for the shopper whose picture is snapped by the hidden camera of the Burk Star and News.

The contest rules are simple—all that is required is to shop in one of the stores participating—you may or may not know that your picture was taken.

Then watch the News each Tuesday, to see if you are pictured.

The winner may then come to the Star-News office to receive a certificate good for \$7.50 worth of goods or services at any of the merchants sponsoring the event.

The second winning picture appears in the inside pages today.

Look for it. That picture may be of YOU!

## Varsity To Trek To Mineral Wells On Friday Night

Burk Bulldog football fans will get their first look at the 1968 edition of their favorite team in action Friday night.

That's when the A and B teams hold a scrimmage in a doubleheader slated at Mineral Wells.

The B team will take to the turf at 6 p.m., and the varsity squads will follow as soon as the field is cleared.

Meanwhile, back at the home field, Coach Bill Froman says the boys are looking well, after a day or so of heavy offensive drills without pads.

Several slots are still to be filled from a good selection of candidates.

At fullback, for instance, Mike Cardwell, Lanny Walker and Wendell Hobbs are battling for the one starting position.

At one position at least, the Bulldog mentor has few worries. That's at tackle, where Andarkes and Lrson, both with experience, are returning for action.

All have been turning in fine performances, but the starter for Friday night is still in doubt.

The Bulldogs lost both starting ends from last year's team, and a host of prospective starters face Coach Froman.

These include Sprague and Sullivan, both of whom had seen plenty of action last year, and Mike Holland, Ken Youngblood and Rick Reasoner are ready to step into the vacancies.

The high school coaching staff started out the practice sessions with 55 candidates for the A and B teams, and the count has remained at that number.

## Miss Burkburnett Honored With A Reception Aug. 17

Miss Treva Ladd, Miss Burkburnett 1968 was honored Saturday, August 17th with a reception at the National Room.

Members of the Modern Study Club hosted this affair.

Those in the receiving line were Treva, Mr. and Mrs. Glenn Ladd, her parents, Mrs. Darrell Nichols, Mrs. Lonnie Dolan, Mrs. Lewis A. Gray, Mrs. John Griffith and Mrs. Dale Lewis.

On display at the reception were some of the 173 trophies Miss Ladd has won as a twirler, including plaques for preliminary talent award and semi-finalist in the 1968 Miss Texas Pageant.

# School Rolls Near 3500

First day of enrollment in the Burkburnett public schools reached 3483 Wednesday, with scores of additional students expected during the next week. The figure was remarkably close to the pre-school estimates of 3500.

At the high school, 923 were enrolled, with the number expected to increase daily for the next week or so.

School authorities said 304 ninth graders were enrolled, with 265 in the tenth grade, 204 in the eleventh and 150 in the senior class.

Junior high school figures showed 860 enrolled in three grades. Sixth grade students numbered 249, seventh grade had 311, and eighth grade teachers counted an even three hundred.

Hardin primary school enrolled 720 by Wednesday. Grade by grade, the count was 1, 134; 2, 125; 3, 157; 4, 155 and 5, 149.

Sheppard - Burkburnett Elementary, with six grades, showed a first-day count of 538, with 60 in the first grade, 107 in second, 84 in the third, 98 in the fourth, 102 in fifth and 87 in the sixth.

At South Side, an enrollment of 443 was reported. Here 74 students are in the first grade, 93 in the second and the same number in the third, 92 in the fourth and 91 in the fifth.

The first day brought, as usual, the milling and thronging of students and parents as they sought their rooms.

School heads and teachers strived to establish and maintain a semblance of order, and succeeded as classes began.

For many, however, school began a week or more ago. This group included the high school football team, the B team, the high school band, the junior high band, and the junior high football team.

Merchants, too, felt the opening of school. At Famous Department Store, jeans were selling rapidly, and Triple D Discount Store reported the biggest day Saturday since their opening last fall.

At M&N Variety, it was just like Christmas as students and parents shopped for school supplies.

## Building Permits Reach \$302,000

Building permits issued in Burkburnett since the first of the year have totalled \$302,536.

The permits range from \$100 for repairs, to \$60,000 for construction of the Catholic Church.

### PLANS AND REALITY

"There will, of course, be a certain number of relief cases where work will not furnish that answer, but it is my thought that in these cases all of the relief expenditures should once more be borne by the states and localities as they used to be."

No, that is not Governor Reagan speaking. Nor were those lines penned by Berry Goldwater. The quotation is from a letter that Franklin D. Roosevelt wrote to Colonel Edward M. House on November 27, 1934.

The lessons of history, he continued, "confirmed by the evidence immediately before me, show conclusively that continued dependence upon relief induces a moral and spiritual disintegration fundamentally destructive to the national fibre."

