Burkburnett's Bulldogs Out To Make It Two In A Row Over Electra In Friday Night's Tilt

By DEE UNDERWOOD
 The Burk Burnett Bulldogs are out to make it two in a row here, Friday night, as they seek a win against the Electra Tigers in an 8:00 p.m. Bulldog Stadium encounter, taking their season opener with Crooked Oak last Friday.

The Bulldogs will have a definite edge over their visitors, but expect a real game out of the scrappy "red men" from Electra. The Tigers are slightly smaller, overall, than the Bulldogs, but have better balance on their interior line. One exception will be at right guard where a 140 pounder fills the spot. Their backfield is similar in size to the Burk Burnett backfield, giving away only two pounds per man in that department.

While the Bulldogs were licking Crooked Oak, 24-13, last Friday, the Tigers were fighting to a 14-14 deadlock with perennial powerful Archer City, who was a 1964 State Champion. However, the Tigers were way ahead in statistics, gaining 171 yards on the ground and 143 yards via air mail. They completed a splendid 10 of 14 passes. Scouting reports indicate that quarterback, Gary Fisher, throws the ball real well and quite often. He has a fine target in speedy wingback, Charles Holman, as well as ends, Gary Whatley and David Richter. Spicing the running attack are tailback Ricky Peters and halfback Wendell Barker. Peters is reported to be a fine ball carrier, tall and weighing around 175 pounds. Barker is also a respected runner in his own right.

The interior line is led by 185 pound left tackle, Steve Blackburn, along with right tackle, Ronnie Miller, 170, left guard, Butch Carroll, 185, right guard, Marvin Reis, 140, and center, Gary Flusche, 185. The ends are Gary Whatley, 170 and David Richter, 135. In the backfield, quarterback Fisher weighs 140, halfback Barker, 160, tailback Peters, 175, and wingback Holman, 150 pounds. Their offense is said to be their strongest point.

The Bulldogs showed a lot of promise, offensively and defensively, last Friday. They racked up 269 yards on the ground and 89 in the air. Quarterback Tony Hodges, threw only six times, completing three. The Bulldogs' two hard running fullbacks accounted for most of the ground gain, running well behind a smooth blocking line. Rusty Todd, the starter had 118 yards in 18 carries and his reliever, Charles Hicks, had 63 yards in 7 carries. Dale Hoffman, Bill Roe, Tony Hodges and Jim Caddell all chipped in on the running game. The line, consisting of ends Steve Cozby and John Edwards, tackles Larry Johnson and Rusty Hubbard, guards Bill Zimmerman and Jerry Harsh, and center Rudy Robinson, did a yeoman job of blocking.

The defense limited Crooked Oak to 97 yards rushing and 61 yards passing. They completed 7 of 20 passes, but not a single long one all night. They were led by a host of linemen and backs. Tackle Larry Johnson did an outstanding job as did Jerry Harsh, Rusty Hubbard, Steve Cozby, Mark Schroeder, Jim Caddell, Butch Wood, Dale Hoffman, Mark Seay, Bill Roe, and Rod Turner. They managed to dig in at the right time on several occasions, holding the Ruf-Nex to little or no gain. The Bulldog coaching staff feels that their defense is one of their strong points.

All in all, the game should be an exciting contest with a lot of offense involved. Feeling pretty secure at the present, we predict a big Bulldog victory, by four touchdowns.

Chamber's Industrial Site Cleared For Showing To Interested Firms

An industrial site, recently purchased by the Burk Burnett Chamber of Commerce from Bell Oil Co., is being cleared and leveled for showing to industrial prospects.

Quartet To Be Featured At Community Singing

The Wichita Community Singing Group will meet Sunday, September 18, at the First Free Will Baptist Church, located at the corner of Arizona and Auther Street in Wichita Falls. Just across Kemp Street from Barwise High School. Time is 2:00 p.m. until 4:00 p.m. The Free Will Baptist Church quartet will be featured as well as a full program of class singing and special numbers by other local talent. The public is cordially invited to come out.

The Industrial Development Committee of the Chamber of Commerce is shown 'helping' with the work underway. Use of equipment was donated to the Chamber by Burk Construction Co., E&E Construction Co., and Crozley Construction Co.

