Lynn Purtle Takes Office of County Attorney

GLYNN PURTLE

Glynn Purtle, first assistant Wichita County Attorney, has formally announced his candidacy for the office of County Attorney for Wichita County, subject to the action of the Democratic Primary, May 2, 1964.

Purtle, the son of Mr. and Mrs. Harold Purtle of New Boston, Texas, and one of six children, was reared on a farm near New Boston and was graduated from public schools there in 1950.

Upon graduation from high school he volunteered for and served three years in the U. S. Army during the Korean conflict. After completing this tour of duty in the military service, Purtle enrolled at Texasarkana college in early 1954 and was graduated from the two-year college in May 1955. He then enrolled in the University of Texas and received a B.B.A. degree in 1957.

Career Here
The candidate then enrolled at the University of Texas School of Law, and was graduated three years later with a Bachelor of Law degree. He was admitted to the Texas Bar in December 1960. During the five years in which he was employed at night in the communications division of the Texas Department of Public Safety headquarters in Austin.

Upon becoming an attorney, Purtle moved to Wichita Falls in December 1960, and assumed the duties of assistant city attorney and city prosecutor for the City of Wichita Falls. He held this position for a year until he resigned in December 1961, to become assistant county attorney for Wichita County under Donald E. Short, county attorney. In September, 1962, Purtle was promoted to first assistant county attorney, a position he presently holds.

While serving as city prosecutor, Purtle originated a city ordinance passed by the city council which requires information concerning the sale of all automobiles in Wichita Falls to be furnished to the police department. Such a measure has proven invaluable in the apprehension of suspects in many shoot-outs and homicides in this area, as well as in proving the crime trial.

The candidate is a member of the First Methodist Church of Wichita Falls, the Wichita Falls Chamber of Commerce, a past member of the Wichita Falls Junior Chamber of Commerce and is a member of the YMCA Men's Club of Wichita Falls, an international civic club devoted to its time, money and energy toward betterment of the Young Men's Christian Association and the youth of the community. He presently serves as secretary of the group.

Statement
In commenting upon his candidacy for county attorney, Purtle said:
"My experience and interest in the office were the two major deciding factors causing me to seek this office. Space does not permit me to present the complexity of the duties of the office of county attorney, nor does it permit me to use detailed examples of cases of my own experience, which I feel

Fire Department Busy Answering Grass, Weed Fires

The Fire Department has been answering an average of three to five grass fire calls each day. One fire, where no one was at home, burned off all the yard, did extensive damage to valuable shrubs, and destroyed a tool house and several pieces of power yard equipment.

Everyone is asked to be extremely careful about disposing of cigarettes and matches. Grass and weeds are powder dry and a careless cigarette can cause untold damage.

High winds have contributed to putting the fires out of control in a very short time. A fire can flash across a yard in seconds.

Don't start a fire on your own, and if you see a fire, call the department immediately. Unless you have the proper facilities at hand, a fire is out of control as soon as it starts.

quality me for the office. Suffice it to say, I have prosecuted numerous criminal cases as assistant county attorney, in addition to the many other legal capacities in which I have represented the county, which include litigation and the formulation of advisory opinions to the many departments of our county government, as well as a close working relationship with law enforcement agencies everywhere.

Professionally produced in Hollywood on the stages of Paramount Studios and Family Films in full color, the new 80-minute film portrays the dramatic conflict in the heart and soul of a self-assured church member who was able to convince a jury at a trial for his defendant, but found it almost impossible to share his Christian conviction with a nine-year old girl.

According to Pastor Phil Otten, the local congregation is aiming at saturation coverage. Everyone is invited to attend the showing to be held in the church, Sunday evening at 6:30 p. m.

H. R. Hayes Receives Life Saving Awards

H. R. HAYES

H. R. Hayes, Burkburnett, now a retired employe of Wichita Falls Dist., Dallas Division, Producing Dept., was presented both the Texaco Life Saving Award and the American Petroleum Institute Meritorious Safety Award at a Texaco Safety Award Dinner on October 29 at the Vista Villa Motel in Wichita Falls, Texas. The awards were presented by S. E. White, Jr., Division Manager.