Still later, in a message to Congress in 1935, President Roosevelt declared: "The Federal Government must and shall quit this business of relief . . . To dole out relief in this way is to administer a narcotic, a subtle destroyer of the human spirit."

Congress passed the Social Security Act on August 14, 1935. The original act levied, "in addition to other taxes," an "income tax" of one percent for each of three years beginning in 1937 on the first \$3,000 of the employee's income. The tax rate was increased one-half of one percent each three years, and was fixed at three percent after 1948. Equal amounts for each employee, designated "an excise tax," were required to be paid by the employer. "The taxes imposed by this title shall be collected by the Bureau of Internal Revenue . . . and shall be paid into the Treasury of the United States as internal revenue collections."

Those were the provisions of the original act, Section 1104 provided: "The right to alter, amend, or repeal any provision of this Act is hereby reserved to the Congress." Many amendments and alternatives have been made, seemingly in election years, and principally in the direction of increasing the number of "covered employees," and increasing payments in not-too-successful efforts to keep pace with inflation.

Presently, the tax rate for both employer and employee is 4.4 percent on the first \$7800 of pay—schedules to increase to 5.9 percent for 1987 and after.

Such is the law, and a brief record of its growth.

It hasn't abolished the relief roles. They are still growing. And FDR was probably right about the evils that ensue.

### Tempt Those Jaded Appetites with Peter Pancream

When temperatures soar, rather than eat sensibly we tend to turn our noses up at the things we should be eating and feast instead on cool, refreshing desserts. Here is a solution to the problem in dessert form—Peter Pancream. Instant vanilla pudding mix is blended with milk and scrumptious crunchy peanut butter, and then whipped cream is folded in. Spoon it into your prettiest glasses and top off with more cream. Why does this dessert solve summer eating problems? Because of the economical nutrition packed in peanut butter as well as the milk and cream. For a change of flavor you might like to try chocolate or butterscotch flavored pudding mixes. Whatever you do, don't forget the best ingredient of all—everyone's favorite, peanut butter!

### PETER PANCREAM (Makes 6 servings)

1/2 cup Peter Pan Crunchy Peanut Butter  
 2 cups milk  
 1 package (3 1/4 ounces) instant vanilla pudding mix  
 1 cup (1/2 pint) heavy cream

Combine peanut butter, milk and pudding mix in bowl. Beat as directed on package. Whip cream until soft peaks form; fold half into the pudding. Turn into 6 individual dessert dishes and chill thoroughly. Garnish with remaining whipped cream.  
 Variations: Use chocolate or butterscotch instant pudding and amount of milk indicated on package. Or swirl all the whipped cream through the pudding.

### NOTICE

ORDINANCE NO. 290  
 AN ORDINANCE TO PROVIDE CERTAIN STANDARDS OF TRAFFIC VISIBILITY AND PROVIDE FOR THE REMOVAL OF OBSTRUCTIONS ON PUBLIC AND PRIVATE PROPERTY, AND DECLARING AN EMERGENCY.  
 BE IT ORDAINED BY THE BOARD OF COMMISSIONERS OF THE CITY OF BURKBURNETT:

SECTION 1: Any person owning, occupying or controlling any lot or other land within the corporate limits of the city, upon which there is planted or growing any tree, hedge, bush or vine; or owning, occupying or controlling any lot or other land abutting upon any street within the corporate limit of the city upon which land there is planted or growing any tree, hedge, bush or vine, shall prune or trim the branches or limbs of any such tree, hedge, bush or vine so that any of same projecting over any street, alley, sidewalk or public passageway shall be not less than seven (7) feet above the surface of such street, alley, sidewalk or public passageway.

SECTION 2: On any corner lot or parkway adjacent thereto, a fence, wall, structure, sign, hedge, tree or obstruction of any nature erected, planted or maintained so as to interfere with sight lines at elevations between two (2) feet and eight (8) feet above the top of the adjacent roadway curb, or if there be no curb then from the overage street grade, within a triangular area formed by the intersection of the adjacent curb lines, or if none exists, the normal curb lines and a point on each curb line forty-five (45) feet from the intersection, shall be prima facie evidence that such fence, wall, structure, sign, hedge, tree or obstruction of any nature constitutes an obstruction to vision as regards public traffic on the streets.

The triangular area of visibility as provided for herein is further described and depicted by the drawing at the end of this paragraph. Any such fence, wall, structure, sign, hedge, tree or obstruction of any nature erected, planted or maintained in violation of this ordinance shall be removed upon written notice from the City Manager, served upon the owner, agent or occupant of the premises where such obstruction has been erected, planted or maintained. In the event the obstruction is not removed with ten (10) days after notice, it may be removed by the City at the expense of the property owner. The owner, agent or occupant shall be subject to a fine of not more than Two Hundred (\$200.00) Dollars and each day that such owner, agent or occupant suffers eth obstruction to remain shall be deemed a separate offense. Any building or structure built in conformance with the building codes or requirements of the City of Burkburnett which fall within this triangular area shall be exempt from the provisions of this paragraph.

