South Atlantic states and Canada.

The largest expense in house building today is labor. Plywood manufacturers are doing much to reduce labor costs. Another development to accomplish the same end is the building of "shell" homes, which my friend Jim Walters of Tampa originated.

MESSAGE TO READERS

May I end with a message sent me by a famous Turkish Missionary. (Turkey could be a great battleground between Russia and the West. It holds the key to the Mediterranean Sea and the Near East Oil lands.) woman cables me: The world is full of both opportun-

ties and problems for everyone to think about for years to come. I suppose I am an incurable optimist; because I believe so firmly that "This is My Father's World. O let me never forget that though the wrong seems oft so strong, God is the Ruler yet!"

Though nations are uprising and battles rage fiercely all over the world, let us put our faith in our Captain, who is bound to win in the end. This especially applies in Cuba.

"Dry Cleaning for today's families will be the topic of the fourth and final session of the clothing care workshop. The work shop is entitled "Improve Personal Appearance Through Proper Care of Clothing.

Mr. Joe Guyman, from Crystal Cleaners, will work with this work shop session. Mr. Guyman will stress proper dry cleaning as a clothing care method to make clothes not only last longer, but look nicer.

Clothing must receive proper care if personal appearance is to be good. The work shop has included work on wash and wear clothing care, laundry equipment and laundry aids. Since all family clothing can't be laundered at home, dry cleaning is essential for all families.

Mrs. George Wyatt, Chairman of the Wichita County Program Building subcommittee on clothing and members of her committee, are responsible for the work shop in Wichita County.

If interested in dry cleaning for your family, plan to attend the work shop, Tuesday, April 9 at 10:00 a. m. in the Wichita Falls, Texas Electric Auditorium. The session will last two hours.

The capacity of waters to produce fish food can be increased by artificial fertilization.

MAN-MADE MEMORY

The memory mechanisms of some of the newest, commercial electronic brain computers consist of rows of minute nickel-iron dots thinly deposited on a glass plate. This type of mechanism permits computer speeds of well over 100,000,000 operations each second.

DEEP DOWN DRILL

The world's deepest drilled hole, reaching nearly 5 miles below the earth's surface, is in oil-producing Pecos County, Texas. Seven nickel-molybdenum steel rock bits were used to reach the 25,340 foot depth.

Why eat at all, lovely lady, if nothing on the menu or in the larder appeals to you?

FROM ORE TO MORE

The first mining for ore in the Sudburk District of Ontario began in 1886, when some 3,000 tons of copper ore were removed. Today, the same area can produce annually nearly 400,000,000 pounds of nickel as well as a nearly equal amount of copper and important commercial quantities of two other elements.

MERRILY THEY ROLL ALONG

Failure of external sources of electrical power will not stop London's double-decker trolley buses. Power for such emergency lighting and propulsion is supplied by rechargeable nickel-cadmium batteries carried in each bus.

News From The County Agent

all grain farmers, in Wichita County, should be on the alert for greenbugs during the next few weeks. Greenbug has been found in some areas of the county.

pesticides to use on greenbugs and other aphids are paraquat, 1 to 2 pint spray concentration, or methoxy-parathion may be used at the rate of 1 1/2 to 2 pints per acre. Less toxic material is desirable but it is not as effective as parathion. Livestock should be allowed to graze fields at least 15 days from last application.

Leptospirosis, commonly known as "Lepto," is a disease of livestock producers

should watch for during this season. It causes losses of more than \$100 million to cattle owners annually in the nation, points out B. T. Haws, County Agent. Swine, sheep, and horse losses add more millions to the total and humans are susceptible, he adds.

Lepto now exists on farms in every part of the state and because it can cause abortions, is often confused with brucellosis, says Haws. The peak danger period is at hand since most cases occur during and following warm, wet weather. In areas of slow moving streams or swampy and low-lying pastures, stockmen should be especially alert. "Carrier" animals can contaminate such areas and spread the disease to other animals on the farm or to those on farms downstream.

In cattle, lepto can cause a death rate of up to 10 per cent, in calves up to 26 per cent, in addition to abortions and a sharp drop in milk production.