Hayes, then a Gas Tester at Electra Gasoline Plant, qualified for the awards on August 24, 1962, when he rescued several aged occupants from a burning convalescent and rest home at Electra, Texas. The home had been hit by a flaming truck which was out of control and immediate pandemonium resulted. Hayes, who was in the vicinity, immediately entered the burning building and aided the patients in escaping the flames. He entered the building several times without regard for his own safety as it was likely that the burning truck could explode at any time and wreak greater disaster.

At the time of the approval of Hayes' Meritorious Safety Award, there had been a total of 195 such awards approved for people in the entire petroleum industry since the inauguration of this award by the API in 1953. Hayes' award was the 74th presented to domestic Texaco employes. In addition, three have been awarded to Texaco employes in Canada. Hayes' Texaco Life Saving Award marks the 57th such award since its inauguration in 1936. Fifty-five of these awards have been presented to active employes, one to a retired employe, and one to a non-employe, each of whom by virtue of his own actions without regard for his own life has saved the life of another person.

Almost 100 per cent of the directors were present for the meeting and entered eagerly into the discussions and pledged their best efforts toward the coming year's program of work.

A Carrot For The Jackass

Among all the determinations he expects of the present session of Congress — on civil rights, on the tax cut, on unemployment, on medicare and housing and education, President Johnson has singled out tax reduction legislation for priority.

"Above all," he said in his State-of-the-Union message, "we must release \$11 billion of tax reduction into the private spending stream to create new jobs and new markets in every area." And, by way of emphasizing the point, he noted that the tax bill "has been thoroughly discussed for a year," and declared: "Now we need action." To put a fine point on it he suggested February first as the deadline for final action.

Under this presidential prodding, the Senate Finance Committee headed by chairman Harry F. Byrd, generally conceded to be the outstanding budgetary authority in Congress, swung belatedly into action. The Committee voted to continue to permit tax deduction for gasoline taxes, but balked at retaining present tax benefits to stockholders on dividend income.

The tax reduction bill already passed by the House eliminates deductions for States taxes on gasoline, liquor, cigarettes, auto licenses and various excises, but continues deductions for real estate taxes, personal property taxes, incomes taxes and general sales taxes. On dividends, the House bill doubles the present tax-free allowance of \$50 a year to individuals (\$100 to husband and wife filing a joint return), but cuts the present four percent tax credit on additional dividends down to two percent. While the Senate Committee voted down a motion to retain existing tax treatment of dividends, the matter was left open for disposition by amendments later on.

Although it voted its agreement with the House bill on most other points, the Senate Committee still has work to do in readying its version of a tax cut, and the bill passed by the Senate will almost certainly differ from that of the House and require additional time for Conference adjustments. Thus, it will be a minor miracle if the measure is to be ready on schedule for the President's signature.

However that may be, it will be a case of two moun-

tains laboring to bring forth one mouse — a mouse with a political squeak and little else. It will make some taxpayers feel better off, but it is unlikely to spur capital investment or to give to the economy the advertised shot-in-the-arm. It will be a tax concession, but not tax reform. And the cost will still be eleven billion dollars.

FOGGY FROGS

A little green frog is one of the finest fall baits a man could want to feed to a big old hungry bass or northern trout. BUT getting one of the little squirmers into its harness is such hard work. Many fishermen forget it and use minnows. Try this: Hold the frog on its back and gently stroke its belly. This will temporarily put it to sleep while you slip it into its rig.

"MINING, DRILLING AND FARMING UNDERNEATH THE SEA"

A Conservation Program was featured at the January meeting of the Burkburnett Study Club, held in the home of Mrs. H. C. Preston, Jr., Rosewood Avenue, with Mrs. Maxine Creel as co-hostess.

Mrs. E. Y. Buckner spoke on the "Unlocking of the Resources of the Sea." This is one of M. I. T.'s current projects. The Flip is a spectacular device built for exploration of the ocean. It is a 350-ft. cigar shaped research vessel, with a power plant and living quarters for its four man crew. The study of how sound travels is one of its main projects in our defense. The resources of the sea include, the mining of gold, silver, platinum, diamonds and calcium carbonate, to name a few, also oil drilling and farming. Many projects are in the research stage, water conversion, oil rigs placed below the surface of the water where they will be unaffected by storms, pumping fresh water from springs under the sea floor and

bases at the bottom of the ocean from which men might explore. At the New York World's Fair one will be able to ride under the sea, in General Motor's spectacular display of underwater exploring, mining, farming and living. Like the moon, the sea ought to belong to every one.

