World Day Of hasketball tourney here. This is the Prayer Service Is Set Friday

You are invited to attend the World Day of Prayer Service at the First Christian Church on Friday, February 25 at 10:00

The 1966 Service has been prepared by the World Day of Prayer Committee of Scotland. It reminds us of the responsibility of all Christians to live out their faith in God's world and to be about His mission. As we use this service we join with Christians in 125 other countries. World Day of Prayer is a major symbol of unity all over the world.

Assembly Of God Women's Team Thanks Sponsor

The Burkburnett First Nation al Bankers Women's Basketball Team recently competed in the West Texas Regional Tournament at Abilene. The meet, in which some of the top teams in Texas participated, proved to be successful for the girls. They won the consolation finals, beating their old rivals, The Wichita Falls Truckers by some 18

The girls wish to express their appreciation to their sponsor, he First National Bank of Burkburnett, for their sportsmanship attitude, and their financial support, which enabled them to compete in this and many other athletic events.

The team recently received the beautiful warm-up jackets that have been on order for so long. The eye-catching jackets are red with white lettering and black trimmed and The First of Burkburnett on the back.

The girls do not want the Bank to think that the jackets are unappreciated.

Sherryl Reed Is Selected To Help Publicize Heart Fund Drive

The smiling little six year old girl shown here is Sherryl Reed, daughter of S/Sgt. and Mrs. Floyd Reed, 605 Akers, Burkburnett.

Sherryl has been selected to help show the importance of supporting the Heart Fund. She is a healthy, acive child and can look forward to an active future now. In June, 1964, she underwent open heart surgery to correct a congenital heart condition that would have limited her activities and possibly shortened her life.

Mrs. Joe Kerr, Heart Fund Chairman in Burkburnett, said this week. "The heart you save may be the heart of a child, perhaps not yet born. Or maybe it's a "blue baby."

All these young hearts and thousands more are the direct and dramatic beneficiaries of a mere two decades of medical progress. Twenty years ago, the outlook for a blue baby—a baby born with certain defects of the heart and blood vessels - was poor. Open-heart surgery was still in the realm of science fiction, and heart-lung machines were only projects on an investigator's drawing board.

Your Heart Association was

there . . -When researce scientists developed new techniques for diagnosing cardiovascular disease, including catheterization and Xray of blood vessels . .

-When research scientists developed the heart-lung machine to take over the body's breathing and circulation during surgery on the heart, so that defects inside the heart could be repaired under direct vision

-When artificial pacemakers human beings to restore a regular beat to faltering hearts . . -When a stopped heart was started beating again by closedchest massage

were developed for the rehabil-itation of patients suffering from diseases of the heart and blood vessels

-When wide-ranging popula-tion studies disclosed the correlation between high incidence of heart disease and such "risk factors" as dietary fats, blood cholesterol and cigarette smok

-When the lives of countless thousands were saved by these and other discoveries

Now is the time to remember that this life-or-death fight has one central, spearheading force
—your Heart Association. It has been in the thick of the battle since the first Heart Fund Cam-paign in 1949. It has the support confidence and direction of 30,-000 physicians and scientistsmen and women who represent the most authoritative body of United States.

Now also is the time to remember that you have a very definite stake in this fight, since hearts come only one to a customer. So be generous. When your Heart Association volunteer calls at your home, give her a warm welcome. Open your heart, and your pocketbook. Give—so more will live.

Heart Balloon Sale Saturday

"Heart Balloons" will be sold in Burkburnett next Saturday, Feb. 26 from 10 a.m. 'til 2 p.m. by the Blue Belles, it has been announced by Clyde Conway, local publicity chairman of the 1966 Heart Fund Drive.

Bill Vincent is business chairman of the drive this year and Mrs. James Pearson will direct the door-to-door campaign on March 1st.

SAFETY IS YOUR BUSINESS

Safety is everybody's responsibility - twenty-four hours a day. To assist management in small and medium size plants to develop sound safety procedures, The National Association of Manufacturers published a guide, "The Top Ten of Safety."

These suggested steps include: Management must take meaningful leadership, alert supervisors to their key role, establish on-the--job safety training, conduct periodic safety inspections with follow-up on potential hazards, investigate all accidents and record them, establish firstaid and plant medical program to meet all emergencies, arge mandatory use of protective equipment, use mechanical guards on all open machinery, maintain worker interest and use all available technical assistance.

