## Community Council Sets Meeting Monday Night In Reddy Room

A special called meeting of the Burkburnett Community Council will be held Monday, May 23 at 7:30 p.m. in the Texas Electric Reddy Room, according to Harold Kennedy, President.

Chairman of the Youth Committee, Ken Blankinship, requested the called meeting for the presentation of the final building and financing plans of the Youth Center.

All member clubs are urgently requested to have their representative present for this important meeting. The members of the Board of Directors have prepared an outstanding program of expansion and financing that will benefit every youth in our community, and deserve the support of everyone.

The Youth Committee and the Board of Directors of the Cen-

ter feel that this is one of the most important projects to be undertaken for our youth during the past few years. With over 1500 youths using the Center monthly, it is felt that this is the first step in creating a well-rounded program that will offer a constructive project for everyone. An investment in our youth of today will provide us with better leaders for tomorrow.

### PUBLIC AFFAIRS IS YOUR AFFAIR

With the "off-year" elections coming up in November, it is imperative that the public be informed on the issues, candidates, and the proposals affecting our nation's well-being.

While the public affairs movement has advanced rapidly in recent years in the business community, it is experiencing some violent growing pains as executives seek better ways to impel their staff members and employees — and sometimes themselves — to become actively interested in practical politics.

Even though more than 400 companies are engaged in public affairs activities, a lesser number have programs capable of making a notable impact on the political climate in their areas of operation. The need for sound constructive grassroot activity in behalf of business and industry is readily apparent.

Public affairs is everybody's business and now's the time to work in a democratic manner on those issues affecting you, your community, state and nation.

To be informed and to help restore truly representative government, American business has created BIPAC — the Business-Industry Political Action Committee — to give the same kind of campaign support to sound congressional candidates that COPE, the political arm of the AFL-CIO, gives to labor's friends.

Through active participation in public affairs and support of BIPAC you can help assure truly representative government in the country.

Very appropriate indeed, for these are highflying times. Many of our celebrated thinkers are up in the clouds and the Great Society has put pie in the sky."

## The Road Report . . . BY ARBA

### THE DIRECT COST OF MOTOR VEHICLE ACCIDENTS IS \$8,500,000,000 A YEAR.

This adds up to about \$24 million a day or \$22,000 a minute. It would require 8,333 men, each one working eight hours daily without rest and each one handling a dollar bill every second to count out the direct cost of accidents as fast as they occur.

## Roger W. Babson Weekly Report

### CONFUSION AND COMMON STOCKS

Babson Park, Mass., May 19—When 1966 opened, optimism on the stock market was rampant. This column agreed with the bulls, freely predicting that the Dow Industrials would climb above 1,000 before the end of 1966. But not many investors are thinking about that magic figure now. Since the spring slump, most of them are asking: "What's gone wrong with the stock market?"

#### Confusion Compounded

To move ahead strongly, the stock market likes to feel confident and certain. Recently, all has been confusion, particularly among our leaders in Washington . . . political, military and economic. After working hard to convince the public that it has the correct formula for prosperity without end, we find the Administration split from end to end on what to do next.

One official holds that the economy is not overheating, that inflation is a long way off. Another states flatly that the business bulge in the first quarter was "faster than we ought to try to sustain." The Chairman of the Federal Reserve calls for higher taxes to dampen inflation. The Secretary of the Treasury right afterwards warns that a bigger tax bite now might tip over the economic applecart. Confusion also reigns with regard to what we should do in Vietnam.

#### Patients Die

Our parents had an old saying: Doctors differ and patients die. Another way of putting it was: Too many cooks spoil the broth. That about describes what is going on today — not only in Washington — but also throughout this country and abroad. In South Vietnam, with Communists attacking from within and without, the army is split into factions and the Buddhists are fighting the Catholics.

