Mr. and Mrs. J. G. Cheney have just returned from an exciting trip to California, accompanying their son, Morris and his family.

Places visited by them were the Petrified Forest, the Painted Desert, the Grand Canyon, the Walnut Canyon and Isabella Dam.

They called on relatives in Los Angeles and attended a family reunion in San Bernardino at which 40 persons were present.

Heading home, they stopped in Eloy, Arizona to visit Mrs. J. G. Cheney's brother and in Odessa to visit a granddaughter.

Plans to see Yosemite Park were cancelled when they learned that snow made the roads impassable.

The Cheney's returned home Friday, June 18th and are now resting from their vacation.

Visiting Mrs. Lloyd Clemmer of 705 Forest last Thursday were Mr. and Mrs. M. B. Clemmer, Mrs. Jack Lee and Keta Rocky, Mrs. Leon Cain, all of Walters, Okla.

Mrs. Clemmer's daughter, Margie Lou, returned to Walters with them and visited until Sunday.

Mr. Winford Henry of Henry's Bakery, has been on jury duty in Wichita Falls during the past week, therefore, if you have been unable to purchase freshly baked bread, you will now understand why. He has not had time to bake it.

Don't give up. He will have it again soon. Perhaps even now.

Guests for one week in the home of Mr. and Mrs. Daniel White, 1013 E. Beverly Loop, were Capt. and Mrs. J. C. Minnix and children, who stopped on their journey from Germany to Victorville, Calif. Mrs. Florence Minnix, mother of the Captain, joined them from New York City.

Dr. Pete Allbright and family of Dallas spent last Thursday with the Whites.

One day the past week, the police had occasion to answer an emergency call and while trying to get through traffic, to the scene of the call, only one motorist heeded the revolving red dome atop the car.

There is a law which states all vehicles must pull to the right as far as is possible and come to a complete stop upon hearing a siren, bell or seeing a flashing or revolving red light on an emergency vehicle, such as a police car, ambulance or fire truck.

To ignore this law causes conditions which could result in serious, even fatal, accidents and prevent someone from receiving vitally needed aid.

Please obey the traffic laws since they are made for your safety.

Mr. and Mrs. Jerry Gee and children of Wichita, Kans., spent the weekend with Mr. and Mrs. C. D. Gee, 707 Sunset Dr. and Mr. and Mrs. Winford Henry of 814 Sheppard Dr., Mrs. Gee's parents.

Mrs. Gee's brother, Mitchell Henry, returned home after spending a week in Kansas with her.

Mrs. Roger Snyder, daughter of Mr. and Mrs. Luther Magee, 203 Mimosa, is room 424 of the Wichita General Hospital being treated for double pneumonia.

### Suzy Self Is The Efficient Secretary for Burk Rodeo

Handling a myriad of duties as Boom Town rodeo secretary is Suzy Self, an attractive blonde who knows rodeoing from all angles. She is the wife of Tom Self, rodeo pickup man and the daughter of rodeo promoters, Mr. and Mrs. Frank Rush of the Rocking R Ranch. Suzy works many hours after rodeo fans are asleep to insure each and every contestant will receive the prizes due them.

Handling the man-sized job as secretary of the Boomtown Rodeo is a personable young lady named Suzy Self, who finds the world of rodeoing fascinating business.

The pretty blonde, daughter of rodeo producers, Mr. and Mrs. Frank Rush, works many hours after rodeo fans are asleep to insure every contestant receives his prizes.

She's one-fifth of the rodeo producing Rush family, known through the Southwest for turning out top rodeos. Suzy's husband, Tom Self, is one of

the two pick-up men in the rodeo arena.

A horse woman of note, Suzy's first love is working with rodeos. She grew up on a horse, so to speak, in the Wichita Mountains and every week "runs" the Sunday rodeo at the West Cacha Trading Post.

She takes entries from cowboys and cowgirls, arranges for releases, compiles the rodeo programs, control booth and when the results are tabulated, pays off.

Her father, Frank, is overall boss of the big rodeo operation, but it's friendly Suzy

who handles the tough details and makes the rodeo jell.

