McDonald of Burk Attending National Convention of American Federation of Gov't. Employees

McDonald, 605 S. Harwell, will attend the National Convention of American Federation of Government Employees to be held in Dallas at the Adolphus Hotel, Sept. 7-11. McDonald was elected as one of the three delegates of the national convention in Dallas in which a President and secretary will be elected and the important Legislative Committee will be voted on to affect Federal employees from 50 states will be held in Dallas in full day evening, Sept. 7, some of the National delegates, who make up the executive committee, begin arriving as early as before the convention opens.

McDonald shows that AFGE is instrumental in helping almost every important piece of legislation passed by Congress that has helped employees, such as health, hospitalization, as well as life insurance. It is a well known fact that the Postal employees have had a big hand in a lot of the load in important pieces of legislation that federal employees have enjoyed the fruits of contributing in any way it behoves each and every federal employee to re-just how and why the law was obtained.

Approximately 450 members of a large number of unions on the payroll, contributed in some measure to a union that has representative delegates to represent federal employees. The majority of employees at SAFB that helped bear the load of support will strengthen for better working conditions and retirement in AFGE Lodge No. 1731.

Mr. McDonald was instrumental in bringing the national convention to Texas as he was one of the two Texas delegates on the Place Committee in Seattle, Wash., two years ago at the last national convention. The place committee selects the cities to be voted on for the site of the next convention. Six Flags, cheaper hotel rates, centrally located, fairly close to the heart of the U. S., air lines routes coming in from all directions and a telegram from Sen. Yarborough and an invitation from the Governor of Texas, were big factors in obtaining the big national convention for Texas. McDonald stated.

AND NOW... GOLD WATER

It had to come sooner or later—so here it is—GOLD WATER.

Gold Water is a soft drink, gold in color and has a taste between lime and mild flavored prune juice. The Republican National Committee came up with this idea to help finance their campaign.

Gold Water comes in six pack cans, like beer or other canned beverages.

Hubert Gragg, a man who grew up in Burkburnett, had the honor of opening and drinking the first can of Gold Water. Hubert was a delegate from Oklahoma to the National Convention in San Francisco. The first can came off the assembly lines in San Diego. The product is being put up by other plants throughout the nation.

The stuff is either very good, or Hubert is a mighty loyal Republican—He purchased a car load of the product.

Hubert is the son of Mr. and Mrs. R. L. Gragg of Burkburnett.

Mr. and Mrs. D. H. Cauthorn and sons, Kent and Deen, of Liberty, Texas, have returned to their home after spending two weeks here visiting their parents, Mr. and Mrs. Bill Cauthorn.

MRS. MARJORIE HOFACKET

Mrs. Marjorie Hofacket, "Mrs. Chamber of Commerce," resigned Sept. 1st as secretary of the Burkburnett Chamber of Commerce, Margie, as she is best known, has been on the job 18 years.

Her major job has been auto registration, collecting state and county taxes and taking care of property assessments.

Since taking the job in 1946 she has worked for six managers, and she herself, has served as manager in the interim of waiting for a new manager and in the lean years when Burkburnett could not hire a full time manager. In 1956, the chamber recognized Margie's contribution to the city and the job with the only lifetime membership ever given in the Burkburnett Chamber of Commerce.

She has been in the heart of business that saw Burkburnett grow from a town of 2,000 to one of 9,600. She will become a homemaker on Route 4, Wichita Falls, where she and her husband, Dan, own a farm. Margie confided it was her husband who talked her into taking a "well deserved rest."

'SUNDOWNERS'

BURKBURNETT SQUARE DANCE CLUB

The Sundowners had a very enjoyable ice cream social last Sunday evening at the home of our caller, Cecil and Lena Curtis. There was so much homemade ice cream and cake that the meeting had to be delayed periodically for refills.

The social was to get all the Sundowners together again after the summer vacations and to complete the plans for our opening dance for the approaching season.