Amid this terrible confusion in that unhappy country, Vietnam elections are scheduled for late summer. Already anxiety is spreading that, no matter how the actual voting goes, civil war in South Vietnam may break out. Feeling is that the loser will not abide by the decision of the voters; this seems most likely if a strong military clique comes out the underdog.

#### Fears of U.S. Dunkirk

If the South Vietnamese front against Communism should crumble, it is very hard to see how the American military

could continue to press the battle against the Viet Cong and against infiltration from the North. We have already had a foretaste of what is likely to happen . . . when riots recently swept South Vietnam. If the situation were a thousand times worse, it seems we would have no choice but to withdraw our men and materials.

The results of such a removal would not be simply a battle lost. Americans have lost battles before. We refused to win in Korea; but we were not defeated. But to try to protect a nation against Communist takeover—and then to have to abandon such a country—would cer-

tainly be the same as losing a war. Even the "doves" might be stilled; for it is one thing to withdraw as a matter of considered decision, but quite another to lose a war. The "hawks" surely would scream.

#### Unity Needed

It is not hard to find stacks and stacks of favorable economic facts. Business generally was never bigger or better. Profits, although not racing ahead as fast as last year, are still climbing. Order backlogs are up, and tilting higher. Autos may be tapering a bit; but steel and other metals are booming, and pointing up. Money is more expensive; but we don't see any business starving for lack of funds.

Why, then, is the stock market out of gear with the business statistics? Because it is always afraid of confusion and uncertainty. It is not today that worries it . . . but tomorrow. Investors are wondering how long business statistics will stay favorable if our leaders cannot make up their minds about the danger of inflation, about taxes, about Vietnam. It is our belief that the Dow would get back in the track toward 1,000 if our leadership would unite. It is time to set the course and call the crew to man their stations.

THE CASE LINCOLN LOST

On a fateful autumn day in Indiana, in the fourth year of the Civil War, Union soldiers entered the home of Lambdin P. Milligan and placed him under arrest. The soldiers were acting on orders of President Abraham Lincoln, their commander in chief. Milligan, suspected of aiding the Confederate cause, was speedily found guilty by a military court and sentenced to be hung. But nine days before he was to die, Milligan—involving the ancient writ of habeas corpus—demanded his freedom. He claimed that, as a civilian, he could not lawfully be punished by a military court.

VETERANS

Questions - Answers

Q.—I am a railroad employee who is 67 years old and I plan to retire in 1967. I am also a veteran of World War I. My railroad retirement benefits will be about \$200 a month and the benefits for my wife will be about \$75 for a total monthly income of \$275. This will be my only source of income. Am I correct in assuming that this \$275 will not be considered as income when applying for a WWI veteran's pension?

A.—All income received during the year is counted by the VA when determining a veteran's eligibility for a non-service connected pension. This includes wages, salaries, dividends, interest, profits, annuities, pensions, Social Security payments, etc.

Q.—If I convert my term GI insurance policy to the Modified Life Plan, will my premium remain the same throughout the duration of the contract?

A.—Yes, the premium on Modified Life, NSLI, will remain the same throughout the duration of the contract.

Q.—I lost my son in the service about five months ago. As a dependent parent receiving VA compensation, would I be eligible for the GI home loan or does the VA require that the veteran be alive to be eligible?

A.—GI loans are available only to veterans or to unmarried widows of men who served in either World War II or the Korean Conflict and who died in service or after separation as a result of a service-connected disability. Parents are not eligible.

Health and Safety Tips From AMA

BOATING, FISHING

With the approach of the Memorial Day weekend Americans throughout the land already are busy with the spring chores of scraping and painting small boats, in eager anticipation of another summer on the lakes and streams.

And once again the American Medical Association reminds that the Memorial Day weekend will launch a summer of boating and fishing accidents and deaths from drowning. Most of these accidents need not happen. The AMA reminds each spring that most boating and fishing accidents could be prevented if outdoorsmen would observe a few simple precautions.

