MU Dean Speaker For Optimist Club Thursday Night

Optimist R. B. Swinford of the Burkburnett Optimist introduced his nephew, Dean Ralph R. Swinford Jr. at the Thursday evening meeting of the Burkburnett Optimist Club.

Dean Swinford, a graduate of Burkburnett High School, spoke to the club about the pitfalls of today's youth entering college and what we, as parents, and Optimists, could do to prepare our youth for college.

"Parents must assume prime responsibility for the moral, religious and civic training of their children. The tremendous academic pressure that our college students are under today leaves too little time for training in other areas. It is too late when our children begin college. Their values have already been established," stated Dean Swinford. He went on to say further, "The best method of training our children is by spending more time with them. By this I mean, not sitting in the same room and watching T.V. but in creative and enjoyable hobbies and work, together! Talk to your child, get to know him. Many of his problems are a result of the youth having no one he can talk to."

Special guest of President Brooker at the dinner meeting was Bobby Littlejohn; Secretary-Treasurer Joe Viavattene was absent due to the fact that he is a patient in the Oklahoma VA Hospital for a checkup and rest.

YOUR DOLLAR'S VALUE

"How Real Is Inflation In The U. S.?"

That is the title of an article in the January 24 issue of U. S. News & World Report. It is accompanied by a full-page chart which makes informative, and woe-ful, reading.

Assume that the 1955 dollar was worth 100 cents. On that basis, your present food dollar has lost 15 cents in value; your rent dollar 13 cents; your home building dollar 20 cents; your college-cost dollar 24 cents; your auto repair dollar 20 cents. So it goes, down the list of the things we use and buy.

All in all, the magazine says, your cost of living dollar has lost 15 cents in its buying power over a mere 10-year period. It doesn't take an expert in higher mathematics to figure out what will happen if that trend continues — or worse, accelerates.

And accelerate it undoubtedly will if the creation of huge deficits continues. The big domestic question now is whether or not Congress will take steps to protect what is left of your dollar's value, by really applying a heavy blue pencil to nonessential spending.

TEACHERS CHANGING, TOO

The visitor to a Texas school nowadays doesn't have to be an expert to see that the little red schoolhouse is not what it used to be. Changes in all areas of education from kindergarten to twelfth-grade trigonometry have taken place.

Outside the school there is a new awareness that education today is the first work of our times.

Inside the schools there is much new equipment — teaching machines, highly sophisticated language laboratories, closed circuit television and even new furniture.

In the midst of all this, in the eye of this hurricane of changes, stands the Texas teacher. And the teacher has changed too, quietly and without fanfare. The change has been for the good.

Long before the big changes in education began to be made about ten years ago, teachers were working to better their professional abilities. That new equipment, revised curriculums — they are all pretty useless without a steady, professional prepared human hand to guide them.

So the Texas teacher has been changing, smoothly and almost unnoticed. How?

In the first place the Texas teacher is no longer a nine-month employee. In the summer a great majority of them, paying their own way, go back to college, study for graduate degrees and learn how to teach the new curriculums.

Teachers new to the profession are better prepared today because older teachers, acting through professional associations, have continually urged higher teacher education standards.

For years we took the teacher for granted, but now we realize that he is as important to the wholesome atmosphere of our community as the doctor or lawyer.

Eugene P. Foley, Assistant Secretary of Commerce, says: "Depressed areas and regions must become self-sustaining economic entities. They must have the means to get in step — and stay in step — with the free market system."

"In the lifetime of any child born this very day, that individual will feel the impact of our society's success or failure in mastering the management of water." —Leland I. Doan, Ch., Executive Committee, Dow Chemical Company.

Band Members In Contest Held In East Texas

Commerce — More than 700 high school seniors from Texas, Arkansas, Oklahoma and Louisiana were on the East Texas State University campus Saturday, Feb. 26, to participate in the 13th annual All-Senior Honor Band and Chorus Contest which was held at 7:30 p.m. in the University Auditorium.

The visiting seniors arrived on campus early Saturday morning and immediately began practicing for the evening's concert. The musicians are selected by the ETSSU music faculty from recommendations by high school choral and band directors in the four-state region.