"Suzy does a tremendous job for our team," Rush said. "She knows all the cowboys and cowgirls and seems to have a tremendous knack for getting things done. I don't really think we could produce a rodeo without her."

"We are looking forward to the Boomtown Rodeo this year," said Suzy, who is a graduate of Cameron College. "We already have an advanced registration of cowboys and everything points to a wonderful action-packed rodeo."

### BAKE SALE

Theta Epsilon Sorority will have a BAKE SALE Saturday, June 27th beginning at 9:00 a. m. at the bank corner.

### Frank Rush Bringing Indians to Perform In The Arena

Chief Rusty Wahkinney will headline the show and will bring with him the World Champion War Dancer, George "Woodgie Watchiker". They will bring the big Indian TOM TOM, and war dances and social dances will make up the colorful exhibition.

## MORE THAN POLITICS NEEDED

The current political emphasis on launching a "war on poverty" brings to mind previous campaigns against this foe that the federal government has fought and lost. The Tennessee Valley Authority is a case in point. This noble experiment in big brother central planning has cost the taxpayers more than \$1.2 billion. Its service area includes a part of the Appalachian region now singled out as the center of unemployment and poverty in the United States. Its power rates are low — they should be since TVA does not pay anywhere near the taxes or money costs which investor-owned utilities must pay. If it did, it would have to raise its rates by some 56 per cent bringing them up to about the same as those of taxpayer-investor-owned companies.

Tax-subsidized, low cost electricity was supposed to

## WASHINGTON AND "SMALL BUSINESS"

By C. WILSON HARDER

A great deal of attention is being focused on the plans for a so-called war on poverty. Yet so far, there really has not been developed by those who think big on the public payroll any reasonable guide as to just what constitutes poverty.

Neither have any reasonable answers been given as to why some people always seem to be afflicted with poverty.

Now, as is well known, C. W. Harder and widely acknowledged by all except by some of these public paid "big thinkers" many people are afflicted with poverty due to lack of opportunity.

And of course it would be heinous heresy for some of them to point out that a Big Labor monopoly of jobs and apprenticeships have barred employment to many, or that concentration of economic power into fewer hands with the resulting automation has created the lack of opportunity which leads to poverty. Neither would it be politic for them to point out that big government farm programs have driven many family farms out of business, and so on, et al, et al.

But what about the people afflicted with poverty because they fail to fit in with any social order. As every small town resident knows, there are always people who just cannot be responsible.

There are those who become addicted to drugs, there are the "winos," there are those

who just cannot seem to get out of bed in the morning. Anyone who has lived in a small town where all aspects of life are more evident to observation has often wondered on this point. Why are there those folks, not vicious, and in fact, often most amiable, but who can never fit in, are the town's ne'er-do-wells, or sometimes described as just shiftless.

Big city dwellers are not so familiar with this element, although it does exist in the big cities. For example, over the nation there has been a series of so-called "civil rights" demonstrations. Most of them are conspicuous by the small percentage of any racial minority participating, with most of the clamor raised by the misfits who while in small towns stand out, in the big cities are never recognized as existing until some occasions such as have recently occurred bring them together at some rallying point.

This element, of course, figures large in any government statistics on poverty. Yet all the training, retraining, and re-retraining programs that can be devised, will not help a substantial part of this element become affluent citizens.

With the benevolent compassionate sense of reality that seems to exist only in small towns, people have long characterized these social misfits with the old homily "You can't make a silk purse out of a sow's ear."

It is quite apparent that the United States Treasury will never be able to perform any miracles with sow ears, either. This is a point that should be borne in mind when plans are debated to end all poverty.

go a long way towards solving the region's problems by attracting industry and employment of all kinds.

TVA was begun in 1933, so it is apparent that in this instance and in its area, the "war on poverty" has been carried on by the federal government for some time. Apparently more is needed to win this war than the spending of taxpayers' money, government competition with private enterprise, and federal planning of a region's economic future. That something "more" is the driving productive force of competitive enterprise that generates the growth and technical advancement exemplified so well by the investor-owned utility companies in this country.