Opening dance will be a Hobo Costume dance at the Youth Center the 26th of September. After Hobo party, Hobo Stew, campfire coffee. Admission to the dance will be two (2) tin cans per person or 50c. All area square dancers and callers are invited.

Regular dances will be the 2nd and 4th Saturday of each month, starting in October at the Legion Hall.

Area Square dancers come and join the Sundowners club. If interested, contact any Sundowner or the president and his wife, Rosy and Ina Roark at 569-2746.

Lessons, as soon as eight couples show interest in lessons, we will sponsor the lessons. Teaching by Cecil Curtis, caller for the Sundowners. Get your friends rounded up and Cecil will square you into the fun and fellowship of square dancing.

Local Support. Last year the Sundowners had a wonderful season. The local paper and the local merchants went all out when the Sundowners asked for publicity and door prizes for this we are most happy.

We are proud of our club and we hope the citizens of Burkburnett are proud of it too. If any organization or activity needs any assistance that we might furnish, please don't hesitate to ask.

Visitors are always welcome at our dances. Drop by and see what clean fun square dancing really has to offer.

Trinity Lutheran Minister Attended Father's Funeral

Rev. David W. Janosky, Pastor of Trinity Lutheran Church of Clara, left Sunday afternoon by plane to attend the funeral of his father, Joseph E. Janosky of Nampoo, Idaho.

Mr. Janosky passed away Sunday morning, Aug. 30th. The funeral was Tuesday, Sept. 1st at Nampoo, Idaho. Interment was Wednesday, Sept. 2nd at Connell, Washington.

Besides Rev. Janosky, survivors are the widow, Mrs. Sarah Janosky, a son, Dr. Ivan Janosky, La Canoda, Calif., two daughters, Mrs. Artie McClain, Chico, Calif., and Mrs. Melvin Bush, Mount Lake Terrace, Wash., 15 grandchildren and 3 great grandchildren.

Rev. Janosky and family just returned a few weeks ago from a visit with his parents.

The City is ready to begin the College Street improvement program between Ave. D. and Preston St. as soon as the agreements are signed for the curb and gutter installation.

The cost of the curb and gutter at \$1.25 per foot will be the only expense to each property owner to get a nice 30 foot asphalt paved street with a 4 foot concrete walk along the south side of the street.

This is a much needed improvement for the safety of our school children, also personal property protection.

The agreements are available at the City Managers office, along with full information about this proposed paving program. The agreements provide for a 2 year monthly payment plan if desired.

This is a rather lengthy project and needs to begin soon in order to complete the paving early next year. The street will be open to traffic during most all time during construction.

Let us all get behind this project and push it to completion as soon as possible.

Warning to Parents

Parents living in the neighborhood of Mills Elevator are asked to keep a closer watch on their children. The management at the elevator has been particularly concerned the past few weeks by the large number of small children, sometimes a dozen or more, who stay around the elevator driveway where large trucks are coming and going to be loaded or unloaded. Many of the children are very small, five years and up.

A fellow maneuvering one of those big trucks cannot see everywhere at once. A small child could dart under any of the rear wheels and never be seen by the driver. Neither can the attendants at the elevator see anyone on the opposite side of the truck.

Please, before one or more children are smashed under a truck, know where your little ones are every minute.

TOCSIN OF TONKIN

Americans are indebted to the mysterious attack of North Vietnamese P. T. boats on the USS Maddox on patrol in Tonkin Gulf on several counts.

First, it provided comforting evidence that U. S. defense forces can move quickly and decisively under provocation.

Second, it demonstrated in the swift passage of the Congressional resolution supporting the President's action our essential unity irrespective of politics.

Thirdly, and of the utmost importance to our realistic evaluation of where we stand on this strifetorn globe, is the firm and unequivocal declaration of Russia's Khrushchev of his solidarity with Red China's Mao.

Despite the widely-discussed and obviously overblown ideological "split" between the Russian and Chinese brands of Communism, Khrushchev has made it clear that the world is divided into just two camps — those of communism and capitalism.

