FLAG DAY

Behold, its streaming rays unite,
One mingling flood of braided light;
The red that fires the southern rose,
With spotless white from northern snows,
And, spangled o'er its azure, see,
The sister stars of liberty

Then hail the Banner of the Free,
The starry flower of Liberty!

—Oliver Wendell Holmes
(1809-1984)

NATIONAL FLAG WEEK

National Flag Week is to be observed from June 13 through 19. This is an important event at any time; it is vitally so today.

The purpose of the Week is formally defined as "The inculcation of the meaning of true Americanism into the minds and hearts of our citizens. . . . And true Americanism has nothing to do with liberalism or conservatism, with one's political or economic beliefs, or with sects and factions of any kind. It lies in devotion to country, and to those eternal principles of freedom upon which it was founded and which are the source of its strength and greatness.

In some circles nowadays, patriotism seems to be regarded with contempt. Highly vocal groups of young people, within and without the colleges, pay lip service to our enemies, overt and covert alike, and violently denounce the efforts of the government to honor our commitments and to halt the forces of slavery. It is generally believed that this is communist inspired. But, whether it is or is not, it perfectly serves the ends of communism and of all those who would bring another Dark Age of oppression upon the world.

Let the Flag fly high during its Week — and let us all know that the overwhelming majority of Americans, differ as they do on problems and issues, revere it, and revere all that it stands for.

GRASS ROOTS OPINION

TONASKET, WASH., TRIBUNE: "Camouflaged as the 'Great Society,' the insidious tentacles of Socialism have so fastened themselves upon the body politic of this once great republic that relatively few of its citizens are aware of what has happened. Particularly is this true of the younger generation, confused by the double-talk of government bureaucrats and inoculated with the poison of 'social security,' they have grown into maturity with no real conception of the meaning of liberty and freedom. When men were free in America, before they surrendered their priceless heritage of liberty to a paternalistic government, they conquered a continent and established in this land a haven for the oppressed of the world."

A Tragedy of Errors by Jerry Marcus

Bad driving manners contribute heavily to highway casualties.

Roger W. Babson Weekly Report

ROGER W. BABSON

AVAILABILITY OF CASH

Readers write in from time to time asking where they should keep their savings in order to have cash available at a moment's notice. Some of these inquiries come from old-timers who remember the panic of the 1930's; but many are from followers of this column who have never experienced a financial panic.

Memories of the "Bank Holiday"

A short while after Franklin D. Roosevelt was sworn into the Presidency for the first time in March 1933, he ordered every bank in the country closed. They remained shut "tighter than a drum" for several days. The reason, of course, was to bring the public to their senses. Depositors had been lining up at bank windows with only one thought in mind: To get cash before the bank should fail. For many banks had folded and fear stalked the land. Cash, silver, and even gold were tucked away in many a mattress and buried in tin cans in many a yard. It was indeed a panic. There were few. The bulk of the public had no "folding money" or even pennies on hand. Many were the stories that told of father and mother breaking open baby's piggy bank to buy food for a few meals. The wealthy provident who had locked greenbacks in their safe deposit boxes were no better off than the piggy bank raiders. . . . for they could not get admittance to the bank. How-worked; the run on the banks didn't start up again when the doors reopened.

Could It Happen Again?
A whole new generation has flourished since the last great financial panic. Up until a few months ago, hardly a question about the availability of quick cash came to this column. Then, a tiny wave of bank failures occurred; one with sizable deposits tumbled in San Francisco. Rumbles of "difficulties" elsewhere were heard. Talk of the "deterioration" of credit appeared in a number of financial publications. There developments are undoubtedly behind the rash of questions asking: "Could it happen again?"

Our long years of studying statistics have taught us that the figures may vary over a wide spectrum from one generation to another; but human nature is governed pretty generally by the same old motiva-

tions. Allegedly, the recent tiny eruption of bank failures was the result of dishonest management, the lust for a "fast buck". Of course, such an infection could spread; but it seems more likely that any big trouble in banking will come some day from errors of over-optimism made by lenders in this period of high prosperity. Today's mistakes in human thinking are sowing the seeds which will grow into tomorrow's failures. And no manner of statistical fence-building or insurance barriers can "guarantee" depositors that they can get all their cash on a moment's notice.

Heavy Pressure To Lend

Some of our citizens look on banks as an ever-ready font of money with which to keep business booming and people employed. Others consider them bastions that will guard their deposits inviolate and always be prepared to return them quickly to their depositors. A successful bank must cater to each point of view.

Right now the seeds of future difficulties are being sown by the rising pressures on banks . . . forcing them to lend more and more freely. The government is permitting the financial institutions to pay higher rates on their time deposits. This is to help our imbalance of foreign payments problem. But higher rates on time deposits are attracting funds "like crazy". To pay the higher rate to their depositors, the bankers are falling over each other to lend. No wonder, then, that borrowers are having loans practically forced on them; no wonder that we hear cries that the bankers are taking more and

more risks—that the credit of the country is "deteriorating."

On Having Cash Available

If the events of these days of good times and easy lending should later lead to more widespread credit difficulties, it would prove wise to have a part of one's assets fairly easily convertible into cash.