No end to favors. Robert R. Carey, President, Associated Oregon Industries, says, ". . . the REA cooperatives pay few, if any taxes; they borrow money from the federal treasury at less than one-half of what long-term loans cost our government. . . And now these REA co-ops have slipped into a postal rate bill a provision that lets them enjoy special mailing privileges for their propaganda organs at a fraction of the cost to the postal service."

The natural gas industry of Texas began in 1870 after a farmer in Washington County accidentally ignited gas in his water well.

### Family Teams Up To Produce The Best Rodeos

Fans attending the big Boomtown Rodeo here June 25-26-27 will see a pioneer rodeo producing family working together as a dedicated team.

The rodeo is being produced this year by Frank Rush and his family of the Rocking R Ranch, near Meers, Oklahoma. The Rushes also are famed as owners of the Rocking R Hereford and Appaloosa horse ranch in the sprawling Wichita Mountains.

Every member of the family — five to be exact — has a job to do and each one does it well, from the "boss man" right on down the line.

The Rushes include Frank, son of the first manager of the Wichita Mountain Wildlife Refuge; his wife, Genelle; their daughter, Suzy Self; her husband, Tom Self, and Frankie Rush Jr., a top FFA student.

Together, they run one of the finest rodeo producing businesses in the Southwest. They have produced top-notch rodeos in Guthrie, Walters, Carnegie and other area towns in North Texas and Southern Oklahoma. Main base of operations is the 1,500 acre Rocking R Ranch.

Rodeoing is definitely a family affair with the Rushes.

The Rush family didn't "just happen" to stumble into the rodeo business. They were busy several years ago operating Craterville Park, then located in the Wichita Mountains, when the family was sitting around relaxing, talking about the old day when they were in the rodeo business.

Each member of the close-knit family decided it would be fun to be back in rodeo work and immediately bought a string of top bucking horses and bulls. Since then, the stock has been improved until it is

now the finest rodeo stock in this part of the country.

Rush and his wife thrilled millions with their rodeos from 1935 to 1954 when they branched off into the amusement park business. Now back in the rodeo arena spotlight, the family has traveled throughout the United States to corral basic stock.

"It's a real pleasure to produce the Boomtown Rodeo and work with the fine people of Burkburnett," said Rush.

Mrs. Rush probably is one of the most valuable members of the family. She does all the little details in the rodeo producing work to make it a big production.

She is actually the family coordinator and keeps time tables straight to make sure everyone is at the right place at the right time. All this is done in addition to taking care of a huge rambling ranch house in the Wichita Mountains.

Suzy, the Rush's daughter, serves as secretary of the rodeo. Her husband, Tom, and brother, Frankie Jr., are arena directors and pick-up men.

Producing a rodeo is hard work, but for the Rush family it's real "togetherness."

Mustang Hardtop

Some people just didn't realize how much Fords have changed. Then, they came in to see Mustang — and took their first good look around a Ford showroom. They saw the hottest line of cars in America... the "Car of the Year" Award winners... the best-built Fords ever. They saw cars so smartly styled, so easy to handle, so good to drive, that they made this the best sales year in Ford Division history even before the Mustang came out. They saw America's leading performance car — the Super Torque Ford (hardtop sales up 54%). They saw America's most famous personal luxury car — Thunderbird — with sales up 68% over last year's record. They found out why Falcon almost outsells Chevy II and Valiant combined. And why Fairlane is a pace-setter in its own field. One look can make you fall in love with any one of Ford's 46 models. A test drive can make you a Ford man forever.

**Clara-Fairview HD Club Met June 16th**

The Clara-Fairview Home Demonstration Club met in the home of Mrs. J. D. Dillbeck, June 16th, 1964 at 2:00 p. m. Mrs. E. J. Simons, president, called the meeting to order. The members repeated a prayer and sang "Daisy."

The roll call was answered with "Beauty Hints for Summer." The thought for today is, "If our democracy is to succeed, we must help our children learn to live democratic lives in their homes"

Minutes of the last meeting were read and approved and the treasurer's report given. Each committee chairman reported on her committees work. Mrs. Newt Crane gave the council report.