Dr. James Richards, head of the ETSSU Music Department, handled the director of the approximately 350-voice chorus while Dr. Neil Hummel, university band director and Conrad Bauschka, of the ETSSU music faculty, handled the 350 band members for seating places in a Blue Band and a Gold Band.

Primary purpose of the concert was to honor seniors with musical ability, much in the same manner as outstanding high school football players are honored with selected to participate in all-star football games.

While on campus the students had an opportunity to audition for a music scholarship at ETSSU. Each chorus and band member also received a certificate of participation.

During the day the honor seniors were treated to performances by ETSSU's Chorus, a select group of singers, and the University Band. The Chorus presented a program at 11 a.m. in the Music Building Concert Hall and the University Band performed at 1 p.m. in the University Auditorium.

The night concert was open to the public with no admission charge.

The following students from Burkburnett were included in the Honor Chorus:

Soprano: Beth Byars, Donna Hudson, Drucilla McNamee, Gwendolyn Morris, Tenor: Ronald Frazier, David Mooney, Bass: Bobby Van Lot.

THIS IS LIFE IN 2,000 A.D.

The city in 2,000 A.D. will be a gleaming, multi-level structure 20 miles long, with industrial parks, shops, schools and homes.

What will life be like for the urban dweller in 50 years?

The crowded, dirty, traffic-clogged metropolitan centers huddled together in one big heap on the East Coast will be replaced by spotlessly clean, multi-level "linear" cities stretching eight to 20 miles across the countryside.

High-speed electric vehicles will replace old-fashioned gas-burning cars. All traffic will travel on highways that will conveniently increase the main areas of activities, but which will be designed to completely eliminate traffic jams.

Industries, a wide variety of homes, shops, schools, theaters, and many parks will be distributed with meticulous care and a great deal of preplanning — something few present-day cities ever bother about.

The vision of the future is more than mere daydreaming. Life magazine's spectacular 176-page year-end issue, "The U. S. City," shows how today's scientists, engineers, architects, and electronics experts have already embarked on the exciting prospect of manufacturing tomorrow.

Life's editors say that the technical marvels of the future are well within the realm of possibility right now. Science and industry already have the know-how and capacity to produce them. All that is really needed is sufficient consumer demand.

Witnesses To Go To Plainview For Training Program

Jehovah's Witnesses in this vicinity are cancelling all local meetings for March 4-6 to attend a training program in Plainview.

About 500 of Jehovah's Witnesses in a newly redistricted circuit from Wichita Falls to Willsboro and Altus, Okla. to Haskell, Texas, are expected to attend the "Make Disciples of People of All the Nations," assembly.

The theme will be highlighted by talks, demonstrations, discussions and illustrations in recent weeks. E. A. Grover, circuit supervisor of the 15-congregation circuit, has been cooperating closely with the congregations at the assembly program.

The district supervisor of the program, Malcolm Van Rie, native of Illinois and minister of Jehovah's Witnesses since 1940, will give the theme talk, Friday, 7 p.m., and the public talk, Sunday, 3 p.m., "Does God Have Influence in This Twentieth Century?"

The presiding minister of the Wichita Falls congregation, Harold P. Bruce, said whole families will be in attendance and the program is designed to help all with the commission of discipling the people.

The purpose of this assembly is to analyze the ministerial workers in Texas Circuit 9, determine the existing weakness, and lay plans for expanding the work at circuit and national levels.

A mother can do almost anything with a boy but she can't make him admit that girls are his equal.

Mr. Fred Harrison of Deval was at his sons, Mr. and Mrs. Bill Harrison and children last week convalescing from an operation.

Mrs. C. M. Morris released from a Lawton hospital Saturday. She and Doc returned home with Mr. and Mrs. Claude Bowers of Oklahoma City for an indefinite stay.

Cooper HD Club Meets Recently In Walt Home

The Cooper Home Demonstration Club met with Mrs. E. E. Walt in the Friberg-Cooper parsonage Monday, February 24, 1966 at 2 p.m.

Miss Thelma Wirges, County HD Agent, was the guest speaker and explained Medicare in detail, stating it is a group health insurance program planned through the Social Security office, and not a part of the Social Security; it is a law within itself. The program within itself, consists of two parts (1) the basic part, or hospital part, (2) voluntary part is the medical part and has to do with those who sign up before March 31, and are 65 years of age or over. All who have registered will receive a card in June.