What They Wore... by PHYLLIS JOYCE

DURING WOODROW WILSON'S ADMINISTRATION, WOMEN WERE DRESSING LIKE IRENE CASTLE AND DANCING THE CASTLE WALK.

WITH THE START OF WORLD WAR I, MANY AMERICAN WOMEN PACKED AWAY THEIR FRIVOLOUS CLOTHES AND DONNED UNIFORMS, SUCH AS THIS RED CROSS FIELD WORKER, AND JOINED IN THE WAR EFFORT.

WAR DID NOT STOP ALL THE PLAY AND SWIMMING WAS A FAVORITE SPORT OF THE DAY. BATHING SUITS BECAME SHORTER BUT STILL HAD LONG SLEEVES.

TODAY, WHEN BUYING WOMEN'S OR GIRLS' APPAREL LOOK FOR THIS LABEL THE SYMBOL OF DECENCY, FAIR LABOR STANDARDS AND THE AMERICAN WAY OF LIFE.

It is hard to diagnose in mature cattle. In addition to abortions and a drop in milk output, it may cause the milk to become thick, yellow and blood-tinged. Calves may be depressed, lose appetite and develop diarrhea. Symptoms in swine may be overlooked because they are not as apparent as in cattle.

Because of the chance of confusing it with something else, Haws suggests that a veterinarian be called when symptoms appear in any animals. He may have to resort to rather complex laboratory tests to identify the cause of the trouble. If the diagnosis is positive, the veterinarian will make recommendations for handling the situation. Vaccines are available for cattle and swine but must be properly used to provide protection.

Sheep and livestock producers are urged to be on the look-out

for screwworms cases during the months ahead. All shearing cuts or wounds should be treated. Haws especially urges producers to report all suspected cases along with samples to the Mission headquarters of the screwworm eradication program. Good reporting, he said, can prevent large scale outbreaks and save thousands of dollars. Containers may be picked up at the County Agent's office.

Just any hog won't fill the bill, in the breeding herd, that is when it comes to producing the kind of pork demanded by today's consumers. Most successful pork producers, explains B. T. Haws, County Agent, just can't afford to leave their choice of breeding animals to chance. They must know more about the animals than what can be seen by the eye and this means records — both breeding and performance, says Haws.

The County Agent is sure that the most economical way for a producer to improve the carcass desirability of his hogs is to select and buy a boar whose littermates or several closely related individuals have, under test, yielded superior carcasses. These are the kind of hogs which will produce adequate muscling with a minimum of fat after being self-fed from weaning to market weight. A group of boars and gilts which are littermates or have been sired by the same boar as the pigs tested in this year's performance testing program at Texas A&M College will be offered for sale during the 12th Annual Swine Short Course at A&M.

FOR RESULTS — ADVERTISE

KID BASEBALL

Any boy who is interested in the franchised Babe Ruth Baseball League Program must register on or before April 8th, 1963.

The coaches and the commissioner will meet at the Lion's Club Baseball Park near the Junior High School, Monday, April 8th at 5:30 p. m. and will meet with all the boys that are interested in playing baseball.

The age limit in this group is 13 to 15 years old, providing their birthday is 13 years old before August 1, 1963 and are 15 on or before August 1, 1963.

All parents are invited to meet with his league at this date and time.

The commissioner and coaches will explain the program to the parents and the kids.

The sponsors will furnish all uniforms, caps, socks, catching

equipment, bats, balls, and safety helmets.

The player will furnish his ball glove and shoes.

All coaches and players will be insured.

There will be a \$2.00 (two dollar) entrance fee.

So all parties that are interested in this program meet at the Lion's Club Ball Park, April 8th, 1963.

FOR THIS GREAT NEW **Atlas Plycron Tire**

BACKED BY OUR GREAT NEW **two-way guarantee!**

This great new tire gives you:

- more control:** new broad track tread actually puts more rubber on the road, gives you up to 20% better skid resistance than standard treads. They take a better grip on the road — help you turn easier, stop faster.
- more comfort:** more rubber contact prevents road vibration, reduces road noise. You get a softer, smoother ride.
- more mileage:** more rubber surface distributes wear over a larger tread area. 4 million test miles demonstrated the new Atlas Plycron tire delivers up to 25% more mileage — gives you a longer return on your tire dollar!

