I want, in spite of this distance, to keep in close contact with the people of my district so that I may know their views and so they, in turn, will know of and understand my actions in Congress." More than 220 students are expected at the event which is being sponsored by the Texas Farm Bureau.

Attending from this county will be: SHERRY ECKELKAMP, 17, daughter of Mr. and Mrs. T. H. Eckelkamp, 606 Churchill, Electra, Texas, senior at Electra High School.

GRASS ROOTS OPINION

SISSETON, S. D., COUIRER: "The American Medical Association now claims there is no physical value in sun tanning. In fact, exposure to the sun is damaging to the skin. 'Sunlight speeds wrinkles and aging and excessive exposure over a period of time can cause serious skin conditions.' Doctors advise their patients to take precautions to reduce skin damage from tanning as much as possible. Sunburn should be treated as any burn.

CHICO, CALIF., ENOERPRISE-RECORD: "A year ago, some of the testimony offered by experts warned that proposed amendments to the Pure Food and Drug laws would not contribute much to the protection of the public might well hinder the development of new drugs to cure man's ills and ease his pains. The tragic thalidomide cases were in the public eye at the time. The photos of deformed children were more moving than were the rational arguments. It was even lost sight of that thalidomide had been barred from sale in this country under laws already on the books."

ALTOONA, PA., MIRROR: "If we want a world of plenty, let us restore freedom and responsibility wherein each individual must provide for himself and his family and has the added incentive of knowing that he may enjoy the fruits of his efforts. The socialist cliché of redistribution of income, so popular in our time, is false—always has and always will lead to bitter disappointment and hard times."

WASHINGTON AND "SMALL BUSINESS"

By C. WILSON HARDER

With the wheat harvest either in, or practically in, it will be most interesting to see what price level will be reached following the wheat farmers' rejection of the proposed plan to reduce acreage and uphold prices.

It is also interesting to realize that during the voting this year, the program was extended to include those farmers growing 15 acres or less of wheat. There were 358,700 so-called "regular" wheat farms, and 733,800 small farms. It is generally believed the small growers defeated the plan.

C. W. Harder
There were 358,700 so-called "regular" wheat farms, and 733,800 small farms. It is generally believed the small growers defeated the plan.

Actually, no one makes a living from 15 acres of wheat. These growers planted wheat to feed to their poultry or livestock. The government estimates that the number of farmers who took advantage of the previous exemption from controls on 15 acres or less grew from nothing to over a million in ten years.

Obviously, these farmers balked at paying government set prices for feed grains, and they also balked at curtailing their small plantings to force them to buy more feed grain.

Actually, in the past, a few huge corporate farms have been tapping the treasury for the lion's share of the money paid out for surplus wheat. And they could also well afford to take acreage reductions, because their checks from the proposed government plan would have been substantial.

On other hand, government could not continue on the old basis, because every bushel of wheat raised on exempt plantings of 15 acres or less to feed on the farm stock merely resulted in less sales of wheat grown under government control, because most farmers can grow their own feed for less than government supported prices.

Thus, the wheat referendum result may be called the revolt of the independent farmer.

Government, however, is now worried as to the repercussions a flood of low price American wheat may have on foreign nations under the International Wheat Agreement whereby the government is pledged to hold up price on U.S. wheat for export.

This preoccupation with what foreigners will think is not new in history. After Imperial Rome spread all over the then existing world, and "big shots" of the Empire were given big holdings overseas, it became policy, as a means of keeping tranquility in rest of the world, to import grain at prices so low the small Italian farmer could not compete.

So by the thousands the small farmers gave up their plot of land and came to Rome where they lived on a dole. The rest is history. In time the peoples across the waters became restless, anyway, and they moved in to sack a demoralized Rome.

It is possible many wheat farmers know much more about Roman history than many government theorists.

After all, much took place in Rome that teaches lessons in economics long before Elizabeth Taylor arrived there.

New Flavors Spark Tomato Juice

You can retain the sun-ripened goodness of this year's tomato crop if you will devote a few hours to making and canning fresh tomato juice. It will taste mighty good come winter.

High in vitamins, low in calories, tomato juice can cost you as little as 6 to 12 cents a quart. The cost depends upon the source of the tomatoes.