The meeting was called to order by Mrs. J. E. Gill, President who opened with prayer. The visitors were welcomed, some being Miss Thelma Wirges, and Mrs. Barbara Gray. Reports were given by Mrs. Lee Cooper, Treasurer, Mrs. George Emmert, project chairman, who stated February project was the taking of cookies to a rest home. Mrs. W. T. Jenne reported on the last County Council meeting, and stated a furniture meeting would be held March 11.

It was announced the Lions Club of Burkburnett, will hold a Pancake Festival in the Town Hall Saturday, February 26, beginning at 6 a.m. until 8 p.m., tickets are \$1.00 per person, and to be used for charitable purposes.

The next meeting will be held with Mrs. O. J. Cooper, Burkburnett - Thornberry High, Monday, February 28 at 2 p.m. During recreation period winners were Mrs. Fred Volmer and Mrs. O. J. Cooper.

Refreshment plate was served at the following members and visitors: Miss Thelma Wirges, Mrs. Barbara Gray, Mrs. J. E. Gill, Mrs. Lee Cooper, Mrs. Ralph Swinford, Westames Bee Bryant, George Emmert, Fred Volmer, Bob Stewart, Dawson Owen, Jeff Kennedy, O. J. Cooper, Sam Spencer, W. T. Jenne, Joe Musgrave, E. H. Clayton, Phillip Sturdevant, B. B. McCullip, J. C. Adolphus, W. P. Engler, D. B. Clark, Miss Amelia Spencer and eight children.

Bankers Defeated In Regional Meet

The Bankers of the First National Bank of Burkburnett were beaten in overtime play of the Championship game Friday night, February 25, in the West Texas Regional Tournament in Abilene.

The girls had led throughout the game, but at the start of the fourth quarter the team's top pointmaker, Lois Byars, was fouled then slugged.

In the ensuing skirmish, Lois defended herself exceedingly well and the Wichita Falls' Trucker guard scrambled away only to be removed from the game. However, due to being involved in the disturbance, Lois was removed along with the Trucker sub guard.

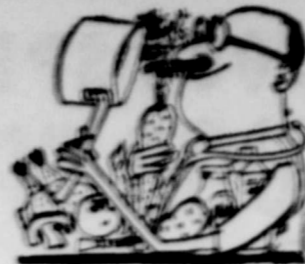

The Trucker, inspired by the Banker staff loss, then applied a full court press and overcame the Banker's large lead. The score was tied on a jump shot as the buzzer sounded.

Despite the second-place finish, the Bankers will attend the State Tournament March 5-6 at Abilene. The girls won third at last year's state meet.

ARE YOUR ZIPPERS TOO TIGHT?

Are your zippers becoming too tight?

Your tip and your zoom are quite right!

Have your feelings of discomfort, "Thinking of dieting?"

Are your best clothes looking a "night"?

Lady, you're inching up to overweight!

There Goes That Fit

Most women notice weight gains first in the gradual loss of the good fit they are accustomed to in their clothing. Getting into the girdle becomes more and more difficult, and getting out of it gives even greater relief than usual!

Of course, perhaps you do need new clothes, but when the saleslady says in her most honeyed tones, "Perhaps this sateen will be better, Madam!" it's time to consult your ancient enemy, the scale. If you have not done so already, and learned the dismal truth.

Overweight Not Sudden

Overweight does not strike like a bolt out of the blue. It is a slow, insidious process that can sneak up on you if you are not watchful. The bathroom scale is helpful, if used judiciously. But not every morning. There are too many weight variations from day to day, mainly due to water balance, to make a daily weighing useful. Once a week is best on the same day and the same hour, preferably before breakfast, and in the same relationship each

time to bowel and bladder condition.

And then, your diet! Here there's plenty of "help" for you, in dietary notions and promotions of all kinds, and from numerous sources. Before committing yourself to any of these quickies, which are usually disappointing and very, very temporary, ask your doctor's advice. You should have a check-up anyway, before beginning any program of weight control.

Gradually "Shrinking" Clothing!

You can be thankful for the gradually "shrinking" clothing, because it gives you early warning. It's much easier to take off five pounds than 15.