The twenty-acre tract is located south of Kramer Road. The Chamber of Commerce is in the process of obtaining right-of-way for a road between Kramer and Cropper Road, running parallel to the railroad.

In the top picture, Jack Aaron, chairman of the Industrial Development Committee, finds that operating the 'dozer' isn't as easy as it looks when done by professional operators.

NOTICE

Southside Parent-Teacher Association will meet at 7:30 p.m. Monday night, September 19, in the sanctuary of St. John the Divine Church, across the street from Southside School. All parents are urged to attend and support Southside P-TA by their presence and participation.

Kings Set For Comet Invasion From Midland-Odessa Saturday Night In Junior High Stadium

By DEE UNDERWOOD
 The Burk Burnett Kings are getting set for a Comet invasion Saturday night, Odessa-Midland style, as they host the West Texas club in an 8:05 p.m., Texas Professional Football League encounter in the Burk Jr. High Stadium.

The Kings are out to preserve their 1-0 league standing, but in order to do so, must overcome a tremendous weight difference. The Comets carry a 235-average in their offensive line compared to a 209 average for the Kings. The two biggest men are Eob Windham, 270 pound center, recently cut from the New York Jets, and player-coach John Hatley, a 265 pound tackle. They range from 240 at left tackle, David Persey left guard, 220, Billy Young, right guard, 215, Alfred Webb, split end, 225, Bill Owens, and tight end, 215, John Arrett. The backfield averages a solid 190, with Duane Thompson at quarterback, 190, Richard Keller at halfback, 185, Martin Benevise at fullback, 195, and John Loudd at flanker back, 190 pounds.

Three weeks ago, the Kings drubbed the Comets, 26-0, in an exhibition game. Since then, the Comets have made some defensive adjustments, as proven by their narrow loss to the Kings last week.

**MAKE THE DOORBELLS RING
YOU CAN BE A POLITICIAN**

A politician, according to the dictionary, is someone who is versed or experienced in the science of government. In less elegant terms, he is someone who understands and takes an interest in the affairs of his city, state and country.

And, when his interest becomes active, when he works at it, he becomes "the most important politician in the world" because he then is party to making the final decisions in our political life.

Who, today, are these politicians?

Actually, they come from all walks of life. In fact, during the past five years more than half a million people have taken political action courses and have prepared themselves for responsible party work. Today, precinct committeemen, members of their block and precinct organizations, and candidates' campaign staffs are increasingly made up of professional people, labor leaders, and young business executives, or anyone who primary interest is good government.

The very people who are active in political party work are the same people who support and work for school issues, or their local community drives.

They are volunteers who have no personal axe to grind. They are motivated by two things:

- They want to make their voice heard in government, and in formulating the policies and platforms of their party.

- They want to have a part in persuading good, qualified men to run for office, and then in working to elect these men.

This is the image of today's politician. And there is a place in his party for everyone who wants to take part.

Political organizations are made up of people — nothing else — just interested people.

If you have an interest in the political affairs of this country, then you are already a politician. The question is: How good a politician are you? Are you willing to sit on the sidelines and let others run the show? Or are you determined to do your part, to make your influence felt, as the most important politician in the world?

The need is there; the choice is up to you.

News dispatches from London, state, "... 800 hospital doctors are ready to emigrate in search of higher salaries and better conditions. Emigration on such a scale could deal a blow to Britains state run health service.

The Portland, Oregon, Journal states: "Educational leaders are willing to admit that school dropouts and near dropouts represent school as well as individual failures. Individuals fail, some educators say, because school programs are not designed to fit their needs and other capabilities. Too large a part of the high school curriculum is aimed at the college bound student, even though only a small minority of high school graduates finish college."

New Bags for Safer Freezing

Meat, poultry and fish are extremely susceptible to freezer burn, the deteriorating condition resulting from poor packaging. It is characterized by grayish discoloration, dryness and loss of flavor. Meat constitutes a good portion of the average food budget, so it's important to get your money's worth by keeping it in top condition. Take advantage of special sales and larger, more economical cuts of meat. But remember, to keep peak quality, the meat must always be removed from the original wrapper before storing.

There is no substitute for proper packaging of foods for the freezer. It won't pay to skimp on wrapping materials, for they must protect from the cold drying air. A brand new food wrap product has been developed especially for freezer use by the Consumer Plastics Department of Mobil Chemical Company. These double-wall quilted plastic bags called Hefty are moisture-proof and vapor-proof to protect foods during long-term or short-term storage. Foods are readily visible, yet retain their original flavor, freshness and nutritive value.

