Bits Of THIS-N-THAT

By BETTY BOYD

Welcome to Spring! I hope you are as happy to see and feel warm weather as I am.

If Saturday will just be a nice day, then it will be fine for the first monthly drawing of the Trades Day prizes. The exciting occasion will take place at 3 p.m. in front of the Texas Electric building.

Don't forget that to win, you must be present, Saturday, March 30th. Don't forget, now!

Leroy Jordan, defensive linebacker of the Dallas Cowboys, will be the featured speaker and main guest at the Booster Club Banquet to be held in the High School Cafeteria, 7:30 p.m., Saturday, March 30.

Have you noticed that everyone is doing their outside Spring cleaning? Are you? The Clean-up Campaign will be in force until April 30.

Save the larger rubbish until the last week, for then a large truck will come by to haul it away for you. Now is the time to do your part to help make Burkburnett the cleanest, brightest town in this area! So clean-up and paint-up and whatever other kind of beautifying-up you may think of.

I have heard that there will be a new baseball team in town. Guess I'll have to talk to Dee Underwood, sports-writer, about it.

During the last big snow, someone knocked down my mail box. I have no idea who was the guilty party, but to whomever restored it to its upright position, may I extend my grateful thanks. Mysterious!

Have you had your car inspected? There is not much time left, you know. April 15 is the deadline.

That is also the deadline for another item—Income Tax! I wish I hadn't said that!

Won't it be nice to be able to direct-dial those we love—long distance? From all the activity about and on the telephone poles in town, I believe the story that it won't be long now.

Will the cost be cheaper, I wonder?

Congratulations to Mrs. Horsley who received \$100 from Reader's Digest. In the Humor in Uniform section of the April edition, she has a very amusing anecdote.

Mr. and Mrs. Dana G. Mathery and son, Trevor Ray of Fort Worth spent the weekend with their parents, Mr. and Mrs. E. D. Potter and Mrs. Ray Matherly.

It is nice to see the Junior High girls playing softball once again in front of the school. That is a good sign that summer is not far off.

A few odd stories in the news during 1967: A fellow in a German town, his ire up over noisy, low flying American Helicopters, won a one-man war, when he fired 120 homemade dumplings, via catapult, at the offending choppers.

In New York's Greenwich Village, an actor playing the part of a fleeing bad man, was actually beaten to the ground by a real policeman.

Stewards and hostesses of a European Airline were told to stop drinking wine and liquor left over by the passengers.

How about in Picoaza, Chile, where the 4,000 population voted into the office of Mayor, a foot deodorant called Pulvapies?

City elections will be held April 2 and School Board elections will be on April 6. Be alert! Vote for people!

EASTER SEAL DRIVE TO BE IN BURKBURNETT MONDAY

A door-to-door appeal for Easter Seals, which help support the North Texas Rehabilitation Center in Wichita Falls where 46 people from Burkburnett have received therapy, will be held Monday.

The drive will be under the direction of Mr. and Mrs. James Frye and Jack Mathis. Frye and Mathis are members of the board of directors of the Easter Seal Society of North Texas which supports the rehabilitation center.

"This year's appeal is one of the most important in the 20-year history of the center," the chairman said in issuing an appeal to the people of Burkburnett to give generously.

The reason is simple: Easter Seals support the rehabilitation center where handicapped children and adults from Burkburnett as well as from throughout North Texas has received therapy; the number of crippled children and adults increases every year, and, in direct ratio, so does the need for more money to give them care and treatment.

"It is unthinkable that in this enlightened day and age that one crippled person should be deprived of the chance of rehabilitation," the chairman said.

During the past year, the rehabilitation center has provided help for 186 children and adults afflicted with a variety of handicaps and needing physical, occupational and speech therapy.

Easter Seal dollars have helped make this possible. But there are children now on a waiting list. And the number needing help is growing steadily.

Burkburnett ranks third—behind Wichita Falls and Iowa Park—in number of persons who have been treated at the center.