SECTION 3: The fact that there is presently no adequate provisions to regulate the erection, planting or maintaining of sight obstructions, creates an urgency and an emergency in the immediate preservation of the public peace, health, safety, comfort and general welfare, and requires that this Ordinance shall take effect immediately from and after its passage and publication.

PASSED AND APPROVED this the 26 day of August, 1968.  
 AL LOHOEFNER, Mayor

### FACT AND OPINION

#### TOPIC: Getting Divorced Without Tax Problems

Every year there are a number of Texas couples who decide to "split the blanket." Divorce is enough misfortune, without getting into tax problems in the process. Under Texas community property laws, the earnings of both spouses up to the date of divorce is community income. When the couple files their income tax return for the year, each spouse has to have the total earnings up to the date of divorce, the total withholding tax and the total itemized deductions or tax credits, since by law each is required to file an income tax return on their one-half share. They must also declare their separate income, credits and deductions for the rest of the year after the date of divorce. It works out much better to settle the entire matter at the time of the divorce. In any case, don't be one of the several thousand Texans that will get involved in an income tax audit of your income tax return for the year of your divorce.

### Star's Smiles Are Serious Business

What goes on behind a star's smile? To find out, the makers of Ultra Brite toothpaste surveyed four young leading men from the West Coast.

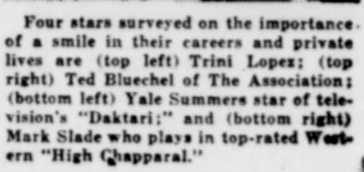

Trini Lopez, a graduate of Dallas' "Little Mexico" slums loves to sing. "Singing brings out my smile," he confides. While happy in his work, Trini admits his smile has never been able to win an argument for him — at work or anywhere else. Nor has it effectively driven his point home during a serious discussion. He is satisfied with his own smile, but doesn't agree that a person's mouth gives away personality secrets. "I have thin hard lips, but a generous personality," he says.

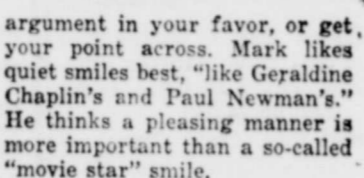

Like Trini, Ted Bluechel of The Association thinks a great smile gives both men and women sex appeal. In the romance department, he believes bright teeth and a fresh breath are essential. "After all," says Ted, "that's where it all begins!" He lists the mysterious Mona Lisa smile as his own favorite type.

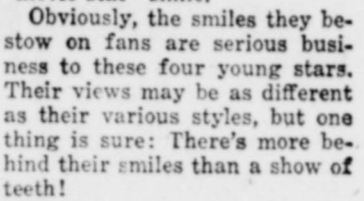

Yale Summers of "Daktari," has a keen humor to match his good looks. He thinks used car salesmen have the world's greatest smiles! Asked if he finds young people sometimes self-conscious about their smiles, Yale answered: "Definitely. It's quite common for young people to build up a personality block over an unattractive mouth or smile."

Dentists and psychologists confirm Yale's statement and point out that young people with good teeth and a great smile tend to be better mixers and more socially outgoing.

Mark Slade's intense role in "High Chapparel" doesn't require a lot of smiling. He believes, however, that an appropriately-timed smile can turn an

Four stars surveyed on the importance of a smile in their careers and private lives are (top left) Trini Lopez; (top right) Ted Bluechel of The Association; (bottom left) Yale Summers star of television's "Daktari"; and (bottom right) Mark Slade who plays in top-rated Western "High Chapparel."

argument in your favor, or get your point across. Mark likes quiet smiles best, "like Geraldine Chaplin's and Paul Newman's." He thinks a pleasing manner is more important than a so-called "movie star" smile.

Obviously, the smiles they bestow on fans are serious business to these four young stars. Their views may be as different as their various styles, but one thing is sure: There's more behind their smiles than a show of teeth!

## Family FINANCIAL PROTECTION

Policyholder Questions Answered by the Institute of Life Insurance, 277 Park Ave., N. Y., N. Y., 10017

Q. I have read in several magazines about the need to have enough life insurance, sometimes as much as five times my own income. This sounds high to me and I'm wondering if this would be the same, whether a person is single, or married without

children. Can you help me out with some specific information?

A. The amount of life insurance a person should have may vary, but four to five times the individual's income has often been considered a useful rule of thumb. But a lot depends on your protection needs and resources. For example, proper protection has greater bearing if you are supporting others. A wife and children, or dependent parents, are a great responsibility and adequate provision for their welfare must be considered in case of death or disability. Since each person's needs differ, your insurance agent will be able to advise you on a program tailored to your needs.