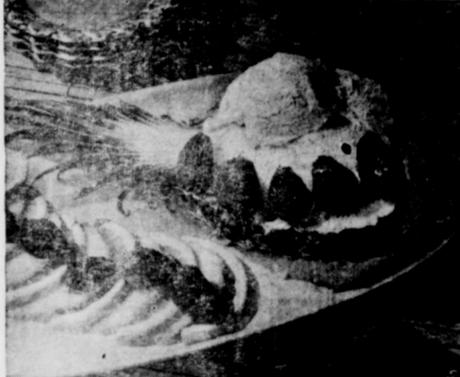

Tomato juice is an excellent substitute for sweet, bottled drinks for children. Let them play at mixing, making their own choice of seasoning—and they'll learn to love it. Tomato juice is a boon to weight watchers, too, for a cupful adds up to only 50 calories.

Prepare your juice without seasoning, and stow it away. When you plan to use it, take down a jar or two several hours in advance of serving time. That's the time to add the seasoning, or combination of seasonings, your favorite taste tantalizers—dill, garlic, herbs or saucers. Then put into the refrigerator to chill while the seasonings mellow. Be adventurous—try curry, chili powder, mint or sage. It's fun to experiment, and variety, too, adds spice.

Tomato juice is easy to make at home. One bushel (53 lbs.) of sound tomatoes will make 12 to 16 quarts of juice.

The principles are simple—wash, rinse, drain, core and quarter red-ripe tomatoes. Simmer in covered kettle until soft, then put through food mill or sieve to remove seeds and skins. Reheat juice almost to boiling and pour to within one quarter inch of the top of fruit jars. You may, if you like, add one teaspoon of salt to each quart. Put dome lids on jars, screw bands tight, and process in boiling water bath canner. Pints require 10 minutes, quarts 15 minutes.

Vanilla Ice Cream Goes Exotic

The golden days of summer bring with them plans for entertaining family and guests. To enjoy such moments, however, plan party fare of the "effortless" variety. For example, cool, cool desserts which bring meals to a refreshing close. Fresh fruits and ice cream combinations top the list of favored desserts which can be made in a trice.

Fruits of a distinctive flavor combine best with vanilla or old-fashioned Golden Vanilla ice cream. Golden Vanilla, an old-fashioned type of extra-rich golden-hued ice cream is an especially good choice. It's delicious just as it comes, but for a super treat try this pineapple perfection.

It's an eye-appealing dessert which can be made quickly in your kitchen if you follow these easy directions from the Borden Kitchen. Wash and chill a ripe pineapple. Cut the pineapple in half lengthwise, slicing directly through the stiff top leaves. Start to cut one-half inch in from outer edge and carefully follow the outline of the shell. Remove the center piece and cut it into thin slices. Arrange the pineapple slices on a well-chilled platter alternately with thinly sliced orange. Top with red-ripe strawberry halves. Pile the pineapple shells high with vanilla or old-fashioned Golden Vanilla ice cream. Garnish with additional strawberry halves around edge of ice cream. This is a dessert which will bring the simplest meal to a dramatic and refreshing close.

are and blanch vegetables before freezing, regardless of what your friends and family suggest. Thelma Wirgin's home demonstration reminds homemakers that blanching slows or prevents the action of enzymes otherwise would cause color changes and texture loss in frozen food methods.

Research, not one man's word, shows that meat is a lot higher than those who do not bring the grocery home and make meal easier and quicker. The difference with difficulties. Freezers are a investment for some and one for others.

Mrs. J. Roberts have a very small freezer

for their city home which offers excellent freezer storage space. For the rural family this would not be wise but it gives the Roberts needed freezer space at a minimum expense.

Never purchase a freezer too small. Know your own needs, planning habits, what you have at home to freeze, etc, before you decide on size.

Do thawed foods spoil faster than foods that have not been frozen?

Opinions vary on this question. But when research reports are studied there doesn't seem to be much difference in the rate of spoilage of thawed frozen foods and foods that have not been frozen.

Paul Elliott and Robert Straka, bacteriologists in the U. S. Department of Agriculture's Utilization Research Laboratory in Albany, California, recently surveyed past researches on this subject and conducted their own tests on whole and minced chicken.