A motion was made and seconded to have an ice cream social August 21st at the Community House as our family night entertainment.

Mrs. Newt Crane brought the program on, "From a Republic to a Democracy." A republic is a state in which power is in the hands of a certain body of people, elected and responsible to the people. Democracy is a government by the people. The world today is divided into two powers, democracy and communism. Democracy is ruled by people elected by a majority. Our constitution provides for freedom of religion, speech, to vote, to choose our work, freedom of the individual. People should run the government, not the government run the people. Under communism rule, you either cooperate or be destroyed.

Mrs. J. F. Vogel won the game prize and also the door prize. Delicious home-made ice cream and cookies were served to Mesdames J. H. Bentley, Newt Crane, Mary Blamar, E. J. Klinkerman, J. L. Vogel, Frank Kelley, E. J. Simons.

The next meeting will be held July 9th with Mrs. J. F. Vogel as hostess.

**Who is at the Helm?**

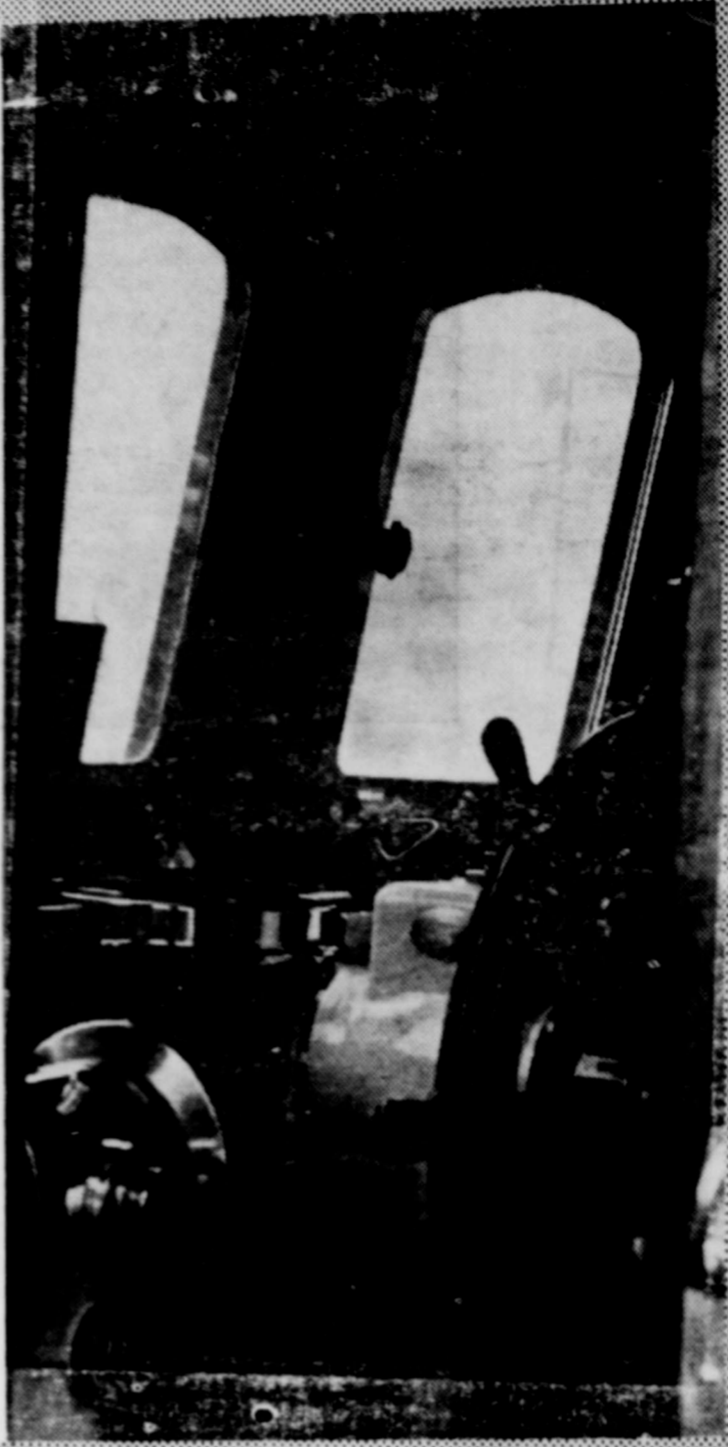

Who guides our lives? Are we a ship without a helmsman? Are we adrift, going no place?