Q. My uncle left me some money which I would like to invest in some way. I am looking into the possibility, but my wife insists we buy more life insurance. Now what do I do?

A. The answer really depends on how adequate your present coverage is. If you need additional coverage — and your agent can help you to judge this — the life insurance you buy can provide a guaranteed sum for you and your wife, say at retirement. Meanwhile, if anything should happen to you, your wife could reinvest the paid off insurance for her future needs.

## Burk Auction Held In 1849

Files of the Burk Star carry a very interesting and unusual article about a Public Sale, conducted in 1849. It was handed to the Star by Mr. O. S. Wilson, a former resident here. The item follows:

W. L. Dowd, Dierks, Ark. sends the Farm News a copy of a printed notice of a public sale of personal property that took place in 1849. Old timers will call to mind the days of their childhood when negroes were chattels and whiskey and brandy were articles of common use in almost every household—Here is the notice:

Having sold my farm and am leaving for Oregon Territory by oxen team, will offer on March 1, 1849, all of my personal property to-wit: All ox teams except two teams, Buck and Ben and Tom and Jerry; two milch cows, one gray mare and colt, one pair of oxen and yolk, two ox carts, one iron plow with mole board, 800 feet poplar weather boards, 1500 ten foot fence rails, one 60 gallon soap kettle, 85 sugar troughs made of white ash timber, 10 gallon maple syrup, two spinning wheels, 30 lbs. mutton tallow, one large loom made by Jerry Wilson, 200 hoop poles, 100 split hoops, 100 empty barrels, one 32 gallon barrel of Johnson-Miller whiskey 7 years old, 20 gallon apple brandy, one 40 gallon copper still, oak tan leather, one dozen reel hooks, two handle hooks, sythes and cradles, one dozen wooden pitchforks, one-half interest in tan yard, one powder horn, rifle made by Ben Miller, two gallons soft soap, hams, bacon and lard, 40 gallon sorghum-meal-sack, six head of fox hounds, all soft-mouth except one. At the same time I will sell my six negro slaves—two men 35 and 50 yrs old two boys, two mulatto wenches 40 and 30 yrs old. Will sell all together to same party as will separate them.

Terms of Sale, cash in hand, or note to draw 4 per cent interest with Bob McConnell as security.

My home is two miles South of Versailles, Ky., on McCoons Ferry pike. Sale will begin at 8 a.m. Plenty to eat and drink. —J. L. MOSS.

### HOSPITALS

HOSPITALS ARE NOT A MODERN INVENTION! THEY GO BACK OVER 4000 YEARS TO THE CIVILIZATIONS OF BABYLON AND EGYPT WHERE ANESTHESIA, ANTISEPTICS AND STERILIZATION WERE ALREADY IN USE.

BECAUSE THE KNOWLEDGE OF THE ANCIENTS WAS LOST IN HISTORY HOSPITALS SUFFERED A SEVERE DECLINE FROM 1500 TO 1850 BUT THANKS TO FLORENCE NIGHTINGALE, LISTER, PASTEUR AND KOCH A NEW ERA IN MEDICAL SERVICES BEGAN IN 1900.

TODAY HOSPITALS ARE CLEANING CENTERS OF GLASS AND STAINLESS STEEL WHERE SUCH WONDERS AS HEART AND KIDNEY TRANSPLANTS AND SUPER-COLD SURGERY BECOME REALITIES. ## KEEP IT CLEAN

by Virginia M. White

DEAR MRS. WHITE: Ruined my white dress with perfume. Stain is brown. UNHAPPY.

DEAR UNHAPPY: Try mixing 1 teaspoon sodium perborate to 1 pint peroxide and sponge the stain. Rinse with plain water (for white material only). Next time apply perfume to skin, not clothing.

DEAR MRS. WHITE: Spandex, Lycra girdles are turning yellow. Any suggestions? MRS. M. S.

DEAR MRS. M. S.: Pre-soak in hot water (160°) 1/2 hour adding 1/4 cup Super Cleaner, 1/4 cup NON-chlorine bleach, 1/4 cup liquid dishwashing detergent. Squeeze solution thru. Rinse thoroughly; roll garments in towel to remove excess water. Dry in shade outdoors or on rack indoors.

DEAR MRS. WHITE: Why are permanent press materials difficult to clean? I GIVE UP.

DEAR GIVE UP: Wear these garments once and launder within 2 days. Difficult to clean as they repel water. Pre-soak 25 min. in water (145°) adding 1/4 cup Super Cleaner, 1/2 cup to 3/4 cup NON-chlorine bleach, 1/2 cup detergent. Run thru normal cycle.