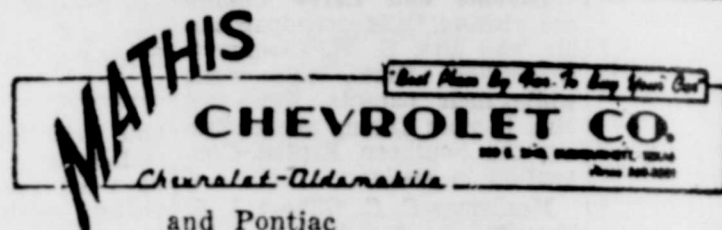

Certainly, it is not advisable to keep large sums in currency on hand. A moderate amount in the safety deposit box may be handy (if the banks stay open.) Some good name travelers checks are always advisable in your bureau drawer (they cannot be cashed if stolen and they are always ready for one of those hurry calls to travel on weekends when banks are closed.) For larger amounts, 90-day United States Treasury Bills are the most satisfactory way to hold reservoirs of cash.

What About Bank Deposit Insurance

To be sure checking accounts and savings and loan holdings are insured by government

agencies. However, the limits on the amount (\$10,000), and there are to be delays in getting funds transferred from insured bank to another from which they were withdrawn. Even more important is the nature of insurance itself; it is tested in a period of war and severe economic depression only in the fourth decade of its existence. . . . a time rising business and prices.

Hence, in the event hard times, should we would like to have bank deposits—a good of the 90 day United States Treasury Bills. These interest by the discount (today close to 4 percent encasable at full value months, and can be a very small concession on any business day.

Revolutionary War Heroes . . .

SPYMASTER OF THE REVOLUTION

He was a dashing young cavalry officer and an eagle-eyed scout known throughout the American Revolution as "the constant hero of surprise and daring" . . . yet today he is all but forgotten.

He was Allan McLane. Philadelphia-born, he had just settled in Kent County, Del., when the Revolution began. After aiding Virginia rebels against their Royal Governor, he joined the Continental Army with a company of Delaware volunteers.

McLane soon established a bold raider technique—swift pounce, short sharp fight, lightning getaway—that made him General Washington's favorite commander of the army's light corps.

In January, 1777, Washington himself promoted McLane to captain in a newly created regiment. Told to raise a company of his own—if he could find one—McLane enlisted 94 men, equipped them with money from his own pocket, and when the army ran out of uniforms, clad them in breeches made from his wife's linen tablecloths.

When the British occupied Philadelphia, McLane and his "market stoppers" (so called because they cut Loyalist supply lines into Philadelphia) scouted the area between the city and Valley Forge. He scoured the countryside for food for the starving Continental troops (taking particular delight in ambushing British foraging parties and repossessing their take) and gathered information on British strategy from a spy network he set up in the heart of Philadelphia.

He was a superb scout. On a reconnaissance expedition for Lafayette, he learned of a Red-coat plot to surround the general's force and warned him just in time. His commanders,

among them General Washington, Benedict Arnold, and Major Henry ("Light-horse Harry") Lee, prized his magical ability to infiltrate enemy fortresses. In a typical exploit, he visited the British at Stony Point (N. Y.) disguised as a civilian guide. His report on the camp's incomplete fortifications led to "Mad Anthony" Wayne's celebrated victory in July, 1779.