The new puncture-resistant bags are ideal for storing or freezing meats... no more sharp bones or chicken legs poking through the package. There is a choice of two sizes, gallon or quart, each in a handy open-top dispenser. Big side gussets give added roominess and expand to accommodate a variety of shapes and sizes. The stand-up bags are easy to fill, even with one hand occupied. There's no static cling or vacuum cling, the difficulties usually associated with plastic wraps, so they're easy to open. The quilting also keeps them from sticking together in the freezer.

Base Instructor Named For Month

T.Sgt. George W. Robinson, a missile maintenance technician course instructor at Sheppard Technical Training Center, has been named the Missile and Space Training Department's 3750th technical school's instructor of the month.

A veteran of both World War II and the Korean conflict, Robinson has been at SAFB since April of 1964. He was previously stationed at Mountain Home AFB, Idaho.

Robinson was selected as instructor of the month for his knowledge, effort and team work in both resident courses and travel team.

CARD OF THANKS

With deepest gratitude I wish to extend this word of thanks to friends and neighbors for the thoughtfulness shown me during my stay in the hospital and during my convalescence at home. The cards, flowers, visits, food and other acts of kindness meant so much to me and will always be remembered.

Navy ROTC Tests Are Available At Local High School

Applications for the Navy's twenty-first annual Regular NROTC qualification test are now available according to Mr. Groenewold, counselor, at the Burkburnett High School. This nationwide examination will be given on 10, December, 1966, and all eligible male high school seniors and graduates may apply.

On the basis of this test, personal interviews, medical examinations, and other factors, Mr. Groenewold explained, over 1,700 young men will enter the Regular NROTC Program as midshipmen at NROTC units in 52 colleges and universities throughout the nation. Male citizens of the United States who will be at least 17 but not yet 21 on 30, June 1967, and who are now high school seniors or graduates, may be eligible to apply for the test. Those who attain qualifying scores will be interviewed and given medical examinations next January and February.

A successful candidate receives financial aid for four years of college. This includes tuition and educational fees, books, uniforms, and \$50.00 per month subsistence allowance. After successfully completing baccalaureate degree requirements and naval training, graduates are commissioned as officers in the U. S. Navy or Marine Corps.

Regular NROTC midshipmen participate in three summer cruises with various naval units. These cruises help them learn more about the variety of interesting and challenging opportunities available to them as naval or marine corps officers.

Registrations for the test will close 18 November 1966. NROTC Bulletins containing eligibility requirements and qualifying test applications are available from Mr. Groenewold or the U. S. Navy Recruiting Station in Wichita Falls.

News From The County Agent

Fertilize now for your clover and other legumes to make their best growth this fall and next spring, reminds County Agent B. T. Haws. If you wait until late fall to put out phosphate and potash, clovers will get a late start and make poor growth this fall and in the spring.

Check farm stored grains regularly each month for signs of insects and rodents; if insects are found, fumigate with any of the community available grain fumigants. Use rat and mouse baits at the first signs of these rodents. Keep a fresh supply of bait available to these pests as long as it is being consumed.

The grain ration for dairy cows should contain six items, according to County Agent B. T. Haws. They are: dry matter, digestible protein, total digestible nutrients, vitamins, minerals and water. The ration must contain enough of each of these and they need to be in balanced proportions.

Be alert to a triangular red and orange sign on farm vehicles which are traveling on highways. The slow moving vehicle emblem on a farm implement means you should exercise caution and watch for unexpected stops, abrupt slowdowns, turns and swerves. The signs are intended for vehicles that travel less than 25 miles an hour.

Get your soil test made early to avoid the fall rush. A sample can be taken now from fields that were in grain sorghum, wheat or other early-harvested crops. This sample can be used to make recommendations before the fields are planted to crops in the spring. Soil samples can be taken any time of the year if fertilized rows are missed when sampling the soil.

They're growing cotton in narrow, 7-inch rows at Texas A&M University's South Plains research and Extension Center near Lubbock. Researchers say yields have been slightly higher in narrow rows, compared to standard 40-inch rows, and costs have been cut as much as 27 percent.