The remedies for Air Pollution are known; they need only be applied. These were opening remarks of a talk made by Mrs. W. H. Preston. In Pittsburgh, the housewife now washes her curtains twice a year instead of once a week. St. Louis has abolished its pall of smoke and London is the last ten years has reduced its death rate, due to fog, from 2,000 to 340 persons. Different cities have different problems because of climates and different fuels. In Los Angeles, its automobile exhaust. From legislation which has been passed, it is a law that each car be equipped with a vent connection to the air intake of the engine, so that the engine will suck these fumes back into itself and burn them up. It is also a fact that any industrial operation can be made dust free, but it takes money and lots of it.

Mrs. M. E. Bean displayed much wit and humor while discussing the subject of "Enlarging the Opportunity for Outdoor Recreation." On the serious aspects of this problem she said, "In spite of the twin threats, too many people and a devastating nuclear war, we have to live as though we believe they will not happen. We must therefore be interested in what our children should have for their proper welfare and development. Many people give land for recreational areas and parks, but a lot more could be persuaded after some action has been taken and the need can be seen for enlarging existing parks." Burkburnett is fortunate to have two new parks and a new swimming pool, but there is much work to be done and much maintenance to these projects. New lighting has been installed in these parks the past summer as a safety measure and a convenience, as well as protection from vandalism.

Mrs. Geo. McClarty, president, asked each member as a courtesy to a neighbor, who lives alone, to keep contact with that person. A Senior Citizen project, but also a protective measure for a good neighbor.

The club received a letter of appreciation from Mrs. Hattie G. Owen, District Chairman of Oral Club Reports of Federation

Armful of Perpetual Motion

THESE WRIGGLING identical twins, Ronnie (left) and Donnie Higgins, 2½ years, are victims of a birth defect resulting in defective bone growth. At the March of Dimes-financed Birth Defects Treatment Center, Creighton University School of Medicine, Omaha, Neb., where the twins are examined regularly, they are visited by Mrs. Frank B. Morrison, wife of the governor of Nebraska and Nebraska Mothers' March chairman for the March of Dimes. She finds that holding them aloft is like trying to grab perpetual motion. Contributions to the March of Dimes support the fight against birth defects, arthritis and polio.

of Women's Clubs, Wichita Falls, for the District Workshop held in Burkburnett in November.

Mrs. Glen Bear, Legislative Chairman, reminded the club members to pay poll taxes this month.

As a member of the Federated Council, the club entered the Community Improvement Contest, last November and has written and turned in a report to the Federation Chairman, Mrs. Floyd Marten. This is a Sears contest project covering a period of two years.

The door prizes were won by Mrs. Howard Henderson and Mrs. Philip Carpenter. In compliance with the Conservation Program the hostesses gave each member a bulb to plant. Refreshments were served to

Mesdames M. E. Bean, Glen Bear, James Bohner, E. Y. Buckner, Philip Carpenter, Francis Felty, Jim Frye, Howard Henderson, E. D. Pitter, Geo. McClarty, F. C. Roye, Jack Smith and Harold Van Loh.

Ford Wins Motor Trend's "Car of the Year" Award

January 8: Motor Trend magazine's "Car of the Year" Award goes to an engineering breakthrough! It honors all the '64s from Ford "For engineering advancement in the concept of Total Performance, proven in open competition."

Thunderbird, Falcon, Super Torque Ford, Fairlane (reading counterclockwise); winners of Motor Trend's "Car of the Year" Award

Here's what the Motor Trend Award means to you..

The editors of Motor Trend, America's largest general automotive magazine, watched Ford's total performance in open competition... saw competition-modified Fords win every 500-mile stock car race in the last year, saw Ford-built engines end an era at Indianapolis and sweep the sports car circuits.

Then they drove the 1964 Fords, Falcons, Fairlanes and Thunderbirds and discovered how the lessons of open competition have helped breed into them a new kind of total performance for the open road, for your kind of driving. And then they made their award!