Among those from Burkburnett who have received therapy have been children with birth defects—such as cerebral palsy—and adults handicapped by strokes.

Therapy is provided for children who are physically handicapped; have speech difficulties or who have learning disabilities, including reading, writing and spelling.

Adults who benefit by therapy are those who have suffered strokes, are victims of arthritis, rheumatism, Parkinson's disease and other crippling diseases or are accident victims.

All therapy is prescribed by physicians or dentists and is carried out by experienced and professional therapists.

Some patients—or their parents—are able to and do pay for therapy. Many can not. No one is refused help because of inability to pay. Easter Seals make this possible.

The Easter Seal chairmen pointed out that the people of Burkburnett have responded generously in the past to the annual appeal. Last year, \$942 was contributed. This was a slight decrease from 1966.

The chairman emphasized that "We need to boost our contributions this year. The number of patients from Burkburnett has climbed by 11 over the number who had received therapy at this time last year."

"If every resident of Burkburnett could spend just one day at the rehabilitation center and could see the hope in those children's eyes, there would be no difficulty at all in doubling the amount of money which we give to Easter Seals."

Architect To Be Optimist Speaker Thursday Night

Optimist Lew Brocker, Program Chairman for the Burkburnett Optimist Club reported to the Star today that J. G. "Pete" Dixon of the Architectural Firm of Dixon and Staley would be the speaker at the regular weekly meeting at Underwoods.

Mr. Dixon is a graduate of the University of Texas and a Licensed Architect, has worked with city planners and is well informed on the Urban Renewal programs now in effect.

President Joe Viavattene, stated this promises to be one of the most informative programs we have had and many Civic leaders would be present to hear Dixon. Interested individuals who would like to hear the speaker should call President Viavattene before 6 p.m. Thursday.

Optimist Brocker also stated the annual Optimist Oratorical Contest would be held April 11 at 7:30 p.m. at the Derrick Restaurant at the regular weekly meeting. Those wishing to hear these outstanding young men should call Mr. Brocker no later than April 8.

Three trophies will be given the three top young men and the top speaker will compete in the Zone Contest to be held in Gainesville, April 20.

SPEAKING OF THE DOLLAR DRAIN

TIME FOR A CHANGE

Washington bureaucrats are thinking of adapting the "sky-in-the-sky" space satellite to enforce their rules on American farmers. According to Rep. Paul Findley, (R-Ill.), this is but one more step in a series of acts by the U. S. Department of Agriculture to enforce "a mass of rules and regulations that fill a 12-foot shelf."

In the March 1968 issue of Reader's Digest the Congressman contends there has never been a better time for government to scrap the subsidy and control program, which has cost \$51 billion.

In fiscal 1966 alone, the writer says aerial photographs were snapped of 251,535 square miles of farmland at a cost to the taxpayers of \$560,951.28 in order to see that government rules are obeyed.

"Since 1950 the farm population has been cut in half, and farm units are disappearing at the rate of 100,000 a year," Findley says. "Reliable estimates indicate that today's farm population of eleven million will decline again by almost half in the next twelve years."

Harvard economist Dr. Hendrik S. Houthakker says, "Farm policy should not aim at reviving the past but a facilitating adjustments to the future."

While some subsidies and controls could be ended immediately, the remaining should be eliminated and decontrolled through carefully staged transitions. This is one way to assist in getting our own federal fiscal house in order.

Poverty Follows Big Government

A presidential advisory commission on rural poverty reports that 14 million rural Americans live in such a state of poverty "as to be a national disgrace." According to the commission, most sections of the nation are affected. To alleviate the situation, it recommends, "Full employment, with the government providing jobs where needed. Assurances that everyone will have adequate food, shelter, clothing, medical care and education." A nationwide food-stamp program with eligibility based upon per capita income.

Without questioning the accuracy of the commission's reports, it might be well to question its recommendations to further extend the arm of government. It may not be coincidental that poverty appears to be spreading in company with expanding government.