The Soviet Union said its No. One, was willing and ready to fight for itself and other Communist nations if the Western powers sought war. Such a war, provoked by "imperialists," could only, he said, "end in the complete defeat of capitalism."

His words should awaken the dream-walkers who have wishfully looked upon Khrush and Mao as modern-day Kilkenny Cats.

SPEAKING OF LABOR

"There is no real wealth but the labor of man." — Percy Bysshe Shelley.

"American working men are principles in the three member team of capital, management, labor. Never have they regarded themselves as a service class that could attain freedom only through destruction of the industrial economy." — Dwight D. Eisenhower.

"From labor there shall come rest." — Henry Wadsworth Longfellow.

"In all labor there is profit." Proverbs 14:23.

"The fruits of labor are the sweetest of all pleasures." Luc de Vauvenargues.

"A truly American sentiment recognizes the dignity of labor and the fact that honor lies in honest toil." — Grover Cleveland.

"Labour and love! There are no other laws." — Edmund Gosse.

"The concept of labor as a 'commodity' is so outmoded that we don't even talk about it today." — Ira Mosher.

"Labor, even the most humble and the most obscure, if it is well done tends to beautify and embellish the world." — Gabrielle D'Annunzio.

Policyholder Questions Answered by the Institute of Life Insurance 277 Park Ave., N.Y., N.Y., 10017

Q. My wife and I have split up, and she has taken my life insurance policy with her. She is the beneficiary, but I have reserved the right to change beneficiaries. Can I do so now? Can I borrow against my insurance or surrender it for its cash value? Will the company issue me a duplicate policy?

A. A case like yours, involving an estranged husband and wife as policyholder and beneficiary, can present complicated legal problems. Even if the husband has retained all ownership rights to his policy, he cannot always exercise these rights without his wife's consent. Laws and court rulings affecting a wife's rights to her husband's life insurance vary in different states. For ex-

COURTS AFFECT RIGHTS

ample, in states with community property laws, a wife may have certain rights to a policy that has been paid for out of the couple's common funds. Even in states which do not have so called common property laws, a company (because of the legal conditions present) may require the wife's consent to a change of beneficiary or to other actions significantly affecting the policy—especially if she retains physical possession of the policy.

We suggest that you consult your life insurance company to find out what would be required in your case. Also, you should consult an attorney for legal advice as to what steps you might take to recover your policy or obtain your wife's consent to a change of beneficiary.

Death Never Takes A Holiday

Money Matters! Especially if you are like me, fresh out of the stuff

There were so many blondes, brunettes, and redheads in the place I didn't see much of the new Bank, but the scenery was sure beautiful, including that display of 50 and 100 dollar bills.

The Confederate stuff would be hard to spend now tho, I've heard that some of it is worth quite a lot. Probably if its got Jeff Davis or Robert E. Lee on it. The coffee and cake was beautiful and also the gals that served it. About the Bank? It's a good place for your

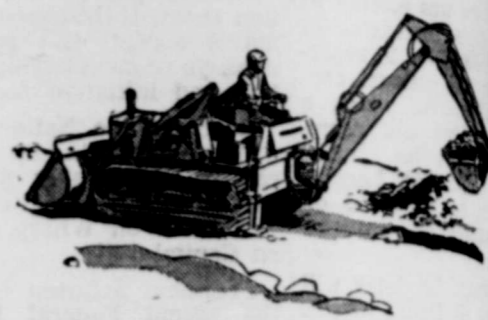

money, otherwise I might tap you on the shoulder, and make off. It's hard to wonder if that's why the burkburnett police were around the place or maybe just wanted a cup of coffee.