Our New Two-Way Guarantee offers you extra protection against tire damage. Adjustments are based either on tread wear or months-in-use... you choose the one that benefits you most!

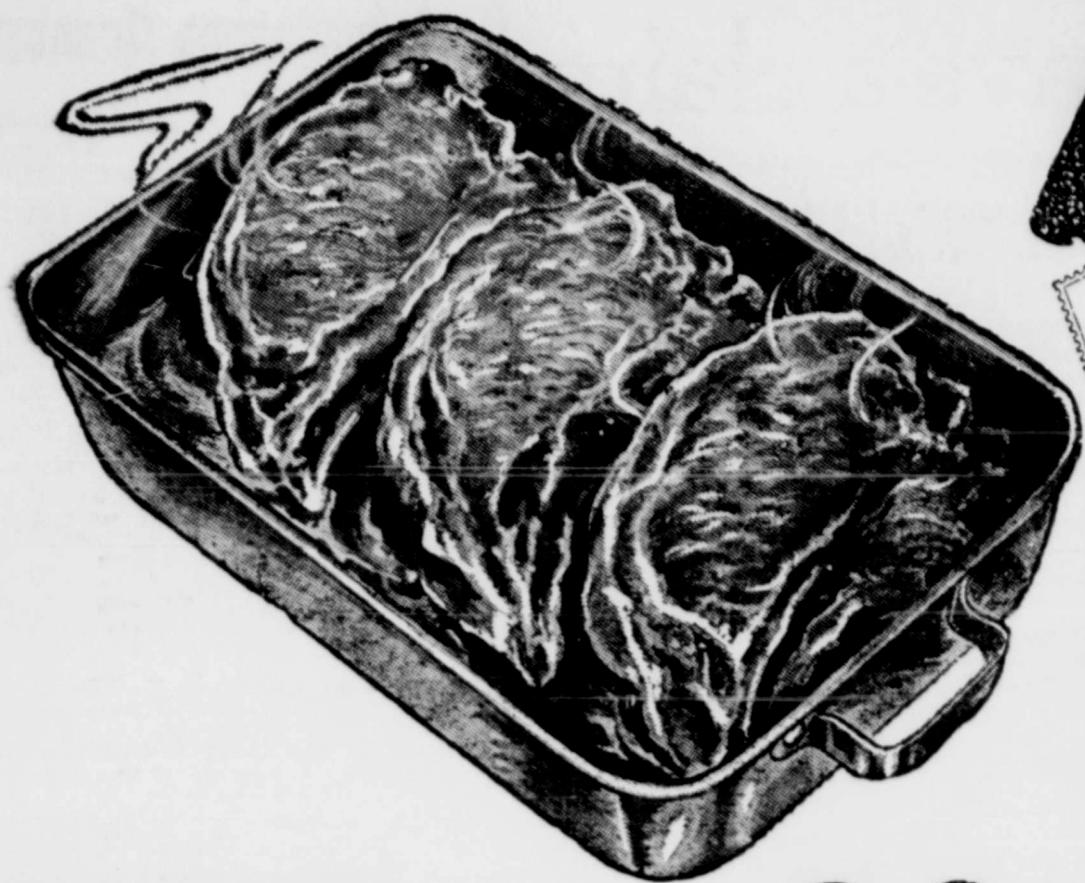

Every new ATLAS PLYCRON tire is guaranteed against failure for a maximum of 18 months, or the life of its tread design. Guarantee does not cover damage caused by running flat, punctures, injuries by fire, theft, wrecks or collision, cuts by chains or obstructions on vehicle, tubes used in any form, or taxi or bus use. Adjustments will be based on suggested retail price.

Your Enco dealer is featuring the New Atlas Plycron tires right now. Better have a look at your old tires today — and then get more rubber at work.

Forum Study Club Address By Finance Official

Finance official, representative of the Southwestern Insurance Service of Dallas...

