#### PIRATES SUNK BY RAY TEXANS

Ray "B" of Corpus Christi defeated the Pirates on their home field last Friday night in excellent football weather by the! score of 25-7.

The first quarter neither team hit pay dirt but the Pirates made some very nice runs. The second quarter the Texans chalked up seven points with a touchdown pass from Charles Young to John Breadcone for 16 yards. The first half ended with Ray "B" making the only touchdown to give the Texans a seven point lead.

# ARANSAS COUNTY COURT HOUSE BOND ISSUE

The Need

Some of the chief reasons for a new Courthouse are due to the increased activity in Aransas County through oil and real estate. Your County and District Clerk's Office does not have sufficient room for storage of records or even space to accommodate abstractors. There is also a need within the County and District Clerk's Office for a comparing room, away from office noises, where all records can be read back and thoroughly checked. Some of the compulsory needs your present Courthouse and Jail does not have, are quarters for juveniles, cells for the insane, and accommodations for men and women who serve as jurors. These facilities now creat an emergency for something to be done immediately and have been included in the perspective courthouse and jail plans. Through the changes of time our present sixty-four year old Courthouse is very much out of date and does not have the conveniences, ample room, storage space or other means to comply with the present days fast growing County.

#### The Cost

Through careful planning and architectural design this modern Courthouse and Jail structure can be built for the approximate cost of \$272,000 and not more than \$282,000. This is complete with air-conditioning.

The Site

Through careful study the site for your perspective Courthouse and Jail has been chosen, taking into consideration cost, parking, problems, suitably protected from high winds and storm floods, keeping in mind the 1919 storm, and a place suitably located to accommodate Aransas County citizens, as well as transient business. Block 121 Doughty and Mathis Division, a portion of R. R. Reserve, at the intersection of Highways 881 and 35, west of Highway 35 and North of Highway 881, has been chosen for a Courthouse and Jail site. This particular site was recommended by Dick Picton, Seth Steele, Emor ySpencer and Jas Sorenson, Jr., a committee appointed by the Commissioners' Court, being the same people from the Chamber of Commerce who petitioned the Commissioners' Court for a new Courthouse and Jail. An alternate site has been given to the Commissioners" Court for consideration in Block 7, Doughty and Mathis Division, down town in Rockport. But after due consideration and checking of cost it was found financially out of proportion and would call for an additional \$55,000 to be added to the Bond Issue. It would also require three years extension to the Bond Issue which would constitute \$20,000 more in interest, making that site cost the taxpayer \$75,000 for site alone. The site that has been chosen will cost approximately \$6,000 and can be acquired without any difficulty and will not require any additional money over and above the \$300,000 issue for its purchase.

BOND
ISSUE
Saturday,
Oct. 17

As stated before there absolutely will not be an increase in taxes. A 25c levy has been allocated for Permanent Improvement, that is taken from your 80c operating tax. On the present valuation of \$14,862,351, of this amount \$11,334,590 is paid by oil companies, the remaining portion of \$3,527,761 is real estate and approximately 75% of this real estate is owned by people who do not live in Aransas County. This would mean that the taxpaying voter of Aransas County would not be paying more than 10% of the total amount of this Bond Issue. Our oil companies operating in Aransas County have expressed themselves as being very favorable for the Bond Issue and their willingness to cooperate in the future. It has been estimated by oil evaluation experts that the oil valuation in Aransas County in the next five years will be in the neighborhood of sixteen to seventeen million dollars. This bond issue will be for ten years, with a five year call. In other words with increased valuation from oil it is very possible that this \$300,000 plus interest can be paid for in five years. Is a county tax rate of \$1.00 per \$100 valuation oppressive? Your tax valuation is based on 16 2/3 to 20% of the actual market value. It would be good business to have a suitable Courthouse under this valuation, being paid for from sources that are willing to supply this money from our natural resources, keeping in mind that the county tax rate per one hundred dollars valuation is only \$1.00.

you know we had a real artist in town? Yes sir! Handy Jackson was a contributor to the Sculpture Exhibition at the Centerville Fair last week.

His work was streaky pink and curved all around-sort of streamlined. Caused quite a stir. Nobody was sure what it was supposed to represent, but some liked it and thought it was good art. Handy gave me the lowdown:

"Why, it was nothing but a piece of cattle salt our cows have been lickin' at for months. I just had it mounted. Fooled a

lot of folks - one fellow even wanted to buy it!"

From where I sit, Handy's "modern art" just shows how some people can be led astray. Some even get to be "experts"especially about the other fellow's business. Whether it's art or music, or a simple thing like choosing, say, beer or milk with a snack, we should live and let live. There's no call for either of us to set ourselves up as a "model" for the other!

Mrs. Floy Rooke entertained the Business Womens Circle, of the W.M.U. of the first Baptist Church at her home Thursday night, with eight members and two guests, Mrs. Otto Keys and Mrs. Vera Teadway, present.

The circle had a missionary lesson, which was taught by Mrs. Albert Lee Ballou, missionary study chairman.

The Circle made plans for the Hallowe'en parties which they will sponsor for the Y.W.A.

#### Meteorologist Discusses Hurricanes in This Area

-Corpus Christi, Tex. - Worried about hurricanes these days?

Then relax and listen to the words of a man who's an expert on the subject.

He's E. R. Etier, meteorologist for the U.S. Weather Bureau in Corpus Christi.

Says Mr. Etier:

Mr. Etier points out a fact that he believes is often overlooked: Most hurricanes never reach land

"The majority fizzle out over the Atlantic and the eastern edge of the Gulf," he says.

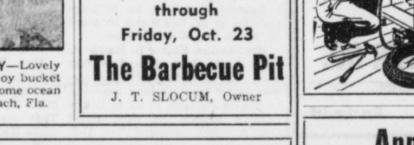

"Those, in general, are the ones that whip up during the early and late stages of the so-called hurricane season.'

While there is no established path for hurricanes, those that sweep further westward - Mr. Etier explains - usually race along until they sense the nearness of land through diminishing moisture.

Then, he adds, they generally spin away in a northerly or northeasterly direction until they lose