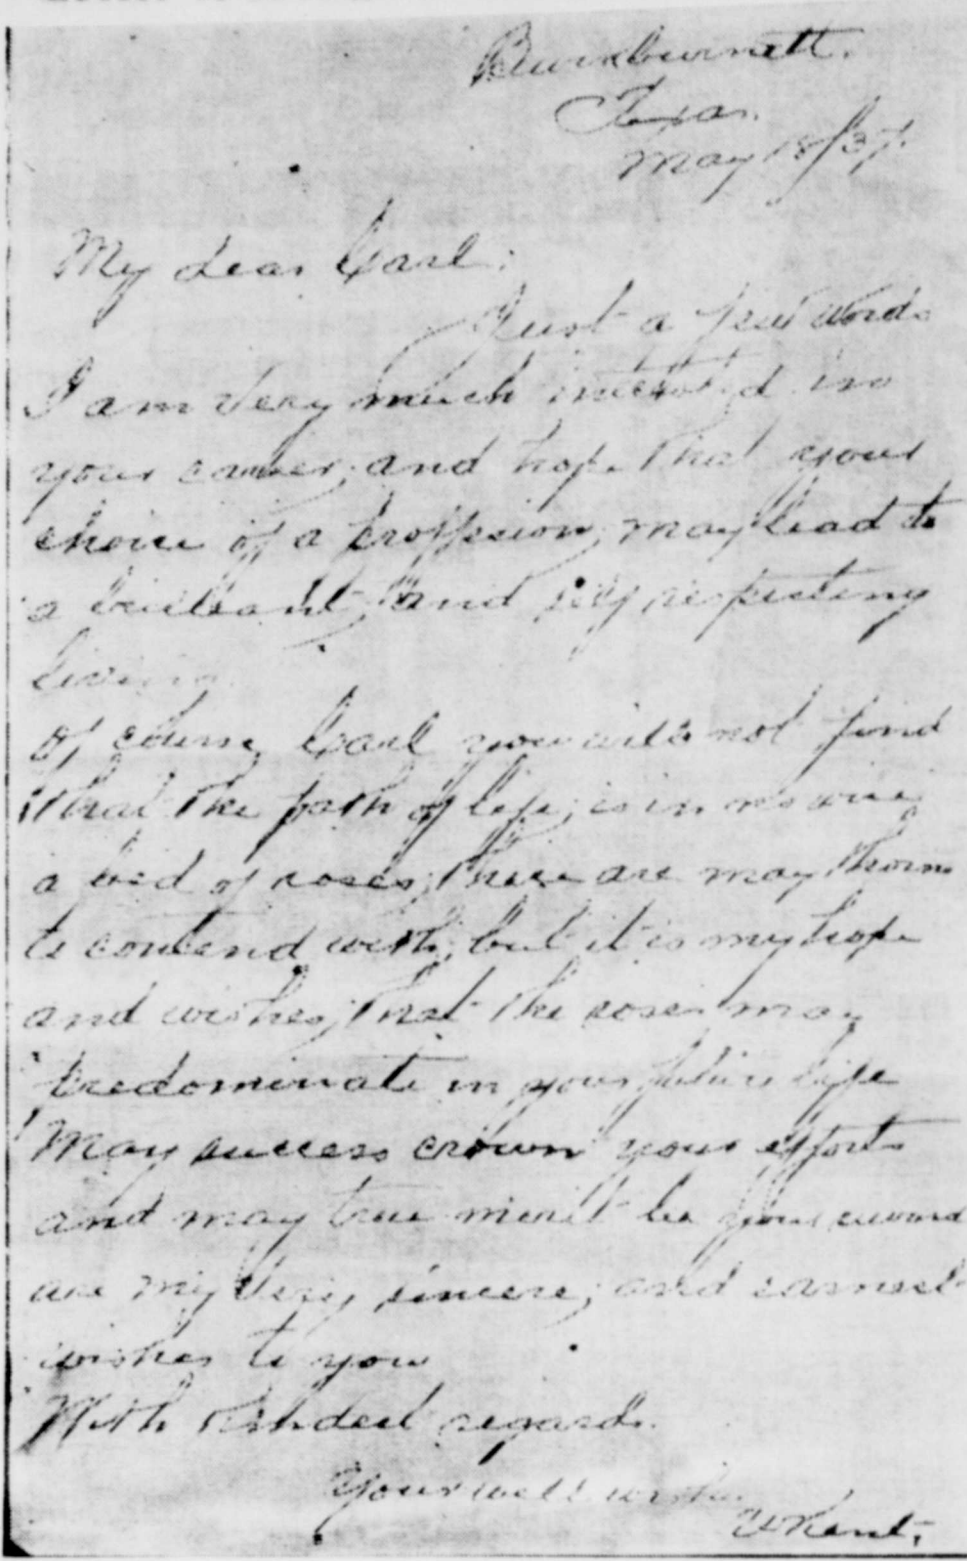

In the closing phase of the war, McLane scouted the move-

ments of the British fleet in the Chesapeake Bay area. Then, as Washington's envoy to Admiral de Grasse, commander of a powerful French fleet biding its time in the West Indies, he arranged the naval blockade that made victory at Yorktown possible.

Allan McLane, the "eyes and ears of the newborn nation," is one of seven heroes of the Revolution featured in Cinema '76, lighthearted educational screen show at the Continental Insurance Pavilion at the New York World's Fair. Their tales are told in songs created by noted composer and choral arranger Ray Charles.

Letter to A High School Graduate In 1937

NOTE: The above letter was received by Carl F. Pepper, an employee of the Burkburnett Star and News, upon his graduation from High School in 1937. The letter was so genuinely sincere, understanding and beautifully worded, we felt that many people would be benefited as much as we were from reading it.

The fellow who wrote this wonderful letter was Walter Kent, a resident of Burkburnett for many, many years. It was written to a brother-in-law of Mr. Kent's son, Reggie Kent, also a resident of Burkburnett.

Former Burk Girl Received Masters Degree At TWU

Margaret Vaughn Wittenmyer received her Master's degree in Library Science Sunday, May 23, 1965, at the 62nd annual commencement of Texas Women's University. She had received her BA degree in English from North Texas University in January, 1964.

Mrs. Wittenmyer is the daughter of Mr. and Mrs. Henry Vaughn of Burkburnett.

The U. S. Coast Guard was established January 28, 1915.

HANDY CAMP TABLE
If you can find an old basinette, remove the legs and substitute a piece of plywood for the basinette. Then have a dandy fold-up table.

SKIN ITCH DON'T SCRATCH IT!
Scratching spreads infection causing MORE pain. A quick-drying ITCH-ME-NO! ointment relieves itching in minutes and antiseptic helps speed healing. Fits eczema, insect bites, foot and other surface rashes. If pleased, you'll be back at drug store TODAY at CORNER DRUG STORE.

1st Baptist Church WMU Met Wed. For Mission Program

The Woman's Missionary Union of the First Baptist Church met Wednesday at 9:30 a. m. for a mission program.

Mrs. J. G. Cheney, WMU president, presided. She welcomed the guests and members of each circle. Then presented Charlene Abouch, who introduced the guest speaker, Miss Irene Chambers of Atlanta, Ga., who for the past 21 years has been a missionary and field worker for the Southern Baptist Home Mission Board.

Mrs. Abouch was a member of a Baptist church in Anchorage, Alaska when she first met Miss Chambers and she spoke highly of the work she did in assisting their church in organizing their G.A.'s, R.A.'s and their mission work among the Eskimos and other un-churched people of Anchorage.