Burk Garden Club Met In Wichita Falls

The Burk Burnett Garden Club met March 27th at Wyatt's Cafeteria at 12:00 noon for a luncheon.

Mrs. J. L. Caffee, president presided over the business session.

Mrs. J. B. Riley, incoming president appointed her standing committees for 1963-64. Year Book, Mrs. D. C. Dodson, Mrs. John Brookman, Mrs. Carl Morrison; Project, Mrs. J. L. Caffee, Mrs. A. R. Bunstine; Finance, Mrs. C. F. Johnson, Mrs. A. H. Lohoefer, Mrs. Jude Willingham; Telephone, Mrs. Glen Bear, Mrs. Virgil Mills; Scrap Book, Mrs. J. B. Riley; Civic Corporation, Mrs. Carl Morrison, Mrs. G. H. Williams, Mrs. Walter Riley; Books, Flowers and Cards, Mrs. A. R. Bunstine; Burk Burnett Council, Mrs. J. B. Riley, Mrs. J. C. Adams, Mrs. J. M. Pogue, Mrs. A. H. Lohoefer; Flower Show, Mrs. M. E. Talaferro, Mrs. B. N. Cauthorn, Mrs. Chloe Fugua, Mrs. Johnnie Herring; Reporter, Mrs. J. C. Adams; Parliamentary, Mrs. J. L. Caffee.

The program was on "Preparedness and Work Shop."

Mrs. Walter Riley talked on "Exhibiting Horticulture Specimens."

At 1:30 p. m. the club members and guests made a tour of the Central Seed and Feed Store. Mrs. Iris Laukhuf as hostess.

Members present were Mesdames: J. C. Adams, Glen Bear, John Brookman, A. R. Bunstine, J. L. Caffee, B. N. Cauthorn, D. C. Dodson, Johnnie Herring, C. F. Johnson, A. H. Lohoefer, Virgil Mills, Carl Morrison, J. M. Pogue, J. B. Riley, Walter Riley, Joy Sessums, Jude Willingham and guest, Mrs. W. T. Zimmerman.

Mrs. Lona Talley of Miami, Texas, spent the week end here with Mrs. Myrtle Hatch. She also visited other friends and took care of some business. Mrs. Talley is a former resident of Burk Burnett.

Jr. University Study Club Met In Home Of Mrs. E. McCullough

Recently the Junior University Study Club met in the home of Mrs. Ellis McCullough with Mrs. Max Stanaland as co-hostess.

The meeting was called to order and the Club Collect read. The president welcomed a new club member, Mrs. James Pearson. Mrs. B. H. Alexander, Jr., gave a report on the planting of some trees in the Swim Club Park.

Mrs. J. L. Ragan won the door prize which was a lovely pot plant.

Delicious refreshments were served to the following Mesdames: James Pearson, L. J. Byars, B. H. Preston, Jr., B. J. Vincent, Gene Robertson, B. H. Alexander, Jr., J. L. Ragan, Finis Taylor, W. C. Koller, Zac Henderson, J. B. Riley, Jr., Ellie McCullough and Max Stanaland.

University Study Met Thurs., March 28

Thursday, March 28th, the University Study Club met with Mrs. B. H. Alexander, Jr. A brief business meeting was conducted by the President, Mrs. W. C. Koller.

Mrs. Alexander presented the guest speaker, Mrs. Wallace Landrum. Mrs. Landrum gave a program on "Learning to Appreciate Art." She discussed the different techniques of painting, beginning with Fresco painting of Italian Renaissance in the early 1300's up until the modern day paintings. Mrs. Landrum used colored slides to illustrate her talk, after which she gave a finger painting demonstration. The members also enjoyed seeing an oil painting done by Mrs. Landrum, of a Colorado snow scene. This painting was a gift from Mrs. Landrum to Mr. and Mrs. B. H. Alexander, Jr.

Mrs. James Pearson won the door prize.

Refreshments were served to the co-hostess, Mrs. C. D. Landrum to the following, Mesdames: Russell Kelly, Jr., Zac Henderson, W. C. Koller, Gene Robertson, J. R. Sprague, Max Stanaland, Finis Taylor, James Pearson and B. H. Alexander, Jr.