Thanks be to God, who loves us so, He is willing to guide us, to show us the way over all manner of seas. How glorious to know there is such a One! All of us follow someone, some standard, but the true standard is God and His Word.

Let Him take over the wheel. He doesn't promise smooth sailing all the time, but He promises to guide us through the storm, and show us the way over calm and sweet but sometimes marker-less seas.

*"And the Lord shall guide thee continually, and satisfy thy soul in drought, and make fat thy bones: and thou shalt be like a watered garden, and like a spring of water whose waters fail not."*

Isaiah 58:11

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny, the truth which alone will set him free to live as a child of God.

deo stock in the business. "It's a real pleasure to come to Burk Burnett next month to produce the Boom Town Rodeo and work with the fine people of your community," Rush said.

Rodeoing is a family affair with the Rushes. Rush's daughter, Suzy and her husband, Tommy Self; his wife, Janelle, and their son, Frankie, Jr., all play major roles in the big rodeo operation. Mrs. Suzy, an attractive blonde, serves as rodeo secretary, recording entries, keeping the books and tabs on all the cowboys while in the arena. Self, a school teacher by day and a rodeo man and rancher on the weekends, and Frankie Rush serve as arena directors. Frankie, a Lawton High School Senior, also serves as rodeo announcer. He was named Southwest District Star Farmer for 1961 and Junior Master Farmer last month at a State Future Farmers of America convention. He plans to attend Oklahoma State University next fall.

Mrs. Rush is busy with her chores keeping everyone together and operating as a family. She also does timing, control booth, public address system operations and other rodeo arena and office duties.

Wilbarger-Wichita SOIL CONSERVATION DISTRICT NEWS

Most of the coastal bermudagrass in Iowa Park Unit area has been sprigged or sodded, according to Elvy Sargent, Iowa Park Soil Conservationist.

A planned method of management must follow sodding or sprigging if maximum growth and production is obtained, Sargent added. This management is rather simple; first, feed the grass by fertilizing, second, control competition, and

third, withhold grazing until the ground is 60 to 70 percent covered and height of grass is 8 to 10 inches.

Fertilizing should begin when sufficient plants have started growth to insure a stand. If equipment is available that would place the fertilizer in the row, more fertilizer would be available for the bermudagrass and less for competition. Broadcast nitrogen application can be used when most of ground is covered.

Competition can be controlled by chemical control or shredding.

Bermudagrass, like all green plants, grows most rapid when the entire leaf surface is left for manufacture of food for the plant. Growth of roots and the total plant is in direct relations to amount of top growth.

Mrs. Dixie Dillard Supervising Art Class

Mrs. Dixie Dillard presides over one of her art classes at her home, 718 Sunset Drive. These future artists are hard at work on pictures they will enter in the exhibit of June 25-26 and 27, which will be in a window of the Famous Department Store. From the left they are, Thresa Freeman, Bob Bean, Dixie Dillard, instructor and Donna Wilson.

A tea will be held for incoming freshmen in August.

Attending were Lunel Breitenstein, Donna Greer, Valarie Matherly, Jeanine Gilmore, Carolyn Copeland, Janice Bolinger, Jim Eastman, and Beth Byers.

Dixie Dillard's Art Students To Exhibit Painting, June 25-27

Dixie Dillard, who is in the second year of teaching art classes in her home at 718 Sunset Dr., proudly announces, pictures painted by some of her students will be exhibited June 25-26-27 in a window of the Famous Department Store.