Good manners and common sense in boating will prevent most accidents. We all know the rules: Don't overload the boat; have life preservers for each occupant; don't stand up or change seats in a small boat while under way; keep a watchful eye out for other boats, swimmers and fishermen, and give all a comfortable wide berth. We know the rules, but there still are drownings because someone ignored them.

Most marina operators and many sporting goods stores have pamphlets on boating safety. Get one, study it, follow it.

Fishing is highly recommended by your doctor as a healthy, relaxing sport that will get you out of doors into fresh air and sunshine, and help to clear away those mental cobwebs left over from home and office worries. Fishing is not particularly

hazardous, but there are some pointers to watch to help avoid accidents.

Fishhooks are designed to catch and hold fish. They also can snag an unwary finger, hand, arm or leg. If you're deeply hooked, go to a doctor and ask him to remove it. Don't try to work the hook out backwards. Your doctor has the instruments and know-how to remove the hook with a minimum of pain and further damage.

Hooks left lying in the bottom of a boat or on a dock are a real hazard. Many fishermen follow the simple rule with hooks: When not in use for fishing, cover the barbed point with a small cork.

Surprise Relationship

The efficiency of air conditioning depends to a surprisingly large extent on nail holding power of lumber.

According to the Southern Pine Association, this relationship arises from the fact that lumber forms the structural framework which holds the home together. The strength and tenacity with which the lumber grips nails and other fastenings determines the overall cohesiveness of the dwelling. A snug character is essential to low cost cooling and heating.

Some species of lumber have greater natural nail holding ability than others. Such differentials should be carefully weighed in specifying framing lumber. The lumber should also be properly seasoned and pre-shrunk before being surfaced to final size. Nails will not loosen in pre-shrunk lumber as they do when unseasoned material dries in service.

Lady, you'll just love flameless electric cooking ...it costs so little a meal

When you cook the modern electric way you cook for pennies. It costs an average of only about 3c a meal. Surface units on an electric range use heat thriftily, cooking by direct contact with utensil bottoms. The electric oven, insulated all around including the bottom, keeps heat inside where it

belongs. And once the oven reaches the baking temperature you select, it uses electricity only about one-fourth of the cooking time. The low cost of cooking delicious, wholesome meals for your family is another of the many reasons why you'll just love flameless electric cooking.

**GARBAGE COLLECTION ORDINANCE NO. 245**

Mr. Walter West has been awarded the contract for garbage service with the City of Burkburnett beginning June 1, 1966.

The following is City Ordinance No. 245 which regulates the various phases of the garbage service.

**ORDINANCE NO. 245**

AN ORDINANCE DEFINING THE VARIOUS KINDS OF GARBAGE, REGULATING THE KINDS AND SIZE OF RECEPTACLES IN WHICH TO PLACE SAME, THE MANNER OF ITS PREPARATION AND WHERE IT MUST BE PLACED TO BE COLLECTED BY THE CITY GARBAGE DEPARTMENT, PROVIDING REGULATIONS FOR COLLECTION OF SAME, PROVIDING THE SERVICE CHARGES, AND A METHOD OF BILLING AND COLLECTION OF THE FEES; PROHIBITING THE MEDDLING, SCATTERING CONTENTS, PILFERING OR JUNKING, WITH GARBAGE CANS, TRASH OR RUBBISH RECEPTACLES; PROHIBITING THE COLLECTION OF GARBAGE, TRASH OR RUBBISH BY OTHERS THAN CITY FORCES OR AGENTS WITHIN THE CITY LIMITS; AND PRESCRIBING PENALTIES; REPEALING ALL ORDINANCES IN CONFLICT HEREWITH AND DECLARING AN EMERGENCY.

BE IT ORDAINED BY THE BOARD OF COMMISSIONERS OF THE CITY OF BURKBURNETT, TEXAS:

SECTION 1. This ordinance shall be known as the "garbage ordinance" of the City of Burkburnett, Texas. The word "premises" as used in this ordinance shall be taken to mean business houses, boarding houses, offices, theaters, hotels, restaurants, cafes, eating houses, schools, private residences, vacant lots, and all other places within the city limits of the city, where garbage, trash or rubbish accumulates in ordinary quantities.