Their survey, which included studies on meats and fish as well as poultry, indicated most researchers found freezing and thawing had no significant effect on the rate of spoilage in the thawed stage. Their own research, based on bacteria count and odor tests, further showed that shelf life at chill temperatures was about the same for fresh and frozen-thawed chicken.

These studies should assure retailers that thawing poultry for retail sale is satisfactory if conducted with proper attention to chilling temperature and cleanliness. They should also assure homemakers that holding thawed foods in a refrigerator involves no more hazard than

holding comparable foods that have not been frozen. Both deteriorate at about the same rate.

This is the time of year salads are most welcome. And with fresh fruits and vegetables occupying much of the U. S. Department of Agriculture's List of Plentiful Foods, homemakers have a wide choice of ingredients.

There are all of the many summer vegetables plus watermelons and peaches on the list. Regionally, you also find other fruits in good supply.

So mix and match these in imaginative summer salads.

Here are a few tips on how to make a salad appetizing and interesting.

Select top quality vegetables and fruits. Not only do these look and taste better, but they provide the best nourishment. Tear greens in fairly large

pieces or cut with scissors. Larger pieces of any salad ingredient preserve the food's identity. They also give the salad body.

For variety, use greens other than lettuce — chickory, endive, escarole, watercress.

To prevent wilted or soggy salads, dry the greens. Also, drain any canned foods you might use.

Prevent discoloration of light fruits — apples, peaches, bananas — by dipping them in orange, lemon, lime or pineapple juice.

Chill ingredients before mixing. Add salad dressing just before serving.

A blushing peach, though beautiful, is no sure proof of quality. Thelma Wirgin says a white or yellow background color is a better sign of maturity and flavor.

Current Literature Club Held Meeting

A call meeting of the Current Literature Club was held in the Reddy Room of the Texas Electric Company to make the program for the new club year.

The Federated Womens Clubs are sponsoring a program "Bridge the Gap," an educational program designed to promote understanding between people of different countries. They must learn to communicate and work together and so bridge the gap between the haves and the have-nots.

The club decided to give it's support to Guatemala. Two teams will compete to raise funds, one hundred pennies for every five hundred miles difference, between countries.

The club accepted with regret the resignation of Mrs. Artie Whitesides.

A new member Mrs. Carlos Ramsey was welcomed.

The first meeting of the new season will be September 12th.

Members present at the call meeting were Mesdames C. E. Lundberg, C. W. Ramsey, F. L. Caffee, L. O. Campbell, John Brookman, C. R. Chambers, W. W. Chambers, Ralph White, A. H. Lohofener, F. G. Jeffers, and F. M. MrMurtry.

12 GAUGE SUN SHIELD

Ever shoot a .22 equipped with a telescope sight on a bright sunny day? If you have, you know glare can be a problem. Fix that by cutting the cardboard off a 12 gauge shell and painting it flat black inside and out. It will slip down scope out of the way when you don't need it, shield the scope end when you do.

SMITH-CASWELL VOWS RECITED
IN FIRST PRESBYTERIAN CHURCH

MRS. ROYSE JEROME SMITH

Nuptial vows were solemnized Sunday evening in the First Presbyterian Church, Norman, Oklahoma for Carole Wynema Caswell and Royse Jerome Smith.

Dr. E. Kenneth Feaver, pastor, was the officiating minister.

The bride is the daughter of Mrs. Wynema Caswell, 605 Okmulgee Street, Mr. and Mrs. Roy M. Smith, 700 Timberdell Road, are parents of the bridegroom.

The church aisle was lined with hurricane candles and had arrangements of gardenias, stock and greenery on the pews. Vows were spoken amid an altar setting of candle trees with gardenias, stock and feathered chrysanthemums, and topiary trees of white stock with a background of palms.

Joe Benton sang "I Love Thee" by Grieg and "Entreat Me Not to Leave Thee" by Gounod. Traditional wedding processions and recessions were played by Mrs. Ted Green-shields, organist.

The bride was given in marriage by her maternal grandfather, E. R. Burns, Burk Burnett, Texas.

Her gown of silk organza had Alencon lace appliques at the squared neckline and at the points of the long tapered sleeves. A wide crushed satin cummerbund gave an Empire effect to the front of the gown and extended in back into a loop and streamers, accented with a fabric rose. Appliques of the lace, encrusted with sequins and pearls, were scattered about the skirt which had a bouffant chapel train in back. The front of the skirt fell straight and had a raised hemline bordered with satin and lace appliques.