HOW TO MAKE LIGHT WORK IN THE KITCHEN

Properly planned lighting in the kitchen makes meal preparation easier, more pleasant and more efficient. It helps eliminate little annoyances like misread recipes . . . dishes (or vegetables) that have to be washed twice. For a well-lighted kitchen you need two kinds of lighting:

GENERAL LIGHTING

... to provide a pleasant level of over-all room illumination without glare or shadowy areas. As a suggestion for the average rectangular kitchen, a 12-inch enclosed ceiling fixture with a 150-watt bulb, or a shielded fluorescent fixture with two 40-watt tubes usually will provide adequate light.

A Texas Electric lighting specialist will be glad to help you with suggestions for better light in your kitchen.

LOCAL LIGHTING

... to eliminate working in your own shadow at the sink, range or work counters. Use over the sink either incandescent or fluorescent lamps, shielded behind a facing board or recessed into ceiling. A shielded fluorescent wall bracket is recommended over the range. Shielded fluorescent tubes under cabinets will provide ample light on counter tops.

EGG FISH ON

You can egg fish on by collecting egg shells for several weeks before you go fishing. As you fish, sprinkle a handful of shells in water from time to time. Tiny flashes attract fish. Works especially on bluegills and crappies.

Allen D. Martin On Operation Sea Orbit

Allen D. Martin, aviation fire control technician airman, USN, son of Mr. and Mrs. Edward C. Martin of Rt. 1, Preston St., Burkburnett, is serving in Task Force One.

Three nuclear powered Navy ships, the attack aircraft carrier Enterprise, the guided missile Cruiser, Long Beach, and the guided missile frigate Bainbridge are now on a maneuver called "Operation Sea Orbit." Their mission is to demonstrate the U. S. Navy's sea strength.

Working as a task force, the enterprise, Long Beach and Bainbridge are one of the most formidable weapons ever devised. They are capable of operating offensively against aircraft, guided missiles, surface or subsurface opposition. Being as self contained as they are, these three ships can shift their area of operations hundreds of miles in one day to encounter the threats to our national security.

Each ship has an almost unlimited steaming ability to cruise at high speeds without regard to fuel consumption, thus improving offensive and defensive capabilities and reducing replenishing requirements. This is a major tactical advantage.

It's around the world in 60 days for the 6,000 officers and men of Task Force One. They will cover more than 30,000 miles and cross the equator at least four times.

Ports of call and details of the route will be announced as diplomatic arrangements are made.

The Task Force has gone

from Gibraltar, around the African Cape of Good Hope and departed Karachi, Pakistan.

It will eventually sail eastward around the South American Cape Horn, and turn north arriving in Norfolk, Va., in early October.

While each crewman is seeing the world on "Operation Sea Orbit," he will be helping to pioneer the transition from oil burning to nuclear powered ships in the navies and merchant fleets of the world.

Mr. and Mrs. Kerr Back Following Trip To the Northwest

Ada Mae and Joe Kerr have returned from a two weeks vacation trip through Utah, Idaho, Seattle, Washington; Reno, Nevada; California and Colorado.

Ada Mae says you don't have to go to Africa to see wild animals. While fishing on the Arkansas River near Buena Vista, Colo., a man killed a large male lion right around the bend from where they were fishing.

Just before they left on their vacation, they spent a week at Wilburton, Okla., visiting their friends, the Barbers, and fishing at Talinhina, Okla. They had stopped at a cafe for breakfast early one morning before going fishing, and while there a man came running in and said he had killed a bear in his pear tree. And sure enough he had the proof in his pickup truck. It was a large black bear.

Ada Mae says it was a very enjoyable vacation except for a painful leg injury she received when she slipped and fell on the river bank while fishing in Colorado.

CARD OF THANKS

I would like to express my appreciation to everyone for all the visits, cards, gifts, flowers, food, blood donors, for the men that sat up, words of encouragement and your prayers, your interest has been appreciated. May God bless each of you.