The various kinds of garbage shall be defined as follows:

A. By the term "Kitchen garbage" as used in this ordinance is meant, dry kitchen refuse, all meat, vegetable and fruit refuse, small dead animals and dead fowls, from any premises within the city limits.

B. By the term "dry kitchen refuse" is meant the solids after the liquids or slop has been drained off.

C. By the term "trash" as used in this ordinance is meant paper of all kinds, rags, old clothing, paper containers, old rubber, pieces of wood, boxes, barrels, crates, feathers, weeds, grass, tree limbs from any premises within the city limits.

D. By the term "rubbish" as used in this ordinance, is meant tin cans, bottles, glass, scraps of iron, tin wire, or any other metals from any premises within the city limits.

SECTION 2. It shall be the duty of every person, firm or corporation owning, managing, operating, leasing or renting any premises, or any place where (a) kitchen garbage or (b) dry kitchen refuse accumulates to provide a portable garbage can or cans constructed of galvanized iron, tin or other suitable material with handles and a tight fitting cover of a capacity not less than twenty gallons and more than thirty-two gallons and the daily accumulation of kitchen garbage and dry kitchen refuse shall be placed in this or these garbage cans. It shall be the duty of every person, firm or corporation owning, managing, operating, leasing or renting any premises to place all trash or rubbish from said premises in boxes, portable cans, or other portable metal containers provided that the gross weight shall not exceed sixty (60) pounds. Any person desiring to place tree trimmings or hedge cuttings for collection shall cause the same to be securely tied for collection in bundles not heavier than seventy-five (75) pounds nor more than four (4) feet in length. These shall be placed with the other garbage and trash for pickup at the regular time for collection.

SECTION 3. Business houses, restaurants, cafes, eating establishments and other commercial establishments shall provide suitable containers for their particular needs. These shall be subject to the approval of the City Manager, and may not be used unless acceptable to him.

SECTION 4. After the enactment of this ordinance it shall be unlawful for fifty-five (55) gallon oil drums to be used as garbage containers.

SECTION 5. Rock, waste,

scrap building materials, or other trash resulting from construction or remodeling; resulting from a general clean-up of vacant or improved property or resulting from sizeable amounts of trees, brush, or debris cleared from property will not be removed by the City as a regular service, but may be done for the owner on payment of an extra fee. Exceptions to this are:

1. Trees, shrubs and cuttings will be carried by the City as defined elsewhere in this ordinance. 2. All types of trash, refuse, and rubbish will be carried by the City during any clean-up campaign which is proclaimed and authorized by the Mayor or City Commissioners. The owner, at his option, may have such debris removed at his expense by private haulers. In the event the owner desires the City to haul debris, a charge therefore, will be made at the rate approved by the City Manager of the City of Burkburnett, Texas.

SECTION 6. The authorized agents of the City of Burkburnett will not make collections of kitchen garbage, trash or rubbish or tree limbs where same is not prepared for collection and placed as designated by the terms of this ordinance and failure to comply with this provision will be an offense and each day's failure to comply will constitute a separate offense.

SECTION 7. The lids, garbage cans, and other receptacles shall be kept in a sanitary condition and closed tightly at all times so that flies and other insects may not have access to the refuse contained therein and shall only be removed while emptying additional garbage or refuse therein, or while the Garbage Collector or person authorized in removing such garbage or unloading the same for disposal. The contents of all receptacles shall be so protected that the wind cannot blow out and scatter same over the streets, alleys, and premises of the city.

SECTION 8. It shall be unlawful for any person other than those designated by the city to collect or dispose of any garbage or to haul or transport or convey said garbage within the City of Burkburnett, Texas, except as specifically designated within this ordinance.