DEAR MRS. WHITE: My child's synthetic dress has red washable paint on it and I can't remove it. ADVISE.

DEAR ADVISE: Pour heavy duty liquid laundry detergent on area, rub into stain, let stand 1/2 hour to loosen. Launder in hot water, adding 1/2 cup NON-chlorine bleach, 1/4 cup Super Cleaner. Good luck.

## ARE WE INVESTING WISELY?

Every wise person provides for the future. Whether we have little or much, we like to lay aside savings for the future, preferably at interest. Since various investments are available, a wise choice is very important. Consideration must be given to the safety of the investment and the interest rate offered.

Whatever our investments may be, we are faced with the fact "You can't take it with you." As the Bible says, "We brought nothing into this world, and it is certain we can carry nothing out" (I Timothy 6:7). This is true, whether we are rich or poor. Our investments and savings are left behind.

There is, however, one important exception to this rule. The Christian can make investments that will endure beyond his own life and brighten into eternity. Jesus said, "Lay not up for yourselves treasures upon the earth... but lay up for yourselves treasures in heaven, where neither moth nor rust doth corrupt, and where thieves do not break through and steal" (Matthew 6:19, 20). Laying up spiritual treasures in heaven is accomplished by following the Lord's instructions.

First, one should become a Christian — also described in the New Testament as a member of the church, a member of the kingdom, a member of Christ's spiritual body. One becomes a Christian by submitting to the Lord's will — hearing the gospel (Romans 10:17), believing its message (Hebrews 11:6), turning from sin (2 Peter 3:9), and being baptized into Christ's spiritual body (I Corinthians 12:13) for the forgiveness of sins (Acts 22:16).

Then, as a member of the kingdom or church, the Christian is instructed as follows: "And whatsoever ye do, in word or in deed, do all in the name of the Lord Jesus" (Colossians 3:17). He is further taught to "do good... be rich in good works, ready to distribute, willing to communicate" (I Timothy 6:18). All who so dedicate themselves are promised that they are "laying up in store... a good foundation against the time to come, that they may lay hold on eternal life" (I Timothy 6:19).

With this long-range view of a completely safe investment, the Christian is less tempted to lay up temporal treasures upon this earth. "They that will be rich fall into temptation and a snare, and into many foolish and hurtful lusts, which drown men in destruction and perdition. For the love of money is the root of all kinds of evil: which some reaching after have been led astray from the faith, and have pierced themselves with many sorrows" (I Timothy 6:9, 10).

Even those who have become wealthy have found by experience that they are not satisfied. "He that loveth silver shall not be satisfied with silver; nor he that loveth abundance with increase: this is also vanity" (Ecclesiastes 5:10). Jesus said, "Beware of covetousness: for a man's life consisteth not in the abundance of the things which he possesseth" (Luke 12:15).

With the word of God as our guide, we must view money in its proper perspective. As Christians, we should not — and can not — devote our lives primarily to the making of money, but should seek first the kingdom of God (Matthew 6:33). We should joyfully receive the blessings that God gives us, use them wisely, and give generously. Our Lord said, "It is more blessed to give than to receive" (Acts 20:35).

Only the Christian has the privilege of investing in the eternal future. He is laying up treasures in heaven, because that is where he is going. Are you a Christian? God gave. His Son gave — that you might receive, and then give.

## CHURCH OF CHRIST

FIRST AND AVENUE C

It is our constant resolve to be a true church of Christ — sound in teaching, upright in character, devotional in worship, aggressive in work, sacrificial in spirit, and friendly by nature. To this end we diligently apply ourselves and pray our Father's blessings upon us in wisdom and courage.

### Unique New Cutting And Sanding Disc

Can you imagine an abrasive cutting disc that will easily cut through a hardened file when used with any electric drill? The fact is, the new abrasive cutting disc shown here will cut through practically all materials with ease. To name a few, it cuts brass, copper, ceramic tile, aluminum, sheet metal, slate and stone, fiberglass, brick, cement, stainless steel... just about any tough cutting job around the house or shop.

Not only that, the same tool makes an excellent sanding and shaping disc for use on wood, metals, tile, glass. Ideal for removing paint or rust.

This unique tool, just introduced by Coastal Abrasive, has amazing cutting ability. It's made of silicon carbide grains embedded in nylon mesh. The silicon carbide grains actually do the work without loss of

efficiency because the open weave nylon mesh prevents clogging of the grains.

This new "Zippid-Do" disc is sold in a kit including a 1/4" arbor with two steel flanges for cutting operations, a molded backup pad for sanding and shaping operations and excellent easy-to-follow instructions. The kit, which is manufactured by Coastal Abrasive and Tool Co., Trumbull, Conn., is priced at \$4.00 and is sold in hardware and tool departments.

QUESTION OF THE WEEK
DO YOU LIKE BOYS AND WHY?