Miss Chambers was a dynamic speaker and held her audience spell bound as she told of the work she has done in all 50 states of our United States. She told of the many phases of work being done by the mission Board and the part each member had by making contributions of money to help carry on the work.

She spoke about the work in Cuba, the dedicated missionaries who were now in prison there under communistic rule and asked us to pray for their deliverance.

She gave reports on mission work among the Indians, Chinese, Mexicans and other foreign speaking people of the progress made in language study. Then in teaching the word of God through the study of the Bible.

Many missions have been established which opened up a happier new way of life to people of every nationality, who came in attendance.

Their great need today is for more missionaries. Some to replace the ill and aged, who were no longer able to do their work. Others, that the mission work could be expanded. A desperate need is now for 27 Good Will Center workers. She asked that we save our old Christmas cards and send to missionaries in Africa. Bring them to Mrs. Cheney who has instructions as to where they will be sent.

At the close of the meeting, refreshments were served by the Alma Jackson Circle to about 30 members.

FROG BAIT

Try this on summer hot days when the bass aren't striking. Take a small meadow frog and put a rubber band around his middle. Slip a hook under the rubber band and let the frog go for a swim over—but not in some deep weed beds.

Try A Classified In The News

Theta Epsilon Sorority members met for an informal buffet party in the home of Mrs. Quinton Howard, Monday, May 24th.

Some very constructive ideas came from the notes handed in by each member, which will be discussed at a later date.

Plans were formulated for eight members to attend the District VI meeting in Abilene, June 13th.

Mrs. Elmer Klinkerman, Social Chairman, led the group in some well planned games, with prizes awarded to the winners.

The group also enjoyed reminiscing about the convention which was held in Ft. Worth, May 14-16th.

Chips and Dips, Coke, cake and coffee was served to Mesdames: Clyde Slusher, James Spinks, Bruce Sheperd, Joseph Jancke, Ed Hancock, Clarence Bridges, Lyle Eaton by the social committee, Mesdames Neal Tullis, Elmer Klinkerman, Quinton Howard.

Last Rites Were Monday For Mrs. Mattie Lou Potter

Mr. and Mrs. Harry Mayes attended funeral services Monday in Anson, Texas, for Mrs. Mayes mother, Mrs. Mattie Lou Potter, 79, who died Sunday, May 30th in the Anson General Hospital following a lengthy illness. Interment was in the Bethel Cemetery.

Mrs. Potter was born Aug. 10, 1885.

Survivors include 5 daughters, two sons, 20 grandchildren, 35 great grandchildren and 1 great great grandchild.

Grandsons served as pallbearers.

IN THE SAME SPACE OCCUPIED BY AN OLD STYLE 8 or 9 CU. FT. REFRIGERATOR

YOU CAN PUT A NEW 12 CU. FT. REFRIGERATOR-FREEZER THAT NEVER NEEDS DEFROSTING

Highly efficient "thin-wall" insulation gives you extra 'shop-ahead storage space for both fresh and frozen foods in many of the new electric refrigerator-freezers. They're bigger inside—same size outside! And most models are frost-free—end forever the messy job of defrosting. If your family needs more fresh and frozen food storage, but your kitchen is cramped for floor space, see the new electric refrigerator-freezers at your dealer's soon. They give you more food space in the same floor space—with the convenience bonus of no defrosting!

LITTLE FRIEND

Any mother can tell about a child's love for her doll, and the world of *PRETEND* that they live in. They confide in the doll, reprimand them, and care for them.

The church is a real and true friend. The church may be counted on in times of need, in times of trouble, and in times of sorrow. The church also wants to share in your times of joy.

"A friend loveth at all times."

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Orient, U.S.A. Together

Oriental influence on American architecture is becoming more pronounced. The design often is from the East while the materials are native to the United States. In the photograph above, the garden gate is an adaptation of a Japanese Shinto shrine entrance. The fence is made of natural-color, whitish mineral fiber sheets, an inexpensive, easily maintained material that contrasts handsomely with the redwood framing to which it is nailed. Pre-finished sheets in other colors could be combined with painted frames to give many different effects.

Randlett News

Mollie Ruth Elliott

A bridal shower was given Mr. and Mrs. Stanley Cornstubble Tuesday night, May 25th at the Big Pasture Lunch Room. A lovely assortment of gifts were presented to the honorees. Punch and cake was served as the guests arrived. Hostesses were Mesdames Albert Nolan, Hugh Frye, John Wyatt, F. A. Eastman, Vera Fuifs, A. J. Shaw, S. W. Adams.

Other guests were Mesdames J. M. Goins, Mollie Elliott, Carl Miller, D. A. Cornstubble, S. W. Adams, Wendell Goins, Warner Morrow, Brenda Goins, Herman McAdoo, J. S. Baber, J. T. Bryant, Jess Butler, L. E. Ellis, Gray and Elaine Ellis and Betty Jean Harrison.

Many sent gifts not being able to attend.

Mr. and Mrs. Daryl Clemmer and niece Donna Miller of Irving, spent the holiday weekend with Mr. and Mrs. Lee Miller.

Mrs. Bill Otes of Walters, visited Mr. and Mrs. B. B. Menz Sunday. Mrs. Frieda Butler of Walters spent from Sunday to Wednesday with the Menz.

Wesleyan Guild Met June 1st In Home Of Mrs. Coy Jones

The Wesleyan Service Guild met Tuesday, June 1st, 7:30 p. m. in the home of Mrs. Coy Jones, with Mrs. W. E. Henry co-hostess.