SECTION 9. The meddling with garbage cans, trash or rubbish receptacles or in any way pilfering, scattering contents or junkings in any alley or street within the city limits is prohibited.

SECTION 10. Garbage and refuse situated at residences shall be picked up twice per week.

All business concerns situated within the corporate limits of the city, shall receive a daily pick up.

SECTION 11. Rates for gathering and removal of garbage and refuse from all premises within the City of Burkburnett, Texas, shall be calculated on the following basis:

- (a) Single family unit with alley entrance — \$1.50 per month
- (b) One family unit without alley entrance, where it is necessary to carry out refuse or garbage for more than 20 ft. from property line — 2.50 per month
- (c) Two family units on separate meters, per unit 1.50 per month
- (d) Apartment houses in one building with three or more units, per unit 1.50 per month
- (e) Housing Developments to be charged per family unit 1.50 per month
- (f) Commercial and business establishments, regardless of location shall be charged at a rate to be established by the City Manager and by the Supervisor of Garbage Collection on the basis of cost of daily service according to actual time required but no concern shall be less than 1.50 per month

SECTION 12. The charges fixed or to be fixed under the terms and provisions of this ordinance and any contract that may be entered into by the City for the removal and disposal of garbage, waste or refuse, shall be charged against such person or persons, owner, occupant, or lessee, and the amount fixed shall be collected through the Water Department monthly, as the water charges are collected.

SECTION 13. If garbage pickup charge is not paid, water service will be discontinued to that customer until such time as garbage charge is paid.

SECTION 14. If water service is discontinued because of non-payment of water and/or garbage charge, then an extra charge of One Dollar (\$1.00) shall be made and collected before water service is re-installed.

SECTION 15. All charges for service as outlined in this ordinance are the same for all establishments of like kind without regard for whether

there is or is not a separate water meter for the house or residence, commercial or business establishment.

SECTION 16. Any persons, firm, or corporation who violates any of the provisions of this ordinance or who fails to provide the necessary garbage cans herein required, or shall allow the premises to become unsanitary, shall be deemed guilty of a misdemeanor and upon conviction shall be fined a sum of not less than five (\$5.00) dollars and not more than two hundred (\$200.00) dollars for each offense and each days continuance of a failure to comply therewith shall constitute a separate and distinct offense for each of said days.

SECTION 17. The term "garbage collector" or "garbage collectors" as used herein shall mean an employee or employees of the City of Burkburnett, Texas, or other person or firm under contract with the City, to remove garbage and other trash.

SECTION 18. All ordinances and parts of ordinances in conflict with this ordinance are hereby expressly repealed.

SECTION 19. Should any section, paragraph, sentence, clause, or phrase of this ordinance be declared unconstitutional or invalid for any reason, the remainder of said ordinance shall not be affected thereby.

SECTION 20. The fact that there are no adequate regulations governing the collection and disposal of garbage and industrial waste in the corporate limits of the City of Burkburnett creates urgency and emergency for the immediate preservation of the public peace, health, safety and general welfare, and requires that this ordinance shall take effect from and after its passage, and publication on the 1st day of September, A.D. 1960, and it is accordingly so ordained.

PASSED AND APPROVED THIS THE 25th DAY OF JULY, 1960.

GEORGE McCLARTY, Mayor  
ATTEST:  
C. R. CHAMBERS, City Secretary

## Burk Firemen Score Wins Convention Held In Seymour

The semi-annual meeting of the West Texas Firemen's Association was held in Seymour, Texas, May 15.

The convention was held in Seymour, Texas, at the Fire Station, which was held from 10 a.m. to 10 p.m. From 1:00 p.m. to 9:00 p.m. there was an entertainment furnished by the students of Seymour High School.

The well-known "Vertigo's" was given by Judge and the response by the President of the Association, President of the Association, President of the Association, President of the Association.

The Burk Burnett Sparks had a little bit of hard luck in the six-woman pumper hook-up as one of the females had trouble with another female, but the trouble was the cross threading of the female coupling, on the fire hydrant, and the hose blew off when the water pressure hit.

form a woman's auxiliary with active participants in future events and conventions.