SCHOOL STUDENTS ANSWER
BURKBURNETT STAR QUESTION OF THE WEEK

JANETTE SOUTHERLAND—Yes, I can't tell you why, but I guess I do.

JANICE SOUTHERLAND—Yes, I suppose I do. But they should be neat, polite and mannerly at all times.

IVA JOHNSON—Sure, they are fun at parties and such. I like them to keep their hair combed, though, and to look nice.

DONNA BANKHEAD—Yes, if they conduct themselves like gentlemen, and are careful in their appearance.

KATHY SMITH—Sure, especially when they let me play football and baseball with them. And I get to play a lot of games with them, too.

PATTY GILL—Just a little bit. Most of them are mean and cruel, except maybe my brothers.

Calendar of Events
Football and school seems to be in the limelight this week with the Burk Bulldogs traveling to Mineral Wells Friday for their first and only scrimmage before opening the season next week.
While most of us will have to wait automobile dealers are getting pre-showing peeks at the new 1969 models. While prices are due to be higher than last year, you may recover some of that increase by financing your new car at the Burk Burnett Bank. Come in and see us about it now.
And while we are talking about school, your Burk Chamber of Commerce will present an ambitious student a book on the aid available for a college education. Entitled "You Can Go To College," the booklet gives details of the National Defense Student Loan program, by which a student may borrow up to \$1,000 a year.
There is no charge for the information, and it can mean a lot to some student who is qualified for college, but hampered by finances.
The Bulldog Booster Club will meet Monday, Sept. 9, 7:30 p.m. at the Burk Burnett Bank for their first official business meeting of the season. T. M. Cornelius, president, requests that all members and those who are interested in becoming members to attend this meeting.

*Take a Second Look*

On your first look, you may think that this little girl is riding a rocking horse, but look again. It is not a rocking horse but a little donkey.

About animals now, and children. Donkeys were one of the first animals to be tamed by man, and are gentle animals when they are not practicing the quality of being stubborn.

The quality of gentleness somehow reminds us of our Saviour, the Wonderful One.

Parents, teach your children about Jesus, who admonished us to let the little children come unto Him. Our Lord would remind us that the little ones are precious to the Father. We invite you to take the children to church this week.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

## Watch Out For The Children Because It's Back To School

SPECIAL — "Watch Out for Children!" Because it's back to school for the nation's 51 million elementary and high school students.

Among the 9 to 19 year olds are more than half a million 4-H boys and girls who have a special interest in safety. They carry on safety projects to prove it.

These safety-minded youngsters work hard for school and community safety, and for home and personal safety as well. Their projects include campaigns to find and correct hazards that may cause injuries to pedestrians and motorists alike. Hazard hunts turn up articles left lying around the grounds and in parks.

Through their efforts to publicize and dramatize safety, the 4-H'ers create posters, exhibits, appear on radio and television, and cooperate with local authorities. Older teens serve as junior safety club leaders and help young members with their projects.

Observing safety and abiding by safety rules in sports and play are high on the list.

Encouragement and recognition for safety efforts come from the Cooperative Extension Service, which supervises the national 4-H Safety program, and from the sponsor, General Motors.

By October 15, youths from 50 states will be named 1968 state award winners and delegates to the National 4-H Congress in Chicago, December 1-5. More than 4,000 will earn the county safety medal. The top 10 clubs in the state will receive safety certificates.

The big national prize is a \$1,000 educational scholarship, which will be awarded to eight of the state 4-H winners who have compiled the most exceptional records of safety projects conducted over a period of years.

To be eligible for either a state or national safety award, the boy or girl must be over 14 years old.

## Junior High Band Planning New Successful Season

The Burk Junior High School Band, with three gleaming new trophies in their case are setting their sights for another successful season under the direction of Charles Gregory.

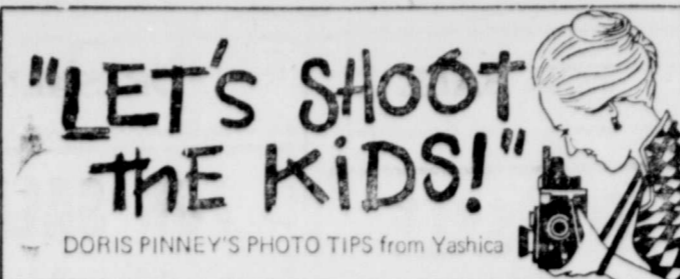

Last season the band brought home a Division II trophy for best in class from the L. D. Bell Marching Festival.

They captured a superior rating in the UIL Marching Contest, Division I, and at the Castleberry Music Festival, another superior rating in concert, Division I, and sight reading, Division I.

At the spring concert and sight reading contest at Vernon, they received another superior rating, with Division I in concert and sight reading.