These common-sense, and easy-to-apply recommen-dations warrant the serious consideration of all. This is and late June the Dow Indusanother way for employers to demonstrate their interest in the welfare of their employees.

TVA FISSIONABLE?

Human memory being short, it's probable that great numbers of people have little or no recollection of the history of Tennessee Valley Authority.

Its original prime mission, as authorized by Congress about 30 years ago, was to harness the Tennessee River in the interests of navigation and flood control. It was also authorized to sell the by-produce of these developments, which was hydroelectric power. But this was strictly a secondary matter - or so it was believed in those innocent days.

New TVA not only has a huge hydroelectric complex subsidized by all the taxpayers of the nation — it has a mammoth system of steam plants, something that Congress never envisaged when the Authority was created. Even so, it isn't satisfied. It has been announced that it will soon accept bids on a big nuclear power station.

This news brought an apt comment from The Wall Street Journal: " . . . it is about time Congress took a new look at its creature. . . . Sooner or later somebody ought to ask just how big this operation, subsidized by all the people, reasonably ought to be allowed to get. And before TVA adds nuclear power to its empire would be a good time for Congress to determine whether or not in securities was predicting a

Roger W. Babson **Weekly Report**

EMOTIONS AND THE STOCK MARKET

Babson Park - Last June 10 in this column we stuck our neck out and predicted that the would "reach at least 1,000 in Furthermore, we then forecast that the May, 1965 high of 939 on the Dow would be exceeded by Christmas. We were "right as rain" about new highs before Christmas. But we missed the puncturing of 1,000 by a hair's breadth. However, we still stick by that forecast that the Dow Industrials will soon record a closing figure above 1,000.

Pessimism Rampant Last June

In June when we took our optimistic stand, pessimism was thicker than a London fog. Stocks were being heavily sold and the averages tumbled aland late June the Dow Indusanalysis turned bearish. Followers of the ancient "Dow Theory" method of projecting the course of stocks proclaimed that we had entered a "bear" market.

The country last June was going through a real case of war jitters. Many columnists were full of dire forebodings as to what would happen to our soldiers in Vietnam when they were attacked by the wily Reds un-der cover of the torrential Monsoon rains. Fears of what the Russians and Chinese might do were heard everywhere. There was a growing disposition to write off our war effort before it had really begun.

Mind Over Matter

Since that great wave of gloom in June, almost every statistical indicator of our economy's health has soared to new heighths. And, after some wobbling in July, the stock market climbed almost straight up to new all-time peaks. Those who felt back then that the tumble

The really big lesson to be the late spring of 1965 is the overpowering part that emotion plays in determining the actions profits others were piling up in

Alhough we are convinced that the 1,000 mark will be scaled by a wide margin before long, we are even more certain that sometime this year an event will occur that will once more sharply change the emotions of stockholders. Of course, we are not saying that stock prices are governed by emo-tions alone. We realize that any big drop in profits would see stocks going much lower. What we have in mind today are those sudden "out-of-the-blue" breaks such as we experienced last June and in 1962

any future market break as be-Russia's successfuly establishble to millions on earth.

Keep Investment Feet On Ground

Whatever the cause for the next shift in emotions, be sure of one thing . . . it will come suddenly and unexpectedly. Hence, when the Dow soars above 1,000, don't be carried away by the wave of rejoicing. Keep your investment feet on the ground and a good reserve of quality bonds and savings ple who had dumped stocks six books in your safe deposit box. months earlier rushed to buy Years of ever-climbing markets have made for carelessness in tion. where to ...? Did you ever look down railroad tracks and wonder where they went . . . or put your ear to the track, listen to the hum, and try to guess when the train would reach you? These questions we may have asked when we were children, but as adults it is time to ask . . . Are we headed in the right direction? Are we prepared for things in the future regardless of when they will arrive? Choose now the path you will take. Let the church help guide you. "Oh that my ways were directed to keep thy statutes!" The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and

We have each an abundance speeds but impossible to make of food in America that people are taking farmers for granted. Actually, farming is now and always has been our largest and most vital industry, and it is becoming increasingly important with our expanding population. In our area, particularly, most of the business and most of the jobs, are easily dependent upon surrounding farms for their existence. Take away the farms, and for all practical purposes you would destroy the entire community.