The "Car of the Year" Award is an impressive testimonial, but see for yourself—take the wheel of a '64 Ford. These cars speak for themselves with their ease of handling in a supermarket parking lot or their greater stability on a rain-slick blacktop.

Before you buy any new car this year, test-drive total performance in a Solid, Silent Super Torque Ford, now hundreds of pounds more car than anything in its field. Try America's only total performance compact, the Falcon V-8, totally new, totally changed. Or, any of the '64 Cars of the Year from Ford!

TRY TOTAL PERFORMANCE FOR A CHANGE!

TAKE YOUR PROBLEMS TO CHURCH -- MILLIONS LEAVE THEM THERE

There is a need to look back occasionally to get our bearings for the future. Past experiences often guide future action. What has proved good and profitable in the past will often prove to be the same in the days ahead. Serving God and our country through our churches and through civil and community service has always elevated us as a people and contributed to our image as a free and just country. We will not go wrong in adhering to these practices. Attend the church of your choice this Sunday and receive inspiration and courage for the future.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Way of Saying 'Thank You'

WINNING her fourth award at her Chicago school for penmanship, although severely crippled in the hands by rheumatoid arthritis, Frances Szczepanik, 12 years, gives all the credit (and a fond embrace) to her nurse, Rachel Minger, at the March of Dimes-financed Arthritis Treatment Center, Children's Memorial Hospital, Chicago. Child's doctors had recommended handwriting exercises as a form of physical therapy. March of Dimes contributions support the fight against birth defects, arthritis and polio.

Bulldogs Lose To Graham In Conference

The Burk Burnett Bulldogs made a somewhat less than impressive showing against the Graham Steers in Graham, Friday night, as they absorbed a 61-41 licking from the zone favorites, while playing without their scoring leader, Johnny Koller.

Koller came down with the mumps last week, and might possibly be out for the season. Not only was his scoring missed, but his defensive and rebounding had been a big part of the Bulldogs' success. However, Burk didn't completely disappoint their fans, as three starters hit in double figures. Jackie Cornelius hit 15 points for team scoring honors, followed by Mike Musick, with 12, and Paul Gilchrist, with 10.

However, the lack of support in the scoring column made the Bulldogs no match for the Steer attack, led by P. D. Shabay, with 21 points, and 6' 8" Mike Lochner, with 19.

We feel safe to say, however, that as the Bulldogs adjust to the absence of Koller's height and ability, they will become a stronger contender.

The Bulldogs' record is now 9-8 for the season.

DRY SEAT

There are plenty of ways to insure you have a warm, dry place to sit while on a deer stand or when squirrel hunting. This is one of the simplest and easiest. Take a burlap bag and fold it into a square. Slip this into a plastic bag and seal the end with tape. You'll be surprised how comfortable it will be.

CLAY STORAGE

For a handy place to keep small lures, flies, etc., that you put in or take out of your tackle box often, try a lump of kid's modeling clay. It stands temperature changes well, will stick in a tackle box and you can press hooks in to hold them tight.

CHAMP RETIRES — Cutter Bill, world's most honored quarter horse, "hangs up his shoes" this week as he retires to stud at oilman Rex C. Cauble's ranch near Crockett, Texas. Concluding a year in which he reigned as the World's Champion Cutting Horse, the eight-year-old palomino retires as the nation's top-ranking cutting horse stallion with his stud fee pegged at \$1000.

WATERPROOF POUCH

Need a no cost waterproof pouch to carry matches or other things? Get one from a pipe smoking pal. Pouches most pipe tobacco comes in are good-quality waterproofed paper.

CLEAN PLUGS

Take an old toothbrush and a dish of hot soapy water. Scrub down plugs, spoons, feathered lures. Make 'em bright as new.

FROZEN ICE

This one sounds funny... but it works. If you put a block of ice in your freezer for a couple of days before going camping, it will last twice as long. You've lowered its temperature and it gives off more cold and lasts longer because of it.

RUBBER BAND VICE

A rubber band over the handles of your pocket pliers makes a useful field vice.

CAMPERS' SOAP

A cake of soap can be a mess in a pack. Why not do as some campers do and carry a tube of shaving cream instead. It is scented soap, excellent for washing hands, face, even clothes and stays near when not in use.