Cynthia Freeman, 13, daughter of Mr. and Mrs. Winston Freeman of 807 Easy, one of the aspiring artists who will enter her work in the exhibition, is Mrs. Dillard's longest term student. She has been in the class since the very beginning.

After learning to use water colors, she progressed to oils and pastels, which is the system for all the students.

This is the first year Mrs. Dillard has held summer classes and the response has been fine.

There is no definite age limit for joining the classes if the child has some latent talent, though it is preferred he or she be at least of third grade school age.

So that she may be able to give her best, and better, to her pupils, Mrs. Dillard plans to attend Midwestern soon, to further her study of art.

Students who will have pictures in the exhibit, some of them on velvet and some on burlap, as well as the conventional materials, will be Bobby Dilbeck, Rocky Rodebush, Mike Meyers, Debbie Arrington, Sherry and Diane Miller, Cynthia Freeman, Robert Hunter, Ulana Ludeke, Sharon Wooten, Maureen Endman, Lynn Taylor and Mike Neito.

Be sure to see their pictures June 25-26-27th in the window of the Famous Department Store. Who knows? One of them may be another Rembrandt.

Frank Rush and Tom Self To Perform Pickup

Pickup men for the Boom Town Rodeo, Frankie Rush, left, son of Mr. and Tom Self, his brother-in-law, are ready for the arena. Both are well-known throughout the Southwest for a cowboy off the back of a bucking bronc once the cowhand has completed

At home on the range or in the rodeo arena are Frankie Rush and Tom Self, two of the five members of the Rocking R Ranch rodeo producing family to be in Burkburnett this week to stage the annual Boomtown Rodeo.

The two young men are among the top "pick-up" men in the rodeo business. Their job is to pick up the cowboy after his 8 second ride and to see they get on the ground safely following the bareback riding events.

Both Rush and Self play an important role in rodeoing, an exciting, but dangerous business. They ride registered Quarter Horses in the arena.

Frankie and Tom, who are brothers-in-law, both grew up on ranches in the shadows of the Wichita Mountains, where rodeo producer Frank Rush's famed Rocking R Ranch is located.

Frankie, a 1964 Lawton High School graduate, was named Southwest District Star Farmer of the State at Stillwater last month. He also was awarded his degree as a Junior Master Farmer and served as President of Lawton's Future Farmers of America chapter.

The son of Mr. and Mrs. Frank Rush, Frankie also has shown many top Hereford heifers and steers in his career. However, this is the first time an FFA boy has won the top honor with horses.

"My first interest is girls, of course, laughs Frankie, "but good horses will run them a close second."

Next September, Frankie plans to continue his education at Oklahoma State University, where he will major in agriculture.

Tom, the newest member of the rodeo producing family, is a teacher in the Lawton Public

School system nine miles from the arena. Although he works with horses and cattle, he still finds time to do on the weekends. He is a graduate of the University of Oklahoma.

The largest orange grove in America is in the Red River Valley.

Bareback Bronc Riding Is One of the Main Events At the Boomtown Rodeo June 25th, 26th and 27th

BAREBACK BRONC RIDING, one of the most rugged events in Rodeo, is also one of the newest. A non-competitive exhibition "filler" until about 15 years ago, this event today may bring a championship rider over \$16,000 a year—but he earns it the hard way. The rider is separated from his horse only by his Levi's and a heavy, leather-rigged cinch with a one-hand grip. Scoring starts for bronc and cowboy the instant the horse's front feet touch the ground outside the chute. After the first jump is completed, the contestant may spur to increase his score throughout the long, 8-second ride.

## ...you'll be glad you have an ELECTRIC DISHWASHER

Summer is the time you'll especially appreciate an automatic electric dishwasher. The countless glasses that would ordinarily accumulate on the drainboard go out of sight into your dishwasher. Then, when you have a full load, you press a button and your glasses and other dishes are washed and dried automatically. An electric dishwasher not only keeps your kitchen tidier and saves many hours of drudgery, it gets dishes hygienically clean, using water hotter than hands can stand. Why not get an electric dishwasher soon and put an end to tiresome hand dishwashing?