There are some warnings you should heed about losing weight! Starving yourself is the wrong answer; it's rugged, it upsets your body chemistry including decreasing your muscle more than fat, and if continued too long it may create permanent damage through malnutrition involving vital functions.

Drugs are not the answer either, except under the strictest medical supervision. Neither is "cutting out the fattening foods." This upsets the nutritional balance, and anyway, there are no fattening foods — only fattening diets.

This isn't the time to take fright.

Or to starve with all your might.

Not rashly to dash for a diet that's "crash." Just keep your meals balanced and light.

Local Workshop Workers Attend Social, Dance

Four Burkburnett workers of the Opportunity Workshop of Wichita Falls, along with other members of the Workshop, friends and relatives and members of the Council enjoyed a social and dance at the Opportunity Workshop on Army Road, Saturday, February 12.

Music was furnished by an up and coming group of young men who call themselves the "Jints". The group consists of Joe Davidson, Drummer, James Sims, Bass Guitar, Mike McClure, Guitar and Chris Steed, guitar.

A good time was had by all.

Mr. Dan Nolte, recent speaker at the Burkburnett Lions Club is the Director of the Opportunity Workshop and the Children's Center.

Anyone interested in this work can call 766-3207, or visit the Workshop at 3401 Army Road, Wichita Falls.

Remember, it's good business to hire the handicapped.

Time to Pray..

Life can be so full and active... There are the school hours, time for study, and for a growing child there must be recreation. Also a time for eating is necessary, and a time to be with the family. One of the most needed times is to be with God in prayer. There are times that we should give thanks to God for our food, and times to seek his guidance and watch-care, and there are times to pray with others. This we can do by attending church.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

THE FAMILY LAWYER

"I FORGOT!"

A motorist hurt in a collision with a freight train, sued the railroad for damages. But in

court, the railroad retorted that the motorist himself was guilty of negligence.

"He crossed those tracks twice a day for months," noted the railroad. "Yet he admits he failed to look out for a train."

"On this particular occasion," explained the motorist, "I just happened to forget about the tracks. But that isn't negligence. Everyone has a lapse of memory once in a while."

However, the court ruled that

his excuse was no excuse at all and that he was indeed guilty of negligence.

If you should ever seek damages for an injury, your own conduct is likely to come under careful scrutiny. Were you partly to blame for the accident? If you knew that danger lay ahead, is it an excuse to say "I forgot about it?"

The general rule is: no. On the contrary, forgetfulness itself is one of the commonest forms

of negligence. Said one court:

"Though we may regard with amused tolerance the proverbial abstraction of middle age hunting for the thimble on its finger, and of old age troubled that it cannot find the glasses on its nose, absentmindedness is not a satisfactory standard of care in the modern world."

Nevertheless, the law does not expect you to have instant and total recall of everything you have ever known. Mitigating cir-

cumstances may make you forgetfulness forgivable.

One such circumstance is the mere passage of time. Thus:

A schoolteacher who stumbled in a hallway won damages from the school board, even though she had known the floor was defective. Because the defect was hard to see, and because three weeks had gone by since she noticed it, the court decided she bore no blame for the accident.

Another possible excuse for

forgetting is that something suddenly and forcefully diverting your attention.

In one case an elderly woman, walking home alongside a lonely road, heard men's voices in the darkness ahead. Terrified, she crossed the road—momentarily forgetting, in her panic, that there was a sharp dip on that side.

She fell, suffered assorted injuries, and sued the county. And the court, in upholding her claim, found no negligence in

her impulsive action. "There is a clear distinction between a judge's distraction, forgetfulness which is one of negligence, and a sudden change of conditions which causes one off his guard."

universities which participate in the GM Scholarship Plan. The awards will be made to entering freshmen and may be renewed through the normal four undergraduate years for those with satisfactory records.

Seniors at Burkburnett High School may apply.

General Motors established its Scholarship Plan in 1955 with the guidance of leading educators. Its purpose was to help bring to the fore young men and women with the ability and

potential for making substantial contributions in many fields to the security and progress of the United States and the world. Since that time, General Motors has helped more than 4,200 able students to go to college, including some 1,560 currently enrolled.

There have been seven graduating classes of GM scholars to date. The majority of the 2,679 graduates continued their education at the graduate and professional levels. Many are cur-

rently following careers in such fields as teaching, engineering, science, business, law and medicine.