In the first event of the evening, the six-man pumper hook-up, Archer City won in a time of 19.6 seconds, Electra took second with 20.1 seconds and Goree took third with 25.1 seconds. The second event, the two-man pumper hook-up, Goree won with a time of 14.1 seconds, Burk Burnett was second with 15 seconds and Electra was third with 15.3 seconds.

In the men's water polo, Electra beat Saint Jo two straight games, then Archer City beat Benjamin two straight games and Burk Burnett beat Goree two straight games. Water Polo is the best two out of three games. In the finals of water polo, Electra beat Archer City and then played Burk Burnett for the championship.

The Burk Burnett Sparks had a little bit of hard luck in the six-woman pumper hook-up as one of the females had trouble with another female, but the trouble was the cross threading of the female coupling, on the fire hydrant, and the hose blew off when the water pressure hit.

Sparks were second with a time of 15.8 seconds. Pretty good for lasses, don't you think? The next meeting of the association will be held in the fall at Archer City in September, but an exact date has not been set. The Spring meeting will be held in May, 1967 at Olney.

During the business session a motion was made to consider holding future meetings on SAT-ADD FIREMEN weekdays to bolster attendance. The motion was seconded and discussion followed. A lot of the business places either close all day or by noon Saturday, and a good many of the firemen have Saturdays free. Maybe this would increase attendance at Semi-Annual Meetings and wouldn't interfere with church attendance. The Association will make the decision later.

All of the Fire Department wishes a speedy recovery to Claude Reed, Fire Marshal, who is in the hospital.

The next regular meeting of the Local Volunteer Fire Department will be held in the Town Hall. This is due to the fact that all of the firemen's wives are invited to the next meeting to see some special films that are about hazards in the home and a new film just recently made, entitled "Your Clothing Can Burn." This film is the result of the dangerous and highly flammable brushed rayon sweaters, that were made and sold a few years ago, before it was discovered how dangerous they actually were. They were taken off the market and it is against the law to manufacture these sweaters today. It is hoped that all of the firemen and their wives will turn out to view these films as something could be learned that could be instrumental in the saving of a life. This program will be brought by H. L. McDonald and Joe Ray McClusky.

## Toddlers Need Energy Food

Photo by Carnation Co.

You do not have to be a child psychologist to realize that toddlers have a curiosity about everything. Just watch their questioning hands and eyes probe the contents of mom's purse, examine the leavings in an ash tray, study the glittering piece of jewelry around your neck. As the little ones bounce from corner to corner and room to room they are burning more energy than ever before. Their food intake naturally should be geared to this.

Combining food for youngsters in this stage of development is one way mothers have of making sure their child is getting a proper diet. Nutritionists at Carnation Company, a leader in infant feeding for the past 35 years, suggest mixing high protein cereal for babies with junior foods and undiluted evaporated milk. One such tasty combination is Cream of Vegetable Soup.

Recommended for infant feeding by pediatricians, Carnation's evaporated milk is the safest, most nourishing form of milk for babies and growing children. It contains twice the protein and minerals of fresh milk, and vitamin D has been added. An economical product, evaporated milk is easier to digest than fresh milk and less likely to cause allergy. Unopened cans stay fresh on your shelf indefinitely.

### CREAM OF VEGETABLE SOUP

(Makes about 2 1/2 cups)

- 1 tablespoon butter
- 1/4 cup high protein cereal for babies
- 1/2 cup (small can) undiluted evaporated milk
- 1/2 cup water
- 1 jar (7 1/2 ounces) vegetable and turkey junior dinner
- 1/4 cup junior carrots
- 1/4 teaspoon salt
- Chopped parsley

Melt butter; stir in cereal. Gradually blend in evaporated milk. Add water, vegetable and turkey dinner, carrots and salt. Blend smooth. Heat to serving temperature. Serve topped with parsley.