"LABOR IS LIFE"

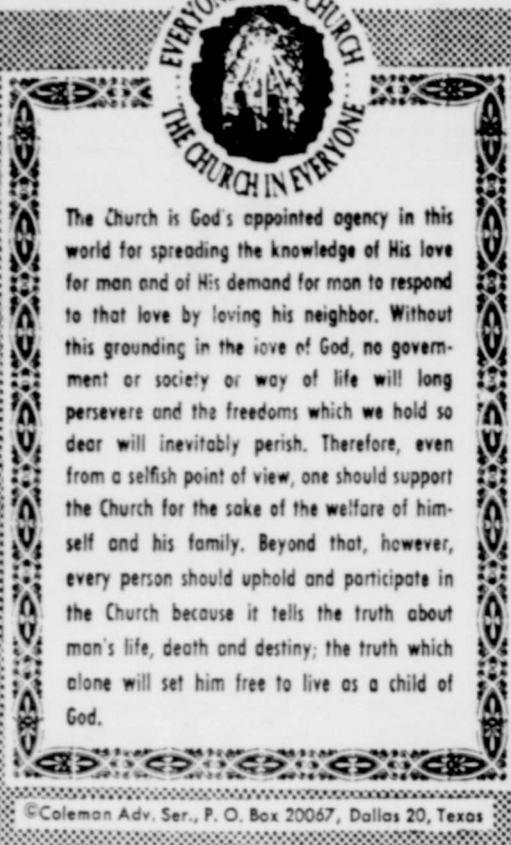

Carlyle

Let's talk about labor — work, if you please, for that is what labor is. Labor has come a long, long way since ancient times when work was closely related to slavery. Aristotle described a slave as "a tool with life in it." In the Middle Ages, labor gained dignity and respect as slavery declined and Christianity spread. Then, later in the 1700's and 1800's the industrial revolution created conditions that led to the modern labor movements. Today labor has gained respect, wages and working conditions hitherto unknown before.

Labor is life. Work is satisfying. Through his work a man accomplishes, and creates, and provides for himself and his family. When deprived of the opportunity or ability to work, man often becomes depressed, even ill.

I Corinthians 3:9 tells us that "We are laborers together with God." We are His hands, feet, voice, and compassionate heart here on earth to spread the gospel, lift up the poor, eradicate ignorance and destroy disease.

Honor God and Labor this week by attending church.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Dept. of Public Safety Begins "Operation Motorcide" For Labor Day Week End 5th

James Garrison, director of the Texas Department of Public Safety, announced today that "Operation Motorcide," a tabulation of Labor Day deaths as they occur, will go into effect at 12:01 p. m. Monday, Sept. 5th.

The department has estimated that 2,000 persons will be killed on Texas streets and highways during the 72-hour holiday period, which will last until 11:59 p. m. Monday, Sept. 5th.