Modern Study Club Met Monday April 1 With Mrs. Garland

The Modern Study Club met on Monday, April 1st, in the home of Mrs. Gad Garland.

Most of the business session concerned the Miss Burk Burnett Pageant to be held in June this year. A Pepsi Party for the pageant contestants will be held on Friday, April 5, in the Reddy Room.

Evelyn Nicholas was accepted as a member.

Martha Griffith presented a program on "Guatemala," highlighting the country's history and type of people.

Wanda Pierce won the door prize.

The following members enjoyed a delicious refreshment plate: Mesdames: Dude Smith, Jerry Thomas, Gary Bean, Web Sharp, Bob Case, Lee Bavousett, Jerry McClure, Bill Boardman, Albert Dillard, Martin Wright, Cleo Askins, Gad Garland, Charles Griffith, Ted Harris, Ted Pierce, Alton Lockett and Gail Rhine.

NOTICE

I wish to thank my neighbors and friends for the lovely flowers, cards, visits and prayers during my stay in the hospital. Especially do I want to thank our minister Eugene Gilmore, for his many visits and words of encouragement. May God's richest blessings rest on each of you is my prayer.

Mrs. Bill Crosley 30-1C

I would rather have the disposition to look on the bright side than ten thousand dollars a year. — Dr. Samuel Johnson.

DEVOL NEWS

Mrs. C. O. Woodley, Reporter

The Devol Demonstrators met Thursday in the Community Building for the regular meeting with Mrs. Lorien Weaver, hostess. The devotional was brought by Mrs. Weaver reading the 121 Psalm. The group repeated the Lord's Prayer in unison. Several visitors were introduced and after a short business session the meeting was turned over to Betty Dahms H. D. Agent, who with her assistant, Rosemary Culver presented a very interesting lesson on "Growing Older."

Mrs. Don Mills Hostess To The Forum Study Club

Mrs. Don Mills was hostess to the Forum Study Club for a regular meeting, Mrs. Joe Wolfe, president, called the meeting to order. The club prayer was read. After a short business session, Mrs. Wallace Landrum brought a very interesting program in which she showed color slides of "Techniques of Painting."

Refreshments were served to Mesdames: J. C. Adams, Jr., Loyd Bloodworth, Joe Wolfe, Gene Allen, Gene Bankhead, James Wickersham, James Brockhaus, Lonnie Taylor, T. M. Cornelius, Wallace Landrum, Charles Goins, Edwin Green, and Don Mills.

Mrs. W. P. McDonald, Jr. and daughter, Merle of Memphis, Tennessee, spent several days here last week with her parents, Mr. and Mrs. G. C. Henson. Mrs. McDonald's other daughter, Cathy Jean was visiting with friends at Miami Beach, Florida, during a school vacation.

on "Growing Older." Mrs. Lavada Turner was welcomed into the club as a new member. The next meeting will be April 11th with Mrs. E. N. Miracle.

Refreshments were served to these guests, Mesdames: Betty Dahms, Rosemary Culver, Mrs. Eastman and these members: Mesdames Lovella, Odom, Pearl Coker, Dollie Hardin, Edna Wilkinson, Buelah Miracle, Ethel McCasland, Willie Cozby, Clara M. Woodley, Lillian Hutson, Nora Wood, Belle Charboneau, Minnie Smith, Lucille Morrow, and the hostess.

Mrs. R. L. Wyatt and baby daughter were returned home Saturday from a Lawton hospital and are reported doing nicely.

Ten ladies from the Devol Demonstration Club attended the Federated Home Demonstration Club meeting at Fort Sill Friday including Mesdames: Willie Cozby, Edd Morrow, Ralph Postelwaite, C. O. Woodley, Pearl Coker, J. V. Wilkinson, Pearl Cates, J. B. Stevens, Dollie Hardin and F. J. Uthe.

Lenton L. McClendon returned to school at O. S. U., Stillwater, Sunday after a Spring vacation spent with his parents, Mr. and Mrs. F. G. McClendon and sister Gilles.