President, Estella Martin, presided. Opening prayer by Joye Pirtle. The Guild voted to furnish the Snak Supper Sunday, June 27th for the MYF. and to present Mrs. Carrol Copeland a gift. The Copelands have been our pastor for five years and have blessed our Church. They are going to Bonham.

The Guild is planning to send a box to the State Hospital. Mr. and Mrs. Earl Martin will take it this Sunday, June 13th. Some of the items most needed are cotton hose, buttons (all sizes and colors), extra large print. Bibles, irons, ironing boards, vacuum cleaners, sturdy card tables, metal ash trays, pictures for dining halls, electric razors, large size swim suits for men and women. If you have a do-

nation, please bring to the class room of First Methodist Church. Mrs. Bertha Majors served an inspiring lesson on "One Witness World", by Roy H. Shinn. Delicious refreshments served to Mesdames McKinnis, Lucille Dura, la Martin, Bertha Major, Pirtle, Bessie King, Nell Grady. Our next meeting July 6th with Mrs. Dora See you Guilders.

Zip And Fit

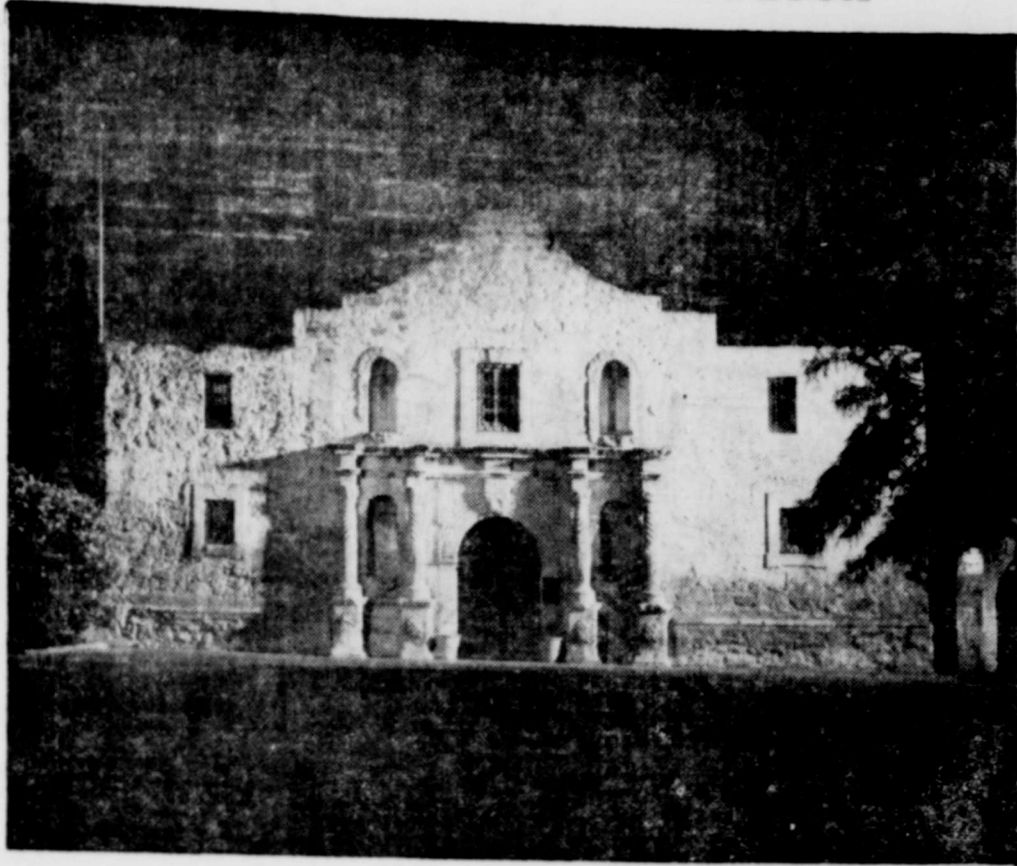

START THE SEASON with a "Pop". Sew a tiny cut-away jacket, carve it into scallops, edge it with braid, and put it over a graceful flared sheath. The easy fit and swing of the dress are enhanced by the flexible Talon Zephyr nylon coil zipper down the back. Always remember to use press cloth when ironing the zipper area. To add variety to your Spring and Summer wardrobe, make several colorful jackets, with and without sleeves, to wear with sheath. It's McCall's pattern "Adjust-for-you" # 7678.

Corking Good Idea

Glue a strip of cork (from an old life preserver) to the bottom of your fishing seat. Makes handy place to store plugs and hooks.

By the year 2000, three of every five veteran in civilian life will be World War II veterans and the other two will be Korean Conflict veterans, the VA predicts.

THE ALAMO'S NEW EVENING LOOK

THIS IS THE VIEW WHICH EVENING VISITORS TO THE ALAMO ARE NOW SEEING IN SAN ANTONIO. THE FAMED "SHRINE OF TEXAS LIBERTY" AND ALAMO CENOTAPH ARE NOW ILLUMINATED BY A LIGHTING SYSTEM DONATED BY GENERAL ELECTRIC AND INSTALLED BY THE CITY OF SAN ANTONIO IN COOPERATION WITH THE DAUGHTERS OF THE REPUBLIC OF TEXAS. THE LIGHTING IS ON FROM DUSK TO 11 P. M. EVERY EVENING AT THE ALAMO.