It's time to begin preparing for winter temporary pastures, reminds County Agent B. T. Haws. Winter temporary pastures are about the only dependable source of green graz-

ing in late fall, winter and early springs.

A soil test is the best way to determine how much fertilizer your land needs. Then, proper seedbed preparation is essential to getting a good stand.

What do you want to plant? Some possibilities are: oats, rye, barley, wheat, ryegrass and legumes, such as Austrian Winter peas.

A field day of particular interest to farmers and ranchers is scheduled for Friday, September 30 at Texas A&M University's Texas Experimental Ranch, according to county agent B. T. Haws.

The field day begins at 9:00 a.m. with guided tours of the ranch. Points of special interest on the tour will be deferred-rotation grazing systems now being tested and brush control research demonstration.

After a barbecue lunch, free lunch tickets given to the first 100 non-residents of Baylor and Throckmorton Counties, a report on current research will be given by Dr. W. L. Waldrip, range specialist at the A&M experiment station.

Dr. R. E. Patterson, Dean of the College of Agriculture at A&M, will report on the recently proposed brush control research program for Texas. Ranchers, legislators and research scientists are backing the brush control research plan.

Also on the afternoon program is a report on Agricultural Programs in Congress by Graham Purcell, U. S. Congressman from the 13th District.

The Experimental Ranch is located 10 miles north of Throckmorton and 20 miles south of Seymour on U.S. 183 and 283. The public is invited to attend, concludes Haws.

Red Cross Sets Class Sept. 22

A one-day Red Cross Training Class will be held Sept. 22, 9:30 a.m. to 3:00 p.m. at the Red Cross Lounge in the basement of the Sheppard AFB Hospital. Anyone interested in volunteer work is encouraged to attend this meeting.

For further information, call Mary Lou Gallagher, 322-4575 or the Red Cross Field Office at the base, 851-2308.

BACK TO SCHOOL AND BIBLE SCHOOL

Now that school time is here again, the following questions are appropriate for all parents.

Did your child start to school this Fall?

1. WILL YOUR CHILD BE IN BIBLE SCHOOL NEXT SUNDAY?
Did you let him decide whether he would go to school or not?

2. WILL YOU LET HIM DECIDE WHETHER OR NOT HE WILL GO TO BIBLE STUDY?
Do you intend to see that he attends school regularly?

3. DO YOU INTEND TO SEE THAT HE ATTENDS BIBLE STUDY "REGULARLY."
Do you encourage and help your child to complete his home assignments?

4. DO YOU ENCOURAGE AND HELP YOUR CHILD WITH HIS BIBLE LESSONS?
DO YOU FEEL THAT EDUCATION OF THE SOUL IS THE SOUL OF EDUCATION?

5. Don't let us help "Train up a (your) child in the way he should go?" Prov. 22:6. Then BRING him for Bible Study, Sunday, 9:45 a. m. and for church, 10:45 a. m. and 6:00 p. m.

Farm Leasing

A good farm lease agreement may well increase the net income to both landlord and tenant over a period of years. A good lease, says Extension economists at Texas A&M University, outlines the cropping and livestock plans to be followed and the way the farm will be operated for maximum returns. Some of the more common forms of farm leases are cash lease, crop-share lease, and livestock-share lease.

Punt, Pass And Kick Contest Opens For Boys Ages 8 To 13

Burkburnett area boys from 8 through 13 can put their football skills against thousands of other boys throughout the nation in the fifth annual Punt, Pass & Kick competition which will culminate with a trip to

Washington, D.C., and an appearance at the annual National Football League Play-Off game for the top 12 winners.

Sponsored nationally by the Ford Dealers of America and the National Football League,

the Punt, Pass & Kick competition—or PP&K—will be staged in Burkburnett by Wolfe Ford Co. Inc. with Boomtown Jaycee's as local co-sponsor.

Burkburnett boys will be tested for their ability to punt, pass and place-kick a football for distance and accuracy. First, second and third-place winners will receive distinctive Medal of Achievement awards on plush velvet ribbons. Top award has a blue motif, second-place award is red, third award is

white. There will be 13 medal awards in all. Seventy-four teams from the country then will be compared to determine the six top winners in each of the 360 Ford zones—a total of 2,160 zone winners.