Kay, Steve and Martha Bridges of Wichita Falls were Friday night guests of their grandparents, Mr. and Mrs. C. O. Woodley. Sunday visitors in the Woodley home were Mr. and Mrs. Gordon Woodley and Mrs. Bessie Burleson all of Wichita Falls.

Guests of Mr. and Mrs. Guy Hutson Saturday were their daughters, Mrs. Jim Spillers and son David of Jacksboro, Texas, and Mrs. Jimmie Bryant and daughter Connie of Wichita Falls.

Mr. and Mrs. K. L. Smith and

Mrs. Dollie Hardin visited Mrs. O. D. Nalls Sunday, who is a patient in a Frederick hospital.

Junior Coker spent the week end with Mr. and Mrs. Donnie Coker and family in Bowie. Sunday guests of the Donnie Cokers at Bowie were Mr. and Mrs. Joe Champion, Mrs. Pearl Coker and Mrs. Pearl Cates.

Guests of Mr. and Mrs. J. V. Wilkinson over the week end Sunday, were Mr. and Mrs. H. I. Davis and family of Mesquite, Texas, Mr. and Mrs. Jerry Bowles and children of Walters; Mr. and Mrs. Jerry Wilkinson, Mrs. Marjorie Schwarz and children and Mr. and Mrs. Bridwell, Judy and Bud all of Wichita Falls; and Eugene Wilkinson of Burk Burnett.

Mrs. Dollie Hardin and Mrs. Pearl Cates were Burk Burnett visitors Monday.

Mr. and Mrs. K. B. Uthe of Grandfield visited Mr. and Mrs. V. E. Lagrone Sunday.

Mrs. O. D. Nalls underwent major surgery in a Frederick hospital last Monday, and is reported doing nicely at this time.

Mr. and Mrs. O. G. Weaver visited in the home of Mr. and Mrs. Walter Manley Saturday. Miss Barbara Manley has returned to her classes at O. S. U. Stillwater after spending the Spring vacation at home.

Mrs. F. G. McClendon who has recently remodeled her home entertained with a coffee Monday. Guests present included Mrs. Bess Foster, Mrs. Lillian Hutson, Mrs. Nora Wood, Mrs. J. V. Wilkinson, Mrs. J. P. Eley, Mrs. S. M. Fielding, Mrs. V. E. Lagrone and Mrs. C. O. Woodley.

Mrs. Maud Green, Mrs. Fred Fewin and children and Max Green all of Lubbock visited Mr. and Mrs. Carl Foster and Mr. and Mrs. R. L. Wyatt II over the week end.

SOIL CONSERVATION DISTRICT NEWS

OUR SOIL ★ OUR STRENGTH

Soil improvement, higher yields and weed control have in some instances gone up in smoke, according to Elvy Sargeant, Iowa Park Soil Conservationist.

Pastures of coastal bermudagrass that are burned expose near-bare ground that permits weed seed germination, destroys organic residue that would decompose into plant food and removes a protection of the soil that reduces evaporation and surface packing.

Farmers might consider early shredding to get residues onto the soil and reduce their likelihood of being raked and then being baled. Another alternative may be to bale remaining cured bermudagrass for hay that could be used for bedding of livestock or mulching of home gardens.

Anton Blake and L. A. Mattox are making plans to sod bermudagrass this year. Those planning a pre-season fertilizing of bermudagrass might do well to do so in the near future.

Overweight Dangers Critical in Pregnancy

"The possible complications of obesity are never so numerous and so potentially serious as they are during pregnancy," according to Dr. Richard X. Sands, a New York City obstetrician.

Furthermore, Dr. Sands has recently published results of a clinical study showing that excessive weight gain during pregnancy can be avoided. In the study, at St. Luke's Hospital in New York City, he placed 118 expectant mothers on a total Metrecal diet. 110 of them, or 92 3/4%, held their weight gain to less than the .86 pounds per week normally gained during the last three months of pregnancy, he reported.