Another feather in their caps was the Sweepstakes trophy in the UIL competition.

The band has been working out, playing and marching for the past week or so.

DORIS PINNEY'S PHOTO TIPS from Yashica

Beach pictures of your youngster are fun to take, and can be most impressive, if you follow a few simple rules. I usually bring along something for the child to play with—a bucket, a shovel or beach ball. You will find that the things a child does naturally will make a good picture. No need to "pose" him. Take your pictures when the lighting is not directly overhead. Most common fault of beach photography is wrong exposure, so check your film speed. Using my Yashica twin lens with its built-in light meter, I step in close to take a reading of the child's flesh tones, rather than an overall reading of the scene. This is especially important on the beach (when sky and sand give intense light reflection). So make sure you go in close for your light meter reading. Remember that film is inexpensive, and you will be getting pictures you will treasure in the years to come, to shoot a generous sequence of pictures of your youngster playing. That's how professionals get those eye stopping shots. Make sure to treat your camera gently at the beach. A plastic bag will help keep the sand out, and a shaded place will protect it against the heat when not in use. Extreme heat will dry out a camera's lubricated parts, and adversely affect any film you may have in the camera, while sand is disastrous to working parts. Cleaning sand out of a fine camera is not a do-it-yourself job—take it to your photo shop for professional servicing.

## COUNTY H-D AGENT NEWS

As students across the country prepare for the annual back-to-school campus trek, their mothers are fretting—about what will be needed in the way of apparel, furnishings, grooming and cleanliness aids, and such miscellany as phonographs and guitars. Installing a freshman in college has always been a formidable task. Now that the form suite, with living room and kitchenette, is becoming more common, the assignment is even more complicated. Pots and pans, soaps and detergents, brooms and dusters must be added to the load, along with new clothes and personal effects. Sending a youngster to college has some of the drama involved in helping a bride set up housekeeping.

Fortunately, some freshman purchases can be expected to last the four years given normal use. Among these are fabric furnishings and kitchenware. Clothing and cleaning and maintenance supplies will require replacement. It all adds up to a lot of shopping and students are wise to bone up on the new phases which represent the difference between extra hours in the laundry room vs. extra hours on the tennis courts. Easy-care of top importance to collegians, is practically synonymous with washability.

Durable press has done more than any other single factor to make washing easy, since it eliminates ironing. Even such furnishings as flower-power sheets and psychedelic bedspreads with matching curtains require only tumbling in a dryer to emerge crisp and fresh after laundering. Durable press is a boon to apparel items, too: a young man can wash his shirt and forget about the perversities of college laundries; a girl can study while a favorite dress spins through automatic laundry equipment at the dorm (or a near-by coin-op center) and then wear it again, sparkling clean, to the next class.

Soil release treatments offer additional help. Since durable press fabrics tend to hold oily stains, soil release treatments were developed so the cleaning power of household soap or detergent suds can penetrate and remove almost any kind of soil.

As an added benefit, durable press serves to lighten the load students must carry. Garments that are instantly wearable after laundering and sheets that can be returned to bed without ironing cut down on spares and relieve the clutter in small rooms.

Students need sheets, pillowcases, blankets, towels, washcloths, decorative pillows, bedspread with matching curtains or draperies, and a throw-rug of washing machine size. No-iron sheets, plus soil-release treatments of such vulnerable articles as spreads, make maintenance easy. Housekeeping equipment includes cooking utensils and dishes if there is a kitchenette; otherwise, perhaps an electric hotplate or a percolator and electric frypan if college regulations permit. Table and kitchen linens will also be required, but it is not necessary to tote a collection of cleaning agents; soap and detergent products, plus a plastic wastebasket to use as a bucket, can be purchased locally.

Grooming equipment may include an electric hair dryer for girls and the usual cosmetic items. If the dormitory bathroom is distant from the students room, a waterproof tote will be useful for carrying soap, washcloths, shower cap,

toothbrush, dentifrice, shaving equipment, and other cleanliness aids. A child's plastic assignment as it can be hung from a hook or parked on the floor. Big plastic bags work well, too.

Clothing should be selected for easy-care as well as style. When slacks, jackets, shirts and dresses can go through a sturdy sudsy bath and tumble-dried to wear without ironing, it seems senseless to spend valuable hours on complicated maintenance. Even luggage comes with suds-off-able finishes.

Dorms are not noted for decorative touches, so students are always on the lookout for inexpensive ways to brighten up their rooms. A new adhesive trim offers a range of possibilities. This nylon velvet ribbon, in solid or open work versions and decorator colors, sticks on any clean surface to add a design note when applied to wastebaskets, lamp shades, bulletin boards, picture frames, desk accessories, and similar items. While not literally tubable, this press-on ribbon can be lightly sponged with dry soap or detergent suds—if the basic surface is also safely suds-spongeable.