## Mail Carriers To Distribute Cards

Postmaster W. T. Zimmerman reminds rural patrons of the Burk Burnett Post Office to be on the lookout for June Livestock Survey cards. Next week, mail carriers will leave survey cards in a sample of boxes along their routes.

"USDA base livestock and poultry estimates on replies to this survey." The Postmaster explains. "It is important for everyone who gets a card to fill it out and return it to the carrier. This way, USDA gets a representative sample of the area's livestock and poultry holdings."

Carriers assisting with the survey are Bill Jenkins, Route 1.

Survey cards will be forwarded to Cary D. Palmer, State Agricultural Statistician, in Austin. After adding and analyzing these cards, USDA statisticians are able to estimate the State's milk production, calf and pig crops, lamb and wool crops, and the number of hens and pullets. Information from this survey will guide livestock and poultry producers in making important business decisions," Mr. Zimmerman concludes.

### GIVING YOUR DOG MEDICINE

Does your sick dog stir up a storm when you try to give him a dose of medicine? Don't try to ram the stuff down his throat. There's no need for unpleasantness. Just pull out a corner of his lower lip and pour the liquid in. Then hold his jaws closed, raise his head and stroke his throat until the medicine is swallowed.

## WASHINGTON AND "SMALL BUSINESS"

By C. WILSON HARDER

As any working newspaperman knows everybody knows more about how to run a newspaper, especially those who have never run one.

But so far newspapers have been fortunate in the fact that the doctrine of the freedom of the press has kept out of their hair the interference by bureaucrats.

Thus, newspapermen can by and large, feel some sympathy for the broadcasting industry under the thumb of the government in the form of the Federal Communications Commission.

As everyone recognizes, television is mainly show business. What one thinks of the current offerings is not so important, as no one is forced to look at a bad show. But the shows are designed to reach an audience, just as a movie or stage play is designed to attract people.

One of the severest critics of the TV industry has long been E. William Henry, retiring chairman of the FCC. He is a 36 year old law school graduate who spent some three years practicing law before hooking on with government.

Despite the fact that he has never written a show, produced a show, and perhaps not even acted in one, he has been quite valuable about what the content of TV shows should be. This is a strange manifestation of bureaucracy. A man can be appointed to a job like this, with absolutely no experience in the show business, and by virtue of the appointment immediately becomes another George Bernard Shaw, Ibsen, Shakespeare and Cole Porter rolled into one. And judging by some of their utterances, it is doubtful even with effort that they would ever attain a show business understanding a level above Minsky.

In the youthful retiring FCC chairman's latest blast at the broadcasting industry, he fulminated quite extensively on cigarette advertising. Obviously some TV cigarette advertising is pretty stupid, but it is doubtful that it accomplishes much in undermining nation.

Of course, he refers to the current bit of governmental nonsense whereby it is now the law that all cigarette packages announce use of the product may be a health hazard.

Now this piece of information was perhaps not startling news to anybody. Every youngster in school is taught that cigarettes are bad. They are also taught that alcohol is harmful. This has been going on for years, yet the consumption of both keeps going upward.

And if the teachers in a person's youth, and his private physicians in his adulthood cannot sell him this viewpoint, how does any bureaucrat expect he can succeed.

This is a perfect example of bureaucracy running amok.

If the mere fact of holding a government job makes anyone infallible and omnipotent, then it is perhaps fair to inquire how come that infallible wisdom was not employed to prevent a situation wherein boys are now killed in Vietnam.

## Report Lists 13 Rural Accidents

The Texas Highway Patrol investigated 13 accidents on rural highways in Wichita County during the month of April according to Sergeant D. S. Lawton, Highway Patrol Supervisor of this area.

These crashes resulted in ten persons injured and an estimated property damage of \$5,675.00.

The rural traffic accident summary for this county during the first four months of 1966 shows a total of 53 accidents resulting in no persons killed, 34 persons injured, and an estimated property damage of \$26,163.00.