Her multi-tiered veil of silk

illusion was attached to a tall crushed satin pillbox. She observed the traditional bridal sentiments and carried a bouquet of gardenias.

Mrs. Don Copeland, Pauls Valley, was matron of honor. Bridesmaids were Mrs. Joe Davis, Norman; Becky Burns, Nowata, cousin of the bride; Sydney McLeland, Fort Worth, Texas; Linda Hammon, Oklahoma City, and Ann Copeland, Brownfield, Texas.

The bride's attendants wore dresses of emerald green silk organza over taffeta, styled with instep-length belled skirts and fitted bodices with elbow-length sleeves. The crushed cummerbunds and the hemline borders were of matching green antique peau de soie with circular veils. They carried bouquets of gardenias and feathered chrysanthemums with greenery.

The candles were lighted by Peter Adams, Wichita, Kansas; and Done Copeland, Pauls Valley.

Paul Smith, Norman, served his brother as best man. Groomsmen were Tom James and Bill Givens, both of Ardmore; Pat Wilkinson, Norman; Clay Allen, Muskogee, and Ed Gage, Enid. Ushers were Pat Poe, Norman, who escorted Mrs. Carwell; Virgil Hicks, Edmond, cousin of the bridegroom, who escorted Mrs. Roy Smith, and Sam Jackson, Dallas, Texas.

The bride's mother wore a sapphire blue peau de soie costume suit with matching accessories. Mrs. Smith, mother of the bridegroom wore a powder pink silk sheath dress with a pink lace overblouse. Her hat was pink and her shoes and handbag were white.

Mrs. E. R. Burns, Burk Burnett, grandmother of the bride, wore a slate blue costume suit of Italian silk pasante with black accessories. The mothers and Mrs. Burns wore corsages of white orchids.

The reception was in the Chi Omega sorority house, 820 Chautauqua, with Mrs. Gertrude Phillips, Mrs. Glenn Grimes, Mrs. Robert Fleener and Mrs. Kay Caudill acting as hostesses.

The bride's table, skirted with floor-length white organza, was centered with stacked silver candelabras and a tiered cake. White carnations and lemon leaves were arranged about the candelabras. A silver punch service was used at a companion table which was decorated to match the bride's table.

Ann Moran, Seminole, attended the guest book.

Reception assistants were Patty Hammond, Tulsa; Sonya Evans, Seminole, and Shari Saunders, Norman.

The bride's going-away ensemble was a champagne light-weight wool suit trimmed in beaver, which she wore with a matching brushed beaver hat and brown lizard accessories.

Mrs. Smith is a graduate of Norman High School and is a senior student at OU where she is a member of Chi Omega social sorority. Smith was graduated from Shattuck School, Fairbault, Minnesota, and will be graduated from OU in January 1964. He is a law student and a member of Phi Delta Theta fraternity.

The couple will fly from Dallas, Texas, for two weeks in Mexico City and Acapulco. Upon their return, they will reside at 604 E. Lindsey Street.

Relatives attending the wedding from out-of-town included the bridegroom's sister and her husband, Mr. and Mrs. C. E. Billingsley, Schenectady, N. Y., and the bride's uncle and his wife, Mr. and Mrs. Elmer Burns, Nowata.

The bridegroom's parents, Mr. and Mrs. Roy M. Smith, entertained Saturday evening with a rehearsal dinner at the Holiday Inn. Guests included members of the bridal party, their husbands, wives, fiancées and escorts.

The bride has visited her grandparents, Mr. and Mrs. E. R. Burns, here on several occasions and attended the First Baptist Church.

RETURNS FROM VACATION

Mr. and Mrs. C. L. Chitwood and Glenn and Tommy Lambert of Burk Burnett just recently returned from a very enjoyable two weeks vacation. They visited points of interest in New Mexico and Colorado, such as the Museum in Denver, and Colorado State University at Fort Collins, Colorado. They visited relatives at Black Mountain Guest Ranch near Creede, Colorado, and relatives in Clovis, New Mexico, Lamesa and Amarillo, Texas. Also they visited Cal Farley's Boys Ranch, near Amarillo, which covers 1400 acres and has nearly 1300 boys from every state in the union.