Locally, members of the Burkburnett FFA Chapter plan to erect signs of FFA on the sides of the city of Burkburnett.

Membership in the FFA is made up of students of Voca-Agriculture in high school. The organization activities are designed to help develop rural leadership and good citizenship, and to stimulate the students to better achievement in their studies and work toward successful establishment in farming or the agricultural occupations.

Future Farmers choose the week of George Washington's Birthday each year for the ob-servance of National FFA Week. FIAMFIFSS ELECTRIC HEAT

THERE'S A SIZE AND TYPE THAT EXACTLY FITS YOUR REQUIREMENTS

If you are planning to build a new home or modernise Fur present home, there's a type of flameless electric heat that will exactly fit your needs and budget. And, whichever electric heating system you select, you'll discover a new and wonderful kind of living comfort.

Flameless electric heat is so even, so gentle-without cold spots, drafts or sudden blasts of hot air. And because there's no fuel combustion, electric heat is clean. Walls, curtains, woodwork and furnishings stay fresh and new-looking longer.

You'll find, too, that electric heat is truly economical, especially when your new home is all-electric and qualifies for our low Total Electric rate. Today, electric heating already is enjoyed by more than two and one-half million families in homes in all parts of the United States.

Why not plan on flameless electric heating for your home and live in true modern comfort? We'll be glad to give you full information about various types of electric heating and supply you with estimates of operating costs. Phone, write or visit our office soon.

Central electric heating may be either an electric furnace which can utilize the same ducts used for electric central air conditioning, or an electric heat pump which provides both heating and cooling for

Helen Kollman Seeks Re-El As Wichita County's In

HELEN KOLLMAN

Mrs. Helen Kollman, a veteran of 22 years of experience in the office of Wichita County Treasurer, is asking re-election to office May 7 on completion of her first four-year term.

Mrs. Kollman, who served 16 years under the late Tom W. McHam, the office holder for 54 years at the time of his death in 1960, was first named to office for a two-year period to complete McHam's term when voters of Wichita County gave her a write-in margin of 11 to 1 over nine opponents in a special race. She was elected to a full term of four years without op-

position in 1962. The present vote is considered a vote of confidence for the manner in which she has conducted the county's business in this important office. She is known for her serious attention to details of her duties of her office and is thoroughly familiar with the complicated operation of the office-from maintaining proper depositories of funds to channeling funds for payment of the county's bonded indebt-

Work Praised

Because of her experience in this office she is considered an accomplished accountant of supervisory quality. She has been able to establish systems for proper maintenance of funds and has operated the office with a minimum of clerical assist-

Public and private officials over the years have praised her handling of the office both as a deputy to McHam and as the office holder herself. Keeping all records on a day-to-day basis, Mrs. Kollman has assisted other departments in their relations with her records. Mrs. Kollman, an attractive matron, is popular among other office holders and fellow workmen.

A native of Wichita Falls, Mrs. Kollman has lived most of her life in Wichita County. A graduate of Wichita Falls public schools, she also finished courses at Draughon's Business College here.

Knows The Office She has raised a family here and is known as a wife, mother and grandmother. She was married in Wichita Falls March 27. 1934, and her husband, Charles L. Kollman, is a retired wholesale drug salesman with a generation of seniority in this area. They live at 2231 Piedmont. Their daughter, Mrs. Leon Dabney, and their three grandchildren, live at 5125 Kingston. Her mother, Mrs. Jake Lamb, a for-

mer Wichitan, lives at Spear-24-1tP man, Tex. In announcing her candidacy, Mrs. Kollman says:

I feel I have the experience Funeral Home C to best serve the people of liam Wilhoit of Wichita County in this office and, if returned to office, I will Randlett, Okla., continue my policy of personal attention to every detail of Bart Merrell of the people's business and to one daughter, Mrs. handle the matters of this of- of Thackerville. Because of the best of my ability. eight grandchildren Because of the years I have served in the office of Treasurer of Wichita County, I would like CARD OF I to remain. I will appreciate the support of everyone.