Local Postmaster Urges Fair Visitors To See Post Office Exhibit In N. Y.

During the past 25 years Texas Forest Service tree nurseries have produced almost 400 million pine seedlings. Such a quantity is sufficient to plant a strip of land 100 feet wide, almost twice around the earth at the equator. Such pine and hardwood seedlings are sold to Texas landowners at a nominal cost each winter. They are made available only for reforestation and windbreaks.

Postmaster W. T. Zimmerman today suggested residents of Burkburnett visit the special post office and exhibit if they attend the New York World's Fair.

Highlight of the display is the nation's most famous postal error, the 1918 twenty-four cent airmail stamp with the upside-down mail plane, the postmaster said.

In addition to original die proofs of the "mistake" and other philatelic rarities connected with the airmail invert, the post office features an exhibit on the development of the John F. Kennedy Memorial Stamp, and a special branch of the Post Office Department's Philatelic Sales Agency, offering a complete stock of all commemorative issues now available.

Visitors to the modern postal installation will receive a free commemorative cachet envelope picturing the post office.

The most up-to-date postal equipment in use, and several experimental models, are installed in the World's Fair Post Office. One mechanism mechanically places letters on their long end, spots the stamp and, if necessary, flips the envelopes so that they are in the proper position and then cancels them. Another device over 70 feet long, contains 12 stations from which postal clerks direct letters into nearly 300 bins as they separate the mail for speedy delivery.

The World's Fair Post Office processes approximately 250,000 pieces of mail each day. Visitors are able to see all operations from a ramp which circles the work area. A tape recorded commentary explains the action.

Twenty-one mail boxes from every area of the world line the entrance walk.

About 5 percent of the total timber volume cut in Texas is used for cross ties. Value of ties produced is estimated at \$3 million, according to Texas Forest Service.

The historic Alamo — the Shrine of Texas Liberty — is now displaying its charm and character in a new light.

The new exterior lighting system was donated by the General Electric Co. and installed by the City of San Antonio in cooperation with the Daughters of the Republic of Texas.

During the dedication ceremony, congratulatory telegrams were read from President Lyndon B. Johnson, secretary of the Interior Stuart C. Udall, Senators Ralph Yarborough and John Tower, Governor John Connally and Congressman Henry B. Gonzalez.

San Antonio Mayor Walter W. McAlister called the Alamo "a shrine whose significance is not duplicated anywhere else in the United States." He said the Alamo at night will now be "much more attractive and architecturally interesting with this expert illumination."

G-E's regional vice president E. H. Howell of Dallas, Texas, said his company was pleased to participate in the project and noted the sacrifice made at the Alamo by 187 men "reminds us forcefully that freedom has never been acquired cheaply."

Speaking in behalf of the more than 3,000 Daughters of the Republic of Texas, Mrs. Murray Ezzell of Port Neches, Texas, said the Alamo's illumination "would extend the hours when the Alamo could be viewed by our millions of visitors."

Also participating in the turn-of-alamo ceremony was Mrs. R. F. ceremonies was San Antonio's Henry Guerra.

The Alamo lighting system was designed by C. M. Cutler, G-E Lamp Division lighting engineer from Nela Park, Cleveland, Ohio. The new system will be lighted evening from dusk to 11 p. m.

Finding new uses for low grade tree species, developing new uses for wood, improving methods of processing and manufacturing forest products, seeking ways to reduce woods and mill waste, and finding uses for waste material resulting from wood manufacture are activities in which the Texas Forest Service is engaged.

Sheppard Air Force Track Team Working Out Daily In Preparation For Training Command Meet 9-11

From Congressman Graham Purcell

Dear Friends,

It is very seldom that I find reason to criticize news coverage of events and activities in the Congress. However, I feel that the American public deserves a better explanation than they get each year when the appropriation bill for the Department of Agriculture is reported. And the farmer needs a better understanding of his needs and problems.

Here is some typical press reaction to the recent agriculture appropriations bill which cleared the House Committee on Appropriations recently.

The Washington Post said: "The House Appropriations Committee yesterday approved expenditure of \$5.6 billion for price supports and other farm programs..."

The Journal of Commerce said: "...The House Appropriations Committee voted another year's installment of \$5.6 billion for price supports and other farm program yesterday."

The New York Times headlined: "House Group Votes \$5.6 Billion Fund For Farm Programs."

These are typical, and they do not reflect, at least in their opening statements, the small amount of these funds which actually are involved in the farm programs to which they are generally attributed.

In the report issued by the Committee on Appropriations was a breakdown of 1964 budget expenditures by the Department of Agriculture which shows that programs which clearly provide benefits to consumers, businessmen and the general public cost \$4,835,000,000 (61 percent of the total). Estimates for 1965 indicate that this figure will rise to 67 percent. Other programs which are predominantly for stabilization of farm income, but which also benefit others, cost \$3,062,000,000 (39 percent of the total). The 1965 estimates show that this figure is down 33 percent. I believe a study of the facts indicates this latter figure will be even smaller in 1966, and at least no larger than at present.

Programs administered by the Department of Agriculture which account for two-thirds of the appropriations, then, are programs from which the farmer receives no direct benefit, but which are designed to be of assistance to other segments of the national and world population.