Higher pay, more opportunities, and a chance to choose the geographical area of the state where they will be assigned are featured items in the Texas Department of Public Safety's bid this month for more than one hundred new patrolmen. "The pay during the training has been increased from \$375 to \$400 per month and upon graduation increased to \$468 or \$484, depending upon the branch of service to which the patrolman is assigned," the Sergeant stated.

Applications and information can be obtained by contacting any Department of Public Safety patrolman or office. June 6 is the deadline for accepting applications for the examination to qualify men for the August 9 training school.

## DEVOL NEWS

Mrs. C. O. Woodley

Mrs. E. N. Miracis was inostess Thursday when the Devol Demonstrators met in her home for the regular meeting. The club opened with the 23rd Psalm repeated in unison, led by Mrs. Grace Uthe. Roll call was answered with "Why I Am Happy." Minutes were read and approved. Everyone then enjoyed a detailed account of the interesting yard and house tour made recently and reported so well by Grace Uthe and Edna Wilkinson who made the tour. A lovely refreshment plate of ice cream, coffee and cookies was served to Willie Cozy, Pearl Cates, Grace Uthe, Minnie Smith, Pearl Coker, Belle Charboneau, Verta Stevens, Dollie Hardin, Lorien Weaver, Ethel McCasland, Edna Wilkinson, Clara Mae Woodley and the hostess, Beulah Miracis.

Mr. and Mrs. Harrell Kirby of Wichita Falls were Friday night and Saturday guests of Mr. and Mrs. W. C. Charboneau.

The Big Pasture Riding Club enjoyed a Trail Ride and weiner roast Saturday afternoon on the banks of Red River. Those enjoying the outing included Mr. and Mrs. Bryan Harrison and family, Mr. and Mrs. Howard Kinzer and son, Robert Hopkins, Robbie and Gail, Mr. and Mrs. J. W. Darton and children, Joan McGill and children, Mr. and Mrs. Bill Holcomb and family, Frank McClendon, Mr. and Mrs. Jim Callenger and family, Ross Sherri and Bryant Terrell and Rebecca and Linda Turner.

Mother's Day guests of Mr. and Mrs. Frank McClendon were Mrs. Mattie Harrison, Bryan Harrison, Mr. and Mrs. George Douthitt of Electra and Mr. and Mrs. Vernon Lagrove.

WMU of the Baptist Church met with Mrs. Gertrude Farmer in her home northwest of Devol last Monday with ladies from the WMU in Randlett as guests for a special book study on "Meet The American Jew", one half of the book was studied at this meeting and the book will be completed at a meeting in Randlett in June.

Mrs. Jimmie Bryan and Connie of Iowa Park and Raymon Hutson of Chattanooga visited their mother, Mrs. Guy Hutson

## WHAT IS THE FATHER'S WILL TO HOW WE MUST BEGIN THE CHRISTIAN LIFE?

Isn't it His will for us to Hear His Word and hearing by the Word of God? Rom 10:17.

Isn't it the Father's will for us to believe in Him? "But without faith it is impossible to please Him: for he that cometh to God must believe that He is..." Hebrews 11:6 Don't you believe in Jesus? "But as many as received him to them gave power to become the Sons of God..." John 1:12 Does this say who believe ARE Sons of God? does it say those who believe are given power to BECOME SONS? Is POWER TO BECOME the same as already being rich? Does one become a Son of God by just believing? Or, doesn't the Bible say that the believer has the power to become a Son of God?

# IN NEED OF Specialized HELP

The car's acting up... sometimes he can repair minor problems himself... but this time it looks like it may require the work of a specialist. To correct this problem he needs a mechanic, someone who has the knowledge and equipment for this particular work.

In spiritual matters, individual worship is necessary and vital to one's life, but God in his wisdom has said that we need to worship with others too. At church we can receive help from those who have dedicated their lives to special service for God.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.