Zone winners will meet in 37 Ford District competitions at which 228 district champions will win trophies. The 228 runners-up will receive certificate awards. All 228 district champions will compete for area championships to be held

in 15 NFL-city areas.

The 42 western NFL-area champions will compete in Baltimore, Maryland, on Saturday, December 10, to determine the six western division champions (one for each age group). The 48 eastern NFL-area champions will compete in Dallas, Texas, on Sunday, December 11, to decide the six eastern division champions (one for each age group).

The six eastern NFL division champions, and the six western

division champions, accompanied by their mothers and fathers, will go on a "Tour of Champions" to Washington, D. C. They then will travel to the Orange Bowl in Miami, Florida, site of the annual NFL Play-Off game, for half-time competition to determine the six National PP&K champions.

Billy Mize, Competition Director, of The Jaycee's pointed out that PP&K involves no body contact, there is no charge for entering and no special equip-

ment is needed. Registration will open from Sept. 15 through October 7, at the "with Wolfe Ford Co. Inc. registration headquarters." "In 1965, PP&K's fifth year," he said, "a program which has received the recommendation of the President's Council on Youth Fitness." Mr. Mize said entrants will be judged on distance and accuracy. World Christian Leader To Speak In Wichita Falls

Dr. Albert C. Outler, "the
outstanding Protestant Obser-
ver" in the Vatican Councils and
considered to be one of the

most significant religious lead-
ers in the world today, is to
speak Sunday, September 18 at
7:30 p.m. at the First Methodist
Church in Wichita Falls. He is
being brought to this area by
the church of the Wichita
Falls District of the Methodist
Church for all the people of
this area. He will speak on
"The Church in the Modern
World—Crisis and Promise."
Interest in Dr. Outler's com-
ing has already been evidenced
by people of many different re-

ligious groups — Presbyterian,
Disciples, Roman Catholics,
Episcopalian, Lutheran, Baptist
and others. Caravans of cars
are being planned by a number
of the churches and their min-
isters so that a larger number
of their members may hear Dr.
Outler. "He is recognized all
around the world by Christians
of all denominations and na-
tions as one of the most signifi-
cant scholars of Christendom.
He is the author of sixteen
books, among which are "The

Christian Tradition and the
Unity We Seek." "That the
World May Believe." "Psycho-
therapy and the Christian Mes-
sage."
Dr. Outler, a native of Geor-
gia and graduate of Wofford
College, Candler School of
Theology and Emory University
and Yale University, was pro-
fessor in the Yale Divinity Sch-
ool before coming to his pres-
ent post at Perkins School of
Theology, SMU.
Dr. Outler has returned this

week from the Jerusalem Insti-
tute, a meeting of thirty World
Christian Leaders, five of whom
are Americans and only one
Methodist.

☆ Be ever mindful and thankful
to GOD for...