These include programs involving foreign assistance such as which provides commodities to needy foreign nations and other programs of foreign relations and defense. They also include domestic programs of food distribution such as the Food Stamp program and the School Lunch Program. They include programs of repayable loans such as the Rural Electrification Administration and the Farmers Home Administration. They also include such varied efforts as forestry preservation and conservation and the meat inspection, which is clearly for the benefit of the consumer.

I feel that the farmer need make no apologies for the funds which the Federal Government spends each year in farm programs. No better investment could be made. The prices the farmer receives are not clearly what he should be entitled to based on his investment and labor. And he provides Americans with the best and most varied diet of any people in

Daily workouts are being conducted by the Sheppard Air Force Base field and track team in preparation for the Air Training Command Meet to be held at the base June 9-11th. Coach Charles Garcia said that Sheppard would be represented in every event except the half mile and mile, and urged any other Sheppardites interested in participating in the meet to contact the base Athletic Office at Extension 2022.

The team has three returnees from last year's squad which captured third place. With six weeks of training behind them Coach Garcia commented that Sheppard will be strong in several events and that these next two weeks of training could put the Seniors high in all of the events.

Winners of the Command Meet will compete in the World Wide Air Force Track and Field Tournament to be held at Sheppard June 14-16th.

A pre-tournament banquet will be held on the base Wednesday evening, June 9th, for participants in the ATC meet and members of the coordinating committee attending.

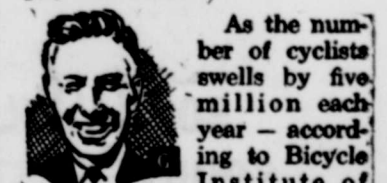

Representing Sheppard in the different events of the Command Meet are: 100 yard dash — Dave Harris, Don Jackson; 220 yard dash — Dave Harris, Ray Bullock; Quarter Mile — Hank Hoffman, Ken Turner, Paul Siegler; Quarter Mile Relay — Hank Hoffman, Ken Turner, Paul Siegler, Dave Harris; Three Mile — Charles Garcia; Steeple Chase — Charles Garcia; Broad Jump — Dave Harris; Triple Jump — Dave Harris, Paul Read; High Jump — Ray Bullock; Pole Vault — Sid Pope, Don Allen; Javelin — Ted Starley; Hammer Throw — Gus Giviskos; Discus — Gus Giviskos; Shot Put — Dave Jonsson.

The public is invited to attend both the ATC and the World Wide events, to be held June 10th and 11th and June 15-16th at the base athletic field between H and J Avenues and 4th and 5th streets, beginning at 7 p. m. each evening.

The base drill team will perform 30 minutes prior to the program each day, and the 761st Air Force Band will provide the opening ceremonies for each meet.

Dr. Paul Dudley White, the famous heart specialist and chairman for the second year of American Bike Month in May, says that cycling for all ages — "is one of the best ways to accomplish and maintain physical fitness."

As the number of cyclists swells by five million each year — according to Bicycle Institute of America figures — the question arises: where can they ride safely and take advantage of the great outdoors?

The federal government has recently passed legislation from which funds can come to provide additional bike facilities.

the world, and at less cost to the consumer than is the case in any other major nation.

Our farm programs since 1961 have resulted in large decreases in our stocks or surplus commodities. Wheat stocks, for example, have been cut almost in half. This has substantially reduced the cost of our farm programs, and accounts for some of the reduction in the percentage of Department of

Irma Ned Riley Honored With Dinner Party Saturday

Miss Irma Ned Riley of Burkburnett was honored with a pre-nuptial dinner party at the Texas Hotel in Fort Worth Saturday evening. Mrs. J. C. Adams of Burkburnett was hostess. Miss Riley is a TCU honor graduate. Her wedding is scheduled for July. The guests included the honoree her mother, Mrs. Walter Riley; Mrs. Bill Lucas, Mrs. W. V. Newson, and Miss Susan Reynolds of Fort Worth. Each guest's place was marked with a tiny bottle of perfume. The honoree received a corsage and a gift of her chosen sterling pattern.

Airplane detection of forest fires is used by the Texas Forest Service during critical hazardous periods. Such detection supplements observations from lookout towers.

Pfc Leeland Pace With 14th Armored Cavalry In Germany

Army PFC Leeland Pace, son of Mr. and Mrs. Alton E. Pace, 105 Maxwell St., Burkburnett, participated in a field training exercise being conducted by the 14th Armored Cavalry Regiment in Germany, May 17-27th. During the maneuvers Pace received extensive training in weapons firing and small unit tactics designed to test the combat readiness of his unit. Pace entered the Army in June 1964 and completed basic training at Fort Polk, La. The 18 year-old soldier was graduated from Burkburnett High School in 1964.

Texas has about 21,000 miles of railroad track. Yearly maintenance on these lines requires almost 2 million cross ties according to the Texas Forest Service.

PUGGY

New Officers Installed At May 26th Meeting of the Burk Garden Club

Burkburnett Garden Club met in the home of Mrs. B. N. Cauthorn May 26th. Mrs. Al Lohofener, president, presided. She brought news of the District II convention and announced that the club won 3rd place on their scrapbook. All reports were read and a \$25.00 donation was given to Hardin Park Fund. New business included a discussion on the Christmas Ideas show to be held Nov. 29th and a Flower show combined.