While holding weight gain below average, the expectant mothers experienced "a greater sense of well being and comfort" and the weight reduction diet was found to have no harmful effects on the unborn children. It is always important, medical authorities advise, that weight control during pregnancy be under a physician's supervision.

HAROLD L. REAGAN Singer

FROM THE HD AGENT

About \$50 million worth of quarters went into coin-operated dry cleaning last year. This amount probably will be doubled this year reports Thelma Wirges, county home demonstration agent. Miss Wirges did re-

ceive the figures from the U. S. Department of Agriculture's Agriculture Research Service. Coin-operated dry cleaning appeals to consumers in two ways, Miss Wirges says. It's economical and it's convenient. All the home maker has to do is place her soiled articles in the machine, the remove them completely cleaned at the end of

the cycle. In spite of the growing popularity of the coin-operated machines, professional dry cleaning will still be needed. Some spot removal, for example, should not be attempted by amateurs. Many families also will continue to want professional pressing. As might be expected in a

young industry, coin-ops are undergoing some changes. These changes may speed up the cleaning process but increase the cost. Two coin-operated dry cleaning systems are now in use. The first system on the market and the one still predominately used, requires a time cycle of about 45 minutes to more than

one hour for completion of the cleaning-drying. The other system, until recently in the experimental stage, uses a rapidly evaporating solvent that reduces the time cycle to 15 to 20 minutes. The rapid evaporation of the solvent presents a problem to the machine manufacturers. Machines must be air-tight, and this adds to the expense of the

machine. The solvent used in the new system is also more expensive. So the cost of cleaning with this solvent may be higher. Some improvements to look forward to are improved spot-cleaning service — perhaps, attendants who are experts in the art of spotting; more pressing service offered on the premises — at an added cost, of course;

and continued effort on the part of manufacturers to make efficient machines. Miss Wirges says the cost of coin-operated machines rules out home units and one company predicts they will only about five years ago. Ask advice, but use common sense in taking

I need the Answers to some SERIOUS QUESTIONS

Why am I here? What shall I do with my life? Where am I going? This young man is at the threshold of his adult life and needs the answer to some serious questions. Perhaps you find yourself pausing to take stock of your life and groping for direction. The Church of the Living God tells the truth about man's life, death, and destiny. The truths learned there will set you free to live a more abundant, meaningful, and creative life. "And ye shall know the truth and the truth shall make you free." John 8:32.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Watch Your Shot

Shooting over dogs when hunting quail, woodcock or pheasant can be dangerous. Try to avoid shooting at ground-skimming birds. Wait for them to raise higher than six feet, or until sky can be seen beneath them. This will avoid the danger of blasting your buddy or your dog.

Vehicles Must Be Inspected By Apr. 15

Many motorists in Texas are going to be faced with long lines and waiting periods in order to have their cars inspected prior to the April 15 deadline. Only 39 per cent of the 586,270 registered vehicles in Region 5 of the Texas Department of Public Safety have visited safety inspection stations and obtained their 1963 safety inspection sticker, according to Captain Alen Johnson, Motor Vehicle Inspection Service of the DPS.

"All registered vehicles in Texas must be inspected by April 15 and have a 1963 inspection sticker on the windshield," Captain Johnson said. He stated that there would be no extension of the April 15 deadline and advised motorists who have not had their cars

inspected to do so now, before the long lines start forming. "In the past, many people wait until the last few days of the inspection period to have their vehicle inspected and have had to wait for a long period of time at the inspection station," Captain Johnson stated.

According to the records of the Motor Vehicle Inspection Service of the DPS there are 51,428 vehicles registered in Wichita County and only 21,660 or 42 per cent of the vehicles have been inspected to date. Due to this low number the Captain suggested that all motorists check their vehicles and see if they have a current 1963 inspection sticker on the windshield and if not to have their vehicle inspected today in order to avoid the last minute rush.

FOR RESULTS — ADVERTISE

Pre-Season Quail Hunt

For top hunting efficiency a bird dog should be worked out frequently before cool weather sets in.

Not only do pre-season hunts get your pooch in good shape, but finding and flushing birds during a dry-run scatters coveys of young birds, saving them from predators.