EYE SAVER, FISH GETTER

The little silicone-treated patches so useful in keeping your glasses clean are just as useful in a tackle box. They'll shine spoons, spinners, all kinds of metal in the twinkling and silicone helps keep the shine fresh.

BABSON WONDERES HOW MUCH EMOTIONS AFFECT BUSINESS

BABSON PARK, Mass. I have been interested in just how much our national mental health may influence the

they THINK they are.

Impact of Emotions on Business

Everyone recognizes the parts played by religion and psychiatry in developing entirely new, successful, and happy personalities. Industry itself has made surveys which indicate that the cause of many serious and costly strikes is not economic. Instead, many have a purely emotional origin; the emphasis, reality, is more on recognition, security, and individual attention than on wages or hours. Hence, why is it not likely that business depressions could be profoundly affected by emotional currents?

I wonder what might happen during this new year if business, and people generally, should begin to feel cautious and pessimistic, irrespective of conditions and of what the economists and bankers forecast. While most economists predict a business advance during 1964, could the mental and emotional health of our people reverse the trend in spite of the all-time highs now existing in employment, production, earnings, and retail trade? I sometimes wonder if we are right in figuring solely on money, employment, sales, etc., as the criteria for prosperity. Perhaps someday it will be found that mental and emotional attitudes do

more to mold our business patterns than the purely economic barometers. I feel sure even now, that our spiritual and mental health does affect business conditions. It is certainly an interesting area for further study.

business cycle and the forces of prosperity. Today, with such swift transportation and lightning-flash communications, I am brought to wonder too, how much of an effect man's emotions may have upon international, commercial, and political developments.

The Power of Emotions

I am firmly convinced that our emotions direct our behavior in more instances than we like to admit. It is a psychological fact that a successful salesman aims at our emotions if he finds that his appeals to our logic have failed. And if you have ever attended a town meeting, you know how easy it is for some spellbinder to completely override logic with an emotional appeal. Nine times out of ten we give in to the purely emotional gimmick.

In most national political elections, I would venture that the outcome has been even more heavily influenced by emotion than by common horse-sense. Since emotion plays such a big role in our individual lives and in politics, is it not reasonable that the way we FEEL about business conditions may very well have a bearing on those conditions themselves? Surely nobody would deny that confidence is a very important factor in manufacturing, banking, and consumer purchasing. Should Be Looked Into Businessmen in general seem

CHEVELLE! by Chevrolet

One of the things you'll like best about it is 11 models to choose from.

| MALIBU S.S. SERIES | MALIBU SERIES | 300 SERIES |
|---|--|--|
| These two Super Sport models are Chevelle's finest. Front bucket seats, door-to-door carpeting and an all-vinyl interior in seven colors. A wide choice of transmissions and extra-cost high-performance engines. Plus a whole host of other options. | Chevelle's middle-of-the-line series, the Malibu, retains many features found in the two Super Sport models. Like all Chevilles, it's a good foot shorter than big cars, making it easy to park and handle. Yet inside it's surprisingly spacious and comfortable. | Chevelle's most economical series—but don't let its gentle price tag fool you. The 300 has all Chevrolet's traditional value and reliability. Full Coil suspension. Body by Fisher. Flush-and-dry rocker panels. Your Chevy dealer will tell you all the rest. |

BABIES AND THE MOON

Q. Is it true that more babies are born when the moon is full than at other times?

A. No, but this is a popular and world-wide notion. To prove or disprove this belief, records of almost 10,000 births were reviewed. There was no evidence that this ancient belief is true. In fact, births at the new moon outnumbered deliveries at the full moon by 3 to 2. It's high time to discard the superstition that the moon influences the time of birth.

ILLNESS IN CLUSTERS

Q. Does "when it rains it pours" apply to sickness?

A. It seems so. Some people may go through life with little or no illness while others seem to be sick much of the time. Doctors at a New York hospital went over the records of almost 3000 persons. They found that illness usually occurred in "clusters." Periods of ill-health lasted several years and were frequently followed by long spells of good health.

Answers appearing in these columns are of necessity, brief and general in nature and do not necessarily reflect the opinion of all physicians.