Since dorm rooms naturally become more cluttered as the year wears on, start with a minimum of extras. If a student really needs some additional item, he can buy it locally or have it sent from home. Clutter is awfully hard to keep clean, so keep it simple—in clothes and furnishings—and keep it clean will be easy.

Louise Bentley and Connie Swinord are among the Wichita County 4-H Club girls making their way to a college campus this year. They are attending East Texas State. East Texas provided an excellent outside program of orientation this year for new students and their parents. Mrs. Ralph Swinford and Mrs. J. H. Bentley attended with the girls and now know what to expect and are better prepared to help with those last minute plans.

### IS YOUR BOAT IN THE WAX?

A well placed boat is just as important as an accurate cast, and the hand on the throttle may be as responsible for subduing a trophy fish as the trembling fingers locked around the rod.

Proper boat handling, say the fishing experts at Mercury outboards, plays a vital role in fishing. Unfortunately, they add, its true significance often becomes apparent too late . . . after a good fish has been lost.

Most anglers are reasonably adept at handling their rigs while trolling and casting. And hooking and netting ordinary size fish present no special problems.

However, things change quickly when the once-in-a-lifetime lunker comes along. Everyone focuses attention on the battle, and tends to forget that the boat can be a big aid to a happy outcome.

Some guides run their motors during the entire battle to help the fisherman hold the fish out in unobstructed water and to turn with the fish. When the fish shows signs of tiring and resistance slackens, the guide backs off steadily so that continual pressure can be exerted without letting the fish get a second wind up near the hull.

Large fish such as pike, salmon, trout and muskies have a peculiar affection for boat bottoms—particularly when about to be landed. They may slide docilely alongside, appearing completely whipped. Then, splash . . . down and under.

Unless the angler plunges his rod deep into the water and the helmsman swings the boat quickly, say the Mercury lads, something's going to get snagged and the escape made good.

Since you can't keep a big fish away from the boat, keep the boat away from the fish until he's definitely beaten.

## LIBRARY CORNER

BOOKS NEWLY ARRIVED—the following had been requested and are now in circulation: Dumas' COUNT OF MONTE CRISTO, THREE MUSKETEERS MAN IN THE IRON MASK; Dorothy Jenkins' FORTUNE IN THE JUNK PILE; 10TH ANNUAL THE YEAR'S BEST IN SF.

NEW NEW BOOKS — ALWAYS ANOTHER ADVENTURE by Robert F. Marx is another true-life adventure on the order of Hallett's CONGO KITABU—It doesn't seem possible that one man could live through so many hair-raising

experiences — in this instance diving for underwater treasure in the Caribbean, sailing across the Atlantic the way Columbus did. Also we have two books on INSTALLATION SERVICES, 1 by McCandless and the other by Ely. They are both designed to be used by religious, educational, social and civic organizations for the installation of officers, and the REPORT OF THE NATIONAL ADVISORY COMMISSION ON CIVIL DISORDERS.

In fiction we have THE RAGGED EDGE by John Christopher, kind of suspense; DANDO SHAFT by Calhoun. More suspense in Ebernard Brunner's THE FACE OF NIGHT and Martin Caidin's THE GOD MACHINE, a novel about an electronic brain that decides to take over the world.

SCOUTS VISIT KTRN

Recently four scouts from troop 154 went to Wichita Falls to visit KTRN radio station. The four scouts were Steve Bryant, Doug Huffman, Rickie Pike, Lester Eddins, and the assistant scoutmaster Smokey Barnes. The purpose of the visit was to work on the Gold Quill Award.

The gold quill award is an award given to scouts who have completed certain requirements in the communication field. Also the scouts must show an understanding of the importance of communication in the world.

Family FINANCIAL PROTECTION

Policyholder Questions Answered by the Health Insurance Institute, 277 Park Ave., N. Y., N. Y., 10017

Q. I was hurt in an automobile accident one year ago and have been receiving disability income checks for the past nine months. This has been most helpful since my wife is unable to work because of the baby. The policy will pay me for a period of two years, according to the way I understand it, but if I am still unable to work after this time is there any way in which I can extend these payments or take out another policy that would cover me?

A. There is no way you can extend your present coverage to cover this particular disability. When you are well again, you may want to see about revising your program to get a longer disability benefit period. A more immediate answer to your current needs, and one you are perhaps not aware of, is the disability provision under Social Security.

If your disability is expected to last 12 months, as yours has, and you have been "fully insured" under the Social Security program for five out of the past 10 years of employment before you were disabled, you are entitled to disability benefits after six months under Social Security. This may provide some help in meeting your need to maintain the family standard of living. For the exact amount of these benefits in your particular case, check with your local Social Security office.