As government spending, deficits, and inflation reach new highs, it is inevitable that people will become poorer. There is no way for the average person to support both himself and a top heavy, bureaucratic, governmental system. It is almost axiomatic to find people poor in nations where they must support a well-fed bureaucracy.

Easy Rules for Better Dental Health

When it comes to their teeth, American women don't have much to smile about—especially when compared with men. In fact, women may be surprised to learn that the fairer sex has more missing, filled or decayed teeth than men, according to a recent Public Health Survey of American adults. What's more, women who have attended college actually have more trouble with their teeth than women who quit grade school.

The picture isn't all bleak, however. There are a number of good rules women—and men—can follow to improve the health of their teeth, as recommended by the Crest Council on Dental Care. First, of course, is brushing your teeth after eating with a stannous fluoride toothpaste such as Crest, which was the first toothpaste to receive recognition from the American Dental Association as being effective in reducing tooth decay. Next rule would be to remember to eat a well balanced diet, low in sweets. It also pays to visit your dentist periodically for that all-important checkup. Now's the time to follow these rules so you can put on your best smile without feeling self-conscious about those pearly-whites!

SENATOR RALPH YARBOROUGH'S NEWSLETTER

On March 29 the Senate Education Subcommittee will travel to Austin for a full day of hearings on the present and the future of higher education in the United States. The hearings will be held on the campus of the University of Texas, and we hope to have testimony from some of the leading educators and citizens of our state.

This will be the first time a Congressional Education Committee has ever held a hearing in Texas. I have been a member of the Education Subcommittee for 10 years. I shall be present as a member of the Subcommittee. Senator Morse of Oregon, the Subcommittee chairman, and Senator Murphy of California are also expected to attend. We will hear testimony on the working of the Higher Education Act of 1965, which is up for renewal this year and I hope to hear new ideas on how the government's role can be improved to assure a well-educated and prosperous future for our nation.

Two of my bills are before the Subcommittee. One is my "Professors Emeritus Act" which would bring retired-but-active professors back on the job in the small colleges and developing schools, where we have critical shortages of teachers. Since I introduced this bill last month I've had a very

a first rate college-level education available to every qualified American who wants one. A century ago an English writer remarked that while "Grace is given of God . . . knowledge is bought on the market". To put it another way, the rich get wiser and the poor drop out.

The federal government is already doing a great deal to help youngsters who come from modest means. This week my office announced that more than \$7 million have been allotted for students at 81 Texas colleges for grants and fellowships to help financially deprived students. My bill calls on the Secretary of Health, Education and Welfare to devise ways where every qualified American would be guaranteed a good education, regardless of his financial situation.

We expect these hearings to cover a wide range of subjects, and the Subcommittee will hold further hearings in Washington. Many deans and scholars and several industry spokesmen will testify before our Subcommittee. These hearings in Austin on Friday could have great impact on the future course of higher education in Texas and America.

Fire Damages Preston's Dairy

Operation of Preston Dairy was not affected by the fire that damaged company offices last Thursday night, co-owner Hugh Preston Jr. said.

A five-room suite of offices in a building adjacent to the processing plant was damaged, mostly by smoke and water, and office equipment was damaged in the fire detected about 7:30 p.m. Thursday.

Damage to the building was limited mostly to wood paneling in the offices and contractors Friday were repairing the damage. Preston said the company records were intact and operation of the plant would not be interrupted.

CARD OF THANKS

We are sincerely grateful to friends and neighbors for their many acts of sympathy during our sad bereavement. Our appreciation cannot be adequately expressed.

B.A.A.R.C. Holds Recent Meeting

The Burkburnett Auxiliary Association for Retarded Children met in the Special Education II room Thursday, March 21 at 7:00 o'clock and, instead of the regular monthly meeting had a delicious covered dish supper. Guests were the families of the members. The occasion afforded much pleasant fellowship for the 23 children and adults who attended.