HEALTH and FOOD

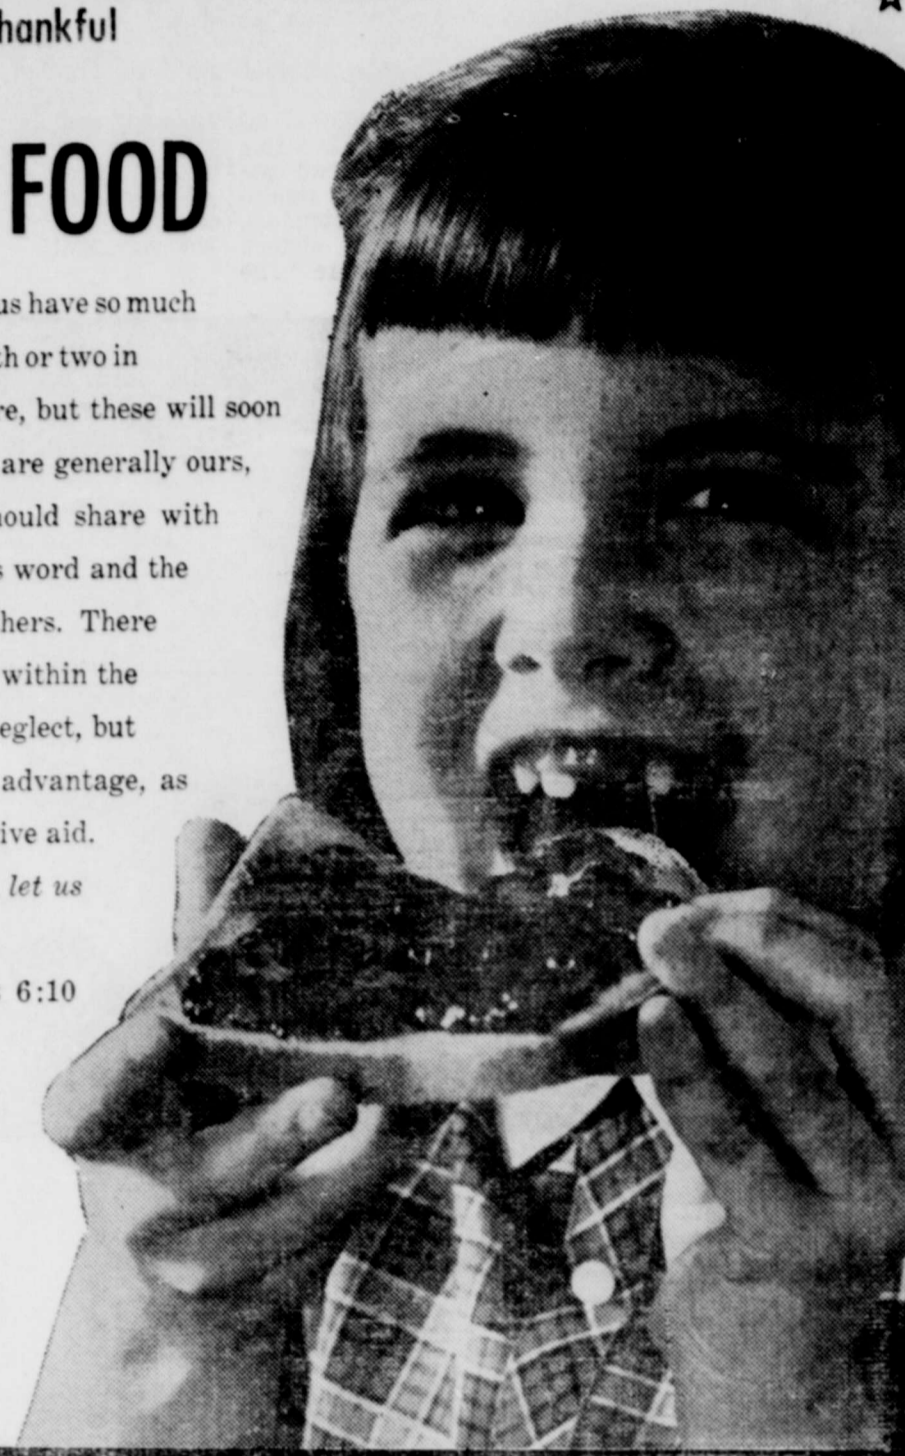

In our nation today, the majority of us have so much to be thankful for. Sure we lose a tooth or two in growing up, as the one pictured here, but these will soon be replaced. Health and Happiness are generally ours, and through our abundance we should share with others who are less fortunate. God's word and the church encourage sharing with others. There are many areas of service to others within the churches, and these we should not neglect, but God has said that we should take advantage, as we are able, of all opportunities to give aid.

"As we have therefore opportunity, let us do good unto all men."

GALATIANS 6:10

THE CHURCH ENCOURAGES
LOVE AND COMPASSION
FOR OTHERS

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

APOLOGY TO DIXIE

By PAUL HARVEY

From a recent broadcast by radio commentator Paul Harvey, reproduced after numerous requests.

DEAR DIXIE: Can you possibly find it in your heart to accept our sincere apology?

When there was race rioting in Little Rock, we were so convinced that the cause was callousness. Our public officials and our press here in Chicago insisted that the only two reasons for Negro restiveness were your segregated schools and your stubborn governor.

We in Chicago with integrated schools and a very liberal governor are now writhing in the agony of race rioting, and we seek to set our house in order, hoping your headlines will be kinder to us than ours were to you.

And when a Mississippi Negro boy was found drowned, we in Chicago called this the inevitable result of a white-supremacy tradition. Now, a Negro girl, 14 and pregnant, has been shot to death on the front porch of her own home in Chicago, and we're confused and ashamed and frightened.