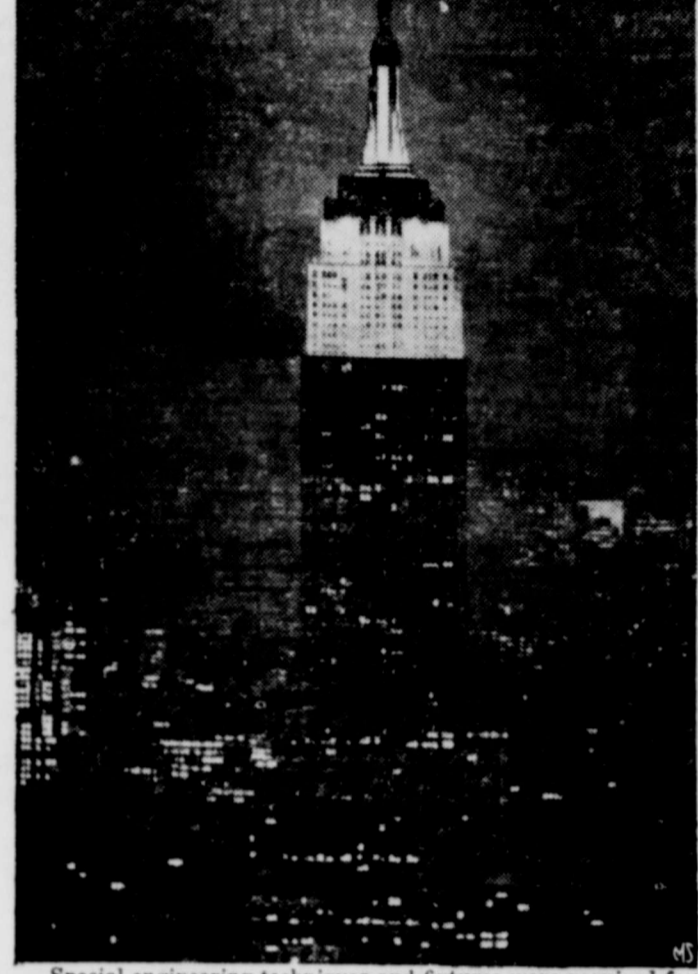

Garrison called upon the drivers to join in a "crusade" against senseless driving during the holiday week end, which is the toll of tragic holiday deaths caused by motor vehicles.

WORLD'S HIGHEST LIGHTING

Special engineering techniques and fixtures were required for the Empire State Building to illuminate the facade of the world's tallest structure as a greeting to those attending New York's World's Fair. Sylvania Electric Products Inc. developed a special lamp and fixture combination providing the high lighting intensities combined with close beam control to avoid spoiling the panoramic view from the 102-story building's 86th floor observation tower. This is how the Empire State Building looks to World's Fair visitors after dark.

HEALTH AND SAFETY TIPS

From The American Medical Association

The pollens that trigger hay fever are in the air again. From now until first frost the nine million American sufferers face their annual season of sneezing, runny nose, itching and swollen eyes.

Many people suffer from hay fever needlessly. Enough is known by the allergy specialists to make the average sufferer fairly comfortable and able to carry on normal existence, says Today's Health, the magazine of the American Medical Association.

Consult with your physician or allergist if you have any of the above symptoms. Hay fever is a serious and sometimes incapacitating illness that requires the attention of a physician.

Desensitizing injections are the most effective and practical means of managing hay fever. Treatment may be given just prior to the season or all year round. Your physician will decide which will be most effective.

Seasonal hay fever is primarily caused by inhalation of pollens, the male fertilizing element of flowering plants, trees, or grasses. Allergens, such as dust of all kinds, molds, and animal fur, aggravate symptoms during the hay fever season.

Some people move to another part of the country, where the pollen count is at a minimum. Your physician can obtain from the American Academy of Allergy listings and maps which give the pollen count indexes for different parts of the country.

Any location with an index of 10 or above is not recommended for those allergic to ragweed. In most of Alaska the count is 0. Lowest in the continental United States is Cape Coral, Fla., with .19. Lexington, Ky., on the other hand, has an index of 156.

The Texas Highway Department will carry on a continuing information and education program instructing drivers in freeway driving and the need for caution near highway construction areas.

And the Texas Council of Safety Supervisors and the Texas Motor Transportation association will sponsor a fleet of 35 to 40 cars which will be used

to assist stranded motorists over the state. This "Holiday Road Patrol" will be manned by the safety director, safety supervisors and safety engineers of the trucking industry who comprise the membership of the council. Its primary purpose is to help relieve highway patrolmen for enforcement work by aiding motorists in distress.

Garrison listed several items for positive action in his appeal to all drivers. He urged each person driving during the holiday to:

- Make sure the car and all its equipment (tires, brakes, lights, etc.) are in proper working order at all times.
- Be sure the driver is in good physical and mental condition. Be considerate toward other travelers.
- Be alert for unexpected actions on the part of other drivers.
- Be alert for unexpected road hazards and dangerous road conditions.
- Avoid improper passing and maintain control of the car at all times.
- Slow down and be able to cope with all existing conditions and circumstances.
- And to use caution and good sense at all times.

"Your cooperation as a driver can be the deciding factor in leading to a reduction of traffic accident and fatalities in our state," Garrison concluded.