Leader for the day was Mrs. M. C. Taliaferro who presented Mrs. J. M. Pogue with talk on "Rose Culture For Our Area." She spoke on roses she is growing, the soil, care and feeding. Mrs. Grady Fuqua spoke on New Iris and Their Culture. She grouped them as they bloom by months, February being the first month, small and in large groups; March and April is the month for bearded iris. They increase in number quickly. Companions for these should be primroses and daffodils. May and June, the tall and gracious—with rainbow colors—are the

best; July-Japanese Iris, with large blooms in shades of blue; August is Vesper Iris in lavender shades, often called "Poor Man's orchids", grown in contrast with peonies.

Roll call was answered with named iris on exhibit and given in exchange to members. The out-going president installed the new corp of officers with a beautiful service of flowers in colored corsages; president, Mrs. M. E. Taliaferro; 1st. vice president, Mrs. Carl Morrison; recording secretary, Mrs. J. L. Caffee; treasurer, Mrs. H. G. Williams.

The appointed officers are parliamentarian, Mrs. J. M. Pogue; year book chairman, Mrs. Jewel Riley; Scrapbook, Mrs. J. C. Adams; reporter, Mrs. John Brookman.

The hostess served a beautiful tea plate to 18 members and one visitor, Mrs. D. Peevey of Austin, a guest of Mrs. J. C. Adams. She was a former member of a garden club here several years ago.

News From The County Agent

Ten 4-H boys and girls will represent Wichita County at the State 4-H Round-up this week. Those attending are: Charles Klinkerman and Kenny Roberts, Community Improvement Demonstrations; Lana Lavender, Quarter Horse Judging; Charles Woodfin, David Martin, Dale Bohanan and H. S. Denton, Grass Identification; Connie Swinford, Roger Johnson and Tommy Cantrell, Livestock judging.

A Coastal Bermuda Field Day will be held at the Bob Webb Farm in the irrigated valley on Friday, June 11th beginning at 1:30 p. m. A hay show will be held in connection with the field day. Farmers are urged to enter hay which can be a block or bale of hay. An equipment display and demonstration will be held. We will tour the Ralph Harvey Coastal Bermuda Pelleting Plant also. The general public is invited to attend.

The time to spray crops for insect and weed control is near, reminds County Agent B. T. Haws.

Inspect your entire sprayer before using it. You may find nozzle screens clogged because you didn't clean the sprayer before storing last fall or perhaps roller need replacing in the pump.

A prayer should be calibrated to determine how much liquid is being applied per acre.

explains Haws. This insures proper rates of pesticides and herbicide applications. This calibration may reveal that the nozzle tips are worn to the extent that they must be replaced. Wettable powders are very brass and commonly used brass nozzle tips can be quickly worn so that discharge is increased and the application pattern changed. If wettable powders are used it is suggested that stainless steel nozzle tips be used. Also, check the inside of the tank. Stainless steel and fiberglass do not deteriorate rapidly. The commonly used 55 gallon drum corrodes easily and the inside may become flaked. These rust flakes are ideal for clogging a screen and deteriorating a pump.

When spraying susceptible crops, do not use spray equipment that has been used for 2, 4-D. Much information on the safe use of chemicals in agriculture is available from

the offices of county agent Haws said.

We salute the wheat in the Wichita Falls area for a job well done. Just because it's June is the reason milk dairy foods are in supply now. June is the usual when milk production peaks. That's why June is National Milk Month. When milk is plentiful, you also have a big supply of such products as cream, cream, cheese, cottage cheese and ice cream.

Tree Farm

As of May 1st, the eastern Pine producing nearly 43 million acres of farms—two thirds total.

Six Flags Over Texas to Be Open Seven Days A Week All Summer

SIX FLAGS OVER TEXAS will be open seven days a week throughout the summer months beginning Monday, May 31st. Operating hours for the popular tourist attraction, located midway between Dallas and Fort Worth, will be from 10 a. m. to 10 p. m.

The 1965 season at SIX FLAGS, which began April 16th has already furnished park officials with some healthy signs of another banner year according to attendance reports and license plate surveys taken over the past five weeks.

Despite the rainy weather that has plagued the area during this time, the worst in SIX FLAGS' four year history, attendance is still running higher, with 175,077 visitors to date as compared to 169,770 last year.

The percentage of out-of-state visitors is up 33 percent over a year ago. Kansas has now taken over the number three spot right behind Oklahoma and Louisiana in percentage of tourists visiting SIX FLAGS. Arkansas is fourth, followed by California, Ohio, Michigan and Colorado.

"The large increase of visitors, especially from the mid-

western and Western states, is a solid indicator of SIX Flags continued growth and recognition as one of the nation's top tourist attractions," said Angus G. Wynne, Jr., president of Great Southwest Corporation, owner-operators of the 115 acre theme Park.

SIX FLAGS was recently ranked as the number one tourist attraction in the State of Texas with more than 5,000,000 visitors since opening in 1961. Anticipated attendance for the 1965 season is in excess of 1.8 million.

Key Values

Three indispensables of care-free charm in wood paneling are size stability, nail holding strength and resistance to wear.

It's equally important to specify a wood species with good natural nail holding ability and to get pre-shrunk lumber. Nails will not loosen in pre-shrunk lumber as they do when unseasoned lumber dries in service. According to the Southern Pine Association, high wear resistance is especially desirable in areas subject to rough treatment, such as a family room.