As always, wishful thinking keeps my mind well occupied.

The Lord is my shepherd

PSALMS

THE LORD is my shepherd; I shall not want.

He maketh me to lie down in green pastures: he leadeth me in the paths of righteousness for his name's sake.

Yea, though I should walk through the valley of the shadow of death, I will fear no evil: for thou art with me; thy rod and thy staff they comfort me.

Thou art my Father, my God, and my King: I shall not be afraid, for thou art with me: thou shalt deliver my soul from all trouble, and thou shalt receive me to thy holy temple: O Lord my God, I will praise thee forever.

The 23rd Psalm is one of the most familiar chapters in the Bible. Early in life, most of us have committed it to memory. Every once in a while we should go back to these verses and think of the wonderful message of faith and trust in God that they reveal to us. They show us that we have a loving Father; one who will show us the right paths; one who will protect and provide for us. These scriptures end with a note of thanksgiving and a promise.

"Surely goodness and mercy shall follow me all the days of my life: and I will dwell in the house of the Lord forever."

Plan to start a regular worship in the Lord's house this Sunday.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Roger W. Babson Weekly Report

ROGER W. BABSON

Babson Calls For Old-Fashioned Thrift

It is amazing to me how many people today seem quite happy to "live it up" without any regard for their pocketbooks. Our so-called "welfare state" has made people take the problems of unemployment and old age security far too lightly. When I talk to young people, I find

they are giving little or no thought to their financial futures. The result is that they never accumulate the few dollars they need to start them along the road to sensible budgeting and a program of successful investment.

Thrifty Men Come Out Ahead

My father — I have never forgotten — used to warn me that the man who spends less than he gets will be an employer, but that the man who constantly spends all that he gets will always be an employee. The importance of saving, my father insisted, was in no way related to how much a man had or how much he brought home on payday. He believed that a poor man who saved something was far wiser than a wealthy man who had no system of saving whatsoever.

I have often thought about my father's words. And I have noticed that partners in business and partners in married life always get along better when they have some cash in the bank. A great many of life's troubles begin when bills come in and there is nothing to pay them with. I decided when I was still very young that I would rather TELL my dollars where to go than ASK where they had gone.

ABC Of Independence

Step number one in beginning an investment program is to set aside some of your income every single week. This involves budgeting regularly and intelligently, putting first things first. It is obvious, for example, that it is better to pay the grocer than the doctor, even though foods costs may be fairly high. Household labor costs and general expenses are also high today, plus insurance, taxes, repairs, etc. But oftentimes children or other members of the family can help lessen expenses by doing more of the chores and or bringing in some extra money from outside jobs.

My observations of present conditions indicate that a man with a family of four bringing home earnings of \$5,000 (after income and social security taxes) ought to hold his living costs under 85 per cent of that total. About 43 per cent would go for food and clothing, and 39 per cent for housing and transportation. I have said before — and I still believe it is true — that many families are paying too much for transportation. This is particularly true of those in the lower income brackets. Unless they buy more for cash and buy less on credit, they will never get started on a sensible financial basis for

110-Year-Old Man Gets Health Insurance

PLATTEVILLE, COLORADO—A 110-year-old shepherd here, bought the first hospital insurance policy in a national enrollment of senior citizens opened by Mutual of Omaha. He is Henry Gooch, who still works 10 hours a day, seven days a week herding sheep on a 250 acre Colorado sand hills farm. Gooch previously was insured by Mutual but added to his coverage because "I fell off my horse a couple months ago." Here C. M. Chamberlin, Vice President of Mutual representing its President, V. J. Skutt, explains the health policy to Gooch.

the future. Even with reasonable allowances for benevolence and church and for personal and miscellaneous items, there should still be at least 5 per cent left for insurance, savings accounts, and investments — or, more specifically, about \$250. I heartily advise you to put half this amount into life insurance and the other half into savings. Starting on such a tight budget I would definitely not make any provisions at this time for speculative investment.