What are we doing wrong that has made eight square miles of our city a battleground? Help us, if you can find it in your own hurt heart to help.

And Alabama, when your state police were photographed subduing rioters with nightsticks, Chicago's bold-faced front pages condemned you for indefensible brutality. And now Illinois' National Guard has restored to armored cars, and cracking skulls and shooting to kill.

Your governor has alleged that Communists were fomenting this strife and we scoffed; now 13 Negroes on Chicago's West Side have been charged with plotting treason! We are sweeping admittedly communist literature from our littered streets! Forgive us for not knowing what we were talking about.

And Georgia, when you were photographed in the act of

turning back crowds of marching children, we could not control ourselves. . . "The very idea," the Chicago press editorialized, "that youngsters should be considered a menace sufficient to justify the use of tear gas!"

Now, in our own asphalt jungle, we have seen Negro youngsters of 9, 10, 11 advance on police with drawn guns or broken bottles, screaming, "Kill Whitey!" And we used gas, and clubs, and dogs, and guns, and God, forgive us, what else could we do? Can you, Georgia — can you forgive us too?

We tried the patience we had preached. We tried so desperately that seven policemen were shot the other night—two of them through the back. So in the end we resorted to methods more brutal than yours. But, don't you see? We had to!

Our mayor listened to the Negro's leaders as he so often admonished you to do. He had listened. He had made compromises and concessions. He had offered sacrificial police officials and school officials. But they kept coming in so many directions with so many demands. And then . . . demanding to keep the fire hydrants gushing for their playing children during the city's most critical drouth.

Oh, dear Dixie, perhaps we had not yet learned fully to appreciate what you had been trying to do—to effect evolution without revolution. But for whatever belated comfort it may be, from our glass houses we will not be throwing any more stones at you . . . not for awhile.

Local 5th Graders Make Move To High School Here

Should you visit the Burk Burnett high school campus and see a few students who look about 10 years old, you would be right. They are about 10 years old, all 88 of them, but they are not precocious youngsters entering high school.

They are fifth graders, forced by the school population explosion from their normal elementary school building, Southside School, to the high school complex.

An increase of 350 students in the total enrollment of the Burk Burnett school system placed a strain on classroom facilities in all the buildings, but Southside found itself with three grades more than available rooms would accommodate.

School officials decided to move the three fifth grade clas-

ses from Southside to the high school complex where three classrooms were made available, one in the science wing and two in the arts and craft wing. The normal lunch hour for fifth graders is earlier than the high school lunch period,

so use of the cafeteria presented no problem. Tennis courts furnished adequate playground space for the supervised recesses normal to fifth graders. What do the fifth graders think about the move? They claim to be ecstatic over the new location.

Most Important Events In American History — No. 2

WHEN THE TRADITION OF DEMOCRACY GOT ITS START IN AMERICA

It's fitting that the idea for a democratic form of government in America was born at the site of the very first permanent English settlement in this country.

The place: Jamestown, Va., which was founded 13 years before the Pilgrims came to the new world. Settlers arrived in Jamestown in 1607.

By 1619 they were ready to hold an election, and in August that year they established our first elected assembly.

Other forms of government have been tried in history — government by kings, the privileged few and dictators; other means of choosing officials have been tried — such as through heredity, fighting, appointments.

But no system has ever been discovered that's better than democracy — permitting people to elect their leaders. And our tradition of a democratic form of government dates from that August day long, long ago.

Modern outdoor lighting does much more than merely dispel darkness. Illuminating plants, shrubs and trees, it creates a beautiful setting for your home throughout the year. During many of these months, it extends your living to the outdoors, where you can entertain, cook out of doors and enjoy family recreation. Decorate with light outdoors now . . . for better living.

DECORATE WITH light outdoors

ADD A GLOW OF CHARM, SAFETY & CONVENIENCE TO YOUR YARD

Electric Ready-Lite is a decorative light that brightens your evenings on the patio, encourages prowlers. Fully automatic, the Ready-Lite turns itself on at dusk, off at dawn.

Weatherproof spotlights can be used to illuminate shrubs and plants for night-time beauty, provide light for safety when placed along garden paths or at steps.

Weatherproof spotlights on a beautiful tree can make it a lovely focal point in your outdoor lighting scheme. Use light from two or three directions to get the effect you want.