GM Scholarships are awarded by the 133 private and 80 public colleges and universities participating in the GM Scholarship Plan. These institutions are located in the 50 states, the District of Columbia and Puerto Rico. Their scholarship committees review the applicant's high school records, available entrance test scores, participation in

extracurricular activities and leadership traits.

Scholarships range from \$200 to \$2000 per year depending on demonstrated need. There is no restriction on course of study or career. Applicants must be U.S. citizens.

Interested students should see their principal or counselor for a complete listing of the participating colleges then apply directly to the institutions of their choice. No GM application is necessary.

DONNA WEST McCLORY

We are going to begin a series of personal interviews with our Distributive Education students here at Burkburnett High School and to get the "ball rolling" I have selected Donna West McClory for the first student to be interviewed in the series.

Donna is a Senior at Burkburnett High School. She is an attractive brunette and very popular in school. Donna is employed at Montgomery Ward's here in Burk. Mr. Johnnie Herring is her immediate supervisor. She says that she loves her work

and that she has gained a great deal of valuable experience since she began working at Ward's.

Donna tells me that some of her duties at Ward's are: filling out orders, returning merchandise and filing credit applications. I'm sure Donna would be happy to fill out your order and you will enjoy the special attention you get from this lovely girl.

Donna has lived in Burkburnett for approximately three years. Donna is a recent bride, she got married just last June. Her husband is working at the Sheppard hospital, and plans to

become a physiologist upon completing his training. Her husband's name is James E. McClory.

Donna maintains excellent grades and is on the honor roll. Last year she was awarded a biology award for excellent grades in biology. Donna does not participate in any extra scholastic activities because she is not permitted to take a part in them under the rules of the school pertaining to married students.

However, this does not restrain her from studying hard and being a very popular student at B.H.S.

SOUTHSIDE P-TA HOLD ANNUAL FOUNDER'S DAY MEET MO

Monday afternoon, February 21 at 3:30 p.m., Southside P-TA held its annual Founder's Day meeting. In the absence of Mr. Kreidler, our president, Mrs. Otis Lay, Vice-President presided.

The parents and teachers were honored to have as guest speaker, Mrs. W. G. Cissell, President Bi-County P-TA. Mrs. Cissell a very vivacious and interesting person gave an inspiring talk on the founding of the P-TA, known first in 1897 as the Congress of Mothers. In 1899 New York formed the first local National Congress of Parents and teachers as we know of it today.

Texas was soon to follow in 1909 with its own local National Congress P-TA.

Mrs. Cissell informed us of a P-TA Leadership Procedure course to be given in March. All interested members, or anyone interested in joining, may call Mrs. Cissell at 569-2904.

Our nominating committee submitted the names of new officers for the next year.

After the adjournment of the meeting, Coke and coffee were served.

We wish to thank Smith and Mrs. C their time and help every.

Which Way Do You

Wash Dishes?

It's a SNAP when you use an Electric Dishwasher!

Dishwashing's done at the snap of a switch when you do it the modern electric way. Instead of soaking, washing, rinsing, and drying dishes by hand, you just load and start your Electric Dishwasher and you're free to tend to other things.

An Electric Dishwasher not only eliminates a tiresome daily task, it washes your dishes hygienically clean, using water hotter than hands can stand. It helps keep your kitchen tidier and your hands lovelier. And entertaining is much more fun when you're free from dirty dish drudgery.

Mr. Bell liked to make things better...

After Alexander Graham Bell invented the telephone in 1876, he did not rest on his laurels. He helped form the National Geographic Society, developed the basic method of making phonograph records on wax discs and pioneered a method of locating icebergs by detecting echoes from them. He made suggestions and contributions that helped give us air conditioning and the iron lung. For 46 years after inventing the telephone, he lived a vigorous and creative life.

Southwestern Bell likes to make things better, too...

Six short years ago, we did not offer the Princess® telephone, Home Interphone, Wide Area Telephone Service, Centrex service, Data-Phone data communications service or Panel Phone. There was no electronic artificial larynx, no automatic dialer and no Speakerphone. Today, these new items help us provide the best telephone service in the world. But we want to make it better. That's our legacy from Mr. Bell.