Start Budgeting Early In Life

One of the most important things in a man's life it to learn early to budget and to save. Failure to do this is responsible for the sad fact that close to old right now are not self-supporting. Most of them have 30 per cent of the men 55 years

made enough money between the ages of 30 and 50 to keep themselves and their families in comparative ease for life IF THEY HAD ONLY FOLLOWED A DEFINITE PLAN OF SAVING. It seems senseless to me to work the best part of your life to earn a few dollars if these dollars are going to earn nothing for you afterward. Only by way of labor and saving is important capital built up. Those who consume less than they produce can turn their surplus back into productive channels that will increase the nation's wealth. Investments of various sorts, including bank deposits, can build up independence for you and educate your children. In addition, savings provide the capital for commerce and industry to generate new productive facilities and thus open new employment opportunities.

CHUM POT

It might bear repeating that there are several kinds of inexpensive ways to liven things up when fishing gets dull. Cat food and sardines are two of them. Just puncture cans and lower to the bottom or spoon on the surface depending on whether you're fishing top or bottom. Oily food attracts small fish which brings the big ones in.

FISH AND GAS DON'T MIX

A tip that will help you catch more fish is to always carry soap in your boat and wash hands if there's a chance you've gotten oil or gas on them. Oil or gas odor lingers long and can transfer to bait easily. Fish hate it, fish will stay away from your hook in droves.

ANNOUNCING PLANS FOR FALL MEETINGS
The Women of St. John the Divine plan some very interesting programs at their regular monthly meeting this fall and winter.

Featured at the first meeting September 12th will be an "illustrated" lecture on the History of Church Music by Mr. Michael Merriman. Mr. Merriman is a graduate of the University of Texas. He was a pupil of Charles Kiken of Abilene and Joyce Gilstray Jones of the University of Texas. He has six years experience as organist and choirmaster and is currently choirmaster at St. Paul's Episcopal Church in Olney.

Dr. Claude Beasley has accepted the invitation of the Women of St. John the Divine to speak on the Sacrament of Baptism at the October 10th meeting. Dr. Beasley formerly was rector of the Church of the Good Sheppard of Wichita Falls for many years. He is now retired from the active parochial ministry. Since then has been appointed deanery chairman for the Episcopal Church under the Diocese of Dallas. Dr. Beasley has also been engaged in research on a book, very active in supply work and lectures for the Episcopal Church of North Texas.

Subjects to be covered at the following meetings will be the Sacraments of Conformation, Marriage, Penance, Ordination, and Holy Unction. The speakers at the following meeting are to be prominent priests from the Episcopal Church of North Texas.

SUNGLASS HABITUES
Q. Our 18-year-old daughter wears sunglasses most of the time—indoors and out. Will this harm her eyes?
A. Probably not. Why some people don their sunglasses as conscientiously as they shave, brush their teeth, or apply makeup is difficult to understand. Perhaps the sunglasses habitue wants to see without being seen. One note of caution. No one should wear sunglasses while driving a car at twilight. Added dimming of the fading evening light while driving is just inviting trouble.

GOAL IN MIGRAINE—PREVENTION
Q. My sister has migraine. What causes the headache and what brings on the attacks?
A. Migraine headache is due to the ballooning of certain blood vessels which lie just beneath the skull. It is not always possible to determine what precipitates a migrainous attack. In many cases the headache and other characteristic symptoms occur at more or less regular intervals. Certain susceptible persons seem to build up tensions to a point where the "lid blows off." Drugs are used to help relieve the pain but the real goal should be to prevent the attacks. In order to do this the migraine sufferer needs the help of a physician who can uncover the patient's problems.

The real "miracle" of today's medicine is that so much cure costs so little.

MU Students Need Security Numbers
All students who plan to attend Midwestern University in the fall must have a social security number, announces Miss Betty Bullock, registrar.

Miss Bullock said this will give each student a permanent number and it will assure more accurate and speedier handling of transcripts and records.

This is also part of the preparation for the IBM registration to be used this year at Midwestern University.

Students may apply for a social security number in the Federal Building. It takes approximately five days to get the number back.

Miss Bullock has also urged all who plan to attend MU in the fall to apply for admission immediately. A student should also see that a copy of transcript has been sent to his high school.

Application forms may be obtained in room 105 of the Administration Building by writing to the registrar's office and requesting these forms. If a student applies during the late fee for registration period, he will have to pay late fee for registration.

Orientation will be held Monday, September 9 to Wednesday, September 11. Registration will begin Thursday, September 12, and through Saturday, September 14th.