The Special Education II room is an ideal meeting place for the Association. It is readily available, it is large enough to accommodate even more guests, and now we have facilities to serve the refreshments. We have a stove donated by Lee Aday of Byers and a refrigerator donated by Mrs. Billie Anderson of Electra.

Our next meeting will be April 18 at 7:30 in the Special Education room—the first room in the north wing of the Hardin Primary building on F Street. We would like for everyone who is interested in any type of handicapped children to come out to the meetings, and lend their support to what is being done to help these individuals to live fuller, more satisfying lives and, hopefully, to help some to become self-supporting later.

Remember, retarded children can be helped. Let's all help!

WRESTLING
 WITH
 OUR
 FEARS

Our fears seem as big and as terrible as this alligator sometimes, don't they? Fear about this thing and that can paralyze us and prevent us from doing our daily work.
 Many of our fears are real. A great many of our fears, however, are unfounded — a result of thinking and worrying about ourselves. Sir John Denham phrased it this way:
"My fears are causeless and ungrounded, Fantastic dreams and melancholy fumes."
 There is only one thing that will dispel fear of this type. We must do something to get out of ourselves. That means loving and helping others.
 The Bible puts it so well in I John 4:18. *"There is no fear in love; but perfect love casteth out fear; because fear hath torment. He that feareth is not made perfect in love."*
 The Church is God's Agency designed to help you. We invite you to attend this week.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

ABC To Produce TV Show At Sheppard Base

SHEPPARD AFB — Sheppard Air Force Base, via the American Broadcasting Company, will step into the homes of millions of American television viewers this summer as host for "Operation Entertainment"—an ABC television production.

Arrangements for ABC to tape two one-hour variety shows here June 15-19 got un-

derway Tuesday when network program officials met with selected center staff members.

"Operation Entertainment" producer-director, Bill Carruthers, also met with Maj. Gen. John M. McNabb, center commander, to coordinate support details and determine a location on base to stage the program.

Selecting the site was the prime objective of both network and base officials during the meeting. They announced that the Hanger 1010 ramp area would be the production staging area. The show will take place outdoors.

As of this week, the only confirmed entertainer for one of the Sheppard segments was

Martha Raye. Network officials did add that the full cast of entertainers would be announced in the near future.

Sheppard is the second Texas-based Air Force installation selected as a site for filming the series. Lackland AFB, Tex. was also selected as a host base for two series segments.

Sign of economic progress

When vacant land is turned into productive property, it means increased tax revenue, added employment and a general boost in local business. That's why we look upon industrial development as such an important part of our job. Recognizing that our growth depends largely upon the growth of the communities we serve, we work closely with local leadership in supporting community development projects and in soliciting new industry. We want to be a full partner in continuing efforts to promote the growth of these communities. We consider it part of our citizenship responsibility as well as good business.

Physiological Training Branch Opens At Base

Sheppard AFB — Maj. Gen. John M. McNabb, commander of Sheppard Air Force Base, officially opened the new Physiological Training Branch during a ribbon-cutting ceremony Monday morning, March 25, at Sheppard.

The new training center, located in building 2333, offers student pilots the finest facilities in the Air Training Command.

The building is used to house the half-million dollar high altitude chamber. In recent tests, the chamber has proved it's worth by taking pilots to a simulated height of 105,000 feet.

Also this one-and-one-half million dollar complex features ejection seat training, parachute and parasailing as well as survival training.

Present at this ceremony along with the general were many of Sheppard's staff officers. Joining the ribbon cutting were Col. Q. J. Serenati, hospital commander and Maj. Frederick Thimm, chief, physiological training branch.

Witnessing the ceremony were Colonels Geoffrey P. Wiedeman, Medical Service School commander; Lester W. Morris, commander 3750th Maintenance and Supply Group; John Milling, commander 3750th Civil Engineering Group; William Grau, chief Department of Veterinary Medicine; and Hans Open, commander German Air Force Training Group and Lt. Col. Paul Jenks, chief, operations division, 3630th Flying Training Wing.
